Further reason for hope is given by the strike of some three hundred Mexicans and seven hundred Japan one employed—or, rather, enslaved—in the beet-sugar industry at Oxnard, who are making a brave and sturdy fight against the extreme conditions of overwork and underpay and eternal indebtedness to the contractor.

Internationalism is the word for the workers. So long as we allow ourselves to be divided by national er racial prejudice, so long the workers of each race can be played off against those of another, to the detriment of both and the great profit of the boss. As we learn to understand and trust and be loyal to our fellow tollers what-ever their language or religion, we multiply our strength and begin to de

eight-page number th celebration of May Day. Articles by well known Socistist writers, brief reviews of the progress of the movement in different parts of the country, and other features will make it an especially good number for seperal distribution. Needless to say, it will be devoted wholly to propaganda, with no diinternal party questions, . Although souble the usual size the price will be the same as for a regular issue.

THE COAL-STRIKE DECISION.

The tone of the labor press to com Quenting upon the decision of the coalstrike arbitrators is most significant. Two or three years ago, such a decioffin would have been heraided as a great victory for Labor, not only by those who had an interest in so inter preting it, but sincerely by the great body of workingmen who had not yet begun to conceive the possibility of

their emancipation from wage-slavery.

To-day it is different: Leery effort was made to prepare a demonstration of rejoicing over the decision, but the demonstration did not come. President Mitchell and the other efficers of the United Mine Workers have, indeed, said that they regarded the decision as a victory, and their words have been echoed in many quarters. But the declaration has been cold, unimpressive, purely perfunctory. On the other hand, many labor papers have clearly pointed out how fallacious is the claim of victory, calmly facing the fact that arbitration is no solution of the labor question, and urging the necessity of aggressive action.

It should not, indeed, require a very shrewd man to see that the mine workers have got nothing by the arbitration that they had not actually won by the strike and that they have lost not a little that they might have saved.

The increase in their pay is no more than that granted since November to the workers of many other trades without the services of distinguished arbitrators. As has often been pointed out such an apparent gain is most deceptive. The necessities of life are in the hands of the organized capitalists. They advance the prices of commodities and the cost of the workers' living always faster than the wages of labor cost of living has been increased in the last six years at least twice as much as money wages have been vance for the miners. At the same time the intensity and the productive power of labor is being steadily in ed by the introduction of now methods and by the pressure of com-

petition among the workers. reduction of hours for men impleyed by the day, and the railing in regard by the day, and the railing in reports
to child labor might be counted as meof The Worker in the next six months.

terial points gained by the mine work.

Will you halp us?

ers, if there were the slightest assurance that they would be observed. There is no such assurance. The

mine workers are pledged not to attempt to force the unionizing of the nines. The owners are to "run their own business." Their promise that they will not discriminate against union men is worth as much as their statements that they have not so dis criminated in the past-and no more. So long as the union enunot insist on the employment of union men exciusively and so long as there are unem ployed men whose competition for permission to work threatens those who are employed, the employers have it in their power to violate their promises when they see fit and to punish those who protest. The decision expressly guarantees the employers the right of exercising "reasonable discipline," with none but themselves to judge of its reasonableness, and expressly denice any such right to the workers.

The decision is not worse than was to be expected. Perhaps it is not so bad as might have been expected. The great strike is still remembered, the support it had from the workers of all trades, and, along with it, the immense increase of the Socialist vote is borne n mind. These things have taught ome of the capitalists a little caution. And that is, indeed, the kernel of the whole matter. The "operators" sub nitted to arbitration of any sort only ecause, they were impressed by the strike and by the spirit whose expres sion at the polis they already foresaw with slarm. They have not learned to love their employees nor to love justice. They will not learn any such lesson. The lesson they must be taught is to fear the working class And it will be taught.

THE REPRESENDED ON PEAD

QUARTESS. The question of location of headquarters and composition of the Quorum of the National Committee is now before the party for general vote. It is to be recretted that the dual and alternative form in which it is submitted is not as clear as it might be made, the National Committee not having been able to agree in the very simple matter of fairly and concisely formulating the propositions. In order, therefore, to assist in ensuring a full and intelligent vote. The Worker reprints the questions with a 4sw remarks, and will continue to do so until the vote is completed.

Beferendum No. I (moved by Locals Toledo, Akron, Findley, Fremont, Massilion, Springfield, and Branch 1 of Cleveland, O.; Lynn, Lawrence Natick, Malden, Choisea, Salem, Worrester, Haverbill, and Everett, Mass.; Portland, Mo.; Rochester and New York, N. Y.: Bevier and Poplar Bluff, Mo.; Indianapolis, Marion, and Terre Haute, Ind.; Minneapolls, Minn.; and Arlington and North Yakima, Wash.)

"First-That the beadquarters of the

party be removed to Chicago.
"Second—That the Local Quorum until the next national convention be-composed of the mambers of the Naional Committee from the states of Illinois, Wisconsin, Indiana, Iowa and

Kentucky. "Third-That all acts of the National Committee at its last aunual session in conflict with the above provisions be

Referendum No. 2 (moved by Local Omalia, South Omaha, Grand Island, and Plattsmouth, Neb.; Kansas City and Pleasant Hill, Mo.; Franklin Heights, Kan.; and Sloux City, Ia.) embodies the following questions:

"First-Shall the action of the National Committee in removing the Lo cal Quorum be approved?

ond-Shall the old Local Oucrum be re-instated if vote stands against. "Third—Shall the action of the Na- family civilization, and so we s

ulttee in re tional Headquarters to Omaha, Neb., be approved? "Fourth-Shall the national head-

quarters be returned to St. Louis if vote stands against approval of removal to Omaha, Neb. ?

Every party member in good standing on April I has a right to vote and should exercise it.

The vote closes on May I. It is the duty of the officers of each local, an receiving blanks for the referendum, to see that the matter is submitted at the next regular-meeting or at a special meeting called for the purpose if necessary, that members are notified and have a chance to give their votes, and that the result is properly recorded, attested, and returned before May 1 to the National Secretary. It will not do to report that "the local votes unanimously se-and-so." The number of votes for and against each proposition

must be clearly stated. These who wish to locate the headquarters at Chicago, with Lilinois, Wis omsin, Indians, Iowa, and Kentucky at the basis of the Querum will vote the first clause of No. 2, and "No" on the other three clauses of No. 2. This is the proposition which The Worker has advocated throughout.

Those who wish to locate the headquerters at Omaka, with South Dukeen, Nebraska, Iswa, Kansas, and Missouri as the basis of the Qu will vote "Yee" on the first and third chance of Believedon No. 2 and "Ne"

THE VOICE OF ONE CRYING IN THE WILDERNESS.

By Poter E. Burrowes.

The working people of the world are] waiting to be pushed over, for neither not able to keep the capitalists in such profit-making employment as will suit capitalism all the time; therefore the majurity of the world's people must go without work and their share, or any decent share, of the affluence and culdecant share, of the affluence and cul-ture-of the century. They must, from year to year, he made the beneficiaries of monater charity donations out of the firster reserves of those who have gone-between them and the social or-gantism, who own the means of com-nion; work and enjoy by law the girly lege of keeping people out of em-ployment, who can make more for themselves by permitting mankind only partly to use itself and therefore make lide machinery, tille operatives, unused and unbuyable commodities, unused and unbuyable commodities doverty, rags and degradation, to be the enforced conditions of the world, to maintain the private ownership of pubhinery, until panies, strikes, ignorance, anger and revolt threaten the very existence of civilization itself. "The progress of mankind," says the

private owner, "must now stand still. Science must be arrested." Indeed, science should be arrested for under the private régime men are neither fit nor able to know more of her, having proved so abundantly unit in wield that they know. Any new light of now given can only light up the pathway of more destruction for the common people's life. Any new powers of production now developed can only choke up the already surpluslittered markets of the world. Nature's great volume must be scaled up for a season, the race must go asleep, or go to hospital until the private capitalist is forced to let go his grip of the pub tic employment and grows a con munity conscience.

We all have been at a loss to know why social science should so long have continued to be the will-o-thewisp of sciences, why its teachers con-tinue in the world to this day contradicting each other. It seems to that the cause of this international farce between the scholars is not far to seek. Borial science must be the science of society as a great unit, and scholars, therefore, who set out with the resolution of accentuating the private life and interest above the pub lic and with the object of accomplish ing what they deem to be the goal of civilization, the high excellence and dignity of the individual life first; can never have, nor teach a social science. This science wanes as the private life sacends before the philosopher's eyes in importance; and as the private life is let go, this science rises. The one hand of a scholar cannot hold these two handfule of nuts at present stover we are to make of the private life later on, we must now b content to drop it, until we accertain, first what constitutes its inclusive science—the science of the public life. Theoletic Socialism is this attempt. We are not anti-individualists, we are impressed philosophers only pro tem, until the discovery of a true public built for the true personal life. The "word Socialism, is just that, no more. We have no government on this earth now to set up against yours. We have no establishment. We are at present but "the Voice of One crying in the wilderness for an armistice on the side wilderness for an armistice on the side of the individual life that the public life may reason together with it on the science of sociology. While the individual comes to this task with the gun of ego in one hand, the pistor of ego in the other, and the sword of ego be tween the teeth, how can he know! How shall this property ego of mine acquire the judicial mind necessary for a science which must at least externalise me to my own mind while I am pursuing the study, and make of me but one among millions of equal units in a general study? How can I shelve my ego long enough to make a social scientist of me? That is the question. Not that I desire or believe that ego will be shelved utimately as the result of Socialist studies. On the contrary, I believe that ego will be greatly excited by Socialism. But age is a miner; this is a family council; we are met to discuss the interests of the whole, including ego's share of the

willing to go. The difficulty in the way of social science is of much the same nature as that which lies in the way of the old-fashioned revivalist. "It is not God, they cry, "who is unable to save you; it is you who are standing in his way." Other sciences find only dead and disposable matter in their way of satisfying and convincing the mind; this science finds the sin of human property egaism entremehad behind the very eyes that are called upon by the Socialist philosopher to see. How much, therefore, in its difficulties of advance, is accialism like to religion How much like the revivalist in the fibre of his heart and brain should the Socialist agitator be?

be a fit member of the family, must be

The economic business of a true so-ciety in the humanization of force for its individual lives, to initiate, to direct and to use it on matter for them. The economic relation between society and each person is that of a plus, or greater than em's will product on power. Whatever taken or thing em-bedies or certifies that plus to a peron, so being now attainable, is money If society does not mean to every men within its borders a plus per-sonal, making him also a potential unit to exchange something with so-cisty, if it does not stand for more also then he could possibly under the most ferrossible conditions do for himself: favorable conditions do for himself then society is to that man a third and then society is to that man a third and a robber, except where, by some crims of his own, he has made it adparent that his power to help himself was a power dangerous to the life and dignity of ordises. It is not the workers of the world alone whose power of self-help his passed out since our concease production became machinised; for every individual in the community has been best as self-helpers. Even those who retain, in the form of ziches, the wherewithelt are evidently only flourishing on the edge of a precipion.

COLLECTIVE CONSCIOUSNESS.

The Philosophy of Association-Different Forms of Collective Consciousness-Class-Consciousness Its Only Vital Form To-Day, Patriotism Boing Anti-Social and Complete Social Consolousness Impossible—The Social Source of Morals.

BY COURTENAY LEMON.

Wherever, and in whatever way, solidarity is mighty and will prevail. But no widening of the sphere of cound tegether by common kinerests solidarity and collective consciousness neu are drawn into association and tound tegether by common interests and co-operate for common ends they come under the influence of ideals riginating in the interests of the roup, become subject to moral laws ive body of which they are members and develop a collective consciousness en consciousness of their interests be ing bound up with the interests of the collective fody to which they belong and of their obligations and duties to it; duties which are fulfilled because the interests of the individual and of the group usually coincide and because the group will punish the individual which is harmful to it and because these two circumstances create a conscience, a sense of duty, by which the individual is irresistibly impelled to act for the interests of the group even at a personal sacrifice, and in the satisfaction of which he finds pleasure.

One individual may be allied with a number of different groups such as a family, a club, a fraternal society, or other voluntary associa political party, a church, a particu-lar race, and a social class; his thoughts and ideals will be moulded to some extent by the interests of these groups and he will have a certain degree of comecommens of com-mon interest with, and consequent duty to, each group. The strength of the collective cornelousness developed in each group will be determined by the size and vitality of the group. There are thus within society innumerab minor social groups, each with its own little social consciousness and its own sthical code, always based, however, on the great universal moral principle of loyalty to the group. Even a friendship between two individuals constitutes a little society within society, a little eddy in the vast ocean of social being which has, within and for itself, to some extent, all the qualities of the social organism. It is bese there are such a multitude of althor social groups or collectivities that I denominate the group feeling collective consciousness. This general firm can be used to cover all the manifold manifestations of group feeling. The term "social consciousness" should The term "social consciousness" should be reserved for that last and greatest form our collective consciousness in which individual feeling is determined by the interests of the entire social body, the whole of humanity.

As the economic basis of society has

nged different forms of colle emeriousness have presioninated, and those group feelings which were most directly determined by economic conditions and in accord with the most vital social meds have prevailed ever all serior social groupings.

With primitive man social divisions,

group allegiance, collective conscious-arss, were based upon kinship. The solidarity and social consciousness of the gens or tribe was based upon descent from common accestors.

This primitive kin-consciousness was broken down by the growth of private property and the consequent rise of the state or nation based upon territory and property, which made conscious ess of nationality, or patriotism, the ominant form of the collective con-

The appeal to patriotism is still made by the supporters of the existing social system of capitalism, but patriotism is passing. National divisions are giving away to class divisions. The international investments of the capitalists, the progress of intercommunication, and the growing intensity of the struggle between the two classes, are obliterating national divisions and making the conflict between the inter-national labor movement and the in-ternational capitalist class the paranount and international issue of the areaent time. The rapidly developing public life. To reconcile these is the science of society.

Every day's life in a city will give you, in plain view, the hidsons counter facts that stand in the way of civilization. When these are all well-renned swifts them wall this is life. human progress and social evolution ant now that capitalism has performed its function of organizing industry and fulfilled its mission of bringing the ends of the earth together and intertwining the interests of all nations by commerce and the intercourse and in-terminging which follows in its wake, enitalism stands in the way of ether social advance and the patriot iam which supports the capitalist owned nations in their work of infamy and hate is anti-social, and therefore

perpetuation of profibenching pass At one time patriotism held men to rether while there was no sufficient basis for a greater union than that founded upon residence in a certain territory and citizenship in a certain state. The lines that divided and united men were then geographico-economic, but the vital division beeconomic, but the vital division be-tween men now is the world-wide and ever more pronounced division into economic chance. The class division has existed ever since man energed from burbarium, but only after capitalm had practically obliturated nans could the division into a ruling class and a working class be come clearly visible and fully assert itself. Now that this point in social evolution has been reaches, patriogian can no longer be said to hold men toether, since a wider solidarity upon the basis of class has become possible and necessary but is delayed by patri-orism which keeps the working classes of different lands apart and antago-

Whatever brings men nearer to unf-result brotherhood by increasing the sircle of common material interest and sollective consciousness must conques collective consciousness must conquer by very reason of the power which in-

can come unless it is an outgrowth of economic conditions and based upon economic conditions and based upon actual common interests. It is for this reason that, so long as the present economic system exists, an appeal to "universal brotherhood" or "the consciousness" is so futile and fusing as to be actually harmful and anti-social. The present system of private ownership divides society into two change—those who draw profit from their ownership of the means of producing wealth and those who sell their impor-power to the owners of capital—the profit-drawing capitalist class and the wage-working prole tariat. The interests of these two classes are so antagonistic as to be ab-solutely irreconcilable and there is ronsequently a constant class struggle between them. This struggle between the capitalist class and the working class is inherent in the present social system; it is an irrepressible confict which must be fought out to its in evitable end in the uitimate and complete victory of the world's work-So long as there are classes ar rayed against each other by economic forces which are greater than senti-ment because they color and create sentiment, so long will complete social consciousness be impossible. Uni-versal human brotherhood cannot be realised in a social system in which class antagouisms are inherent. Broth erhood and social solidarity based upon the common material inter-est of all and this does not exist in a social system under which one class of men make a profit out of the labor of another class. The solidarity of all humanity will be possible only under the future system of common owner-ship of the means of production and the return to the workers of their full product which is the goal of the Socialist movement. The material interests of the working class against ex ploitation give that class the mission of abolishing the profit system and bringing in the common ownership of the instruments of production, while the material interests and class train-

the only thing that will make a change of heart possible. The individuals composing the capitalist class will be come the brothers of the workers only when, through Socialism, they are ab-sorbed into the working class and are no longer capitalista. So long as capitalism, with its classes and class struggle, continues complete social con-sciousness will be impossible and all cant about brotherhood between capitalists and workers and all futile ap-peals to the good will or heart of the capitalist class will only retard progress and perpetuate the existence of temporarily concealing the teresta. The class-consciousness of the working class, therefore, is the widest form of the "modial" or collective conscious eas possible in the present stare of

ing of the capitalist class make it on

posed, as a class, to that change which is necessary to make brotherhood pos-sible by giving it a sound material

basis. Any attempt to preach brother-hood between Capital and Luber, therefore, only confuses the issue and

delays the change by leading the work-

ers away from their true interests and their moral mission. The dynamic of the Socialist movement is the interests

of the working class. The recognition

of the brotherhood of humanity will be not the cause but the result of the coming of Socialism. Brotherhood will

result not from a change of heart but

social evolution, patriotism baving be-come anti-social and complete social consciouaness being as yet impossible; and this class-consciousness, through the instrumentality of which the soli-darity of the whole human race will finally be achieved, in the one vital, growing, moral force of the present age—the one force which can fill the present crying need for social rewho not only battle for a higher social order but are, in personal character, the very kind of men who would be developed under such a future social

system. This ultimate kind of men, prophets and sears, project themselves into that future which already exists in their ideals and is to them, if the paradox of the phrase may be narfoned, a subjective reality, and in en-leavoring to lead the rest of humanity attempt to inject the feelings and standards which would be developed by a future ideal social order into the resent struggle towards that future. These preachers of brotherhood, indis te love, and immediate social an abstract or future ethic upon a present need and consider only what ought to be some time without regard to what can be and must be now in the movement toward that future. These men are never safe social guides; they are often almost as dan-gerous, in their power of confusion, as those who support only what is now without regard to what ought to be and must be next, for it is almost as futile to be entirely too far ahead as it is to be behind. Only those who are hown in the midst of the sweat and fight of the present struggle toward the future solidarity are sure social guides and these are of the workingrizon movement.

The ascending forms of the collective consciousness which buman evolution has brought forth have tended always to a widening of the self, a merg-ing of the individual in a larger cellectivity in each successive stage and lectivity in each successive singe and a consequent ultimate expansion of personality. It seems cortain that man could not even have become setf-conscious, in other words man could not have risen out of the brute state and become man, except by the development in his pre-human state of a collective mather springing from the first rude attempts at co-operation for sur-

vival which are to be seen in the fe ing together of animals. No man liv and man has sever lived unto himse alone; an isolate life is not possible him; he is a speini being and a soci product. The human race, which is first distinguished from the lower ani-mals by self-consciousness, has now passed through kin-consciousness and nation-consciousness and is expidly -a sort of social Nirvana in which the individual is exalted by being merged into society; as the Eastern davotee dreams of being merged in God, and finds a sufficient substitute for the idea of immortality in the persistence and progress of the race. Social con-sciousness would seem to be the ultimate extension of consciousness, un ass there he beyond that some sort of of the identity of all existence and the essential unity of the

That group feeling, that collective consciousness coming out of co-opera-tion for social survival is the source of all morals and the secret of all prog-ress. The realization of its full sig-nificance no longer leaves the hope of the future pinned to frail and uncer tain individual greatness but finds it bound up in-the general average. Some individuals may go astray all the time and all individuals may go astray somof the time but the whole class or the whole race can never lose its way per-manently. Individuals may come and go but the group, if it be not an antisocial group—and, therefore, society, whose survival the most social group represents—goes on forever, because the spirit, the ideals, the standard of collectivity are passed on and per though the individual perishes And when this social psychology is un derstood hero-worship is abandoned and in its place comes an abiding faith in the collective human spirit, and trust in the Collectivity.

Our > Exteemed Contemporaries BBB (and OTHERS) BBB

Hoston Globs.

Since the recent town elections throughout the state the result of the big gains made by the Socialist Party has been clearly felt at the state bouse and the representatives of the Socialist imrty have been given undivided attention almost on every occasion on

which they have spoken and its gaining strength in this state have become somewhat of a spectre to the legislators. In committee hose ings, when petitions for various mat ters have been heard and opposit appeared, in a number of instances the committeemen have been threatened that if they did not report favorably upon the mattern heard the Socialist vote would increase, not 10 per cent. but 1,000 per cent., at the fall elec-tions. The same sort of talk has been trails in the sessions of the lower irronch, and not always he Me nembers . At the hearing granted the lafor organizations upon the referen ngitty in evidence in the argument, and the Socialist members of the house brive not failed to hold it forth upor

Toronto Globe.

Among the signs of the times are the growing strength of the Socialists in national legislatures; the concessions of various sorts they have been able to secure or extort, and the recognition of some of their most prominent members by their election or appointment to high public positions. A well known Socialist is now the leading A. well spirit in the Italian ministry. One equally well known has been chosen second vice-president by the Chamber of Peputies in France. No such incldent has yet taken place in Germany. but the Socialist leader in the Reichs-tag is by far toe ablest statesman in that chamber, and he has a following too numerous to be either flouted or ignored, as was done in the time of Bismarck's chancellorship. One of the innuspicious omens in Germany is the incurrency and fearlessness with which the Emperor himself is now referred to in debate by hostile members of the Reichstag. For this he has himself to blume. So long as he induiges in political speech-making, just so long will his divine right to a monopoly of political speech making in the second speech s ical speech-making be disputed. fortunately for him, his Socialist crities are philosophically right in the main. They are opposed to war, while he negatity in strengthening both army and navy. They are opposed to excesaive protection, while he either aug gests it or yields to it. They are Ger mans with a tendency to cosmopolitaniam; be is German with a bias toward chauvinism. Their great aim is to ameliorate social conditions and rem-edy social evils; he is so taken up with world-politics and the great role of Germany therein that he is not deterred from his purposes by the crushing burdens he imposes on his sub-Students of current events jects. Etudents of current even should keep an eye on the Socialists.

New York Mail and Express. It is to be hoped that the report which comes from Washington that a campaign is to be begun against 8 cialism is correct, and that it will be conducted with Intelligence and vigor.
As outlined, the campaign is to begin at once, it is to be educational in its character and it is to be prosecuted steadily through this and next year. The plan is the result of many con-sultations among leading Republicans, including such men as Senator Hanns Secretary of the Navy Moody, Pestmaster-General Payne, and School Spooner of Wisconsin. They propose to make an earnest and comprehensive effort to check the spread of Socialistic ideas and to supplant them with sound, conservative opinions on industrial questions, governmental policie and all subjects affecting society and the individual. The scheme is a thoroughly commendable one, and it should receive the support not only of all he-publicans, but of all intelligent and dis-interested citizens as well. Next in interest to the sweeping Be-

publican victory in the elections last full was the large vote polled by the candidates nominated by Socialist and Social Labor parties. This vote

showed a - pin meeriy every Northern Sinte. The total Socialist voto cast war about 400,000. In The Presidential election 400,000. In The Presidential election of 1900 the two distinctively Socialistic candidates police only 127 553 votes

* * The present in a good time to begin a campaign against Socialism. The public mind is in a state to receive and assimilate traithe and is not preju-diced, as it will be when the Presidential campaign of 1804 is well under way. Help will come from other sources also. In Unicago, for instance, the German Catholic societies have be-gun to organize labor unions within the ranks of the church, but an indisamable qualification to membership h an exclusion of all Socialistic ideas egun alsowhere, and they will prove aluable helps in combating Socialis If, in addition, the campaign of education against Socialism, as outlined, from Washington, is systematically and vigorously pressed, there need to no fear that Socialistic ideas will be-come a menace to the peace and stability of society in this country.

Phiadelphia Public Ladger.

When Senator Hanns, Chairman of the Republican National Committee, offered to aid the affrighted leaders of his party in Massachusetts in their ef-forts to stay the tide of Socialism, which have so rapidly and alarmingly risen in not only that Commonwealth but throughout the New England states, he showed how little he understood the movement. It is evident that he remarks it wholly from the practical politican's point of view and with the eyes of one. If he perceived aright the mapiring and inciting causes of it has would similarly perceive that of all men he is among the least qualified to assume the leadership of the forces or posed to it.

It is true that the Sevialists are as means to the accomplishment of their object, but they are not politiclans in the sense that Chairman Hanna is one, • • • • • Mr. Hanna should not be extra-

ordinarily sainte to become that one of the chief upholders of trusts, not only their apologists but champion, is scarcely qualities to lead his party successfully against a popular movement which partakes more of the character of a religious cruside than a political uprising. The merely declared an tagonism of such men as the Chairman of the National Committee will bring bosts of earnest recruits to the Sociallstic ranks, which aiready show such dangerous strength in New England and elsewhere. Let Mr. Hanna and all his kind keep out of this grave businem, and let our publiciets, meiologists and economists units in a common and resolute purpose to confute the here sies of our latter day Socialists, who are so industriously and effectively ninating the only half true and wholly pernicious cry that the rich are growing richer and the poor growing poorer. Let it be recognized that the leaders of the movement are not sordid politicians, but sesious propagandists of what they call a great social reform, and let it also be recognized that in their sea continue forms of the mint distinguished teachies in the colleges. newspaper offices, and even in the pulpit, have been during the last de-cade most mischlevous said powerful aiders and abettors of the propaganda

Los Angeles Union Labor News

insincerity is the leading characteristic of these non-union unions. If they came into being with the real and apparent metive of trying to adjust labor differences without friction, and with labor's interest and welfare at heart, there could be no objection offered to them. But in every instance investigation proves that the employ-ing element is in perfect touch with the wires that control the body, and as they can manipulate them only in self interest, the workers take no interest in the movement, and it dies because it lacks the spirit that every labor qu contration must have—that of striving a united effort to improve the con of the statement that employers con trol these mon-maion unions, is the clause that always appears in the preamble of the constitution to the effect that the workingmen are independent and therefore must frest with employers as individuals and not as a body. Take away from a trade union the power to act as a buly for its members, and its life is destroyed. It is for the purpose of acting together for the good of all that men organize, Un- and the mere fact that every union substitute lacks this essential is the cause of its unpopularity with nensible workingmen, and its conse-

quent decay and death. The path leading to industrial freedom is strewn with many wrecks. T trade union movement has seen many But the sad last wrecks and the greatest failures or those of c stray in listening t the blandishsubstitute.

Pueblo Courier.

The Commission, after many grund and a bundle of groans, has produced and handed to the authracita coal miners a gold brick and its labors have served this purpose;-it has, at the expense of paying to the miners what they would have secured nayhow had the strike been held on, saved the life of the Coal Trust so that both the niners and the American people will still have the exquisite pleasure of feeling the grip of its claws. It has ecured to the members of the afore said commission the pleasure of posing in the public eye sat the public exagain demonstrated the fact that the trust magnates can give Labor four aces and half the other points in the came and still be in at the winning cith a straight flush and raide in the pot. It has given the enemy a chance to deal Labor a double-handed swat in the solar plexus off the baycool question and a kick of the foreing into the union and deal a furtraight on this wages prop Summed up, Labor for once w now again the lung-sured as benys loud-and bicks holes in

BUY UNION MADE GOU

PARTY NOTES.

Local charter has been issued to Payettaville, Ark.

Comrade George D. Herron ha placed the entire arrangements of his lectures for the flocialist, l'arty, after his return from Burupe, this, summer, under the control of the national bend-

Plans are being developed at na-tional headquarters by which every part of the United States can be corered by organizers and speakers for the Socialist Party.

Requests for organizing material tive to the organization of new le-have been received by the National Secretary from various places in Arkansas, Georgia, Idaho, Indian Territory, Kansos, Kentucky, Maryland, Nebruska, Okiahoma, and Mermunt.

Comrade Frederick G. Strickland will probably make a bettering and er-gashing tour of the middle western states during the aummer months un-der the direction of the National Lecture Bureau of the Socialist Party.

Comrade John W. Slayton begins his tour under the ampices of national headquarters at 'Birle, Pm., April 7, speaking for the Carpenters' Union. The Cantral Labor Union of Warres. Ohio, will have it. : for a big demonstration on the 9th, and carpentess of stration on the 5th, and, carpeters. of. Washington, Pa., on the 17th. The intervening dates will be filled with meetings among Ohio locals. Blayton spoke at Toleda, "March 5th. with "Mother" Joses, at a big Socia'ut meeting and the Toledo. "Times" said his address was "masterly and the clearest exposition of the Secialist positions and heard in Toledo." ever heard in Toledo."

State Secretary Critchiow of Ohio, who is managing the Socialist lecture tours of Fathers McGendy, and Hag-erly, states that it has, here ascortnined that there is a permanently or ganized lecture bureau, which is sending Jesuit speakers in the wake of Father McGrady with the avowed in-tention of undoing his work for So-

A state organization has been formed in Vermont, with John Ander-son, Barre, Vt., as State Secretary.

The County Committee of the So-cialist Party of Luserne County, Pawill meet at the new headquatters, 16 South Main street (second floor, rear). Wilkes-Burre, on Tuesday, April 7, at 8 p.m. The new county constitution will then be ready for distribution, copies being run off on the mimeograph, which was kindly loaned to the organization by Comrade D. O. Coughlan, the only Socialist lawyer in East ern Pennsylvania. County Secretary C. F. Quinn was unanimously re-elected Secretary-Treasurer of the Pennsylvania State Federation of Labor at the recent annual convention in Harrisburg. Healthy activity is re-ported from Locals Wilkes-Barre, Duryea, and Edwardsville Courads Byrne of Massachusetts is in Linserne County doing good work in the inter-est of the Boot and Shoe Workers' Union.

A Pollah paper in Toledo, Ohlo, printed part of our campaign circular giving the address of the Central Compittee of that city, and this brought nettee of that city, and this trought letters from Connecticut, Massachu-seits, Wiscopsin, and Minnesots, in-quiring for copies of constitution and applications, for membership. These letters have been forwarded to the re-spective sinte secretaries.

The state convention of Utah will be in Federation of Labor Hall, 76 South Second street. Sait Lake City. Tuesday. April 7, 1903. Among the business to be transacted will be an-nual election of officers, establishing of official state paper and consideration of municipal platforms and lecture race for propaganda work.

Socialists of Chicago held the largest public demonstration in their history on Thursday, March 26, in the interest of the Socialist Party municipal ticket. The Auditorium, the largest hall in the city, was packed to the doors, at ad-mission of 25 cents to \$1. "Mother" Jones and Father McGrady were the greated with enthusiasm. In begin-ning her address, "Mother" Jones said: "I feel that we are nearing the end of our fight, because this magnificent gathering tells me the workers are at last awakening to a sense of their duty. It is only when our masters see outy. It is only wend our massess we us politically organized that they fear tis, and realize our power. As long as we are content with an industrial organization the capitalists can get in junctions against us and can send troops to shoot us down. But when we gain control of the government will not have the power to shoot We will be the government."

The "Social Democratic Herald" says of the movement in Wisconsin:
"The city campaigns over the state are
keeping the comrades in Janesville,
Kenonha, Sheboygan, Racine, and Appleton husy just now. Neensh and Two Rivers are also in the with their usual mastle in the spring campaign. Janeaville has been doing well this Janesville nas been coing wat this winter. Courade Thompson was there twice and Organizer Gaylord was given an opportunity to address the union labor mass convention of the city early in March. They have smithpiled their membership several times during the last few mouths. This int-ter has come from the organization of ter has come from the organization of new ward branches. Eachne has done very well within the last there months. Commote Thompson's needing was the signal for an advance all along the line there. First came the organization of the city. Then follow the putting up of the city ticket this spring, with a well attended meeting addressed by Conrade Berger, and now plans are being made and carried out for a red-hot campaign. Pert Washington feels so good over the Thompson meetings that it wants to keep the hall a-rolling and has select for the fitte Organizer. This is a good field, and white the conrades have the common experience of

imancial powerty they are rich in that enthusiam and confidence in the came-that is bound to bring secress in the and. The State Organizer will start for a Northern tour, extending to Marinetta, immediately after the spring elections, and hopes to be able to report some new branches from that territory on his return."

Harry M. McKee is making a tour of Iown for the Socialist Party. Com-rade McKee was formerly an instruc-tor in Lenox College and is said to be both a pleasant and a forcible speaker

of Udail, Kan., has taken up the ad-Oraguiser Waldborst of Local Birm

ngham, Ala., writes us in great enthu sinsm of Courade Chase's two success ful meetings there and two in Bosse-mer. He says the results surpass all expectations. A state convention of the party will be held in Birmingham in the first week of May, a state com-mittee formed and probably an organ-iner put in the field. A city election is to be held in May and the Socialist Party has a ticket in the field, headed by C. W. Love, a muon machinist, as candidate for Mayor.

Secretary Miller of Local Norfolk Va., reports steady growth in membership and that Socialism is becoming popular in Norfolk. He says: "When the Dixle boys are aroused and know they are right there will be no stopping them. Come what may, you will find them on the skirmish line, to stay there until we are in the conitalion stronghold, which is the seat of the federal government."

In Ningura Palls, No. Y., at Conven tion Hall, on Friday evening, April 3. Comrade Matthew Kirsch and Mr. L. . Malone will debate the question "Are the inboring men of to-day as far advanced as a half-century ago?" Mr. Malone will take the affirmative and Comrade Kirsch the negative.

Comrade James N. Wood, who wa to give a lecture at the headquarters of Local New Rochelle, N. Y., last Fri day, being unable to keep his engage-ment sent Comrade Frank P. O'Hare to take his place. Although the meeting was well advertised an audienc tid not appear. Courade O'Hare de clared that if the people would not come to hear him he would go out to them and thereupon walked out is front of the City Hall, mounted a chair and in a few minutes had an audience that for size and attention gave him entire satisfaction and to which he talked for an hour and a

The discussion which was to be held ast Friday by the 6th and 10th A. D. was postponed to the next meeting which will take place at the Labor Ly ceum, 64 East Fourth street, Friday vaning, April 10, where Comrade W J. F. Hannemann will open the dis-cussion of "The Nocialist Solution of the Liquor Problems" at 9 p. m., after the business meeting has closed. On Friday, April 24, Commide Edward W. Searing will speak on "The Influence of Socialism on Literature."

The members of the Brooklyn Socialist Club and their families will meet at the clubbouse, Fulton street and Rainh avenue, on Saturday, April 4, at Grand Central Palace, in Manhattan Borough. Members are requested to be prompt in reaching the club at the hour named. Comrade Feigenbaum speaks on "Bevolutionary Socialism" pext Sunday at the Socialist Ciub.

Purpose of Life" at the Socialist Pro paganda Club, Wurzler's Hall, 315 Washington street, Brooklyn, on Sun day evening, April 5.

The Young People's Social Demo cratic Club of Brooklyn, which meets every Thursday evening in the Labor Lyceum at 949 Willoughby avenue, h having great success. The club now has thirty members in good standing and is galuing more every week. At the last meeting six new members were admitted-Ehsle Eberhardt, Min-nie Henne, Fred Duers, Adeistic Schildniller, Lillie Beggers, and Fred Mieske. Comrade Jander was the speaker of the evening. Good progreas is being unde in the preparations for the picale of May 17 and no pains are being spared to carry it through with credit to the organization. It has been decided to donate half the pro-ceeds to the Labor Lyceum. The young men and women of the club are showing abundant energy and good sense, and this should assure th hearty co-operation of the older cou

FROM HEADQUARTERS.

Rational Secretary's Corresponder with Comrades Untermann and Bloker on Party Organization and Finance

The Worker in requested to print. for the information of party members, several letters that have recently passed between National Secretary Mailly and Ernest Untermann, mei ber of the Quorum, and between peal to Resson." (Comrade Unter-mann, it may be noted, is also em-ployed on the "Appeal" at present.) The correspondence is too voluminous for us to give complete, but we present in full those portions desiling with certain important questions of party organization and financés which, it seems to us ought to be laid before the party members.

Following are three paragraphs from the National Secretary's circular to the Quorum of date Omaha, March 21 (L. Q. No. 6), which makes clear the

(L. Q. No. 6), which makes clear the subjects under consideration:

"Par. 5. The condition of the Nebraska state organization is such that I assumed the responsibility, pending hearing from the Quopum, of piedging \$30 from the national organization toward the first month's expenses of Secretary J. Edward Morgan, as organizer in the state. The locals is Nationale. in the state. The locals in Nebruska pend their funds and energy in places need attention, and as the State Committee was mable to hear the expense of heeping Committee we can make such a rule and enforce it, we

field I plodged our assistance. I trust this will be entirinctory to the Quo-rum, and that I shall be empowered to use my discretion in the matter of con-tinuing our assistance after the first

empowered to have an appeal to the party at large for contributions to a special organizing fund to be used by the national organization for the purpose of promoting organization wherever the same is needed. The appeal tional campaign, pointing out the op-portunities opening up to us on all sides for crystallizing the Socialist sentiment at the ballot box in 1904 and what can be done from this office is the line of organization with a comparatively small sum of money. I am confident that if \$500 was placed at the disposal of this office for organthe disposal of this office for organising papposes, in six months the increased revenue would compensate for the outlay and give as a great organisation, besides enabling us to clear our detra. At present I am helpless to put my plans into operation through lack of the mecessary funds. I believe that the time is ripe for such an appeal and that the membership will reasoned. that the membership will respond

"Par. 14. In reply to a request from Commade Riches, of the 'Appeal to liesson,' for organizing cards to be sent out from that office, I suggested that all applications regarding organi-sation be referred to this office. When applications from organized states are received here, they are referred to the respective state committees and those from unorganized status are handled directly from this office. I believe the national organization should have the prior right to enter unorganized states for organizing purposes, otherwise there would be anarchy and confusion. I also suggested to Courade Ricker that the 'Appeal to Beason' turn over the organizing fund now being raised through its columns, to the national organization for the benefit of the party at large." (The Mailly-Ricker ndence is given below.-Ed.)

II. On these points Comrade Untermann replied as follows under date Garard. Kan., March 23:

"Point 5. I should have preferred to have been consulted before you pledged money to Nebraska, because you thus establish a precedent that may become troublesome in the future. Not having been given an opportunity to ascertain for myself the condition of the Nebraska state organization, I cannot act, and must, therefore, de-cline to assume any responsibility for your pledge. "Point 12. I like the idea of issuing

an appeal for contributions to a spe-cial organization fund. But I should cial organization fund. But I should like to know more about the way this fund is to be handled, and how the appeal is to be worded. If we knew one another better, I should not lest-tate to give you carte blanche in this matter. But as I shall have to bear words. my, share of the responsibility for any-thing going out from hesiquariers, I thing going out from headquarters, I profer to see a draft of the appeal be fore I commit myself any further. Now, don't regard this as a sign of un that suspicion on my part. I should be only too giad to simplify our efficial intercourse as much as possible.

At, the same time I feel that I would not be doing my duty, if I endorsed anything without exactly knowing what it purports. Besides, there are a few things in your letter and in your statement given out for publication that require an explanation. In the first place, in this statement you again say that I voted 'against submission of endums 1 and 2' although I had called your attention to the same error once before and you declared that it was a mistake on your part. I have already been severely attacked and misrepresented by The Worker and the Seattle "Socialist," and this statement will give them a new opening. In the second place, I do not think that you had a right to withdraw your proposition after a majority of the National Committee had voted in favor of it. The vote on Referendum 1 stood 6 to 6; on Referendum 2 it was 8 yes, and 3 no; while on your proposition it was 8 for and 7 against or, with my own vote, 9 for and I against; that is, more votes were cast on your proposition than on any of the others. It is plain that if you submitted Referensium 1. which was practically voted down, and which New York and Massachusetts themselves had dropped, you should have so much more submitted your no author set aside a vote of the National Committee. In the third place, you have printed on the referendum blank the words by authority of the National Committee.' From the foregoing it fol-lows that the National Committee gave you no authority to submit Referen m 1, while they gave you authority which yo to submit your proposition which you cast aside. Besides, the Quorum at

rum and the National Committee thought of the paragraph that 'no per-sond shall vote upon the foregoing resolutions who are not members in good standing of the Socialist Party on April 1, 1903. I have no share in on April 1, 1806. I have an anare in framing those instructions, and must leave the responsibility for them to you, or to those who made them. "Point 14. I am unfortunately so situated that anything I may say on this point is liable to a interpreted as being inspired by my feation on the 'Appeal,' Hints of this kind have been 'Appeal.' Hints of this kind may be minde in public articles and in private letters. I shall ignore them, however letters. I anall ignore them, however, and state my position pisinly and un-reservedly. It is this: The party ought to be glad to get assistance in organizing, and not throw cold water on individual initiative. That is the same method observed in Colorado against the Social Counsiders, and I am against the Social Crusaders, and I am opposed to it. Your suggestion to turn over all applications for organization to national beauquarters in perfectly proper and will cartainly be accepted. if I understand Comrade Bicker right. But the suggestion to turn over the funds raised by Ricker's work simply amounts to this, that the party should dictate to private Socialists bow to ex-

least has not voted on your 'instruc

tions to state secretaries, and I for one would have been glad to know what the other comrades of the Quo-rum and the National Committee

shalf certainly not countrance any steps that will tend to discourage insteps that will tend to discourage in-dividual agitation, as long as the party is as weak and unsettled as it is now. The fact that it is so is largely due the attitude of the party machinery itself, against those who did not agree with the official spokesmen. In fact: the greatest source of trouble for the move ment has not come from individual out-siders, but from the party michinery itself. I do not blame the membership at large for standing off and watching better with us than they did with the othern. Therefore, I do not favor a too pronounced desire for centralization at present. We cannot rorce people to trust us. We can only act so as to gain co-operation. Such a co-operation perfectly serves with you, would be highly desirable. But it must be the result of voluntary association, not of elubbing."

The National Secretary replied on ese points under date March 25: "Point 5, 1 pledged support to Nebrasks before consulting Quorum be enuse immediate action was necessary and because I desired to get the organized States into as good condition as sible so as to form a base of sun plies for further operations in unorganized States. It is our duty, I believe to assist weak states to get their erganizations firmly established, so that their future work can be assured. As our finances warrant I shall try to

the appeal for contributions to a special organization fund to the Quorum, al-though no other member has requested it and its issuance should not be de

again you will see that I did not say you voted 'against the submission of referendums No. 1 and No. 2.' What I sald was: "Comrade Untermann voted against their submission, as worded, but voted to have the proposition drawn up by the National Secretary aubustitud to the Committee, his rea on for this action being given here-fter.' The third paragraph further on contains your explanation. I think this was fair, does not misrepresent you, and will not be misunderstood by anyone who reads the full statement. was particularly careful not to mi quote you, above all others, in view column 6, will show that Comrad

Makly is correct.—Eth.)
"I withdrew my referendum proposition in order not to cause more con fusion. I so advised the members of the National Committee who voted for it and informed them that, unless otherwise notified, I would consider them-as voting for No, I and 2, and would sub-mit these to a referendum. Comrade Lovett was the only one that notified me otherwise and I therefore issued the referendum as being authorized by the National Committee, This, I beaside a vote of the National Committee

"I fixed April I as the date upon which members should be in good standing before voting on the referen dum because I believed it due the membership at large that those voting on such an important matter should be at least thirty days members before the vote closed. It was so apparent to me that a time limit should be set that while I neglected through an oversight to submit the matter to the National Committee, I had no besitancy in framing the instructions as I did. tions from any other quarter.

"Point 14. I have no desire to throw cold water on individual initiative. do maintain, however, that the nationa party shall have charge of the organiantion work in unorganized States and Territories, as the national constitution provides. If the private Socialists' were responsible for the locals they organize, the case might be different; but they are not. The antional party becomes responsible and the national party must take the initiative, or else there will be nothing but confusion and disorder. I have written to Comende Ricker on this point and he can show you my letters if he desires

"It is misleading to infer that the national office is trying to grasp power to use it against individuals. We are simply trying to work in a systematic and orderly manner. And the party is not weak and and unsettled. Far from The correspondence received at this office shows that there never was mor solidarity in the national movement. there never was a more unanimous de sire to make the party machinery pernament and effective than at the pre sent time. We have a strong party, Comrade Untermann, and if it is not stronger it is partly because a lack of co-ordination among its members has prevented its being kult together into a fighting machine that can meet capitalism on its own ground. And I be-lieve that this is the time for every party member to co-operate with this office in bringing this about.

"Nothing in my letters to Comrade Ricker can be construed as attempting to use clubbing methods—methods that I have always opposed in the Socialist movement. He expressed a desire to co-operate with me in organization and I suggested to him how in my opinion that could best be done. If the nation al party cannot secure anyone's co-operation by the use of reason, then we certainly could not succeed by using other methods."

It is further noted that Comrades Work, Roe, and Turner, forming a ma-Jority of the Quorum, concurred in the National Secretary's circular under dis-

The correspondence between the Ne-tional Secretary and Comrade Elcher of the "Appeal," referred to above, in na Indiana

Natural Probability of a Reign of justice

PATRICK EDWARD DOVE

Edited with biographical sketch by Alexander Harvey

NOTHING more remarkshie than the history of this hook, emost the best itself, has occurred in literary history. Dove was a generation in advance of Menry George in proposeding the sementum dectrine of the Single Tax, and the tharge of pinglarism make against George gree out of this fine. Dove, however, a deep scholar and profound thinker, champions the Single Tax on land from quite a different standpoint than George. In this respect the work will started single Taxen. It has been related, not garhied, by Alexander Harvey, who prefaces the look with a life of the author and a mention of the remarkable circumstances that led to its suppression. The volume is complete and unabridged.

LANDLORDISM RAMPANT.

By Horace Traubel.

ward's abolition of Irigh landlordies There is only one way to get rid of Irish landlordism. You must set rid of the Irish landlord. The Irish landlord in like new other

sandlord. He is not worse. He is not better. The Irish landlord squeezes all the substance out of the land, via the tenant, that the can," He limits himself only by the limit of-necessity. He squeezes until ne more can be

Is an American landford any wa different from an Irish landlord? What is it that limits the googe of the Afterican landlord? Is it humanity? No. It is the land market. The Amer ican landford has length, breadth, thickness, ears, taste, and sight, much like an Irish landford, "Give "him enough rope and he bleeds you to death. Not the landlord the person. The landlord the system.

Do you really care whether your inndiord spends his substance in your village or abroad? The labdlord is a parasite. He may be a good fellow. He may be a scholar. He may be a man of superior virtus. But insofar as he is landford he is parasite. The parasite must be destroyed. The man ast be left unharmed.

The problems of the world are in-trinsically the same. Lecality may spell you different geographical names and strange persons. But the law of pervert life is one law, operate where it may. The American may call it one The German may call it an-

All the nations are struggling with the forces of democracy: "Democracy is pushing itself up through every soil. some cases it encounters strong ground. But it keeps right on pushing. In one place it must abolish a caar. In another it must abolish a president. In one place it is resisted by what is called an autocracy. In abother it is resisted by what is called a sepublic. But it works on. Its seed time is authenticated by the most sacred confunction of the starn," It may be wer getting through one soil than other. But it will get through.

When democracy breaks loose from its encumbering debris it will remake our average man in the image of an as yet unexampled personality. No type, great or small, so far known in hi tory, in full round synchronises the unborn democrat. To the democrat there is no absentee hudford and no fireside inudlord. There is only the landford. To the democrat there is no willsin capitalist and no saint capitalist. There is only the capitalist, Just as it is in religion, where real devotion

not think at all."

A great deal is being said about Ed- | discovers that there is no true religiou or false religion but religion.

Democracy does not busy itself trying to find where the nations are differ-

ent but where they are alike. It does not find one nation all good 'for one virtue and all bad for one vice. It does not find German conquest different from English. It finds all conquests from English. It must all conquests conquest. It finds that when the imperial split breaks loose it amounts to the same thing, whether sent to Africa in the name of a constitutional monarchy or sent to the Pacific in the name of a republic.

When the English Parliament dissumes the Link hand question we con-

cusses the Irlsh land question we con-iols with Ireland and condemn Eng land in the haughty manner of a vir tuous innocent. But no nation in history has more thoroughly and prodigally thrown away its lands than this nation which eagles its doctrine of liberty over the valleys of the earth. We have from the start been doing all-we can to provide for ourselves the problem which we are supercitiously rolunteering to help the older nation

the law of a province but of the earth. It starts and finishes in about the same conditions, whether under equatorial suns or arctic ice. It is not a law of persons or a law of place. It is a law back of history and foreshadowing the ideal. Draw your local weapons, against it, it is impregnable. But

against at it is imparational against at the general dissent.

It is prepared to capitulate.

I would not send the landlord abroad. I would not keep him at home. I would eliminate the landlord. a do not see why one landlorded country should make faces at another. To the mirror landiordism is landiordism wherever it challenges reflection. There is no reason why we should not push along Edward or anybody else who is pushing along landlordism towards the abyss. But we must not push with our heads in the sir. We must push with humility. For when our day comes we must be prepared to ask good for good. England does not need us to-day more than we shall need England when our battle royal comes. We are staking our democracy upon the same issues. We are drifting towards the same cataclysm. We will survive. But our particular experiences will threaten the race. We are will hold ourselves up before it is too late. But we are stubbornly contending against a profound historic lesson. We do not seem willing to accept the experience of prior days. We demand experience for ourselves. This is the spirit of youth rather than the spirit of wisdom. And only youth will save us. Youth has so much time to

spare. Youth has so much strength to trol all the means for the production and distribution of wealth. And right here we are confronted with the bugaboo that if the capitalist THE INCENTIVE. should disappear (as has Hell with its fire and brimstone, the king with his hangman, and the slave-driver with

present system (that is, the capitalist Suppose you are working in my facn for profit) that if it were destroyed tory to-day and I offer to double your there would be no incentive to work It is not an exaggeration to say that wages, would you go on strike and re-fuse to work because I offered to pay you a fraction more of the product of permans entertaining such notions do not think. They imagine they think, but in reality they are simply repeat-ing what has already become current your labor than on an average you are now receiving? Or suppose I turn my plant into a co-operative stock com-pany, and I give you an equal share thought. As some fellow very wit-tingly said: "They think the same as with every other stockholder, every other man working in the factory, and that thenceforth we are going to share equally in the product of the plant. thought, and the grandfather thought the same as the great-grandfather thought, and the great-grandfather did would that destroy your incentive to

his lash), there would be no incentive

work? The advocates of this theory that under Socialism there would be no incentive to work are inboring under a delusion, based upon a false conception of political economy which claims that the only motive of human action is greed. It is the ambition of the hog to eat all the swill in the trough, whether his stomach has the capacity to digest it or not. We can imagine th blg hog pushing the little ones away from the trough until he has devoured its contents, and then, with refined hypocritical cant, admonishing the little ones that the reason they too have not got a big round full belly, is

because they lack incentive.
"But," you say, "this is the nature
of the hog." Yes, and it has become the practice of a great many men. And it is these very same men who have not the intelligence to discern the dif-ference between human nature and the nature of a hog who keep up this senseless prattle about the incentive to

The incentive that Socialism would destroy is that incentive on the part of the workers to stand back until the human hog has devoured everything in sight. Socialism would destroy that incentive which compels men, women, and children to toll from early morn until dewy eve in factories, milis, mines, stores, and polluted sweatshops, in order that the human hog may revel in wealth and luxury-himself a prey to indigestion and gout, disease brought on by his own hoggish in centive. It would destroy the lucentivwhich takes from the producers four-fifths of the product of their labor and gives it to those who do not labor. It would destroy the incentive of the workers to support in luxurious idle-ness our army of non-producing tax-consuming loafers, insurance companies, commission merchants, specupanies, commission merchants, speculators, bankers, lawyers, politicians and their stoolpigeons and ward heelers, whose very existence depends upon whether or not they can forever cram down the throats of the toilers this croneous idea that the only incentive to bunna activity is that of His Royal Majesty the capitalistic photocomic News

series out of the old, and these changed and changing economic factors reflect themselves in the world of thought, producing nead of 1 Out of the changed economic conditions has come this new idea: "That of the progress of the human rases to be ever onward, if the future citimes are to be free citizens instead of economic wage-slaves, if all are to enjoy the blessings of life, liberty, and happiness, then all must have equal access to the necessaries of life, which means that the people themselves must, in plutocratic Hog.

It is the mistake of a blockhead to eut capitalist system is the only motiv ont capitalist system is the only mouve of human action. "For the sake of love, for the sake of pily, for the sake of truth, for the sake of religion men and women have consigned their bodies to the flames, have suffered in-prisonment, diagrams, terture, starva;

tion, and death." Would any of our ition, and death." Would any of our espitalistic long, or those who advocate this hog-incentive as the only motive of human action, do as much for all the swill in the capitalistic swill-trough? No. The hog was never known to make a martyr of himself, and the-only time he ever showed any desire to become a leader even of his own class was when according to biblical lore, he made that headlong rush for the sea—mistaking ft, of course, for swill. Nor is this to the hog's credit, as the set is excused to bog's credit, as the art is excused to-day on the ground that the hogs were possessed of a devil. Let us hope that our capitalistic hogs may also become pussessed with the same kind of a

"They say you are foolish," was remarked to a poor fellow who had very little to show for many years' hard |abov; "tell us something you know." "I know the miller's bogs are fat," repled Foolish. "Very good, Now tell na something you don't know." "I don't know whose corn fattens them." The United States has developed a wonderful facility for hog raising, Bay, you smart fellow, can you tell me whose corn fattens them?

FROM HEADQUARTERS.

(Continued from 3d page.)

such letters from here, but I have run supply of these on hand I wish you would send me a few so that I can care for communications like these. "Our Georgia fund is moving along

rapidly and I believe we will be able care for the South from this office to care for the South from this office and save the National Committee this expense. I am arranging now to take Comrade Morgan out to Nebraska and send him to Georgia. I want to send men who have been l'opulists and who have a clear understanding of class-courcions Rectalium. Although a forconscious Socialism. . Although a for per Populist myself and a farm mer Populist myself and a farmer, I believe I am so class-conscious that I am like the individual who wanted to stand so straight that he leaned back want to make Socialists, not allies of

(B.) Mailly to Ricker, Omaha, March 18:

"I have your favor of March 16, enclosing letter from Comrade Hunt of Gatewood, W. Va., which I shall have attended to right away. I would suggest that in the future you send all such letters here, as I can manage them much beter directly than I think you can from your office. I am re-ceiving constant inquiries for information how to organize, and wherever quiries over to the State committee Where there are no State committees we call and directly from this office. In this way the State committees are given freedom to work their respective fields in their own way and we are able to co-operate more effectively in the general work of organization. You can readily see that confusion is likely to result through your acting as an oppquizing agency separate and apart from the national office, as the most of our State committees will object to any outside party interfering with the work of organisation in their respective localities. I am desirous of giving every State as much autonomy as po-able and for this reason I recognize

presentatives of the party organisa tion in their States.

If appreciate what you are doing in the line of raising an organization fund, but I must say that this is liable also to cause a conflict in arrangements which this office will probably make in the near future. I am formulating a plan now by which we can send organisers through every section, and where organizers do not go directly from this office, I hope I shall be able to assist state committees in keeping organizers in the field. I am now devising a plan by which one or two men will be able to go through the South following in Chase's footsteps and take advantage of the work that he has done. If the 'Appeal' should

the State committees as the logical re

send out organisers it is bound to cause confusion. In my opinion the national office should have sole power to send organizers into unorganized Otherwise there will be "Something like the same difficults

confronts me in the organization of a National Lecture Bureau as outlined by the National Committee. The speakers that we would like to have upon our list, we find, are either making their own dates or running bureaus of their own, and this office cannot have them under its absolute control, which is necessary if we are going to carry on a systematic agitation. Just now the national office is made to play second fiddle to a great many indivi-dual enterprises of all kinds in the field. I believe that the National Committee has one position to fill, that of directing the agitation and organiza-tion of the Socialist Party in this country. If it is not, then it has no reason for existence. I would approach to for existence. I would suggest to you that the fund being raised by the 'Ap-peal' be turned over to the National Committee to be used for the benefit of the whole movement. I am con templating proposing to the Local Quorum and National Committee that an appeal be issued for an organization fund. If I had \$1,000 in this office, I fund. If I had \$1,000 in this office, I would be able to do an amount of work that would astonish our own people and give us an organization within aix months that would yield a revenue of that amount every month. I say all this because I appreciate your efforts for the organization and I am hopeful that you wish to work in har-mony with us and help bring about the very best results."

(C) Ricker to Mailly, March 20: "Regarding the requests for organization material, I will very gladly turn

ration material, I will very gladly turn them over to you just as rapidly as they come to this office. Tals will save me a great deal of trouble and time. "Now, regarding your communication mildly criticising my organization plans. I confess that I would feel a little irritated did I not know that you fully misunderstood my intentions. You will notice that I have explicitly stated in your articles that I have explicitly You will notice that I have explicitly stated in my articles that the money boing raised in the organization fund is for the agitation and organization in unorganized states and in places where there are no subscribers to our paper. Now, please note that as National Secretary you will not undertake a work of this kind. Your organ-

isers will be sent where there is mamere will do sent where there is ma-terial to organise, white I am going to send our agtistor and subscription-taker to places where there are no So-cialists at all, not even a man-to dis-tribute a bill. We have a two-fold ob-ject in doing this; one is to extend our circulation and the other is to extend the Socialist movement.

the Rocialist movement.

"If you will carefully read my article in the coming-issue of the paper, a proof of which I will enclose if it is insished in time, you will at once see that my work will be of great assistance to you and not of interference.

"I wish to offer a suggestion concerning which—I would like your opinion. Having been actively engaged in organization work in my native state I know how difficult it is to get locals to pay their dues regularly

to get locals to pay their dues regularly and it occurs to me that if we adopt a uniform system and an organized method of paying dues we would greatly systemize this whole matter. Let us suggest that dues be paid on the fifteenth of every month and that local secretaries adopt the system of collecting said dues with the members I am about to write an article on the necessity of paying dues. You must understand that we have a larger body of actual workers and subscriptiontakers than you have members eurolled in the Socialist Party.

"We desire to co-operate with the National Committee, but under no cir-cumstances will we surrender this organization and become subsidiary to the party machinery."

(D) Mailly to Ricker, March 23:

"I have your favor of March 20 and note that you will turn requests for organization material over to use as rapidly as they reach your office. shall be glad to give them prompt at-

tention. "Regarding your organisation plans. will say that a certainly have no objections to your sending an agent any-where to collect subscriptions for the 'Appeni' and to promote its circulation. Every paper has a right to do that and does it when possible. What I do object to, however, is your sending out an organizer to organize party locals on your own reaponsibility. This I believe is the function of the national organization where no state committee are in existence. Where state organi zations exist the respective state com-mittees direct this work, co-operating

with this office when necessary.
"I am surprised that you think the National Secretary abould not undertake to organize in unorganized states. I certainly claim that to be one of my most important duties. This is actually what I am here for, what I am expected to do, and what the national. party has giways done heretofore. We would have had no party otherwise.

"Cannot you see, Comrade Ricker, that your organizing efforts are liable to conflict with the plans of this office? Cannot you see that your sending out party organizers usurps a function of the national organization? Since I as sumed this position I have been developing plans whereby more organisers can be placed in the field and if these plans have not materialized, it was simply because other matters required immediate attantion, "I know of no other Mocialist paper in the coun try that would atten t to do what you propose, that is, send out party organ zers regardless of the plans or wishes of the national or state organizations, as the case might be.
"I do not know what you mean when

you say: 'Under no circumstances will we surrender this organization and be-come subsidiary to the party machin-ery.' Do you mean that you will make the national party's work of organization subsidiary to your plans? If so, that is a proposition which I am sure would be rescuted by the comrader everywhere, even a large number of

your own workers.
"So far I have had great cause for encouragement through the co-opera-tion and support gives me by the So-cialist press in all parts of the coun-try. I believe they all desire the work of organizing advanced. But I also believe that none of them would expect the national party to yield its priority in the directing of organization to any one of them. They recognize that the national party has a certain field to work and they co-operate in cultivat

"All I not in that the 'Anneal,' or any other paper, confine itself to edu-cating, agitating, prometing organiza-tion, and advance its circulation in its own way, and that the national office be allowed to fulfill, the purpose for-which it is organized. Unless this is done there must be confusion, and there must be a conflict of plans that will only mean a waste of money and energy. This is what I wish to avoid and this is what I trust you will do

your utmost to avoid.
"Regarding the paying of dues, why not promote the adopting of the stamp. system through which the party now gets its principal revenue? All the best organized states are run on this plan. This office sells stamps at five cents each to the state committees, who sell them is turn for ten cents each to the local secretaries, who sell them again to members for the amount of the monthly dues. The stamps are affixed to the due cards and show the standing of members. Comrade Unter-mann can probably explain the system to you in full."

(E.) Ricker to Mailly, March 25: (E.) Ricker to Mailly, March 25:
"I am at a loss to know whether your failure to understand me or my work here is due to my inability to give you a fair exposition of the asme or your absolute failure to comprehend what I have so plainly tried to explain to you. First, let us understand that the agitation work undertaken by the "Appeal" will be prosecuted with diffusione and vigor. Our plans are fully made to send a man to every state in the Union, who will become an agita-

version. The 'Appeal' will go on even ugh the Socialist Party shoul go of existence, We have fully de-ed of this office that our circulation shall reach one million copies weekly, and this within twelve months. We have a band of deveted workers fully twenty-five thoseand strong who always respond with their money when ways respond with their money when we "start something," because they know that the 'Appeal' is the greatest Socialist propagands machine on this worth. We propose to make the 'Ap-peal' greater even than anything that can be produced by capitalism. Every-thing that this office does in the way, of angliation will-decease, the metric of agitation will observant the party strength, and because this is true all af our undertakings so long as we jeach the philosophy, of the class struggle, which is the corner-stone of

Socialism, should have your unquali-ini enders and, "You say: 'I am surprised that you abink the had I said or implied any such thing. I certainly believe that to be your specific function, but I have first to be convinced that you will do the party any tajury by taking advantage of anything that we may do to assist you. You will bear in mind, Comrade Mailly, that we have not asked you for snything. I suspect that behind your antagonism is another motive. You comrades of the East seem to have great fear of the revolutionary farmers of the West and South. There is no use to demy this, because Barne and Carey both defined their position to me la specific terms. I consider such views as very short-eighted and unstatesmanlike, likewise un-Ameri-can. I will not deay that we are making a great effort to enroll the Popt under the Socialist banner, and are succeeding.
"I hope that I have made myself

clear in this letter and that we will not henceforth misunderstand each

"Comrade J. Edw. Morgan will start for Georgia next week. I am scheduling him through Arkansas making dates with men who belong to the 'Appeal' Army. I have not bothered your official organization in that state. We shall advise Comrade Morgan to organise a local in each place he visits where such organization is possible For that purpose I would like to have a supply of organizing material. All that Comrade Morgan can do along this line is to take the application for charter which must of necessity go to you and the Quorum for approval." (F.) Mailly to Ricker, March 26:

"I have your favor of March 25 and same is fully and carefully noted. I have only this to say in reply. If the 'Appeal to Reason' sends out an organher it does ho on its own responsibility and the national headquarter has absolutely no connection with the undertaking and assumes no responsi bility therefor." When this office is ready to send out organizers into any unorganized territory we shall do so regardless of anyone else's plans or

where Comrade Carey stand and I know he is too much of a Social iat to be bothered by any nightmare concerning the workers in any part of

the country.

"I will insist during my occupancy of my present position that no Socialist paper shall have advantage over another so far as the work of organization is concerned."

A CORRECTION.

Editor of The Worker:-- I have just noted for the first time the omission of National Committeeman Mills' vote on Demand No. 2 from my statement or mit No. 2, and should have been so recorded. Early publication of this correction will oblige.

Fraternally yours, WILLAM MAILLY.

THE INDEPENDENT LABOR LEAGUE.

plies to Criticisms Made by Worker. [In the issues of Jan. 11 and Feb. 1.

The Worker made some adverse com-ment upon the National League of In-dependent Workingmen of America, then being organized by Bev. E. M. Fairchild of Albany and now incorporated under the name of Independent Labor League of America. Mr Fairchlid asked for space in our col umns to reply to the criticisms. We may later make some editorial com-ment upon Mr. Fairchild's letter, which is here printed in full.] Editor of The Worker:--It will be

difficult to preserve proper courtesy in the discussion of this new labor organisition, the National League of Inde atton, the National League or Inde-pendent Workmen of America, be-cause personal interests are involved in the outcome. "Whom the gods de-stroy, they first make mad," and it would be poor policy for the Socialists to indulge in anything but courteous reference to those connected with this new labor organization, because most people less confidence in those who use vituperation for argument. No recent utterance of Mr. Gompers has injured the American Federation of Labor so seriously as his denunciation at New Orleans of President Eliot's made to send a man to every state in the Union, who will become an agitation and subscription-taker, and , when it can, he done, without friction, an organiser. That you should object to so valuable and intensely practical an undertaking causes me a great deal of worder and autoniahment. If there is any conflict between your office and this I wish to assure you in the most coming a gentlemen in debate. The movement to organise a national beadquarters and not in the editorial rooms of the 'Appeal' commenced business before there was a Socialist Party worthy of the name. It has moved, steadily forward as a propaganda peper and has taken practically so part in the factionsh and rilly party senter.

struggle to be done away; and the love of truth and rightsousness should pre-serve us from excited display of tem-per, from which can result nothing but confusion. I certainly advise the independents to keep cool, and to treat their opponents courteously in debate. If the Socialists in dulge in slander, so much the worse for them, so much the easier the victory for the independ-My relation to this N. L. I. W. A. is

that of one called in for consultation as representing the interests of the general public. For ten years I have been interested in the workingman. I have earned money as a carpenter; have worked many a day ten hours with the thermometer at 120 degree where I was working. Most of my life has been that of a student and preacher, but I know what physical labor is. Your Mr. MacCartney and I were classmates in Andover Theological Seminary, but we differed thes and differ more widely now in our convictions as to the social order likely to produce in practice the greatest good to the greatest number. My graduating address was in advocacy of a shorter workday, and an effort to utilize more of the workingman's strength for intellectual and spiritual culture. Since then my attention to the well-being of the working people has never flagged, and for the last two and a half years I have made a business of understanding labor organ izations. I have inside knowledge, and am not dependent on the informa-tion given out by press committees, which is "ex parte." In view of these facts it was appropriate that the workmen interested in forming this new labor organization should use me in consultation. I am not the organ izer of this League and I give my word of honor that a bonn fide workingman originally suggested the or ganization, and that workmen will per fect it and control it. It is true, how-ever, that it has already gained many expressions of good will from employ I understand why the Socialists do not like this. Harm do not like this. Harmony between workmen and employers will perpetuate the wage system, but those organizing the League are not convinced that the industrial state which the Socialists propose will prove satisfactory to the laboring people, and they con-

aider this harmony between employers and employees desirable and advan-tageous to the laboring people themselves. This League is also a move on their part to co-operate with employ-ers in what seems proper regard for the rights of the general public. Public opinion seems to me ripe for such an organization. Employers are not likely to endure being forced to take the risks of business when the unions insist on doing the managing; the general public resents being played for "suckers," as a union leader lately remarked. There must be some rules of the game of industry which are fair to all concerned, and on these the workmen interested hope to found the League.

honor that this League is not likely to become an agency for strike-breaking.

If this filthy word "scab" means "il workman who is not a union member, of course, all League men will be appropriate recipients of this name; but it union men apply this name to League men the name will lose its horrors, and have no influence. We had better keep the word "scab" to designate the loafer who is out for "easy money" during labor disputes. If a workman who is making for himself a workman's career according to his convic-tion that the League of Independent Workmen stands for the best interests of the laboring classes is to be called "scab" then to be a "scab" will be to be what most men approve, an in-dependent, self-directive, self-re-specting citizen of a nation which rnards as sacred the independence in

There are four classes:

(1) The "professional strike-break-ers" who are on call as their chosen business in life to break strikes.

(2) The "scabe" who are bums by profession, and simply take a chance at high wages during a strike to loaf inside a shop to keep up appearances. (3) Then there are the independent workmen, who believe in making the most of themselves according to their opportunities without dictation from some labor organization officer.

(4) There is the union workman. who believes it wise to relinquish his rights as an individual, and work un-der the direction of a manager elected The independent workman and the union workman are men of equal respectability; each regards what he be-lieves to be the good of the laboring people, but they differ in their convic-

These independents are not cowards. and I do not see why they should do any running. Each man has the right of self-defense, and a right to carry the weapons of defense. The "profes sional strike-breaker" is not allowed to carry fire-arms; if he insisted on pro-tecting himself, he would not be hired by his agency; but the self-respecting independent workman must fight it seems to me in his own defense or be the subject of general contempt as a coward. I know of instances where "thugs" have been hired to "do" a so-called "scab." In the case of inde-pendent workmen worthy of the League, I hope the "thugs" will have to do murder from ambush, and with-out warning, or suffer the pangs of death and hell for a senson.

Mobbing and rioting in the interests of the unions is cowardly, and I won-der that union workmen tolerate it. I anticipate the general public will stand behind the League in their determination to resist union monopoly of the right to work and union domination of the individual. We

Worker please pass it on to a neighbor or shopmate with the request that he give it a candid reading.

National Platform of the Socialist Party.

of Bocial Democratic Party. The party emblem in New York is the Arm and Torch.]

The Socialist Party of America in national convention assembled, realizing its adherence to the principles of international Socialism, and declares its aim to be the organization of the working class and those in sympathy with it, into a political party, with the object of consouring the powers of government and using them for the purpose of transforming the present system of the property of the system of the purpose of transforming the present system of the property of the entire people.

Formerly the tools of production were simple and owned by the institution where. To day the machine, which is but an improved and more developed tool of production, is owned by the capitalists and heap the workers. This ownership ranshes the capitalists to control the product and heap the workers. This ownership ranshes the capitalists to control the product and heap Private ownership of the means of production and distribution is responsible for the ever increasing uncertainty of livelihood and the powerty and minery of the working class, and it divides society into two hostile classes—the capitalists and wage-workers. The once powerful middle class is rapidly disappearing in the mill of competition. The struggle is new between the capitalist class the means of livelihood gives to the capitalists and the control of the government, the press, the paipit, and the schools, and enables them to reduce the working new to a state of intellectual, physical and social inferiority, political subservince and virtual slavery.

The enter of the control of the proveniment to a state of intellectual, physical and social inferiority, political subservince and virtual slavery.

The enter of the control of the contribution of the control of the provening the relicion of whole races is anel-thosed in order that the c

ion abross and enhance their supremary at harms.

Jest the same economic causes which developed capitalism are leading to Socialism, which will abolish both the capitalist class and the class of wage workers. And the artific force in bringing about this new and higher order of society is the working class. Ask, other classes, despite their apparent or agrinal conditions of the available interested in the upholding of the instruments of westing productions of the contract of

While we declare that the development of economic conditions tends to the overtimore of the capitalist system, we recognize that the time and manner of the transition to Socialism also depend upon the stage of development reached by the proletariat. We, therefore, consider it of the utmost importance for the Socialist Party to support all active efforts of the working class to better its condition and to elect Socialist active efforts of the working class to better its condition and to clear Socialist active efforts of the working class to better its condition and to elect Socialist attainment of this end.

As such means we advocate:

1. The public ownership of all means of transportation and communication and all other public utilities, as well as of all industries routrolled by meaopolies, trusts, and combiness. No part of the revenue of material products of the employees, the result in the state of the spelled wholly to the increase of wages and shortering of the hours of labor of the employees, to the improvement of the service and diminishing the rates to the consumers.

2. The progressive reduction of the hours of labor and the increase of wages and stretched to decrease the share and diminishing the product of labor.

3. Rister or sational insurance of working people in case of accidents, lack of employment, alchoes and want is old any: the funds for this purpose to be collected from the revenue of the expitalist and product of the propose to be collected from the revenue of the expitalist class, and to

ment, alckness and want in old age; the funds for this purpose to be collected from the revenue of the capitalist class, and to be administered under the control of the working class.

4. The inauguration of a system of public industries, public credit to be used for that purpose is order that the workers be secured the full product of their labor.

5. The education of all childras up to the age of eighteen years, and state and municipal sid for books, citobing, and food.

5. Equal civil and political rights for men and women. S. Equal rivil and political rights for many properties of the control of the con

MASSACHUSETTS LEGISLATURE.

Three Socialists Have Opponents "on the Run."

Put Ua a Strong Fight for Aid for Unemployed, Public Ownership of Mines and Fuel Yards, and Life-Protection on Railways-Ropublicans and Domecrats on the Herns of a Dilemma.

BOSTON, Mass., April 6,-The past The weeks not be the second of the Legislature; the mornings have been devoted to committee hearings upon the various bills introduced by them. the afternoons being occupied at legision, and evenings devoted by menking in this and adjoining states The committees are now reporting the bills that were submitted to them,

among such bills was one offered Comrade MacCartney, calling for an appropriation of \$100,000 as an eveney fund, to be used in time of industrial distress, in the bulkling of roads and other public work to give employment to the unemployed. bill was reported adversely by a com-mittee made up of Republicans and

This calls to mind the days of 1804. at the time of the great industrial nanic, when meetings of the unemplayed were held daily upon the Com-mon, presided over by Herbert N. Cas-son and Morrison I. Swift. One day the hosts of apamployed marched to the State House in a body to ask for relief. Governor Greenhalge, in great slarm, telephoned for the police. The army of workingmen dispersed quietly, but their pressure in such numbers imseed the state officials with the cresity of at least making a pretense of doing something, and they accorded them the usual relief by appointing a committee on investigation—and that

ras all that ever came of it.

The present bill was reported ten minutes before adjournment of the House on Thursday, and they entered an immediate discussion of it in expectation that it could be disposed of in ten minutes. Comrade MacCartney opened in behalf of the measure, and asked that the bill be substituted for the adverse report. He said that this measure, if adopted, would give relief in the impending commercial crisis, and that it was the duty of the legislators to recognize the needs of the people in such emergen-cies, and quoted from the report of the Investigating committee of 1804 that it was within the province of the state to give to honest men with families the opportunity for employment when such opportunity was denied them in periods of great industrial depression. Dana of Newton, a Republican, op posed it on the ground that the state should not care for the individual, that they should not aid in setting up as paternal government and destroy

that individual independence that was the basis of society to-day. The House then adjourned, and the er came up again the next after-Representative Callender, though a Republican and a member of the nimittee that had given the adverse report, took issue with his party asso-ciates. The able argument which Mac-Cartney had made for the bill evidently won him over, and he attacked his ciates on the ground that the state as establishing no precedent by auting paternal legislation. The Re-blican leader of the House replied to Callender in a lengthy endeavor and also made a bitter attack upon the bill the individual is superior to the gov-It was a Socialist proposi

When he concluded, the capitalistic interest in the body to some extent applauded him. Carey instantly arose, and said: "Stand up, you members who applaud. Stand up, you members who applaud this sentiment of anarchy as expressed by this Hapubilean leader." ne of them half rose in response to Carey's call and then dropped back into his sent as though ashamed. Carey continued with an impassioned speech in which he showed that the doctrine of the individual being an erior to the government was the doc-ine that nerved the arm of Czolgosz, his was the doctrine of the Amrehist, and here stands the recognized Repub-lican-leader of the House side by side ment in its organized capacity. drove the capitalistic representatives into a hole from which they could not extricate themselves. But they defeated the measure when it came to a vote. One more point on which we thust appeal to the people.

The Fuel Bills.

it is conceded that MacCartner's bill, known as the Legate petition, for memorializing Congress to take over the control of coal mine industries, will be favorably reposted by the commit

The heavilig bit the constitutional amendment enabling towns and cities to establish municipal fuel yards was before the committee and this also, it is thought, will be reported favorably. This bearing was a motable one, ex

tending over two days.

By direction of Socialist State Executive Committee, these matters haze been brought before the several town cetings in the state for consideration ome instances special town meet-were held, and the resolutions were adopted in almost every instance

ive committee in support of the meas ure. The Selectmen, in many instances personally opposed to the measures, ap-peared at the hearing and advocated in behalf of their towns the recommenda tion for the resolve of constitutional legislation. The Socialists appeared in force to support the measure, and it was conceded that with the strong support given to it at the hearings and 10,000 petitioners asking for its passage was too great a movement to be ignored. At the conclusion of the arguments in savor of the proposition, the epiposition was called for, but no one appeared.

Capitalist Press Shows Alarm

The Socialists do not look upon thes bills as meaning Socialism, but they are socialistic in their character and show the trend of thought upon the part of the people. These measures are not received in the House without slarm upon the part of the capitalist press, and the Boston "Herald" issues another screech and under great scars bends calls for a leader to head off So cialism, and says it is not to be sup-posed that such radical resolutions as these will pass the House because a majority of the members have sudden become converted to the Socialist neary of government, but that the average member, recognizing the demand for legislation along these lines. feels that the ensiest and most irresponsible thing to do is to report in favor of the bills and then kill them. thinking that this will satisfy the de-

mand and appease popular clamor.

The committee in charge of this bill was composed of twenty-one members, fourteen Republicans and seven Demo crats. The "Herald," noting that there were no Socialists on either committee a surprised that they should be re ported favorably, whereas a few years ago they would not have been seriously cutertained for a moment. It explains the situation by saying that there are some Republicans and Democrats who feel that it would be safe to pass this legislation because there would be little likelihood of a stress of circumstances that would cause the people to avail theselves of the opportunity offered by it.

It is plain that the Legislature has become panie-stricken by the strength of Socialist agitation. No one, in fact, denies it: With only three Socialists in a House composed of 240 members. the persistency of effort and the character of the men who represent our party have forced that great majority to take cover behind semi-socialisti We do not expect that these bills will be passed. The private interests that might be assailed, remote as the possibilities may be, will whip the capitalist repres into line against the measures. But having made the fight and frightened our opponents, we will go to the polisiagain with renewed strength and prestige.

So Damned if You Do and

Among the suggestions of one of the Republican members are: What would it cost for the government to take the mines? Under what clause of the constitution can the government take the control? and Do you wish to assist in furnishing capital to the Socialists, and to see Carey as Governor and Mac-Cartney as Licutenaut-Governor of Massachusetts? At one of the hearings I said that I trusted the committee would not be deterred from recom mending this resolve because of any capital the Socialists would make out of such recommendation, and told them: "The Socialists will make capital out of it if you do recomm and the Socialists will make capital out of it if you don't recommend it." We have got the Bepublicans and Democrats impaled on either born of the dilemma, and in answer to Hepre-sentative Jackson, Democrat, who asked if I did not think that we would make more capital if they did not recommend it than if they did, I answered: "It was quite possible that we swered: "It was quite possible that we would; but we have got you in a posiswered: "It was quite possible that we would; but we have got you in a position where you are damned if you do and danned if you don't."

and the inaverning with scare headlines on the most conspicuous page stating that he spoke under the auspices of the large law of 1901, providing that unskilled labor employed on and danned if you don't

Carey's bill providing for additional brakemen on freight trains has been reported favorably, with the muni string attachment of leaving it in the discretion of the Railroad Commission Our Representatives will have plenty of work, stirring up the animals in the

capitalist menagerie from this hour. Much disappointment was felt in the state as a result of Comrade Mc Grady's iliness which prevented him filling four of the dates that had been arranged for him. We first learned of it when the comrades of Connecticut sent for Comrade Carey to substitute for him at Hartford, which he did. He took his place also at Turners Palls on Sunday. ' Comrade MacCartney filled his date at Lawrence on Saturday night, and will take his place at Chelsea on Tuesday night. Comrade Gibbs substitutes for him at Plymouth

on Monday.

Comrade Carey, besides attending to nis legislative duties, spoke twenty-six times in the month of March, in Maine, New Hampshire, Massachusetts, and New York. Talk about strenuous life! Socialists know what it is. The writer addressed meetings during the past week at Lynn, Marbiehead, Abington, and Fall River, organised a club at Abington, and formed a new organiza-tion at Fail River, consolidating a German and an English branch. The Executive Committee has had 5,000 copies of the stenographic report of the Carey-Stimson debate printed, and this

DIVIDE AND SUBJUGATE.

Haverhill Capitalists Rejoice in Workers' Strife.

Old Party Politicians Making the Mesi of Union Rivalry-By Featering Discord and Exciting Race Prajudice

They Hope to Defeat Socialists. HAVERHILL, Mass., April 4.—A light between two rival unions of shoe-nakers has been going on for about two mouths in Haverhill. It is the policy of The Worker not to take sides in affairs of this kind, but when the fight is between the workers and the capitalists it is necessary to take the side of the workers.

This policy has also been maintained by the Haverhill Bocialists during the present "strike." But nevertheless the capitalist politicians and all the press of this city have eagerly seized upon the opportunity furnished by the strike altuation and are constantly circulating all kinds of deliberate lies and mis statements with hope of causing dis-satisfaction among Socialist voters. On the whole the attempt will prove a fallure, but I regret to may that a few workingmen are being deceived and are falling lute the trap set by the

apitalist press. There are about 150 men on strike nost of whom reside in Ward 5, th Socialist stronghold. The politicians consider this to be their chance to de feat Representative Carey, if he should renominated, by causing a split in the labor vote, a trick which has often een tried in Europe and failed, as no oubt it will in this instance.

Appeal to National Prejudion.

Most of the strikers are French-annelisms who have voted the straight ocinitat ticket for the mast five years An attempt is being made to work upon their national prejudice in addi-tion to their present strong antipathy toward the rival union. Already iass meeting of French citizens. the object of running a man of that nationality against Carey on an oppo-sition ricket has been held. The politiclans who are engineering the scheme from behind the scenes were not en-tirely satisfied with the sentiment dis-played at the meeting and had it ad-

journed to a future date. The Republicans ran the strongest and most popular Frenchman in the district against Carey in 1991, but he was ensity defeated. This year they are trying to cause some of the strik ers and sympathizers to become so dis-gusted that they will not vote at all. And they evidently intend to fool others, if possible, into voting for a Frenchman under the delusive title o 'independent" or "citizens' candidate or some such name intended to hide a wolf in aheep's clothing who favors the capitalist system of expiditation whereby the workers are deprived of the product of their toil.

Capitalist Lies. Among the lies which are being cir-ulated are that Carey speaks in favor of the rival union when out of the city and pretends to be neutral while he and that he will not run again for Representative as he intends to accept a position as national organizer for the

rival union. Carey emphatically denies all the re-ports which have appeared in Haver-hill and Boston papers and says he re-grets that some of the workers are being deceived but that they had to go through that experience before they would learn to distrust reports in the capitalist press. He says they must learn that that it is the business of such papers to lie in regard to labo

He accepted an invitation to speak at Keene, N. H., under the auspices o the Central Labor Union of that city and the Haverbill "Gazette" came ou opular union.

The press is also circulating lies in regard to Comrades Chase and Fland-ers. Taking advantage of the fact that Chase is on a speaking and organ laing tour throughout the South under Socialist auspices, one paper has constantly circulated a report that he was also speaking under the auspices of the rival union and other false reports, These lies having reached the ears of Courade Chase, he wrote an emphatic denial of the whole marter, but as yet it has not appeared in this paper.

Flanders Misrepresented. There have been some disturbances by the strikers and the "Gazette" published an article with scare headlines stating that Mayor Flanders had turned over to the City Marshal full charge of the police force. This state ment originated in the mind of a news charge and in case he fail or neglects to perform this duty, then the Police Committee (of which the Mayor is only one member of three) shall compel him to enforce the laws or cause his re to interfers, as the Marshal has been strennous enough without prodding by the committee.

The politicians are pointing to the

alleged fact that the Mayor of Lynn, where there is also a strike, prevented the police from being too atremous in the enforcement of the law. But they do not tell the unsuspecting and un-posted workman that Lynn is operat-ing under a different form of city cluster.

It would require too much space to and good judgment of the working class and believe the politicians to be hard pressed when they have to resort to such tactics because of lack of argu-ments against Socialism.

AL TRUIST.

TAFF VALE LAW FOR VERMONT.

The Bosses Get Damages Against Strikers.

Inion Members' Property Attack Must Indomnify Employers for Cost of Private Police and Seab Boarding House-British Precedent is Quickly Followed.

RUTLAND, Vt., April 5.—The damage suit of the F. R. Patch Manufacturing Company against Protection Lodge, No. 215, Independent Association of Machinists, was decided to-day, the jury returning a verdict in favor of the manufacturers, after having de liberated twenty hours. The company sued for \$10,000 damages, alleged to have been suffered as the result of a strike of the machinists some time ago

The jury awarded \$2,500. The strike was for recognition of the union.

Among the items of expense for which the company claimed indemnification were the cost of maintaining a idarding house for the scabs, whom no ouse keepers w tertain, and of hiring a force of private

The New York "Evening Post" adds the following information to that given in the disputch:

"The strike began on May 12 last. The company secured enough non-union men to do the work of the 200 or so then who struck, and continued to fill orders. The strikers and their sympathizers did everything in their power, according to their own testimony, to hinder and embarrass the Patch Company. They induced work-men to leave the employ of the company, and boycotted its products.

Union Men's Property Attached.

"When the suit was brought over ne hundred writs were served on the nembers of the union. Every piece of available property belonging to any ember was attached, and the lewyers sny that the Patch Company can recover the judgment from this prop-

"It has been hard to get hold of the officers of any of the Rutland un'one, nearly all of them having left the State. The records of every union in the city covering the past year have disappeared, although they have been demanded by the court."

A Precedent Quickly Followed. The precedent set in England by the Taff Vale and Denaby decisions is pe-ing taken advantage of by the ex-ployers, even more readily than was expected. As has already been re orted in The Worker, a suit similar to the one just decided in Vermont, Railway and Lighting Company against the trades unions of Water-bury, and is now awaiting trial. Manushile, the Socialist vote grows,

even in Vermont.

ANOTHER LABOR LAW IS KILLED.

Indiana Supreme Court Takes Its Turn.

Law Fixing Minimum Wages on Public Work Deplaced Unconstitutional-"Violates Freedom of Contract.

INDIANAPOLIS Ind Anel 2 The upreme Court of this state yesterday knocked out one more labor law ob tained by the trade unious through towns shall be paid for at the rate of not less than twenty cents an hour, is unconstitutional.

The law which is overthrown not only would prevent public officers from making such contracts, but pro vided a fine and imprisonment for any person or corporation doing public work which should employ any unskilled labor at less than 20 cents an hour. The decision is based on the ground that it interferes with the lib-erty of contract and is class legislation, and the court declares that it would be as reasonable for the legislature to fix the minimum price which counties, cities, and towns should pay for bricks as to specify the minimum price they

In summing up the decision the court further mays: "No sufficient reason has been assigned why the wages of the unskilled laborer should be fixed by law and maintained at an unalterable rate, regardless of their actual value, and that all other laborary ahould be left to secure to themselves such compensation for their work as the conditions of supply and demand, competition, personal qualities, energy, skill, and experience may enable then

Father McGrady will lecture in Teu nia Hall, Youkers, N. Y., on Tuesday evening, April 14. His subject is: "The Economic Question and its Sciu-tion." All Westchester and New York: comrades are invited to help in making this meeting a big success. Ten ceats admission will be charged to defaus expenses; so far as possible tickets should be bought in advance. The So. cial Democratic Party has already a

BUTTE, Mont., April 6,—Socialists elect Mayor, Treasurer, Police Magis-trate, and three out of six Aldermen We lose Butte by only four hundred

votes out of a total of 0,500. one Alderman here. Capitalism is shattered.

in Michigan Too.

BATTLE CREEK, Mich., April 7.-The Socialist Party elected two Aldermen in the city election held here yes

terday.
The Worker is not yet positively informed whether this means that we have re-elected the two Socialist addermen elected in Hattle Creek last zear, or whether these hold over at we have added too more to the list. The latter seems to be the case.

Gain in Connecticut

HARTFORD, Conn., April 7.-The Socialist Party polled 529 votes in the city election to-day. A year ago we had 337 and two years ago 120. Hart-

ford is moving.
there were by wards this year is as follows: First, 41; Second, 111; Third, 53; Fourth, 26; Fifth, 30; Sixth, 57; Seventh, 78; Eighth, 59; Ninth, 53; Tenth, 21. We gained over the vote a year ago in every ward except the Second. Two years ago we had no votes at all in the Fifth, Sixth, Eighth, Ninth, and Tenth! The Sixth shows the biggest gain in the last year-from

The Economic League (union labor party with Democratic backing) in "gone up the flue." They carried only the Second Ward, and there our vote nearly equaled that of the Republi-The straight Democrats carried only the First. The other eight went

Yet Another Victory.

SHEBOYGAN, Wis., April 8 .- The Socialist Party carries the city of She boygan. Letter follows. Hurrah for

We already had four Councilmen in Sheboygan, which is an industrial town of about \$2,000 inhabitants. It appears from the brief dispatch given that we have made another great advance there this year.

TOLEDO, O., April 6.—Comrade Bragg, our candidate for Mayor, has 545 votés. At the last majoralty election we had 482. In the election last fall Toledo cast 1.571 votes for our state ticket. So it appears that a ma-jority of them are Jones-worshippers first with Socialism in second place. They will learn.

CINCINNATI, O., April 7.-The vote for Swing, Bocialist candidate for Mayor, is 3,774. Last November we had 4,373 in Hamilton County, which includes Cincinnati.

Chicago's Vote.

CHICAGO, Ill., April 7.--Unofficial reports give Charles L. Brecken, candidate of the Socialist Party for Mayor, 11,212 votes in the city election to-day. This was in spite of the presence on the ballot of an "independent labor candidate, who got 10,000 votes. In the last majoralty election our candi-date, John Collins, had 5,384.

It is not improbable that the strength credited to Breckon is much below the truth. Old-party politiclans here know how to overlook ballots that they do not wish to report. If the fig-HITES are correct they show a slight loss as compared with the November elec-tion, which would be accounted for by the opposition of a "labor" candidate and by the "public-ownership" campaign of the Harrison Democrats.

NEW JERSEY TROLLEY COMBINE.

NEWARK, N. J., April 7.-It is re ported here that negotiations are pend ing for the formation of a large holding company to take over all the North Jersey trolley companies, together with the New Jersey electric light and gas companies. The Prudential Insurat and Fidelity Trust Companies of this city and the Equitable Life Assurance Company of New York are supposed to be allied with the United Cas and Improvement Company of Philadel-phia in financing and controling the new perger. The combine would in-clude fourteen trolley, electric, and gas companies, in all parts of the state, having now an aggregate capital of naving now an aggregate capital of over \$117.00,000; one of these com-panies—the United Electric of New Jersey—aircady controls twenty-one other and similar corporations doing business in Essex, Hudson, Union, and

orring counties.

If the don't goes through, it is exat it may cause great hardship at the state capitol, and the united trolley interests will be able to cut down the rate of compensation of their servants in public office.

GREAT STRIKE IN HOLLAND.

All Transportation Industries Affected.

Primarily Intended as a Protest Agains the Proposed Legislation to Penalize Striking .- Similar Strike Won Suffrage Extension in Belgium.

Sunday at midnight the Workmen's Comittee of Defense at Amsterdam, eting under authority given it by the labor organizations throughout Holland, declared a general strike of all inhor employed in transportation by land or water. This strike is intended as a protest against the suti-strike bills, and also to support the demand of the railroad men for an increase of wages before the passage of the bills made an improvement in their position im-

The strike is spreading to other branches of laker. The diamond cut-ters of Amsterdam joined on the first day. This is one of the most important industries of the city. On Tuesday the workingmen of the building trades in Rotterdam and many of the bakers at Amsterdam and The Hague joined in the strike. The great majority of the ratiway and dock workers and wagon drivers throughout the country came out promptly.

Government Alarmed.

The government is evidently niarmed and at once entered into conference with the Workmen's Committee. At the same time a show of police and military force was made and on Monday blood was shed-workingmen's blood-in two cases at Amsterdam. A number of gendarmes charged a crowd of strikers and one of the latter was wounded with /a sabre. A workman was wounded by a revolver shot fired by a soldier lefts morning. The man was walking on the railroad, was not aware that the strike had been pro-claimed, and failed to reply to the sol-

dier's challenge.
The dispatches may: "The whole country is placarded with inflammatory Socialist proclamations warning the public not to trust themselves on rallway worked by incapable men. At the same time the Socialist organs are urging the strikers to avoid colli-sions with the troops." It is admitted that the strikers maintain excellent or der and discipline.

The Army Disaffected.

One of the most interesting features -from the capitalist point of view, the most serious—is that the government is doubtful whether ft can depend on the army against the strikers. It is known that many of the soldiers are Socialists and, of course, in full sympathy with the strike, and there is general disaffection in the ranks.

The Netherlands Railroad Company on Monday posted a notice urging its employees to resume work, and adding that if they did not do so within twenty-four hours all the workings would be discharged. Tuesday's disputches

"The proclamation issued by the railway companies that strikers will be dismissed and lose their pension rights has given the men a pause, and many have already resumed work, embling the companies to make the service more regular. There are other in dications that the strike is lesing ground. Students and others are of-fering their services as firemen and language porters." It is believed, however, that this statement is greatly ex-

Cause of the Strike.

present strike is the result of three bilis introduced by the Dutch Government in the States General on February 25, of which some account has aiready been given in The Worker. of the recent railroad strike in Holland, neasures to prevent such a state of things in future. It may be noted that about half of the railways of Holland belong to private corporations and the rest to the government—and that the government, there as well as here, belongs to the capitalists

One of the bills provides for the formation of a railway brigade as a part of the army, to run trains in case of need. Refusal to obey orders would, of course, then be treated as mutiny.

Another measure provides that the "just complaints" of railroad em-ployees shall be adjudicated by a royal commission, which is to be intrusted with the settlement of a dispute from a legal point of view as well as in con-nection with the conditions of service of employees. It is the third bill which has aroused

such intense opposition throughout Holland, and which has resulted in the present great struggle. The bill de-clares strikes illegal, though, as the reamble contains a clause to the effect that "an act of interference with per sonal liberty may be justifiable, but it may also be illegal and arbitrary," the advocates of the measure claim its application will be optional, and the there will be no attempt to prevent proper limits.

Clause 1 of the bill provides for a maximum term of three months' imprisonment and a fine of 100 floring for any willful attempt to coerce by fear or otherwise any workman in re spect of his contract.

Clause 2 relates to public servants-

which phrase includes railway workers-who are liable to aix mor ers—who are liable to six months' im-prisonment and a fine of 300 forins for willful neglect or refusal to perform the duties allotted to them. The term of imprisonment may be increased to four years if the acts in question one-

A LIVING INDICTMENT OF THE PROFIT SYSTEM,

ore terribly dramatic indictment of capitalism than the pitiful figure of

Engineer Barcliffe. Read the story, as told in the press

distintches "NEWARK, N. J., April 5 .- Oscat Barcliffe, the engine driver whose train was in collision with the trolley car of the Clifton Avenue line on Feb. 19. when nine High School publis were killed and almost three a has recovered physically, but his mind is gone, at least temporarily. Barcliffe raves about his engine all the time and keeps his hands boar cor stantly, manipulating inaginary throt-ties and levers and testing valves. All the time when not askep he is at

work, and seemingly is making his daily runs over and over.
"Owing to his condition he has had
to be removed from the place in the hospital which was given blus when he was getting better. This is the one nost sought for by patients, as it over-ooks the entrance of the hospital on High street and there is always some taing in the busy street to amuse the patient. It was thought the location would arouse in Barcliffe's mind some interest other than the never-ending manipulation of his imaginary locomu-tive, but it was noticed that every time be looked out of the window he would

uddenly become more energetic and

go through all the motions of shutting

off the steam and applying the brakes for a quick stop.
"This went on for some time with out the reason becoming apparent, and It was supposed that seeing the persons and wagons on the street caused him to do as he did. So long as he did ant look out of the window he went through his motions as if starting and stopping at atnitions, but every look out was followed by the quick stop mo-tions. One of the attendants finally solved the trouble. Standing near th entrance of the hospital, in such a po-sition that it was the first thing the engineer's eyes rested upon, was a statue of St. Michael. It is done in colors and is life size. The cloak has a red-colored cape and it was the color that disturbed the engineer. He magined the red cape to be a danger signal."

Imagine the incessent torture that man is suffering and for whose fault? For the fault of a railway company and a trolley company, both enor mously rich, whose officers, directors, and stockholders stubbornly refused to spend any portion of their unearned income to safeguard human life by doing away with grade crossings or even by providing comparatively inexpen-

sive safety, appliances. Think how foreibly that engineer must have realized the danger to himself and others every time he made the run, that it should now so persistently

haunt blos. Remember the thousands killed and the tens of thousands maimed every

nate from a collective body of public

Clause 3 provides the same punish

sent in the case of the instigutors of

The bills are still before the parlia-

ient, the Socialist members making

the chief fight against them, with the assistance of some of the Liberals.

The Brussels correspondent of the London "Times" recently wrote to his paper: "Information from a trust-

worthy source at the Hague confirms

the view that the Dutch government, while unwilling to incur any loss or prestige by yielding to popular clamor, is desirous of finding a solution to the

between the railways and the state al-

lows the interference of the latter in

the traffic regulations: a situation

which prejudices the status of the rail-

way employees in disputes such as have recently occurred. Ministers are

now said to be inclined to infuose

provisory regulation definitely fixing the judicial position of railway ser-

vants, and also to establish a council

putes that might arise. Should this form of compromise be accepted the

criminal clauses of the anti-strike bill

could be medified or withdrawn."

The Bolgian Suffrage Strike.

The use of the strike as a politic

reapon is not unprecedented in Europe.

Nine years ago the workingmen of

Relgium forced the government to grant a large extension of the suffrage, which it had repeatedly refused, by

means of a very effective genera

strike. An attempt to win further concessions in Belgium last year by the same method proved unsuccessful,

however. A similar demonstration

UNIONS AND POLITICS.

Gloveland for Taking Republican

CLEVELAND, O., April 4.-The

Cigarmakers' Union last night with-drew Sol Sontheimer as its delegate to

the United Trades and Labor Council

of this city. This action will result in Southeimer's deposition as the Presi-dent of the Trades Council. The res-

son for the withdrawal of Sontheimer was his acceptance of the Republican nomination for Vice-Mayor. The workingmen are setting tired of the rule of "No politics in the union, but the union leader in capitalist politics."

such conspiracy.

Hardly could there be imagined a | States-the horrid roll growing steadily greater, not only absolutely, but greater out of all proportion to the traffic, railway work becoming each year more dangerous to life and limb. Consider why that man kept a posttion that, to his certain knowledge, meant daily parti of death in its most fearful forms and of much worse than

> Remember not only that grade crossings are always preventable, but that experts of high authority maintain that all collisions are absolutely preventable-and that all that is needed to save these lives in the spending of a certain amount of money.

death. Ask yourself, Why?

Then turn to the railway capitalists and see how satisfied they are. They are satisfied. Their dividends are large and growing larger all the time Their lives are not in danger.

And when a cullision occurs, hear how complacently those dividendtakers say: "It was the workingman's fault."

Then turn to the courts and, in the muses between injunctions issued at the suit of railway companies, hear how - wilbly those contribut indees talk of "the free contract between employer and employed," and of "the as-

umption of risk by the employee." Then turn to the legislative bodies of the land, and you will not be surprised to find that it is the Nocialist plone who persistently and consistently demand and fight for the measures no cessars, to prevent such "accidenta."

You will not be surprised to observe that, if you have thought well, for you will see that it is profit that slaughtered those nine children in Newark and unde this workingman a maniac. Profit is the motive to a yearly butchery, in this one industry slope, greater than many historic battles. Because these rallways and all the other instruments of industry-which the workers have erected, which the workers operate and keep in repair, and which all the people need-are held as private property to yield profit to owners who do no stroke of work upon themthat is why these norrors exist.

Profit spells robbery. Profit spells fraud. Profit spells murder, Profit spells every crime in the calendarand in its meanest and vilest form.

Let us do away with profit. Let us ubstitute public good as the motive of industry. We need not have daily holocausts in order to carry on industry. It is only in order to carry on. profitable industry that we need them. Let us stop them, and with them a thousand other evils, by dethruning the year on the railways of the United Profit Kings.

THE GLOBE FAIR

Het Proceeds Probably between \$7,000 and \$9,000-Announcements.

The Daily Globe Fair is over, for hich so much work has been done during many months past. The finnscurately, as some accounts are not yet settled, especially for tickets. It is thought safe to say, however, that the net proceeds of the Fair to be added to the Daily Globe Fund will be between \$7,000 and \$9,000. This is, however, only a rough estimate. Definite information will be given as soon as

Secretary Butscher has his office at the Labor Lyceum, 64 East Fourth street, where he may be seen or addressed by mail on any business c nected with the Fair or with the Daily organizations who have not yet settled for tickets taken should lose no time in reporting on them, turning in money or tickets, so that all accounts may be settled without needless delay. The result of the voting

which excited much interest on the last two days, may be given as follows: As the most popular trades unionist Ben Hauford of Typegraphical Union No. 6 received a handsome gold watch. The most popular lady worker at the

Fair was declared to be Miss Johanna Dalume. She also has a gold watch to

The desk went to George Bauman of Cigar Packers No. 251, as the most popular unionist, John Kilgus of the Brotherhood of

cointers won the carriage, as the farorite among business agents Michael Brayer of the Cloth Spongers led the list of union presidents and got a gold locket in evidence of it.

The gavel was awarded to Cigar-makers No. 141. Finally, the six Arm and Torch emclems went to the Social Democratic Educational Club of the 8th A. D. the Socialist Literary Society, the Young People's Social Democratic Club of

THE SOCIALIST THE SOCIALIST THE SOCIALIST THE SOCIALIST THE SOCIALIST THE SOCIAL SOCIALIST THE SOCIALIST S

bver the reports of dissatisfaction and rumors of trouble coming from the anthracite coal fields. That the decimion of the arbitrators would be an unsatisfactory compromise was a foremonè conclusion. That it would be loose and ambiguous in form was to be expected. But, after all, the chief point is that there is no power to enforce obedience to its terms upon the mine owners, while they, by the fact of ownership, have the power to interpret it to suit themselves and demand that the miners submit. It all comes Bown to a question of power, for capi talism knows no such word as honor br justice or mercy.

In view of the Butland'decision read eleewhere in this paper, and the nimitar decisions to be expected in Wakerbury, the adoption of laws for inporporating trade unions and penalizing strikes, such as are pending in the Connecticut Legislature, or such as The Dutch government is seeking to enact, seems hardly necessary. As the PErening Post" significantly remarked commenting on the Taff Vale decision, Pjudges and juries can make old law buit new emergencies." Fortunately that is a game that two can play at. Let the workingnien of Butland and (Waterbury put men of their own class and pledged only to their class on the beach, as the Socialist Party proposes, and we shall see unions recovering damages from employers who try to lock them out or blacklist them. Then jwhat a howi we should hear from the power by the judiciaryi

THE JUDGE IS RIGHT-BUT?

The Indiana ludge who wrote the flecision declaring the minimum wage law unconstitutional probably wrote refeer than he knew when he used

No sufficient reason of assistance why the wages of unskilled laborers should be fixed by law * * * and all other laborers left to secure to themselves such compensation for their nork as the conditions of supply and themsand, competition, personal quali-ties, energy, skill, and experience may

It is the felicitous order in which the mrued jurist enumerates these factors in the fixing of wages that particularly

First come "the condition

and demand and competition"-and judge who guarantees them their quite properly first, for these are the sacred right to sail their labor power determining factors. All the energy. for less than twenty cents an he skill, and experience in the world will not keep up the mechanic's wages, if there are more energetic, skilled, and experienced mechanics in the labor market than the capitalists can profitably employ. The reason that the printer gets higher wages than the navvy is not that the printer's work is harder or more unpleasant or more useful, but simply that there are more

men who are able to shovel dirt than

men able to set type, in proportion to

the number of men whom the capital-

ists want for each purpose. The capi-

talists show their consciousness of this

fact by their liberality in endowing

trade schools and their advocacy of

manual and industrial training as a

part of the system of public education.

And a little thought on the subject will

show the fallacy of the advice so com-

nonly given by speech-making "cap-

tains of industry" like Carnegle and

so loudly echoed by their mouthpieces

of the Civic Federation and Bronomi

League species, that the workers give

up strikes and boycotts as well as la-

bor legislation and try to raise their

wages, each for himself, by acquiring

greater industrial skill. The capital-

ists know that every increase in the

number of skilled mechanics will help

them to reduce the wages of such

workmen; and they are in no fear of

the supply of common laborers run-

Equally appropriate is it that the

judge should put "experience" at the

foot of the list. In these days, with

too many years experience. "Super-

appuated" is a dreaded word powa-

days, even for men of forty. Work,

work harder, work faster, work at

your highest speed lest you lose your

job, work out all your energy into

profits for your boss as quickly as pos-

sible-and then, get out of the way,

make room for a vonneer victim, so

starve slowly or drown yourself

quickly and bother us no more; that is

the only word capitalism has for the

This eminent expounder of the law

is equally perspicacious when he says

that it would be just as reasonable to

fix the minimum price of bricks by law

as to fix the minimum price of labor.

ers for wages-then it is rensonable

that labor-power should have exactly

the same standing before the law as

any other commodity, any other thing,

No one who admits the rightness and

reasonableness of the capitalist system

can logically oppose this contention.

Only the Socialist is in a position to

The Socialist says: Capitalism is

not a brick. Any system which puts

some men in the same economic

category with bricks is a bad sytem-

not merely bad in some of its parts

but totally and unreformably wrong

And because men are not and ought

not to be bricks, we call upon them to

refuse any longer to be treated as such,

to refuse to be bought and sold by the

day and used for the profit of other

men-in a word, by becoming the joint

owners of the things with which they

work, to become individual owners of

their own persons, associated free

workers instead of being industria

To this position all must come who

are dissatisfied with their status as

bricks. And they will come, for greedy

bosses and service judges and politi-

cians and editors are doing even more

Some of the papers call the result

in Butte a Heluse victory. Heinze and

all the other capitalist politicians may

producers of wealth.

ning short.

The Indiana Supreme Court having nullfilled the Minimum Wage Law of that state, as the New York Court of Appeals did our Prevailing Rate Law in 1901, will the workingmen of that state follow the foolish example of those of New York and begin anew the humiliating and futile task of beg ging for favors from their masters legislative lackeys? Some of them will. Others will not need a further lesson, but will vote for what they want direct, under the hanner of the Socialist Party.

"Class legislation," exclaim the Indinna judges in holy horror, as they examine the law fixing a mini mum wage for laborers on public work. Right. It is class legislation, gentlemen of the ermine-half-hearted and inadequate class legislation. By wiping it off the statute books you have made many recruits for the So cialist Party. Keep on, gentlem and pretty soon we will carry your state, and then we will show you some class legislation that will make your hair stand on end.

District Attorney Jerome tells the good-government people that "principle will not do the trick in this community." He shows unbounded confiterice in his own personal ability to so the trick. Is this confidence based on his own absolute lack of principle

progressively speeded machinery and Summarizing and commenting upon keen competition for employment, it is some Massachusetts Labor Bureau not safe for the workman to boast of statistics of persons "retired with : competency," the New York "Times" says:

"Of retired lawyers there are only 108, while the doctors number 201 and the clergymen 145. Laborers do not fare badly, so far as retirement on a competency goes, for 1.076 of them are recorded."

Think of it: In the great state of Massachusetts, with its three millions of people, there are actually living 1,076-laborers who have been able to ave enough from their wages to take a few years' or a few months' rest in their old age without depending on charity! And in suite of this manifest prosperity Socialism grows among the Massichusetts workingmen.

It was really quite a touching story the papers printed the other day, telling how Mr. Mundy, a Newark engine manufacturer, pleaded with his machinists not to strike. But we find one passage that somehow jars and spoils the pathos. The gentle Mr. Mundy exclaimed at one point:

"What is the International Associa tion of Machinists? Is it an incorporated body? Has it the power to su and be sued? If you can show me that it has these powers, then I'll enter into agreements with it."

Whereupon an employee explains that if labor organizations could get ustice in the courts they would incom porate, and the following colloquy enmed:

"If we would incorporate," said the employee, "the large corporations would keep us in court all the time." Well, you can do the same thing. eplied Mr. Mundy.

"We can't get the money to fight with," was the reply.
"You should not incorporate until you have the money," said Mr. Mundy. "It takes money to talk to a business

rocid, and always will." Mr. Mundy is quite right. In the usiness world it is money that talks, and his class will see to it that the workmen do not get enough of it to make themselves heard in that sacred value. But there is a place where manhood can talk when it will. At the hallot-box the machinist's vote counts for as much as Mr. Mundy's or Mr Morgan's-if the machinist knows a well how to cast it for his own interest. There the workingmen of Newark hould answer this capitalist's insolen

After the foregoing paragraph wa written Mr. Mundy appeared to still better advantage as a type of his arrogant and hypocritical class. On Satur day, in the pathetic speech referred to he unqualifiedly refused to consent to employ union men only. After saying, "It is a rule of this factory that a lies will not be tolerated." he said of the

tannt that "money talks."

proposed union-shop contract: "This I could not sign and I never will sign so long as God gives m strength to work, even though I do all my own work, * * * If you go on strike, I shall never take you back, no matte what circumstances may arise, or ho pinintivo er supplicant your pica. am willing to trust you all right, he I insist on some rights, and these I shall have or know the reason why, is

it costs the every cent I have." On Monday the union machinists in the shop all struck. On Tuesday Mr. Mundy signed the contract and took back the strikers.

The same paper which reported his speech says, in reporting the settlesent:""The reason given for the quick estilement of the strike is the large number of contracts on hand, and a strike would mean a serious loss to the "Attendablishment."

alderable gale in profits—those are the elevant verities in sight of which the ppical capitalist will cheerfully break his word, diagrass his manhood, and limit his God.

agthy and acrin

By Horace Traubal.

Down in Congress they are hatching | you pay the bills of the statesmen. chemes for more army and navy. Let us, they say, have a bigger army. Let us have a bigger navy. Let us go out into the world and scramble for bonds and acres. We will build a navy capable of doing two major jobs at one stroke. First, it will scare off the oughtiest enemy of the repul ond, it will subvert a few of the braggart principles of our democracy. What do we want with demo

anyhow? Do you not see that the aspirations of our democracy are out-

lived? We put away democracy, or the promise of democracy, or the an-cient respect for simplicity and liberty, with the wigs of our forefathers. Con gressmen grow facetious in discussing the military needs of the present regime. Only a few old fogies, who are like philosophic deadwood, remind us of our history and our professions. New life has some to the republic. The life of the imperialist. The life of the octopus. Standard Oil has come to the republic. Carnegie's libraries have come to the republic. Ergo we need a new army and a new navy: For if we fail to provide for West Point and Annapolis what is to become of Standard Oil and the Carnegie libraries? We used to think that peace made for peace every time. But the new phi sophy centends that war makes for peace. We used to think that justice made for peace. But the new philo-sophy shows us that Standard Oil and We used to think that justice protected steel make for peace. Preach peace and all the hungry nations of the earth will pounce on your innocent and unsuspecting coasts. Declare for war and every enemy you have will forth-with offer truce. The arguers in Congress tell us that our later experime in statecraft have opened a new work of harassing problems. These prob-lems cannot be met in the old way. They cannot be met by brain and heart. They require the sword. They are to be salved out of the harrel of rifle. We find that as we get arrogant we exact regard. The nations now we exact regard. The nations now crawl to us. If we keep on increasing our navy the menace of its brute benefactions may invest us with a bar-barous repute. There will be but one god. And this lost and found America this America of the mailed fist will be his prophet. The great and only America with its tongue in its cheek will Micawber all the affairs of the continents. The Congressmen got

navy of the sens to free you? Is not that navy more likely to perpetuate I dream you free. But I wake you slave. I excuse the navy. I do not excuse you. Back of all armies and navies you stand guaranteeing the costs. Congress would not spend its time legislating confusion to the moral ate of the nation if you were up in to figuring and show how cheaply this can all be done. The people can be rms demanding that the major inte ests of the mames should be subserved. Congress should be given Labor's taxed and never know it. A great pewspaper asserts that we should spend a couple of hundred millions on further warships since money retired potice to quit. Politics must make om for economics. Congress is legi ating its body obstructively in resistby such a method is never missed ce to civilization. And you -ave put This flamboyant American editor was Congress there. You, the labor of the not quite frank enough to make the real concession. But his is the sort of sepublic. As if you were to go on for-ever conferring upon your betrayers the sanction of your high reward. You logic that has broken loose in Con grees. If you wish a competent art in America build a great navy. If you wish to encourage authorship in America build a great navy. If you wish read with indignation that nolords mehodies at Washington have rote to much of your money to increase the navy. You are virtuously aroused. navy. You are virtuously aroused. You talk of your traitors. You conto inspire musical tasts in America build a great navy. And if you wish to learn how really to love your friends and your family baild a great fean them over the fence to you neighbor. You condemnn them to yourself. Then you vote them another navy. You have perhaps never suspected how easily the virtues—all virtues, any virtues, virtues aristocratic and virtues pieblan—may be conserved by the existence of a great navy. With term. You, labor, in whom is invested the liberty, because liberty is the liv ing, of America. I would sink every battleship to the bottom of the sen. I would be willing o risk America with the moral siternaa great many the pulpit would regain its old estats. With a great many all the differences of the laborer and the capitalist would be adjusted. And so tives. I am not afraid of the ahea. am only afraid of him becau

bring civilization up short with a whoop and a bang. With the great navy a fact all the moral fictions of the republic may be sold for truck. The navy is the apple of labor's eye And the army is its peach. Labor is o easily willing to be shot down in seless battles. Labor is so humble. It is born not to live but to die. die, too, not in the boly cause of its own enfranchisement but in a profane effort to fasten itself out of doors.

And so on. That prospective

great navy is a potential miracle worker. It may be relied upon to

Down in Congress men argue for bis navies and little navies and big to little navies. But no one has the hardihood to get up and argue for no navy at all To disarm, to depend upon the justice of a cause, would be Quixotic. No man will accord you respect unless you come brutal enough to exact it. Once every private citisen went

armed against every other private citizen. Our hip-pockets were loaded with the commissaries of a quarrel. But the social ideal was to get rid of the extrinsic weapon. Even the laggard law now condemns that weapon

But states still travel armed against No one of them is nough to trust to the magnanimity of the other or to the dignity of itself. know what they finally say when they have failed to answer all the other objections. If one nation disarm alone all the warships of all the other nations will be in its ports to-morrow We see our robber selves reflected in the prospective deeds of the enemy. Each nation is its own villain. All revenges are its own revenges come me to roost.

Our Congress is a Congress of cow-ards. I do not blame these cowards for their cowardics. Nor do I blame the people for creating a Congress of cowards or for putting a premium or cowardice. But as long as labor neg-lects itself it will be compelled to eat crusts and dress in rags. This may be right or may be wrong. But labor does neglect itself. And the fruit of self-neglect is bondage.

If the labor of this country said If the labor of this country said there was not to be a big navy there would be no big navy. If it said there was to be no navy at all, no army at all, no army at all, no arm of military threat, there would be no navy, army or threat. But labor itself does not trust labor. It is afraid of its own faith. It has never counted in own pulse. It transnever counted its own pulse. It transgreeses its own dignity. It can be taxed out of home and comfort. It is still blind or still atraid.

Money calls for the army and

navy. The master money whose whip scourges your back. And you say yes. Money pays none of the bills of government. You pay all the bills—every cent. You are alarmed when called upon to pay the bills of your family. But you are gheerful when

"LABOR" POLITICS IN GREAT BRITAIN.

Recent Events Give Little Green! for Mope from the Labor Representation Movement-Timidity of Labor Mombers on Unemployed Question.

The London "Social Democrat" speaks in a decidedly gloomy tone of the recent Conference on the Unem-ployed and of the annual meeting of the Labor Representation Confer-suce at Newcastle, and indeed the facts oem fully to justify such a feeling.
On the first event the "Social Demo rat" comments as follows: "The national conference of the dele

gates from local administrative bo

nd trade and labor organisations, beld nierica to go on doing the old things axing the people, governing the people, at the Guildhall Feb. 27 and 28, should have been the most important event that has ever taken place in connection with the unemployed agitation. It was se old way? Is American labor to b davish in the old way? Has nothing but the name changed? Does the rea great opportunity. The difficulty through all the years of agitation has public but repeat all the horrors of the been to convince the authorities, loca and imperial, of the reality of the unautocracy? Is government equally in-vasive whatever its form and what-ever its promise? Is labor in Ameremployed problem and their responsi-bility towards it. The attitude of the ca giving to the legislatures and the government has generally been that so long as the people were orderly and did not riot there was no distress castes what labor elsewhere may give to the nobilities? Does it still create the tyrant, in one place calling him worthy of notice; while the loca king and in another president? What does labor intend? Does it refuse to authorities have expressed their sympathy, but denied their power and re break loose? Does it refuse to ploneer? Is America's labor to serve sponsibility, and have declined to do anything, except, under the pressure of agitation, put a few men temperar-ily to work. At last, however, through as all other labor has served withou You say no and yes. But what does persistent agitation and a favorable the big navy mean? What does Manila mean? What does Manila mean? You could prevent these atconcatenation of circumstan number of local administrative bodies have been brought to recognize the natempts to sequester the common fund, What do you do to prevent them? You growl at the castes. But what are tional proportions of the problem and the responsibilities of the state, and have been induced to meet in confer-ence, with other delegates of repreyou doing to business, congress, the church, with your approval. They could not last one day but for your approval. If you lay down your tools they are done for. If you say you they are done for. If you say you have your property disappears. In-You reptative bodies, to consider and de vise practical means for state inter And the opportunity en literally thrown away. The proceedings were not those of a confer will not work property disappears. In-bor alone is property, stored or active. It makes me sick to see you parroting ence at all, but of a public meeting, a which a few people are put forward to give addresses to a crowd of peryour democracy. I care nothing for your institutions. I care for you. I ous more or less in sympathy, but also more or less ill-informed on the hate to see you wearing a yoke. But subject upon which they are being lec-tured. Similar conferences on the unwho is to free you? Is the greatest employed have been held before: but never one so large, and so widely representative as this, and certainly there was never one so completely mismanaged. The resolutions agreed to were important and far-reaching, but they were not the result of the deliberations of the Conference, and it is doubtful how far they will be taken acriously by the bodies represented. The object of those engineering the arrangements appeared to be rather to advertise certain individuals than to help to a solution of the unemployed problem."

In regard to the Labor Representative Conference the magazine says:

ence, held at Newcastle last month has not cleared the air, as it was hoped it would do. On the contrary it has only made confusion worse founded. Seeing the very strong feeling which had been aroused by the action of Mr. Richard Bell in support ing capitalist Liberal candidates, if was anticipated that the Conferen would at last formulate a definite plat-form, and accept the fundamental prin-ciples which can alone justify the movement for independent working class representation in the House Commons. This, however, the Conference refused to do. The Social Damo crats present did their best to put the movement on right lines, but the British workman has not yet ex-hausted the possibilities of error, and afraid of me. He is only the nilez be-cause I am the alien. I do not want so the Conference rejected the principles which could alone give vitality and coherence to the movement. On the other hand, it adopted a fatuous not ourselves contemplating suspicious designs. No navy of an alien could resolution to the effect that no candidate run under its auspices must describe himself as anything but a 'Labor' candidate. It is no longer of any

"The Labor Representation Confer-

whipped by ourselves in blood out of the backs of the poor. The poor, your-selves. Labor. Labor turned ascetic, consequence what a man is, the only point is what he calls himself. He may be a Torr, a Liberal, a Socialist, or anything else, but be must not avow his principles, he must make no profeasion of his political faith; he must hide all these under the convenient cloak of labor. This is simply to put a OF SOCIAL "REFORMERS Sometimes, indeed, there are those premium on hypocrisy. Thus the Laof us who suddenly have been awak-ened to the fact that beyond the water bor Representation Committee is to repudiate Mr. Bell, who is a labor repin a world but dimly realized by our resentative, but is also a Liberal, and avows it; but it may support Mr. Clery, who is not less a Liberal than Mr. Bell, ta, jaded with battues of blacks and is certainly much more reactionary than the latter, simply because he is ect as heroes the denisens of lands still more unknown at their very doors; relate of their travels into our dangerous and desolate regions, of the life and manner and habits of the aborigines. Social rewilling to accept the dictum of the Conference and label himself 'Labor,' pure and simple. Similarly, too, we saw all the the active spirits of the Labor Representation Committee sup formers hotly contest as to the batter methods of improving us. Lines of statistics, volumes of reports, fiery conporting Mr. Will Crucks at Woolwich simply because he called himself a La-bor candidate, pure and simple; al-though everybody knows quite well troversy rages; heaven and earth are that Mr. Crooks is as much a Liberal method, the demoralisation incident to a second, the obvious success of a third. Rival churches expend all the as Thomas Burt or Fred Maddison. The fact is the Labor Representation Conference had its opportunity and energy of imagination in claiming from amongst us varied infinitesimal proportions of adherents. In a strange missed it; whether it will have another remains to be seen. At present it looks as if this new movement for an indeworld, where people have believe to think and energy to argue, such dis-cussions doubtless provide a welcome relief to enuni and jaded intellect. pendent working-class party is going the way of its predecessors, and will e lost in the morase of an out-of-date Never, alas! do we sufficiently realis

As a further comment on the same general subject we may quote what the "Bocial Democrat" has to say on the conduct of the alleged "Lahor" members of the House of Commons in the debate on the mempleyment ones

bor men' was very well illustrated by the debate on the unemployed. In moving his resolution Hardle put the case very well; but he lacked backers. After the non possessus speech of Long and the more or less sympatheti platitudes of the other middle-class politicians, it needed one or two ner with sincerity, enthusiasm, and con tempt for formality to vigorously urge the claims of the disinherited and to denounce the pistocratic plunderers, to whose exploitation the misery of the mampleyed is due. But not one of the 'Labor men' opened his mouth. 'Labor men' opened his mouth. We are not always in agreement with the Irish Parliamentary party, but they curtainly set an example to our Labor men' If a pig in Karry were secrificed to the brothlity of the Eoyal Irish Constabulary the Irishmen would make the House of Commons ving with their indignant protests against the outrans, area though their weatments.

led to their expulsion or confinemen in the Clock Tower; but half a million of men with their wives and little ones may starve in England for want of emdoyment, and our 'Labor' member save no word to say."

It is no wonder that the political leaders and the press organs of the capitalist parties in England show little respect for the working class and that the courts back up the exactions ures as the Taff Vale and Denaby de

Just why the British workingmen n spite of the poetic tradition that Britons never will be slaves," have fallen into such a state of passive guilibility and timid submiss rage is one of the most curious probis an indisputable and not a pleasant one, except to the labor-fleecers of the world. The outside observer is im-pelled to think that nothing short of a ratastrophic downfall of British indus try, with all the intense suffering it would involve, will suffice to awaken the alumbaring self-respect and manly spirit of the British proletarist.

For us, the chief lesson of the events commented upon by the "Social Demo-rrat" is that the adjective "Labor" attached to a candidate or a party by no means guarantees any real service the working class, and that the Sci cialist movement has in the end noth ing to fear from the opposition of "in lependent labor parties," but every thing to fear from compromise

THE LOBBYIST'S LIFE

legislative Agent Lavery Unconsciously Writes a Strong Satire on the Labor Policy lie Supports.

It is a tale of woe that Mr. Lavery, obbyist-ur, as he likes rather to be railed, legislative agent—of the Work-ngmen's State Federation at Albany. ins to tell in his report for the last week of March. Some account of his troubles was given in The Worker of March 29. In the report referred to

зе визи: "Retween canals, the excise and my nstitutional numendment, this has ed a flerce week at Albany. I was tween the devil and the deep sea with the canal and anti-canal men The former threatened me and the lat-ter did likewise. The causi promoters insisted I should help them, because the Auburn convention endorsed the canal referendum, and they made atrong use of the convention's action. ough I could see that the passage of the canni bill jeopardizes the grantest labor measure we ever advocated, the constitutional amendment, which Sena-tor Dowling and myself had reported

out of Senate Judiciary Commisces last week, a truly Herculean task. "The auti-canal men insinuated that advocacy of the canal bill or friendship thereto, might allegate their auport of the constitutional amendment and there i was. It took the keenost kind of diplomacy and tact a score of times to keep from offending either You know the constitution provides that when a question is to be submit ted to the people involving an expen diture of over \$18,000,000, no other proposition can be submitted at the

ame time. The canal carries with it \$101,000. 000, so, it having passed both houses it precludes our pet constitutions endment, which would legalise preent laws and all future labor legisin

going to the people this fall. It is a case of where we are practically 'hoist with our own petarsi, but of course your legislative chair man is permitted no excuses for fail pres. He not only has to argue at all bearings, beg. cajole, and even threat en members to introduce our bills, at-tend to an exceedingly big correspondence daily, but dig up legal advice as well, wherefor there is no appropris

"I think I have discovered a loop ho whereby we may yet save our constitutional amendment. It has been such a long established custom, than an amendment to the constitution, after passing the legislature the second time must be submitted to the people that same fall; that the impression has gon forth that such an amendment could not be submitted any other time. I believe, and I am advancing the army ment, that the Legislature has the power to any when a constitutional amendment may be sent to the people. being referred at the election following the session's close. This belief, several able legal friends here concur with me in, and may yet succeed in passing it through both houses to be submitted for ratification in 1904."

To have to "argue, beg, esjole, and even threaten' - and impotently threaten, at that-in order even to ge "argue, beg, enjoie, and even threaten" to get it reported out of committee— and to have to say that a legislator who reports a bill referred to his committee has conferred "a favor of un menal proportions" on the advocates of the bill; to be obliged at once to cajole two sets of opponents, each of whom is playing the poor lobbyist off against the other; to do all this for a hill that does not represent a hundredth part of what the lobbyist knows the working people have a right to demand and power to take; and then to see even that little palliative measures, nine the calendar or amended to death or voted down or vetord or declared unconstitutional or quickly left upen forced—all this, this regular life of the labor lobyist, is enough either to drive any man of spirit out of the job or utterly demoralize him.

THE VATUOUS CONSERVATIVE.

A few stand motioniess, and, no reking to lead themselves or other for more grossly than the most bewil-dered wanderer does he err who never almost o get right. It is more honorable sering by contempt of it. The happiness of mankind is the end of virtue,

Our . Exteemed Contemporaries . . . (and OTHERS) . . .

New York Financial Record

If anybody thinks that any man will henceforth be elected Ivesident of the inited States without the sanction of the wealth and intelligence—well, let him go on dreaming until he wakes up. * * * l'oliticians must and will be made to understand that wealth and intelligence absolutely rule America at any cost. This may seem a cold blooded assertion, but it is true, and time will prove it. Therein rests our great prove it. Therein rests our great drength and future safety. It is on this account that all political schemes and utterances, bad as they look, so little can damage the prosperity of the

Los Angeles Socialist. It is amusing to see the idea so

voriferously circulated throughout the many ramifications of the capitalist press, that the Coal Strike Commission has discovered a cure for strikes. As a false impression it will not last us long as the ittuden that the Civil War ahed alavery. Compulsory arbitration may abolish the old method of the strike in the same way that the Emancipation Proclamation annumced the end of one form of slavery. Yet we now have a more effective form of slavery, to the development of which the South med to point as a vindica-tion for their direct traffic in human tiesk and blood-wage slavery. No, the "board of conciliation" will not abolish strikes, but the strikes of the future will take on a much more offortive form. The commission has disclosed a state secret and widely advertised the fact that government real connection with business after The average American citizen has had an idea all the time that govern of July, and bet on at election time but behold the discovery that govern ment is an instrument that can be need to keep the population from starving or freezing to dech-and if so, it can also be used to effectively advance the coming civilization! There is anothe discovery bowever that must be made especially by the working class, and that is that it depends on who uses the government, The awards of the Com-mission ought to make this point so clear that more "experience" will not be needed. The operators lost nothing ... one of their attorneys 41 16 Hen demon, says: "If the Commission de-sired to aid the public in keeping up the price of coal they could not have succeeded better." The loss in wages imounted to \$25,000,000, while otal increase in wages awarded for the coming three years, according to President Mitchell, will amount to about \$18,000,000. But the experience was worth it. If future commissioners are to be appointed Labor will be forced to elect the man that appoints them—the president of the Unite States. If judges of the United State United Court are to act as umpires in case the board of conciliation cannot agree, and the aptagonistic interests of the class struggle will always so divide them Labor will be compelled to elect all th Judges. The strikes of the future will be at the ballot box, until Labor shall control all the functions of govern-ment, and have abolished the cause of strikes—the class rule that arises from the class ownership of the means of roduction and distribution

Judge Lynch of Luxerne County. Pennsylvania, has rendered a decision which prohibits the Socialist Party of that county from placing their ticket on the official ballot. His decision is based on the grounds that the "prin-ciples of Socialism are un-American and not in accord with the sentiments of this government." The Socialist will willingly concede the fact that the principles of his party are not in acwhich is operated for the benefit of corporations and trusts, and that en-slaves the masses in order that Baer-ism may reap millions from the degradation of slaves who her for toles. So risitem will court more decisions of from persecution. Judge Lynch in all probability is exchanging decisions in return for campaign expenses from t barons which resulted in his election.

SOCIALISM IN CONGRESS.

The American voter, exercising his political right of suffrage, may directly or indirectly, through the ballot box. change every statute law of every state, the countitution of every state, and even our federal statutes and our constitution. It is in the Lower of our American voter to change our form of government, to carry us over to also-lute Socialism, acting well within his political rights under our form of gar ernment. He may so change our constitutional form of soverment as to permit of the condemnation of all property for the benefit of the people without any compensation therefor. One thing must be borne in mind—there is growing up in this country to-day what is called a Socialist Party and a Socialist sentiment. In my state during the last year there was an increase from 4,000 votes at the state elections to nearly 40,000 for that party. There are to-day a large num-ber of intelligent people who believe that the time has come for the United States government to proceed to take possession of the ratironds and other corporations engaged in public service etween the states. It is imi that this congress should enact some legislation to satisfy the people that we propose to hold these gigantic monopo lies well in check.—Congressman Pours of Massachusetts, in the Unite orn of Massachi States Congress.

STEEL TRUST "EARNINGS."

The annual report of the Steel Trust shows that its not "carnings" for 1903. after providing for repairs, renewals, and maintenance of plant, were \$133,-308,762, greater by \$20,000,000 than the figures for 1901. And yet the iron and steel workers find themselves driven over harder and from time to time threatened with the alternative of a wage-cut or a abutdown. Enough of this one-sided prospecity ought to make them think. But how much is

out of the mass, lengh at the failure of their brethren, yet with little reason to the head as well as to the heart to be minied by our eagerness in the pur suit of truth than to be safe from blun and truth is the knowledge of the means which he will never seriously attempt to discover who has not habit-ually interested himself in the weiture

*************** PARTY NOTES.

Sol Fieldman of New York is spending two weeks, April 7 to April 21, speaking in the city campaign at New speaking in the city champing at New Haves, Coins. Should say other locals in that vicinity desire his services im-mediately after the conclusion of this engagement they should write him at once, in care of W. M. White, State Secretary, 220 Exchange street, New Haven. The comrades in New York City and the vicinity know Comrade Fieldman as a very effective speaker

The New Jersey State Committee Comrade Firth to Vineland on March 21 and 22. During the last six months three branches have been or-ganized in Cumberland County—one in incland, another in Miliville, and the third in Rosenhays. Comrade Fitch's visit was for the purpose of effecting committee. This has now been one, and judging from his report numberiand County will soon be prominent in New Jersey's party work. South Jersey is being stirred up over the invasion of the glass-blowing in-dustry by machinery. Bridgeton, the county seat of Cumberland, is the town where they built a schoolhouse and then found there were so children to than found there were no children to attend it. Investigation did not show any scarcity of bables, but it did show that they were employed in the glass factories. Amid the general discontent that is becoming stronger daily in this territory the State Committee expects to find ready soil for the seeds of So-letters.

The "Miner's Magnaine," organ of the Western Federation of Miners, prints in full Comrade Chase's reply to the Hearst papers' infamous false re-

Local Yonkers has ordered three hundred copies of this tasse of The Worker for distribution at the Mc-Grady meeting in Teutonia Hall on Tuesday, April 14. A good speaker and good literature in combination, that is the way to make Socialists.

Local Naugatuck, Conn., at its last ing elected officers as follows: Or-Tanizer and Becording Secretary, Wm. T. Waish; Pinancial Secretary and Delegate to State Committee, David J. Leary; Literature Agent, Bruest Hull. Resolutions were adopted approving the action of the National Committee in removing headquarters to Omaha and endorsing the constitutional interpretation held by the ma-

Comrades Frank and Kate O'Hare have planned their spring and summer lecture work. They will spend May 5 to 19, inclusive, in Ohio, May 20 to 31, incinsive, in Indiana, and June and July in Michigan, spenking each day for Socialism. All details of their trip will be taken care of by the state secretaries of the respective states. It is possible that they will apeak a few times in the state of New York, be-tween now and May 5. New York locals that are interested may address them at 125 East Twenty-third street, New York City.

Every barber shop, hotel, and public eading room in Haverbill, Mass., has Peen given a subscription to The Worker or the "Coming Nation." or both. It is the intention of the local comrades to add other publications later. The comrades who ride bicycles or own teams are going to put up signs during the coming summer along coun-try roads and city streets, nivertising Socialism and Socialist papers. Twelve hundred and fifty small adhesive "stickers" advertising Socialism have also been purchased and are being pasted up all over the city.

Mother Jones spent six days, March 28 to April 2, speaking for the Socialist Party in the Chicago city campaign. She had crowded houses every time

nated a full-ticket, headed by Peter J. Carlson for Mayor. The Democrats tried hard to get William Ula, our candidate for Assessor, to go on their ticket, but they got a ratual so blunt and conclusive that they will healtate before trying to corrupt another Socialist. They can't understand these "visionaries." who treat their advances as an insuit, who do not regard honesty in politics as an iride dream.

Two debates on "Socialism and Pro-hibition" were held recently in Los Angeles, Cal., between Carrie Nation and Comrade John A. Morris.

Pior

Party of New Hampshire will be beld on Fast Day in Concord, at Socialist Hall, 99 North Main street. The conrention will open at 10 a. m.

Branch Arlington, N. J., held a wellhome Monday evening. Kate Richards O'Hare spoke on the evolution of the mee and woman's place and share in the work of the world and the benefits that will accrue to her through Socia; ism. Questions put to the speaker after the lecture started a most inter-acting discussion, in which Frank D'Hare also took part.

past twelve days, and as a result all tis lecture engagements during this period were cancelled. He has suffi-riently recovered to resume his work. On April 8 he speaks at Somerville, Mass. He will then go to Worcester, April 9: to South Boston, April 10; Newton, April 11, and Youkers, N. Y.

agement of the State Secretary.—A new local has been organised at New-ark, Licking County, with an excellent roster to start with. The Socialist sentiment is very strong here, and vigor-ous efforts are going to be put forth to organize a strong local movemen Cieveland comrades are working hard to build up their party membership, and are sending in new applications in large bunches. They report in the most enthusiastic manner the progress being made and say that they proceed at once to line up all the forces for the fall campaign.—Dayton comrades report that an A. L. U. Local has been organized there with over six lum-dred members, and one of their first acts was to send \$50 to the Socialist

tnes held, and it is by far the strongest

campaign ever waged by the comrades of Obio. During this time the party

stantir pushed, and we now have over

1,000 dues-paying members. The com-rades are now going to make an effort to keep at the head of the column of

The Thirteenth Ward Branch of Newark, N. J., held an excellent meet-

ing last Wednesday. Three new mem-

hers were admitted. Correspondence from the "New York Socialist" was laid on the table. E. J. Billings and

Richard von den Steinen were elected to the State Committee. The branch

favors Paterson as the place for the state convention. Steps were taken to further the organization of Italian Sc-

cialists. After the meeting a pleasant

social hour was spent with Comrade Lütigau and wife.

Walter Thomas Mills has issued a

very lengthy personal statement on the headquarters question, copies of which, we suppose, can be obtained by application to him. The letters of

Comrades Gorbel, Massey, Lovett, and

Healey published in The Worker have covered nearly all that he says, from

the same general point of view, except that he ninkes a somewhat laborious

attempt to represent Comrade Hillquit as the instigntor of the California

fusion affair, and a mysterious refer-

once to "the handful of twenty-six

comrades in New York who, under the leadership of Hillquit asked for the referendum." It is characteristic that

be always speaks of "Mr." Hillquit

talways misspelling his name in one way or another, besides) and "Mr." Harriman, never giving either the title

dates, beginning May 5, under man

tional Secretary Mailly and Quorum Member Untermann is as follows: (A.) Untermann to Mailly, Girard, compaign fund. In addition to this over \$60 was given by other uni Kan, March 27: that is being waged by the party bere.

Party Organization.

it to the press.

We present some further correspondence between National Secretary Wil

liam Mailly and Comrades Untermant liam Mailly and Contrades Untermana and Ricker, following up the letters given last week. The publication of this correspondence in full his been made necessary by Comrade Unter-

naun's action in giving out a part of

Further correspondence between Na

Kas., March 27:

"I have road your favor of March
25, and consider it best not to enter
into a further discussion of our special
points of disagreement at the present
time. If the headquarters are transferred to Chicago and a new Quorum elected, then the matter will solve itself in the simplest manner by a dis-solution of our official felations. If Omaha and the present Quorum are retained, we can talk the matter over at our next meeting. I only wish to

reply to a few minor points.

"First, As to the part relating to my vole. I know very well that you wro's, "Courade Untermann voted against their submission, as worded; but that is precisely what I did not do, and why I did not consider this state-ment fair to me. What I did write you was, 'It is the duty of the Quorun you wan, it is the duty of the quotient to submit to the party membership every referendum that is filed in the manner prescribed by the constitution, regardless of how such a referendum may be worded. Then I explained that I thought we had a right to address the large transfer the submitted to the succession of the submitted to the submitte vise the locals and suggested to refer their own referendum back to them to gether with the suggestion to adopt yours. I think that this is far from 'voting against their submission as worded.

"Second, Had your report contained the statement that you had another exchange of correspondence with those National Committeemen who voted for your proposition, I could not have raised my objection to your with-drawing it, and much of what I wrote would have remained unwritten. As it was, you cannot be surprised that I felt your action tended to prejudice the party membership against me, and that there was something inexplicable in your action, since I had corrected a similar mistake of yours only a short time before. Add to this the other in regularities of your report which I have mentioned, and which you admit. and you must grant me that I had cause to say what I did. We do not know one another at all. If you wish me to trust you, you must first create the impression that it is safe to trust rou. Otherwise I shall feel justified in aceping my own back clear and keep-ing my eyes wide open. It will not be my fault if our relations take such a

turn.
"As to the 'Appeal' agitation in the South, I think that you can easily settle that with Comrade Ricker. am firmly convinced of the correctness of his course, and if you consider your priority rights in any way violated by this agitation, there must be some unis-understanding on your part. I have nothing further to say in this matter. Mailly to Untermann, Omaha

March 90: "In reply to yours of March 27, will my that in attending to the mass of detail involved in running an office of this kind, it is unavoidable that errors Body and Soul of Socialism" at the Socialist Propaganda Club, Wurnier's Hall, 315 Washington street, Brookof omission and commission will occur and that in making out my statement on the referendum, I had necessarily to condense as much as possible, in criter to permit of publication. Nevertheless still believe that my statement of

your position did not inimpresent you, as you seem to believe.

"Again let me say that when I deal with comrades I do so in good faith. and the fact that I have never me them would be the very thing that would prevent me from reaching hasty asiary, except during campaigns, was exhaustively discussed. A motion no: to concur was finally adopted by a vote conclusions about their acts or motives clusions about their acts or motives, I trust them because they are Social-ists and comrades, and that is the ground upon which I work with them. to the fact that the draft of by-laws for the new General Executive Com-mittee of Greater New York contained, I distrust them when they have given

mittee of Greater New York contained, among several objectionable features, a clause which would require the whole city to pay the Organizer of Local New York, the Organizer was instructed to withdraw the whole proposes.

Further correspondence between the National Secretary and Comrade Aleker of the "Appeal to Reason" is an follows:

(A.) Ricker to Mailly, Girard.

"I have your letter of the 30th inst., and it is evident to me that further controversy on the matter under dis-cussion will be a waste of energy. You say if the 'Appeal to Remon' sends out an organizer it does so on its own responsibility. Certainly, Comrade Mail-y, have I not stated as much to you in out organizers into unorganized terri-tories we shall do so regardless of anyone cise's plans or movements. Why not? Did you imagine that I or any individual member of the party would undertake to dictate to you concerning such matters? It occurs to me, how-ever, in this connection that since you are so auxious for your own independence, you would do well to manifest the willingness to grant the same lib-erty of action to the 'Appeal to Rea-

"I am sorry to say that your conduct since assuming your office has in some respects been very autocratic. I will give you an example. What right had you to may by your own individual uncament that no Socialist should cent a vote on the location of head-quarters who is not in good standing with the party on April 1, 1903? Such with the party on April I, 1903? Such power has been granted you neither ...y the party, the National Committee, or the constitution. I have asked you twice for organization material. Tou have once refused to send if out and the second time you entirely ignored my nequest. Fortunately, we have plenty of printing presses in this building and we will proceed to print our source sample. Tour methods may do The Ohio State Committee now condicts of sinceteen members out of a positive twenty-one.—Harry C. Thompson has just finiteled a very successful tour a raid Morre is a strength progress being made at all points. He is greatly successful tour axcellent progress being made at all points. He is greatly successful tour the contook and thinks that Ohio will lead is the number of Sucialist votes in the near future.—Frank P. and Kate Dille will near futu

quite sure I shall not under Socialism I desire to co-operate as an equal and not as an inferior." FROM HEADQUARTERS.

Mailly to Ricker, Omaha, Perther Correspondence between Hational Socretary Mailly and Comrades Untermann and Stoker on Matters of

"Replying to your letter of the 28th inst., I will say that a majority of the Local Quorum has approved my action in setting April 1 as the date upon in setting April 1 as the date upon which members voting upon the refer-endum should be in good standing; that I do not believe the National Com-mittee and the membership at large will object to the thirty days before vote is closed being set as a limit; that you acquiesced in my suggestion, made when you first applied to this office for organizing material, that all inquiries about erganization be referred to this office; that I gave Comrade reflections you persist in casting upon my motives and actions will not deter me from continuing to perform my duties as an official and member of the Socialist Party as I understand them."

[Once more calling attention to the fact that the publication of this cor-respondence was brought about by the initiative of Comrade Untermann and not of the National Secretary, we may and for the National Secretary, we may also state that it is absolutely complete so far as subjects touched upon are concerned. We have omitted from the Mailly-Untermann letters considerable portions dealing with other matters of party business, considerations of spaceompelling us to do so.—Ed.]

THE REFERENDUM ON HEADQUARTERS.

The question of location of head-quarters and composition of the Quorum of the National Committee is now before the party for general vote. In order to assist in ensuring a full and intelligent vote. The Worker reprints the questions with a few remarks, and will continue to do so until the vote is completed. completed.

Referendum No. 1 (moved by Locals Toledo, Akron, Findlay, Fremont, Mas-silion, Springfield, and Branch 1 of Cleveland, O.; Lynn, Lawrence, Natick, Milden, Cheises, Salem, Worcester, Haverhill, and Everett, Mass.; Port-land, Me.; Bochester and New York. N. Y.; Bevier and Poplar Bluff, Mo.; Indianapolis Marion, and Terry Haute.

"First-That the headquarters of the party be removed to Chicago.
"Second—That the Local Quorum until the next national convention be composed of the members of the Na-tional Committee from the states of Illinois, Wisconsin, Indiana, Iowa, and Kentucky.
"Third-That all acts of the National

Committee at its last annual session in conflict with the above provisions be

Referendum No. 2 (moved by Locals Omalia, South Omaha, Grand Island and Pleasant Hill, Mo.; Franklin bodies the following questions:
"First-Shall the action of the Na-

tional Committee in removing the Lo-cal Quarum be approved? "Second—Shall the old Local Qua-rum be re-instated if-vote stands.

Third-Shall the action of the National Committee in removing the National Headquarters to Omaha, Nela, e approved?
"Fourth-Shall the National Hoad-

quarters be returned to St, Louis if vote stands against approval of re-moval to Omaha, Neb.?" Every party member in good standing on April 1 has a right to vote and

should exercise it.

The vote closes on May 1. It is the duty of the officers of each local, on receiving blanks for the referendum, to see that the uniter is submitted at the next regular meeting or at a special meeting called for the purpose if necescary, that members are notified and nave a chance to give their votes, and tested and promptly returned, accord ing to instructions accompanying the blanks. It will not do to report that "the local votes, unanimously so-and-so." The numb of votes for and agninst each proposition must be clear

quarters at Chicago, with Illinois, Wisconsin, Indiana, Iowa, and Kentucky at the basis of the Quorum will vote 'Yes" on Referendum No. 1 and o the first clause of No. 2, and "No" on the other three chuses of No. 2. This is the proposition which The Worker has advocated throughout.

Those who wish to locate the headquarters at Omaha, with South Da-kota, Nebraska, Iowa, Kansas, and Missouri as the basis of the Quorum will vote "Yes" on the first and third chases of Referendum No. 2 and "No" on the others.

PATRICK EDWARD DOVE

Edited with biographical sketch by Alexander Harvey

NOTHING more remarkable than the history of this book, except the book itself, has occurred in literary history. Dove was a generation in advance of Henry Ceorge in propounding the momentous doctrine of the lingle Tax, and the charge of palegarism made against George grew out of this fact. Dove, however, a deep scholar and profound thinker, champions the litingle Tax on land from quite a different standpoint then George. In this respect the work will startle lingle Taxers. It has been edited, not garbied, by Alexander Harvey, who preface the book wills a life of the author and a mention of the remarkable circumstances that led to its suppression. The volume is complete and unabridged. Cieth, 12me, 412 Pages, \$1.00

MAY DAY NUMBER OF THE WORKER.

of years, The Worker will take its share in the observance of the First of May, the international Labor Day of the working class, by leaning a special

the working class, by leading a special diay bay Number of double the usual size, especially adopted for general circulation as a propaganda pafer.

We are not yet able to give even an approximately full aunouncement of the features of our May Day Number (co. 1003, but we may give some general contents). for 1903, but we may give some gen at idea of its contents.

Several of the best Socialist writers of the United States have sirendy promised to contribute special articles different subjects of interest to 80 and to all thinking working-

be progress made by the Socialist arty in this country since the general lection of 1900, with a consideration of the present political and economic situation and the prospects of the im mediate future. To supplement this there will be special articles on the progress and the prospects of the move-ment in several of the more important or geographical sections of the y. There will be articles decountry. There will be articles of acribing the organization of the party and giving reasons why all who be-lieve in the principles of Socialism and wish for the speedy coming of the Co-operative Commonwealth should be-come members of this organisation. ode of agitation and propaganda receive their due share of attention, with many suggestions drawn from experience that will prove valucomrades in newly organised

ticles dealing in popular language with such subjects as: The Class Struggle

As has been customary for a number | cial State of To-morrow; Fraternity versus Charity; Class Morality and Bo-cial Morality; Immediate Relief and Complete Emancipation; and What Bocialists Should Mead. In all cases the stricles will be as

short as is consistent with an intelligent treatment of the subject and the purpose of the writers will be to ex-press themselves in such direct and familiar language that no one who knows the English language and has a normal brain in his head can fail to

It need hardly be added that controversial matter on party questions will be strictly excluded. This May Day Number of The Worker is designed chiefly for the outsiders, for those who are not yet Socialists, but are willing to learn. We ask the co-operation of all our comrades in giving it the widest

possible circulation.

The price will be the same as for the ordinary four-page issues of The Worker: For less than 100 copies, one cent each; 100 copies, 75 cents; 200 copies, \$1.20; 300 or more, at 50 cents a hundred. As these prices barely cover the cost of white paper, press-work, and mailing for the double number, it is necessary to require that all orders shall be accompanied by cash, to avoid needless trouble and expense of bookkeeping and correspondence. That we may know how many copies to print and may fill all orders promptly, orders should be sent in as early as possible.

The May Day Number will go into the mails on Thursday, April 30, in time to reach most locals by Sunday, May 8, on which day the May Day

celebrations will generally be held.

Every local and branch of the party should order a supply proportionate to its strength and the field it has to Evolution, and Reform; The Material-ist Conception of History; Value and Hurpius Value; Slavery in Its Variet Forms; Competition and Monopoly; The Government of To-day and the Socover and should see that the papers

LET US HAVE AN END OF WAR.

War has been an agency to open in death's conflict brothers of the avenues through which the few be- human family whom they have never rame more powerful, as the masses slaughtered each other. The rulers of nations for centuries have been the executive power which capitalism has of commercialism. msed under the guise of patriotism, to precipitate nations into a life-and-death Money has stood behind the on people to murder each other, so that Dives could grow richer and Laza-

nation, which are the property of the moneyed class, appeal to passion and prejudice, and these editorial appeals from the organs of plutocascy kindle a finme of hatred which is mistaken for Shylocks to furnish fuel to keep the finne alive, until it bursts into a mighty configration of war, involving es of the people into a quarrel which they have no personal in-

march to the field of blood and car-nage. The multi-millionaires and coupon clippers who have brought about the clash of arms revel in the luxury of grander magnificence as common humanity perishes in the fire and smoke of battle. The rights of property must be protected, and the propertiless class, fired with what is niled patriotism, must go to the front o welter in gore, that men who live in castles and palaces may enjoy one grand round of profigality. Men that are landless, living in rented hovels, part from wife and children and meet capitalism.—Miners' Magazine.

seen before, and in the name of natriotism commit wholesale murder to force the payment of obligations to capitalists, or to increase the domain

Why should the workingmen of America, Germany, England, France, or any other nation on earth, meet each other with the deadly weapons of war and commit butchery at the com-mand of governments whose adminis-trative policy is molded by the few who hold the purse-strings of the world? To sum it all up, what have the disinherited to fight for, when governments; "at the bidding of moneyed monarcha, call upon the hungry and ragged victims of exploi-tation, to meet each offer on the gory arena of the battlefield in the name of patriotism and the flag? What have flags and patriotism done for the masses, who are at the mercy of cold-blooded commercialism?

The time has come in the history of the world when the working class, who are the great mass of humanity, must look into each other's faces and realize the fact that they are a distinct class in themselves and that the planet should be the home of all humanity. When fraternity is substituted for patriotism, man will refuse to kill his fellow man in a conflict that has been precipitated by the interests of corporate wealth. The time has come when the boundary lines of natious should be wised off the map of the world, and this can be accomplished when the propertiless class unite upon the political field for the overthrow of

MATIONAL SECRETARY'S

FINARCIAL REPORT. The financial report for March submitted by National Secretary Mailly shows a steady improvement in the condition of the national organization.

The totals are as follows:

Total\$1,005.22 en 750.18

Balance, April 1 \$249.04 Receipts for the month were: Dues from state committees—Galifornia, \$64.25; Colorado, \$55.15; Connecticut, \$10; Florida, \$10; Idaho, \$5; Illinois \$80; Kansas, \$13.00; Kentucky, \$14.40; Maine, \$25; Massachusetts, \$50; Michignn, \$10; Minnesota, \$20; Missouri, \$15:50; Montana, \$19:55; Nebraska, \$15.50; Montana, \$19.55; Nebraska, \$5.35; New Hampshire, \$32; New Jer-sey, \$50; Ohio, \$80; Oregon, \$6.25; Bouth Dakota, \$4.25; Washington, \$51.70; Wisconsin, \$77.40; dues from locals in unorganized states—Alabama, \$10.50; Arkansas, \$7.10; Arizona, 60 centes Louisiana, \$18.60; Tanassas, Louisians, \$18.00; Tennessee, Verment, \$5; Virginia, \$2; ing. \$5.20; District of Columbia,

plies, \$42.33; donations, \$15.10; miscel items of expense are: Salaries, Wm. Mailly, \$83; W. E. Clark, \$54; expenses of National Committeemen to annual meeting, \$114.25; for organis-ing-John C. Chase in Arkansas, \$25; Geo. E. Boomer in Idaho, \$25; J. Edw. Geo. E. Roomer in Idaho, \$25; J. Edw. Morgan in Nebraska, \$15; on debts of Chicago N. E. B.—Theo. Debs. \$25; Engene Dietzgen, \$15; A. S. Edwards. \$25; on debts of Springheld M. E. C.—Geo. J. Speyer. \$25; Chis. H. Vail. \$25; for printing, \$122.78; stationery, postage, express, and, telagrams, \$07.51; office expenses, \$15.27; office help, \$00; miscellancous, \$1.25.

\$1.80; dues from members-at-large, \$1.40; total for dues, \$755.35; for sup-

cellancons, \$1.25. —As the May Day Rumber of The Worker is double the musi size and is to be sold for the usual price, it is

hecessary to lusist as cash payment with orders to avoid bouble and ex-pense of bookkeeping and correspond-ence. For information in regard to the Social Democratic Party in New York City address or call on Jas. N. Wood, Organiser. Labor Lycotma, El East Pourth street.

FOR STATE COMMITTEE.

The following is the result of the general vote of the Social Democratic Party of the state of New York on the proposed amendment to the constitution providing that-

"Ten per cent. of the net proceeds of all and any festivals and affairs ar-ranged and held by any local or subdivision of the Social Democratic Party be set aside for the State Agitation Fund and be paid over to the State Committee."

The vote was as follows: Yonkers, 7 for; Onondaga, 17 for; Mount Ver-non, 9 for; Troy, 11 for; Catakill,6 for; Peckskill, 6 for; Buffalo, 10 for and 2 against: Rome, 7 for: Utica, 9 for: Queens, 18 against; Schenectady, 16 for; Ticonderoga, 6 for and 23 against; New York, 95 for and 23 against; Kings, 72 for and 7 against.

The vote by subdivisions in Local New York stands: 1st, 3d, and 5th A. D., 5 for and 1 against; 8th, 5 for and 4 against: 6th and 10th, 10 for: 7th, 9th, and 25th, 9 for; 18th, 9 for; 18th and 17th, 7 for; 21st, 18 for; 24th, Br. 1, 7 for; Br. 2, 8 for and 6 against; 28th, 17 for and 1 against; 31st, 5 for.

Local Kings County by subdivisions shows: 1st, 3d, and 5th, 9 for; 7th, Br. 1, 9 for; Br. 2, 6 for; 9th, 16 for; 12th, 6 for: 13th and 14th, 1 for and 7 against: 15th, 6 for: 20th, Br. 1, 10 for 21st, Br. 1, 9 for: Br. 2, unanimous for, number not reported. The vote cast in favor of the amend

ment is 271; against, 42; total, 313. The amendment is therefore carried and be-comes operative from April 1, 1903. HENRY L. SLOBODIN,

State Secretary, S. D. P.

CAPITALIST PERFIDY. CAPITALIST PERFIGY.

Last October, when the cetton-shipping season was at its height, the New Orleans Steamship Conference signed an agreement with the screwmen—men employed in handling cotton for shipment—regulating wages, hours, and other conditions. Now, the slack season being on, their employeers' organization has wantonly and deliberately repudiated the agreement and notified the men that the old scale and rafes would immediately go into effect. Yet we have not beard any outcry from the capitalist press or the National Economic League about "breach of faith" or "unfair advantage." It is not their ox that is gored this time.

A WOMAN'S WORD.

Capitalist Candidate's Request that 'She ties Nor Influence for Him.

Among the campaign documents of Graeme Stewart, the Republican can didate for Mayor of Chicago in the contest just closed, was a persona signed letter sent out to women, ask-ing them to give him the benefit of their influence. He got at least one letter that might give him food for thought, if he has any mantiness left after his experience as a capitalist and a politician. Mrs. Mary D. Wehrwein, a Socialist, wrote:

"Dear Sir:--Your writing of the 18th

inst. at hand and contents carefully

"In reply to it I desire to inform you that your nomination and character can be of little interest to me, since I cannot be permitted under your laws to assist you, even if I was auxious to do so, to sustain the present profit sys-tem, stained with boodle, upon which you wish to be elected. Furthermore, your record, to my mind, has shown to every thinking citizen, capable of hinking for himself, that you favor the interest of the few, whom you 'the leading citizens, etc.'; and how can you otherwise, by giving your support to the Lorimer kind

"You speak of 'the rights of each.'
Please, where do I come in?

"In what part of your program am I placed as a woman and citizen? Did the Republican party ever recognize a woman except when party interests were at stake? As a whole, you are bound by virtue of the present system which you hold just, to bid, fair only to those above me; if you know any thing you know this. I am bound to suggest to you and your advisors. Lorimer & Co., to about face before you ask a woman to support men wh feltberately down her inherent rights both as a citizen and producer."

MINE WORKER'S VIEW OF THE STRIKE AWARD.

A coal-mine worker writes in the Chicago "Socialist" on the award made by the Anthracite Coal Strike Commis-

sion. He says in part:
"I have read with great avidity every word I could find in every paper I could get hold of, about the award of the strike commission, the various comments made by a great many different persons, and the great many different parts of the award taken to establish the fact of a great victory. But, strange to say, the men that are affected by the award have not been anked to give their opinion on the mat-ter. Now, without using any arguments or inducements to get the men to vote on a false sentiment, let them by a secret bailot conscientiously cast a set of men was vehemently con demned I do honestly believe the action of these men will overwhelmingly be condemned.

"I have carefully read and re-read the award published in different pa-pers and taken section by section the only ones that I can see that have derived any benefit from the heroic sacrifices made and sufferings endured are the contract miners, the firemen and a few engineers. But the great major ity have derived no benefit whatever from the award, and I dare any one to successfully prove that they they

every disbeliever that every one of this great majority, will undoubtedly be forced to do just as much work in nine hours, after March 31, as they formerty did in ten nours. Just let those men who talk so much about our grand victory, as they are pleased to call it, wait until a few months after the new system goes into effect and see if my words do not come true.

"I have not worked forty years in the mines without learning bitter lesson. I can easily recall many occurences that had to be endured by my fellow workmen in the different labor organizations that have existed within the last forty years in these coal regions and every one may know who wants to know that our condition has been steadily growing worse. For every time that the men were about to reap the benefit of the sacrifices made and the sufferings endured some method was found, either by book or crook, whereby the men were hood-winked. No doubt the commissioners think and pride themselves on the befor the mine workers, but if they live for a short time longer they will surely discover that they made a very great mistake in not granting us the eight-hour day and in not establishing a uni-form scale of wages for the company men, loaders and laborers, both inside and outside."

THE CLASS BLOWERS' PLICHT.

Mr. Frank Gesaner of Pittsburg, an expert in glass manufacturing, visited the plant of the glass trust in Alexandria, Ind., where the tests of the new window glass blowing machines were made. He writes to the "Glass Budget" that there are eight machine and that they equal the output of 54 blowers and 54 gatherers. The ma-chines blow glass in any length and thickness desired, one ordinary laborar runs two machines, the product is su-perior to the hand-blown article, the output is greater and the cost about one-fifth of the old method. The revolution is complete. The skilled work-ers have lost their jobs forever; the trust owns the machines, and it is doubtful whether prices of window glass will be lowered much, except per-haps for a short time to run the small plants off the earth. What solution do the politicians offer for this problem? None. The trusts abould own the ma-chinery and do with it as they please. That is what they favor. We have a solution: It is collective ownership of the machines. Then the workers will get the product, not the trust mag-nates.—Cleveland Citisen,

Now when we are reading so much in the daily press about railway service, rates, wages, and profits, is a good time to circulate Hanford's "Rail-roading in the United States," one of not their or what is gored this time.

SOUTH AFRICA'S LABOR PROBLEM

Capitalists Hesitating Whether to Es slave the Blacks or Import Chinese Coolies - Enciclist Movement Arising.

A dispatch of April 8 reports the correspondent of the London "Timos" at Johannesberg, South Africa, as saying that in spite of the overwhelming vote against Asiatic labor at a meeting on Wednesday night the question can-not be said to be decided. Both the principal speakers at the meeting showed themseives to be uniformed

Africa, including Moors and Araba. Both speakers, mays the correspondent, assumed what is really the crux of the question, that there is sufficient African labor, but it is only if this proves untrue that any one proposes to introduce Asiatics. Every effort will be made to procure African patives. If these are not forthcoming, then, when thousands coming monthly to the Band in consequence of the main industry being at a standstill, the question m

At any rate, the correspondent adds if the Asiatics come, the Californian mistake will not be repeated. They will come under contract at the out set. They will not be introduced pro miscoonly and an attempt made to in-denture them afterward. It may be added that the difficulty

with native-African labor is, not that the-sutives are too few, but that they have a most unreasonable preference for living easily in their own fashion, tiling a little land and raising a few cat-tle, instead of becoming wage-workers where they would have more work, less food, and a liberal ration of blows and curses from the overseers. The civil ised white worker proves his superior ity by believing it impossible for him to live unless he has a boss to give him employment. The Asiatics in their different way, are also civilised enough to be tractable wage-slaves. South Africa being now "pacified" eminent gentiemen in England are seriously discussing the advisability of estab lishing clusted slavery for the black, whose alleged oppression by the Boen was one of the pretexts for the war. The only question with them is whether Chinese coolies would not be more profitable than African slaves.

But the South African news is not all gloomy—at least to our eyes. The British workmen there are showing rather more unrest and independence than their brothers at home, and a lively Socialist movement is springing up in several of the principal towns, in which British and Boer toilers act in

A TRUE TALE

FROM JAPAN.

Socialist," a good-sized maga sine of fine appearance, publish Tokyo, edited by Comrade Sen' Kat ayama, and formerly known as the "Labor World," tells in quaint English the following gruesome tale of grim protest against capitalist oppression reveniing the same conditions in far away Japan against which the worker of all lands are struggling.

"A bloody human hand cruelly cut off was received by Baron Shibusawa through the express. The old Baron being struck down by this extraordin ary present, sent for police at once to look after this outrageous disre spect to the august Baron.

"Was it a joke? If it was a joke then it must be an awful joke! But why was such a deed? What was the cause of this? Whose hand was it?

"There is a shipbuilding factory righ across the river Smids not very far from the palace of the old Baron. The same is owned by the Baron, of course, and earns many many hard dollars all through the year at the work of eight or nine hundred tollars. With the very rich bounty of the exploitation in this factory the Baron has just completed his famous trip around the world and must have made himself a good impression on the European money kings an mammon magnates!

"Now it happened that on the 17th lt. a blacksmith's right hand was crushed by a steam hammer weighing a ton and a half. The handle of the hammer was directed by an old man aged 62! A young man of 25 is now lying in a bospital. A sad. fate of irony fell on this young blacksmith and his right hand was cut off! Workingmen of the factory contributed : sum of 100 ven or thereabout to this lil-fated man. But the factory gave him not a copper. There was no pro-vision for accidents that are occurred:

during on the company's employ.
"This hand was sent to the Barot to arouse the right feeling on the part of the Baron towards his employees whose blood he has been sucking many years. We hear from a reliable source that the old Baron was some what moved by this hand and considering to do something for his employee. We hope be will. He is said to be director of over fifty companies, and those employ thousands of workers and are suffering from cruel oppressions and hardship without any protection at all. There are four or five thousand spinning girls in the city under the Baron's supervision. These girls are suffering tuberculosis on account of bad ventilation and improper food with excessively hard work.
"If there was in each factory a spir

ited worker like that one the old Baron might receive a flesh hand or head al-most every day!"

COMPULSORY FLAG-WORSHIP.

The jack tar on the revenue cutte Seminole, who called the United States Saminole, who called the United States flag "a dirty rag," was made to kiss its folds six times. He was also made to take a most solemn and binding oath to defend this dear piece of bunting. Wonder if at heart he has oath to defend this deer piece of bunting. Wonder If at heart he has changed his estimation of the embient? Might don't make patriotism. A sallor might be in position to know whether the fisg has been diagraced or not by the powers of capitalism. If it is a dirty rag by means of the ends to which its power has been placed, are its sina washed away by compelling one jack tar to kive its folds at times? Vote for Socialism and make the flagment sometime,—Chicago Socialist.

THE MICHIGAN

PLAN OF CAMPAICN. DRYDEN, Mich., April 5.—The convention of the Socialist Party of Michigan instructed the State Committoe to organize the state into circuits convenient for speakers, these circuits to include all towns of over 250 population where one or more comrades would agree to pay railroad fares and provide food, whelter, and welcome for such speakers as might be sent out by

speakers for work on these circuits. Every man in touch with the Social ist movement knows that there are many competent speakers who want audiences, and also that there are now millions of people who, having heard a little of the truth and beauty of the Rocialist philosophy, desire to hear more and know more about it. Each of these demands supplies the other. It is very necessary to so arrange that speakers and audiences can get to-gether, and this is what the Michigan plan of campaign is accomplishing.

the State Committee. The Committee

was also instructed to culist a corps of

Another thing that has hindered ou movement is the very considerable ex-pense of holding meetings. There are carfares, hotel bills, hall rents and ad-vertising bills to be paid, to say nothing of compensation for speakers, who are usually willing enough to donate their services. These expenses are re-duced to the minimum by the Michigan plan.

When the "stations" are established they will be arranged into "circuita" corresponding with the lines of travel. This arranges the meeting places a

amail item. In pleasant weather meetings can b held out of doors, and here is when the modern "scap box" takes the place of the ancient and ploneer "stump." This saves hall rent and usually reaults in larger and better meetings than can be had in expensive halls, be-sides the saving in advertising. Then sides the saving in advertising. Then hotel bills are cut down by taking speakers direct to the homes of com

hotel bills are cut down by taking speakers direct to the homes of comrades and thus the expenses of meetings are reduced to only a fraction of the usual cost and meetings are placed within reach of all.

As to what has been accomplished so far in Michigan the Organizer is pleased to report as follows. On March 20 last the circular-letters were received from the printer. These bave been sent out by mail to a list of some 3,000 names obtained from several lists furnished by the former Organizer, the State Secretary, and by several of our Socialist newspapers and magazines. The returns are now coming in, More than fifty "stations" are already established and fifteen speakers have already enlisted. The outlines of many good "circults" now peep out from the blue circles which indicate the "stations" on the Organizer's map.

the "stations" on the Organizer's map.
As there are many similer towns
where occasional meetings can be had with good effect these will be entered "flag stations." .It has also de reloped that "division stations" required in the larger cities like De-troit, Grand Rapids, Saginaw, Kainmazoo and Muskegon where several circults converge, and this arrange-ment has the effect of properly distributing the meetings, giving the large towns more meetings as is

As these circuits will be practically permanent and each "station" in con-stant touch with the State Committee, the routing of speaking will be easily accomplished.

Every speaker will be expected to organise locals wherever possible, and as it is expected that under these arrangements there will be many speakers "riding" our "circuits" the resul ers "riding" our "cire will be more locals.

Altogether the outlook is bright From what has already been accom plished it appears almost certain that entire success in gan plan of campaign.
C. J. LAMB, entire success is assured by this Michi

Organizer.

THE WORST OF CRIMES. Dimes and dollars, dollars and dimes An empty pocket is the worst of

crimes. Get ye wealth, no matter how, No question asked of the rich, I trow. Steal by night, steal by day,

BAKERS' CONVENTION.

RUFFALO, N. Y., April 7.-The eleventh national convention of the Journeymen Baker's and Confectioners' International Union began its ses-sions here yesterday.

There are 210 delegates present from

all parts of the United States and Canada, among them several women representing the cracker packers. There is one colored delegate from Charleston. The business is conducted in English and German.
Most of these two days has been oc

cupled with the routine of organisa-tion and the reading of the reports of Secretary Harabecker and Treasurer Hartmann, and the presentation of various communications and appeals, which, as well as the reports, were referred to the proper committees.

After the conclusion of this business the convention was addressed by Thos I. Kidd. Vice-President of the American Federation of Labor, and Mrs. Julia C. Llewellyn, of Lockport, N. Y., Vice-President of the Women's Internation-

al Union Label League.

The convention promises to be an interesting one. A progressive spirit is manifested by many delegates, and will show itself in the debates.

party is officially recognized under the name of Social Lemocratic Party. The party emblem in New York is the Arm and Torch.]

The Socialist Party of America in nation

The Socialist Party of America in national convention assembled, realisms its adherence to the principles of international Biociaiism, and declares its aim to be the organization of the working class and those is sympathy with it, tate a political party, with the object of concerning the powers of government and using them for the purpose of transforming the means of production and distribution into collective ownership by the entire people.

Formerly the tools of production were simple and owned by the individual worker. To-day the machine, which is but an improved and more developed tool of production, is owned by the capitalists and not by the workers. This ownership exables the capitalists and out by the workers. This ownership exables the capitalists and the production, is owned by the capitalists and not by the workers. This ownership exables the capitalist of the means of production and distribution is responsible for the ever increasing uncertainty of livelihood and the powerty and minery of the working class, and it divides society into two hostile classes—the capitalists and wage-workers. The oner powerful middle class in rapidly disappearing in the mill of compatibility classes—the capitalists and wage-workers. The oner powerful middle class in rapidly disappearing in the mill of compatibility classes—the capitalist and wage-workers, the means of livelihood gives to the capitalist class and the working class. The possession of the puents of livelihood gives to the capitalist working class. The possession of the press, the pulpit, and the schools, and capitalists and social intellectual, physical and social intellectual, physical and social intellectual, physical and social intellectual physical and social intellectual physical and social intellectual, physical and social intellectual physical and social in

feriority, political busers can be aprialist class dominate our entire social system; the lives of the working class are reclineally sacrificed for profit, wars are founded between nations, indiscriminate slaughter is encouraged and the destruction of whole races is saintioned in order that the capitalists may extend their commercial dominion abroad and chance their supremacy at home.

ion strond and enhance their supremary at home.

But the same economic rannes which developed expitations are leading to Socialism, which will also this host the capitatist of the same active force in bringing about this new and higher order of nociety is the working class. All other classes, despite their apparent or actinal conflicts, are alike interested in the uphalding of the gustman of private ownership, of the instruments of wealth production, The Jenucarde, Ergenbleran, the bourgeois publishers for nor stand for the complete overthrow of the capitalist rights system of production, are alike political representatives of the capitalist class.

The workers can most effectively act as a class in their strongle against the collective powers of capitalism, by constituting themselves into a political party, direct from propertied classes.

IMMEDIATE DEMANDS.

while we declare that the development of economic conditions tends of the overthrows of the capitalist system, we recognize that the time and manner of the transition to Socialism also depend upon the stage of development reached by the proletarist. We, therefore, consider it of the utmost importance for the Northist Party to support all active efforts of the working class to better its condition and to elect Rocialists to political officers, in order to facilitate the attainment of this cut.

As such means ownership of all means of transportation soci consuminations and all other public utilities, as well as of all industries controlled by monopolica, trusts, and combines. No part of the required to the applied wholly to the increase of wares and shortening of the hours of labor of the employers, to the improvement of the conducters of the conducters.

2. The company of the conduction of the conducters of the conducters of the hours of labor of the support of the wards of the confidence of the conducters of the conducters of the conducters of the product of the product of the hours of the conducters of the support of the product of them.

2. The program of the capitalist and increase the share of the worker in the product of inter.

2. State or national insurance of working people in case of accidents, lack of employ.

increase the sums of the product of interest and interest

administered under the control of the rating risus.

1. The languration of a system of public funtries, public credit to be used for that pose is order that the workers be sered the full product of their labor.

1. The education of all children up to the of eighteen years, and state and multiple and the cooks, clothing, and fout.

Equal civil and political rights for and women.

men and women.

7. The initiative and referendum, proportional representation and the right of recall of representatives by their constituents.

Int in advanting these measures as steps in the overthrow of capitalism and the establishment of the Co-perative Commonwealth, we warm the working class against

as an interaget of the capitalist class to accure getermental control of public utilities for the purjose of obtaining greater security. In the exploitation of other industries and not for the smelloration of the conditions of the working class.

ROCIALTEM AND TRADE UNIONISM.

The following resolution was adopted, along with the foreigning platform, by the National Convention at Indianapolis, July, The trade union more ment and independent political action are the chief emancipating factors of the wage-working class. The trade-union movement and independent political action are the chief emancipating factors of the wage-working class. The crade union movement is the natural result of applicable production, and represents the economic side of the working-class movement. We consider it the daily of localisate to leds the unions of their respective trades fraided and information of the prounds, as far as positively affiliation to concerned. We call the attention of trade unionists to the fact that the class struggles an only while it may remit in lessenting the exploitation of all the means of production feating being the concerned of all the pressure of the trade that the exploitation of all the means of production for the table benefit of all the people, it is she duty enter the benefit of all the people, it is she duty and a strong all of indicating the excellent trades and section in building a retain political action on the contains there, to join the Parcialist Party and seeds in building are attent political.

RELATIONS OF PARTY AND UNIONS.

RELATIONS OF PARTY AND UNIONS.

The National Committee of the Socialist Party is annual seasois assembled, hereby reaffirms the attitude of the party toward the trade-union movement as egyreased in the trade-union movement and the socialist convention of 1901.

We consider the trade-union movement and the Socialist movement as Inseparable parts of the general labor movement, preduced by the same economic forces and tending towards the same goal, and we deem it the duty of each of the two movements and the following the same control of artivity.

But we are also mindful of the fact that each of the two movements has its own special plassion to perform in the struggle for the cranacipation of labor, that it devotes an other control of the two movements has its own special plassion to perform in the struggle for the cranacipation of labor, that it devotes an the Socialist party to fight the political hatties of the working class, and that the laborates of labor as a whole with the lattice of the working class, and that the laborates of labor as a straight of the movements to manage the gradient which will be lest conserved by allowing the finite of the movements to manage the gradient which will be lest conserved by allowing the finite of the movements of artivity.

The Socialist Party will confine to give its and an ansistance to the economic struggles of organized labor regardless of, efficiency of the father and on engaged.

ANTI-PUSION RESOLUTIONS.

ANTI-PINION RESOLUTIONS.
Whereas, The history of the labor morement of the world has conclusively demonstarted that a Socialist Party is the only
political organization able to infequately and
consistently conduct the political struggles
Whereas, All "radical and reform" parties, including the so-called "Union Labor
Parties." have, after a brief existence, uniformity vaccumited to the influence of the
old political parties and have proven disastrous to the ultimate end of the labor
movement, and and alliance, direct or indirect,

Portains a may been and whereas, At the present stage of development of the Socialist movement of the country there is neither necessity nor excuse for such alliance, therefore he if the stage of the country that is nature of local organizafor such alliance, therefore he it. Resolved, That no state of local organiza-tion, or member of the party shall, under any circumstances, thus, combine or com-promise with any political party or organization, or refrain from making assimilations in order to further the luterests of candi-dates of such parties or organization.

tions confronting him to-day.

The Worker has already given some account of the draconinn measures against the labor movement proposed and now pending in the Connecticut Legislature. These measures, if enacted, would make it utterly impossible for workingmen to carry on a strike or boycott, with any effect even in the ost orderly manner, without exposing selves to imprisonment and finau-

Whether or not such laws are likely to be passed at this session, the bills undoubtedly represent the wishes and the intentions of the capitalist class and the Socialist Party stands alone on the political field firmly and consist-ently opposing such reactionary steps. The workingmen of Hartford, by add-ing 60 per cent, to the Socialist vote in their city election last week, have given notice that they are awake to their innotice that they are awake to their it terest and to the danger which threat-ens them. The workingmen of New Haven will have an opportunity on April 21 to repeat their warning to the capitalist oppressors and their political

We present here an open letter to State Senator Tracy, the chief promoter of these infamous bills, by Frederick Grube, a member of 180 New Hayen Trades Council and of Local New Haven of the Socialist Party.

"Hon. Cornelius Tracy, Member of the State Senate of Connecticut:

ir:-A copy of your letter in reply to Mr. Lynch, Secretary of the Esymptomic League of Norwich, Coun., has secently been brought to my notice, and I could not resist the temptation to answer it at some length, inasmuch as you invited suggestions for amend ments to your so-called 'Incorporation Bill' ('Bill for the Incarceration of Union Men' would be a more appro briate term). This invitation, your declaration that your only desire in framing this bill was to abolish ptrikes and riots, emboldens me to tak advantage of the opportunity thus ofred and to draw your attention to me facts regarding this subject, and to point out the only effective remedy for these evils of the day which pro-voked your vehement expressions of borror and indignation.

"Your sentitions remark about the Sabor agitator as 'REEDING AND FATTENING ON DISCORD AND CONTENTION AS A CROW FREDS DN CARRITON deserves no serious at-tention whatever, for all the world knows the fate that stares 'labor agi-fators' in the face-mamely, the black-dist of the good Christian gentiemen; humane manufacturers and cor

"You say that 'strikes and riots are mostly brought about by professed the nature of strikes and the war existing between capital and labor proves that you. Hon, Sir, like so many other legislators and 'sintesmen,' do not or will not understand the great question of the day now engaging the minds of all the intellectuals of the country-the Labor Question. Your remarks imply that the workers are generally satisfied with the wages and treatment received at the hands of their employers, until some villain of a lagor agitator comes along and makes them discontented and disgruntied. Would these workers not be a despicable lot of human not be a despicable lot of human creatures if such were the facts? Cau it be possible that you and those whom you represent can expect the workers to be satisfied with economic condi-tions such as they are to-day?

The Cause of Discontent.

"Have you no idea of the misery and Heen privation suffered by the tolling masses? Did you ever see the little children going to and from the cotton and other milis and factories right here in the New England states? Did you never visit the barren homes of the people who toll day by day, year in and year out, whenever they get an op-portunity to work? Do you not know that in those industries where they work the longest hours per day, the wages paid are the lowest?

"What are the average wages poid for a day's work right here in this giorious state of Connecticut. The re-port of our Labor Statistican of Con-necticut shows that in all the cotton mills of the state combined the average pay for a day's work reaches the enormous sum of \$1.10, and in the corset factories \$1.02. Yes, Honorable Bir, you find in the list—Schedule No. 109—a shop that employs for three hun-dred days of the year one hundred and fifty people at the princely wage of 47 cents a day. Think of it! Forty seven cents on the average for the whole shop! And how is it with the average daily wage for all the indus-tries in the state? I will tell you, sir. It is given by the same authority as reaching the chormous sum of \$1.54. These are the statistics of our state in the year of greatest prosperity, the

acy in Rhode Island? Take our latest achool statistics and you-will find there-in the following: 'About nine and onehalf per cent, male and about ten and hair per cent, mare and about ten and a haif per cent, female illiterate inhabitanta. This will not surprise anyone who has once or twice been at the gates of the cotton mills. Go there at 6 o'clock in the evening and see the crowds of little children pouring from these gates of bell—children who ought to attend achool or he at home fondled. nd school or be at home fo d cared for by their mothers. WHY. MILL OWNERS WOULD

PREPARING TO KILL SCORE TWO FOR

Capitalists Expect an Uprising.

Military Maps Boing Made to Facilitate Shooting of Strikers.

The Geneva (N. Y.) "Daily Times" of March 4 contains the following significant account of the military pre-parations which are being unde by the servants of the capitalist class to quell strikes and meet any possible up-rising against industrial tyranny:

"A military map of the city was completed last evening by H. De Forest Patterson, under the direction of Capt. J. George Stacey for the head quarters of the Fourth Brigade in Buffalo. The original map was sent to Buffalo to-day. Capt. Patterson has been working on the map for several

"It is in detail and shows the factories, shops, and railroads where there is a possibility of an industrial uprising. Within close proximity to each factory and railroad there is designated an open space or sheds that could be used as camping places for troops. The map locates all of the stone and brick public buildings in the city which could possibly be used as a lausis of military operations. Stone structures are designated in blue and brick in red markings. These buildings include the college buildings, ex-periment station, schools, churches, hotels, postoffice, the city buildings, site of the federal building and all other places that could be used as military headquarters or atrongholds. In addition to these all open pieces of ground such as public parks, the college campus and the driving park which could be used for military

relations between Labor and Capital. This is the 'labor agitator,' or, as I would put it, THE LABOR EDUCAmanacuvers are located on the map.
"Trinity Church is designated as the place for the location of a signal corps It is considered that from the top of the tower the widest view of Genera and vicinity can be secured of any place within the limits of the city. "You see, Honorable Mr. Tracy, this ontent of the wage-worker is a natural consequence of economic conditions. The strike, with an its accompauring vexations—are, even the riot—is again a logical consequence of this discontent. From this point the wig-wags of the signal corps could be seen at the ex-periment station, at the driving park, at the Shears factory, and at the junc-Prosperity-and Who Makes It? tion of the Snell and the Lochland

"But you say in your letter that 'the "The making of this map is in com country was never on a better financial basis, and this season of prosperity should last for years.' This is good with a special order sent out from the headquarters of the Fourth capitalist argument fo use before a lot of bankers and millionaires, for without a doubt for them this country is full of prosperity. TRUSTS UPON TRUSTS, MONOPOLIES - UPON Brigade inst April which directed all of the separate companies included in the command of the brigade to secure as large a wall map as the cities in which the various companies were le-cated afforded. On this map it was directed that the above data be designated. The purpose of such a collec-tion of maps at the brigade headquar-MONOPOLIES! Capitalist organiza-tions of all kinds are shooting up like mushrooms. The dividends paid on are coormous. Not knowing what to do with all the accumulated wealth, these capitalists revel in luxuries and ters is to enable the brigadler genera to issue specific orders in the time di uprising or the movement of troops. These maps will make it possible for brigade officers to locate in time of inaugurate orgies at Newport and abroad. We hear of Seeley dinners and strikes the exact place where the seat of trouble is and where the nearest place where the troops can be housed and to direct movements accordingly." and viceroys, and holmobling with kings and emperors of the Old World. INDIANA COURTS

Another Labor Law Uncomstitutional.

Court Says Law Requiring Weekly Payment of Wages Visiates Working men's Right of Free Contract and Tends to Degrade Them.

INDIANAPOLIS, Ind., April 10.-The Bupreme Court of this state has wiped one more labor law off the statute books. We have aircady reported the decision against the constitutionality of the law fixing a minimum wage for common laborers employed on public work. A week passes and a similar decision is given against the law requiring employers to pay wages weekly.

The decision is based on the same

good old theory of "freedom of con-tract" and portions of the opinion make good reading for workingmen who have begun to think.

"Liberty and Equality" Saved.

"The statute places the wage-carners of the state under quasi guardianship, the court says. "It classes them wit minors and other persons under legal disability by making their contracts void at the pleasure of a public officer. It tends to degrade them as citizens by impeaching their ability to take care of themselves.

"It is paternalism pure and simple, and in violent conflict with the liberty and equality theory of our institutions. Labor is property: it is exchangeable for food and raiment and some com-forts, and may be bought and sold, and contracts made in relation thereto, the same as concerning any other property.

"The contract prohibited affects employer and employee alike. If the master can employ only upon terms of weekly payment, the workman can

ment on no other terms." A Lesson in Labor Politics.

The organized workingmen of the state, many of whom have the experi-ence of having their wages paid at such long intervals that they are regu-larly compelled to go in debt to the great profit and advantage of the empioyer, and who have spent a great deal of time and energy in lobbying for the enactment of this law, will appre-ciate the irony of the court in stepping in to protect their "liberty and equality" by unliking the law they

have begged for.

If the judges will keep on giving lessons like this we may confidently expect a Socialist vete at the next, lection which will unpleasantly prise those eminent gentlemen and their backers

MUST NOT STRIKE FOR RECOGNITION.

Row York Court Says Workingmon Have as Good a Right to Use Violence as to Strike for Such a Purpose.

The Appellate Division of the New York Supreme Court has added another to its long list of decisions against workingmen in their industrial conflict with the capitalist class. The Appellate Division, reversing the decision of a lower court, declares that an injunc-tion must issue at the suit of John Bentty, a master painter, against the officers of the Amalgamated Painters and Decorators, forbidding them to conduct a strike for the recognition of

There is in this case no question of ing workmen to break their contracts with their employer"—that is, calling a strike at the direction of the identical workingmen in question. The court

BOJ'S: "The sole question is whether the de-deadants, because the plaintiff would the pledge of the Municipal Voters' not in a formal way recognize the asso-ciation, or for an alleged affront to its walking delegate, have the right to me-liciously cause parties who have sen-liciously cause parties who have senwalking delegate, have the right to ma-liciously cause parties who have en-tered into contracts with him to decase furnished 'no authority for a resort to fraud, intimidation, force or

This (the breaking of the contracts) was done, and in the future is threatened to be done, not because the plaintiff refused to employ union labor, or to pay union wages, but simply because— according to the uncontradicted testimony of the defendant, Callanan-the plaintiff refused to recognize the repre-sensative of the union or 'the union in

The methods here employed to conpel the plaintiff to accede to the de-mands of the defendants are unjust, unreasonable, and such as the law does not recognize and will not tolerate As well might the defendants resort to physical force to enforce alleged rights or redress real or imaginary wrongs

bring a sult for damages against the union. In view of this threat the case should be considered in connection with those which The Worker has recently reported from Waterbury, Omna, and Rutland, Vt., and with the Tail Vale and Densby cases in Region.

VICTORY IN CHICAGO.

Socialist Party Elects Its First Alderman.

Workingmen of Pullman at Last Represented - Attitude Toward Municipal Votors' League -Our Vote Apparently Increased under Difficult Circumstances.

CHICAGO, Ill., April 0.-The results of the recent election in Chicago were gratifying to Socialists from almost every point of view. The police returns give us between eleven and twelve thousand votes. Last year these same returns gave us nine thousand, and a subsequent official count raised this to thirteen thousand. If the same rate of increase holds this year, the So-clalist vote will be nearly fifteen thousaud. These are all straight Socialist votes and some of the caudidates will run from two to three thousand more. There was an Independent Labor

party in the field, which made a most active campaign but only succeeded in polling ten thousand votes. Both the Republican and Democratic candidates deciared themselves in favor of municipal ownership and the referen-dum, and Harrison, who was elected, made these two questions his main reasons for asking for a re-election. Under these conditions it is absolutely certain that no one save those who stood for a straight Socialist position would vote a Socialist Party ticket, and we are, therefore, justified in saying that our vote this time represents the thoroughly intelligent and class-conscious Socialists in Chicago.

Our First Alderman.

The feature of the election which attracts the widest attention is the elec-tion of Comrade William Johnson for Alderman in the Thirty-third Ward. It comes with peculiar satisfaction and with a sort of dramatic justice that this is the ward containing the town of Pullman, which had come to be looked upon as the very climax of Republican capitalism, and which formed the cen-tral point of the most tremendous struggle between capitalists and organ-

ised laborers ever waged in America.

To some degree Johnson's election was due to other than Socialist votes, aince he revelved the endorsement at the Municipal Voters' League. How-ever, we have the satisfaction of know-ing that he was the only man endorsed by the organization who sign their pledge of is any way obli-

Piedged Univ to Socialism. When their committee asked that he

sign the pledge which they proposed, providing for the support of the referndum and rejection of all franchises not containing a municipal ownership provision, he replied by sending them a copy of the Societist municipal platform, and stating that this represented his position and that he owed no silegiance to anybody save the Socialist Party. The representatives of the organization who came to the headquar ters of the Socialist Party in regard to and that if they recommended him it must be done with the distinct under-standing that he owed them no alleg-iance. Owing to his undoubtedly superior intelligence and integrity as mpared to the otner nominees the League could, nevertheless, not very well withhold its indorsement, since they have always made a boast of be wholly non-partisan, Comrade trasts most strikingly with that of th aldermanic candidates of the Socialist Labor Party, who, in their eagerness

cialist movement in Chicago, although liberately break them by means of threats to cause, or by actually causing; some others in public affairs, and, a strike of all the workmen in the employ of such parties. That they have no such right was clearly and unnuise takably announced on the appeal from the bottom, the order vacating the preliminary impurition, the court then saying that the case furnished no authority for a reshows the truth of what the Socialist Party has said all along, that the vote which the S. L. P. received last year was given to them by mistake. They have just one more chance to appear or the official ballot in Illinois and then we are done with them for keeps.

Independent Labor Party.

The Independent Labor party has pried loose about 10,000 workers from the old-party allegiance and has taught them the lesson of the necessity of in dependent political action by the la borers, and they are now the ripest kind of material for Socialist propo-ganda. As a result, the Socialist Party should show an even more rapid growth during the next few years than in the past. Next spring we will al-most certainly see other Aldermen sent physical rorce of the control of the capitalism will have brought forth the legitimate fruit of that capitalism—

Straight and Staiwart Socialist Vcto Grows, Despite Jonesiam and John-

CLEVELAND, O., April 9 .- Unofficial returns give the Socialist Party 1,070 votes in the city election here. Official figures will probably add a hundred or more to this. In the city election a year ago we had 643. R. L. P. falls off from 442 a year ago

Our vote is less than that cast in the state election in November. menns that in November we got a considerable number of men who are not yet class-conscious Socialists, and who cast their votes for Tom L. Johnson, as a "good man," this spring. Never-theless, the increase of the "straight and stalwart" vote is a very satisfactory indication.

Later.-Further advices make it probable that the foregoing report greatly understates the Socialist vote in Cleveland and that we held nearly if not guite the whole of the vote cast for the state ticket, in spite of local in-

DAYTON, O., April' S .- E. J. Miller Socialist candidate for Mayor of this city, received 1,220 votes, our other candidates on the city ticket varying from 1,167 to 1,254. Our ward cand! dates, in general, ran a little ahead of the city ticket, the aggregate vote for Socialist candidates for the Council being 1,370, for the Board of Education

1,472, and for Assessors 1,413.
At the last city election our vote for Mayor was 320 and in the state election last November we cast 974 for the head of the ticket. Thus Dayton con

tinues her good record of steady So-cialist advance. TOLEDO, O., April 9 .- The Socialist vote for Mayor in this city is 549. Our other candidates on the city ticket range from 1,279 to 1,589. Two years ago, in the city election, we had 482 for the head of our ticket and last fall, in the state election, 1.571. Compar-ing 422 with 540 shows the growth of uncompromising Socialism. The other thousand or so are Socialists when there is no Jones in the field, but have not got over the "good man" supersti-tion. We shall keep at it and, with the aid of the object lessons that the capitalists and their politicians give ons that the re shall teach them yet.

MANSFIELD, O., April 11,-The Sc over last fail.

DAYTON, O. April 12.-Following re some incomplete returns from the lections in the smaller cities:

FOR THE CAMPAIGN OF 1904.

National Secretary Mailly Issues Call for a Special Organizing Fund.

National Headquarters Has the Duty of Organizing New States and Helping to Strengthen Weak Ones-A Great Opportunity that Must Not Be Missed-Now is the Time to Strike.

Comrades:-A great opportunity con

The rapidly growing sentiment for So-cialism, the working-class tendency to-wards independent political action, the increasing number of industrial conficts and strikes, the futility of Civic Federations and Arbitration Commissions to avert these conflicts and produce harmony between, antagonistic forces represented by the working class and the capitalist class, the promutgation of decay halor parties, the deterior. of decoy labor parties, the deteriora-tion and breakup of the Democratic party, the abject failure of the Repub-lican party to handle the trust question, and the open activity of the capi tailst class in its opposition to Social-ism; all these and hundreds of other evidences, apparent on every side, should teach us that the time has come when Socialists must prepare for the final struggle between Socialism and

apitalism.

For years we have been sowing the seed for the ripening harvest. Social-ist papers and literature, agitators and writers, scholars and thinkers have grown in number until they can be found in every city, town and village n North America. Our press extendin to every state and territory, and turn which way it will, the capitalist class sees the doom of the present system written in an increased Socialist vote All this has come to pass after years of work and trial on the part of men and women now living, and of brave souls who have passed away ere the dreams they dreamed came true. One thing above all others remains for the Socialists to do at this time.

The circulation of the entire Socialist press must continue to increase, our lecturers and speakers must continue to attract larger and larger audiences, and the capitalist class must give more and more attention to Socialism; but we must be organized to take full advantage of the agitation, education and publicity that will surely follow. must co-ordinate our efforts and con-serve our energies so that the forces that make for Socialism shall be crys-talized at the ballot box in an effective demand for the Co-operative Common-wealth. It is imperative that the So-cialist Party be so organized during this year that electoral tickets can be cominated in every state in the Union

for the national election of 1904. To achieve this, the National Head-quarters must have money with which o work. We are developing plans by which every state can be covered with organizers, and every Socialist curoiled as a party member. We must enter the national campaign with an organi-zation that will place the Socialist Party at least second when the votes are counted. This can be accom-plished if the Socialists themselves but choose to-will it so.

We therefore call upon you to con tribute what you can to a Special Organizing Fund, to be used by the National Headquarters for immediate organizations. ganizing purposes. We cannot have a Prompt action is requested, and restrong and effective organization un-

Omaha, April 10, 1903.
To the members of the Socialist not have organizers so long as we are not have organizers so long as we are without the necessary funds to en-sure their taking the field. While the fronts the Socialist of this country. | regular revenue of the national office is growing steadily, yet part of this must go toward relieving the party of its legitimate debts, which have

already been unsettled too long. These

debts must be cleared as soon as pos

sible, and we'have already begun systematic effort to bring this about. The Special Organising Fund will be used to the best advantage of the cutire movement. Many states, al-ready organized, need assistance in order to revive delinquent locals, to enourage other locals, now working, and o organize new ones. If we can get the organized states into a condition where a steady revenue is assured the respective state committees and the National Committee, the states will be strengthened and provision thereby nade for extensive operations in unorganized states. An Organizer must be sent through the Southern states, where interest is growing, and where organizations that will provide tours for speakers must be formed. Interstate tours for reliable organizers and speakers will be arranged. We intend to make the national office the head-quarters for the best party lecturers, thus ensuring economy in every way, guaranteeing a systematic method of conducting our propagands, and at the same time enabling this office to fulfill its real mission as the National Agita-

tion Bureau of the Socialist Party.
All this can be achieved in a comparatively short time, Comrades, if you will help do it. We know that the de hands upon your meagre resources are never cuding, but we wish to impress you with the fact that \$1,000,00 expended for organizing purposes by this office within the next few months will return in increased revenue and mem-bership many times over before the year closes; and we want, and should have, at least that sum by May 1. We do not wish to go to the expense of lasuing subscription lists, but we request that locals get Out such lists in their respective localities. There are many sympathizers who will subscribe to our fund if their attention is called to it.

Socialists of America, you must act now so that the Socialist Party can enter the national campaign next year fully equipped to meet the enemy in the first great national struggle between Socialism and Capitalism.

Fratgraally yours, WILLIAM MAILLY, National Secretary.

J. P. ROE, JOHN M. WORK, ERNEST UNTERMANN, GEORGE H. TURNER, SAMUEL LOVETT.

NOTE.-Contributions will be re ceived direct at this office by the National Secretary or through the various state committees. Acknowledgment will be made in the Socialist press,

THE PARTY'S EMBLEM.

above.
The Socialist Party for Social Democratic Party in New Yorky abould not be confused with the so-called Bordillat Labor Party. The latter is a ring-ruled organization which devision all its converges to two purposes: First, to disrupt the Socialist supvenment and stander the Socialist who carry out the battle against capitations: second, to making the socialists who carry out the battle against capitations: second, to making the socialists of the socialists. THE SOCIALIST VOTE

The Socialist Party (the Social Democratic Party of New York; has peased through the second general election. Its growing power is indicated and its speedy victory for shadowed by the great increase of its vote as shown in these Squives:

He who reads rules, it is said. Bu he who reads only the capitalist papers merely thinks that he rules.

THE MUNICIPAL ELECTIONS.

The victory achieved by the Socialist Party in Chicago, of which Comrade Simons writes in another column, is an epoch-making one in that this is the first time we have put one of our candidates in office in any of the great cities of the country. Heretofore our victories at the polis, yearly growing more numerous and striking, have yet been confined to the smaller industrial cities and towns, where the forces of capitalism and especially the forces of empitalist corruption are less thoroughly organized and the condition of the workers is one of greater compara

The list of smaller cities where the Socialist Party has won a partial or a controlling voice in local administration has now reached very encouraging proportions. Haverhill and Brockton Chicopee, New Castle, Marion and Linton, Saginaw and Battle Creek Sheboygan, Anaconda and Butte, not to enumerate a dozen less important points-this should be enough to pu new beart into any comrade who has grown weary in the long fight and to

inspire him to redoubled efforts. To crown this by invading that sanctum sanctorum of capitalist boodle politics, the Chicago Board of Alder men, to send a workingman from a enost bitterly oppressed working-class district, pledged distinctively and exclusively to the interests of his class against the interests that have hitherto ruled unquestioned there-our con rades of Chicago may well be proud and we all share in their retolcing.

We know that Socialism cannot b brought in through the action o municipalities. We know that ever where the Socialist Party controls the rhole of a city government, the me It can expect to accomplish in a comparatively slight amelioration of the il results of capitalism, and that they may have to meet the opposition of courts and legislatures even in this Comrade Johnson new eccupies, cas do little more than act as.a. spokes man for the workers, throw their de figure in the faces of the minions of capitalism, and tear away the mask

But just that is well worth the do ing. And we know that the election of | ingratitude of democracies.

Socialist Aldermen this year means the election of Socialist Legislators pext year and then of Socialist Congreesmen to carry the same battle to Washington. We can now feel assured that the day of small things is over, that we shall not again have to retrace our steps and fight our battles over, that, on the contrary, the rete of our progress will be accelerated from year to year and from day to day.

HOW TO PREVENT CLIQUES.

It is not our intention to common upon the particular affairs brought to light in the last meeting of the General Committee of Local New York. Such comment would not now be proper, nor is it necessary. The comrades of this local, in their districts and through their elected and in structed delegates, will be amply able to get the information necessary for forming their decisions and to express and execute their will.

Certain general reflections suggest themselves, however, which it mar not be amiss to submit to the consideration of the comrades. The first is a feeling of congratula-

tion. We believe there are few bodies outside the Socialist movement that would, under the circumstances, have shown such calmness and self-control as did the General Committee. Some bitter and injudicious remarks were made, judeed. That was hardly surprising, for to most of the delegates and spectators the facts revealed and the defiant attitude assumed by the party officers involved when a statement of those facts was forced from them came as a most painful shock. The orderly discussion and the extremely moderate action in which it ended formed an emphatic illustration of the capacity for self-government which our movement cultivates in its members.

More important is it, however, to ask: How could such a state of affairs arise and how are we to guard against its repetition?

It is not enough to say that so-and-so are self-secking or factious persons and that they are the cause of the trouble. We must expect to find always and everywhere some unscrupulous selfseekers and some who by temperament are breeders of discord. We must expect even that the Socialist movement will get rather more than its share of those whose trade or whose anusement is "to fish in troubled waters." And we must expect that such persons, whenever and wherever they begin their evil work in our ranks, will be openly or secretly encouraged and aided and abetted by the recognized enemies of our cause. This is one of the normal difficulties of our movement. It is therefore our duty to guard against such a danger, and if we fail to do so, we are to blame. Moreover, as we shall point out later, the evils of clique politics and faction may grow up even without any deliberate ill intention, at the beginning, on the part of those concerned in it.

Let us not, then, forget that we have a responsibility for what has been done and for what is to be done. In a democratic organization the burden of every error rests upon all and upo each-not only upon each who does wrong, but upon each who failed to prevent the wrong-doing.

It is very easy to decline every omination for a party office and to vote for anyone who is willing to accept; it is even possible to convince yourself that it is modesty and not iniolence that prompts you. It is very easy, having elected party officers, to think that you have delegated all your duties as well as some of your author ity to them, to diamine the subject from your mind, to think that it is unnecessary for you either to support or control them. It is very easy, when some more watchful comrade gets up in your meeting and tells you that things are not all as they should be, to rebuke him as being too suspicious, to tell him you want peace, and to go away whistling and cheerful.

All this is very easy, but it is not

very wise. After you have gone on very comfortably for a while, your peaceful dreams are always rudely disturbed and you find that, because you have neglected to watch and work, you now have to fight. Then you get angry. You want to blame someone. You should blame yourself. If such a go-easy practise on the part of the rank and file is not safe for themselves, neither is it just to the officers. If you shoulder off all your esponsibility upon them, if you fail to advise or instruct them as to your wishes and to inform yourself so that you may instruct them rightly, if you fall to support them locally in the performance of their duties, if you do not promptly and fraternally set them right when they begin to neglect thee duties or to make errors of indement or of will, then you must expect thateven though they be perfectly hones and unless they be also extraordinarily strong and wise-they will follow mail mistakes with greater ones and, at first unconsciously and then deliberately, conceal facts or mourb power in the hope of retrieving their false steps and from a just contemp of your laxity pass to insolent defian of your authority. The road to bell is proverbially easy and, as the French

say, it is only the first step that costs. We read a great deal about the

all humbur. The weakness of demo ractes is not in their ingratitude or clouspess, but in their their sue pronences to go to sleep and trust to luck and "good men." It is the saying of a wise man, mone the less true fo being worn threadbare, that "Eternal vigliance is the price of liberty." The nowers of evil never slumber; sound sleep may indicate a good conscience but a good conscience will not keep

burgiars out of the house. No political machinery that has ever been devised works quite automs tically. Universal suffrage, represent tation, initiative and referendum-all these are good machinery, if well naed. But the most thoroughly democratic constitution in the world, with the most carefully planned system of checks and balances, will not of itself prevent usurpation or maladministration. The one assurance of the right administration of the affairs of any body of men is that the rank and file should be constantly active and alert.

We in Local New York may think ourselves fortunate that the affair which calls forth these remarks was no worse, that the amateurish bungling of those implicated compelled their so speedy exposure. Shrewd men could have done much greater harm. But these are not the last of all possible intriguers. The next set may be shrewder.

To prevent the repetition of such troubles there is but one way: The comrades in their districts must see to it that they elect delegates to the General Committee who will attend regularly and must insist that they report on all that goes on there; the Gen eral Committee must insist on the strictest adherence to the rules, even at the cost of some inconvenience; they must insist that the City Executive reports its proceedings fully and explicitly: they must insist that the rank and file be frequently and definitely informed of the state of the party's finances; they must see that salaried officers are paid regularly as well as that they do the work they are paid for; in choosing officers and committeenien they must more carefully consider the proven fitness of the men. judiciously minging older and newer comrades on important committees, in order that the latter may have a chance to learn by experience how to conduct party business and yet that important matters shall never be wholly in the hands of novices or untried men.

If these things are done, we need have no fear of factions or of cliques or of "powers that be." These things must be done, and it is for each of you, party members of New York-or, changing names, of any other placeto see that they are done, in order that we may have real harmony and active and intelligent propaganda."

The Pennsylvania mine owners are exerocising their right of "maintaining reasonable discipline" with a vengennice. At one colliery near Mahanoy City, the other day, twenty-five union men were discharged at a moment's notice, for "insubordination." That is the way the Baers cultivate barmony between Capital and Labor.

"Violence by Coal Miners" begins to appear again as a common headline in the "Sun." Of course we know how much credence to give to "Sun' news of this sort. The only significance to be attached to the renewal of such reports is that it shows that the strike has not been settled by the arbitrators, that dissatisfaction still exists, and that the compromise may not last out the prescribed term. That was to be expected.

A couple of years ago the capitalist papers were plaintively describing the dustrial ruin brought on Haverbill and Brockton by the rise of Socialism there. The inhabitants of these cities sceps to have enjoyed the alleged disaster, having elected more Socialist officials than ever. Now let us see if Butte and Sheboygan and Battle Creek will be rained.

Senator Hanna says: "Organizad labor should be Americanized." Mark is the man to do it. Grover Cleveland, J. P. Morgan, and many other public spirited and patritoic gentlemen will help him in the task. Socialists say Labor must be internationalized, must get rid of the national prejudices that divide the workers and make them an easy prey to the profit-grinders.

Instice McLaughlin of the Appellate Division of the Sunrame Court of New York treads on dangerous groun when, in deciding that workingmen have no legal right to strike for the recognition of their organization, he says: "As well might they recort to physical force to caforce alleged rights or redress real or imaginary wrongs." If our learned judges tel us we have so good right to use clubs and revolvers as to quit work in unison, who will dare speak again of labo agitators, "inciting to violence"? The learned judge, in condemning the strike, actually commends the so-calle "propaganda of dead"

It is not our business to discuss th rights and wrongs on one side or the other in the fight between the two ear penters' expanientions or in the figh between two unions of shoe werker That is referred to by our Haverhill cor-

respondent last week. We speak of hem in this place only to call atten tion to the sid and comfort which he given to the capitalists, the enemies and exploiters of all carpenters, shoe vorkers, or other workingmen, by the continuance of such internal conflicts. It is enough to read the reports in the capitalist papers in order to see how jeer and exult openly-at the spectacle caeting very honorably and mercifully of unionism, one set seeking to break faight and as we say, giving fair warn-the organization of the other set, only sing? It is good capitalist orthodoxy foolish dupes in case they succeed. It speace. than the majority of them have yet reached—the idea of the Brotherhe of Man realised in the Co-operative Commonwealth, which leaves no room for quarrels over unessential details in

Capitalists love labor organizations that are of no use to the working

the face of the common foe.

"A TOWER OF MENACE."

The New York "Mail and Express" is getting timid and illogical in its defence of capitalism. In the issue of Monday, April 13, we find an editorial entitled "A Tower of Menace," which we quote in full:

"Deserving of rabuke as impolitic, provocative, dangerous and threaten-ing private command of public rights is the action of the Raieigh Coal and Coke Company. The property of this company is near Staniford City, W. Va., where six miners were killed recently in a conflict with deputy sheriffa. The company has now built a tower on a hill overlooking its prop-On the tower are mounted a Gattling gun and a searchlight. These are described as commanding not only the colliery buildings and entrances to the mine, but the adjoining town of

county and then of the state to supto property. But that protection of function of defense, not a privilege to overawe or threaten the neighboring rommunity or to control free passage, upon the public highway. The build-ing of this tower upon a hill savors of feudalism. It doubtiess is not the purpose of the officers of the company to perform the role of medieval barons, ontrolling the peasants of their castle lown and levying tribute upon passing travelers. But they have made a travelers. But they have made a needlessly offensive speciacis of the power temporarily to make as well as lo repel assault.

"One may not agree with the acade mic advice of the Anthracite Commission against the use of the coal and iron police in Pennsylvania. One may question the wisdom of employing a force of private armed detectives when labor and capital clash. But this fortification, bristling by day and flashing by night, should be reduced by its uilders. It is a minatory incitement. It is a challenge. "It is a red flag. What would be thought if the town of Atkinsville were to plant a Gatling gun and a searchlight in its church steeple ?"

There is only one reasonable word in this article. The action of the Raleigh Cont and Coke Company is undoubtedly "Impolitic." Capitalists are always impolitic. Whether they bluster or cajole, whether they frankly threaten and defy the workers or treacherously flatter them and plead for harmony and promise concessions they are always suicidally foolish. They cannot help it. It is their doom. "A ruling class is niways a fool class." Occupying a fundamentally faise position, a morally and logically lade fensible position, they cannot but run counter to reason and to morality. They cannot be consistent in bullying or consistent in fawning. By their concessions they betray the consciousness of their own weakness, thus at once inciting and justifying an attack, upon their privileges. By their arro gant threats they betray the faisity of their friendly professions, and so add new incitement and new justification to the attack.

It is impolitic for these Coal Baron to build this "tower of menace." But saids from its impolicy, why should the "Mail and Express" condomn such ection? The "Mail and Express" says these Coal Barons have a right to own the mines and breakers and coke ovens tnat other men have made and now operate. It says they have a right to may who may and who may not work there, and on what terms they may work, to keep for themselves such part as they choose of what those workers create, and, if the workers are dissatisfied, to forbid them to work a all until they are starved into content ment, even though other people may suffer for lack of coal and coke tha

these workers would giadly supply. The "Mail and Express," moreover has joined with the other capitalis papers in alleging that the workers-in this trade and others, in West Virginia and elecurbers—are laxy, riotous, mur derous ruffians. It has published such statements whenever workingmen were on strike. These statements are lies, just the ploss "Mall and Expres prints them as truth. The "Mail and, Express" further says, in the presen article: "The right of the company to protect its property against assemble is feelingstable, in

Why then, since it habitually i

outs such assault by strikers as not "Mail and Express" think it wrong for those Coal Barons to put a search light and a Gatling gun up there on a tower as a fair warning to all those lazy, riotous, murderous ruffians of workingmen that they must be sub missive or get the life blown out of the bosses laugh in their sleeves-may, sthem? Nay, are not the Coal Barons of workingmen scabbing in the name in putting their Gatling gun in plain to be served in the same way by other sthat Gatling guns are guarantees of

is our part to teach and preach and if a Coal Baron may, by divine or everywhere illustrate the lesson that other right, compel me to choose bethe true duty of the workingman is tween premature death from excessive not to his union alone, nor to his craft work and premature death by hunger, alone, but, to his whole class, and to why may he not shoot me outright? A inspire our fellow tollers, organized or Fortiori, why may he not frankly unorganized and of whatever trade, threaten to shoot me? It is not wise with a larger hope and a higher ideal | indeed. But is it not quite within the sacred rights of property?

Go to, plous gentlemen of the "Mail and Express." Your capitalist masters know their business as well as you do-as well, and no better. You none of you really know your business, nor can do so, for your whole existence is a monumental historic lie, without right to continue nor power of much longer continuance.

The Bastille did not make the French Revolution. Nor could Louis have prevented the Revolution by raxing the Bastille. Build towers of menace or not, Masters of the World, your débacle le coming, just the same

THE IMPELLECTUAL PROLETARIAT.

University statistics recently published, says the "Literary Digest." revive the discussion of the old problem that Bismarck, in his parliamentary nddresses, so frequently mentioned with apprehension, namely, that of a "learned projetariat," a "mob" of technically educated men vastly in excess of the demand. The "Frankfurter Zeitung," stances the best-informed journal in the "land of thinkers and authors" on subjects pertaining to higher edites tional matters, has cometiting to an on this subject substantially as for

Atkinsville and the republic road.

"The right of the company to protect its property against possible assault is indisputable. It is also the duty of the attinues, which latter, by recent action of the authorities, have been placed or an equality with the former, again show how all the professions, with the spie exception of the Protestant minis try, are in danger of being swamped by an overproduction of graduates who want appointments, but who are doomed to disappointment. The total university attendance in the present winter term is 47,788, and the total enrolment at the nine schools of technology is 17,083, making a grand total of 62,831 men and women (the latter number but 1.271) who are preparing chiefly for professional careers. Of the university students probably about 8,000, and of the students of technology about 3,500, are not regularly insgribed members of these lastitu-tions, but all, with scarcely any excep-tions, are aiming to fill positions that technical and professional training. The representatives of the statistical sciences, such as Professor Lexis, have repeatedly drawn attention to the dangers resulting from this con dition of affairs for society and the state, especially because the system of education that prevails at the German higher institutions of learning is of a kind that prepares men excellently for the one particular department which they have selected, and by reason of this specialization makes it exceed-ingly difficult for them to adapt them-selves to other callings if they find their own line overcrowded. Bismarch epeatedly declared that the really bright minds in the dangerous ranks of the Social Democracy are such disap-pointed candidates for the various pro-

inclined to favor the policy prevailing in Russia, of limiting the attendance at these professional schools. THE COTTON MILL

STEEL TRUST PROSPERITY.

Capitalistic "Dividing Up" Illustrated by Annual Report

rotal Wages and Salaries Only Sizo, 000,000 While Profits Are Much Understated at \$133,000,000--- Misleading Figures Given to Produce Im pression of Wide Distribution of Ownership.

The report of the United States Steel Corporation for the year coding Dec. 31, 1902, is one of the most in structive statitatical documents that the world has ever seen. lutended ents that only for the satisfaction of capitalists it will well repay the study of thoughtful workingmen. The unusual fulness and definiteness of detail is probably due to the doubt as to the actual standing of the company which has evi-dently been felt in the financial world and which it is the interest of the promuters to overcome. But we may make it serve another purpose, taking the statement of this, the richest cor-poration in the world, as a text to illustrate the economics of capitalism. can, of course, take up and analyse only a few from the mass of facts preented in the report.

Profits Over 5133,000,000.

The gross receipts of the company for the year were \$560,045,002,05. The gross expenses for the year were \$485,757,138.83.

The net "earnings" for the year were \$133,308,763.72.

These are the figures as stated in the report. It may be noted that the expense figures include nearly \$9,000, 000 of "commercial discounts, miscelinneous interest," etc., which are not actually a part of the cost of production, though properly charged penses for the purposes of the report Allowing for this the net "earnings"that is, the profits of stockholders, bondholders, and other capitalists interested would be over \$142,000,000. But we may pass this point. It is also to be noted that the expense figures include the cost (over \$21,000,000) of maintenance and repairs, leaving the plant in as good condition at the end of a year's use as at the beginning; so that the net "carnings" are absolutely net—surplus produced by the workers operating the plant and belonging to the capitalists owning the plant, either to be distributed among them in the form of interest and dividends or used in acquiring still more mines, mills, railways, and other property.

Wages Only \$120,000,000.

The report further informs us that the 168-127 employees of the company received during the year in wages and niaries an aggregate sum of \$120,528,-345-less by \$13,000,000 than the net "carnings" of the capitalists, on the most moderate statement of the

In round numbers, these 168,127 workers created in the course of the year new wealth to the amount of nearly \$254,000,000. They got back, out of this, something over \$120,000, 000 and left over \$133,000,000 in the hands of their masters, as tribute in return for the privilege of working with means of production that they, the workers, and themselves erected and kept in repair.

Capitalists "Dividing Up".

In other words, out of every dollar of new value that the steel worker's lubor created, he got back something less than 48 cents and left something ore than 52 cents in the hands of the owners of the tools with which he worked.

As a matter of fact, this is a con siderable understatement. Not o were the profits actually greater some \$1,000,000, as stated above, than these figures show; there are un-doubtedly many other millions in-cluded under the general head of "manufacturing and producing cost and operating expenses" that should, for the purposes of economic analysis, to show the division of the produce, be treated as profit rather than as ex-penses, could we get the Items; and further, the Item of "aggregate wages and salaries" includes a large amount, no doubt several millions, of ex-orbitant salaries for officers who are also stockholders or bondholders, which are actually not wages at all but profits paid in a disguised form. Could we make these corrections we should probably find that the steel workers have given up to the stee works owners 60 cents or more out of every dollar of value their labor created. But it is well to be moderate and the unquestionable figures are striking enough-out of every dollar, 48 cents to the man who works for it cents to the man who shows him to work for it.

Average Wages.

The average wages of all emplo including President Schwab and at the other high-minried officers, were at the rate of little less than \$717 a year, or \$2.30 a day. We say "at the rate of \$717 a year," because the number of employees given (168,127) is the average number employed during the year, not the number of different men employed. The number of different men was, of course, much greater; few of them, except the calaried officials, had steady employment through the full year. The average actual wages of the individuals employed during whole or a greater or less part of the year were, therefore, considered the figure of \$717 given.

The report closes with a curiously misleading statement of the number of stockholders, intended to counteract the idea that the formation and development of the trust represents con-centration of wealth. We are told that there are 31,790 holders of preferred stock and 28,830 holders of common, or 58,620 stockholders in all. In the first place, the totalling of these two figures is a simple misstatement of fact. Most of the holders of common stock are also belders of preferred, so lists. A more important point, however, is that we are not told how many

have only one or two or five sha or bow many have a thousand or te thousand or more. We happen to know from facts brought out in the hond-conversion suits in New Jers that certain of the stockholders do ho tens of thousands of shares each; and there seemed reason to believe that many other moderately large stock-holders were only "dummies" for the purpose of disguising the real degree of concentration of ownership. Only very superficial readers—but unfortunitely there are many of them —will be deceived by the bold statement

that there are nearly 59,000 stockholders and be willing to accept as true President Schwab's statement that the organization of the trust really effects wider distribution of ownership. It is probably true that there are about 40,000 stockholders, little and hig-mostly little. It is also true that the industrial and financial control of the cornoration is in the hands of the few big ones and that whenever they get ready to shin their little brethren through a little game of mystification on Wall Street, they do it both cheer fully and effectively. In the present age of the world the teles, as the philo-sophers would say, or the forordained end, as the theologians would put it, of the small investor is to be skinned for the Jenefit of the great capitalist and to pass into the ranks of the working class. That is the only way for him to learn and he will not be spared the painful but necessary experience.

TO MUZZLE THE PRESS.

Pennsylvania Legislature Likely to Enact Most Drastic Libel Laws Ever Proposed in America.

HARRISBURG, Pa., April 9.-The Grady Libel bill, designed to muzzle the press of Pennsylvania and "wipe the nowspaper from the face of the earth," passed finally in the Senate this morning. Senator Grady called the bill up out of order, but objections were made. A motion to suspend the

was carried by 28 year to 8 mays. character, passed a second hearing in the House. Both measures make it a libel for a newspaper to print even an ordinary "personal" item without first getting the coment of the person concerned.

The real object of the prolation, which seems likely to go through, is not, of course, to prevent the publication of any personal news. Our divinely appointed Coal Barons. Steel Kings, and all our capitalist fords and ladles are not really displeased to see column after column in the daily press, with pictures galore, given to describing their dog fights and cat shows and monkey suppers and horselack banquets, their costly tollettes, their "princely" extravagance or munificence, or even their salacious divorce suits. They are vulgar enough to enjoy being made the subject of such sensational articles even more than their vulgarized vassals coloy rending them.

They do not wish to put a stop to this sort of thing, but only to have the power to control it, to make cer-tain papers more distinctly their per-sonal organs and keep others from printing desired news, and, above all to be able, by the threat of libel suits under the new law, to punish news-papers that dare to print news or ex-press opinions distasteful to the ruling

Capitalism would seem to be running mad in Pennsylvania a little faster than anywhere else. It will not take long to reach the end of the course, at

CLERICALISM IN HUNGARY.

The London "Times" gives interestng details of a debute between Social ists and Cieriesis in the Hungarian parliament. The Socialist deputies having exposed the cruelty of certain convent authorities in expelling an aged nun who had lost a considerable inheritance which had been expected to revert to the convent, the Clerical spokesman, Baron Kans, for lack of a better reply, accused the Socialist Deputy Bayonyl of being a police spy. This was done under cover of parlia-mentary privilege, so that Bakonyl could not proceed against Kaas for Ribel. Bakonyi gave the Baron the lie direct, in the public press as well as in parliament, thus enabling and challenging the Baron to prosecute him for Bbel if he dared. He further insinunted that if the challenge was not horsewhip.

DUTCH GENERAL STRIKE.

It is impossible, from the meager cable disputches that have been sent since the third day of the general strike in Halland, to know exactly how matters stand there. The committee in charge of the strike voted, after the resention of work had continued four days, to declare the strike at an end. Many of the workingmen, however, in their meetings, rejected the proposal of the committee and voted to continue the strike.

Several persons were killed or wounded by the military forces called out to "preserve order." although the dispatches—edited, as they always are, to suit capitalist interests—bear witness that the movement was remarkable for the absence of riot or turbu-

The anti-strike bills, against which chiefly the strike was directed, were passed in the face of the people's pro-test. The bills had slready been modi-fied to some extent, from their original form: but as passed they are still odels of drastic capitalist legislation gainst the labor movement and will leave the Dutch workers apparently no alternative but between absolute submission and revolution-peaceful or violent, as the authorities choose to

It is reported that the German government brought pressure to bear on the government of Holland, both to modify the proposed legislation in some particulars and then to stand arm for the bills as modified.

OME OF THE GOOD TRUSTS. "You are oure that the combination

stioned deserves to be class among the good Truste?" "Not doubt of it," answered Senator So "One of the most liberal I ever worked for."-Washington Star.

asked for the publication in more perusnent form of the articles on "The Socialist View of the Waterbury Strike," and "Real Mass Suicide" which appeared in the issue of March 22 and also of Comrade Brown's article, "The Incentive," in the issue of April 5. In response to this demand the publishers of The Worker have incorporated the three articles in a neat little pamphlet, forming a number of the Socialist Library. The first named article, while founded upon a particu lar strike, is written in such a manner, it will be remembered, as to apply to any industrial conflict. "Real Race Suicide" is an effective exposure of the life-destroying character of the capitalist system. Comrade Brown's arwith one of the communest brought up by those who are beginning to take an interest in Socialism. booklet is altogether an excellent bas to use for propaganda. put at 2 cents a copy or 75 cents a hundred. Order of the Socialist Literature Company, 184 William street, New York.

Chas. H. Kerr & Co. of Chicago arnounce the immediate publication of a translation by Austin Lewis of Engel's "Fenerbach: the Roots of the Socialist Philosophy;" a modern allegory by James Aliman, entitled "God's Children," and "Class Struggles in Amerlen," by A. M. Simons, a brief sketch of more conspicuous events of American history.

The International Socialist Revior April contains "The Taff Vale Decision and Incorporation of Trades Unions," by Marxist; "The Economics f Sociation and the Economics of anitalism," by Charles C. Hitchcock "The Great Strike on the Railreads of Holland," by Herman Garter; "Some Reflections on the French Revolution, by Charence Arthur Royce; "The Bel-gian Municipal Committee," by Emile Vinck: "The Social Effects of the Eight-Hour Day," by Dr. A. Hirschfield; three poems by Lorenzo Sosso, Freder-ick from Bamford, and Edwin Arnold Brenholts; an editorial on the award of the Conl Strike Commission, and the neual departme

PERCENTAGE OF WORKERS.

In the consus report on population a table is given of the total number of persons, male and female, of ten years of age and over, who are found to be engaged in gainful occupations in cities having 25,000 inhabitants or more. It is interesting to note by this analysis that in nearly all of the centres of population in this country more than half of the people consider it ne daily brend. Of all of the cities classified, Saft Lake City appears to be one where, out of a total population of the age referred to, the smallest number find it necessary to occupy themselves in gainful pursuits-that is, in Salt Lake City the number thus employed is but 45 per cent, of those who might thus occupy themselves. The largest percentage on the other side appears to be found in the city of Scattle, Washington, where 64.6 per cent. of all of the males and females over ten years of age are engaged in some class of work for their existence. The general average for the country, however, eems to be about 55 per cent., this being approximately the average i Boston, New York (and Philadelphia,

In Boston S1.7 per cent, of the male inhabitants over ten years of age are engaged in galuful occupations, and 30.2 per cent, of the females of the same age are so employed. In New York City the percentage of men en-gaged is somewhat larger (83 per cent.) and the proportion of women somewhat anniller, being 27.2 per cent. In Philadelphia the number of males thus engaged is \$3.8 per cent, and of women 27.2 per cent.

The greatest variation in employment takes place among those of the female sex. The largest proportion of women who are working for a living is found in the cities of Fail Hiver, Lowell, and Manchester, New Hampshire where the proportion is over 41 per cent. On the other hand, towns in the iron working and coal mining regions ow a very small percentage. In the far West the number of women employed in earning their livelihood seems to be somewhat smaller than in the Eastern States, but on the whole it may be said that rather more than onuarter of all the females in the class referred to find some employment by which to carn a livelihood .- Public

"BUT BY AR EQUALITY."

"For I mean not tont other men be eased and ye burdened; but by an equality, that now at this time your abundance may be a supply for their want, and that their abundance may be a supply for your want, that there may be an equality."

No hoarder at a hotel ever complains because he cats less than some other boarder while he is charged an average all boarders out approximately an equal amount, or that if they do not it would not pay them to split bairs over the matter thing wrong with the man who trie to uphold the piece system of labor and to abolish the day system on the ground that one man may earn a little less than another. Moreover, so long as there are more men than jobs, there is no danger of any shirking, because in order to secure and hold a position the average man will work harder than he ought to. There is also se wrong with the man who refuses to rote for "an equality" of opportunity for all men; that is, for a system of laws under which no one can compel another to give him a portion of the fruits of his toil .- The Workers' Ga

-When you are going to hold a public meeting, get a supply of the surrous number of The Worker for sale or free distribution. One hundred copies for 75 cente; 200 for \$1,30; 200

PARTY NOTES.

The Indiana estate convention will bleid on Saturday and Sunday, April 25-26, in Indianapolis. State Secretary Oneal writter: "We expect the largest Oneal writes: "We expect the largest state convention ever held and will perfect plans for continuous agitation for the coming summer." Oneal also makes the suggestion, that party mem-bers who are also trade unionists, watch their craft journals for the names of isolated Socialists, and forem to the national office. Many Recialists in inolated pinces may be "discovered" in this way as they usually give expression to their con victions through their trade journals.

In every state where a party emblen aned on the ballot our comrades ald see to it that our emblem as well as our party name appears every piece of printed matter issued by nection with the party workafleta, handbills, cards, tickets, or

L. Goldberg of Bockland; Me., sende In ton yearly subscriptions in a bunch. It is hoped that each of the ten will make himself an agent and send in a few more. Keep it going.

Massachments has now seventy-six local organizations of the Socialist Party in seventy-one cities and towns,

Ohio locats of the Socialist Party took in 229 new members during March, making that the best menth in the party's history in that state. The Ohio comrades are proud of the fact that they fied Illinois for first place in the roll of states paying dues last nth to the national organization. month to the national organization.— The fund for placing an erganizer in the field will probably he put at work early in the summer.—Plans are being perfected for the summer agitation tours. The state is being arranged into circuits over which open-air speakers will be sent at intervals of we weeks. Work will be started not than May 15. Frank P. and Kate ginning May 5 and ending May 19. Comrades should apply for dates to the State Secretary at once.—Father Hag-erty will start his tour in the Central states on May 15 under the direction of W. G. Critchlow of Dayton .-- Comrades of the newly organized local at Newark have divided themselves into committees of two and are taking the evenings to visit all the sympathiser in the city with a view of connecting hem with the organization. The plan is working very successfully and other committee abould profit by it.—Dayton ports the organization of a new branch composed exclusively of wo men. Its success is siready assured and new members are being added a each meeting.—The call has been is-sued for a state convention which will convene at Columbus on May 20 and continue in session till all business is finished. Representation is by locals membership.

The annual state convention of the Bocialist Party of New Hamsphire will be held in Concord, at the local headquarters, on Thursday, April 23, and plans will be made for the uplifting of the party in that state. New local has just been organized at Claremont with 20 members, and another will be formed at Littleton.

Dan A. White, Massachusetts State Becretary and Organiser, will visit Rhode island for the national party next week and will tour New Hamp-shire, Vermont, and Maine during May

John M. Ray will devote three weeks organizing work in Alabama fo the national party, giving special attention to the Birmingham district, where a city campaign is in progress

John C. Chase began his Texas tour at Dennison on April 8 and will continue in that state until May, going from there into Oklahoma Territory.

M. W. Wilkins will begin his Northrn tour in Oregon during the coming

Local Catakill, N. Y., has issued a loadet giving the reason why the Social Democratic Party did not have have a ticket in the village election because the antiquated charter of that village imposes a property qualification for holding office or for voting in the annual appropriation meeting and Lo cal Catskill found that its members, being workingmen, did not meet their capitalist test. Catskill will be heard from in the fall elections.

The Mt. Vernon "Daily Argus" gives a column and a half report of Comrade Lemon's recent address in Mt. Vernon. Such reports in local newspapers are valuable aids to propaganda, and So-cialists everywhere should endeavor to present at all important public meet

New York City.

hm was very well attended. Among other tickets received were fifty for the May Day factival to be held for the benefit of the Daily Globe Fund. It was resolved that each member take two tickets and sall as many more as possible. The committee in charge of arranguments for the picnic to be held next mouth in Liberty Park reported good progress. Tickets have been sent out. Max Weigl, who has charge of the distribution of tickets, may be seen at the meetings of the Club, which are beld every Thursday in the Labor Lycsum, 949 Willoughby

avenue, between 8 and 10:20 p. m The 9th A. D. of Brooklyn meets at Comrade J. Waish's home, 18 Cole street, on the second and fourth Thurs-day evenings in each mouth.

P. J. Cooney will speak on "The Working Class" at the West Side So-cialist Club, Clark's Hall, northwest corner of Twenty-fifth street and Eighth avenue, second floor, on Friday evening, April 17. The following Frievening April 17. The following Fri-day, April 24, Feter E. Burrowes will speak on "The Gospel of Resistance and Organization." As these are the last two lectures to be given this sen-son, every member should make a special effort to be present.

All members of the Seventh, Ninth, are urged to attend the business meeting to be held at the home of Comrade Solomon, 292 Seventh avenue, second floor, on Saturday evening, April 18, as the referendum on national readquar ters will be voted upon.

Copies of two new pamphlets issued by this office have been sent to each of the assembly district organizations of New York City. Comrade Pick of the Socialist Literature Company will be present at the next meeting of the Gen-eral Committee in the Labor Lyceum to supply districts, which may instruct

KINGS COUNTY COMMITTEE. At the meeting of the Kings County Committee, held on March 28, the at

endance of delegates was very sun doubtless due to the fact that the Dally Globe Fair was in progress, 'A commanication was received from Thompson & Dundy stuting that they never discriminated against union men and had no objections to their men foising a union if they so desired. The letter was referred to the union making the complaint. It was decided to leave the matter of the City Executive Com-mittee in absyance until further com-munication from the State Committee. Comrade Cavanaugh reported that the State Committee is hampered in the work of forming new locals throughout the state on account of lack of funds, and that the committee promises to render a full statement of Brooklyn's indebtedness as soon as possible in order to have the matter straightened up and to give Kings County an opportunity to wipe it out. The May Day Festival Committee reported good progreas with the work and was empowered to employ such professional talent as may be necessary. An effort will be made hereafter to have all party members who are not naturalized become citizens and a bureau will be estab-lished to render them all necessary aslished to render them all neces-sary assistance. It was decided in future all reports of the meetings of the County Committee appearing in the press must be made through the secretary. It was stated by one of the delegates that the Sick and Death Benefit Societies have agreed to give one-third of the net proceeds of their picuic to the party. If this is found to be correct the County Committee will co-operate with them and will abstall from hobling a piculo

At the meeting of the Kings County Committee held on April 11, nine new members were admitted. A letter was rend from the Federation of Labor, referring to the Lunn Park affair, in which the secretary was thanked for his efforts in this direction and informed that further service was not expected for the present. Attention was called to the fact that there were several thousand leaflets at he party's disposal at Miller's Hall, 187 Montro avenue. Communications were re-ceived from the Twelfth Assembly District nominating Comrade Koenig, and from the Mineteenth and Twenty-first nominating Comrade Gerber, to fill the vacancy on the State Committee. The committee on the May Day affair reported that arrangements were almost completed. The number of musicinus to be engaged was left to the discretion of the committee. It was resolved to purchase 1,000 copies of The Worker copies to be distributed the following evening at the sutertainment. A delegate reported that the Sick and Death Benefit Society decided to hold a pienic on July 26 at Liberty Park, One-third of the profits are to go to the party fund. The Organiser reported that the Daily Globe Conference meets now on the last Thursday of every mentia. Re-ported that Comrade Pottlerg has been secured as therman speaker for May Day. The Organizer urged the dele gates to have nomination sins invested gauss to have nomination slips lurritd along. Comrade Cavanaugh reported a baiance of \$31.71. Resolved, that complete list of densitions for last emposign be printed in party segam, and the Auditing Committee pledged to complete the necessary week thereto within a week. The Barrel hill of \$15.55, also Organizar's bill of \$15.05, were ordered paid. The Socialist Library Com-pany's bill of \$1.05 was reference to the Financial Secretary for investigation.
Comradi: Furman was instructed to
process the naturalization question owers for the benefit of our unnatura ned quarentes. Comrade Puzzona de-

meeting. Resolved to begin out-door agintion he May, starting with four meetings per week. The frequency was authorized to appear committee of three, inclusive of himself, for this

DENERAL COMMITTEE

The General Committee of Local New York held an unusually well at-tended and unusually lengthy session in the Labor Lyceum last Saturday evening, beginning soon after eight o'clock and not adjourning till after two in the morning. Comrades Wolf and Reichenthal presided.

Reporters of The Worker and the asked the same privilege as reporter for the "New York Socialist and Trade Union Review." Objection was made, but on motion of Courtamy Lemon the request was granted. It was resolved to suspend the rule closing the meeting

On report of the Credential Commit-tee R. Rock was seated as delegate from the 28th A. D. and John Spargo and F. Schuitz from the 30th A. D. On motion of H. L. Slobodin the order of business was amended by in-serting report of Finance Committee, report on the party booth at the Globe Fair, and consideration of the reintions of the officers of Local New York to the "New York Socialist" immediately after reading of the report of the City Executive Committee

After the approval of the minutes communications were received and acted on as follows: Prom S. Panser, resigning from inembership in the party, accepted; from Organizer James N. Wood, resigning his office, action deferred till after conclusion of special orders; from Yorkville Agitation Committee, charging H. C. Bowerman with falling to render accounts as financial accretary for the concert of May 4, 1962, referred to Grievance Committee from Wm. Mountain, member of Local iSings County, charging Wood, Bower-man, and E. W. Searing with con-spiracy to defraud him, ordered to lie on the tuble.

Seven applicants were admitted to

membership in the party.

Recording Secretary Martin read
the report of the C. E. C. to the effect that, at its meeting of March 18 this body accepted the offer of the Workingmen's Co-operative Publishing Association that the Local have a booth at the Daily Globe Fair (in lieu of the request that 5 per cent of the net proceeds of the Fair go to the Local, to grant which, in the view of the Board of Management, would have been a brench of faith with patrons of the Fair), and that the Organizer was instructed to take charge of such booth; and that, at the meeting of April 8 reports showed receipts at the booth to be \$438, with \$80 expenses; also that the C. E. C. asked for representation on the Board of Management of the W. C. P. A.

W. J. F. Hannemann for the Finance Committee reported progress on preparations for the pieule to be held jointly with the S. C. P. A. The mittee also recommended that the placing plan be continued, amounts being made optional. Action was deferred to unfinished business.

Organizer Wood reported receipts at the party booth, \$430; expenses, by items, not totalled, but aggregating \$81.40. Slobodin asked what was done with the money, to whom it was turned over. Wood replied it had not been turned over to anyone. Slobedin asked: "Who has it?" Wood replied: "I have-what is left of it." Slobodin asked: "What has become of the rest of R?" Wood replied: "That's none of your business." The chair insisting on an answer, Wood stated that he on an answer, Wood stated that he had not turned over any of the mone to the Treasurer, but had expended the money under directions from the C. E. C. More definite information being insisted on through the chair, Thos. Lewis, speaking as chairman of the C. E. C., supplemented the report of that noily as made by the Secretary, stating that \$25 of the money had been paid to State Secretary Slobedin on account to State Secretary Slobodia on account of debts and that the C. E. C. had voted to pay the remainder to Organizer Wood on account of wages. Lemon asking to be informed exactly how much was so paid to Wood and whether the Treasurer had a receipt for it, Treasurer Hannomann stated that he had not yet been able to settle the matter with the Organiser; and stated further that it was customary

for the Organizer to receive and pay out money directly, merely reporting accounts and exchanging receipts with the Trensurer. Secretary Butscher of the W. C. P. A. asked for the floor to demand that the Organizer now repay a loan of \$75 A. asked for the flow to demand that the oc-alled party press of this city, and agree most heartly with the publicly expressed objects of the promoteculing to agreement, half the purposed objects of the promoteculing to agreement, half the purposed objects of the promotecular from a certain prise at the party replied that it was his intention to pay the inter amount as seen as accounts could be settled; be also stated that the C. E. C. had authorized the pay-ment to him of the bulance from the proceeds of the booth because they

knew he was coing to resign Stobodin then introduced the over tion of the relation of the party offi-cers to the "New York Socialist and Trade Union Review." He spoke at length, pointing out that Organizer Wood and E. W. Searing and John Wilkins of the C. E. C. were, with Bowerman and others, the publishers of that paper—the first being now the president ami the second the counsel of the joint-stock corporation owning the paper; that Wood was virtually the editor: that, although active in it from the buginning, he had for some time conscaled his relations to it as part proprietor and writer or celltor. Ifu eredited llowerman with baving acted honorably in that he had not concerted his position in connection with this paper and had resigned from the State Cummittee on assuming it. the anted that Geo. II. Strobell of New Jersey bad supplied a considerable sum of money for the paper. He pointed out that this rapes had aut been deruted to local propagation. But

exercised this right, but had sat slien! during debates; that he had done it only under cover of anonymity; and that, while holding a saturded office reculting that he give his whole time to carrying out the decisions of the Le-cal, he had neglected his duties in or-der to stir up opposition to such decisions and prejudice against certain comrades who supported them. As one example of this neglect of duty be cited the Organizer's failure to file the

while so doing. But he peinted out that Comrade Wood had never openly

Social Democratic nomination for the special election in the Sixteenth Senatorial District. He declared that if ever a clique existed in the party in New York, Wood, Searing, Wilkins, and some others not holding official position constituted such a clique; and that if the comrades desired to have the will of the majority carried out in good faith it would be necessary to put an end to this condition of affairs.

mittee of five he elected to investigate the assertions contained in the latest issue of the 'New York Socialist,' and the relations of the party offers to that paper andreport to the General Committee.' Slobodin moved to amend by adding: "lint, pending such report. James N. Wood, E. W. Searing, and John Wilkins be suspended from of-

A long and heated discussion followed. Wood declared that he had never

roucested his connection with the "New York Socialist," though he had contents, though not editor, but would how assume personal responsibility for everything that had appeared in it. Ife avowed his activity in starting the paper, declaring that it was started for purposes of local propaganda, but that be became convinced that The Worker suppressed the opinions of those wife bysset its policy and that the members of Local New York were led by the nose by Mor-ris Hillquit and that he thought it was necessary to do something to counteract such leadership. He gave notice that he would not give any information to the investigating com-mittee, if such committee were elected. as the internal troubles of the New York Socialist Publishing Comman were now before the courts and would be settled there. Searing asked to be excepted from

the motion of suspension, on the ground that, as a lawyer, he had a right to act as counsel for the corpora-tion in question. He threatened that if Local New York continued to act on its present line it might find itself outside the Socialist Party of America. Many other comrades took part in the discussion, Bowerman closing the

t vote was then taken, as follows On the suspension of James N. Wood as Organizer, pending investigation for, 25; against, 13; on the suspension of E. W. Searing as mounter of the C. E. C.—for, 16; against, 13; on the auspension of John Wilkins as member of the C. E. C .-- for, 20; against, 17 the motion to elect an investigating committee was carried unanimously. L. R. Boudin, M. M. Bartholomew, John Spargo, Wm. Edile, said H. Brumberg were elected. Treasu Haunenium was instructed to take charge of the Organizer's office pending the investigation. Adjournment followed.

LETTER FROM COMPADE WILKINS. The following letter should be noted

Comittee at its last acasion: "James N. Wood, Enq., President New York Socialist Publishing Com

pany: "Sir:-I hereby tender my resigna tion as Secretary of the New York Se-cialist Imblishing Company, which I hope will be accepted at once. My reasons for resigning at this time are that I do not feel equal to the physical and nervous strain required to properly discharge the duties of the office, and that when I connected myself with the company, I was not informed of the peculiar conditions (financial and otherwise) under which the company was ormalised. While I am still of the opinion which I have publicly expressed concerning the management of under which the paper was first pubwork for Socialism in this city,

wage-workers. The remaining great

"The worker, deprived of the tools of

production, must now sell his labor-power, as a commodity subject to the same merciless laws of competition as

other commodities, and he himself be

comes also a commodity in effect and so compelled to compete for a job. The woman is taken to replace the man,

and the child to replace the woman at the machine which does away with skilled labor. The workingmen must

organise and fight for better condition

"IS THIS WAR A HELL? AH, INDEED IT IS. And you hope to cure all this by your 'Incarceration Bill.'

The Way to Peace. There is but one way out of this trouble. There is but one remedy. That is the establishment of a just system of distribution of the wealth pro-

duced-a system in which every toller

gets the full value of his product. And for that purpose the tools of production

for that purpose the tools of production must be restored to the workers. The modern machine.

modern machinery impelling collective production, the machinery must be owned collectively. All of the means

of production and distribution must be

owned and controlled by the community-state or nation. This is the Co-operative Commonwealth, and it will

end your strikes and boycotts and

the Democratic and Republican parties will do nothing for them, as these parties, together with their 'reform'

appendages, are but wings of the same

bird-the great vulture, the capitalist

cinss. It is identity of interest that binds men together, heart and soul; and

when the workers become conscious of

"I see your smile of contempt, Mr

Tracy. But have you read the vote cast

for the Co-operative Commonwealth in this country at the last election? Do

you not bear the tread of the class-cor

scions workers' battalions all over the land under the banner of the Socialist

Party, three hundred thousand strong!

Beware, Mr. Tracy, of the battle-cry of

this army: 'Workingmen of the world,

"FREDERICK A. W. GRUBE."

NEW HAVEN CAMPAIGN.

Belgived that Socialist Vote Will Be

Largely increased at City Elec-

tion-Platform Loys Down a Simple

Rule for Guidance of Socialist Public

NEW HAVEN, Conn., April 12.-The

Rocialist Party of New Haven is carry-

ing on an active campaign for the city and town election, to be beld on

William E. White, a machinist who

has been active in the Socialist move

ment here for many years, heads the ticket as candidate for Mayor. Our other candidates on the city ticket are

For Comptroller, Anton Frank; for Treasurer, Frederick Gaussel; for City

Adolph Laine, Frederick Vogenity, and Joseph Girometta. We have also a full list of candidates for Aldermen from

wards and for Town Clerk, Selectmen,

The city platform, which has stready been published in The Worker, lays down this rule for the guidance of

"Resolved, That representatives of the Socialist Party, when in office, shall

always and everywhere, until the

present system of wage slavery is abolished, make the answer to this question their guiding rule of conduct: 'Will

this legislation advance the interests

of the working class and aid the work-ers in their struggle against capitalism? If it does, the Socialist Party is for it,"

It is believed that the educative in-

fluence of the great atrikes which are or recently have been in progress in sev-

eral Connecticut cities, the flagrant cor-ruption of the old parties in New Ha-ven, and the conduct of the present leg-islature, which divides its time between

passing capitalist "grab" bills of the most outrageous sort and devising un-precedentedly drastic laws against the trades unions, will, together with the

educational work done by Socialist

speakers and literature, result in a good increase of the Socialist Party

A local paper prints Julius Paccht's letter of acceptance, which illustrates the methods of the Socialist Party-whose "leaders" are actually only the phonon and perposally a party of the

chosen and responsible agents of the democratically organised rank and file.

Comrade Pacchi mys:

"There are few bonest citisens but believe that the administration of af-

fairs by old party politicians in the interest of the capitalist class is detri-mental to the welfare of the working

this they will rule the world.

OPEN LETTER.

(Continued from page 1.)

ing treasure in the capitalist millwhen these people claim a small part of what has been taken from them, the ery is raised by our exploiters that the unjust. The workers are denounced as a lot of conspirators who swish to destroy the 'prosperity' of the country. Are they not compelled to or-

"But as soon as they do so, the police is called upon to intimidate them. The bourts issue injunctions of the most Aveannical nature. The militia is puin mution to terrorize the vexed citi-mens. All the forces of government are mobilized. Aye, even the legislatures are requested to pasa special laws against union men-such as your 'In-carceration Bill,' for instance. We hear-the howls of the subsidized press minit: 'OHDER! ORDER! AT ALI, HAZARDS!" And these demon-strations of might are only inaugurated when the interests of some great priv lieged corporation demand it. The free flamerican severeign voting kings must been the peremptory order of mercen-ary judges or militis officers to keep off own public highways or be shot

What is "The Public"?

The rights of the public must respected,' you muy say, And there you would be right. But what consiltutes the public? Is it any particular class of the population? Are not the workers included? Sir, the public the people of this country-is divided into two classes, the working class and the capitalist class. The working class atitutes the overwhelming majorny this public. Further, the working sciously, always sympathises with any oup of its members that may be en group of its members that may be engaged in a strike against any member or number of members of the capitalist class. This fact has been clearly proven in all the great strikes. But did you ever see the militia or even a single policeman went to protect this smaller grainst a law breaking much like. 'nublic' against a law-breakingcupital ist corporation? Did you ever heur of blanket injunctions is used against the manufacturers when they conspire and lock out their employers, so as to break a strike in another shop, as was done recently in Lowell, Mars? You hugh at that idea, of course, for the mack of government works on the side

"The workingmen of this country are beginning to realize that the government to-day is but the council of the capitulist class, and your 'Insurceration Bill.' If it becomes a law, will pertainly help to make this fact plainer to the prage-workers.

Our Class Sovernment.

Before me lies the Lagislative Bullette of Hartford, April 7, 1903, and I find therein ONE SOLITARY BILL proposed for the benefit of the workers. and that is taid over for a hearing. I find numberiess bills to induce savings banks to invest in railroad stocks, to grant franchises for railroads, and for the incorporation of the bill to make the water contract of the city of New Haven obligatory; I find many other bills that hive nothing in common with Lakov's interests. All is common with Lakov's interests. All is of Vital Statistics, Timothy Ives; for Vital Statistics, Timothy Iv the incorporation of banks; I find a not this enough to convince one that government serves only the capital-ists? I could bring yea a book full of similar proof from other states.

"And this one bill for the benefit of Will it be passed? Ten chances it will not. And if a part is alto one, it will not. And if a part is allowed to pass, will not the representatire who introduced it be compelled to yote for corporation franchises as a compensation? And where are all the friends of Labor prior to their election? One solitary bill they have brought forth, and the working class who elected them constitute the tremendous ma-iority of the people.

"In your letter you express sympathy with the annall business men who, as you say, are raised by the strike. This is a favorite argument used by the great capitalist when his own employees demand ligher wages or better treatment. These great capi-talists who ruin the little fellows by competition or by selling them swind stock, as was recently revealed in New Jersey, by all means fair ac.font, un-scrupulous and inexcusable; these shed crocodile tears in sympathy with the little business man; when they themselves have labor troubles, in the hope of getting the little fellows to pull the chestnuts out of the fire for them or of hiding behind them to direct a stab

Wer is Hell. House work

"You quote General Eberman's say-ing, 'WAR IS HELL.' This is very true, and this general industrial war-fare is hell of the bittest kind."

"Production with the madesa tools crushes out of existence all production on a small scale. The inexorable laws of competition allow only the largest and best plants to survive in the stressat plants to survive in the struc gle for the market. Small pusiness is bankrupted by mholestle, as 'Bradatreet's Journal' has abown during the last crists, and the small business man is compelled to Join the grant of the last tributes the compelled to Join the grant of the last tributes.

TO SOCIALISTS IN CONNECTICUT.

By J. W. Brown.

men ait at sumptuous banquet tables and plan and scheme for the further exploitation and plunder of the people.

They have used us as unchines, en

lives and muscular power, until no

they can displace us with the yet

cheaper material of wood and iron. Rather than to decrease by a few dol-lars their enormous dividends they pre-

cipitate cruel, hunger-breeding strikes, and we are forced at the point of the bayonet to accept their dictates or go to the poor house or to the jail.

Yet Labor, our labor, has produced all

their wealth. It is our labor that pro-vides them with meat, while we gnaw the bone. It is our labor that

builds their painces, while we live in hovels. It is our labor that weaves the silks and fine linen they wear, while

we go in shoddy. It is our labor that

in poverty.

ites their millions, while we die

Close up the ranks, comrades, let this

be our railying cry. Our enemy is upon us, and they have bemmed us in. There are but two exits. One is to slip

out through the back door of, suicide.

The other is to go forward and meet the social revolution. Let us each put his shoulder to the

wheel. We must perfect our branches and locals, and these in turn must rally to the support of our State Committee.

We must have a man or men in the

of the down-trodden and to defend the

principles of our party.

Up from your knees comrades,
"God helps those who help themselves."
To be anslaved is horrible, but to re-

main silent and indifferent, to allow

yourselves to become part of the damnable injustice that is crushing

men, women, and children to earth, is

field at all times to champion the cause

pleying our service at the lowest cost consistent with the preservation of our

Dear' Comrades:-I take this means . of addressing a few words to you in bebalf of the Socialist Party in this state. It is not enough that we are Socialists It is not enough that we are members of the Socialist Party and vote the Sothe spreading of those principles so dear to us, so full of potency to the

so fraught with change as is the pres ent. So far-reaching has been the dethe whole human race had lost its reckoning in the turmoli called civili-sation. The chasm between capitalist and toller grows deep as bell and as wide as bate, and kings and republibrink and look down at its borrors. And while dark clouds gather about us

Over the door of every State House almost every house of God, and cer-tainly every house of Labor may be affixed the sign: "Hell on the instalment pian." Government, Gospel, and Greed combine to rule. Federal judges prosti-tute justice; creeds prostitute God; the capitalist wage system prostitutes man, the toller-

se sons shall be rich men's slaves "His daughters their slaves by night."

We have nothing to expect from our capitalist masters nor from their tools the politicians. Even now, at this hour, hunger and privation stalks abroad in the land, while from factory and field, from the bosom of the deep and the depths of the mine comes the cry of the workers for justice, these

which owns the means by which so-ciety must live, and the working class, which must use these means (machin-Every party member in good standsry of production) or starve. Between ible conflict for the control of the production which the working class alone

"The Socialist Party holds that this conflict can pover cease; that there can be no 'community of interest' be-tween capital and labor; that not until the working class owns and controls the machinery of production can there be peace in the industrial world and in society at large. The capitalist class must be overthrown before this can be

"This party further holds that as the interests of the working class are directly oposed to those of the capitalist class, no political measure advo cated by the capitalist parties can ever be of benefit to the working class.

"The workingmen of this city are continually being fooled by such cries as 'No politics in unions; vote for the best man? 'Vote to reduce taxes!' and the like. From your experience in the past, it is needless to say that the tri-umph of any or these issues has never benefited the working class one lots. I am proud to my that the party upor whose platform I stand is devoted solely to the interests of the working class, and if elected to office I will do my utmost to carry out the provision of that platform. I pledge that if elect ed my every act will be dictated by th inferests of the working class, and that class alone. In accordance with the usage of the Socialist Party I have filed my resignation, so that in case if elected to office I fail to carry out the provis-ions of the party platform I can be at nce recalled from office."

Each of the candidates, in accepting his nomination, filed with the proper party officers a signed resignation, with blank date, to be used at the will of the party in case the candidate, after election, should prove untrue to the cause It is safe to may that the suggestion of such a plan to a Republican of Democratic politician would cause a cold shiver to run down his spine, but Socialist candidates have no reason to be rejuctant about putting such power of recall in the hands of those who om-nate them.

THE REFERENCUM

The question of location of head-quarters and composition of the Quo-rum of the National Committee is now before the party for general vote. In order to assist in ensuring a full and intelligent vote. The Worker reprints the questions with a few remarks, and will continue to do so until the vote is Referendum No. 1 (moved by Locals

Toledo, Akron, Findlay, Fremont, Massilion, Springfield, and Branch 1 of Cleveland, O.; Lynn, Lawrence, Natick, Maiden, Chelsea, Salem, Worcester, Haverhill, and Everett, Mass.; Portiand, Me.; Rochester and New York, N. PEARL RIVER, N. Y., April '9. bere is a strike on at the Dexter Folder Works in this place and ma-chinists are requested to keep away from Pauri River until it is settled.

CARPENTERS' STRIKE.

Brotherhood's Side of the Story in Ro gard to the Present Conflict with Allied Contractors and Amalgameted Society.

Between five and six thousand Brotherhood carpenters of Manhattan are now out on strike and it is not unlikely that the strike may extend to the other boroughs and involve double this number of men.

As the capitalist press has published

only one side of the story it is but fair that the Brotherhood's side should be presented here.

The strike arose out of the refusal

of Brotherhood men on the Stokes building to handle what they called unfair "trim"—that is, shop products made outside the city. The reason given for their rule that such products are not to be used in city buildings is that wages in New York are—and, or account of the higher cost of living must be-higher than in smaller cities If outside carpenters in the city con-sent to put in doors, sash, and other trim made outside at lower wages they thereby help to reduce the chance of employment and cut down wage

for the shop men in the city.

The Amalgamated Society, however, refuses to recognize this rule and they filled the places of the Brotherhood men who struck on the Stokes build-ing. This led to the general conflict

which is now on. The Amalgamated Society claims an ordinary membership of 680, but it has a peculiar system of "trade-section members" which, the Brotherhood claims, is used to take in men indiscriminately in a case like the present to fill the places of strikers belonging to the rival union. It is at any rate admitted that the membership of the Amaignmated at the beginning of the present strike was nowhere near equal to the number of Brotherhood men going out, and yet the officers of the Amaigamated have offered to supply the builders and contractors with

enough men to break the strike. There has long been friction between the two organizations, as is inevitable where two organizations exist in the same trude. Both are affiliated with the American Federation of Labor and until recently both were locally affiliated with the Building Trades Council; the Brotherhood is not now repre sented in the latter body. Since the last convention of the Federation there was a renewed effort to units the two unions. For the present, at least, this effort has come to a stand

The Brotherhood urged complete uni fication, offering to accept all Amalgamated men without distinction while the latter society insisted on retaining their autonomy, consenting only to a sort of alliance or federa

The daily press of New York has shown a sudden interest in and love for the Amalgamated Society since the latter has volunteered to help the bosses break the striks. This is easily were the Amaigamated by any chance to become the stronger body and able as the Brotherhood now is, to enforce a higher scale, the capitalists' affect tions would at once be transferred to the Brotherhood.

MACHINISTS, AWAKEI

Workers of the Motal Trades liave Great Struggle Before Them-Systematic Attack on Union.

The metal trades will probably be the storm center for some time to come in the industrial conflict between La-bor and Capital. In the issue of April 5 The Worker gave some account of the workings of the employers' organi zation, the National Metal Trades' Asnation, the National Metal Trades' Association. In the same connection we need only present—for comment is hardly necessary—the following dispatch, which we missed at the time because it was censored out of most of the Eastern papers: "Buffale, N. Y., March 30.-Undner

the auspices of the National Metal Trades' Association, representative manufacturers of this country to the number of 200 will assemble in this city to-morrow for the purpose of tak-ing steps toward the unification of em-ployers into a federation similar in every respect, even to the establishto a trades union. The movement, which has been under consideration State secretaries shall compile and file with the National Secretary a com-plete tabulated statement of the vote among manufacturers for a number of years and which has been partially adopted in Chicago, Milwaukes, Cincinnati, Minneapolis, and other cities, will take on a national form at the convention in this city. The plan to organise employers into state and then national bodies has received the indorsement of manufacturing interests

generally throughout the country."

The "Social Democratic Herald" of Milwaukee, in commenting on this dis

'patch, says:
"Comrade F. W. Wilson of Milwaukee, who is the district business agent of the Milwaukee machinists lodge, has shown us a letter written by an Oshkosh manufacturer to a Milawakee machinist, in which he takes three typewritten pages to say that his men are on strike, that he has a steady Job open, but that application must be made at once as they have 'a great many applications,' etc. If that were true such a long letter would not be written to a single applicant. As an written to eater his employ the Oshkosh employer also says: We can give you a certificate of recommendation issued by the National Metal 'Trades' Association, which we know will be very valuable to you in securing work in the future. You may no Trades' Association, so we will there-fore state that it is a very strong or-ganisation, and a great many of the largest metal manufacturers in the country are members of the associa tion and le this way this associa and a good certificate from that asso-ciation in your hands will be worth considerable to you." How is that for

living by permission!
"Labor has a mighty struggle before
it. Let it be prepared!"

Competition is a splendit thing-for

MOVEMENT IN MASSACHUSETTS.

Capitalist's Vainly Appealing to Religious Prejudice.

Did Party Members of Legislature again Join in Defeating Carey's Bill to Prevent Employers Using Misleading Advertisements to Get Strike-Breakers. -Growing Party Activity.

BOSTON, Mass., April 12,--As each day goes by, it becomes more evident that the capitalist class intend to make their efforts to discredit the Socialist movement as varied as has been their pretense of love for the working class. One manifestation of this fact is the attitude of the capitalist press in this immédiate vicinity. There is evidently a conspiracy of silence on their part when anything happens that might prove advantageous to our movement; but immediately any opportunity is offered for them to discredit us, they seize upon it. Their reporters attend the meetings which we hold and take notes of what our speakers say and then carry it to the editorial rooms, and if, in the course of the speech or lecture, one word has been said that they can use by leaving out the words said in connection with it and so enword in "scare-beads" in the hope that it will prejudice people against our

is that Socialism and atheism are identical, and they are playing upon the religious prejudices of the people and will continue to do this as long as they feel that it is for their advantage. They have followed Father McGrady from meeting to meeting, and in one place where he used the word 'damned" in speaking of the capitalist system, they give prominent space on the front page of the Boston "Hersid" to announce that he "used the word 'damned' with a big D." Comrade McCartney delivered an address at Paine Memorial Hall, his subject being "Why Women Should He Socialists." It was a most able address. In discussing the motives which lead to many modern marriages, such as mar-rying for money, for getting a home, and the like, he said that such mar-riage under the capitalist system is sauctified prostitution. Not one who was present misunderstood him or failed to agree with him; yet the Boston "Globe" says that MacCartney says, "Under the capitalistic system marriage is sanctified prostitution." It was only the omission of a few words that sufficed to give an entirely different meaning. To use Comrade Mac-Cariney's own statement: "Truth, when fearlessly expressed in an age

when fearleasly expressed in an age drenched in commercialism and mam-monism, is sensational enough without making a man say what he did not say." We have a peper published in Boston called the "Republic," a sec-arian paper of the Catholic denomina-tion published by John Fitzgerald, a Democrat. This paper gives a garbled account of the same lecture of Comaccount of the same lecture of Com-rade MacCariney's and editorially says that at last the Socialists have says that at last the Socialists have thrown off the mask and come out in bold denunciation of the marriage ties. and that we do this now because of our great strength in Massachusetts, but hid it before because of our weak-We are prepared for such screeches emanating from such a source as the "Republic." In fact, it would be surprising were we to be accorded fair treatment by a man of this type, who has come up through the school of machine politics that will never besitate to adopt any means, no matter how dishonorable, to gain the elightest advantage. This seems to be gives us about as much alarm as a fly in the summer time-a little annoyin

but that is all. Areusing Religious Projudice The press have striven to make much out of one of MacCartney's bills,

which he has introduced annually

since he came to the House, to permit Sunday fishing in the salt waters of the state. The cry of those who opposed the measure was that "Thou shalt keep holy the Sabbath day. This is a law very much desired by the workingmen who desire recreation on Sunday, their only respite from toll. The debate grew very warm and a felother, charged Comrade Carey with being an atheist. Carey in reply read this title clear, and said that when some men rose and spoke against a measure of this kind he knew they were speak ing from toeir hearts, but when a man of the samp of Quan opposed this measure, it was damaable hypocrisy. He said: "What a horror that a man after having toiled laboriously in the mills should desire to go upon the waters in order to fish on Sunday. Mr. commercialism that destroyed the Sab-bath. He would not stop the roar and hustie of the elevated trains on Sun day as they thunder by the church make one believe that the very covers of hell were being raised. He would sanctify the rubber sandwich in 'Raines-law hotels' in Boston, but would deny men the opportunity of going out into God's sunshine. hurled back at him the charge that he Carey, was an athelst. He had never said that he was nor had he said any-thing that could be construed as connecting Socialism with atheism workers will not be deluded by religious prejudice," he continued, "but are beginning to understand that Secialism is entirely an economic move ment and has nothing to do with a man's religious belief. All that it will ever have to do with anyone's reli-gious belief is to give him the wider liberty to worship his God wherever he finds him."

Our speakers must meet this charge, must explain to the voters the truth, but from our standpoint, we will welcome all these attacks. The greatest injury that the explaintist press can do to us is to may nothing about the covement. We care little what they may, take up his deties about the first of

National Platform of the Socialist Party.

of Social Democratic Party. The party emblem in New Xork is the Arm and Turch.]

The Socialist Party of America in antional conventions assembled, reaffirms its atherence to the principles of International Socialism, and declares its aim to be the selected state of the Party of the Party of the Collection, and declares its aim to be the selected state of the Party of Socialism, and declares its aim to be the selected state of Socialism, and declares its aim to be the selected state of Socialism, and so the Party of Party of Party of the Party of Party o

and the class of wage workers. And the active ferev is bringing about this new and higher order of soviety is the working class. All other classes, despite their apparate of actual condicts, are alike interested in the understanding of the superior of which production. The Democratic, Republican, the beargreal public ownership parties, and all other partles which do not stand for the emplete overthrow of the capitalist system of preduction, are allike political representatives of the capitalist class.

The workers can most effectively act as a class in their struggle against the collective powers of capitalism, by constituting them and opposed to all partles formed by the propertied classes.

serves into a spatitical parties formed by the propertied classes.

While we declare that the development of economic conditions tends to the overthrow of the capitalist system, we recognize that the time and manner of the transition of development reached by the proletariat. We, therefore, consider it of the utmost importance for the Socialist Party to support all active efforts of the working class to better its condition and to elect Rocialists to political offices, in order to facilitate the attainment of this end.

As such means we advocate:

As such means we reconsidered the such means we advocate the such me

ment of the service and mentaling the raises to the consumers.

2. The progressive reduction of the hours of labor and the lucreuse of wages in order to decrease the share of the capitalist and increase the share of the vorter in the product of labor.

2. State or national insurance of working people in case of accidents, inch of employment, scheens and want in old age; the funds for this purpose to be collected from the revenue of the capitalist class, and to reversing class.

4. The insurporation of a system of public industries, public credit to be used for that purpose in order that the workers be secured the full product of their labor.

5. The education of all children up to the age of eighteen years, and state and multipast labor that the security of the control of the same of the control of a control of the same of the control of a control of the control o

E. Equal civil and political rights for men and women and referendeds, proposi-tion as the control of the right of recall of representatives by their constituents. But in advocating three measures as steps in the overthrow of capitalism and the establishment of the Co-operative Common-wealth, we warm the working class against

SOCIALISM AND TRADE UNIONISM The following resolution was adopted, long with the foregoing platform, by the lational Convention at Indianapolis, July,

National Convention at maximumpous, were 1901.

The trade union movement and independent political action are the chief emancipating factors of the wage-working class. The trade-union movement is the natural result of capitalist production, and represents the economic side of the working-class movement. We consider it the duty of Nordaints to loin the unions of their respective trades and assist is building up and unifying the trades and labor branilatations. We recognize that trade unions are by historical becoming organized on neutral grounds, at

The National Committee of the Socialist Party in annual session assembled, hereby reaffirms the attitude of the party toward the trade-union movement as expressed in the resulution on the subject adopted by the indianapolis convention of 1901.

ANTI-PUSION RESOLUTIONS.

as long as they say something, even | May, when the writer will be given an rtunity to organize in this and ad-

though that something be always the nature of an attack.

Carey's Strike Advertisement Bill.

There were only a few labor meas

ures before the House last week. One of them was a bill compelling employ-ers advertising for help in case of strike or a locaout to state in the ad vertisement that such strike or lock-out existed. A year ago Carey made a strong plea for the adoption of this law and pointed out where many men had been forced to scab upon their fellow men, having been brought un-der false pretenses from a distance and found themselves stranded when they arized with no way of living bu by taking the places of their brothers who were on strike. The old-party legislators who loved the trade unions legislators who loved the trade union so much at this time killed the bill.

Another measure which had for its purpose the preventing of blacklisting by corporations was killed by these labor-loving members.

They may seek to discountenance Socialism on the one hand, but in th face of their efforts to serve capital-ism and their denial of the little things asked by labor organizations their ef-forts will prove unavailing. Every day that passes makes Socialism stronge and helps to convince the working class of the folly of supporting the old political parties. Party Activity.

The approach of the weather is stir ring the comrades throughout the state to activity. Already calls are coming in for outdoor speakers. It is our purpose to use our speakers co-tinuously all over the state from now until Election Day. A large mass meeting is being held to-day on the Common in Lowell, where the textile workers are on strike. Comrades Mc-Grady, MacCartney, and Carcy are speaking. This will undoubtedly aid

We have established a new local at We have established a new local at Greenfield. A new club has been started at Montello, a part of Brockton, so that now each section of Brockton is thoroughly organized. The Republican city committee of Brockton has organized a special committee to combat Socialism. I saw the notice of this organization and wondered what influence it would have upon our morement, and am pleased to learn that no ment, and am pleased to learn that no better thing could have been done for our cause than to have the Repub-licans organize for that express purpose. Already a new activity is slewn upon the part of the comrades at Brockton. They have answered the Republican organization by saying that they will sweep the city clean in the next election. We have made dries for Comrade

McGrady for April 28 at Fitchburg

and June speaking for unions and So-cinlist locals in Ohio, Wisconsin, and Missouri. WATCHES, DIAMONDS. 'FACTORY TO POCKET. -00 G G "SYABLISHED SINCE 1870"

"Free Contract" siways

Means Economic Co-ercion. With such a contract in its possess sion a capitalist corporation can risk the lives of its employees with complete impunity. No need to go to the expense of buying safety appliances guarding dangerous machinery when a workman's death costs nothing. And the judicial tools of the capitalist class can be relied upon to de-cide that this is a "free contract" and that there can be no interference with the workingman's individual liberty to make a voluntary contract depriving him of all his meagre legal rights. In practical operation the principle of "freedom of contract" always means economic coercion. The workingman is forced by the threat of starvation and the pressure of competition for jobs to take what terms the capitalist offers. He is free to accept the terms of the capitalist or starve. And so R will be so long as the means of pro-duction are owned by a profit-drawing class and the work done by a properti-The only thing that can invalidate such contracts so long as the capitalist system lasts is a Socialist court. Before a Socialist judge such a contract would be so much

One of the company's former employees writes to the "Chicago Socialist" as follows regarding the reception

"This contract was handed to the employees of the Deering works on April 3, to be signed by Saturday night, April 4. Those who did not sign it were discharged.

"About 250 machinist blacksmiths and carpenters were let out on April 6. Greame Stewart, the Republican candidate for Mayor, went out to the works and induced the company to scratch out the last paragraph in the contract. Nobody knows what inducement was offered them.

"The men refused the contract altogether and went out on strike for a 12 per cent raise and a nine-hour day. They are still out and there are no signs of a settlement. The men don't seem to like the 9s-cent dollar under the gold standard administration."

How the Coal Barons Do It. The "Scranton Times" reports a similar contract demanded by one the local coal companies which pares are required to sign when boys make application to pick slate at fifty cents

"This is to certify, that I, the under signed, am the legal guardian of signed, am the legal guardian of _____, and that he is over ____ years of age, and under the act of Assembly ap-proved the thirteenth day of June, A. D. 1885, and the supplements there-to, is not lawfully prohibited from being employed in and around the mines.

"In consideration of his employment," I. ——, as his legal guardian, do here-by release and forever discharge any mines, from any and all liability for. or on account of damages of any nature whatsoever, that may arise by reason of him, or them employing the said —— in and around his or their coal mines, under the act of Assembly and its supplements as aforesaid."

As the "Scranton Times" says, "Such a contract is a money maker for the company. It enables them to keep cheap help in responsible posi-tions for no matter what happens or what the cause of the happening may be, they have removed all liability from their shoulders and cannot be sued for damages under any pretext whatever. True, they might be sued on a criminal charge if the circumstances warranted such action, but that would do no good to the injured or to the parents of the dead, if a fatality should occur. It takes money to bring a criminal suit, while a good lawyer will take an accident claim on shares if a retainer is paid. • • • They took good care to hold over their latest bit of injustice till after the commission had delivered its award. Could such a document as the above been pre-sented to Judge Gray while the comdeduct 2 per cent. of all the wages of said employee at the regular pay-days thereof, which amounts as deducted. It is about as cold blooded a proposition made in respect therete, to secure said benefits; and it is expressly understood that such authorisation by said employee the said should frame, and so croel in its conception that one wooders who could have had the heart, or rather the lack of heart, to devise it.

MASSACHUSETTS.

Old Party Press Tries to Make Capital of It.

inciplist Party in Boston Finds II **Hocossery to Suspend Martha Moore** Avery -- Capitalist Front Laughing Too Soon over "Disintegration" of the Party.

BOSTON, Mass., April 19.-An incident has taken place in our party af-fairs in this city during the past week which, had it occurred in either of the old parties, would have received passing notice from the daily press, but othing more. In our case the press has seized upon it with avidity and paraded it before the public as a "sensa-tion." hoping to injure the cause of So-cialism.

The incident referred to was the trial. conviction and suspension for a period of two years of a member of the party for conduct unworthy of a comrade and injurious to the movement.

For some time the members have viewed with deep concern the actions of Martin Moore Avery, and it was felt the time had arrived when it should put the soal of its disapproval upon those within the ranks who have made common cause with our enemade. made common cause with our enem ies, and that under cover of member whip in the party. So in a regular and constitutional manner charges were preferred against Mrs. Avery, and a trial was had, based upon an article written by her and published in the "Irish World." She was unanimously found guilty by the committee, and all but one of the committee concurred in a recommendation for expulsion. There was a question in the minds of delegates to the City Central Committee. however, as to the wisdom of expelling the comrade, and a motion to suspend for a period of two years was carried. This action has been autunitted to the branches for their approval or disapproval.

lu her article in the "Irish World" Mrs. Avery charged that the Socialist Party was dominated by atheists and free lovers, and called upon the young men of the Catholic faith to rescue the movement from such control. This was clearly a false statement about th party and a bid for capitalist favor. The statement that the party is controlled by advocates of atheism and free love is quite in keeping with the methods by which the most shameless of the capitalist papers have been seeking to discredit the movement.

We expect, and, in fact, court antagonian from the defenders of the present system, for we neither want their smiles nor fear their frowns. But we cannot be expected to view with com placency the attacks of those who pre-tend to believe in Socialism, and especially of one who has been looked upon In some quarters as a leader. It is often difficult to determine the motives which actuate people in the things that they do, especially if these people are strangers to us. But when we know the person from of old it is easy to look below the surface, and the motive is clearly apparent. So it is in the case of Mrs. Avery. Ever since her entrance into the Socialist Party she has striven to do things according to her own liking, and when she found herself in a minority and could not rule, then she

Now, in consequence of the party moving in this matter, the hastile press see again the end of Socialism. With them, however, "the wish is father to the thought." That we should maintain discipline in our movement seems to the old-party backs strange, because they cannot understand our philosouhy They are used to trim their sails to suit any wind that blows, and that we should insist upon honor and integrity on the part of our members is beyond their ken. The comrades can be sure that the action of the central body was not hasty, but one that had been de-liberated upon and one also that seems to meet with general approval on the

In the state convention, last September, Mrs. Avery introduced a resolution condemning atheism and free love. As was then reported in The Worker, the convention, after full discussion, rejected the proposition, taking the ground that it is not proper for a po-litical party either to endorse or to condemn any phase of religious belief or dissent and that such a declaration as was proposed had no place in a po-litical convention. Certainly this was a common-sense view to take of the natter. What would have be thought, for instance, if a correspond-ing resolution had been introduced at the Republican national convention when Robert G. Ingersoll put James G. Bisine in nomination? Or if a sim-ilar proposition had been made against Ambassador White on account of his book on the conflict of religion and in either of these cases, promptly tried to twist the rejection of the resolution and free love-with how little success was shown at the polls in November

Time passed and the Boston city convention was held. Mrs. Avery was candidate for pomination for tion with a comrade made the threat that she would yet win. And then follight than that of keen personal disappointment and a desire to ruin where she could not rule.

On the following day after the action of the Central Committee, Mrs.

the right of appeal, she did not know whether she would avail herself of the right; she now saw in the trade union the power that would emancipate the workers and she would work in that movement. Perhaps the trade union

"Traveller," saying that, while she haid

may have something to say about them who shall be selected as their chiese exponents. Mrs. Avery's relation to the trade union was made very crew while a member of the Socialist Labor Party in the strike at Mariboro in 1865 and she has much to explain in regard to her condemnation of the trade union and her indiscriminate branding of the

labor leaders as fakirs.

It is to be regretted that action to maintain discipline has been made pe cessary. But despite the unpleasant-ness of such affairs, the party will not fall to meet them fearlessly when they urise. The capitalist press may parade them as it will. All the enemies of our movement may fintter themselves that these things mark the "disintegration of the Socialist Party." Yet we know that these happenings are inevitable incidents to the building up of our movement, and that they will no more hold back the progress of Socialism than putting out one's right hand would dam the force of the mighty Niagara. No one will realize that bet-ter than Mrs. Avery herself, and so we

leave this incident.

There was little doing in the Legislature the past week. The resolutions on municipal fuel yards and government ownership of the mmes have been put off until Wednesday, April 22. The only measure of much interest to read-ers of The Worker was an attempt to reconsider the Anti-Binckilsting Bill, which had been defeated. A Democrat had introduced this bill, yet it was Carey who had to make the fight for reconsideration. The Democratic and Republican "friends of Labor" were silent, and not even the thirty members necessary for a roll-cail could be secured in a House composed of two

hundred and forty members, seventy at whom are Democrats. On Wednesday of this week Representative MacCartney meets City Check Fly in a debate on Socialism, at the Holbrook town hall. A crowded house is assured.

CONVENTION OF GLASS WORKERS.

The first national convention of the Amaiganated Glass Workers' International Association of America opered on Monday, March 30, at Cincinnati Thirty delegates were present, representing locals in New York, Toronto Philadelphia, Louisville, Gleveland, Cincinnati, Akron, Anderson, Indhaapolis, Chicago, Detroit, Grand Raphis, Milwaukee, Minneapolis, St. Louis, Seattle, Portland, and Los Angeles.

After the revision of the constitu tion there was a lively and instructive debate, lasting four hours, on a So-cialist resolution. The resolution was finally tabled. A resolution was unani-monally adopted forbidding the unions to take in as members militiamen, par

lic or private detectives, or any offi-cers in the pay of the government. Attention was called to the fight go ing on in the convention city. Cincin natl. One shop had been on strike since early in December. The work-men in the other three shops gave financial aid to their striking brothers When the owners of these three shops discovered this fact they shut down, throwing about two hundred men on the street, in order to cut off support from the strikers. In addition to this they got an injunction against the offcers and members of Locals No. 5 and No. 9 forbidding them to do practically anything except breathe. that they would teach us to love tham.

CLASS WORKER'S STRIKE.

Bevelers, rougers and silvereis hould keep away from the Pittsburg Plate Glass Company, at Hudson and Vandam streets, New York. Upon his return from the recent con-vention of the gians workers in retary of the Advisory Board, was discharged by this concern on orders from above not to employ "that Bocislist agitator." Comrade Theimer was on the committee at the conference with the Manufacturers' Asociation; at that tered into, in the course of which Comrade Themer put Socialist eco-nomics in plain language, and as a re-sult be is practically blacklisted. An rbitration committee was sent to the omnany by the union but with no results whatever, and a strike has there-fore been declared in this establishment for the reinstatement of Comrade Theimer. About one hundred and fifty

PATHER WAGGADY IN BUTTALO.

Father McGrady will speak in Buf falo, N. Y., on Sunday afternoon, April 26, 2:30 p. m., in Turn Hall, 383 Eilicott street, and offers an open chal-lenge to debate upon that occasion with any representative of the Catholic Federation of Buffalo on the relation of Socialism and religion. Admission 15 cents. The challenge to debate has been sent by registered letter to the president of the Catholic Federation.

Leave all prejudices and personal animosities outside the door of the union hall. He man enough to know enemy or against your friend when your caim judgment tells you that the welfare of the union will be served by your so doing.—The Carpenter. The advice is equally good if substitute "party" for "union."

AUX UNION MADE GRODS.

NEW HAVEN ELECTION. A BUILDERS'

Bood Increase in Straight Socialist Vote at the City Elections.

NEW HAVEN, Conn., April 21.— The city election is over and we know the result of the vigorous campaign we have made. Our vote is as follows,

Bixth Seventh Eighth
Ninth
Teuth
Eleventh Twelfth
Thirteenth
Fourteenth Fifteenth

spring we had 310 for our city ticket and last fall 824 for our state ticket. Our straight vote, as measured by the city elections, is thus more than doubled in the year.

EVER FORWARD IN MASSACHUSETTS.

BOSTON, Mass., April 17.-Once the record of Socialist progress main ained-not an important election, but enough to add a little to our confidence of specily victory and to the alarm in

the capitalist camp.

The death of a member of the Board of Selectmen of Hraintree, a conserva-tive old town near this city, necessi-tated a special election. Out of a total vote of 451, the Socialist candidate. Comrade Gerry, received 212. The change of thirteen votes would have elected him. At the state election in Sovember our candidate for Governo had but 193 votes out of a total of 861.

STEADY GAINS IN NEW JERSEY.

KEARNRY, N. J., April 18,-In the ocal election held in this township or Fuenday the Socialist Party polled 84 otes as compared with 40 a year ago. Ve elected two of our candidates— Otto Miller and Andrew Derngard--as Constables in the Third Word, Gradually, but surely and stendily, Socialistidess are gaining ground, and the comrades feel that the results so far schieved are enough to inspire them for another year's work.

MORE MONTANA NEWS.

HELENA, Mont., April 14.-In adlition to the news from Anaconda and Butte, which was laive already rechived, it is to be stated that the So-chilst Party elected three out of the five Aldermen chosen in Red Lodge, and that good gains were made in Mis soula, Flathead, Fergus, Cascade, Yellowstohe, and Gallatin.

IOWA ELECTIONS.

The Socialist Party has elected an ther Councilman, this time in Boone The Socialist vote for the whole city was 416 as against 702 for publicans and 319 for the De

In Mystle, Ia., the Socialist Party was beaten by a majority of only 31 votes by the combined "Citizens"

IN ILLINOIS.

The town election in Rockford, Iii., gave the Socialist Party ticket 670 rotes, against 1.900 for the old parties. The Rockford "Republic" says: "The Socialists made a showing which tells they are growing. Considering the total vote cast the Socialists have every reason for feeling encouraged over their mat of it." over their part of it."

THE ONIO ELECTIONS. The general results of the municipal

President of Local 30 of the Amd-gamated Glass Workers' Interins-tional Association of America, and Sec-tional Association of America, and Secfor the fall campaign. The official count from Youngstown gives from 135 to 220 votes instead of the amount re-ported formerly. This is a large increase and they feel much elated over the results. Cuyahoga Falls received forly-two votes in their first attempt, which is good for the size of the town. Many comrades outside of the state fall Many comrades outside or the truggle to comprehend the terrible struggle that took place here this year. The that took place here this year. The state Legislature in special session adopted an entirely new set of laws for the government of municipalities in such a manner as to give the municipal officers largely increased salaries and unusual powers of appointment. The mayors are granted an unusual amount of patronage to distribute among the faithful. On account of these new laws all city officers were elected this spring, thus making a new set entirely. Both parties made the greatest fight ever known in the his-tory of the state. They beip shop noonday meetings, epen-air night meetings, ward meetings, made houseto-house canvass, and, in fact, adouted cialists for propaganda work. In spite of all this work we have not only held our own, but in usarly every cam have increased our vote, and in many cases doubled and trebled it. Thus the comrades have great reason to fee proud of the results attained. The bat and we will systematize our work to such an extent that we bope to have every county organized and the major-ity of them working with-a ticket in the field. The fight in Ohio is on from now, and we hope to show the plutes such a fight as will put them out of the luminess entirely in the near future. Ohio will bear warching.

BLACKLIST.

Letter of Interstate Builders' and Contractors' Association.

A Thoroughly American Decumen Showing that the American Work-Ingmen is the Freest Being on Earth and that the Employer is His Best Friend.

The Worker has received a copy of a private circular letter sent out to master builders and contractors by the Westerly, R. L., Local Assembly of the Interstate Builders', Contractors' and Desiers' Association, dated April 2, in the following terms: "Dear Sir:-The carpenters, painters,

and plumbers of Westerly are on strike, The Carpenters' Union has a three-year contract with the master builders which does not expire until July, 1903. Nevertheless, the carpenters are out. They may, "To Hell with the contract." We address you to ask you to notify the members of your asociation not to hire any carpenters. painters, or plumbers from here. The euclosed is a list of the strikers, which is nearly correct. It may come your turn next, and when it does we shall be pleased to reciprocate. We would suggest that your organization enter into some agreement with our main body covering this matter, as the more territory covered, the more influence is exercised.

kerclaed. Very truly yours,
"J. S. MAXSON, Secretary.".
Boycotting is unAmerican and the labor movement must be Americanized, as Senator Hanna says. But it is quite American to ask your brother capitalists to refrain from employing a workingman who dares to go on strike.

NEW ROCHELLE

TAKEN ITS TURN.

NEW ROCHELLE, N. Y., April 21. -The workingmen of this place are to have their share of the injunction experience. At the suit of Messia, Switzer, Woods & Powier, and Schlotter, master builders. Supreme Court Justice Marcan of Brooklyn has issued an order to the United Brotherhood of Curpenters and Joiners, the Building Trades Council, and various indivi-duals as officers of these bodies, to show cause by April 24 why an in-junction should not be issued restraining them and everybody else from "li any way interfering" with the bush ness of the plaintiffs.

ness of the plaintiffs.

A strike of the building grades has been on for some time and has been conducted with perfect order and with remarkable success so far, a large part of the men brought in to take the strikers' places having quit when the situation was explained to them. To explain to such a man that he is being used by the Builders' and Contractors Association against his fellow nen la of co

CARPENTERS' STRIKE.

Tactics of Division by Which the Capitalists Weaken the Forces of Labera The fight between the United Broth-

erhood of Carpenters and Joiners of America, and the Amaigamated Society of Carpenters and Joiners, with head-quarters at Manchester, England, which has led to the present strike of carpenters in this city, is the culmina-tion of a long series of grievances extending over a number of years. Some eight years since about ten or eleven different carpenters' organizations existed in this city, whose differences were carefully nursed by the capitalist ter carpenters and manufacturers the purpose of playing one against the

other and exploiting all. The Brotherhood and the Amaigamated were both then in the field. The policy of the Brotherhood as a national organization has been since its inception in 1881, to unite all the workers in the craft into one powerful organiza-tion, and secure thorough unity of action. With such success were these labors prosecuted that this occanica tion to-day has over 1,500 local unions in the United States and Canada, and membership of over 165,000, and has grown to be the second largest labor grown to be the second largest labor union, and the largest organization of mechanics in the world. It has paid to its members in sick, death, and disability benefits the enormous sum of \$3,000,000, and is to-day financially tronger than ever. It has absorbed one after another of the carpenters' or ganizations of this city, until at the beginning of 1901 only the Brotherhood nd the Amaigamated remained. At the present time the membership in good standing of the Brotherhood in this city is 12,000; the total m hip of the Amalgamated Society in the fifty-four branches in the United States ndo Canada is 3,515, of whom 554 be long to the six branches in New York and Brooklyn. These figures are taken from their official report printed in

Up to September, 1898, a national agreement had existed between the two organizations, but owing to the fact that redress could not be had for numerous violations of this agreement by the Amalgamated Society, the tenth iennial convention of the Brotherhood in that year abrogated it. Local agree-ments were tried for several years thereafter, but proved unsatisfactory owing to the actions of the Amalga-gamated Society, such as initiating lapsal, suspanded, and Ened members of the Brotherhood, sponing the ef-forts of the latter organisation to stop

NEW YORK MAY DAY DEMONSTRATION.

The First of May, the day dedicated to the expression of the international solidarity of Labor and its determination to win industrial freedom, will be celebrated by the Socialists and progressive workingmen of New York City by a great mass meeting in Madiou Square, between Twenty-third and Twenty-fifth streets, on Friday even-

ing, May 1. Speakers well known as champions of Labor's rights and exponents of Labor's aspirations will address the meet-

ing.

possible trouble when their demands

Finally, in the early part of 1901, the

the District Council of the Brotherhood

decided "immediately to take steps to bring about one organization of car-penters." The Building Trades Coun-

cil, with which both organizations were

affiliated at that time, was notified of this resolution, but took no action.

Shortly thereafter a firm of builders un-

dertook to use non-union trins on two buildings located at Sixty-third street

and Madison avenue, and at Battery

Park. The Brotherhood men working

on the building in Sixty-third street were discharged, being told that they would not handle that stuff anyhow;

and on the following day Amalgamated

men took their places. The Brother-hoodhood then declared a strike on all

work being done by this firm, and the

war against the Amalgamated was on.

Despite the efforts of the Amalgamated

Society to fill the places vacated by the

Brotherhood by importing men from

Roston, Washington and other cities, and advertising for non-union men to

take out cards in their organization and

fill the places of the strikers, they

failed; and after a few days the Brotherhood won and all Amaigamated

men were removed from these jobs. It

was then they sought the assistance of

the Building Trades Council and that body demanded that the Brotherhood

abrogate their agreement with this

firm and have the Amaigamated men reinstated, which the Brotherhood re-fused to do. Enspension from the Building Trades Council followed, and

the Brotherhood entered the Board of Delokutes of the Building Trades. All trades connected with the Council then

struck against this firm to secure the

reinstatement of the Amaignmated men on their work, and, after a strike

of several weeks duration, were defeat-

ed, returned to work, dissolved the

Building Trades Council, and Joined into a new body with the Board of

Delegates under the name of "United

Board," which body is in existence to

hood and Amaignmated again became

However, immediately after the for-mation of this body it decided "that

all trades remain neutral in all matters

as to and between the United Brother

hood and the Amalgamated Carpen ters." The war went on. The Amal

gamated persistently refused all over

tures and propositions for an amalga mation of the two organizations.

hundred Brotherhood men took place

street and Broadway against unfair trim received from Detroit. No Amal-

gamated men were then working on the

job. This grievance was found just and supported by all other trades stop-

ping work in sympathy with the Broth

erhood. In a week's time the matter

an agreement to rectify the matters

complained of, and the trades returned

ever, it became apparent that the con-tractors did not intend to perform their

part of the agreement, and the Brother

hood men again stopped work. Ther

the Amaignmated carpenters went to work in the places of the striking

made to the Board of Delegates by the Brotherhood, they refused to take action and the Brotherhood conse-

quently severed its connection with

As both the Brotherhood and the

Amaignmated Society are affiliated with the American Federation of La-

bor, the Brotherhood preferred charges against the Amalgamated to the con-vention of the A. F. of L. at New Or-

leans last November, citing their griev-

ances and demanding the revocation of the charter of the rival body. The con-

vention, after a full discussion of the case, decided that the Brotherhood and

the Amaigamated Society were each to appoint a committee of five, these to select an impartial eleventh person as

umpire, for the purpose of amalgamat.

ing the two organizations; this com-mittee to meet within ninety days from the adjournment of the convention.

This promised to bring peace to the trade and effect the desired result. The

Amalgamated Society, however, imme-

diately after the close of the convention

inaugurated a number of atrikes

against builders employing Brother-bood men, demanding that half of these be replaced with Amalgamated men.

In this they were assisted by the Board

of Delegates. When, in February last, the two committees of five met in New York City pursuant to the resolution of

the A. F. of L., the representations of the Amalgamated Society refused to agree to amalgamate the two organiza-

ms as decided, and refu an impartial umpire. All they would consent to was to make another agree

carpenter work, which for years has omy, a plan which years of experience had proved to be impracticable. threatened the existence of local mochanics; also the actions of the rep-resentatives of the Amulgamated So-They have since then threatened several builders with strikes unless their ciety who continuously strove to displace Brotherhood men on the best jobs in the city by demanding representa-tion on the buildings and creating all

unemployed members were put to work and Brotherhood men displaced. The latest instance of this is the Blair building. As these tactics were being pursued only on single jobs, and against individual builders, the Brotherhood was forced to call a general strike in Manhattan Borough to demonstrate the utter inability of the Amalgamated to supply the men or do the work. Of this they have unquestionably made a success. The Amalgamated carpenters, despite daily advertisement for nonunion men to join their rapks to be put to work as strike-breakers on the largest jobs, despite their employment bureausin this and other cities, despite their bringing men here from Washington, Boston, and other places, despite their bids for members of the Brotherhood to desert and join their ranks, have signally failed to supply even a corporal's guard of the the carpenters required to do the work of

this city. The builders, if they chose, could stop these petty annoying strikes of the Amalgamated by simply deciding in their organization, the Building Trades Ciub, to suspend-operations till the trades stop fighting each other. They cannot carry on operations without the Brotherhood, under present conditions, and it is only a question of time when other building trades will be largely idle, owing to the carpenter work not being up to time. There is no question of the ability of the Brotherhood to extend the strike even further and to force the stoppage of carpenter work throughout the greater city. But it is not the policy of the employers to favor peace. Their policy is to exploit the working class and degrade labor, and to this end they are assisting the Amalgamated Society, and furthering the discord in order to have the workers in the trade divided against each other, and to play one organization against the other for their own advantage and to disrupt the working class by pre-venting the formation of a single strong union in the carpenters' trade.

If any one doubts this, let him look at the "Real Estate Record and Builder's Guide" of April 11. He will there find the builders advised "to help the Amaignmated Society, even if they lose some money by it, as it will be better for them to have two organizations di-vided and antagonistic to each other than one strong and powerful union." And in the issue of April 18, on pages 761 and 703, will be found more in the same tener. Look at the garbied and false reports of the capitalist press. Last, but not least, ponder on the action of a prominent member of the Manu-facturers' Association, with a factory in West Thirty-fourth street, Tenth avenue, who on Friday last har-angued his Brotherhood employees with a scurrilous speech endeavoring to throw discredit on their chosen leaders and representatives, inviting them to become strike-breakers in his shop, and finally handing each one a card requesting them to desert their organiza-tion and join the Amaigamated Society.

vent unity and harmony in a sister trade, to obstruct the formation of a single and powerful union? Verily, they are sowing the wind, to reap the whirlwind. Yet, despite the runtive tactice of the exploiters of inbor and of the enemies of the labor movement within its ranks, no one who is familiar with the facts can doubt what the end will be. It is only a question of time, only a question of how much hardship must be endured; there is no question that unity of or ganization must finally prevail.

Let us hope that this struggle will be another mile-stone in the forward march of the proletariat to unity of action at the ballot-box as well as in the shop, to the end that we will strike together on the political field and put an end to the system of exploitation that breeds such dissension among those who ought to live in harmon;

ANTI-STRIKE LAW

A bill has passed the South Carolina Senate which prohibits cotton and woolen factories and their operatives from engaging in sympathetic strikes and lockouts. The penalty is a fine of \$100 m day. So far as lockouts are concerned, the bosses can easily close a mill and say that business is had or that to grant higher wages or reduc-tion of hours will bankrupt them, That the Southern capitalists think it necessary to demand such a law is eloquent testimony to the awakening of the wage-workers of the South.

The May Day Number of The Worker (next week's lasue) should be distributed, not only at public meetings held by the party but in factories, in union meetings, and wherever workingmen can be reached.

READ THIS AND PASS IT ON.

THE PARTY'S EMBLEM.

THE SOCIALIST VOTE.

Beciatist Party (the Mecial Democratic y of New York: has passed through its digeneral election. Its growing power adicated and its speedy victory for-power by the great increase of its vote lown in these signers:

We have to apologize for having, in last week's issue of The Worker, inadvertently so placed National Secretary Mailly's note of instructions on the bendquarters referendum that the camal or hasty reader might suppose his signature to belong to the whole of the matter under the head of "The Heferendum on Hendquarters," where as it applied only to the portion below the dash. Although we have not heard and hope that none did so, we tender our apology to the National Secretary and to our readers and hope not again

WEITHER FOR NOR' AGAINST BELIGION.

to make such an error.

We cannot doubt that if was with p regret that the com Boston City Central Committee tool the disciplinary action against Mrs. Martha Moore Avery which is reported elewhere in this paper. Of the neces sity of that specific action the com rades who are on the ground are the the sole judges.

Of the correctness of the principle

on which this action is founded, how ever, it seems to us that there is no room for doubt. It is absolutely necess sary that the Socialist movement be kept free from all "entangling alliances." Socialism is distinctly as economic and political movement. To tween Socialist principles and religious or ethical principles would, of course not be correct. All things in this world are inter-related, and the fundamental character of Socialist philosophy brings it into especially close connections with every other de partment or system of thought. But it by no means follows that, because curtain men agree in accepting the ide of Socialism and working for the new pagation of those ideas and their realiaution in social institutions, those men must agree upon questions of religion or of ethics. Just because Socialist philosophy treats the evolving cool omic system as the basis of all roll. gious and moral conceptions, it follows that, as militant Socialists, we must concentrate our efforts upour so chaning the economic system as to give us these and other expressions of our life I'nder the conditions now existing in this country political action personts itself as the method by which this

change should be effected. Whoever seeks to commit the organized Social ist movement to any declaration upon other than economic and political principies seein, wilfully or not, but none the less injuriously if without evil intest, to divide and to weaken the

Religion especially has, all through the ages, been a disruptive forcething for mon to quarrel over, not for men mutually to take helpful counse over. Be it understood, this applies quite as much to those who are class fied as irreligious or anti-religious as to those who swear by any of the thonsand creeds. Hugh Pentecost, himself then an aggressive opponent of all the churches, once epigrammatically said that the only sort of man more biroted than the professed Christian was the professed free-thinker. We have no yet got to the point where the majority of men can think calmly or give those who differ with them credit for ain cority in religious discussions.

Next to matters of religion, the questions with regard to which there the most unreasoning higotry and the most confusion of ideas are those concerning the relations of the sexespartly, at least, perhaps, because they are generally considered in close con nection with religious doctrines. The study of history shows us that accepted theories of right and wrong as well as actual practice in this as on other matters have changed with the changing of the economic system, and this fact should teach us that the way to right the giaring evils that exist in this department of human life is to remove the economic svils which give rise to them. Man may hold onthe different only-

ions or beliefs as to the existence or the nature of God, the certainty or possibility of a life after death, or the necessity of an ecclesiastical ceremony to justify the relation of man and wife, and yet they may agree in seeing that private ownership of the socially created and socially used and socially pecessary means of production results in the degrading poverty of the workers and the demoralizing luxury of the idiers and, through that, rauses disouse and vice and crims and insanity and saicide. It is their duty, then, to unite in putting an end to this econonic cause of manifest social evil, and either to postpone their controversies on other questions till this is settled or, at least, to keep those controversies separate, to waive such differences at such times and places as are dedicated to the work of the Socialist Party.

The Socialist Party has no more right to condemn the atheists, be there few or many fh its ranks, than'it has to condemn the Presbyterians or the Quakers or the Jews or the Catholics It has no more right to endorse the be-lief in God than to denounce such a belief. It has no more right to condemn those who believe that nion and women can be clean and true hus bands and wives without a clergyman's benediction than it has to im pose upon its members any one of the many forms of marriage ceremony. each of which has been declared to be

the only hely or legitimate one. The mouthpieces of capitalism in press and pulpit are ready enough to impute to us every belief or theory that may happen to be unpopular in this or that pince. They will not be troubled about inconsistency in their consutions. They will be quite as ready to brand us as Jesuits in disguise to prejudice Protestants against us as to declare us atheists, if it should suit their purposes to do so. The powers of capitalism have already used the "free thought" press against the Socialist movement, with quite as much facility, if not to such a great extent, as they have used the secturiar religious press. We could not escape the charge of atheless, if we would, by posed in the last state convention of damachusetts. How little such attecks hurt us, so long as we do not shrink from them or attempt to apolo gise or deviate from our course is order to escape them, has been proven by the standy and sapid increase of our vote at successive elections to Massachusetts within the last six mouths while the capitalist press was doing its utmost against us on these lines. Only if we should become frightened by these attacks and try to conciliate this or that set of critica only then would we suffer.

It is our business to go on working for Socialism. As Socialists we are neither for nor against religion in any or all of its forms. We are glad to re ceive new comrades who come to us ideas. But to those who are unable to work for the cause without bending it to the service of their particular religions beliefs we say, We are serry to part countries with you, but wart com-

se members of the florialis Party are evidently not altogether free from that superstitions reverence for the letter of the constitution which is bred in the bone with us Americana. Genuiting that the party constitution is both fundrepaste and ambiguous on cor talk points, granting that a strict in terpretation of certain of its clause does not give the sense in which it adopted, and granting that the loney of this strict interpretation to yet they would insist upon it at the nef of powenting the express the will of the rank and the and at the risk of causing raneor and factions dissentent in the party. For us, we max paraphenes Summer and car. Anything for democracy is constitu-426

The demands which the Socialist novement makes upon the energy and leisure of its active adherents involve one serious danger. There is so much to be done for the party and so much to he rend in the party press that the really militant Socialist is likely to neglect to read anything che and as to become narrow in his views. This is one thing that he cannot afford to do. The man who is wrong may as well be narrow as not: the man who is right must be as broad as possible. 'At the risk even of some neglect of party work we would advise every comrade to set saids some time, if only twe hours in the week, for the reading of something else than the daily papers and the party press and literature, and always to have some good book going-now a book of history or science, now a standard work of fiction or poetry. The man who persistently fellows this course will be surprised to find how much he has gained by it at the end of a yearand to find, too, how much better he is equipped for party work even of the dullest routine character.

THE BLAME FOR CHILD LABOR

We would not be captions in our criticism of the New York Child-Labor Committee of which we have recently heard so much. We do not doubt that most. If not all, of the ladies and gentlemen composing the committee are sincerely well-meaning and, within certain limits, well informed persons. Yet we must say that, whatever good they may do-and the amount of the good is not yet very clearly apparentthey have done one wanton wrong for which no good intentions can atone.

A pamphiet issued and widely circulated by this committee has among its most striking features an allegorical picture representing a bloated and brutal pair-man and woman-sitting at ease on a sort of charlot drawn by stunted and emaciated children. These, we are told, represent the persons who are really guilty of the appalling crime of child labor in this so prosperor country, these are the cruel and selfish working-class parents, who send their little ones to the street or the factory and live in lazy drunkenness upon their wages.

We can imagine an excuse and a notive for this infamous slander—the excuse of ignorance or the motive of expediency. These philanthropists may think that by so throwing the responafbility upon the voiceless poor they can eliminate the question of blame from the discussion, avoid friction with the great and respected ones who are most deeply guilty, and so have a better chance of success in their agitation. If they think thus, they are mistaken; the capitalist beneficiaries of child labor will quite cheerfully consent to have the brand of their guilt put upon the fathers and mothers of their profitable victims, but they will not be any the more ready to give up the profit or the abuse from which it aprings; and even were the expedient an effective one for its immediate nurpose if would be shameful and productive in the end of more harm than good. It is more likely that the philanthropists have staned through mere benorance-that they really believe upon the testimony of people with minently respectable bank accounts that the working-class parents are to blame, that they are too lasy to work and that they force their children upon the unwilling employer. They may be-Have this; but they have no right to one has a right to believe a lie. Least of all has anyone who professes to speak with authority any right to risk the utterance of an injurious false hood by publishing so grave a charge as this without the first-hand investigation that would, in this case, have proven their present statement all but unqualifiedly false.

It is well known to the workers-it should be well known to the philanthropists, for even such capitalist papers as the New York "Post" and "Herald" have stated the facts-that many employers systematically discriminate, in choosing their employees against those who have no children or who refuse to send their children also to work. Virtually they say to the workingman who asks for a job: "Either you and your wife and all of your children whom I want shall work in my mills or you shall have no chance to work at all. You may take your choice. We do not cource you There are plenty who will if you won't. The poor are prolific. We're not afraid." Before such an offer of "free contract"-not put in such plain words, of course, but well understoo on both affec-the propertiess werl ingman is as belyless as the Er ensant bowing to a wanse of the Once. Hunger is a whip mose terrible

thus that the Council wields. But this is an extreme contional one-an extreme that illus trates the sule. Whesever child labe emocratic and bureaucratic one, I he cost than that of adult labor-and

the development of machine industry increases these apportunities—there the sorce of competition impose the capitalist to employ children rather than adults and his quas-conviction of the sternal sacredness of his right to make profits and succeed in business justifies his in his own mind in so doing, "Trade is trade," Humane sentiments do not figure in the profit and loss account. The capitalist who has the least of such unbusin sentiments to hamper him is the one who will easiest speceed; the more tender-bearted competitor must get rid of his moral handicap or fall behind in that great race in which the Devil proverbially catches the loser. And when competition has destroyed itself and produced monopoly; then the avetem of industry becomes a sort of automatic profit-grinding machine, whose masters and beneficiaries are so freed from concern about the details of its workings and so removed out of and, above the common life that they mither know nor care what lives are crushed under its wheels. They are: high up. The blood does not spatter on their fine lines. Nay, they do not see any blood. How can they? They have eyes only for Fifth Avenue and Newport and Paris,

Will they all they, the capitalists must wring profits, out of children's lives if they can, .And if this admission that they are but parts of a vicious system and personally not onsistent with the words "guilt" and "crime" that we have used, let it be remembered that the most vulgar convict in Sing Sing is also but a part of a system and not wholly the maker of his own life.

On the workingmen's side, while it may be admitted that there are cruel and selfish parents who send their children out to work when they have no real need to do-so, anyone who is Zamiliar with the facts knows that this there was a time when he was bold is a rare exception. In the vast majority of cases, representing the typical feeling of the working class, it is done Pteristic, we should perhaps charitably only under the pressure of hard necessity.

And even where it may seem to the

outside observer that no such necessity exists, it is not hard, if he be really impartial and delirous of doing justice, to find very plausible excuses for the parents. The workingman sees the cost of living going up rapidly while average wages slowly but surely go down. He sees the chance of employment steadily growing more uncertain. He sees the requirements of labor steadily growing more intenso, so that early superannuation and a premature old age of helpless poverty stares him in the face. He has been taught by the spokesmen of respectability themselves that, for his class, to get a living is the chief end of man that what the world wants is not more thinkers but more workers, that the children of the working claus should be content with the mere rudiments of "book learning" and, enough manual training to fit them for some trade and should "be content in that station of life in which it has pleased Ged, to place them." Is it a wonder if the average workingman, seeing such conditions and hearing such counsels, thinks he is doing his duty to society and to his children, securing their future existence and helping to maintain prosperity, when he takes them from school as soon as the law allows or as soon as the law can be evaded and sends them out into the battle for bread?

He defents himself, indeed; for seeking to better himself and his children individually, he helps to degrade his class, whose interests include his own and his children's. But they who preach to him, in season and out of season, the gospel of "Work, work, work," who lose no opportunity to inatil soldid individualistic ideas into his mind and to tell him that his class is nothing and that his whole duty is to himself and his employer-they have no right to throw the first stone when he sins against his own flesh au-

While capitalism lasts there is but one defense against the degrading and demoralising evil of child labor. That is legislation, sweeping and drastic penal legislation, holding to the strictest accountability the persons who would profit by its violation. Such logislation will not be enacted by capitalist lawmakers and will not be advocated by upper-class philanthropists and reformers, except under the stimulus of fear produced by an aggressive political labor movement; and if en-acted it will not be enforced until the workers show a strong determination to take into their own hands the powers of the state and to use then for their own class interest.

With Gleveland, Olney, Hill, and Gorman "in the hands of their friends," the Democratic party should dential candidate

It is better worth while to get one of your fellow union mambers to reaand think himself to a real under standing of Socialism then, by Trustell methods" to get a unantmous vote of methods" to get a minimum vote of the main, for a Socialist resolution or an endorsement of the party. The resolution or endorsement is not worth the paper it is written at unless a represents the solur conviction of the paper it is written at unless a represents the solur conviction of the solurity with the Socialism in its those who yots it. It is always worth

while to do educational work in any workingments organization. It is never worth while, it is never justice able nor allewable to use other seetle wis for such un end.

The painful cornectness with which the Hearst papers are applying them selves to the task of distinguishing be tween "criminal trasts" and "legiti mate business combinations" prompt one to cite General Sheridan's dictum that "The only good Indian is a dead Indian" or to refer to the story of the Rentuckian who, hearing nomeone apeak of bad whiskey, exclaimed "Rir. there is no such thing as had whisker; some whiskey is better than other whiskey."

It is characteristic of Presiden

Gompers that, when Mr. Parry of the "Manufacturers' Association, with perfeet justification, attacks Socialists and trade unionism in the same breath. instead of reniving in a tone of maniy defiance that would compel the respect of Mr. Parry's backers, he apologise and disclaims and makes common cause with Manufacturer Parry against Socialist workingmen. "With perfect justification," we say, meaning that Mr. Parry is quite right, not in making his attack, but in directing it against both phases of the labor move ment. He sees that the reason for exintence of the trade union as an organization fighting by economic methods much worse than other men seem in- for immediate and partial industrial ends is identical with the reason for existence of the Socialist Party as an organization fighting by political methods for remoter but larger objectsthat, in each case, the movement grows out of the real antagonism between the immediate or the ultimate interests of the working class and those of the capitalist class. President Compers understands this as well as we do or as President Parry does, and enough to say it. Yet when we say his present timid attitude is characqualify the remark by adding that President Gompers is not altogether accountable for the influences that have actually superannuated him and rendered him lucapable of service in the present stage of the class conflict

TWO NEW PAMPHLETS.

The latest number of the Socialist dae, containing three articles re-printed from The Worker—"The So-cialist View of the Waterlury Strike." by Algernon Lee; "Real Race Suicide," by Courtenay Lemon: and comby Courtenay Lemon; and "The In-centive," by J. W. Brown. Price, post-paid, 2 cents a copy; one hundred cupies for 75 cents.

"Wile wird man ein Bürger" is a

German pamphlet, giving instructions for gaining citizenship in the United States. Price, postpaid, 5 cents a cupy; fifty copies for \$1.50; one hun-

dred copies for \$2.50. He be had from the Socialist Literaompany, 184 William street New York.

MAKING THE WILDERNESS BLOSSOM. A render of The Worker at Prince-N. J., in sending in a desen new

heriptions, says: Down in this part of New Jersey the Socialist is an animal which does not abound. I have been here some menths and have met only one of the breed and he came from Ohio. While the theory of the evolution of man is a thing well nigh unheard of among es and the Socialist is considered a species very much to be avoided, yet assisted by The Worker I have been able to do some work to and the final emancipation of the working class.
"My knowledge of the class-struggle

theory is limited, still I know the strings is a fact, and that each and all of those who believe in the prin-ciples set forth in the national plat-form of the Socialist Party should do all in their power to forward the movement. Some are cloquent with the tongue, others with the pen, while the majority of us are neither. But that need not deter un. There is work fer all. Each can reach som ter than can the sliver-tongued orator or the portlent pen. Men who rah elbows with us from day to day learn to know us, and if we are worthy we gain their confidence; then they are ready for us to work upon and as opportunity presents the seeds of Secial-

the ground is infertile, stony. or full of thorns, so one must niwsys be at it, either digging, grabbing, and hoeing or tenderly training and trellining. But after the seed has taken root it often soon outgrows him who furnished the germ from which t spring and the sower sees the need if new and better food than he is able but to provide his embryo Socialist with suitable reading matter.

(Considering The Worker the best in the interest of 8c . I made an effort to get som citium, I made an effort to get some of those to whom I have explained the principles of Bocialism to subscribe for the paper. Having met with some together with my check for \$3.75 to cover their subscriptions."

BATE OF THE WORKER

This is what Commade Wm. H. Bate-man of Philadelphia acys in renewing his subscription for The Worker; "I couldn't think of trying to get along without The Worker, for I would she completely lost without The weekly sarrival. It was the means of bringing me from darkness into light, and I never tire of extending that light to them.

THE SOCIAL THINKER.

By Peter E. Burrowes.

The social thinker constitutes himself the brain of the world, the brain of the alient, sightiess people. That brain does not think for itself. It thinks for everybody else, and this it has not chosen to do of itself; for it has been chosen by the race to do this thing. Oircumstances, the common wrong, and its own love of this thinking constitute its ordination and credential. The social thinker is an in-strument who must. He is wielded by the community conscience. He is commanded by the special direction given to his thoughts from the eco-nomic pressure of his time. He is urged by the universal passion of the race to give pleasure to others-to please, and through pleasing others to

receivs and pursue pleasure for him-nelf; he is the prophet of to-day. As the particles of matter which make up the physical, have a habit of coming to, gathering and staying around, a point which we call the cen-ter of gravity, so the thoughts of men do cluster to the collective thought, and men themselves have ever been gravi-tating to the social man. The habit when acquired by matter is called a Whether the law preceded separately the habit or the habit separate ly preceded the law, would be a question for vain debate only. All the legitimate demands of the mind and of use are satisfied by assuming the law and habit to be inseparable and one. That law is the habit of matter and that habit is the law of man. This is for any human philosophy. The social thinking of to-day is an energy, coming from within the race, begotten during the age clashings of matter, even as electron, that spark

indomitable was first born. In this way, mankind finshing back upon other each one's sense of each, and is the mighty human effort of everyhody to help himself by giving pleasure to others, a reciprocity of need, of intent, of effort and will at last produced a common potency—a potency produced first between two and depending altogether upon them at one time; then continued by many, and depending less upon any one or any few, and then ex-ercised by very many, and depending little, depending lens, depending least, and finally not at all depending upon persons, it became an independent so-cial force, peculiar to mankind. As original force, though it be increasable and is still the product of reciprocity as to its intensenses and power—the secial urgs, which will in time give place to the finmense tranquility of the nebil babilt.

This great collective psycho fulfills all the essentials of a universal human soul or law, because it is itself at once a product and a producer. The product of being together, it is also the producer of more togetherness. The prodnet of early physical association, it was stricken forth of human brains; the spark of mental association, the light and heat of social habitarianism, it passed from brain to brain. Like the electric spark, it could not dwell in any single brain. It runs and lives. It must have a circuit; it must ran through many; it must have no isolate lives in its circuit; it abhors insulation. The product of organization, it has in turn an action like that of a certain window-catch I have seen, which not only holds together but draws together as it is closed. The product of the organization habit, it becomes itself in turn an organizing power, and thus reciprocates until the redemption of man from egoisse and private master ship. The product of a physical neces sity out of some tremeudous physical peril that once struck a few of the rarly men, was this power to put two brain-impressions on one vital cord, on one common interest, and from that day forth it was created the creator.

The human mind is approaching its rest. It has been perpiezed with this problem for many ages, "Admitting a moulding potency," said the poor victime, into our affairs, shall we down it to be independent of us and omnipo-tent over us, our creator and our king, or shall we deem it our own creation. the mere product and puppet of our will?" Between these two horse, the faith and fear of man have been tossed for ages in fatile agony; and in futile agony will they continue to be to forms of spiritual individual dominionism, until the dissolution of faith and fear into living powers of associate thinking; of mental and habitual orgaulzation.

The law that obtains among us does

not think by itself nor do by itself. It is our product. Yet not produced by us with any consciousness of a deliberate purpose. It is not a thought nor a thinker; it is not a deed nor a doer but of collective thoughts and thinkers. deeds and doers. It has its being in a warm vital reflex that draws and keeps in strong arms of fellowship without love. If, as individuals, we should ever try to produce it, we shall be produc-ing something else. When we begin to organise for it, it will be cold. When we talk or think of ourselves as following after or seizing it, or adniring it, worshipping it, or calling ourselves fond of it, it is going away from us. It is a mirror that reflects and yet suffers you not to see yourself in it. It is not a direct product, nor a direct producer for the single life; it, therefore, calls for no lovalty from rou to itself. It could not be worshipped nankind together.
When we are thinking in the mass,

when we have superseded all owner-ships leading to one or other of the elementary excesses of privation and surplus. When we have substituted the thought and practice of use for the inwa of grivate ewacrship, and have substituted in all possible ways the public habit for the grivate dictum, busing the whole life of the intellect on that social intelligence which has ancesseded blind nature in human af-fairs,—the human environment devaloping through reciprecated experiences in trying to please one another, a growing into each other by the desire and habit for organization, and by practising that continuity of thought and expression which make thoughts gaulem, denying every part for the

Whole, we are socially saved.
"Whatever faults we may find with modern capitalism, we can take no exception to its organizations, . Hvery gain made by capitalism as a maker of international grooved along which the habitual activities of nations nave been taught to move is a definite gala to the race salvation. Capitalism gives us everything of Socialism but the mind and life of it. It gives us an inindustrial activity instead of the old church, diplomatic and military ne-tivity. At the end of the capitalistic evolution, it will leave us in possession of that flower of all human wisdou and experience, social, economic activity and international intercourse; but with petats bloodless and coloriess. It remains for Socialism to tip those petals and to impregnate with the life color and fragrance those ghostly flowers, as yet only outlines, mere forms, waiting for the flush of life. Or rather, let me bring back this flower to the had. Capitalism has no more energy to spare, she has brought thom thus far and can no farther. If you nip off all these bads but one, or two, maybap it would yet yield one little anymap it would yet yield ose little flower of true social activity. But no, there shall no social energy be thus destroyed. The foregoing conditions which prepared these bads and left them in our age for us to make them bloom demands that we shall breathe from the roots up into them the revo from the roots up into them the revo intionary energy that bids the little folded bud-babes to break through their cerements, which, without more Socialism in the life energy, are likely to be, instead of cradle wraps, their shrouds. All is ready for evolution to bring forth its fruitful bud. Experience has brought us up to this point, now let the man of action come—the man of action socially inspired to destroy no buds, but to save all that is, the conservative evolutional, and therefore revolutionary Socialist.

SOCIALISM IN FINLAND. The Socielist movement is rapidly

gaining ground in Finland, according to a writer in "La Revue Socialista." Two Socialists have recently been elected to the municipal council of Helningfors, the capital-Drocklis, a journalist, and Haskiand, a wood vorker; and in the city of Tamersford three of our candidates have been sur three daily papers published in the Finnish language support the Socialist movement and the party possesses also a weekly paper published in the Swedish language, which is spoken by a hirre proportion of the people. Daily papers there are evi-dently, however, not quite what they are here, for the aggregate circulation of the four papers is put at about 20,000 copies a week. Btill, this is not bad for Finland, as the population of the country is only three whom but eighty thousand are indus trial workers, far the greater part be-ing engaged in agriculture. The em-ployers of Helsingfors have decided to concede the closing of their establishments on the First of May—partly from motives of prudence, partly, perhaps, from a recognition of the fact that the labor movement is now the most vital expression of the Finnish national sentiment. The rapid growth of Socialism in this agricultural country is largely a reaction against the aggressions of the Russian government which is obviously bent on depriving the grand duchy of the political and civil liberties which have heretofore distinguished it from other parts of the compire and on forcibly Russifying the country. The writer justly observes that it will be the part of wisdom for the Finnish Socialists to carefully avoid the danger of attaching too nuch importance to the issue of nalet movement of other countries and especially with that of Russia, as the one power of which the Caar's govern-ment is really afraid.

PUBLICITY. I am washing at my tub;

All day I diligently rub. And squeeze, and wring, and riuse, and es, and thus my living earn, I was reading yesterday

Which was Sunday, by the way; For other days I cannot find The time to read, if so inclined; Which was Sn And there among the news I new That Congress lately passed a law That trusts must publish now and th (I did not notice where or when) A statement by which all can see Just where they stand financially.

Another article, that said The washinb trust postessed in all So many millions capital; The different items of expense Were in the aggregate immes But notwithstanding all they spent The dividends were twelve pe I recollect that for this tub. In which my clothes I daily rub, I paid considerably more Than I had ever paid before: My coal this winter cost me twice At least the ordinary price; With great advance of And everything I have to eat, While Chinese isundries through the town

International Facialist Review, At last the long delay and delibera-tion are ever and the arbitration.committee has brought forth its report, an i the capitalist press unanimously hall it as a victory for the miners."

The main point on which this cry for victory is based is in the 10 per cent, rise, in the reduction to eight hours for a few favored habovers, 'the right to have check-weighmen and a few flar articles. That this is a gai me will deny, that it is in many senses of the word a victory is sino true, but the further conclusion which practically every one of these papers draw, that the victory was attained through the methods of irritration, we are able to see,
Some months ago when the arbitra-

tion committee was first elected we pointed out that the miners would re-ceive just what the proletariat has al-ways received in a contest with its masters,-what it was able to take. There is, at least, some doubt if in this case the United Miners have not received even less than they could have taken

had the fight gone on. • • •
Just how sincare the capitalist press
have been in declaring the decision to be a great victory for the střikers is seen by an extract from a private tela gram which has come into our hands, which was sent out by a well known, firm of Wall street brokers to their customers. After giving the terms of the Commission report they say of the demands: "All of these, particularly five, six, eight and nine, are absolutely in favor of operators. The first and second clauses were offered by Mr. Baer three months ago. This looks like favorable news for Pennsylvania, Eric First and D. & H."

The "five, six, eight and nine" which they favor, are the clauses concerning check weighmen, directing the payment by operators directly to mine laborers condemnation of boycott and of black-list. So much for the present. When we come to consider the future we are confronted with the proposition s atel above that the contending parties will get exactly what they are able to take. There is no power optside of either of the parties to enforce the decisions of s upon the side of the operators. There will undoubtedly be another fight be

The most encouraging feature of the whole matter lies in the fact that the recent election returns from Pennsyl vanis have shown that a very large power on their side, and are uniting with the Socialist Party to that end. If Mitchell stands in the road to this movement as the public press credits him with doing, he will simply be crushed beneath it. The prestige of the capitalist press will soon pass away and he will find himself dependent upon the only force from which he ever had a right to expect support, that of the workers.

In the meantime It. E. Clark has been rewarded for his work on the Commission by receiving a fat govern-mental appointment in the new Drpartment of Commerce. Query: If he has assisted in the gaining of so great a victory for the mine workers and consequent defent for the operators, why does a government controlled by the class to which the operators belong see fit to reward him?

United Mine Workers Journal. The Supreme Court of Indiana de-clared the Weekly Pay Law uncounti-

curred the weekly lay law unconsti-tutional. In the spliabus of the court it in effect says that if a man is paid once a week he becomes a slave. Now common sense ought to teach even such idealists as the judiciary that when a man can pay his grocer, butcher, his reut and fuel bills once a week he is much more of a freeman than the man who has to "run his face" for a longer period. The valuable of the "nimble six-pence and the singgish guines" are too well known to business men and workingnien to require any explanation. It is strange how courts insist upon foisting a "freedom" strikes against, votes against, petirevolution to get rid of. If courts could take a rational view of matters, exercise the power of common sense and practical application instead of splitting bairs over the dead letter of the law they would be far less when a labor law is uniter consider: tion. Every same and sensible man off of the bench knows that a weekly pay is an inestimable blessing to the work-inguan. It frees him from the most vicous and the most calling condition in life-running in debt. It makes a freeman de facto as woul as de jure of him, the learned court to the contrary notwithstanding. No one but a no my shark or a per cent, gambler are hos-tile except, of course, the learned court.

Senator Hanna declared in a speech in Erie, last week, that the trade union should be "Americanized," Will the Benator please be specific, since his generalizations are likely to be misundecated by laymen. Do the unions as at present constituted strike and hoy-cott too much? Do they accumulate too large war funds? Do they persist in dominding too much labor legition? Do they discuss economic political questions that are liable cause them to become more hostile to special privileges, such as private own ership of franchises; land and capital Do they refuse to fall down and bea their heads into the earth and worship the Civic Federation as containing all the knowledge of the universe? Speci-fy, Scantor, please do specify. We slt at your feet eager to drink your words

Party. -I berewith estimit in you my third report as Sigtional Se

STATE ORGANIZATIONS Comrade John C. Chase succeeded in getting both sides to the dispute in Arkanasas to agree that a state convention be held on Hay 22, and acting upon recommendations in his report, I have instituted a new referendum. upon the question as to where the con-vention shall be held, and who shall be the temporary chairman.

A referendum upon holding a sinte-

convention of locals in Ainbama on May 3 to form a state organisation is now in progress and I shall issue the call for the convention immediately upon receipt of votes of locals.

upon receipt of votes of locals.

A 'state organisation has been formed in Vermont, but regular application for a state charter has not yet been made. Instructions how to pre-

cond have been forwarded to the newly-clerted state secretary.

I have received a pretest from Com-rade W.-H. Tavyney, National Commit-teeman from 40th, against the acts of the revent state convention, held at Belt Lake City, notifying me that he still considers himself the National Committeeman. No official report o the state convention has been reserved at this office up to the present time. LOCAL CHARTERS.

Charters have been granted since has report as follows: Rock Springs, mar report as follows: the special services when the special services members, organized March 20; Patton, Ala., seven members, organized March 21; Costa, Art., eleves members, organized March 28; Safford, Aris., ten members, organized April 7; Spring Dale, Ark., nine memhers, organised April 7; Springfield. Ark., twolve members, organized April 11: and Damascus, Ga., nine members, organised April 13.

ADITATION AND ORGANIZATION. Chase has gone from Arkansas into Texas, where he will stay until the first week in May, going from there into Okinhoma, after which he will cross through Southern Missouri into Tennessee; he will fill some dates in

Alabams and then go northward. Slayton will fill dates in Pennsylvania, Ohio, and Virginia during the remainder of this mouth, and, after returning home for two weeks, will start out again on May 13, speaking in Pennsylvania and Ohio until early in' June. He will then enter ladiana. Blayton's meetings are successful and;

should cost the office nothing. Wilkins began in Oregon this week, where he will participate in the First District Congressional campaign. He will go through Washington next. The enclosed copy of correspondence with San Francisco Ocupral, Committee, is self-explanatory. After Comrade Wil-kins had read this correspondence, he wrote a letter, resenting the action of: the San Francisco Central Committee, but offering to withdraw from any ar-rangements with tils office, if his appolitiment would cause us any emharrasument or participate a discussion. Under the circumstances, I believe Wilkins should proceed as previously agreed upon.

Comrade John M. Bay of Nashville, Term, will act as organizer in Ala-tama and Teunessee, guing to the former state first because of requests made for an organizer in the Birming-ham district, and where the movement to form a state organization is now on foot. Comrade Ray is a reliable man. a Southerner, and a good organizer He holds the record for organizing locals in Indiana, and refused an offer to return there, in order to work for the national organization in the South.

Upon request of Local Providence, R. I., I have arranged for Comrade Dan A. White of Massachusetts to spend a few days there in the interes of organization. I am also arranging for White to make an organizing tout through New Hampshire, Vermont through New Hampshire, vermont, and Maine. White has made special arrangements with the Massachusetts State Committee in order to make this

Harry M. McKee of California act as organizer for the national party in lows, Missouri, and Kansas, with the co-operation of the respective state committees, is now before the Quo-

Comrade Jos. Wanhape declined to act as organizer for the party through the Middle Western states as he had

the Middle Western states as he had only seven members of the National accepted the position of editor of the lacel Committee, not including the members "Eric People." SUPPLIES

MAY DAY NUMBER OF THE WORKER.

Next week's issue of The Worker and Class Consciousness; Revolution till be a special May Day Number of Evolution, and Reform; The Material will be a special May Day Number of double the usual size—that is, of eight pages—especially adopted for general intion as a propaganda paper.

following address:

While we are not yet able to make a complete announcement of the features of this special issue, we may say enough to show that it will be a good one to put into the hands of working. om we desire to interest in our

Among the articles by well knows Socialist writers which we already nave in type are the following: "The "The Atack on Trade Unions," by Max S. Hayen; "The Misinformation of the World," by George D. Herron; "Some Helpful Books," by John Spargo; "The March of the Workers," by Franklin H. Westworth, Right of Revolution," by Peter E. Bur-rowes; "The Root of the Social Prob-lem," by Leonard D. Abbott; and "So-lem," by Leonard D. Abbott; and "So-lem," by Leonard D. Abbott; and "So-Franklin H. Wentworth; cislism versus Class Hatred," by Owen R. Lovejoy. Others are in course of

John C. Chase writes from pertaries and other active comrades cor tribute skeiches of Socialist activity and the condition of the movement in various parts of the country.

There will be a general review of Party in this country since the general ction of 1900, with a consideration of the present political and economic situation and the prospects of the im-mediate future. There will be articles describing the organization of the party and giving reasons why all who believe in the principles of Socialism and wish for the sneedy coming of the and wish for the speedy coming of the Co-operative Commonwealth should members of this organization tion, with many suggestions drawn from experience that will neuve valu

There will be a number of short articles dealing in popular language with from house such subjects as: The Class Struggle districts.

ist Conception of History; Value and Surplus Value; Slavery in Its Varied Forms; Competition and Monopoly; the Government of To-day and the Social State of To-morrow; Fraternity Versus Charity; Class Morality and 86 cial Morality; Immediate Hellef and Complete Emancipation. In all cases the articles will be as

short as is consistent with an intelli-gent treatment of the subject and the purpose of the writers will be to dxpress themselves in such direct and familiar language that no one who knows the English language and has a normal brain in his head can fail to

understand them.
It need hardly be added that controversial matter on party questions will be strictly excluded. This May Day Number of The Worker is designed chiefly for the outsiders, for those who are not yet Socialists, but are willing to learn. We ask the co-operation of all our comrades in giving it the widest cossible circulation.

The price will be the same as for the ordinary four-page issues of The Worker: For less than 100 copies, one cent each; 100 copies, 75 cents; 200 copies, \$1.20; 800 or more, at 50 cents a hundred. As these prices barely a hundred. As these prices barely cover the cost of white paper, presswork, and mailing for the double number, it is necessary to require that all orders shall be accompanied by cash, to avoid needless trouble and expense of bookkeeping and correspondence. That we may know how many copies to print and may fill all orders prompt-ly, orders should be sent in as early as possible.

The May Day Number will go into the mails on Thursday, April 30, in time to reaca most locals by Sunday, May 3, on which day the May Day celebrations will generally be held.

Every local and branch of the party are promptly distributed, not only at public meetings, but in the factories and other places of employment or from house to house in working-class

The capitalist system is responsible for intemperance. Malnutrition and

gloomy surroundings lead to drunken-

ness among the poorer classes, while case and excess cause it among the

Woman is naturally maternal; the

maternal instinct will be transformed

into a higher sentiment which goes out

to relieve the sorrows of the world.

The lecturer then spoke of the large number of little children who work in

the factories and of the attempts of

the Socialists in the Massachusetts Legislature to make the school age six-

The light brought by the women's

novement, the women's clubs, and

higher education, have implanted in

woman the desire to be more than a mere woman. The lecturar then de-scribed the benefits that Sacialism will

bring women. They will have justice and opportunity to work. Women will

produce works equal to those of men

Under Socialism, for the first time, women will be free and independent. The relationship between man and

woman will no longer t'e that of mas-

ter and slave. The new type of woman

will be stronger, while man will be-come gentler. Love will be the only

motive for marriage. Men and women will be co-workers and comrades.

This is only a summary of a lectur

which should be given before other

rlubs of our party and be heard by the

men as well as women. This lecture which our busy comrade has taken dim

from his many duties to prepare, will

WOMAN AND SOCIALISM. | from another great evil-intemperance

Representative Mac Cartney's Address before the Socialist Women's Club of Boston.

BOSTON, Mass.-The Socialist Wo. men's Club of Boston held a very suc-cessful public meeting on Frida; even-ing. April 3, in Paine Memoriai Hall. Miss Bertha Howell, the secretary of

he club, presided. Frederick MacCartney, Socialist representative in the Massachusetts Legislature, lectured on "Why Should Wo-men Be Socialists?"

He showed how woman's econdependence on man has influenced her acter, quoting Mrs. Charlotte Per Economics," which he praised as an excellent book that all should read. marriage is the leading aim of her life. Occupation, pursuits, art, music and literature, are secondary. A woman teaches or works; but she things it will be temporary—at last she will marry This is a perverted ideal. A woman' life is not necessarily a failure if she

indignantly refuting the assertion that "Socialism is destructive of mor-riage and of the family," Representative MacCariney made the counter charge that capitalism is destroying family life. The only motive for marriage should be love. A family resting on any other basis is insecure. But many motives now enter into the mat-ter; women marry for protection, for a home, for wealth and position in se clety. There were 23,000 divorces in the United States last year, yet the empitalist supporters of the present social system dare pose as defenders of the family! As wealth concentrates in the hands of a few, the uncertainty of a livelihood increases. There are ten of thousands of young men and women in Boston, New York, and all the gree a home with the wages they receive From this results "the social evil"

lack of occupation; she is doubly dependent—on man and on the economic

many women out of dependence on man to earn their living. As telegraphers, stenographers, etc.; women compete with men. The opening of colleges to women has awakened broader interests. Working women

FOR THE DAILY.

Settlement of the Fair Ac

counts Progressing

Rapidly.

Secretary Butscher is making good progress in closing up the work of the Daily Globe Fair, collecting for tickets, distributing presents, and so At the next meeting of the Daily Globe Conference a full financial report will be rendered and The Worker will then be able to give its readers more definite information as to the result. A considerable number of tickets are still outstanding and it is desired that these should be settled for as soon as possible with Secretary

William Butscher, at the Labor Ly-ceum, 64 East Fourth street.

There still remain a good many copies of the Globe Fair Journal. Every reader of The Worker who has not already obtained a copy will find it worth his while to do so, as the journal is a most creditable piece of work. Order of Secretary Butscher;

price, 10 cents a copy.

Although all Fair business is not yet disposed of, Comrade Butscher is quit ready and willing to receive payments on pledges or donations to the regular Socialist Daily France He require Socialist Daily Fund. He requests that comrades boiding punch cards abould get them filled and return them as rapidly as possible.

To the National Committee, Socialist

... Party: Comrades:-I am in receipt of the following proposition from National Committeeman Mila, of Kansas, and it is herewith submitted to your for

your consideration and action "Kansas City, Mo., "Moved by Mills, National Conmiliteeman for Kansas, to strike out from the anti-fusion resolutions adopt-

meeting, the following clause: " 'At the present stage of develop-

country there is neither necessity ner excuse for such alliance." "I more to strike out the above be-cause it carries with it the implication that with further development of the

Socialist movement the necessity or excase for such alliance may arise.
"I voted for the resolution at St.
Louis without noticing the force of the

above clause. I am confident that, most of the other members did the same. I therefore move that it be Omaha, April 17.

To the National Committee, Socialist

,50 1,00

Party: Comrades:—I am in receipt of the fol-lowing communication from Comrade A. Bassett, State Secretary, North Dakota:

"Fargo, N. D., April 15, 1908. "William Mailly, National Secretary,

Omaha, Neb. "Dear Comrade:—Your letter of March 17, 1903, with referendum A-1903, being resolutions Nos. 1 and 2, regarding headquarters and Nationa Local Quorum referred to the member-ahip of the party for final decision, re-ceived, and duly placed before our

State Local Quorum for action,
"The matter was thoroughly considered in a full meeting of our State Local Quorum, and it was unanimously

disposed of an follows:
"Whereas, We consider the submis sion of a referendum of resolution No. 1 unconstitutional; first, because it is an initiative (new logislation) and not referendum (approval or disapproval of the National Committee), and, second, because it makes the proposed new National Local Quorum permanent un-til the next national convention, de-spite the fact that the untional constitution gives the National Committee the right at any time to remove said quorum. (See Art. 15, Sec. 1, of consti-tution). He it olved, That, the State Local

Quorum of North Dakota takes an appeal to the national convention from the decision of the National Committee to refer resolution No. 1 to the mem-bership and pending the decision of the appeal, refuse to submit resolution No. 1 to the membership of the Socialist Party in North Dakots. And he it fur

"Resolved, That the State Loca" Quorum declares itself ready to submit resolution No. 2 to referendum of our

intion of the State Local Quorum, I ask for instructions as to how you wish me to submit resolution No. 2; whether you want me to have resolution No. 2 reprinted (at our expense) or simply to cut out resolution No. 1.
"Fraternally yours,

"A. Bassett,

"State Secretary.

I have notified Comrade Bassett that I have submitted his communication to the National Committee for its consid eration, and that I have no authority to instruct him to submit the national form than that in which it was orig inally submitted to the memocratip.
Fraternally submitted,
WILLIAM MAILLY.

Omaha, Neb., April 18.

THE DUTCH STRIKE.

Some Account of Events Leading Up to the Recent Movement, as Given In

From the pages of the April "Inter national Socialist Review" we take the following article, translated by A. M. Simons from the German of Her man Gorter in "Neue Zeit," giving au ecount of the events which led up to the Dutch general strike of April (and the following days. The render will, of course, observe that when the term "general strike" is used in this article, it refers, not to the events of two or three weeks ago, but to the strike of dock and rallway employees

preceding.
"We thought we were far behind in "We thought we were far behind in the International labor movement. The great industry' has very slowly de-veloped in Holland. The domination of the anni businesses, the anarchist propaganda, the power of religious klean, the dull indifference of the man

-all these operated to hinder the de-velopment of the labor movement.

"One year ago the sifuation ap-peared almost hopeless. But the proletariat is an unknown quantity. All the powers of the future slumber in it, and it is as impossible for one to determine the exact moment in which water will turn into ice, or lightning to strike from the clouds, as to determine beforeland the moment of the outbreak of the accumulated revo lutionary energy of the proletariat. There are critical times that pass over dully and heavily and again a little breath, an imperceptible disturbance of equilibrium suffices to gather to the clouds for a mighty

"The experience of the last year has greatly changed the view of the 80 cial Democracy in regard to the general strike. To be sure we had already given up the original position of absostely rejecting the general strike, but the indifference and even the half con-viction of the justification of this powerful means of class struggle has grown in just the degree that the idea of this weapon has entered into Social Isomorracy. Even if we consider the general strike of all laborers, as sought ofter by the Anarchists, utopian and if we reject the idea that the general atrike is the only weapon, the panacon of the prolemniat for whither shall come the hacessary organization, training and discipline for the general strike without the experience gained in the daily political and economic struggle?), we have, nevertheless, learned to recognize it as a powerful weapon whose application we must learn to study and which will be more and more favorably looked upon by

all Rocin!'sts.

"The general strike of the Dutch railroad workers whose first, and per-haps only, act has just concluded may be considered here as a typical case It began as a pure expression of soli-darity by the strikers, but by its con-clusion it had led not alone the assisted comrades, but the rallroad workers themselves to a full victory, and as a result had brought to maturity another strike, that of the Amsterdam ability will be crowned with a similar

result.
"For several years the Amsterdan Dock and Transport workers have had a strong economic organization. Out of numerous raw elements the prin-ciples of organization and solidarity have been disciplined into battallous obedient to the will of the majority and their representatives. Truly hat-tallons for from their very founda-tions battling has been the life of this organization. It is made up of many trades including the 'Bootwerker,' the warelouse workers and the people who are engaged in the handling of goods around the numerous waterways, and warehouses, such as dock

borers, etc.
"According to the decision of the International Congress of Transport Workers held at Paris these bodies were combined into a federation. In 1903 there was another collision be-tween these unions and the warehouse corporations, known in Dutch as the 'Veemen.' The strike ended with the victory of the warehouse workers, who were assured among other things that from now on they would never be compelled to work with non-union labirers.

haresa.
"One of the 'Veemen' did not keep "One of the 'Veeman' did not keep this promise, but at once introduced non-unionists, who were favored in every possible way. Naturally this did not please the organised workers. It soon came to an active disagreement and one sine morning the ware-house workers of this 'Veem' laid down their work and demanded the discharge of two non-minu workers. When this demand was refused the When this damand was refused the workers concerned unanimously caused work. A freighting firm introduced fifty-six strike-breakers, whereupon the representatives of the fediscated union man should touch any of the goods handled by the strike-breakers. These goods were declared 'dend.' As the fifty-six strike-breakers were not discharged this blockade hung over the warehouses of 'all the "Vermen who handled goods for the boycotter

"Meanwhile new vessels were con tinually coming in loaded with washe for the boycotted firms, and so the strike continued to grow.

"A complication of much greater significance very soon appeared, owing to the following circumstances: One dock in Amsterdam is set apart for bulky goods, as for example Spanish iron ore, to be loaded directly from the ships into the railroad cars, ers, switchmen, machinists, etc., are engaged in the assemblage of the goods destined for Germany. The question now arose: What will these men do if they must bandle cars loaded by strike-breakers? To be sure this question did nor concern the federated dock inborers but the union of the railroad men.

"In contrast to the dock workers; whose history—at least during the last few years—has been a succession of victories, the railroad workers bave been able to assert themselves only under great difficulties. With the rise of the first Socialist movement the first organization of the railroad workers had also arisen, but employers and anarchistic influences split them. Af-ter a very long apathy we see them now, like the whole Socialist movement, again gaining in strength. the first place the machinists and fromen formed a very strong organiza-tion. The conductors and other trade workers followed and joined with the former in a federation, and finally the whole movement found a new and arm center in a union of the govern-mental employees, which in Utrecht had developed from an almost imper ceptible beginning to a powerful fight-

the switchmen were ordered to handle boycotted cars, they refused service and their action was followed by the whole 300 railroad workers who were occupied on this dock, and who also laid down their work. The representatives of the unions involved met with the directors of the Holland railroad corporations, but without result, so that the same evening, in an as semblage of railroad workers in Amsterdam, the strike was decided upon by a vote of 702 to 28, because the directors had refused their demands. The same conclusion was reached on the same night by numerous assem-blages in many larger and smaller

cities. "The strike was declared as a nurely sympathetic strike. To be sure a few demands for the betterment of their own condition were made—this was very natural—but the motive of it from the beginning to end was that of helping the threatened comrades in other branches, and on the attainment of this end they again took up their

"Fortunately for the extension of "Fortuntely for the extension of the strike, especially among the unor-ganized workers amounting to 50,000 out of 17,000 railroad workers, there was a long accumulated hatred against the railroad corporations, based upon low wages and inhumanis long hours of labor and a determina-tion to crush out every germ of organi-zation by general rules. The federa-tion was led by 'anti-parliamentary' Socialists, while the railroad workers were led by Social Democrats and the larger proportion of their membership were Social Democrats. Both of these otherwise bitterly fighting factions or operated harmoniously in this case, and this co-operation brought about

"On the day after the meeting the unions were once more approached by the employers. By that time there was a very noticeable stoppage of traffic and the employers took on a new tone. First concession: recogni-tion of the organization from now on. This in tastf was an important victory. Further: in the disputed dock nothing more shall be done, with full compensation to the strikers, until the conclusion of the strike. Finally, and conclusion of the strike. Finally, and this was the most important of all, employers agreed to request the govern ment to abolish the article of the mil-road regulations which compelled the railroad employees under all conditions to accept goods for transporta-tion. Meanwhile, the strike continued the strike would extend at one stroke over the whole country.

"In the evening assemblages were again held. One may imagine what rejoicings there were. Victory was in sight. Amidst these rejoicings all the unions pledged their support, and at midnight every depot in Amsterdam was vacant. The next morning not a train came into Amsterdam. A zone was created into which no locomotive dared come. Telegrams in great num bers poured into the headquarters of pledging themselves to lay down their work at the first signal. In many places the strikes broke out spon-taneously. "The great question was now. What

will the government do? Will they agree to the suspension of this article and grant to the laborers that the care filled with boycotted goods shall not be touched nor switched nor sent through to Germany? Feveriah suspense reigned. The directors of the railroad, together with a committee the workers, had gone to the Hague to consult with the ministers. Meanwhile the military was poured into Amsterdam from all directions turbing news items were heard to the effect that trains were to be forced through the guarded sone. But even before the dispatches annou decision had been sent to the different organizations, the answer of the genral directors of the railroads came 'We grant to your members the right resterday.' Everything was won. The next day at four great assemblages of the laborers the decision was adopted to again take up work. The indis-putable result of this battle was a complete victory for the dock workers plets victory for the dock workers. The strike-breakers were sent home, all strikers were reinstated, their right not to work with strike-breakers expressly recognized, and the other points in dispute submitted to a court of arkitestica. "But the battle, however, was not closed even with this. The railward

National Platform of the Socialist Party.

The Socialist Party of America in national convention assembled, restitutes its asher vence to the principles of international Mocialism, and declares its aim to be the or-canization of the working class and these is sympathy with it, into a political party with the object of constaring the power

feriority, political authoritence has alavey.

The economic interests of the capitalist class dominate our entire social system; the lives of the working class are recklessly sacrificed for profit, wars are founcised between nations, indiscriminate slaughter is showninged and the destruction of whole races is sanctioned in order that the capitalists may extend their commercial domains alread and enhance their supremory at home.

in airmad and enhance their supremacy at limit the same economic causes which developed capitalism are leading to Bortalous, which will abuild both the capitalist class of ware workers. And the active force in bringing about this new and ligher arder of so-dety is the working class. All other classes, despite their apparent or actual conflicts, are alike interacted in the uphidding of the system of private owner adip of the instruments of weath production. The Democratic Republican, the other parties which do not aliant for the complete overthrow of the capitalist system of production, are alike political representatives of the capitalist class. The workers can must effectively act as a class in their struggle against the collective powers of capitalism, by constituting them netwes into a political party, distinct from and opposed to all parties formed by the propertied classes.

[MMEDIATP, DEMANDE.

and opposed to an parties formed by the propertied clanses

[IMMEDIATP. DEMANDE.]

While we declare that the development of economic conditions tends to the overtirow of the capitalist system, we recognize that the time and manner of the transition to Recialism also depend spon the stage of development reached by the projectarist. We, personal reached by the projectarist of the working class to letter its condition and to elect Socialists to political offices, in order to fraint of the subject of the subject of the subject of the control of the project of the reduction of taxen on project; of the capitalist class, but to be applied wholly to the increase of wages and shortening of the hours of lation with the consumers.

2. The progressive reduction of the hours of lation and the increase of wages in order that the consumers he shape of the explicit and purdence is the of the order in the propole in case of articlent, lack of employment, sickness and want in old age; the funds for this purpose to be collected from the revenue of the capitalist class, and to be administered under the control of the working class.

2. The progressive reduction of a system of public working class. IMMEDIATE DEMANDS.

be administrred under the control of the working class.

4. The insuguration of a system of public industries, public result to be used for that purpose in ewier that the workers be secred the full product of their labor.

5. The education of all children up to the agr of eighteen years, and sate and municipal aid for books, riobling, and food.

5. Equal right sed political rights for

8. Equal civil and political rights for men and women.
7. The tuttative and referendum, propor-tional representation and the right of recall of representatives by their constituents.
But in advorating these measures as steps in the overthrow of capitalism and the establishment of the Co-operative Common-wealth, we wars the working class against

the so-called public ownership movements as an attempt of the capitalist class to secure governmental control of public utilities for the purpose of sheatshing greater security in the exploitation of other industries and not for the amedication of the conditions of the working class.

SOCIALISM AND TRADE UNIONISM The following feminities was adopted, along with the foregoing platform, by the National Convention at Indianapolia, July, 1981

National Convention of Indianapolis, July, 1981;
The trade union movement and independent political actions are the chief emancipating factors of the wage-working class. ANTI-PUSION RESOLUTIONS.
Whereas, The bistory of the labor movement of the world has conclusively demonstarted that a Socialist Party is the only political exponitation able to adequately and of the working class, and "Whereas, All "malical and reform" parties, including the so-called "I'nion Labor Parties, have, after a brief existence, unformally assessment of the highest control of the labor which we have a supersymmetric parties, and have preven disastrons to the allimate and of the labor whereas, any alliance, direct or indirect, with such parties is daugerons to the political integrity and the very existence of the Socialist Farty and the Bordalist movement, and

Northin tarry and the present stage of development of the Forthint movement of the routing there is neither necessity nor excuse for such alliance, therefore he it itemoved. That no state or local organization, or member of the party shall, under any elecumetapoea, fuse, comisine or comiting or the party shall, under the party shall unde any electricate to consider or com-proguise with any political party or organi-zation, or refrain from making nomination in order to further the interests of candi-dates of such parties or organization.

workers still stood with their weapons at their sides. Everyone waited to see what the government would do. They had avoided any direct answer to th railroad corporation, declared the ques-tion to be a private affair of the rail-road, and refused to interfere. But from the bourgeois standpoint such position cannot be maintained. The bourgeois press of all political com-plexions shricked for laws against the rullroad workers and demanded the bringing in of the militia to serve as

strike-brenkers.
"On the other hand, the labor organtrating grew as never before, and the willingness for battle was greatly increased by the result of the election and by the result of the railroad strike, so that just now the thousands of municipal laborers in Amsterdam are threatening to strike. The government will soon be driven out of its passive position. But whether it will enact any oppressive legislation or attempt to legally regulate the wage contract. or whether it will seek to split the inhor union of the railroad workers with the help of the unorganized laborers and the Catholic Labor

nions, no one can tell as yet.

"Little consolution can be derived from the fact that the government has called out the reserves for the two years past so that all the garrisons have three times their customary strength. Amsterdam especially is bristling with soldiers. The Social Democracy as a party has not yet en tered into the battle-not even the Par liamentary fraction-since the Cham-ber has not ret met. To be sure our comrades, and especially the members of the Chamber, have everywhere been fighting in the front ranks. Now it must depend upon the attitude of the government as-to what the party will do. Domeia Nieuwenhuis and the Anarchists sought to make capital out of was just the firm, well-built organiza tion against which they have always clamored, to which the successful re-sult of the strike is due. "For the carrying out of such a sud

den and unexpected extensive strike requires a schooling, and an organiza-tion such as is seldom to be found to-day. Now I would certainly not say that such a schooling and organization eas already existing in Holland today. "But if the weapon of the general

strike is to be utilized, then the organi ration must be so built un that this wespon will stand ready for instant use. For the certainty of success in a general strike lies in its suddenness. Ever mere numerous and greater will become the great strikes and outbreaks of this character which shake the social life of the nation to its foundation. It is not the case of the theory forming the reality, but the being recognised and grasped theory. Most important of all, sy use theory. Most important of all, we see similar phenomena in Beigium, Bweden, France, Austria, America and Switzerland. The antagonisms grow sharper and greater. The range of single struggles between capital and labor gains in extent and the great general strikes draw into the struggle codies of otherwise indifferent laborers."

It would seem, from reports so far at hand, that the latest planse of the struggle has shown that Comrade Gorter was right in doubting whether the schooling and organization pecessary to the successful carrying out of a general strike yet existed in Holland, and that the temporary victory rests with the government and the employers. This does not necessarily imnly, however, that the movement has been a failure. It has undoubtedly made a profound impression both on the enpitalists and on the workerswarning-the former and teaching the latter both their power and the need of a better organization and direction of that power.

CAN REVER WIN RESPECT.

Labor lobbying in Congress or a state legislature is an insult to the in-telligence of the working class. Labor has the numerical strength to come into possession of the earth and the fullness thereof, but is held back by yielding obsdience to the counsel of salaried frauds, whose treason to humanity would shame a Judas. Labor bowed in supplication may arouse pity, but can never win respect.—Minera' Maga-

than our appeals could do to educate the workers and rouse them to action. The closer the lines, the sharper the fight, the sooner will it be over. And we have no doubt with which side vic-

SONG OF THE WAGE SLAVE.

The ore the usurer's coffers fills— But what remains for me? The engine whirls for master's craft;

Theirs, theirs the learning, art, and

The coming hope, the future day, When wrong to right shall bow, And bearts that have the courag

For Labor's foes to spend.
The camp, the puipit, and the law

For rich men's sons are free;

But what remains for me?

To make that future now.

They render back, in coin for coin.

To me eternal loss.
The hour of leisured happiness
The rich alone may see;
The playful child, the smiling wife-

Mayhap a prison, then a grave, And think they're quits with me. But not a fond wife's heart that breaks,

We score not on our hollow cheeks And in our sunken eyes; We read it there, where'er we meet,

Each asks: "The rich have got the earth, "And what remains for me?"

We store it in our brain; They think us dull, they think us dead,

A trumpet through the lands will ring. A heaving through the mass. A trampling through their palaces

We'll cease to weep by cherished

And still, as rolls our million march.

coming hope, the future day, en wrong to right shall bow,

And hearts that have the courage

To make that future now.

—Ernest Jones.

gially within the last six months, have seen a most remarkable movement of organization on the part of the cap-failst class. The number and variety of capitalist associations formed for the purpose of dealing in one way or another with the labor question is most suggestive of serious alarm on

which was to settle the labor question forever by the method of conciliation. From the heginning it was a shallow enough force, and it did not take long to make it evident to all who had eyes to see, that its real purpose was to patronice and support the most con-servative labor leaders, to throw discredit upon aggressive organizations, to allenate public sympathy from workingmen forced to strike. The par-ticipation of pitiless labor fleecars in fits organization and the completely listic character of the represent overe quite in keeping with this object.
While the Civic Federationists were still loudy talking of their plans for bringing about harmony between Capital and Labor, however, new or-ganizations sprung to the front.

press bureau for maligning and mis-representing the labor movement.

Close on the heels of the Manufac turers' Association rollowed the Na-tional Economic League, describing itself as an "impartial educational movement to oppose Socialism and Class-hatred." This organization by class-hatred." This organization is certainly liberally endowed, for it is carrying on its work, schually one of prejudice and misoducation, on a grand scale, circulating enormous quantities of literature designed for working-class readers. Nor does it confine its opposition to "Socialism and class-hatred." A large part of its had class-hatred." A large part of its apphistries are directed against the shorter workday, against all attempts of the unions to restrict the "driving" of workmen and the employment of children under the guise of appren-ticeship, against virtually all the meth-ods by which the unions seek to de-fend themselves from capitalist ag-gression in the shop. "Our national pression is the shop." sperity" is the phrase upon which they continually harp and the work-ingmen are taught that by competing with each other, by working at th highest possible speed, by subordinating every other thought to that of increasing the output, they may hope to perpetuate this prosperity and possi-

Next came the news of the organigation of "non-union unions" in differ-ent parts of the country, under the patronage of employers and with the enthusiastic approval of the most virulent enemies of labor in the capitalist press. Among the decisred objects of these bastard unions are the maintenance of employment bureaus and the flefent of "unjust strikes." It is easy to guess who will decide which strikes are unjust and to what uses the em-ployment agencies will be turned in breaking them.

day, April 21, were discharged with a warning aext morning, but these takes up on Wednesday, Thursday and Fri-day nights were bound over until next Monday morning. In the meantine the Socialists have planned a big indignation meeting for Sunday night at which Comrades W. H. Moore, candi-date for Mayor; J. Ed. Morgan, State Secretary; Bernard McCaffery, William Mailly, and W. E. Clark will be the speakers. The comrades arrested are P. J. Hyland, James W. Hawkins, Bernard McCaffery, E. Werner, J. A. Labille, John Pahoralek, F. S. William G. W. Ray, E. D. Whalen, G. Mark-stall and J. Ed. Morgan. The last named was arrested on Friday mornnamed was arrested on Friday morning. Comrades McCaffery and Labille
have been arrested twice and Hyland
leads with three times to his credit.
A peculiar phase of the matter is
that the Salvation Army and "Holiness" agitators are permitted to hold
meetings and collect crowds on the
same corners which the Socialists are
forbidden to use. From interviews forbidden to use. From interviews given out by the chief of police, it would seem that the authorities are attempting to incite disorder and perhaps a riot, in order to throw discredit upon the Socialist Party, but this at-tempt will be unsuccessful, as the So-cialists are determined to fight the matter through to a finish along peaceable lines.

GAIN IN ELOIM.

ELGIN. III., April 23.-In the city election held here on Tuesday the So-cialist Party cast 897 votes for Mayor, as against 258 cast for the head of our ticket last fall. We intend to keep on increasing this way at every count, if

TO PROVIDENCE SOCIALISTS.

A meeting will be held at the boo of Comrade A. P. Workman, 284 Will lard avenue, Sunday, May 17, 4.30 P. M., for the purpose of organizing a local of the Socialist Party. All those wishing to join are urgently requested to

The Indiana State Convention opened April 25 at Indianapolis. State Secretary Oneal of Terre Haute subfour others that only need attention will ensure the ascertaining of the number of members at any time, the appointment of a state organiser to give his entire time to work in the field, and that provisions be made to have the State Secretary give his whole time to the organization.

CONVENTION IN NEW HAMPSHIRE. The Socialist Party of New Hampshire held its state convention at Con-cord on April 23. Thirty-one dele-gates were present from nine of the fourteen locals. Michael H. O'Nell called the body to order and Joseph H. Dunbar was chosen chairman, with Louis Arnstein and D. E. C. Duffie as secretaries. The reports of State Secretaries Arnstein and Treasurer White-house showed the party out of debt and steadily gaining in membership. National Committeeman Claffin made a report on the St. Louis meeting, which was accepted. The present State Secretary and Treasurer were re-elected and a list of nominations made from which mbers of the State Committee osen by general vote. Man fred Tibbetts was chosen State Organ izer and a considerable sum of m pledged to enable him to proceed with

The Need of a Socialist and Trade Union Newspaper.

The Origon of the Capitalist Press and the Becassity of a Labor Press to Meet It-The Project of the "Daily

Berniar readers of The Worker know, but it may interest these who see it for the first time this week to be informed, that a movement has been innugurated and carried far thward success for the establishment in New York City of a daily newspaper to be owned and controlled by an absorba-tion of Socialist workingmen and de-voted to the interests of the labor-movement on both its political and its industrial side.

No one who reads thoughtfully and can have failed to be impressed bothby the immense power of the daily-press and by the shameful way be which that power, in the hundr of in-dividual capitalists or corporations, is used to serve the interests of the capiused to serve the interests of the cagis-talist class at the expense of the works-ers. Not only are unsound theories of economics and of public and private morality taught through the editorial departments and special articles, but the news columns, ostensibly present-ing an impartial record of events, are actually used with lagenuity and per-lutence works of a better come to sistence worthy of a better cause to-misinform the people on matters of the most viral importance to them,

Are workingmen on strike or locked out? It is impossible for them to get a brief and plain statement of their side of the question published is, the daily papers, whether republican, des-ocratic or "independent," whether "yallow" or respectable; but whole col-umns will be given to interviews with the employers and their one-sided representations put forth as being the whole of the story.

The strikers may conduct them-selves with even excessive regard for law and order and consideration of the public consfort; yet when they mad the papers they are hardly surprised any longer—no long have they been ac-customed to it—to find themselves pic-tured and described as dangerous gisters and incendiaries.

Is the labor question discussed from the workers' point of view at a great public meeting? Ninety-nine chances to one, though reporters have been present, not a line appears in the present the worse if a report is given, for the speakers' words will then be garbled ent of all sense or into a sense opposite to the true one. Yet the same paper may give a whole page to rulgarly detailed accounts of a ball of a supper or a golf match or a divorce suit in the ranks of the Four Hundred and will assuredly print and editorically appland the shallowest utternuces of any college professor or preacher who is the labor question discus any college professor or preacher who toadies servicely enough to the influe-ests and caprices of the capitalists.

Is there a Socialist ticket in the field. composed of representative working-men pledged solely to the interests of their class? The capitalist press is not content even to keep silence. It delib-erately distorts the facts, missing the name of the party and its candidates, misquotes their speeches or the party platform, and often on the last day be fore election, too late for reply, pub-lishes absolutely fabricated reports a the withdrawal of the ticket or o some deal or fusion, in order to dis suade people from voling for it. In such aris as this the eminently respectable. Times" and the notoriously anti-union "Sun" have been sutdone within the last two or three years only by the labor-loving "Journal" and other

All this is not surprising. The exreporters take their one from the handness office. To please advertigers, to please corrupt politicians ; "boodle" at their command, to ple the great capitalist who owns part of the stock or holds a mortgage on the paper—these are the more obvious motives of newspaper misrepresents.

On the other hand, those who know anything of the history of the German labor movement in New York City and the vicinity-not to go across the water for instances-knows how much the for instances—snows now much the possession of a daily paper in that language, the "Volksseltung," owned and controlled by workingmen's organization, has done to strengthen the German unions and serve in their battles and to develop the sturdy body of German speaking Socialists who forused the nucleus and hase of supplies for the now so rapidly growing Socialist

we both can and must have such a daily paper in the English language. The field is ready. We have in our ranks men capable of issuing a paper that we need not be ashamed to place beside the best in the land. The continuous partial pa

MAY DAY IN nember has one vote, regardless of the

number of shares he holds.

Every person who wishes to help the movement to success, whether he is a party member or not, whether he joins the publishing association or not, is requested to contribute to the extent of his ability to the Socialist Daily Fund. Many have piedged ten dollars, twenty-five dollars, a hundred dollars, we are now more to be reidd in convenient. or even more, to be paid in convenient monthly instalments. Nearly \$7,700 has already been pledged, and about \$3,100 has so far been paid on pledges. Square.

Others prefer to make simple casi contributions, large or small according as they can afford. More than \$1,000 has been collected this way. As another means of swelling the

gund a great fair was held in this city, from March 28 to April 5, whose proceeds amounted to well over \$0,000. But still more is needed. Every reader of The Worker should help. If you can afford to piedge a hundred dol-lars to be paid at the rate of ten or five or two dollars monthly, well and good. If you can afford only to give ten or five or even one dollar now, do not de-lay. Every pledge or contribution re-ceived now inspires others to add to

the amount.

All checks and money should be drawn to the Workingmen's Co-operative Publishing Association, and all correspondence should be addressed to its Secretary, William Butscher, at the Labor Lyceum, 64 E. Fourth street,

FOR THE PECPLE.

We are the hewers and delvers who toll for another's gain,
The common clods and the rabble, stunted of brow and brain. What do we want, the gleaners, of the harvest we have reaped? What do we want, the neuters, of the boney we have heaped?

We want the drones to be driven away from our golden board; We want to share in the harvest; We

We want what sword or suffrage ha never yet won for man-The fruits of his toll God promised when the curse of toll began.

We have tried the sword and scepter the cross and the sacred word.

In all the years, and the kingdom is not yet here of the Lord.

to it meless, all our waiting? Are thay fruitless, all our prayers? Has the wheat, while men were sleeping, been over-sowed with tares?

What gain is it to the people that a God laid down his life.

If, twenty centuries after, his world

be a world of strife?

If the serried rauks be facing each other with suthiess eyes, And steel in their hands, what profits

Ye have tried, and failed to rule us; i vain to direct have tried. Not wholly the fault of the ruler; not utterly blind the guide.

Mayhap there needs not a ruler; may-hap we can find the way. At least ye have ruled to ruin; at least

What matter if king or consul or presi dent holds the rein,
If crime and poverty ever be links in

the bondman's chain? What eareth the burden-bearer that Liberty packed his load, If Hunger presseth behind him with a sharp and ready good?

per; there's a king with a parchment crown; re are robber knights and brigands

in .actory, field, and town.
But the vassal pays his tribute to a

lord of wage and rent.

And the baron's toil is Shylock's, with
a flesh-and-blood per cent.

The seamstress bends to ber labor all night in a narrow room; The child, defrauded of childbood, tip-

toes all day at the loom. The soul must starve, for the body can barely on husks be fed; the price of bread.

Ye have shorn and bound the Sam and robbed him of learning's light But his sluggish brain is moving, his sinews have all their might,

well to your gates of Gaza, your privilege, pride, and caste! The Giant is blind and thinking, and

his locks are growing fast.

NEW YORK.

Great Mass Meeting to Be Held in Madison

Brooklyn Holds Meeting on Friday and Fastival on Saturday-Yorkville Colebration at Old Homestead Sarden.

International Labor Day will be ob served by Local New York of the So-cial Democratic Party and the labor organizations in sympathy with the movement by a demonstration taking the form of a mass meeting in Madi-son Equare, between Twenty-thru and Twenty-fifth streets, on Friday evening, May 1. There will be three platforms, one of them for German speakers. Benjamin Hanford will be evening.

Every workingman who is in accord with the international movement for the emancipation of the working class from wage-slavery is urged to be present and take his part 'in the demon-

in Brooktyn.

On Friday evening a mass meeting will be held in the Brooklyn Labor Lyceum, 949 Willoughby avenue, with wel known speakers. On Saturday evening there will be a festival and evening there will be a restruct and hall at the same-place, one feature of which will be the production of Fred-erick Kraff's play, "Now and Then." Everything has been done to assure the enjoyment of the guests and a good attendance is expected. Admission at the door will be 25 cents; tickets in advance, 15 cents. The net procerds are to go to the fund for the establishment of the "Daily Globe."

in Yorkville.

The May Day demonstration of the districts represented in the Yerkville Agitation Committee, will be held in Old Homestead Garden, on Third avenue, between Ninetieth and Ninety-first streets, on Friday evening, beginning at eight o'clock. Good speakers will address the meeting and excellent musical and dramatic talent has also been procurred.

The Bohemian workingmen's organ-izations will also take part, with the Bohemian branch of the Social Democratic Party, in a May Day festival on the same evening, at Bohemian Na-tional Hail, 221 Past Seventy-third

PARTY ORGANIZATION.

The Socialist Party is now organized with state committees in thirty-one states and territories. In fourteen otners it has local organizations and two of these Alabama and Arkansus

are, as these words are written, engaged in forming their state organisations. Before the presidential cam-paign of 1904 begins we shall undoubtedly have complete organizations in every state and territory of the Union, assuring the nomination of caudidates and the chance for every Secialist in he United States to record his will that this nation shall cease to be ruled in the interest of exploiters, that its affairs shall be administered for the common advantage of those who

create all its wealth.
Readers of The Worker, we call on each of you to join and help in building up this party organization, to do your share in carrying the knowledge of Socialist principles to all our fellow tollers and fellow sufferers, that our progress may grow ever more and more rapid until our legg continued efforts shall be crowned with final and complete victory—the Emancipation of Labor and the inauguration of the Cooperative Commonwealth.

LABOR MUST CAPTURE GOVERNMENT

The struggle of classes with each other has an economic object, but the form of this struggle must necessarily be political; for, between the material position to be amellorated and the acup like a barrier the power of the state which alone, whatever class controls it, can give a general and mantatory character to the results of the stru gle. The state makes the law, and it is only by placing oneself on the po-litical ground that one can succeed in participating in the law making. Hisory and reason agree in proving the truth of this thesis: the struggle of the "lower" classes is really effective only when it assumes a political character. -Gabriel Deville.

THE PURPOSE OF ARMIES.

But in reality the prime reason for all the armies of the world is that sol-diers and militia may turn their guns upon their unfortunate countrymen when the owners of the earth shall speak the word. And these unfortun-ate cauntrymen are the outcast and lespised, the meek and lowly ones of the world, tae men whose ceaseless toil and unpaid efforts have built the forts and molded the cannon and sus-tained the soldiers that are used to shoot them down. To say that these armies and frown

ing forts and gatting guns are needed to maintain peace and order is to ad-mit at once that the great mass of men are held captive by the more powerful few. Organized soldiers and police-men, courts and aberiffs, with guns and forts and jails, have the greatest advantage over the disorganized mass who cannot act together, and who know not which way to turn to keep outside the meshes of the law. Not one in a thousand need be trained to arms and authority to keep the un gastaed meas in the place reserved for it to live. The purpose of guns and ac-miss is to furnish the few an easy and sure way to control the mass.—Giar-

COMPETITION AND MONOPOLY.

A year or two ago the Democratic politicians were noisily declaiming against the trusts and demanding that they be "smashed." Just how it was to be done, not a man among their could say, but smashed the trusts must be. The Republican politicians were be. The Republican politicians were earnestly deciaring that there were no trusts and therefore it was impossible

to smash them.

To-day the Republicans are singing a different song. Yes, there are trusts, they say; the trusts are a good thing. a great blessing to our country, the chief bulwark of our prosperity; they must be "curbed"—and we, the great Republican politicians (who are inside the trusts and therefore know all about them) are just the fellows to

Equally has the Democratic cry been hanged. Under the intelage of Millionaire Hearst the Democratic oracles are all proclaiming as with one voice: We must distinguish between the criminal trusts and those which are simply legitimate business combina-

Malicious critics might suppose the Democratic rule for drawing this dis-tinction to be: All trusts whose directers are prominent Democratic politicians and which contribute equally to both old-party campaign funds are legitimate husiness combinations; trusts which discriminate in favor of the G. O. P. in the distribution of boodle are criminal trusts and must be extirpated—or made to "dig up." Of course this is a disingenuous view.

But what is a criminal trust? What is a good trust or legitimate business combination? Can anyone tell? The answer is plain enough: From the point of view of those who are inside or on top, all trusts are good; from the point of view of those who are outside or underneath, all trusts are bad. That is the only distinction that is worth aking.
What is a trust? What is monopoly?

What is a trust? What is monopoly?
How does it arise? Do you think it is
something unnatural, foreign to the
spirit of the competitive system, produced by the conspiracy of certain men to get special privileges?

It is nothing of the sort. The trust is the normal outgrowth of the capi-talist system. Monopoly is the natural and legitimate result of competition. Many of the trusts have been fostered, stimulated, hastened in their develop ment by special privileges—protective tariffs, land-grants, bountles, subsidies, and the like. But without such aid treets develop in free-trade England as well as in protectionist America. Special privilege is an accessory in, but not the cause of, the development of monopoly. Many of the tariff-nursed trusts have now reached the point where the repeal of all tariffs and other favorable legislation not only would not destroy them, but

would not injure them in the least.

Put a lot of pike, big and little, in a tank together. Leave them alone and watch them. The big and middlesized ones will cat the little ones and wax fat and prosperous. When the little ones are guns the big ones will ent the middle-sized, and the biggest will eat those not quite so big, and so on till there is only one eminently re-

That is free competition, brought down to its simplest terms. Competi-tion, in the very nature of things, demroys itself; running its normal course it produces monopoly. The freer and nore vigorous the competition, the coner does monopoly ensue. Look at the world of business. Each

competitor is trying to reduce his expenses, to get trade away from the others, in every way to extend his business. They cannot all succeed. The very word "competition" indicates that they are striving with each other, fighting each other. The success of some means the failure of others.

In this strife the competitor with the largest capital will have the advantage. He can introduce the best ma-chinery; he can buy his materials in larger quantities, thus getting them cheaper; he can employ more workers cheaper; he can employ make and so get a larger product from each the Trustified Empire and the Socialist through division of labor and system of the can fill orders chaice. more promptly; he can take better advantage of fluctuations in The market he can advertise more widely and ecure more trade.

The advantage so gained is cumulative. Larger capital gives larger profits; larger profits, in time, make possible a further increase of capital. As one by one the weakest competitors go down, the stronger ones smatch up their trade and so grow stronger still. All this, be it observed, is "legitimate." It is all according to the rules of the game. It is of the very essence of the profit system.

For further advantage some of the larger competitors may agree to cease competing, to unite their capital in a partnership, then in a stock company, then in larger and larger companie Nor is it only the stronger competitors who do this; for self-protection the weaker ones are forced to do the same thing. The man who obstinately holds out against the tendency, who insists on running his business independently on the small scale which alone he can afford, is doomed to fail. A conservative economist has formulated the rule "Where combination is possible, com-petition becomes impossible." This, too, is "legitimate." To deny

the legitimacy of the consolidation of individual capitals where such copsoli dation tends to economy of production would be to decree that the world should go back, not to the condition of twenty or fifty years age, but to the condition of five centuries ago at least. We need not say more in order to show that through the "legitimate" methods of competition alone, in every country where competition is in any degree free and industry is developing, terre is an irresistible tendency to the programming elimination of the smaller

PRICE 2 CENTS.

form or another. This is not to say that "illegitimate" methods-adulteration, discrimination, outright fraud, special legislation, and the rest-are not used. They are used on all sides. The small competitor must use them when he can, in the hope of saving himself—a vain hope, because the large competitor can use them more effectively and so preserve or even increase his "legitimate" ad-vantage. The use of "illegitimate" methods, then, may somewhat intensify the struggle and hasten its end But the end of the struggle, sooner of later, must be the same, whether "li-

or by some or by all. Concentration of the ownership of capital and the control of industry, then, is the goal toward which the laws of capitalism inevitably lead. The trust is not an accident. It is not a blunder. It is not a crime. It is the final term of capitalist progress. It is

legitimate" methods are used by none

the sure conclusion of capitalist logic, To try to curb or to destroy the trust while yet maintaining the capitalist system is to attempt to stop or to turn back the hands of the clock of history. It is to attempt what is probably impos sible and what is surely undestrable. The eyes of wisdom and courage are turned ever forward, in the direction of our present progress and beyond its rannot go back; and could we do so it would only be to lose time, to begin again and retravel the doubly wear; vad. The great leaders of the old parties

know this. They have no intention of smashing the trusts. They have no in-tention of curbing them. They know that scriously to attempt either course on capitalist lines would be to add the evils of panic and depression to the normal evils of capitalism.

They know, too, that there are no "good" trusts and "bad" trusts, but

that all are good for those who own them and had for those who do not. They know as well as well as any-

one that under capitalism there is no way out of trust-rule, which is simply capitalist class rule in its most perfect But they dare not face these truths

which they know. Their guiding maxim is that of old Louis XV—"After us, the deluge?" They will equivocate and temporize, make a feint of bowing to the popular will when the popular will is wrong and raise false distinc-tions to obscure the real issue when popular opinion begins to be right—all this they will do as long as they cau, in the hope that, as that same foolish Bourbon said, "The rickety old ma-chine will last out our time."

As long as they can—but that will not

now be long. The deeds of the trusts give clearer and more convincing les-sons in truth than the words of their political agents can give in error. And the workers are learning.

They are learning that it is not the concentration of private ownership that is bad, but private ownership itself; not the trust alone, but capital-ism that must be repudiated,

More than a quarter of a million have already declared at the ballot-box that the trusts are not to be curbed, not to be smashed, but are to be made into a public trust; that they who now serve the trusts and pile up profits for them shall become the collective own-ers and masters of the things where-with they work and of the wealth that they create. More than quarter of a million so declared last fall. Probably as many more are already wishing they had joined in that declaration. Everyone who reads or thinks at all has by this time at least begun to grasp the idea. The leaven is working and neither Republican evasion nor Democratic sophistry can prevent if from going on.

The time is here to choose between the Trustified Empire and the Socialist

THE PREJUDICED PIG. John E. Ellam, the English Socialisi

story: "The other day I was in a farm yard where three men were try-ing to persuade a pig to leave a filthy, miserable sty, with no food in the trough, and go into another containing nice clean straw, dry and warm, with a trough filled with savory swill. After a long period of unsucceasful pushing and hauling, and after it had broken away and headed back into its dirty old quarters, they had to siene it bodily and it was carried struggling, shricking and protesting, from misery to luxury. It had to be forced into better circumstances. I thought there was a lot of human nature in that swine-a lot of working-class human nature at any rate!"

How like that blind pig is the work. ingman with the capitalistic mind who prefers the poverty and misery of present conditions to the peace and plenty that lies ahead under Social-ism, as soon as the workers will it!

SOCIALISTS ARRESTED.

Outdoor Agitation -- Salvation Army

OMAHA, Neb., April 25 .- The 80 dalists have been having a bot time in Omaha this past week. Eleven of them have enjoyed the exhibitating ex-perience of being arrested for daring to speak upon certain street corners and for four nights the police have been kept busy calling the patrol wagen to take "desperadors" to the local bustle. The exact reason for this display of ties is not quite clear, although the Boctalists are reliably informed that it arises from a desire on the part of the present Mayor to fix the resulting blame upon the Board of Police Commisioners, which is under the control of an opposition candidate for Mayor. A sham fight is going on among three

FOR THE DAILY

SOCIALIST PROGRESS IN THE UNITED STATES.

Fifteen Years of Hard Work and the Good Fruit that It Has Borne.

Growth of the Vote from Two Thousand in 1888 to Over Two Hundrod and Eighty Thousand in 1902-Socialist Victories in Recent Local Elections, East and West, Forecast Still More Rapid Growth and Speedy Triumph.

The Socialist movement on the defin-tative political field in the United States of which were in Massachusetts. itely political field in the United States may be counted as beginning in 1888, when the Socialist Labor Party, after a hard but instructive experience o conlition with other more or less sympathetic political elements, put a etralight ticket in the field in the New York municipal election of 1888 and decided benceforth to conduct its eampaigus independently of all "re form" or "labor parties," at whatever cost or risk. The vote cast was bu 2,068. Few of the supporters of capiculiam new any significance in the great. Those who noticed it at all faughed at the smallness of the vote, assuming that independent political action would provide a harmless outle energies of the few "cranks meither economic masters are indus-trial slaves, and that it would never grow to proportions that could cause them any alarm. The most of the capt-slist rollicions. talist politicians were, in fact, fa more seriously troubled about the agrarian and "reform" tendencies in the political field which were then taking shape and which, in the few years following erystallized into the Popu list movement. Because this move-ment was less radical, more "practical," enpuble of appealing more directly to the minds trained under the influences of capitalism, both its friends and its essenties predicted that it would have a vanily greater power of growth that rundiding Socialism. took the experience of several years to disabuse the minds both of the supporters of capitalism and of its hasty and superficial critics of this mistaken

Years of Patient Work.

The Socialists, however, remember-ing that all great things have small beglunings, that it is the quality and not the size of the need that counts for future growth, understanding the economic principles underlying politi cal institutions and tendencies, couft tent that the development of capital-fum itself, the conduct of capital-politicions in office, and the disapreform parties would unite in supply ret new arguments for Socialism, on calmly and enthusiastically

For neveral years, however, it was

enly with the greatest difficulty that the advocates of thorough-going Socinium were able to gain a hearing from the victims of capitalian. Dis-content was growing rapidly and men everywhere were beginning to think for themselves on economic and political questions. But at first, as was to be expected, their thinking was meither deep nor accurate and the very magnitude of the movement of discontent raised fal-incious hopes of easy victory, or, at least, of some immediate relief. They had to make their own experience of the inefficacy of superficial reform tres, of the luherent weakness of a negative and destructive movement such as Populism. As that movement reached the climax of its growth, in the years 18 2:04, its lack of sound and positive principle began to have their effect in producing compromise and faction. The hope of victory through the Bryanite fusion kept up. of its enthusiasm through independent movement and to leave the field relatively clear for those who were prepared not only to criticize ex-isting conditions but also, through an understanding of the principles of capitalism, to do solid constructive ork, to build deep and strong the

Through these years the Socialist movement resisted every temptation to fine or trade for temporary political advantage. Its adherents braved the accusation that they were dividing the forces opposed to capitalism and stendilly though slowly advanced on the straight and narrow path indicated by Socialist principles. In the state and congressional elections of 1890 the party's vote rose to 13,331. In the mational election of 1902 it had electoral tickets in six Eastern states and polled 21,157 votes. In 1804 it began to in-vade the political field of the Middle West and counted 83,133 adherents at the ballot-box. In 1806, in spite of the clamor of Bryanite enthusiasm that almost drowned the voice of calm argument, this figure was raised to 36,564, with twenty states represented.

Turning of the Tide.

Then, with the disappointment and islitusionment of those who had hoped for a short cut to economic freedom or who had been carried away by here-weeship, came a great opportun-ity for the advocates of Socialism to point out to willing listeners the false starts that had been made and to raily the best elements of the brokes tions of 1908 showed that the party

Menawhile, partly as an independent and parallel inovenient arising out of similar cusses, partly as a result of similar cusses, partly as a result of mistakes of policy that the S. L. P. had made, a new Socialist party had come into existence. The Social Democratic Party was organized at Chicago in 1807 by the more pro-gressive and aggressive wing of the co-operative movement that had spersitive movement that had WOHKES—TEN 200 seventium to since the great ruliway the of 1894. This party, in addition many new recents, chiefly in the mast wis, attracted many in the mast wis, attracted many in the mast wis, a con-reason or another, were diseasted with the E E. P., and in 1886 it grown up since the great railway atrike of 1894. This party, is addition to many new recruits, chiefly in the the line, attracted many in the lines wise, for one recommend on the lines wise,

Not Checked by Discord.

The next three years, 1809-1901, naw a great split in the S. L. P. and the union of the larger wing with the S. D. P. under the name texcept in New Party.

The opponents of Socialism greatly rejoiced over the dissensions of 1800 and predicted that the Socialist move-ment had come to the beginning of the read. Time proved that they laughed too soon. In spite of most streamous internal controversies, the work of So civilist propaganda was not neglected nor did the capitalist system and the capitalist class cease to furnish argu-

ments for our cause.

When the presidential contest of 1900 came to an end the count showed that the united Socialist Party had recovied 97,730 votes, while 33,450 had been cast for the S. L. P., which, since the split and reorganization referred to, has taken a secondary place.

Two more years passed by, years not devoid of difficulties, internal and external, for the movement, and again came a chance to test our strength on a national scale. Taking the most conservative of official figures, counting only the lower figure where a part of our candidates ran much shead of or behind-the ticket in any state or distriet, the election of 1902 gave the Socialist Party 229,702 votes, while the 8. I. P. cisims 53,763.

Our Latest Record.

The increase of the rote of the So-cialist Party in the two years ending with November, 1902, is shown in the following table:

(In Arizona, Idaho, and Wyoming we entered the political field for the first time in 1902. In the eight states marked with a star we had no chance to test our strength in 1902, and the vote cast for our national ticket in 1900 is therefore carried forward for

Totals 97,730 229,762

the latter year.)
At local elections held since last

November our progress has continued at an even greater ratio.

Massachuseits city elections are held in December. In 1901 the Socialist Party had tickets in fifteen cities and polled 7,381 for them. In December, 1901, these cities gave our nunicipal candidates 11,729 votes and we had tickets in four more cities, with 1,283

March brought the town election is the same state. In ten of the principal towns where the Socialist Party had candidates, towns which had given us 1,622 votes in November, we had 21,132 in March. The Pennsylvania town elections in the same month brought us almost equally inspiring re

During the month of April city and other local elections have been held it many states from Connecticut to Mon tana and Colorado. In almost every case the vote of the Socialist Party has increased well, in some cases enormously, over that of November, and a large addition has been made to the list of Socialist victories at the

Victories at the Polls.

Following is a list, probably not quite complete, of the public offices new filled by representatives of the So-cialist Party, mostly within the last

In Massachusetts we have thr members of the Legislature—James F Carey of Haverbill, Frederick O. Mac Cartney of Rockland, and Wallace C. Ransden of Brockton; the third seat was first captured last fail.

In Haverhill, Mann, we have the Mayor, two Councilmen, a School Committeemen, and an Andatant Assessor. In Brockton, Mann, we have the Mayor, three Aldermen, eight Councilmen, and two School Committeemen. In Chicopee, Mann, we have an Alderman.

erman. In Amesbury, Stoughton, and other

Monkey-Ten

per of town officers, mostly in the field

ber of town officers, mostly in the field of last summer's coal strike.

In Indiana we have one Councilmen at Marion and one at Linton.

In Illionols we have within the last month begun what promises to be a brilliant record of victories, electing our sendidate for Aiderman from the Pullman ward of Chicago.

In Michigan we made our first victories in the spring of 1902, electing two Aidermen in Battle Creek. In the fall we elected one in Saginaw, and this spring we have brought the number of Socialist Aidermen at Battle Creek up, to four, and, according to latest reports elected also the Mayor and some Aidermen at Escanabe.

Wiscensin also recorded one victory a year ago, the election of an Aiderman at Sheboygan. At this spring's election the Socialist Party swept the city, electing Mayor, Treasurer, City Attorney, and Assesser, four Aidermen, and several other city officers.

In Auarin, Minn., we have an Aiderman, elected in March.

In Rooma In we have a Conneil.

nan, elected in March.
In Boose, Is., we have a Councilman, elected within the last month.

luride last month. Montans, finally, has contributed to the list of victories of the present spring. The Socialist Party has there carried the city of Anaconda, electing rying the city by only 400 votes out of 9,500 and succeeded in electing one Alderman. In Red Lodge, three out of the five Aldermen chosen are Social-

elected to office within the last year where before that time we had no more than about a dozen in all, is sig-nificant, not so much for what these officials can themselves accomplish as for the augury of far more important successes to be expected in the very near future.

As will be observed, the strength of

the Socialist Party is becoming more the socialist larry is decembed more evenly distributed over the country— while it is advancing in the old strong-holds, the movement in the newer fields is rapidly entching up. In nonof the cities named has the Socialist Party complete control, as yet, of the local administration; in most cases our representatives are in a small minor ity. Moreover, the power of local offi-cials is so strictly limited by general laws that even a completely Socialist city administration would be greatly beingered in the carrying out of its program so long as the national and state governments remain in capitalist when in minority, is that they will act as fearless spokeamen for the working class against the corrupt politthat new hold sway, and that they will light for and, when in majority, carry into effect such partial measures to ameliorate the lot of the workers as the limited powers of local administra-tions will permit. This they have done and are doing in a way that assures us that our party can command the confidence of the working-class voters

victories, however, is in the promise they give of greater victories to come. Where we are electing Mayors and Aldernien to-day we shall be invading Legislatures to-morrow and Congress the day after. The time is past when the Socialist movement could be sneered down because of its workness The advances it has made, deeply as they disquiet the capitalists, give it proportionately greater prestige among the workers, increase their confidence in its representatives and their willingonsider its principles and de

TO-DAY AND TO-MORROW. High hopes that burned like stars

And true hearts perish in the time We bitterliest need them; But never sit we down and say There's nothing left but sorrow:

Our birds of song are slient now; Few are the flowers blooming; Yet life is in the frozen bough, And Freedom's Spring is coming; And Freedom's tide creeps up alway,

Shall foot again to-morrow.

Through all the long dark night of

years
The l'eople's cry ascendeth, And earth is wet with blood and tears But our meek sufferance endeth. The few shall not forever sway, The many meil in serrow; The Powers of Hell are strong to-day, Our Kingdom comes to-morrow.

Though hearts brood o'er the Past, ou With smiling Potures glisten:

For lef our day bursts up the skies, Lean out your souls and listen. The world is rolling Freedom's way And ripening with her sorrow; Take heart: who bear the Cross to-day

With energies immortal; To many a heaven of desire
Our wrestling opes the portal;
And though Age wearles by the way
And hearts break in the farrow,
Youth sows the gelden grain to day;
The larvest trees to begin to day;

Ready to fash out at God's call.

fler Be singly born in Serrow; And 'On the martyriom' to And 'the the martyrdom' to-day Brings victory to-morrow. —Gerald Mixeey'.

THE SPIRIT OF MAY.

By Eugene V. Debs.

part of the earth celebrate May Day. It is nature's awakening after slumber -it has the breath of spring, the voice of resurrection.

The trees and fields are arrayed in emerald beauty; the wild flowers are blooming, the brooks are laughing and the birds are singing. The Ice King has retreated to his arctic domains. The skies, in cerulean glory, are bend-ing above us; the facety clouds are sailing like awana in axure seas; hill and vale, field and forest, all invite us to enjoy their wealth of charm and fregrance. The morning is blooming, the air is lader with delicious odors and the dew is beeningling herb and flower and tree.

With deft and fairy fingers May

decorates all the landscapes, the way-side nooks, the secluded delts and the babbling brooks as they laugh and sing and dance their way to the sea. But there are millions, alas, who will

Many millions of people in every ! flowers bloom and the birds sing for them, but they will not enjoy them be-cause poverty hedges them in and their taskmasters held them fast in bend-

> Between the shop and the tenemen house is a continuous funeral march and the hearts of the weary workers beat like muffled drams.

The spirit of May Day is radical and refreshing. It is the day of prole-terian aspiration and inspiration. It breathes of revolution, the passing away of old things and the ushering in of the new, the beautiful and true. For this day we are indebted to no

patronizing master, no freak of legis lative charity. This is OUR DAY-the day of the working class, and we drink deeply at the sparkling fountain and gird ourselves afresh for the coming

climax of the great struggle.

Be this my May Day sentiment: On-ward, comrades. East and West and not go a-Maying. They will not gather Rorth and South, until the gost is wild flowers, nor hear one note of all the ravishing melodies of nature. The ciaims freedom to all mankind!

THE MOVEMENT IN NEW JERSEY.

By State Secretary H. R. Kearns.

us an article, both retrospective and prospective, on the Socialist movement in your state," but hard of accomplishment if the task is required of one whose mind runneth not back beyond the Unity Convention. I have been in some degree cognizant of Socialist af-fairs and was interested in the work prior to that time, and was industrious in a small way locally in doing propagands work, but did not get in touch with those who were shaping affairs in the state until after my introduction to the revolutionists who gathered monthly in county committee meeting at 324 Central avenue, Jersey Cty, some few months subsequent to the convention hereinbefore mentioned. To set at rest the mind of the reader who may judge from the foregoing that I am of recent acquisition and that honors are unthinkingly bestowed in New Jersey I will say that though identified with the Socialist Party but a few years, I hood. I cannot recell the time when I did not unhesitatingly stand beside and in defence of the despoiled, and baving served a long novitiate of privation and imprisonment for the prinvation and imprisonment for the principles which finally led me into the organization. I feel that I have fairly earned my spurs, am entitled to the proud distinction of Socialist and a place in the ranks of the advance guard, now that in so many parts of

the country victory is perching on the standard of the proletarian and the abolition of wage-slavery and the complete emonomic freedom of the race

During the transition period, that sturdy, big-hearted, self-sacrificing German, Comrade J. P. Wiegel, held the State Secretaryship and under the direction of State Chairman G. H. Simobel most effectively surved the party, not only as Secretary, but as

While Comrades Strobel, Wiesel, Gilllar, Rubinow, Margaret Goebel (who acreceded Wiegel as State Secretary), Geo. H. Goebel, and others of the IRwere then unknown to me-who frequented the meeting place of the Freg-ress Club on Market street in Newark, was sown which graw for a while and gave promise of vigorous life and abundant fruitage, but which event-ually withered and died for lack of

SOCIALISM IN THE ROCKIES.

By P. J. Gooney

The rapid rise of the Socialist, was a little hesitation at first among movement in the West has led to con-niderable speculation among the East-ern comrades as to the nature of the movement and the conditions it has tend with.

Much as we realise that any move-Much as we remine that any movement co-operative in its nature is futile and ridiculous under capitalist conditions, it is yet a fact that the origin of the Socialist movement in the West dates back to the co-operative movement of 1800-07—the Brotherhood of the Co-operative Commonwealth. During those years branches of this organization were established in al-most every town west of the Missisi. Money was raised, land pur-sed in the State of Washington, and many unwise but enthusiastic ones journeyed to the promised land on the shores of Puget Sound by rail

and emigrant wagon.

The efforts of the B. C. C., however, were not confined to the colorization plan alone. They distributed Socialist papers and literature; better still, they rend it themselves. They were not rend it themselves. They were not long in finding out that in all their efforts at colonisation they were pur-

when the so-called "Debs Social Democratic Party" was formed at the convention in Chicago and the colonization scheme thrown overboard, the rank and file of the B. C. C. hailed the rank and the colonization scheme thrown overboard, the rank and file of the B. C. C. hailed the result with gladness, and the branches of the old organization became locals of the new political party. It was then occurred the labor trou-

bles in Colorado and the strocities of the Cour d'Alènes, and these did much to make the Western Socialists realize not only the existence but the intensity of the class struggle. And so in 1808 in spite of the internal dis-sensions in the party, and though the themselves were more utopian than revolutionary, the Socialists of the Rocky Mountain states fought their first political battle, taking and keep-ing an absolutely uncompromising

Meanwhile the progress of Socialist sentiment in the trade unions had been steady and rapid. Thanks to the ef-forts of the Socialists in the unions, forts of the Socialists in the unions the organizations that had withdrawn from the Knights of Labor and the American Federation of Labor, form-ing the Western Federation of Miners and the Western Labor Union, cut out the clauses from their constitutions forbidding political discussion in the unions. From then on the growth of ists. Comrades living in each district covered that district, distributing thousands of Socialist papers at the doors and in the mail-boxes. They were found at the door in the morning with the daily paper. Unions were induced to subscribe for large bundles of Socialist papers, which every week were distributed by the comrades in the unions. Socialist ad es were made under the head of "good and welfare." When the Mon-tana State Trades and Labor Council, at the suggestion of the Socialists in that body, declared in vague terms for "independent working-class political action" and appointed a committee to purchase literature for distribution, it was felt that another step forward

The final result of these years of hard, continuous, persistent "boring from within" was seen when in May 2002, the Western Labor Union (now the American Labor Union and the Avestern Federation of Miners de-chared in most unequivocal terms for international revolutionary Socialism and the Socialist Party of America. More than that, realizing that there were many in the ranks of both organizations that did not as yet see the necessity for such a step, the W. F. of M. established the "Miners Maga-zine," and the A. L. U. the "American Labor Union Journal," both of them official papers, sent to the home address of every member of the organi nation, and both absolutely and un gation, and ooth absolutely and un-qualifically Socialist in their policy. Another important step was taken— namely, to set aside a certain portion of their revenue for the purpose of purchasing and distributing Socialist

half yet there is another transfer to halfs just as important, for the growth of the Socialist movement in the West, and that is in the very character of the Western worker. The old ploneer spirit that drove the first settlers across the Alleghenies, down the Ohio, across the prairies of Kausas and Ne-braska—the hardy, adventurous, fearers-that spirit has for the last compers—that spirit has for the last fifty years been driven west by the oncoming tide of capitalist conditions. Everywhere it has been pursued by the spectres of the factory and the slum, and to-day that same old ploneer spirit is standing at bay in the mining cities of the West, ready to do battle with its old onemy.

As John C. Chase very well said, the people of the west "are social rebels at heart." During all the years of our nor the contented who went fused to submit to had conditions; and this seine process of natural selection has given to the Western worker a temperament and disposition entirely unlike that of the Eastern worker The Western stranger in New York or any large Eastern city is at once im-pressed by what seems to him the downhearted, dispirited, hopeless, al-most heartbroken look of the average Eastern wage earner,

To and W. F. of M. was followed hat year by unparalleled activity in So-cialist circles. Chase, Mills, the Wil-son brothers, Debs, and Father Mc-Grady, toured the West, speaking to thousands and arousing the most in-

The Socialist Party nearly everyhad opened their campaigns with, "No fusion, no compremise," as their battle cry. The "No fusion" policy aroused the mirth of the capitalist politicians, but they are certainly through laughing by this time. There

the various local unions composing the A. F. of M. and the A. L. U. here and there. In 1808 and in 1900 they had gone off at a tangent and directly or indirectly supported various fake labor parties or capitalistic candidates; but in 1902 they supported, officially at least, the Socialist tickets, and in the spring elections of this year the same unions that in 1990 were voting money into the campaign funds of the old parties opened their strong boxes and gave thousands of dollars to swell the campaign fund of the Socialist

The result is seen in the city elec-tions in Montana and Colorado to-day, where the Democrats and Republicans are combining against us and getting whipped for their pains. In the Rockies the Socialist Party is

an American political party. It is an American movement without losing any of ita international character. It accommodates its tactics to the political methods of American parties, is so far as it can and remain clean, and there are many ways in which it can, It has passed the stage (if it ever had that stage) where it was a mutual admiration society giving erudite, philosophic long-winded discourses in scantily filled balls. It adopts Amerlean tactics, bonfires, bands, placards on the walls; candidates mane personal cards, appeal to their personal friends for support. They fight to win if they for support. They fight to win if they can; if they cannot win this time, they fight so as to win next time. best argument for the Socialist Party is the record of Socialists in office."
was heard from the platforms last fail and the names of Carry and McCartney were received with rounds of party, but the immediate demands of the various state and county conven tions receive their due share of atten Above all, it is a working-class deriving its funds from the workingmen, and appealing to them directly from the class standpoint,

"Some of you fellows don't know much about Socialism." remarked an Eastern Socialist to a Colorado mis "Don't we? P'raps not, but we can learn; and we know a deuce of a lot about capitalists and capitalism. know how these fellows got their mines and their money. We saw them doing it." And this just about expresses the mental attitude of the Western workers who are now coming

novement.

Not much stock is taken in the West in the "catastrophic" theory of the broke," said a Montana amelterman.

In its vigor, its earnestness, its en thusiasm, its faith in itself, in the working class, and in the speedy com ing of Socialism, in its uncompromis-ing determination to take the public powers from the hands of the "other fellow" to protect itself, in its political tactics, the Western movement leaves nothing to be desired.

What it needs, and what the future will bring to it, is clearer economic knowledge, more thorough and wide-spread organization, a greater develop-ment of the social and fraternal spirit. the spirit of comradeship, that should make the Socialist Party different from any other political movement. Much has been done in these lines during the past year, but much yet remains to be done-and it will be

There need be no fear of the retro gression of the movement in the West. It may make mistakes. It has done so, in some cases. But those mistakes have not been wounds but lessons. It may meet with defeats, as the Haverhill movement did, but only to rise again with renewed courage. The logic of events that makes of the rorker who is the sentimental Socialist of to-day the revolutionary Socialand the State trade councils, and above all, the independent spirit of the mountaineer will beyond a doubt in the next election carry some of its nominees into the state legislatures and probably into the balls of Con-

CAPITALIST "ABILITY."

President Parry of the Manufacis Labor, Capital and Ability that must share the results of production. Capital, of course, is the machinery of production; but everybody knows that it is the product of Labor, and the Socialists know that it belongs to Labor. But the new idea is that labor is not ability; that skill in production, either in operation or management, is not connected with ability

connected with ability.

Labor is labor, and ability is—well, ability to skin the workers as long as the workers have not the ability to relast being skinned; and as long as the skinned are so patriotically defended in their "constitutional rights" to stand separately, it is safe to say that the ability to lock stocks and bonds in the safe and go fishing will continue to take its three-fourths of Labor's hard-earned product.—Edwar B. Helfenstein in Los Angeles Socialist.

TWO NEW PAMPHLETS.

The latest number of the Socialist Library is a little pamphlet of pocket size, containing three articles re-printed from The-Worker-"The Socialist View of the Waterbury Strike," by Algernon Lee; "Real Race Suicide," by Courtenay Lemon; and "The in-centive," by J. W. Brown. Price, post-paid, 2 cants; a copy; one hundred

copies for 75 cents.

"Wie wird man ein Bürger" is a German pamphiet, giving instructions for gaming citizenship in the United

THE RIGHT OF REVOLUTION.

By Peter E. Burrowes.

The human race has become too respectable to do very much longer without the decent government of Socialism. To be ruled by commercial
who has made, and secretly shuddered
over, the discovery that he is without
now the rule of the commercial
over, the discovery that he is without blacklegs or any less odious gamblers is no longer good enough for mankind, which, like the automobility itself, de-sires to move socially on something more manageable than the commercial politician's crime of chance which now controls the affairs of our country. The sources of this human respect-

ability which now calls aloud for So-

First, a social law that has grown from human individual experience, which grows with the growth and strengthens with the strength of hu-man intercourse—the law of social gravitation, a law which, in spite of with stolen property, are seeking to destroy, because, they say, it is unconsti-

Second, the conscience that has, in spite of the general blacksildings of theology, grown up, half blind truly, in the churches; but still with eyes to see socially. For in all the creeds of munity-thinking, community conscient the churches the proto-cells of Social-lim were ever present. The doctrine of personal depravity, if the saints had only accepted it, would long ago have led to collectivism . But though it has failed to prepare the wealthy sinners for the new humanity, it has, conjointly with the oppressions of capi-talism, prepared some of the middle class and the working class for the

with life. The death by atrophy, by which unvitalized waste and isolate parts of an organism perish, has seized pon capitalism. The private owner on no longer rule the labor of the world. Half of the race's corrgies are mis directed from the common life. In-dividualism ruling over the vast decloments of the twentieth century is another word for atrophy. Either apitalism or the race must dis; and t will not be the race.

Fourth, the universal spirit is more interested in the salvation of humanity as a race than in the salvation of him here and there, as a private character or a property aristocrat—therefore, So-cialism must come. Fifth, every evil carries within it

that measure of protest and strong re-quirement which amounts to exactly what the evil amounts to and a little more. Thus it is that moral progress has as big a share in involution as the wings of hirds or the trunks of ele-

phants in evolution.

The law by which mankind adjusts simpelf to the eternal decree that humanity shall live together is called ethics, consisting of Ego's daily at-tempts at accommodating himself to his social environments—that is, to the needs and wishes of the men around him, "Do unto others as you would that others should do unto you" is the Darwinism of this involution of Ego out of himself to human immunental-

Sixth, education. I do not, of course mean that process of injection, called education, practised in the public schools, in spite of which (thank God) the people of America have still some intelligence and sense of manly democ racy, though not much. I mean the in duction by experience, chiefly by fullure; the inductive education received in the halls of the trade unions, in the strikes, and from the manifest will and power of the press to deceive the common people and to frown on them in all their life, but their slavery.

Seventh, the apalling discovery made by Karl Marx that wagery implies slavery, that the surplus product which is expressed in the wealth of the world arises from the ability given to the capitalist by the toolless condi-tion of the users of the age's economic tools to compel all labor to remain producing so many hours every day beyond the moment when labor has given its equivalent of value for its wages. The discovery that by improved machinery the quantity of this surplus must be vasily increased for produc-tion, though yet the hours of toil are not reduced. Nay, more: The machine has become more specialized as well as turers' Association has discovered a new factor in production that will be a surprise to the economists. It used to be Land, Labor and Capital; now it this growing intensity the number of laborurs required is also diminished, thus making the home distress outside the factory greater up to the degree of a national tragedy. Nay, more: The very price of the day's labor is also diminished, in spite of increased pro-ductiveness and diminished producers. Nay, more: The children and women are set to undersell the fathers and are crucified. Nay, more: The cheapest of the worst, the saddest of the poorest of the race are by economic law the makers of the standard of wages. Nay.

Eighth, capitalism, therefore, supplies its own destroyer in this wage-slave class, which it has so deeply hurt. The social conscience of the race sup-plies the slave also with allies who will help him because he is right, even to their own hurt.

It is the working class, and no other that must supply the motive and the men for initiating revolution. And if, in the course of ages, the physical workers when in possession of state powers, should produce some other ciass, standing to them as they now stand to capitalism—the deficient to the surplus—it will be that new class of lackers which shall supply the next revolutionary energy required to over-throw the industrial state. It is not the happiness, it is not the content, but it is the misery of the world that revolts

It is the right and mission of the wronged to get right. It is from the morally empty that the first movement towards moral conditions must come, and woe to that age, and woe to that nation, which depends for moral initia-tive upon those that are conscious only

moral principles, and that he is a man whom, as far as he himself knows and believes, no other man in a real emerg-ency should trust. When a thinker so deems himself, he will not stand in the way of social involution, he will not obstruct the community conscience for the social will, he will gladly seek something bigger and better than binself; especially when he finds out, al amtely every man on earth is just of the same moral weight as himself-that is, no weight at all, only in his temporary relation to his moral center of human social gravity. It is to the poof, all the fiends of history (heroes, most-ly), has patiently followed the sword of the aristocrat anarchist, and built we must look for revolutionary and and rebuilt and restored faster than mern] energy. It is simply out of and reduit and restored faster tunn he could ever pull down, until at last in America it gives us the present attempt of poor suffering humanity to found a democracy, which here, as in all the past, the individualists, armed social organism, knows nothing of organism, knows nothing of organism. social organism, knows solbing of ode evil or our good that I can tell. He only receives into bimself the net product of our struggle—its net in trend, habit, in flavor, in attar—and gives

> Wrongful or questionable actions are more likely to be promptly corrected and the doer called down, than wrong ful thoughts. Let us, therefore, preagainst serious social errors in action. The natural desire to please will always induce us to do better than we think, because our doing at once comes in sight. Let us do well and so cultitations set upon our ability to do well by the inequities of society. Let "as draw up the sap to this waiting bud of active humane sociology, waiting to break through out of mere impression tsm and passive evolution into the power of giring out our long gettings to all around, into the liberty of the

munity-thinking, community consciends and community habitarianism. And

broad, vast range of democratic doing, The doers of the world, the class that never acquired the habit of laying back, the class whose characteristic necessity was the industrial habit, and whose characteristic fitness for the new revolution is, therefore, its habitual activity, the class whose present need and enforced training on the fields and in the workshops of the world has assigned to it the historic mission of being the world's positive by long and sad negation, and, therefore, its active energy, the world's perpetually neces sary class, and, therefore, its true reresentative class, the class alone has acquired the babit of the world's necessary deeds, and which alone has acquired the habit of doing the world's necessary deeds, and which no new society can dispense with, the class upon phose destiny the weal of all men hangs, the class whose eteration right is Revolution

A PROLETARIAN HYMN.

By Thes. Saenger.

The hour has come. Ho, comrades

raily! The morn of Freedom's day is nigh, Let vile poltroons with tyrants daily.

And hireling priests our cause decry!

And hireling priests our cause decry! Long have we crouched before oppres

And kissed the hand that forged our chains, While treason vaunts and plunder

reigns,
And liberty from earth is banished,

Chorus: Arise, arise ye braves! Unite, unite ye slaves! March on, march on, All hearts resolved On liberty or death!

Behold the vulture's brood embattled. Where martial drums of freedom rat

Men sell their nation's blood for gain And shall the sons of martyrs bear it To see the prize so dearly bought By coward venders put to naught, And liberty to knaves surrender?

Throng forth, ye tollers, day is breaking!
Shall idle lordlings you enthrali? The throne of tyranny is quaking At Freedom's glorious bugie-call! At Freedom's glorious bugie-call!

Before its blast files the usurper Of powers built by Labor's might, When man demands his native right! 1 And toil and joy once more are

Come, beat the drums once more, bys Nor heed foul treach'ry's shrewd &4

coy,
And bid your children, wives, and

mothers

All hall the reign of Thrift and Jappe
All hall the reign of Thrift and Jappe
The powers of nature by your conquent
Subdued, must serve at your case.

And Freedom reign from stranduke

While industry unites the nations. Though lords would lash us to adere, And let the voice of our alliance. Holl on like mighty thunder's roar!

Roll on like mighty thunder's rear No more, as serfs, shall despots spoil Who build their thrones en azulant And scoff when famished Labor pleasa.

Brottl The voice of ages calls you!

SAID THE MASTER OF MEN.

By Horace Traubel.

Said the Master of Men:

"Keep off the earth. Keep out of the air. Do not swim in the water. Did you suppose the harvests of the field were yours? Did you suppos that the air was intended for you to a licentious imagination. What do you suppose I have fenced in the earth for? Why do you suppose I charge you a solld rate for the opportunity to live? Do you believe that you have some rights to life which the air, the water, the field, in spite of me, are bound to respect? You do not count up your twee and threes. I am a tollgate and you are my toll. I am the gatekeeper of heaven and you must pay me to get in. I am the portal to all the vista of time. Through me you eat, drink and make merry. If you deny me you starve, you thirst, you mourn. But for me life would not live. But for me the earth would be a desert. Uselean, am I? you go to school? Sixty generations of children have been taught my gospel. As many generations of grown up men and women have suffered and starved to prove me true I am the taxrate and the tax. Ideas may be true. Dreams may be true. You may have a Hebrew or another Bible that is true. But nothing is so true as my ounipresent assessment. I drain the clouds dry. I take from the earth till its last biesson wits. I take from the beart of man till its last hope is lost. What could so much prove me true as the length of my arm? That arm will reach its paim into any pocket, into any estate, into any heart. And when it is withdrawn nothing is left. I live by several names. But these names rightly spelled spell one name. By some I am called rent. By some I am called interest. By some I am called profit. But I am neither ashamed nor proud of any name. As long as I can ac vate the habit of thinking well. Let us complish my object I am willing to learn to please by doing, and then we accept any name and equally willing will begin to chafe because of the limitous without a name. When it suits to go without a name. When it sults my convenience I call myself rent. But the people who are robbed by interest would not like me to call inter est rent. So I call interest interest And the people I rub by profit are just as sensitive as the people I rob by rent and interest. They do not mind being robbed. They rob themselves when they get a chance. But they prefer to be robbed in the right way. They like to be robbed gracefully and according to the code. So I have to be perm tually on my guard. For as long as I rob right 'I am called shrewd and envied by my victims, who are my fel-low robbers. But if I mix my stymology, a mob of professors is instantly at my heels threatening my incre-ments. To show you how popular I am with the people I need only remind you of history. The people do not make the laws. But they make the awmakers. And they always make the sort of lawmakers who protect me in the laws. The people do not own the factories and the stores. But they permit the men who do hold the titles

was light of the first and the care that my berth shall be cheerily fattened. And so ea. Now, if the people did not mean me to be just what I am the people would retuse to make it possible for me to live just as I de. The people are very good. They pro-for me before they provide for th selves. They take care that I have enough to eat even while they starve. And enough to wear and to cover my bed with even when they are cold. I get my dues whatever happens. To sometimes see the people is trouble. They seem to be worrying over something. You may imagine that they have children at home who may no have enough to eat. Or agitating af-fairs of some other nature. That is a poor guess. Their grief is all about me. They are afraid they may not be able to do justice to me. They have no money and no work. They ask themselves: What will interest, rent, profit do to get along if I have no money and no work? Think of me go ing to the poorhouse. So they wander wearily about the streets grieving for me. And sometimes they get despond-ent and jump into the river or blow would not like any hurt to come to me. For if anything was to happen to disable me the country would go to smash. The farmers all farm their farms for me. Every spindle in every factory spindles for me. Every shoe at Lynn shoes for me. The stores are conducted for me. The railroads rea in furtherance of my estate. The people are well aware of this. They are my stubborn friends. When my integrity is threatened by some minority of the people themselves I do not need to lift a hand in my own defense The people do all the defending for me. They are only too glad to demon strate their loyalty. When rebellion rebels I just hold my peace and my usufruct and smile. Thousands of people will die in order that I may live. The clay of this world may red den with carnage. But none of my blood is drawn. When the battle is ever I reappear and receive the homage that attaches to my sacred prerogative. I who am interest. I who am rent. I who am profit. But for me the political stare, the lord of the land, the lord of the money, the lord of the tool, could not live over a single night. I sit on every hearth-stone and wait. I am in at every birth. I am in at every death. My decalogue fixes the social seasons. No one can dodge or postpone me. No one can order life with me left out. You might leave out God. But you could not leave out me. I am never preniature and I never quit: In all the exigencies of your career, from the cradied start to the coffined finish, I fix the terms of settlement. I am life to you when you surrender and death to you when you revolt. I who am rent. I who am interest. I who am That is what the Master of Men

to the factories and the stores. And they always permit the sort of men who first of all take care that my

GOVERNMENTAL INBECILITY.

By Carl Pankopf.

The commission appointed by Presi dent Roosevelt to investigate the griev-ances of the miners and mine owners has finally reported, and in the course of its findings arrived at a "summary of awards," which in itself is of little importance to the working class in general. That which is of prime im portancé to all workingmen is the attestation of the Commission, that after all, a government can exist, as such, only with the consent of the governed. At the end of its summary of awards At the ear or its summary or awards it fairly admits that the employers are the governors and the workers the governed; that the Commission recognizes the imbeelility of the state's attempting to enforce the awards and leaves it with the employers to pro-tect themselves against a violation of the provisions by their employees. Not the faintest suggestion is made as to how the employes may protect themselves against a violation of the provisions by the employers.

provision reads as follows: "XI. The awards herein made shall outlinue in force until March 81, 1936, and any employee...or. group, of employees violating any of the provisions thereof shall be subject to reasonable discipline by the employer; and fur-ther, that the violation of any provisions of these awards, either by em

ployer or employees, shall not invali-date any of the provisions thereof."

A commission that has been given existence with an open and frank admission of its appointer that neither the government nor the commission has any provision by which it can enforce any rulings or awards that may be ar rived at, dares to point out to the em-ployers the means by which they may enforce the "provisions," while it holds up to the miners a sop that will satisfy only the most servile and de-

satisfy only the most servile and de-graded of them—"shall not invalidate."
Under the "Reforms urged by the Board," the laberent power of co-bresive attraction among the capitalista and their hirelings is plainly and un-mistakably visible.

1. "The discontinuance of the 'coal and iron police,' and a resort to regular-ly constituted peace authorities." In plainer words, it simply expresses a de-sire of the government, which in the one case admitted its imbecility, to be recognized by the class it represents as the proper authority, to murger any of the struggling workingmen that are not satisfied with the eleventh or any other provision that does not provide for them.

2. "A stricter enforcement of the Who build their thremes on anxiont recode.

And scoff when famished Labor please.
Bevolt! The voice of ages calls you!

READ THIS AND PASS IT OR.

pointed this "faithful" Commissi mever mentioned one word to the Southerners about the 24,000 children of school age that are exploited in the

3. "That the state and federal government shall provide machinery for compulsory investigation; the chief benefit to be derived from the sugges-tion herein made lies in placing the real facts and the responsibility for meh conditions authoritatively before the people, that public opinion may crystalize and make its power felt." To speak of a crystallization of anything it must be presupposed that an inherent force of cohesion prompts it to attraction. This can not be said about the working class and the capitalist class. Ever since the introduc tion of the Arkwright spindle, the crystallization of the capitalist forces and the working forces have been two separate and distinct processes, and all attempts at pacifying the antagonism created by the very incoherency of created by the very incommendations have ignominiously failed. In many instances such attempts have opened the breaches farther than they were ever before, as undoubtedly is the case with

One needs but carefully to nervee tions, it is apparent that the maximum output has been almost reached. The production will be henceforth from lower levels and thinner seams than those previously worked. This man those previously worked. This will necessitate greater expense in mining and consequently higher prices for fuel, more economy in consumption and increased competition of other fuels." Just note the paternal spirit of the Commission toward the God-or-dained Coal Marons.

dained Coal Marons.

To cap the climax of their hypocritical utterances they indulge in the following evasive explanation: Naturally, some questions have been presented to the Commission that are incapable of final solution owing to the difficulties inherent in human nature."

Another proof of the imbecility of the government to deal with a matter that at the restriction in the same of the same of the same of political prestige. Regarding the boycott the Commis-sion says: "What is popularly known

as the boycott (a we persons seek to work their will upon a course with such person or persons This is a cruel weapon of aggression and its use immoral and anti-social and the concerted attempt to accomplish it is a conspiracy at common law, and merits and should receive punish-ment due to such crime." This Com-mission has the prison and stripes for mission has the prison and active, for the workers ready for practical appli-cation, but for the employers' system of blacklisting, which it admits to be as-reprehensible and cruel as the boycett, it suggests simply a "frowning down has all houses may."

by all humane men."

This distinction in suggesting rem-edies for like deeds is not accidental,

but is significant of the class distinct ean Roosevelt, Capitalists a and Company, on the on bor on the other. It is, in plainer words, another proof of the imbecility of the government. Moreover, there is absolutely no fear that the capitalists will ever practice it "to the extent of being founded upon an agreement," and therfore it will appear abourd to refer workingmen to legal procedure for the "recovery of damages com-pensatory of the injury received."

This procedure of the Roosevelt Com-mission, from beginning to the end, should serve as a valuable lesson to all organised labor. It should prompt them to the resolution to pursue their own lines in search of justice and to abstain, meanwhile, from soliciting government interference of any kind Until the working class is proportion stely represented in the legislative chambers, it will have to be conten with being a government within a government and rely upon its own capabil ties of developing its power.

The union men of this country should learn from this last and most ridiculou of governmental farces that all action legislation, and decrees of government must have the power of enforcement behind them if they be intended as effective. Labor legislation can only be enforced by laborers as effectively as capitalist legislation is to-day en-forced by capitalists. The sheep may as well walk into the haunts of the wolves for protection against its feecers, it would meet with as much well-meant support for its transports tion to the hereafter, as the miner have received from the government The class-struggle is not here because a few agitators are referring to it. Th class-struggle is the unavoidable result of an economic system that is based upon wages and profits, slaves and Diasters.

SONG OF THE BALLOT BOX.

By Sumner F. Claffin.

From the pine-clad hills of Maine, There's a thrilling, glad refrain, From the evergindes and bayous of the South; From the mountain and the plain

And across the mighty main, Listen, brother, it proceeds from Labor's mouth Those who feverishly slumbered, Dreaming labored dreams unnum-bered,

Are beginning to awaken from their and the sounds we hear, like sighing, O'er the dead earth multiplying, Plainly tell us of the tyrauts' coming

Then arise! Awake, oh, sleeper! Join the chorus, swell it deeper, Add your voice and hand and ballot from now on; Make the movement one vote stronger; If we toll a short time longer The misery and the darkness will be

THE PARTY'S EMBLEM.

the state of New York, an account in provisions of the election laws, that Party is officially recognised uname of Secial Democratic Party, ablem is the Arm and Terch, as si above.

The Socialist Party (or Social Democratic Party in New York) about not be cusduced with the so-called Socialist Labor Party. The latter is a ring-ruisd organization which devotes all its energies to two parposes: First, to disrupt the Socialist movement and singuist the Worklistic who carry on the but the against capitalism; seemed, to mailga and higher the bridtenules movement.

THE SOCIALIST VOTE. The Socialist Party (the Social Democrati Party of New York) has passed through it second general election. Its growing powe is indicated and its speedy victory for studowed by the great increase of its vo-cease of the party of the second party of the as shown in these figures:

All over the civilized world working men and workingwomen are meeting and marching on the First of May, bearing aloft the Red Flag of Socialfam, singing the songs of revolution woicing their defiance of class rule, tneir aspirations toward freedom and brotherhood, their resolution to transform this world of war and hunge into a world of plenty and peace. Against the holidays of linguistic patriotism that keep alive the hatreds of a past that ought to be dead and buried and that conceal the living conflicts that ought to be faced and settled, we set this holiday of the workers of the world as the embodiment at once of the most practical wisdom and of the poblest klesis that history has yet brought into being.

He it peace? Yes. And it is also war. le it self-sacrifice? You. And it is niso self-assertion. In it the vision of the future? Yes. And it is also the to be. realization of those visions in the

In two phrases we sum up the mean fing of the First of May-the Class of the danger to which every active to Spencer's "First Principles." Don't Struggle and the International Solidarity of Labor. The one is the war of to-day that must be fought out; the other is the peace of to-morrow that is to be won through that strife.

Britain, in Bureaucratic Germany, in despotic Russia, in the new Japan, even in awakening India and China regardless of varying political institutions and traditions, we find one censtant feature. Everywhere we find a small part of the people owning the land and the machinery, all of the things by which and with which men work, and living in comfort or luxury, without doing useful labor, by reason or that ownership and the power that it gives. Everywhere we find the great mass of the people propertiless, empelled to sell their labor power for delly bread, born in poverty and dying in goverty and fighting poverty from the cradle to the grave; creating all grave; creating all the wealth, but expected to be grateful if they may harely live; creating more and more wealth every year, but smaller share; rough, uncultured, untrained in the graces of life, often subject and opressed-and all because they do not own the things with which

they work and may therefore live only.

by another's consent. We do not find either of these classes without the other. They are like the two poles of magnet-as inseparable and as oppo-

Everywhere we see the interests of the ewners and the interests of the workers in irroconcitable opposition. The capitalists are raised sloft only by standing on the shoulders of the wage-workers; the wage-werkers cannot stand erect unless by throwing the capitalists from their backs.

Everywhere we see the conscious seas of this opposition grawing clearer day by day. Workingmen are learning to think and act together to resist the Scial and inaccurate in their thinking aggressions of their masters, to de mand a larger share of their own product. The capitalists, on their side, are organizing more closely to keep the of his work soon learns to select, to experience of this daily struggle, forced upon them by hard necessity, the workers are gradually brought to realise the uselessness, the perafcious ness of the master class, to think of a state of society in which there should be no mosters, and to work together with that aim definitely in view.

In this conflict, whether over misor questions or over the great and all-emerneling question, we see each side compelled to use every means that can serve the end-education and mississedtion, the strike and boycott and the ockout and blacklist, persuasion, force and political power. We see that however individuals on either side may wish for peace between the classes, there can be no peace. For either side to relax its efforts in the struggle is to court defeat. The conflict of interests is absolute. They may be compromised, but never harmonized; and ever compromises cannot long be maintained.

proclaim on the first of May-the irrepressible class struggle that must be fought out, sooner or later, to complete victory on one side or on the other, and that wise and brave men should rather face and settle quickly than allow to drag on, consuming the ener- to suggest a few out of many. They gles of successive generations and blighting all that is fairest in human materia.

the expitalists of different countries may try to outwit or overreach each other, however keenly they may compete to control the world market, however ready they may be to plunge their respective nations in wars where the blood of the toilers shall be coined into gold for the idlers of the winning side, and however loudly they may declaim about patriotism and national interests and national glory in order to keep the workers in the mood to do their fighting for them, yet whenever the line is clearly enough drawn between the exany country the exploiters of all lands forget their international quarrels and the sympathy of the masters all over the world is given to any section of their class whose power is seriously attached. Class interest and class feeling overpowers all national jealousie and obliterates all religious lines. Profit is to them sacred above all other things, and the defenders of Profit everywhere are their friends.

On this day we point out that, m the interests of Capital are kientical. so also are the interests of Labor. That one workingman is born an American and another a German, one a Christian and another a Jew, is no reason for their being enemies. That all are workingmen, that all bow under the same voke of ware-slavery, that all have one common wrong, one common hope, one common enemy, is abundant reason for their feeling and acting as friends and comrades.

That is what May Day stands forcomradeship among the workers of the world against the exploiters of the low up some of his hints. Or take up What is it that May Day stands for? world until exploitation is ended, until victory brings peace, and then comradeship among the free workers of the world in the splendid days that are

ABOUT BOOKS AND READING.

Socialist is subject of centering his thoughts eq. exclusively upon the chapter, each page, before you so en practical phases as to lose his touch life and become narrow or shallow, and we suggested that every comrade would find it well worth while to set aside some stated time, if only two something elee than the daily papers and the party press and literature: some party duties now borne, we said, the man who follows this plan yill probably find his very usefulness to the party increased, through becoming mentally refreshed and better equipped for thought and able to take a larger view of every subject consid-

The number of responses which that paragraph has elicited prompts us to repeat the advice here to the larger number of readers whom this issue of The Worker will reach. It is not only to active comrades that the suggestion applies. The majority of us, in the rush and confusion of life, being donied the opportunities of the study and culture that ought to be the common beritage but are actually the culture which cheap editions and fre libraries now offer. It is not good for any man that h

hould be a student and nothing men

But it is certaintly not good for any man that he should ever cease to be a student. There are few who much as spars and availag out of seven the paspossful reading-real reading, lot we say. Reading the newspapers is not real reading. Most of it is worse that weste, worse than a profiless teaking of the eyes; most of it is positivel; demoralizing to the intellectual facul ties. The modern newspaper perhap does as much to make people super as all the colleges do to make a fer accurate and thorough. The man wh has to read the newspapers as a part workers in subjection. And by the glance at headlines and pick out the things be needs, not actually reading more than two or three columns, per haps, out of twenty pages, Why ld anyone waste his time and muddle his brain by wading through long-drawn and mostly lying accounts of the marriages, divorces, quarrels crimes, amusements, and personal limits of people whose only title to no tice is their wealth or their wicked ness or both? Take a newspaper, certainly; look through it every day; but don't read more than enc-tenth of what is in it; you will learn much more and unicara much less. As for the magazines, they are, in general,

only a degrees less stupidly supty of

When we speak of real reading, in

fashily false than the dailies.

ontrast to the perusing of worthless and enhomeral stuff, we do not mean necessarily-or, rather, we do not mean exclusively—the rending of what are commonly called "solid" books. Much fiction and poetry, some that is new and most of what has stood the test of my thirty years, is as well worth reading as any book of science or philosophy or history. There are Dickens and Thackeray, Hardy and Barrie Beime and Zolz and lings and Tolstey-not to make a list, but only are surely as interesting as the society page or the sporting page, and they introduce you to human types and show you great forces at work and call you memory and imagination and reason and emotions at once into play; they are as true as Euclid, more authorita tive than Blackstone. There are Burns and Shelley and Wordsworth and Tennyson and Morris and Pos-not to go back to Shakspere and Milton-or there are Riley and Field. Do you know them? If not, you have a great pleasure before you, but you have neglected great benefits that lay at your hand. Or you have Artemus Ward and Mark Twain and Dooley to vary the many. They are classics. Dooley ploiting and the exploited classes in is about the only redeeming feature of

the contemporary press. Rend novelists and poets and huomrists, by all means. All work and no play makes Jack a dull boy, in more ways than one. But alternate with what we are in the habit of describing as more serious books Never think that because you had to quit school at fourteen you cannot understandingly read such books. You have been getting a sort of education at the bench or on the scaffold and in the union hall that may in some respects have done as much to fit you for right thinking as school training would have done. At any rate, you have got to make the best of it. The workers are resolving to free themsolves, to rule themselves. Shall they begin by declaring their incapacity to study and think for themselves? If they do, they deceive themselves and wrong their cause.

If you care to make a study of & cialiam, read Comrade Spargo's article in this issue of The Worker and felme other line. Give the reading hours of six months or a year-at much as you need to master it-to Draper's "Intellectual Development of Burepe" or to Green's "History of the English People" or to Darwin's "Origin of Species" or Huxley's or Wal-We spoke in this column last week | lace's popularizations of Darwinism er hurry through it. Make sure of each novement in its more immediate and to the next. Read with your brain, with your whole brain, not with your with other currents of thought and eyes alone. A paragraph may be enaugh for a night or a week. Yet don't want to pass that paragraph till you've got all there is in it. That is on much like work? Not a bit more hours in a week, for the reading of like work than breaking a horse or solving a chess problem or rowing against the tide. Work is play when even if this involved the giving up of you do it for yourself, not for a man-

We do not assume here to lay out course of reading. You can do that for yourself, perhaps profiting by the advice of some thoughtful friend. We have thrown out only a few sugges tions and we venture to add one more If you have a family or other willing ners, read aloud; at least part of the time. You can imagine many good reasons for that; a sufficient reason is that you will get more out of it your

right to be marrow or superficial. So-cialism is a many-sided movement. It anis for favor. ence, to every philosophy, to every privilege of a limited class, neglect to social life. The more of those links the suggestion. We Socialists have a he has said sometime it was time to use those lesser opportunities of self- the Socialist can comprehend the bet- way of quietly sixing men up and ap-

being bread. As for being deep, you easnet expect to know many things nught; no one can. But you can train yourself in the habit of plercing below the surface of things, of abserving facts and weighing ideas, of knewledge-goes and knowing where the limit is. In that sense every So chilist owes it to the cause, as well as to himself, that he should be deep as well as broad.

TO THE NEW MECRUPY. Az Arbian shepherd, so the tale post, trying to find a strayed lamb, discovered a cave and penetrated far into the mountain. At last he came upon a greater chamber where a thousand greybeards sat conning over books and reciting lessons to a grey-beard teacher. The shepherd asked what it all meant. The teacher repiled: "This is the punishment of my sing that I must teach the whole Keran to all these thousand pupils." "How long have you been at it?" asked the shepherd. "A thousand years." "And what progress have you made?" "I begin to feel encouraged," said the old man, "for one of them has just learned the first letter." The shepherd asked what might be the sin that merited so heavy a penalty, "In my life on earth," said the old man, "I used to offer advice unasked."

With that horrible example before us, we yet venture to offer some ad vice to those who have newly joined or are about to join the party.

A preliminary piece of advice is, if you have not joined, do so quickly; and he active: and stick to it through thick and thin. It makes all the difference between a real man and a pir. whether or not be has some con higher than food and shelter for his precious person, some conception of a ing his personal self, for which to think and feel and work. And nowhere can you find, in this age of the world, a field for such social selfbood better worthy of all year service than in the Socialist Party.

Granted then, you join the party and are active and stick to it.

Don't imagine that your admission marks an epoch in the party's history. Maybe it does. But you should be the last man to think it-and it will take some time to find it out, anyhow. Don't think you have an exclusive and authoritative mission to reform the party. You will probably have many ideas to suggest, right off. Don't hesitate to express them. But reflect that they may have occurred to others before you may have been tried or sufficiently considered and found unsound. Don't jump at the conclusion that those who tell you so are pairified fossils. You will find that some of those old warhorses are as young in heart and mind and as enterprising as you. Probably some of your ideas are both new and true. If so, and even if they are not accepted at once, you will have other chances to advance them and prove their fessibility when you have become better known to the party and know the party bet ter. Remember that the party lived for some time, even grew a little, without you; assuredly it will live better and grow faster with your aid; but still, it might survive you, even should you withdraw. The narty happens to be a thing bigger and stronger and wiser and more important in the world than any or all of its members, old and young, put together, Don't imagine that all Socialists are

angels. They are not. By fully realizing this you will avoid some sad disappointments. You must expect to reasonable men, not a few bad tem pered men, some selfish men, a good many careless and lazy men, and even a few dishor or less reason, calling themselves Socialists. You probably have some faults, too, which others may see more clearly than you do. Remembering, then this human fullibility and imperfection, try to be vigitant without being unduly suspicious and charit able in your judgments to the point where further charity violates social justice. It is better for the rank and file to watch and instruct and criticise and control their officers than to trust them absolutely and then condemn them if they go wrong-bette for the party and fairer to the individuals. But when you criticise, see to it that you are willing to endure

criticism without resentment. Be neither a flatterer nor a "kn er"-the slang may be pardened, since no classic word seems quite to fit. Be ware of both these sorts of men. Don't he afraid to take the floor against a recognised leader when you think he is wrong on a matter of some importance. If he is worthy to be recog nized as a lender-and a hundred to one he is and has amply proved Rhe will be glad to consider your argo ment. But don't be tempted to op-pose him because he is counted a leader. If he leads right he has the right to lead. The Socialist movement in not much given to hosping ununrace ing long deceived by unworthy aspir-

are mappreciated, and if anyone whispers it to you turn a deep our to

priciating them posity alongly at their worth, even though we do not always tell them how much we think of

Remember that the party owns you

absolutely nothing but what

chooses to give you undemandedolther yealse nor position of respons billty nor hence or reward of any so -nothing but your plain equal right as a comrade. No matter though your services to the cause and your sacrifices for it sclipse those of all other members, the party owes you nething more than it freely offers you. If you are working for recognition, if you say, openly or by implication: "See what I have done for you! Do I not deserve gratitude?" the party rightly answers: "Ne. We supposed you were working because you wanted to see the work done. If you are working for reward you are in the wrong place." But observe, also—you will have plenty of chances—that the party is glad and eager to honor those who work for the cause without looking for honor.

say, say it frankly and fearlessly. What you dare not say in your local meeting, you have no right to hint in private conference. Our party, is of through. So it must remain, or dieand it is not going to die. In a democracy there need be no fear of open conflict. The democracy has that vitality in it that it can endure disagreements, controversies, faction even dissension and schiam, and yet live and grow. The one thing it cannot endure, that must be stamped out. that must be branded as crime, is inintrigue, because it strikes at the very heart and life of democracy.

Nover intrigue. What you have to

We reneat, the party owes you nothing and you owe the party all. Hut if you are a comrade in the true spirit. the party will give you, of the things that are more precious than material rewards or outward marks of honor, tenfold more than you ever can give to it. It will give you hope, it will give you increased self-respect, it will give you the joy of battle, it will give you the consciousness of work done, and it will sive you with all these the deep and quiet and lasting love of manly and womanly comrades. It is an honor and a privilege to belong to the party. Your red card is a credential and a diploma whose validity your

MAY DAY.

Su William Marris.

Clad is the year in all her best. The land is sweet and shoen; Now Spring with Summer at he breast, Goes down the mendows green.

Here we are met to welcome in. The yeung shounding year, To praise what she would have us win, Ere Winter draweth near.

Por surely all is not in vain, This gallant show she brings; But seal of hope and aign of gain, Beareth this Spring of Springs he longer now the seasons wear

Dull, without any tale of how the chain the toffers bear is growing t'in and frail. But hope of plenty and goodwill

Files forth from land to land A little while shall Suring come back

And flud the Ancient Home Yet marred by foolish waste and lack, And most enthralled by some. A little while, and then at last Shall the greetings of the year

Be blent with wonder of the past.

And all the griefs that were A little while, and they that meet The living year to praise, Shall be to them as music sweet

nest mes, all, with more That grief of bye-gone days. So be we merry to our best. Now the land in sweet and sheen,

And Spring with Summer breast, Goes down the meadows green. -Written for London Justice May Day, 1894

THE TERROR OF TRUTH, Did you never in waiking the fields

me across a large flat stone, which has hin, nobody knows how long just where you found it, with the grass forming a little hedge, as it were, close to its edges and have you not, in objectione to a kind of feeling that told you it had been lying there long enough, instrumted your stick or your foot or your singers under its edge and foot or your fingers under its edge and tuined it over? What an odd revelation, and what an unforseen and unpleasant surprise to a small community; the very existence of which you had not suspected, until the sudden distancy and scattering among its mempers produced by your turning the stone over?

**O No sooner is the stone turned and the wholesome light of day let upon this compressed and blinded community of creeping lhings than all of them that enjoy the lustery of legs—and some of them have usincy of legs-and some of them have d many-rush round wildly, but each other and everything in their, and end in a general stamped

THE ABSURDITY OF PERSONAL HOLIDAYS.

By Courtenay Lamon.

May Day, symbolic of epring, of the awakening of nature to new life, of hope and freedom, is the chosen holiday of the revolutionary labor movement, the day of defiance in ancient oppression and challenge to chartered.

A personal holiday is a social blassymment, the day of prombetic rejuding. Society similifies their when the latest the life when the content of t wrong, the day of prophets rejoicing in the vanguard of the long-suffering working class whose sure and mighty mission is the achievement of human freedom and social solidarity.

It is appropriate and significant that the Socialist movement should thus celebrate, not the hirthday of an indi-vidual, but the awakening of our class, variant, not the awarening or one class, the rise of a movement, the re-birth of the race. Karl Marx, the great genius of the Socialist movement, was perhaps the most comprehensive mind since Aristotle, and certainly one of the most exact and powerful intellects
that all time has seen; with Engels, he
made the most valuable of all contributions to modern thought: yet it does
not eccur to Socialists to make the
hirth-day of Marx their international holidag; and it is this that is suggestive of this May Day musing. Let the capitalist state decree the

celebration of personal holidays in honor of great men who are popularly supposed to have determined the course of history in their private persons, and to whom is given the credit for an age n's collective effort: We spirit of the race as expressed in its most vital class, the collective aspiration and effort, the social movement of To those groping in the darkness of

To those groping in the darkness of the individualistic mind it seems natural to render holiday homage to single persons raised upon a popular pedestel; and, most people felling that they must depend upon and admire something outside of themselves, other individuals very much like you and me are chosen, with the help of fate, as are chosen, with the nery of inter, as objects of their worship. But to those whe are permeated with the cellectivistic conception of human history and affairs, to those upon whom the sociality of everything has burst as a flood of light, the celebration of such recovery heldium, are now mark the personal holidays as now mark the pirthdays of a Washington, a Lincoln, or even a Christ, are, in the last analysis, abourd. If Washington, great as he was, had

not lived, America would still have shaken off the British yoke; if Lincoln, as he was, had not lived, the black slaves would still have freed: if Jesus, great as he was, had not lived, a religion of subjective re-fuge and communistic revolt from Roman oppression would still have arisen. And, if all America had not been struggling to threw off the British yoke when Washington lived, he would not have become great as he was; if the slavery question and the imbered and unknown soldiers of unnumbered and unknown soldiers of the North had not given him the oppor-tunity and the means, Lincoln would not have become great as he was; if the weary and the oppressed of him time had not needed the religion of refuge which found its voice is him. Jesus would not have been great as he

the individual who is the temporary instrument of a movement, and in whom it is ultimately focussed for a final effort, does not make the movement, except in a very transleat and nonessential sense; primarily, the move-ment makes him. The Wars of Independence and of

The wars of indepensence and of Secession were the outcome of long sectaing economic and social forces. They had to be; and when they came they easily found their individual instruments. English laws restricted the commercial liberty of the colonies, and, therefore, the war for independence had a be found. The Independence had to be fought. The economic advantage in certain branches of trade given to the South by slavery and the tariff questions arising therefrom, coupled with the fact that chattel slavery was not as profitable in the North as was the wages system, gave rise to the War of ession and resulted in abolition of chattel stavery. The independence of the colonies was not achieved simply because a great man named George Washington lived and was a great patriot. The emancipation of the shaves did not occur simply become Lincóln lived and was a great humani-tarian. Each of these great steps in human progress was the result of deep, underlying, half-hidden economic forces, and the social ideals growing out of them, which moved the mass of men. This should be obvious, but it is directly contradicted by the biographical view of history which is inculcated by individualistic teaching, and finds its culmination in holidays short persons. And did not the early rebels against the stamp act and the men of the "Boston ten purty," the early abolitionists, the forgotten sol diers who silently suffered at Valley Forge and in the Wildernoon, the whole multitude of men and women directly and indirectly concerned, all the forgoten ones, who fought and and lived and suffered and died for independence or abolition, play just as concentral a part as did Washington or Lincoln? And could not the masses the nation, have found other leaders if these had been wanting? Which, then, was the greater force and which the more essential-the social mass or the individual leader? We celebrate the Fourth of July.

We celebrate the Feurth of July. Well and good, that represents a national event, a collective action, a social declaration. It is a social heliday. But Washington's Birthéay is a more personal holiday, and therefore a superfluous absurdity. The fact that Lincoln's Birthéay, instead of Emancipation Day, has been made a legal heliday is elequent of the anarchistic individualism with which massent society is naturated. Such illpesent society is naturated. Such lit tle unconcious tendencies are atraws that show which way the wind of cap-linium blows. The anarchy of indivi-dustium is the natural state of mind festered by capitalist society based upon grivate property carrying with it personal "rights" against social welfere. Capitalism, based upon and legalizing private property stolen from

A personal holiday is a sectal bias-phomy. Seciety statisfies itself when-ever it thus decrees the individual its superior. When we lose our supersti-tions about great men and the individ-nalistic illusions of hero-worship; when society becomes same and not no morbidly modest, it will celebrate it-self—great events and social declara-tions—not the birth of the merely incidental individual. A valeted society and a valeted class

have produced the epigram: "No man is a hero to his own valet." Without stopping to make the unkind comment that no man is a here who has to have a valet, we may find the social para-phrase of this sententious saying in the fact that so man is quite wholly a hero to his own time, or at least to contemporaries who do not look from a romantic distance, and can therefore discarn the common humanity of the great man. Society never quite dares to make a holiday or a statue for a here until he is dead; a live hero is too ncertain, he may yet go wrong or do omething foolish or disgraceful; the only safe hero is a dead here. It is true that some men are very much greater than the average, but even if the reality of individual greatness b conceded the fact remains that it is produced by and operates through so-clety; is dependent upon society both in its origin and its exercise. That individual is great who becomes the exponent of those social forces which give direction to his age or the future. The great leader is only the conspicnone fonts on the wave, the crest of the great groundswell of social forces which make him what he is.

Truly, most individuals taken singly at what they are actually, not poten-tially, amount to very little; but it is amusing to note how necessary they are to those great ones who depend upon and despise them and could not be without them. When the great man eats, as other mortals do, society nets his meal before him; when the great man speaks, the words that come out of his mouth are the product of cen-turies of social striving after speech, of the slow accretion of language in the evolution of the race; and so on, whatever the great man does in the pride of his individuality be can do only with the aid of society, past and

Individuality is confused with individualism and personality with mere differentness. Economic individual-ism, each man for his private self and property, kills individuality. The production of fine and strong individualproperty peactise of subordinating so-clety to the individual; neglecting social weifare and cultivating ego only results in the ultimate deterioration of all individuals in society; whether we like it or not individuality is a secial product, and so long so the individual is arrayed against society, society will be arrayed against the individual. There must be peace between the two by the surrender of the individual to the greater perent power, society; and then individuality will not be lest but found. The individual cannot develop his individuality alone; he must de-velop with, by and through his fellows-through society.. Humanity has never been able to escape some form of cellestivistic coherence although it be chaotic, but half-realized, and rent with class divisions. And after the final class struggle has cultuinated in collectivism, individuality will fourish in the fertile soil of social solidarity and the absurdity of the false philoapply which finds one of its minor ex-pressions in personal holidays will be apparent. ns in personal holidays will be And nothing to say or do

GLOUCESTER MOORS.

mile behind is Gloucester town Where the fishing fleets put in:
A mile shead the land dipe down
And the woods and farms begin. Here, where the moors stretch free in the high blue afternoon, in the high blue afternoon, Are the marching sun and talking sea, And the racing winds that wheel and

On the flying heels of June. Jili-o'er-the-ground is purple blue. Blue is the quaker-maid, The wild geranium holds its daw Long in the boulder's shade. Wax-red hangs the cup From the huckleberry-boughs, In barberry bells the grey moths sup, Or where the choice-cherry lift

high up Sweet bowls for their caronse. Over the shelf of the sandy cove Beach-peas blossom late By copse and cliff the swallows rove Each calling to his mate. Seaward the sea-guils go, And the land-birds all are here; That green-gold flash was a virco. And yonder flame where the marsh dags grow Was a scarlet tanager.

This earth is not the steadfast place We landsmen build upon; From deep to deep she varies pace. And while she comes is gone. Beneath my feet I fee! Her smooth bulk heave and dip: With velvet plunge and soft upreel She swings and steadles to her kee

Like a gallant, gallant ship. These summer clouds she sets for sail, The sun is her musthend light, She tows the moon like a pinnace fraff

New hid, now looming clear, On the face of the dangerous blue The star fleets tack and wheel and

veer, But on, but on does the old earth stem As if her port she knew.

were doing.

A comrade who shall be called Jimmin Higgins because that is not his
name, and who shall be styled a painter for the very good reason that he is
than that. Jimusle Higgins had no not a painter, has perhaps had a greater influence in keeping me keyed up to my work in the labor movement than any other person.

Jimie Higgins is neither broad-shouldened nor thick-chested. He is neither pretty nor strong. A little, thin, week, pale-faced chap. A poor dyspoptic, astimatic, epileptic. But he is strong enough to support a mother with equal physical disabilities. Strong enough to put in ten years of unrecagnized and unexcelled service to the cause of Socialism.

erected the platform and mainted the picture; through his hard, disagreeable and thankless toll it had some to pass What did he do? Everything. He has made more Socialist speeches than any man in America. how reward this man? what laurels shall be his? Not that he did the talking; but he carried the platform on his past shoulders when the platform commit-tee failed to be on hand. Then he hustled around to another branch and got their platform out. Then he got a gisss of water for "the speaker." That same evening or the day before he had distributed handbills advertising the meeting. Previously he had informed start and never let go. Think how great his work, and be has so little to do with. How little ours in proportion to our strength.

I know some grand men and women in the Socialist movement. But in this branch as to "the best corner" is the district for gathering a crowd. Then he distributed leaders at the meeting, and helped to take the plathigh self-sacrifice, in matchless fidelity to truth, I shall never meet a greater man than Jimmle Higgins. form down and carry it back to headquarters. The next day the same, and so on all through the campaign, and one campaign after another. When he had a job, which was none toe often, for Jimmie was not an extra good work-man, and was always one of the first to be laid off, he would distribute Becities papers among his fellows dur-ing the noon hour, or take a run dewn to the gate of some factory and give out Socialist leaflets to the employees who came out to innch.

What did he do? Jimmie Higgins

did everything, anything. Whatever was to be done, that was Jimmie's job.

THE ROOT OF THE SOCIAL PROBLEM.

By Loonard D. Abbot.

of seeple in the world to be poer.
What should we think of the biologist who seriously contanded that it was normal for the majority of human brings to be deformed? What opinion could we have of the doctor who took. the position that it was right and ral for men to be in a chronic con-of disease? And yet these conclusions are not more meastrons than is the point of view of the political constnuist—who—publishes—learned st who publishes learned need on the assumption that it that the majority of mea

"The poor ye have always with buttress for every conservative and carriess view of social conditional Many of us seem really to have per-manded ourselves into the fatalistic conception for which it stands. People argue gravely about the "impossibil ity" of abolishing poverty—as if poverty existed in the world as the likh controls the sweep of the tides or the falling of the rain.

Now of course there is no danying that in every age of the world there have been man lany and spendthrift, men who would always be poor be they lack restraint prudence, men who equander what they have. Doubtless there will al-ways be such mon. But these men are relatively few. They are so few, in proportion to the whole, that they need hardly he taken into account in the present argument. The problem the present argument. The problem we are considering in not, Do spenddeserve to be poor? but, Is it

of men doing the most useful kind of work that can be done, work which builds the very foundation of our se-cial iffe and in se necessary that to imagine it stopped is to imagine a world plunged in chass. They are the coel that warms us; gree food that we cat; fashion es that we dwell in. Surely if any men should be comfortable-as should be rich-it is these. It may work, work that requires a rarer type of mind and hands. But tids does not

The fundamental biasphemy of our stall after the fact that the majority without which the higher life could at all after the fact that the mainust workers are furnishing the susspanses without which the higher life could not arise for a moment; it cannot blind us to the fact that the workers are the really organic part of sectey. And yet the inconsessible fact remains, that the workers, as a class, are very poor; that when their lives are not utstatly aquistid, they are stunded and broken; that their carrivonment is such as to shut out not only the beauty of the world in which we live, but also to rob them of all that finer heritage of thought and cutture, of aspiration and archiverment, which has come down to us through the contures, and has invested our busses allow with its dignity and strength. and strength.

No thinking man, no man with a consciousness of the integrity of his own manhood and a sense of the duty own mannoon and a same or the only he owes to his fellows, can possibly acquiesce in social conditions which produce such a result. He is driven into the revolutionary camp by the very deep-contentness of the evils with which he would grapple. No "reamong the branches. Society is upside down. The obvious thing to do is

to turn it rightside up.

The working class is poor because it is dependent on a capitalist class. And the capitalist class is eich because it owns the land and muchinery of the world's production. Socialism is simply the proposition that the working ciass-and all who sympathine with their cause abould take the world out of private hands, and put it late public hands. The evolution of industry, by massing capital in a few hands, is every day making this task an easier

seasion of their own property, when once society becomes a unified and or-ganized association, the problem of poverty will vanish. The world con-tains enough—and much more than enough—for every human being. Nature literally pours its bounty upon us. live together in a same way. Socialism will teach men how thus to live. It will end the struggle for more exist ence. It will secure the material side of life. It will give us at last the op-portunity to take hold of the world and to re-fashion it in glory and brauty that have been visioned, but never resilized.

SOCIALISM VERSUS CLASS HATRED.

By Owen R. Lovelov

formed by prominent financiers and social and religious leaders, having for its purpose the study of economic problems and "to oppose Socialism and class hatred." This movement is quite in keeping with much that now appears orthodox" press, and from pul

pit and platform.

There would be little wisdom in he ing one's temper over this apparently studied attempt to confuse the public ciples and program of Secialism. ing on the winning side Socialism can afford to wait and, with line upon line. seek to convince those who are open to conviction that the only possible hope of the destruction of class hatred is in the principles which differentiate Socialism from the dominant economic creed of modern history. The cause of class hatred lies in the

contempt, and where there is one class in society that looks down upon another as its inferior, there will be another class in society which will respond to that look with hatred. For contempt is not passive, it is active and at the heart of much of the injustice history has been compelled to record. The men who look upon their fellow men as inferior, as possessing no rights worthy of respect, will seek opertun-fties to infringe those rights, to take advantage of the inferior strength or in in a position in which it is able to the part of the intelligence of the wrong another-class, and does wrong. North, that the best spirit in the alaxy

This fact is apparent in history long before the dawn of the modern Social-fist movement. And in every straggle men have made for freedom the cry of "class hatred" has been raised as a deterrent of agitation. That was a class str

in the fourteenth century, revolted against their conditions and marched The exactions of taxation and service were very heavy. There were the lords and the royal house to be supported, and there was the church—"the-Popa," anys Petrarch, "sitting as a blight over peoples and antions and tongues." At the beginning of the century the tax to support the Rougn church was twelve times as heavy as the civil tax. Half the soil. was in the hands of the clerge. Blearly all the other half in the hands of the lords and king. The situation was not the lords and king. The situation is the same cry always the lords and king. The situation is the cause of class-hatred is the same cry always the lords and king. The situation was not the lords and lords are lords and lords and lords are lords are lords are lords and lords are lords are lords and lords are lords are lords are lords and lords are lord It unendurable—and Wat Tyler and John Ball, both of whom received their inspiration from the humanism of the great actioiar. John Wycliffe, spread discontent among the crushed and oppressed peasantry until the great revolt took shape, marched on London, and serfdom received its death blow. But the Institute the great revolt took shape, marched on London, and serfdom received its death blow. But the Institute the great revolt took shape, marched a disturber of the pease and a sword wont through his body, Wycliffe was branded a hersile and a price set on his head, while John Ball, who asserted that there should be the cause that works of the workers and provide for their own sustained. and a price set on his head, while sonn |
Ball, who americal that there should be no maniors and no slaves among the children of the same God, was sentenced for arcessing "class hatred" and harred and warfare in human considert, and she avowed of the principle that in co-operation and mutual safe, by the uniform of fusices were rewarded of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and by the elimination of the common democratic will; and the common democratic will an expectation of the common democratic will a consider the principle of the common democratic will an expectation of the principle of the common democratic will an expectation of the common democratic will an expectation of the common democratic will be principled to the common dem

An organization has recently been I through the streets one day and heard the cry of the hungry populace, she in-nocently asked the cause of the cry, "They have no brend to est," answered her companion. "Then why don't they eat cake?" she asked. That was the attitude of the ruling class. There was a superior ignorance of the entire situation among the needy. But when a voice here and there began to be raised against the rubbery of the poor by the nobility, they were hushed as disturbers of the peace-they were stirring up class hatred. The accusation not without foundation. They was not without remaining. They were organizing the unconscious discantent of the people. They were helping the man with an empty stomack to understand that his neighbor with as ampty stomach had a common cause with him, that the same conditions oppressed hoth. It was the infusion of mean into the lives of the op-By-and-by those who had been told to est cake, because they had no bread, began to show the figer is human nature, when hunger awakes ahead of prudence. The blood of the Reign of Terror is the answer to those who try to attice discontent by stilling agitation, instead of intelligently at-tempting to remove the causes of the

negro slavery is America were brand-ed as the instigators of batred between the slave class and the slave-holding ligence of the Republic regards Beecher and Phillips and Garrison and Lincoln sition of others, and when one class | as the organizers of a consciousness on ance of the that discontent and hatred, and injus-tice and escape and bloodhound cap-tures and the hise of the driver's lash would continue, until the system was wiped out. The exty way to eradicate hatred between slave and master was to abelish the master-class and the slave-class by making the slave free.

The leaders in the agitation against

Instances in modern history might be multiplied to prove that "dass-hatred" has not originated in the Secialist agitation. It is always been of some sort of injustice which makes i some sort of significe which makes it possible for one class to look with contempt upon another. This discontent, mingled often with hatred, when once accursed and conscious of its cause, can never be silenced or cared except by removing the cause for it, except by abolishing the injustice which gave to hirth.

grith a state.

The struggle-in France toward the close of the algitoenth century was a close of the algitoenth century was a Class Struggle—and there was hatred in M. When the Princess was riding of Freedom.

THE MISINFORMATION OF THE WORLD."

By Goorge D. Herron.

regulable part of the capitalist great, in its religious and literary journals, there is not one thing concerning current events, or the men who make them, that can be taken as really true.

The mere I have investigated specific

sense of moral responsibility for stat-ing or arriving at the truth about men

Furthermore, there is the absolute helplessness of men and measures that are stamped with obloquy in the intercuts of the existing order. There is no

no appeal from press to press, or from press to people; for capitalism practic-ally controls at the sources and chan-nels of information, so that all infor-mation poured into the public mind-mant possess the quality of capitalism.

less and consciencelessly false, are the

state or conceive the awfulr

riking so much as a search into the surces of their ownership and its suquantizating of the rightscussors or ma-credness of their being. With those, truth is semething sevented or ordered in their interests, semething to be ac-cepted by the people, not to be fa-quired into. Hence it follows that the taching class, whether it be religious or seadends; literary or journalistic, depending as it does upon proprietary inimusts for economic sustanters, is inevitably a courtier or retainer class; it must teach those things pleasing to its masters, or at least consistent with hole counties and accounters. This their security and perpetuity. Thu the occupations that are profe engaged in the search and exposure of truth are actually sugaged in the con-cealment of truth; in the prevention nd penishment of any free look at ife. This is markedly so of capital-

The exposure of the sources of capi-talistic authority to the people would result in its instant dissolution; for it springs not from right or order or law and collective murder. It is no mere agitator's exciamation that our present kind of civilization is founded in rob-bery and massacre; it is the historical and scientific fact. It is upon the conconiment of this fact, and upon vest ing it with all sorts of divine origin and eacred phrases, that our justitu-tions of property and state depend, as well as our arts and manners and morals. It is only through the syste matic misinformation of the people, through the darkening and deceiving of the common mind, that ruling classes and their retainers perpetuate themselves. It is because the people are still under the spell of the huge and strong deinsion of authority, still hypnotised by the belief that the might and morals of property are secred, still without a social mind or will, that they permit the few to own the rethey peculit the few to own the re-sources of all, and to make hims and institutions by which to privately ap-propriate the labor of all.

And so long as some people own that upon which all propte depend, so long as civilization and its institutions rest upon the private appropriation of so-cial labor, so long as the power to live off the labor of others remains, just so long will the question of othics be an impertinence. How can a world founded in robbery discuss right and wrong? We know not right from wrong, nor darkness from light, nor truth from error, so long as we discuss these abstractions in the terms, and according to the interests, of a expital-latic ar exploiting mode of society. Right and wrong will continue to be. as they now aco, merely terms of calculation-terms by which to serve the culation—terms by which to serve the interest and safety of the owning class. The laws and morals of the world will continue to be made to perpetuate, defend and increase the power of private capitalism. That is all the standing armies, the law courts and churches are fee—to comjest and exhort the submission of labor to the expisitation of the world-owners, who are siways the world-rulees. Our are always the world-rulers. oned by the interests of the propertied class. Until labor comes to its own, nothing will be right; and nothing ought to be right. Before we can begin a beautiful or truthful world we nust lay the foundation of economic truth; then we may see what the building is to be. Good and truth must become things in themselves, and not things of mere calculation.

The essence of integrity is truthful being, or being the truth. Integrity depends upon our freedom and encoa agement to outwardly express all that we inwardly or potentially are; sil that we see or think or feel. Integrity is truth in the indivindal or in society. Social or individual integrity is real ised just to the measure that each man or what seems to be truth, without forethought or afterthought; without enkulations or consequences; without interests or rewards to be considered, save the joy and reward that inhere in the truth itself, in the feeling and find-

ing of H. Now, it is just this root or integrity, this individual and social self-affirmation, that our capitalistic civilization destroys. Calculative morals, the concentment of truth, the de-struction of free inquiry—these are the staple of our spiritual and social life; and these are the destruction of the very soul of integrity. It is, indeed, upon the negation of integrity that the forms and institutions of our society

which capitalism presents is the pub-lic press, eward and edited for the systematic misinformation of the world. We say that acting is true that we read in the newspaper laugh. But the truth that lies behind the joke has not been seriously con-sidered. We do not appreciate the ous and devastating tragedy of a world-life daily and systematically fed upon lies. We do not realise that there is scarcely a line is a modern

*Comrade Herron, being asked to write for the May Day Number of The Worker, replied with regret that pre-sure of other engagements prevented him from preparing an article, but him from preparing an article, but gave us permission to use this article, written by him for the Globe Pair Jonesal. Of this permission we have gledly availed ourselves, knowing that this paper will reach many readers who have not seen the Pair Journal.
Copies of the Pair Journal—containing articles and posms by flomrades Burrowes, Herron, Mailly, Butscher, Mrs. Incomment, Les. Brown, Bansaid.

If Cooper Square, New York. -Price, portpaid, 15 cants a copy, or two for Cooper Square, the posterior of the Daily

The distinctive characteristic of a class civilization is its fear of free intrivial items of news, that is not motived or amended by the interests of owning class, are unknown to the course of their courses of the courses of their courses of their courses of their courses of t owning class, are unknown to the popular mind, as well as the vasi orgies of configuration and plunder which Protestantian was establish in England. world-atmosphere of Hes which we breathe—the poison and death and darkness of it all. In even the most

Or to go farther back, take the in-stance of Cicero and Catiline—Catiline figuring in history as the black demon of destruction and Olcero as the sublime defender of virtue in the state The mace I have investigated specime cases of this systematic misinformation of the common life, the more I am appalled by the fact and the horror of it; at the obsoleteness or absence of any conscience about the matter. In specifically religious journals, as well as political, there is absolutely no same of more) recognitibility for state. ing trait—a source and extortioner of the extreme type, a traitor to every friend and party that served him, al-ways inciting others to deeds for which be bimself was too cowardly, the essential murderer of the Cresa who had so patiently tolerated him, a strutting and shameless hypocrite, his literature a vulgar and bombastic philistinism. As a matter of fact, litchard Croker was a here of civic life and nobility, and Judan Iscariot an angel of fidelity, compared with Cicero; while Catiline was infinitely more of a martyr than many of the catalogued patriots and saints-throw redress or escape for those who are af-factively against the capitalist system. There is no precinct or anothary of, life which the journalistic and relig-ious vultures do not enter. There is ing away all that a Roman thought worth while in behalf of the disin-berited and starving serfs.

Or take popular conceptions of mad-ern French history, supplied as they have been by capitalist interests. Only now, and that to the thoughtful few, are Danton and Robespierre emerging from the red robes of manatrons perversion so long pressed about them. Only now are we beginning to understand the French Revolution as the most purifying and messionic movement of history, save the Commune of 1871. And who can tell of that while yet capitalist darkness lies upon the face of the earth? Think of the stamp of infamy which the powers-that-be have placed upon the more than crucified Communards. Yet history presents nothing comparable with that proletaire shedding of blood for the ansoming of the world's labor, No do the annals of any city, save that of Rome under Maszini's brief republic, present any such common well-being, such common peace and hope and happiness, such sweetness and security of order and life, as that of Paris in the when the Commune was success Some day, after the common wenith comes, when history shall at last be both made and written by and for the people, there will arise a poet great enough to sing the eple and the ronder of the Commune of 1871-the epic and the wonder of a whole people consciously and deliberately sacrificing consciously and deliberately accrificing itself for unborn humanity: a whole people literally throwing itself into the trenches of slaughter, without hope of

anything seve oblivion and obliquy Almost any other example would de as well, in showing bow history is written for the service of the prop-ertied classes, just as the news and in-formation of to-day are gathered and disseminated in the inte talism. Take a cross section of his tory anywhere, and the reports that we have of it are written in the interests of the world's masters and their priestly and political retainers We shall have no true report of yester day, nor of the things taking place under our eyes to-day, nutil the people come to their own, to tell in deed and chronicle and song their own story of their own life. was neither riot nor excitement nor bloodshed; nor was there at any time the slightest apprehension of these things. Absolutely nothing took place

The beginning of this better day is the Socialist press, articulating the point of view of the proletaire, recast-ing and forecasting the history of the man who works; the man who makes course of the city's life, and a very quiet and locally unanticed strike, yet remake it for hisself—the world of The whole report of a revolutionary state of things at Barcelona, and the

Thus I hall with joy the hope of a Socialist daily newspaper in New York City. I am sure that it will be first of all an honest and disnified distribute of truthful news, of accurate and needed information. That which has made our weekly paper, The Worker, seem to me most significant has been the fairness and dignity with which it has presented both men and measures, whether within or without the Social-ist movement. In this it has set a mon and typical. It is a mere instance of the universal news system. The people are daily fed with what is pure puble stamp upon the Socialist four nalism of the future in New York invention or violent distortion, is order | City. interests of political and priestly re-tainers. It is well known that the dis-

THE MARCH OF THE WORKERS.

By Franklin H. Wentworth.

wrote George Ellet, "without proces-

....

Greatness, as typified by peoples, is the flower of solidarity. When men and women march together in proceed alons it is because their hearts are beaute ing to a common impulse. It is because they are moved by a common enthu-

A people with a common enthusiasm is a great people. Enthusiasm ob-literates rank. Touched by its celestial fire every man becomes a god—and for gets the trick of cringing.

Workingmen and working womencreators of the world-marching in procession; this is matter for the mod-

The procession of the soldier heads backward into the night; toward bru-tality, unfaith, the thumb-acrew and the darkened mind.

The procession of the worker heads forward toward the future, toward the plains of peace, toward liberty, equality and sacredness of human life THUS IT IS WELL THAT THE WORKER SHALL HAVE NOTHING

TO DO WITH THE MILITARY. A WORKER WITH A MUSKET IS A LIE IN UNIFORM. Don't fight. Don't run. STAND! and you disarm the world.

The worker who joins the militia is the unconscious enemy of his class. Do not believe the sophistry that it is well for Socialists to dominate the militia. Men are neither ensiaved nor frued by guns, but by ideas. The Mea of the musket destroys the

idea of liberty. Men will not be free until the musket is banished from the

Why do the organs of Capitalism exclaim in rage at the repugnance to mili-tary enlistment that is growing in the ranks of the workers?

Because Capitaliam knows that only as men are kept under the spell of the FIGHTING IDEA can they be mas-

When workers assemble in the stroyts, and cry out, and threaten, and make angry demands they can be shot down and cowed and driven back to work at last. They assemble for their own destruction and defeat, as Capi-talism looks for them to do, and preparts for.

BUT WHAT CAN THE MILITIA AND THEIR NEW RIOT-CAR-TRIDGES AVAIL AGAINST THE WORKER WHO AT THE FINAL SIGNAL OF ORGANIZED LABOR DOES NOT GO OUT IN THE STREET TO RIOT, BUT SITS QUIETLY AT HOME AND LETS HIS ECONOMIC MASTERS AND THEIR FAMILIES STARVE?

New York City is within a week of starvation. Let the milk carts stop running, the

of the Socialist press, I am often asked

for advice, particularly by comrades

young in the movement, upon the im-

portant question of the choice of books. One such letter, a type of

many, lies before one as I write.
"Please help me," says the writer, "I am willing and anxious to learn. But I don't know where or how to begin."

The letter concludes with a list of six

books which the writer had chosen,

"because they are often quoted in our papers." The list begins with Marx's

"Capital," the other five books being

Last!" Without casting the slightest reflection on any of the books, all of which might be read with advantage

by every Socialist, it is certain that

with the exception of the first, the stu-

of Socialism. Presuming that the com-

rade had no knowledge of economics to begin with, I have no doubt whatever that a careful study of the "Communist

Manifesto" would have been much

more adapted to his need than the whole six—including 'Capital." For to read the inter profitably some prepara-

lon is needed.

Now, I am not going to set out a reg-

ular course of study on the one hand, nor to compile a list of all the books on

Socialism which have stood the test of

specialized criticism or of time. The former task I may essay at some future

time, with the genial editor's coment, but in accepting his present invitation, I shall simply chat in a free and only way about some helpful books, some of which are, I fear, all too often neg-

Once, soon after I came into the movement, I asked an old comrade

what I ought to read. His reply was,

"Rend? Why, read everything!" Being young, I was somewhat staggered by the reply. Of course, I have long

since learned that to the Socialist, al-

most any sort of decent reading is help-ful and good. But, for the beginner, there is confusion in III-directed read-

ing, and the need of guidance is great.

To begin with the economic side of our movement: How many young con-verts there are who rush first to Marx's

"Capital," and, finding it beyond their comprehension, become discouraged. Suppose that instrad they had begun

their studies by a more or less tho

ough study of the history of economic

gin with, let the young student rend a

good sketch of the history of Pelitical Economy, my J. K. Ingram's "A His-tory of Political Economy" (Macmil-lan's), which is hurid, comprehensive

and comparatively inexpensive. Having carefully studied this, he will have acquired the "perspective" necessary to see Mark in his proper relation to the development of economic science. Now

dent could not possibly obtain fro them anything like a clear concepti

SOME HELPFUL BOOKS: A CAUSERIE.

By John Spargo.

In common with most of my conferes | Deville's "The People's Marx," or, even

read.

long line of vegetable wagons that I ady the spenders shall creep to your crawl all night over Brooklyn Bridge cease their deliveries, the trains and Sour world is then to build!

"There has been no great people," | ferries stand still for a single week, and the bloated and cruel faces that look to-day se contemptuously out of the windows of Delmontco's and Shorry's and the palaces in the Avenue will be drawn and white with famine

Rage and Terror will call for the milita—the old resource, the old idea; "te prevent violence and protect prop-erty." But there shall be no violence, and property shall never be threatened. A new idea shall rise to demonstration. NON-BESISTANCE shall raise its ban-NON-HESISTANCE shall raise its ban-ner in the silence. In the quiet streets of the city the soldier shall find no food for his cartridge—nor for himself. Into her bosom the Pale Lady of Starvation shall gather the soldier too. The bilence shall be terrifying. Here upon Manhattan Island the la-her of the American continues.

ber of the American continent casts its product at the feet of the Spenders. Thousands upon thousands of idle men and women est and est and dress and dress and waste and waste and curi gleaming breasts signalling the worn greating breasts migrating the worn lust of satiety, and no one cares at all. Night is made into unnatural day and high-noon finds the spenders stupified upon their pillows.

To these at last shall come the liveried lackey who has stiently hated so long but dared not speak. He shall

say, "There are none to threaten. You are free to drink and just and dress and THE CITY: THE WORKERS WHOM YOU HAVE SCORNED SO LONG, WEARY AT LAST OF TOUR INSOLENCE. HAVE STOPPED FEEDING YOU UNTIL TOUR LIP SHALL UNCURL AND YOU SHALL REARKEN TO THE CRY OF STARVING LITTLE CHILDREN."

Ab, how helpless! how helpless are the spenders when there is no one to naswer the bell. Hervice, to them, is not semething to give, but to be insolently exacted.

It is a hard lesson to unlearn, but it is vital and soon to be taught by the only capable instructor. This is the significance of May-day. the symbol of the play-time of the

workers. March, ob Workingmen! March in peaceful procession. March as the proof of your solidarity; as the outward world-sign of your slowly per-

fecting organisation.
Liut touch not the musket. Failure and chaos He that way. Pale Starvation, when you shall lead

her up out of the East Side and point ont her new walk upon the Avenue, shall de your utmost work. Organize and organize; and when not; fler not; stand! and before your folded arms the wheels of the world

shall cease their whirring. From under the rube of the Pale

better as I think, Hyndman's "Ecc

nomics of Socialism"—in my judgment the clearest aunitais of Mara extant. The study of one or both of these will

in most cases lead the reader to a direct study of Marx. Here again, I think the student will do well to be-gin with some other works of Marx

dozen such books as "Merrie England"

fronts the Socialist of this country. The rapidly growing sentiment for Socialism, the working-class tendency to-

wards independent political action, the

increasing number of industrial con-flicts and strikes, the futility of Civic Federations and Arbitration

Commissions to avert these conflicts and produce harmony be-tween, antagonistic forces repre-sented by the working class and

the capitalist class, we promulgation of decoy labor parties, the deteriora-tion and breakup of the Democratic party, the abject failure of the Repub-

lican party to handle the trust ques

tion, and the open activity of the capi-talist class in its opposition to Social-ism; all these and hundreds of other

when Socialists must prepare for the final struggle between Socialism and

For years we have been sowing the

seed for the riputing harvest. Social-ist papers and literature, agitators and writers, scholars and thinkers have

grown in number until they can be

found in every city, thwn and vilinge in North America. Our press extends into every state and territory, and turn

which way it will, the capitalist class

sees the doom of the present system written in an increased Socialist vote. All this has come to pass after years of work and trial on the part of men and

women pow living, and of brave souls

who have passed away ere the dream

they dreamed came true.
One thing above all others remains

for the Socialists to do at this time

The circulation of the entire Socialist

to attract larger and larger audiences,

and the capitalist class must give more and more attention to Socialism; but we must be organized to take full ad-vantage of the agitation, education and

publicity that will surely follow. We

must co-ordinate our efforts and con-serve our energies so that the forces that make for Socialism shall be crys-talized at the ballot box in an effective

demand for the Co-operative Common-wealth. It is imperative that the So-cialist Party be so organized during this year that electoral tickets can be

cominated in every state in the Union

To achieve this, the National Head-quarters must have money with which to work. We are developing plans by

which every state can be covered with organizers, and every Socialist enrolled as a party member. We must enter the national campaign with an organi-sation that will place the Socialist

thibute what you can to a Special Or-ganizing Fund, to be used by the Na-tional Headquarters for immediate or-ganizing purposes. We cannot have a strong and effective organization un-

HOW TO ORGANIZE LOCALS.

for the national election of 1904.

ress must continue to increase, our returers and speakers must continue

less we have organizers, and we can-not have organizers so long as we are without the necessary funds to an-sure their taking the field. While the regular revanue of the national office is growing steadily, yet part of this must go toward relieving the party of the legitimate fables which have

its. legitimate dabis, which have already been unsettled too long. These debts must be cleared as soon as pos-sible, and we have already begun a

systematic effort to bring this about.

The Special Organizing Fund will be used to the best advantage of the entire movement. Many states, al-ready organized, need assistance in

order to revive delinquent locals, to en-courage other locals, now working, and to organize new ones. If we can get

the organized states into a condition

where a steady revenue is assured the

respective state committees and the National Committee, the states will be strengthened and provision thereby

made for extensive operations in un-

organized states. An Organizer must be sent through the Southern states, where interest is growing, and where

organizations that will provide tours

for speakers must be formed. Inter-state tours for reliable organisers and speakers will be arranged. We intend

to make the national office the head-quarters for the best party lecturers,

conducting our propaganda, and at the

same time enabling this office to fulfill

its real mission as the National Agita-tion Bureau of the Socialist Party. All this can be achieved in a com-

paratively short time, Comrades, if you

will help do it. We know that the do-mands upon your meagre resources are never ending, but we wish to impress

you with the fact that \$1,000.00 expended for organizing purposes by this office within the next few months will return in increased revenue and mem-bership many times over before the

year closes; and we want, and should

have, at least that sum by May 1. We do not wish to go to the expense of

issuing subscription lists, but we re-

quest that locals get out such lists in

SOCIALISM IN THE SOUTH:

By National Organizor John C. Chase.

[Comrade Chase of Haverhill, Mass., well known throughout the country as the first Socialist mayor in the United States, has for more than a year been travelling through the country un-der the direction of the National Committee of the Socialist Party. eaking for Socialism. Last year be made a tour from East to West, be-gluning in New England and extend-ing to the Pacific Coast. He was then chosen as the first Socialist speaker to carry our systematic propaganda into the "Solid Bouth." At our request he has given some account of the condiof the South and the needs of the movement, as he has seen them. The Worker heartily endorses his pleas for a continuance of the work that he has begun and urges the most liberal support to the Nationtal Committee

You have requested me to write ething for your May Day issue on my tour of the South, and I gladly comply, as well as time and opportun-ity allow. There is much that might well be said about the Socialist movement and its possibilities in the South, which cannot be included in an article of this kind. However, there are some conditions existing here that exist no-where else in America, which should be known by all Socialists, because of their bearing upon the national move-

Dixon's line now for three months and have addressed meetings in important Louisians, Alabama and Arkausas. these states conditions are as much difstates as one can imagine. There are three conditions especially, which stand out from all others as powerful

Democracy, so-called, in complete con-trol of affairs political. The Demo-cratic party has no competition and has a machine that for corruptness and rancelity cannot be duplicated anyere on earth. No matter how many tes may be cast against them, they still remain in power, because they do the counting. Thousands of citizens refuse to vote any longer, as they con-sider it a useless effort. So the old crowd centinue to run things to suit

of the South. The fear of negro dom Ination keeps thousands of people who are thoroughly disgusted with the Democratic party still voting that ticket. Many of them-and the number ost unlimited-would vote for difference between social and indus-trial equality. This particular phase is the one above all others that makes it hard to win people from the Democracy to the Socialist Party. Yet the

The third important condition is the fact that the South, in many ways, is no different industrially from what it Bran a quarter of a century ago. In many sections there has been no industrial development such as has taken place in almost every section of the North, and the people are drifting along in the same old conservative

ple get an existence fairly easy. They have no fuel problem and can live in any old kind of a shack and keep warm. Bo long as they live they seem to think that the world is moving along very

where the same capitalistic develop-ment is going on and the same tyranny ion exists as in the North Here we find Socialism fast gaining favor.

The people of the South have heard ry little of the subject, and what they have heard has been largely the misrepresentation of the capitalist press. When Socialism is once preated to them as it really is, they are

places and will at once organize a state Florida has something like sixteen locals and a good state or gardination. These two sintes are un-doubtedly a most fertile field for Soulism, and I think they will lead other outhern states in the movement.

My experience of three months' work In the South teaches me that this entire ction, notwithstanding the many peized for Socialism if we do the neces mary work. The South will play an im portant part in the final struggle for Bocialism in America.

The capitalist newspapers are al-ready anying that the South is to be relied upon, through the natural conservatism of her people, to help put down Socialism. Some of them have even proclaimed that her people will rise up and help subjugate the unruly sworkingmen of the North if they should attempt to overturn the capital-ist system. The South will, of course, have troubles enough to look after at home. Still, if this be the idea, it is well that the Socialists of the country should consider the work of propa-ganda in the South. It strikes me as very important that every effort should be made at once to organize this part of the country, so that our movement will have no weak or vulnerable point anywhere in the Union. There is no difficulty whatever in getting a good

in to speak.
There are but few active workers who are able to do anything outside of their own localities. With assistance from eutside for a few months scores of places could be brought into line and the movement placed open a self-surtaining basis. Missionary work at this time through the South would be "The heritage comes back to all! "The myriad monarchs take their cwin."

working body wherever a man can get

My task as a pioneer has been somewhat difficult at times, but the next one who comes along will find it much easier. I have spoken in many place where no man ever spoke on Socialism before. In some of these places the ring would have enjoyed running me out of town, but did not quite dare de out or town, but and not quite dare do so. In most places I have received good press notices and in nearly every case have been importuned either to come back myself or to send some other-speaker to them. I shall undoubtedly go through a part of the same territory on my way back to the North on my way back to the North.

I could write enough to fill a bool about the slavery of the wage-worker in the South, if time or space would permit. I am satisfied, from what I have seen, that the brutish and demoralixing conditions existing bere have never been exaggerated by any writer upon the subject. At one cotton mill in Georgia I saw scores of little balfdead white children emerge from the gates at noon, emaciated and gaunt, while on the next street there was a troop of colored children on their way to and from school—a phase of the race question which decidedly staggers a Southern audience when I call their attention to it.

Bitting in the railway station one day recently in a Mississippi city, I ca-gaged in conversation with a lounger, who turned out to be a weaver in one of the militathem. I asked him should of the mills there. I asked him abou the wages and hours for weavers and he said-rather proudly, too-that he did very well, as he made one dollar a day by running eight looms for twelve hours, while there were many other men working twelve hours for anywhere from 50 to 75 cents per day. And yet we are told that salary was abolished a few years ago!

Speaking about slavery reminds me of an incident which illustrated how far we are from it now. While standing on the banks of the Mississippi at New Orleans, watching the raging river trying to burst its bonds in its mad rush to the sea, I saw a big river steamer loaded with cotton lay to at the dock. The gang-plank was lowered and the man in charge of her cargo the work of unloading. Instantly there were hundreds of hands outstretched to secure one of the tickets which be gave out to the chosen few who might, by the possession of one, be allowed a master for a few hours. Such a pull-ing and hauling of each other I never saw. The hig burly fellow giving out the tickets was alert for the big burly fellow to give the tickets to. He swor and cursed at the crowd, giving a re buff to this one in the form of a curs and to that one in the form of a kick until he had as many as he wanted, about twelve in all, perhaps. The lucky ones went aboard singing. Most

of the past and the one of the present, loomed up before me, and I realized how little has actually been gained in the change from one form, where a man was sold into slavery for life with a master to look after him, to the other where he sells himself into six very on the instalment plan, a few hours at a time, and looks after himself. I presume, however, that if I had told them then and there that they were still slaves they would-have felt like throwing me into the river.

Yet this is the very thing that must be done. They must be made to see their condition and the needlessness of it and the way out of it to the freedom

If a fund could be got up to send speakers through the South to follow up the work we have already begun the results would be more valuable than anyone can conceive who is no

familiar with conditions here. The Southerner is not such a hustle as his Northern brothers, because of climatic conditions, and while the So-cialists are working hard, they do not carry on the vigorous campaign of education that we do in the North. A Northern speaker of good judgmenton do much for Socialism on a trip through the South. But let me say here, that he must be a man of good sculty in organizing locals of the party judgment and cool head if he is to keep out of trouble. It is like trying to walk the unorganized points. In Florida on eggs in some parts of the South for been organized at the close of my needings. But say man who meetings. with the best of success and kind

and Alabama several new locals have a man-narticularly a Northern mantreatment. The Socialist Party is the only one that can cut into the politics of the South and with the proper amount of work toward building up the movement now, the time will come when the South will be as eager and enthusiastic in the movement as the

North. If there is any spot on earth where Socialism is needed it is here. Van Buren, Ark., April 2.

THE HEIRS OF TIME.

From street and square, from hill an Of this vast world before my door,

I hear the tread of marching men, The patient armies of the poor.

I watch it through the evening dampe The masters of the world are there Not ermine-clad or clothed in state

Their title-deeds not yet made plain, But waking early, tolling late, The heirs of all the earth remain. Some day by laws as fixed and fath

The blind shall see, the lowly rise
And work in peace Time's wondrous

THE MOVEMENT IN INDIANA.

- TERM U.A By State Secretary James Onesi.

The Socialist movement of Indiana practically dates from the Unity Convention of 1901, which placed the reponsibility of the movement in each tate on the comrades who resided there. The state had been organised practically dates from the Unity Constate on the comrades who resided there. The state had been organized prior to that time, but no systematic agitation was carried on. Since that time our prepagands has invaded al-most every county in the state, and a total of fifty-one counties out of ninety-two have been chartered, though all

the locals have not survived.
In 1900, twenty-four out of ninetytwo counties contained no Socialis votes. In 1902 the number of counties casting no Socialist votes was re-duced to eight. The vote in this state increased from 2,223 in 1900 to 7,134 in

At the state convention held in Terre
Haute in July, 1902, John Ray was elected as State Organizer and made the most successful organizing tour of all who have worked in the state. His work covered a period of three months during which he spoke every night. Meetings were held in seventy-six cities, and from thirty-two of these came applications for charters of the Socialist Party. Some of these locals have not survived, but we expect to revive them this summer, and these, to-gether with those cities already main-taining permanent locals of the party, will provide us the means to invade avery county in the state and to occupevery county in the state and to organize for the contest of 1904.

no doubt, be the largest ever held in Indiana, and plans will be perfected for continuous work every month in the

One algnificant phenomenon in this state is the organization of farm laborers in the rural districts in the southern part of the state and of workingmen in old and heretofore reactionary towns like Vincennes and Bullivan, both of which also have locals of the Socialist Party. The system of capitalist rule is gradually shattering old illusions and ideals which form in these isolated cities and bringing them in contact with the large industrial centers. The trolley car is also knitting them to-gether into the common fabric of capi-

At the same time the larger cities are developing a nomad proletariat by the absorption of "independent" plants by the great industry and closing the smaller plants or working them halftime. This is especially true of the

that great "blessing" which capitalism can no longer bestow—a steady job. At the same time capitalism, ever on the alert in defense of its interests, is preparing for the struggle with its "brother," Labor, which these tan-dencies indicate will occur in the near future. Riot cartridges containing two bullets instead of one have been sui tuted for the cartridge formerly sup-plied to the militia. The weekly pay law and the law fixing a minimum wage on public work have been de-clared unconstitutional. David N. Parry of Indisaspolis, Fresident of the National Asociation of Manufacturers. an exploiter whose frankness is re-freshing, aids us by proclaiming the class struggle in his bulletins to his fellow exploiters; and the indiscreet

Beveridge still sits in the Senate.

The great daily papers have broken the conspiracy of stience and now pay their tribute to our strength in pr found editorials urging their readers to 'eyidences, apparent on very side, avoid the 'red specter' which threat- 'about teach us that the time has come ens the supremacy of the class whose 'when Socialists must prepare for the interests have been entrusted to their 'final struggle between Socialism and jenious care. Even the Catholic church has imported the vulgar Father Sherman to lecture in those cities where our comrade, Father McGrady, recently spoke for Socialism.
Is any other state blessed with but-

ter conditions for Socialist propagands; than we? How many can boast in ad-dition to the riot cartridge and a faith-ful capitalist judiciary, such horrible examples as Parry, Boveridge, and Sherman? We are certainly well fa-vored in this respect, and when the working class raise their standard on the dome of the state Capitol at Inwho are charged with the defense of

capitalism.

The comrades are alive to the situa-tion in this state and the summer months will witness the most active agitation yet waged. Speakers are be-ing occured and routes arranged for this work and we are confident that we will maintain our ratio of increase and cialist and we should not rest content till ve have every professed Socialist

There is peace, you say. I believe you. Peace? Ay, we know it well— Not the peace of the smile of God, but the peace of the leer of Hell; Peace, that the rich may fatten and

barter their souls for gain; Peace, that the hungry may slay and rob the corpse of the slain; Peace, that the heart of the people may

rot with a vile gangrene.

What though the men are bloodless?

What's a man to a machine?

Have you come with your economies

If ever the Devil designed science, 'twee yours, I doubt not, a study to Heli's own mind, Merulesa, souliess, sordid, the science of selfish greed, Blind to the light of wisdom and deaf

to the voice of need. And you prate of the wealth of nations, as if it were bought and sold. The wealth of nations is men, not silk

and cotton and gold.

cost of knowledge and art? Is honor vained in banknotes? Can you pay for a broken heart? Can you reckon the worth of a poem by a standard of meat and drink?

Can you buy with gold and silver a heart too great to shrink?
Tell me, how many dollars will pay for

the lifeblood shed

From the veins of the true and vallant who feared not and are dend?

Battle is fearful-I grant it. The fields are burnt bare with its breath. Death and the wrongs of women that cry out louder than death,

The grime and the trampled faces and the shricking of shells in the air, there comes no help for their

prayer, And Eamine that follows the armies These are fearful alike to the soldiers that strike and the cravens that

But there's yet one woe far worse than war with its griefs and graves— To sink to a nation of coward, syco-phants, thieves, and slaves. There is one thing for man or nation

more within man's control

And worse than the death of the body,
and that is the death of the soul. But the sins of the city are slient and her ruin is wrought by stealth And the sures that fester are cloaked and her rotteness masks as health.

True peace is a holy thing-the peace God gives to his own,
Heart's peace, though the body move
where the thickest shot is thrown,

Deepe of peace forever unplumbed by a mortal eye— But the peace of the world is the Levil's, a mockery and a lie,

Better city arrayed against city and hamlet with hamlet at strife, se valor outweigh lucre and honor be more than life.

-Richard Hovey.

LINCOLN ON LANGE.

In my preent position I could scarcely be justified were I to omit raising a warning voice against this approach of returning despotism. It is the effort to piece capital on an equal footing with, if not above, labor in the structum of government. Labor is priot to, and independent of capital. Capital is youly the fruit of labor and could favor have existed it labor and could favor have existed it labor in the superior of capital and deserves much the higher consideration.—Message to Congress, 1906.

of Secial Democratic Party. The party emblems in New York is the Arm and Torch.]

The Socialist Party of America in antional convention assembled, reaffirms its adherent of the process of international convention as a superscript of international convention as a superscript of the process of a respective process of a respective process of a respective process of government and using them for the purpose of granaforming the present system of private ownership at the means of production and distribution into collective ownership by the entire people.

Purserry the tools of production were simple and owned by the individual worker. To-day the machine, which is but an improved and mayor developed tool of production and distribution in the production of the means of production and distribution is responsible for the expension of the means of production and distribution is responsible for the ever increasing uncertainty of livelihood and the powerty and missery of the working class, and it divides society into two hostile class——the capitalists and was expensively in the milit of competition. The struggle is new between the capitalist class and the working class. The possession of the means of livelihood of the government, the production is the pulpit, and the schools, and enables them in reduce the workingmen to a state of intellectual, physical and social inferiority, political asbeservience and virtual limits the connomic interests of the capitalist class dominate any entire social system; the class dominate any entire social system; the

feriority, political subscrivence and virtual slavery.

The economic interests of the capitalist class dominate our entire social system; the lives of the werking class are recklesply accelinged for profit, wars are fomented be-tween nations, indiscriminate slaughter is encouraged and the destruction of whole wars is sanctioned in order that the capi-talists may extend their commercial domin-ion abroad and enhance their supremacy at home.

IMMEDIATE DEMANDS.

propectied ciases.

While we deciare that the development of evenancia resulties sade to the overthrow of the capitalist system, we recognise that the time and manner of the transition to Socialism also depend upon the stage of development reached by the prolutants. We, therefore, consider it of the utmost importance for the Socialist Party to support all active efforts of the working classities to political offices, in order to facilitate the attainment of this end.

As such means we advocate:

1. The public ownership of all means of transportation and communication and all other public utilities, as well as of all including the stage of the second of the control of the service and disminsing the ment of the service and disminsing the second of the control of the service and disminsing the flaton of the service and disminsing the second of the control of the service and disminsing the second of the control of the service and disminsing the second of the service and disminsing the second of the service and disminsing the second of the control of the service and disminsing the second of the control of the service and disminsing the product of labor.

2. The progressive reduction of the boars of labor and the increase of ware in order to decrease the share of the worker in the product of the service of the worker in the product of the administered under the control of the working class.

4. The innequariation of a system of public discussions and the service of the boars of the control of the working class. their respective localities. There are many sympathizers who will subscribe to our fund if their attention is called

be administered under the control of the working class.

4. The inauguration of a system of public industries, public credit to be used for that purpose in order that the workers be secured the full product of their labor.

5. The education of all children up to the new of eighteen years, and state and musicipal nid five backs, clothing, and foods.

SOCIALIST PROGRESS

IN OLD MASSACHUSETTS.

By State Secretary Dan A. White.

tion should be taken, and as far as it is possible, the Socialist should sparate himself from his outheatem and consider, not his lopes nor desires, but the facts as they present themselves across the political and industrial horizon.

sinte at the last election was as much a cause for alarm to the ospitalist parties as it was for pleasure to the Socialists. Immediately the results of the election were known, the capitalist press evinced a condition of mental hysteria, which evidently obtains even up to now. During the campaign, the newspapers in general pursued a policy of allence as far as our efforts were concerned. In many places we held meetings on the same evening as the older parties, who brought into the older parties, who brought into the places meet of great reputation is state and actional politics. Their essettings were advertised parades with brass hands were held prior to the meetings, and the records diversed. nands were held prior to the meetings, and the people after reviewing the pe-rade and intening to the music, passed by the halls in which the old-party railies were being held and attended the Socialist meetings. Numerous in-stances could be cited where, after the stances count no cited where are com-managers made this great effort, com-paratizely few were in attendance be bear them so-called heavyweights of the eid parties, white the Secialist fulles were large and enthusiastic. On the following morning those interested in Socialism, after purchasing the capi-talist papers, would look for a report of the Socialist meeting, only to fine that it had been entirely ignored, white columns of space were given to the old party speakers. During all this time, the only admission or anything in the the only admission or anything in the nature of an admission that the political atmosphere was chilly, as far as the old parties were concerned, was the repeated utterance that the people were no longer interested in attending political rallies, that the time for this form of campaign had gone by. Now all this was in the with the newspapers' policy of ignoring the trend towards Socialistic thought, and striving the bids from the month of earlierne. to hide from the people the evidence of this great and growing sentiment.

When after election, they saw that their policy of allence had talled, they immediately began to find excuses for the increased vote for Sachtism, and each paper found a different cause. The Boston "Herald" claimed that the reason was that the reason was that the reason was that the reason was that the people desired to reluke the Republican party for per-sisting in mominating for Governor the man who and served as Lieutenant-Governor, and that this accounted for the increased vote for our goiserator-ini candidate, Josa C. Chase. Whey they discovered that John Quincy Adams, our candidate for Liquiemant-Governor, had received six thousand more votes even than Chase, they rec Ognized that they had one more guess. Then they fail back on the coal situa-tion, and said that "when that simation becomes normal we would need a microscope to find the Socialist vote."

Well, in the city elections, which came about a month after the state election, our share of the total vote ast was, 14 per cent., while in the fruine was still oppressing the psople and so the old-party press still continned to tender that as an excuse fo the increase in our vote. They said: Wait until the situation becomes normal. There is really no cause for minrm to the capitalist interests.

Then we came down to the month of March. We were blessed with splen-did selid weather and the prices of coal had been battered down to very near the normal level. Then came the town elections. It was the fairest test of the permanency of our increased vote that could be had. In these town electhe town become neighborly; much of the rancer attending political affairs is buried, and men view each other in the individual light of neighbors. If our vate was to decrease, it was certainly in these elections that the cream would come. But when the ing than that which had been registered

ratio that it has from November until March, we would carry this state for exactly anticipate being able to do this.

But we are confident that we will show
a great increase in the vota over the the Socialist Party in next fall's state east at the last state election, and we base our belief upon a knowledge of the conditions throughout the state. We are better organized that we were last of thoir time-wern ruts, our people here year, and we are steadily continuing in | move rapidly. the betterment of that organization, and every member added to the roster of clubs immediately becomes a cam-

There are those who feel some sharm at the apparent intention of the Republican National Committee to concentrate its best efforts in this state to pipose the work of Sacialists. But the closest observers of the situation believe that by so doing the Republican fenders will but aid us in our work.
Every attack that they make upon 80.
There is something wrong cinitian gives a botter opertunity for the Recialists to be heard. The National Socialists to be heard. The National Secondile League has among its mean-bern Socialists from all over this state who are receiving the League's literature and premiptly and patiently explaining the fallacy of the watern from their sinudpoint; so that in their endicavers to tear down, the directors of this League are simply civing as the this League are simply giving us the material with which to build up.

The newspapers in their present exti-tude of attack are keeping the four be-fore the people. It is noticeable that they have alumidaned their fugurer pa-sition of charging us with being Amer-chists, and now their ery in, "Atherem and free-love." They will be as suc-cessful in combatting Socialism with those two subraces for wearners as they these two phrases for waspens as they prore with Amarchism. Their pretend-ed friendship for the trade union to tee-

In endeavoring to minime the flocialist movement in Massachusetts, it is essential that a calm view of the situation should be taken, and as far as it is possible, the Socialist should separof the Manufacturers' Association at their, conventions at New Orleans and slowwhere. These, with the publication of awards for damages, no in the suit of the Patch Company, of Rutland, Vt., against the Machinists' Union and the injunctions tying up the little property that members of the trade union might hold, are understood by the trade union-ists to be inconsistent with love for the wage-worket. We can afford, despite anything and everything that our opponents may do, to be thoroughly operated as regards the situation in Massachusetts. We care not what they

may about us as long as they say some thing.
To close with one recent event—an other straw to show the way the wind blows: A special election has been held in the town of Braintree, a vacancy oc-curing on the Board of Beleetmen. The opponents of Socialism agreed in selecting a Republican ax-Senator, admittedly a strong man. In the state election, our candidate for Governor received 193 votes in that town, out of a teinl of 861. In the special election, out of a total of 451, our candidate, Comrade Gerry, received 212 to his opponent's 287. Braintree lies ten miles from Boston. It is a staid old town, made up largely of old-line American stock, and despite the appeals to prejudice of every kind, religious, racial and otherponents' policy has upon the Socialist movement in this state. All is crist oming to our mill. Boston, April 17.

SOCIALISM IN MAINE

By State Secretary F. E. Irak.

the land, and that even conservative Maine feels its bracing influence is evidenced by the rise and steady growth of the Socialist movement in this state. First entering the political arena in

the state campaign of 1900, with a vote that year of 632, which was in-creased in the national election of No-vember to 878 for Debs and Hariman, the Socialist Party of Maine has not taken a single retragressive step. Every time we have gone to the polls we have registered another turn of the wheel of registered another turn of the whom of progress. Our 632 votes in 1909 grew to 1,073 votes in 1902—an advance of more than 255 per cent in two years. Our party memberahip increased in about the same ratio.

But gratifying as the results obgetic workers may have been for the past two years, the change in public sentiment and increased growth of the movement during the first quarter of 1903 is still more satisfactory.

In the spring elections just passed, nine cities and towns returned 1,920 votes for our ticket, or within \$3 of as many as the entire state vote aix months ago—a gain of 162-per cent, over the vote of these same cities and towns at that time.

The organization is keeping pace with this increase in the vote, seven new locals having been chartered since January 1, while several of the older locals have nearly doubled their membership. In addition to the agitation incidental to municipal campaigns, the circulation of our petitions asking the State Legislature to pass an act enabling cities and towns to establish municipal fuel yards has proven a splendid propaganda method, having epened the doors of thousands of homes to the introduction of Socialist litera-ture and the discussion of the prin-ciples of public ownership and operation of public utilities. Best of all, it tion or public utilities. Rest of all, it has proven the means of putting the movement in friendly relations with fully one-half of the trade unloss in the state, and on a hasis which precludes all possibility of fusion on our part, while at the same time minimizing the danger of an "independent labor party"

movement on their part. While not attempting a forecast of in the cities.

If the trend towards Socialism should the same policy of keeping out of debt, of the powers. Both the old parties eternally and untiringly working, and made the most determined effort ever holding every inch we gain must, if known to this state. They resorted persisted in, ultimately result in plac-

BUY UNION MADE GOODS.

SOCIALIST PARTY IN OMIO.

By State Secretary W. S. Critchlow.

The Socialist Entry movement in to reach them. Already two locale one organized among them and they are other more interest shown, more litters ture distributed, more speakers hat harmon, more organization work done, or more organization work made organize that we could knop now the property of the continuous circuits for optically work in hed standing, not having paid summer speakers are going to be a

at the present time.

Two years ago we had but sixteen locals organised, and several of those were in had standing, not having paid dues for some time. The work has been constantly pushed, even under the most adverse circumstances, until the most adverse circumstances, until organiser can be placed at work following the convention and thus get the convention and these gets the convention and the get t the most access circumstances, data to-day there are forty-five locals and thirty-three branches in good standing, with a membership of over 1,000. The organization has grown from a

The organisation has grown from a mere weaking with a very lax business method to a recognized party with a cohesive organization working in harmony upon a most orderly and systematic basis. A permanent state headquarters is maintained with a secretary who devotes his time to the duties imposed upon him. The work at headquarters has inceased to such a system that an assistant will soon an extent that an assistant will soon be a necessity and already the corre-spondence amounts to over one thou-and letters each month in addition to the samy postals and packages that are daily sent out. Thousands of pieces of literature are handled weekly and forwarded to the various parts of the state, either upon orders from organized points or sent into unorganized

locals starged.

One of the obstacles that we have had to contend with in the existence of the S. I. P. Although they amount to very little here, yet they get many of our votes by reason of being nicely and the start of the st lowed a position upon the efficial bal-let. In the fail of 1902 they lost ex-actly 1,100 votes in the large cities and gained 1,000 in the farming districts, leaving them a net loss of eleven rotes for the head of the licket as compared with the year 1001. They had made no propaganda whatever outside of three or four places, and these 1.83 votes were all intended for the Socialist Party, but by mistake were cast for the S. L. P. In the cities, where they had held some meetcities, where they had held some meetings and put out literature, their vote actually decreased. We have, however, devoted but little attestion to them, as we can see the trend of exents and it will be but a short time until they will be completely out of axistence. This is doubly proven by the fact that they have been found with se many fraudulent petitions and in some places have been defied position upon the ballot for this very reason.

During the campaign of 1902, when During the campaign of 1902, when we were fighting for official standing, everything possible was done to reach the isolated Socialists and those in sympathy with us. The state officers collected the names of about ten thousand who were supposed to be Socialists and used every available means at their command to get in touch with them. Out of this first we built as good a working force for Socialism as could be desired, and yet they were mostly outside the organization and were living in places where no local were living in places where no local could be organized. Thousands upon could be organized. Thousands upon thousands of pieces of literature were given them to distribute, in the hope of building up the vote in all the countries in the state. The results pleased the state officers beyond expression. For the first time Sociality votes were cent in every county in the state. were cast in every county in the state The largest gains in percentage were The largest gains in percentage were made in many of these places, al-though the best results as a whole were shown in those places where sys-tematic work was carried on. The vote increased from 7.359 in 1901 to 14.270 in 1902, and official standing

was gained. The next obstacle that we had to contend with was the acts of a special acasion of the Legislature which adopted a new set of "Code Laws" for the government of municipalities in Ohlo. The new laws were a com-plete revolution in municipal govern-ment. Everything was changed and increased appointive powers delegated to officials, salaries in the main were left to the city officials to fix, an en-tire new set of officials were to be chosen in the spring elections and the change of government to take place on Mny 1, 1903.

Municipal Councils then met and fixed the salaries of the various officers, and in many cases they were in-creased three to five fold.

to all known forms of trickery as well an every method of legitimate caro-paign work. They followed the Socinlists and held shop noonday meetings, open-air meetings, ward meetings, band parades, as well as making it a hand-to-hand conflict by the large number of candidates in the field with their patronage already distributed before the election.

The results were as expected and an The results were as expected and an immense vote was polled nearly everywhere. The work counted and they got the vote out and the people were excited as much as though it was a national campaign. The Socialists were there, and in spite of the fact that all our opponents claimed that it was a "mo politica," "best man," "good city government" campaign, etc., the Socialists not only held their own but in many places increased the vate two, three, and four fold. As a whole, it was a good increase over the large vote poiled but five months age, and as a result there is again an increase of activity shown by the reports reaching headquarriers and preparatures. reaching headquarters and prepara-tions are being made for the fall cam-

paign work. This full we elect a Governor. That is, we are going to try to elect one. It is hoped that the nominee will be a is hoped that the monner where the including who can go into the field immediately following the convention and stay there as did Chane of Massachusetts and Hanford of New York. We have the greatest field about of as fer work that we can imagine. The mining fluctions of the state have just been invaded, and we have now three good locals of minors. This is but a start, and we should have at feast fifty. Two sections of the waste are inhabited monity by activative that we must make afforts.

lowing the convention and thus get the state well organized before the coming election.

As a whole, we can say that there As a whole, we can say that there was never a time in our work when everything looked so irright as now. It is as a continuous performance where each succeeding act is better than the preceding one. Every day gires us added hope. We see the greatest future for the Socialist Party of Ohio of say in the country. We have the meet fortile field for proporanda and as large, for the cause of the working class and justice. The the working class and justice. The comrades in Ohio know how to work commutes in Onle know hew to work in unity, and they seem to be taking ready advantage of the wonderful opportunities that are now before us. We are drawing up a line of battle in this state now that will be fruitful of great results in the time to come. The challenge of the plutes has been accepted and we recognize that it is a accepted and we recognize that it is a fight to death, and it is Capitalism that will die. We will fight squarely, openly, and cleanly, while capitalism will cover itself with a mask and use assumed names, but we will fight on till the capitalist forces shall no longer be able to find a Jones, a Johnon, or an Ingalis to hide behind, and then victory will be with us. Workers, close ranks, unite, and the state is ours! Hurrah for the fight!

TOLEDO'S RECENT CITY CAMPAIGN

By Chas. P. Martin

The Socialist Party nominated a full city ticket, as well as ward tickets, headed by Comrade Thomas A. Bragg for Mayer—a working union machinist, of whose ability and character we can all be proud. The Democrats nominated a banker. "Golden Rule" Jones had his nomination positions pre-pared, but did not file them un-til after the results of the Republican primaries were known showed the administration to be in control. Their nominee was a man whose connections caused scores of Republicans to vote for Jones on Election Day, not that they believed in what Jones was preaching, but as a re-buke to the machine in their own party. Jones had the solid support of the saloons and the sporting frater-nity, and all know what that means in a city like this. In filing his nomination petitions a committee was named to fill vacancies on the "ticket," a move to prevent any other name ap-pearing in the column allotted to the "non-partizan" candidate on the official ballot, for he will have no one on the ticket with him-which is an absurd-ity, considering that the executive without legislative backing is power-less, except to advertise himself.

Jones' appointees on the city Board of Elections (Democrats), at the satisfication of the Jones managers, disregarded the rule and practice and placed Jones' name in the column at the extreme right of the official ballot (a column for one name), where the ignerant could easiest find it. Over 2,000 ballets were cast for Jones and no other candidate. The result was: Jones, 10,230; Republican, 7,501; Demo-crat. 4,290; Rocialist, 539. The other candidates on the Socialist city ticket The Republican city ticket, except Mayor, was elected by pluralities running from 1.666 to 4.889. These figures show a striking example of here

The "Appeal Army" in Tolede were

City.

en-without a party." The day before election several thou-sand copies of Hearst's Chicago "American" were circulated in this city with a full-page illustrated write

On Sunday, March 29, before the Business Men's Conference of the First Congregational Church, Jones de-clared point blank that he was not a Socialist, but his sentimental follow ers insist that be is.

Jones hired the halls and tent, furnished his Golden Rule Band, a quar-tet of colored singers, and the litera-ture. "He's a good fellow," but he would not be "in it" without his money. His meetings were a cross be-tween a revival meeting and a vaude-still when you and receive and contitween a revival meeting and a vaude-ville show, made up of songs and senti-mental stunts. The day following election be paraded the streets singing songs, followed by his band and some fifty people, part of whom carried brooms, a sort of "SI Perkins" parade. In 1800 Jones received 10,772 votes.

for Mayor: in 1901 he received 12,401, and in 1903 he had 10,350 votes—which indicates about when the era of "brotherly love" may be expected 10 arrive. It required the cloud-climbing, imagination of an imported word-painter to picture this as a world

Local Toledo has carried on a quiet educational campaiga, knowing that the social problems will never be solved by lavish philanthropy of wealth created by others, any more than by sestimental appeals and songs. Brang, the Socialist candidate, received votes in nearly every precinct in the city, and this vote backed by class-conclous argument and the logic of events will create a forcialist movement in this city that can be depended on at all tieses. We know that more votes sury mean mobbing. We are use as consists for make a decoming as an

inglinitat ridge.
In every industrial conter in the land In every industrial contex in the innd-the organized workers have wreated concessions from the enemy in the shape of higher wages, reduced work-ing time and improved conditions in the shop and factory.

The advantages gained by Lahor and the fear that the workers will struggle for atili more has made the capitalist claus appreliensive, and well-planned moves are being made to sheek the

moves are being made to sheck the growth and destrey the power of the proleinrian army. In fact, the bustle and bustle in the camp of capital resembles a panic. Organizers are rushing hither and thither and forming local Civic Federations to arbitrate and compromise questions that arise be-tween the two hostile classes; so-called Economic Leagues are sending out tous of literature to "aducate the work-peotile" and show the impracticability of Notalian and the unreasonableness of unions; more organizers are hurriedly going from city to city to combine the capitalists into Manufacturers' Asso-clations; the heavyweight editors are writing miles of atuff meant to "mold nubile opinion" against unious, strikes and boyrotts; the sudden affec-tion that is shown by Brother Capital and his newspaper and pulpiteering apologists for the "son-union" and the "independent" workingmen and strike breakers and scale; the starting up of spying agencies and laformation butreams that compley a regiment of con-science!eas minions to aneak into unions and betray their business—all these daily developments are signs of the times that point out the fact that the class struggle is becoming more in-tensified and so plain that the most obtuse mind can grasp its significance.

trial center have had opportunities to learn the damage that has been caused by the reckiess burling of injunctions, on the part of the capitalised courts, at a critical point in a strike or boycott. But if the attacks of the judiciary have created havec with their injunctions, it was only a mild skirmish compared to the ominght that is coming. For a year or two the diplomats of capital-ism have been tailing us that the labor organizations ongit to be incorporated so that they might be legal institution and have a standing in court. The unions refused to be ambushed. The felt that they would be dragged into court and their funds confiscated in drange suits, which would mean their complete undoing for obvious reasons But new the profit pizates are inaug-

mating a campaign of confacation anyhow. They are suing unincorpor-ated labor organizations. As we have seen, the unionists of Eutland, YL, were mulcied out of \$2,000 damages for sufficient and polarities a seek above and striking and picketing a scab at there are also test cases about to b made in Waterbury, Conn., Dayton, O.

and several other places.

When the Taff Vale railway decision was rendered in England, in which the railroad workers' union in that country was bled for \$115,000 damages, the American capitalists received their cus. The precedent established across the water was eagerly seized here and in the future we shall have to face the

In the eyes of capitalism and its In the eyes of capitalisms accord courts properly rights are more sacred than human rights. Laker, owning set than human rights. Laker, owning set railroads, shops, factories and land, has no standing in court. Just as the capitalist can secure an injunction against the worker and the latter is de nied the right of obtaining an injune tion against the former, so the capital-ist will be given the opportunity of aning the union, but the union cannot sue the employer. In other words, if the men strike and boycutt a shop, they will be made to sweat; but if the capitalist locks out his employees the latter can suffer and starve and buve no redress. It's a case of "heads I win,

What's to be dene? Well, since the demand of labor for protective laws has been met with con-tempt by Congress and the various State Legislatures, there is nothing else left to do but "turn the rascals out." Labor is the vast majority and the organised part of labor ought to take th lead to make good use of the power of that majority. Labor can capture the strongholds of capitalism—the governing institutions-whenever it sees fit

The trade unionist should join the Socialist party, the new abolition party that will emancipate the wage-slaves. and prepare to take the machinery that makes, interprets and enforces jug-handled laws into their own control. The spiendid gains made by the Social-ist party last fall and the still further increases in the municipal elections this spring is proof that the progressive and thinking workingmen are rapidly failing in line with the yeang political giant who will contest every inch of ground with the capitalistic Republican and Democratic parties. Bvery new Socialist Party vote is one step nearer the co-operative commonwealth in which there will be no injunctions, damage suits, union-smashing associa tions, spying agencies, etc. These evils are born of capitalism, but they will

Cleveland, O., April 17.

THE MEANING OF MAY.

How is it that in the spring the workman's fancy lightly turns to thoughts of strikes? Whatever the on may be, it is a fact that fourfifths of the great popular movement have begun in April, May or June.

The French revolution began in Lay, 1789. The battle of Laxington was on April 19, and Bunker Hill on June 17. The Chartist movement of England came to a head on April 12, and the great Lahor Day of Europe has for centuries been the first of May.

Winter, especially to the poor, has always meant hardship. It is the sea-son when the struggle for life is the most streamons and fatal. The op-pressed peasant or wage-worker shrinks from any trial of strength with its economic antagonists in the inciement winter months, when failure would most likely mean bunger and

But with the spring comes hope, "I feel as though I were budding out." anid a New York social reformer recently to a friend, on one of the lamb-hike days of March. The push of the summer's life is felt not only in the trees and the flower room, but in the hearts of men as well; and therefore thousands of workers who have hith-erto endured what they knew to be unfair treatment instinctively refuse in the springtime to endure it any longer.—The Laber Union, Toledo, O.

. SOCIALISM IN NEW YORK.

There is probably no portion of the Interest of the States—excepting, perhaps, ome parts of the agricultural Bouth—claim the Socialist movement meets treater positive obstacles that in the third column on the ballot, which will probably counterbalance, in the tate of New York. Two or three of future, the last of the disadvantages anymercial above. United States excepting, perhaps, some parts of the agricultural South—where the Socialist movement meets greater positive obstacles than in the threse obstacles need hardly be more than mentioned and they will be rec-ognized by all who are at all familiar

First, there is tee direct and indirect influence of political corruption in the city. Philadelphia, Chicago, and St. Louis have wen unenviable notoriety through their beases and bootlers. But bad as are conditions in all of these cities, in none of them has the system of corruption been developed to such a degree of perfection as in New York. Tammany has reduced political rascality to a science and an art. One al most forgets to be shocked at its in-famy in admiring its efficiency. No public or private interest is too large any to attempt to make it Bource of power and of revenue—and swith almost unvarying success; on the other hand, no voter is to humble or ire for Tammany to watch him offer him inducements appropriate to his character and proportionate to his influence, to bribe or cajole or hoodwink or threaten him, whichever method may best serve to get him into line and keep him in line. This per-fection of the practice of corrupt poli-tics results, no doubt, from the fact that this city is the central citadel of that this city is the central citatel of American, capitalism, bidding, fair soon to be the greatest capitalist cen-ter of the world, and that the control of the political power here gives to these who wield it greater oppartuni-ties for serving or blackmalling or op-posing great capitalist interests than that of any other city or of any state the Union. If this be the cause, on the other hand, the trault of this perfection of political dishonesty is to make it extremely difficult for advoentes of any other sort of politics even to get a serious or candid hearing. A fearfully large proportion of the peo-ple have always some personal inter-est directly at stake in old-party polifica—the hope of a job, public or pri-rate (for political "pull" counts even in private employment), the hope of a contract, the hope of exemption from nome annoying laws or police regula-tions, or oftener the fear of losing nome such favor already gained; hope or rear, if not for one's self, then for e relative or friend. And those who are not corrupted are made cyni-cal and apathetic by the sight of corcal and apathetic by the sight of cor-ruption. They can hardly conceive the idea of any man not an absolute fool-being actively interested in politics naises there is "something in it" for-bin. It has been estid by a heen ob-server that the people of New York do not vote for anything, they are al-ways voting against something. Such a negative and sordid state of the pub-lic mind is not a favorable one for mo-italize recommends.

As we pass to the smaller cities chen to the system then to the rural districts of the state, we find that, in proportion as this distinctly fin du siècle combination of corruption and guere communition of control of the with the spirit of modern progress as any backwoods village in the most re-inote parts of the country.

This is a dark picture. There are notable exceptions to it, indeed. But on the whole it is an accurate one. So much for external difficulties

From the past history of the Socialist movement we inherit an additional handicap. As this state and espe-cially this city was the stronghold of Socialism and the center of party or-ganization up to the time of the Schism and reorganization of 1800, it has naturally continued to be the principal field of operations of the de-structive and disruptive elements of the movement which keep and disthe movement which keep and dis-grace the name of Socialist Labor. Party. Incapable of aggressive work against capitulism, they have yet suffi-cient strength to do incalculable harm to the Socialist cause. Their whole afforts are directed to two unworthy. ends—to makin the genuine Socialist movement and to slander the trade mions. The average workingman, being unaware of the distinction be tween the parties, visits upon all alike who avow themselves Socialisis his righteous wrath for the crimes of De be interested in Socialism and approaches it in a spirit of generous en-thusiasm is likely to be disgusted and repelled when he hears of divisions whose causes he cannot understand.

Add to this that we—meaning the comrades affiliated with the Socialist Party of the nation—have been dealed use of that name in this state and ust use the (to American ears) equifamiliar with party affairs, who only knows that he is a Socialist and wishes to vote for Socialism, is more than likely to cast his ballot at first for the S. L. P., thinking that to be identical with the national Socialist other new voters are making the same mistake and so keeping up the pres-tige of the disruptionist faction by giv-ing it a false show of strength at the polis. Analysis of the election raturas are largely made in those places where It is least known and in districts where Its methods are familiar it often has

is a long story. But we advance in

In 1900 the Social Democratic Party olled 15,498 votes in the state, of thich 0,741 were in New York City. In 1902 we increased to 23,400 in the state, 16.432 being in the city. Our ratio of increase for the state was something more than 73 per cent. The vote of the S. L. P. rose from

The vote of the S. L. P. rose from 13,762 in 1900 to 15,866 in 1902—s gain of about 15 per cent., largely in the irade unions for international Labor Day, the First of May. It is noticeable in Rochester that the most intelligent workingmen of all unions are Socialists. It will take but

enumerated above. New York lost its place at the head

of the column of states in the table of the Socialist vote. But since we lest it, not by our failing behind our past record of progress in this state or in the nation at large, but by the extra-ordinary advance made by our sister commonwealth of Massacausetts, we do not repine over that fact. If other states can beat us next time we shall

rejoice with them.
Althouga, in view of all the adverse trough, in view of all the adverse circumstances, we have every reason to be pleased with the progress we have made, it would be idle to shut our eyes to the fact that we might have done better, that many good opportunities have been overlooked, that we have a field to work and forces at 1904, should assure us a much greater

ratio of increase than that which we nave made in the years just past. The party organization in New York City is far from being all that it should be. Except in a very few dis-tricts, the number of party members, the attendance at business mestings, the amount of dues paid, and other evidences of regular party activity bear no reasonable proportion to the number of Social Democratic votes cant. There must be hundreds of voties who need only to be approached in the right way to be carolled as workers in the organised movement. This must be done if we are to improve the opportunities which capitalism constantly offers to us. In the rest of the state, if we except Roches-ter and a few smaller places, the same lack of organization prevails. we could poil seven thousand votes in the outside counties with such imper fect organization and consequently such meager and unsystematic agita tion as we now have, it can be confi dently asserted that with a reasonably good organization we could have good organization we could have polled as many more. It is not worth while to ask whose

fault it is that the organization is imperfect. It is everybody's and no-body's, perhaps. The important thing is that the now unaffiliated sympathizers should hasten to enroll them selves in the party organization, that the comrades should supply the State Committee more liberally with funds. should keep in closer communication with it, should bombard it with demands for speakers and literature, no in campaign time only, but all through the year, and should do their utmos in their several localities that the ef-forts of our organizers and speakers and writers may be used to the best

We carry on good campaigns in New We carry on good campaigns in New-York—for three months before Elec-tion Day, If, without at all relaxing our campaign efforts, we would but work half as energetically through the other nine months of the year there can be no doubt that the results would be more than doubled. We must make literally true our contourner wants. literally true our customary vaunt that Socialist campaigns and on Elec-tion Day and begin again the next morning. After all, the work of the three months before election tells not so much in making Socialists, for men are then in the worst mood for calm thinking, as in rousing to the votingpoint the cuthusiasm of those who have become Socialists between cam have become Socialists between cam-paigns. The logic of events is, indeed, all the time preparing such latent So-cialism for us to wake into activity with our campaign appeals." But dur-ing the winter and spring of each year we can do much if we will to increase the effect of this logic of events.

The appearing is for each Social

The question is, for each Socia Democrafic Party member or voter or sympathizer, Will you work now?

At our present ratio of growth, the rote of the Social Democratic Party in New York in 1004 will be a little over forty thousand. We can make it sixty thousand, at the least. Shall we no begin now and persevere with that mark as the minimum that we resolve

QUR PROGRESS IN ROCHESTER.

By Bec. W. Migahe

Rochester comrades, in a retrospective view, see the growth of the movement in this city. Those who know the hisgathered in a small room in the back part of one of the large buildings of Rochester and them and there pledged their support to the philosophy of 8o-cialism. We have had a hard fight thus far, but it is beginning to be easier, because we see the fruits of our-labors and many workingmen are be-ginning to see the truths of Socialism as portrayed to them for the last twelve years.
It is usual for the leaders of thought

then worshipped by the next; but we are glad to see that the workingmen of this generation, in this city, to-day appreciate the hard and incessant work of their pioneers, Comrades Bieverman, Lippelt, Zarenner, Hoes-

trey, and others.
Our movement began in 1891 with about fifteen members and to-day we number 2,198 Social Democratic voters. However, its growth in the future will be at a still more rapid rate, because concentration of industry has shown many workingmen the truth of the Somany workingmen the truth of the So-cialist position and to-day you can speak with aimost any workingman and see that unconaciously he is utter-ing Socialistic principles. The unions of the city are also becoming more progressive, and some of those who used to ridicule Socialism in former years are to-day among its most ardent advocates. This was particu-larly noticeable at the joint conference of the Social Democratic Party and the trade unions for the purpose of

a short time when the rank and file will become educated along the lines of their class interests and will vete as they strike—for their ewn interests. The Labor Lyceum has been very well attended throughout the season and has been productive of much good. It is to-day in better financial cendition than it has ever been in its history. We have had some of the best speakers in the country and have taxed the Common Council chamber, where we ordinarily meet en Sunday afternoons, to its utmost capacity. For the Debs meeting this spring we had to here Fitchugh Hall, the largest in the city, and had two thousand peoin the city, and had two thousand per ple present. On May 3 will be the last meeting this season. On Washington's Birthday we had a

On Washington's Birthday we had a bail in the same hall and it was a social and financial success. The ball was held for the purpose of raising money for the next campaign.

It is amusing to see how the "Times" of this city; in its issue of April 7, suggests whom we should place in nomination for the next municipal election. We hold the balance of power in this city and both old nextles are vary decreased. city and both old parties are very de-stroug to use us, but anyone who knows the attitude of Socialists, knows knows the attitude of Socialists, knows full well that we work independently of either party, keeping in mind at all times the interests of the workingmen of this city and country, along with those of all'other countries.

We care not whether the Republicans or the Democrats win in any election, knowing that it will be but a short time when the "sleeping giant"

Labor will rise in his might and vote to give himself shorter bours, con-tinuous employment, and the full prod-uct of his toil. Many are beginning to see that, "It is better to vote for what you want and not get it, than to vote for what you do not want and get it."

(Note by Editor.-The writer of this aketch is the Organizer of Local Rochester of the Social Democratic Party. He will gladly give information about the local or gueeral movement to any who may address him at 93 -Adams

ŢŦŦŦŦŦŦŦŦŦŦŦŦŦŦŦŦŦŦŦŦŦŦŦŢ PARTY NOTES.

the west on Monday, April 27. They wil address meetings in Johnstown April 27; Utica, April 30; Rochester, May 3, and Niagara Falis, May 4; on their way to Ohio where they will speak from May 5 to 19, and in Indiana from May 20 'to 31, after which they will spend June and July touring Michigan under the direction of State Organises

A large and interesting meeting of Local Trenton, N. J., was held Fri-day evening, April 24, with Howard W. Caldwell, of Philadsiphia, as speaker. His address was one of the most effective in the series, five new members being gained, beside a liberal collection and much literature sold. Ar-rangements were made to have Watter Thomas Mills apeak in Trenton at X. M. C. A. Hall, Monday evening, May

Walter Thomas Mills will speak or "Capital and Labor," Friday evening, May 8, in the new Auditorium, Orange street, Newark. N. J., under the auspices of Branch Seven, Local Essex

Comrade McGrady spoke to a well attended meeting in Buffalo last Sunday. Father Helter ,who has been talking large against Socialism when he thought McGrady was not coming, was in the audience, but sat silent under McGrady's challenge to discussion.

Conrades of Sthfford Springs, Conn. write enthusiastically of J. W. Brown's address there last Saturday.

Comrade Putney of Somerville, Mass., writes that the McGrady meet-ing there last week, the first large Socialist meeting ever held there, was very successful. The increase of the vote in Somerville last year was 800 per cent. Another such increase would per cent. Amother such increase would carry the city. The Somerville and Cambridge locals celebrate May Day together in G. A. B. Hall, Cambridge, with Dr. H. A. Gibbs and Thos. A. Scott as speakers. The Somerville comrades are making a fight for the right to hold open-air meetings.

Local Luzerne County, Pa., will hold its next regular meeting at hoad-quarters, 16 S. Main street, Wilkes Barre, Tuesday evening, May 5. There are still a large number of Socialists in the county who are not members of the party, many of whom are ex-pected to join at this meeting. Com-rade C. F. Quinn has been elected editor of the "Courier Herald." property and official organ of the Wilkes Barre Central Labor Union. This paper will now publish Socialist news and communications as far as space will permit.

"State Secretary Holman of Minn sota raports two new locals, at Badger and Waterville. At the latter place Carl D. Thompson addressed a large meeting and local Socialists speak on thusiastically of his work. Thompson will spend a couple of weeks in lower and Nebrasks, and then resume the

National Lecturer and Organizer tour on May 6, and after speaking in Marietta, I. T., on May 7, will enter Oklahoma, where he will spend two or three weeks, returning by way of Arkansas and Southern Missouri to Ten-

opened his work in Oregon at Ashland on April 10, speaking to a large meeting at Medford on the 17th and Gold Hill on the 18th. On Saturday, the 19th, at Grant's Pass, the Opera House 19th, at Grant's Pass, the Opera House was packed to hear Wilkins debate with two Republican and Democratic lawyers. Comrade Ingis, candidate for Congress, reports that "Wilkins mopped the earth with both of them, and the concessus of opinion was all together in our favor." Wilkins reports strong sentiment and Socialists eager for the contract of the concessus of the concessus

SOCIALISM IN CONNECTICUT:

By State Secretary W. E. White.

ists in the state are now united with it. By steady and persistent effort the prejudice against Socialism earned by former mistakes has been overcome, so that now every election shows a gratifying increase in the Socialist vote and at the same time an exten-sion of the party organization into hitherto unorganized parts of the state, as well as a strengthening of ex-

ting organisations.

Perhaps the most gratifying evi-Perhaps the most gratifying evidence of progress, however, is shown in the relations to the trade unions. The unfortunate attitude which the party formerly assumed towards the trade unions and which was repudiated four years ago had resulted in an intensely hostile feeling on the part of the unionists towards the party and toward Socialists in general. When the trade union sements in the Social. toward socialists in general, when the trade union elements in the Social-ist movement assumed control and definitely rejected this mistaken pol-icy it was only by long and persistent efforts that the effects of the former efforts that the effects of the former mistakes were overcome and the un-ionists convinced of our sincerity in support of trade union principles—that Socialists are not merely "friends of unionism," but unionists in principles and practice. Now the hostile and sus-picions (ceiling has entirely disap-peared, so that although there is no attempt at amiliation or co-operation in any way with the Socialist movement, a friendly feeling on the part of the unions for the Socialist Party exists and Socialists are listened to with respect in the councils of the unions. On several occasions, too, in Bridgeport, Hartford, and New Haven, prominent speakers of the Socialist Party have been invited to address important pub-ile meetings held by the unions and have invariably been received with enthusiastic applause.

The organized opposition on the part of the capitalist corporations is partly the cause of this change of attitude on the part of the unionists towards the working-class political movement. In Connecticut, as in other states, a ser-les of injunctions, suits for conspiracy, and anti-union legislation has been aimed at the labor organizations until the fact is becoming evident to the duliest of union men that the govern-ment is an important force in the hands of their opponents. These events caused the trade unions in some localities to turn their attention to independent inher politics. Thus, over a year ago, as a result of an iujunction and conspiracy suit against the unions in Ansonia, the unions at an opportune moment captured the city conventions of both sid parties and conventions of both sid parties and nominated a large proportion of union men on both tickets, and succeeded in electing a complete trade union sity government. This victory undoubledly had a good meral effect gownrule the subsequent settlement of the atrike in that town, although the men elected were incapable of rising beyond the influences of old-party customs and therefore accommissed nothing of me.

there to New Decatur, Ala., where he reports four large open-air meetings, also selling a large stock of literature. He spent three days in New Decatur, where L. W. Allen has been nomi-nated for Mayor. Ray is now in the Birmingham district.

National Lecturer John W. Slayton addressed a successful meeting for the Socialists at McMechen, W. Va., on April 16, spoke twice for the striking carpenters of Wheeling on April 17, wrote an article for the strikers for publication in answer to the bosses. snoke for Wheeling Socialists the next day, made the first Schmillst speech ever delivered in Moundaville on the 19th, and with Comrade H. A. Leeds, of McMeehen, organized a new local, On the 20th Slayton addressed 1,200 people in East Liverpool, Pa., for the Trades Council, and at Waynesburg, Pa., next day had another successful meeting and was requested to re-turn. Comrade Leeds writes that the McMechan and Wheeling comrades are delighted with Biarton's work.

state of Ohio is requested to write at ence to State Secretary W. G. Critch-low, 26 Pruden Bidg., Dayton, in or-der that plans may be made for ex-tending organisation and sending speakers into unorganised places.

At Saturday's meeting of the Gen-ral Committee of Local New York

Since the national convention is cose in Assonia, the trade unions made 1901 resulted in a united Socialist. Party in Counsecticut, the party has an all of these mevements were ingrown—slowly, perhaps, but stradily—until practically all the available Socialists. capitalist politicians or middle-class reformers they have all resulted in dis-mal failure and the movement may be said to have about run its course.

Many of the union men who have thus been disappointed in their hope for a union inhor party, and who were led by their experience to a deepar study of social problems are now joining the Socialist Party.

Meanwhile, espitalist organization continues along the lines which Ansonia strike began and the ur may gain more experience in the near future. The suit against the Ansonia union for damages under the common law developed weaknesses in that mode of legal procedure, and as con-tests with labor unions grew greater and more frequent so capitalist unions were organized to oppose them. The National Association of Manufacturers has been formed and a score or more of firms among the largest employers of labor in Connecticut have already become members of it.

A bill to force the incorporation of labor unions was introduced in the state legislature and another placing heavy penalties for boycotting, picket-ing, and other forms of "conspiracy" against employers was afterward sub-stituted for it. This measure, the Tracy Bill, provides disfranchisement of workers as one of the penalti os for Its violation.

In some towns movements have been started by employers to establish joint arbitration boards with the unions on the plan of the Civic Federation. In New Haven this move was started by a firm which is a member of the Na-tional Manufacturers' Association just mentioned. There seems to be some prospect that this move will be succesaful, and if so it will prove an eye opener for the unlone.

A storm of protest from unlone all over the state has been aroused by the Tracy Bill and many delegates have been sent to Hartford to protest to the Legislature against its passage. It is illustrative of the progress made by socialism in the unions that the dele-gate sent by the New Haven Trudes Council, the strongest central body in the state, is a prominent member of the Socialist Party.

Conditions in Connecticut, therefore seem to be very, favorable for our party's growth. It only remains to take advantage of the opportunity. This we are preparing to do. Comrade J. W. Brown has offered his services to the party as organiser and a call for ources of the State Committee an the locals will be issued soon. 'It' is confidently expected that the work of agitation and organization will be taken up early in June and continued for four months or more. A continuous series of open-air meetings will be conducted, and special attention will be given to the wide circulation of literature and our party papers. Con-necticut will be abreast of Massachutherefore accomplished nothing of ma-terial benefit. Encouraged by this suc-any virtue in hard work.

> vious meeting to investigate the conduct of Organizer Wood and Comrades Searing, Wilkins, and Bower man in connection with the "New York Socialist and Trade Union Review" gave its report, recommending that Wilkins be entirely exonerated, that Sarling be exonerated in so fur as that Sarling be exonerated in so fur as his action as attorney was concerned, and that Wood and Bowerman he se-verely censured, and that Wood he summarily dismissed from office. The report was carried, after extended discussion, by a vote of 36 to 6. Fuller account of the meeting is deferred, in order not to encroach on the space of the May Day Number

therefore, when we read on the

members there is abundant evidence.

For some considerable time past there has been a grent deal of discussion among the members of the United Journeymen Tailors' Union of Greater New York over the alleged treacherous character of the "Weekly Bulletin," paper ostensibly published 'in the in-terests of the United Journeymer terests of the United Journeymen Tailors' Union of Greater New York, the United Garment Workers, Cutters and Journeymen Tailors of America."

A committee was appointed by the U.

J. T. U. of Greater New York to investigate the whole matter and thefi report which was adopted at last

we have investigated this statement and found it to be wholly untrue. No such remark was ever made at any meeting of the delegate body.

the publisher of the Weekly Bulletin (which was not published till June, 1992) waited upon the secretary of our organization and told him a long and ingenious story, to the effect that a friend of his, in London, England, was about to publish a paper devoted to the Interests of the workers in the tailor ing trades to be called "The Echo." It was not clear why the promoter of the paper had decided to adopt the name of the most popular evening paper in London, por bow such a paper could efficiently serve the interests of our craft organizations in this country. Stilwell wanted the names and addresses of all the members of our union supplied to him in order that he might, as he said, have the paper sont free of charge to every member for Some of us were opposed this being done, but he had me to get our secretary on his side and he advocated Stilwell's case id the organigation with the result that the names and addresses were sent. But three months or so passed away before we heard anything more of the matter. Then Stilwell came to the secretary with a letter stating that he was doubtful whether the paper would be published after all. The 'friend in London' had got ready to start The Echo' when there was a disastrous fire swhich destroyed plant and paper en-tirely. But, never mind, he would get out a paper for the New York tailors mpon his own responsibility. Nor did any advice of our members seem likely to dissuade him in any way.

A Slippory "Friend."

'At about this time there was a dtrike at Everald's shop in this city. and Stilwell, representing that he was on the staff of the New York 'American and Journal', promised the leaders that he was going to help us in our fight by publishing articles in our support in

"At one of one mass meetings he was Introduced, and, on account of his sup-posed and loudly expressed friendship for labor, was given the privilege of sitting in our meetings. Then the pa-per was published, but it contained little more than bluffs, and could not be said to adequately represent us by

'trenting' all comers at the bar of the this, but we saw him going into the be distributed among the men in the ops free of charge. Now, our em and he had had some private business with him. A committee was appointed to inquire into the matter and the em-ployer said that it had been represented to him that the paper needed financial assistance. In view of this, a further committee was appointed to find out what was behind the enterprise.

"Now, it was discovered that there an International Detective

IN ANACONDA.

Reported that Republican Officials Refuse to Give Place to Socialists Liveted.

Dispatches to the capitalist press

HELENA, Mont., May 5.-Anaconda has a double set of city officers, and as neither will yield matters will probe bly have to be settled by the courts. At a recent municipal election the Social-ists elected the entire ticket, but as they failed to qualify within ten days thereafter, as required by law, the Re-publican incumbents refused to step out when the Socialists presented themselves at the City Hall last night to

FROM BAY STATE.

How Three Socialists Put the Old-Party Major-

Urgent Reed of Socialist Represen tation in the Upper House-Dobate and Votes on Social sts Bills-Party Work in the State.

BOSTON, Mass., May 2.-The Massa states have finished their business and adjourned. The length of the sessions in this state is a cause of constant worry to the capitalist interests. Each year the press sets up its howl about the waste of time and money caused by the Legislature sitting from January into the month of June. It is annoying to them to feel that an opportunity is given to the people to call for remedial legislation; while only in a few instances is the legislation that they seek accorded. Yet it costs a great deal of money to the cornerate interests to combat such efforts of the people. Each year sees a larger volume of measures brought to the legislative mill and the process of grinding is very slow. The bills are referred to com-mittees, which give public heafings and go through all the pretense of wishing to learn what the people want. The committee makes its report to the Legislature for or against the measure during each stage, as there are three readings of the bill. If it is a measure against capitalist interests, they arrive to kill it at the first reading, and if not successful, at the second reading, and if again not successful, then at the third. If it stands this ordeal it comes for engrossment and is sent to the Sen-ate, where, with almost absolute cartainty, if it is a measure in the interests of the working class, it is killed ests of the working class, it is killed and if in the interest of the capitalists, it goes smoothly through and becomed a law. The Senate is composed of forty members and the House of two hundred and forty. The smaller lody, can and does with impunity kill every measure that comes to it that is opposed by capitalist influence

The Socialists' Work.

Well might we wish it were possible for the comrades who appreciate the work of the three Socialist members of the House to be present during some of thesessions and to see the indefaths able work they do in the interests of the working class, fighting every inch of ground, apparently never tiring with no thought and to care as to what the feelings of the other legislators are to ward them personally. They are light-ing the cause of the workers and (e) responsible to then alone, and they are he only true representatives of the rorking class in either branch of the

Legislature to-day. They have met with some success in the House. For instance, Carey has succeeded in fighting his picket bill through, only to have it defeated in the Senate. Is not the lesson to the work-ers of this state made plain? If our three Socialists in a House of two hundrad and forty-members, by their abil-ity and untiring energy, have forced from that unwilling body legislation that meant something to the follow masses, does it not show that if we had even one or two men in the Senate we would be able to secure the enactment of some of these bills brought by our representatives? We call to the workers in the senutorial districts to get together and see to it that in the next election we at least elect one Senator to care for the interests of the workers in that chamber, as Carey, MacCart-ney, and Ransden de in the House.

They succeeded in passing for enduced in behalf of the railway train-men's organization providing for three-brakemen on freight trains. The committee reported adversely, and it was necessary for one to listen to the next-ments of this committee defending the railway interests of the state and praising the presidents and managers of the railways, to understand what a spletdid job the brakemen have upon the freight trains in Massachusetts. It is reasonable to expect that if the committee reports against a measure, its members will make an effort to have their recommendation carried out. In this instance the Republican and Democratic members, Hayes and Quinn, stood side by side in the House fighting against this measure in a way that called forth the belief that they had made certain promises, and that they were doing their best to deliver the goods.

Putting Politicians on Record.

When a voice vote was taken, the speaker declared Carey's motion to substitute the bill for the adverse report situte the bill for the adverse report lost. Carey raised the point of no quorum. A count was taken and showed 126 members present, which was a quorum. Carey then doubted the vote. A rising vote was taken and it was against the measure. Carey rose again and said he still doubted the vote and asked for a rolling. and asked for a roll-call. He get the thrty necessary for a roll-call and then an opportunity was given to see the Democratic and Republicans—so-called friends of the workers—putting themseives on record when their action would be held up to the public gene. Hen who had twice voted against the proposition during the last few minutes of up and roted in its favor, know ing that their constituencies would now be informed of their action. As a po-suit of having even so small a minority there to force a roll-roll, the measure now goes to the Senate. The bill provides a penalty for failure to carry out its provisions. Guins of Boston, a Democrat alocal from a working measure district, resided about its House frantically then

a vote was being taken, urging EIGHT-HOUR LAW said he was a friend of the working-nien, but he wanted to see the em-playees loyal to the employer. Evi-IS WIPED OUT.

New York Court of Appeals Says It Is Unconstitutional.

Contractors Will Profit Scoutly as in Case of Prevailing Rate of Wages Judges Are a Unit in Annuiling Labor

usual course. Once more the courts have put their veto upon the acts of the legislative authority. Once more the result of years of patient and humble lobbying on the part of the organized working people is reduced to zero by the simple dictum-"unconsti

York, has decided that the penal provision of the Eight-Hour law is in viola-tion of the provisions and principles of the constitution and is therefore null and void. The court is unanim in the decision, which invalidates the vhole law by doing away with the pro-

the eight-hour day provision of the labor law, passed at the same session of 1800, made it a misdemeasur for any person or corporation, contracting with the state or with a municipal cor

County of Orange, and criminal proceedings were instituted in behalf of the people for infringement of the Eight-Hour Law. The defendant tered a demurrer, claiming that me law was unconstitutional. This demurrer was sustained by Judge Best-tie of the Orange County Court, but overruled by the Appellate Division, from whose decision the defendant ap-

Judge Culien, Democrat, gives the opinion of the Court of Appeals, upholding Judge Beattle and overthrowing the law, and the other three Democrats (Judges Parker, Gray, and O'Brien) join with the five Republicans in the court (Judges Haight, Vann. Bartlett, Martin, and Werner) in the

As in the case of the Prevailing Rate of Wages Law, declared unconstitutional by the same court in 1901, the contracters on, public work profit greatly by the decision. The law being on the statute books, contracts have been made on the basis of an eight-bour day. The law now being wiped off, the contractors collect from the state, county, or city the amount agreed upon under these circumstances. agreed upon under these circumstances and mave for themselves the difference between the cost of executing the con-tract under the eight-hour system and the cost of doing it with a nine-hour or ten-hour day. It was estimated that the decision of 1901 put at least \$6,000,000 into the pockets of contractors in New York City alone, over and shove their ordinary profits. The loot in this case will probably not be much less.

Grounds of Decision.

The decision is based upon the claim

whole court concurs, holds that the law is not a proper exercise of the police power of the state, but unduly discriminates between different classe contractors and between the same tractor working for the state and for a private party or for itself. It is con-ceded that the state has a right to pro-tect women and children or adults from unwholesome or dangerous pations. This law, Judge Cullen bolds, does not deal with the character of work, or with age, sex, or condition of employment, nor even with the personality of the employer.

"What possible bearing," he asks, "has the fact that the employer is executing a contract for the construction of a state or municipal work? It might be constructing in the next town a road for a turnpike company or for itself. In the one case there would be no limit of the hours, and the corpora municipal work it is made a criminal offense, despite the fact that the work and the hours might be precisely

Judge Cullen condemns the law in toto. Its vice, he holds, is in its arbitrary distinction between the state and other employers. This denies the es-sential "equal protection" guaranteed by the law to all citizens. "An arbitrary distinction can never be justified rely by calling it 'classification,

MOST GRATIFFING NEWS.

ROSTON, Mass. May 5.-We have North Easton. This place is practically owned by the millionaire Ames family and we had no expectation of polling many votes there. Yet at the election just held in the center district, the Socialist Party cast a vote of 112 to 183 for the united opposition. Small as the incident is, we may count this the most gratifying news we have yet heard.

—When you are going to hold a public meeting, get a supply of the current number of The Worker for sale or free distribution. One hundred

WHY "REFORM" DOESN'T REFORM; WHAT SOCIALISTS WILL DO.

campaign in Cincinnati. It is too good for renders of The Worker to miss. No hope from "reformers," Why?

Capitalists control the making and the selling of things. the price on the market.

This power, in their hands, is a two edged sword that carves incredible profits out of the workers.

Capitalists are few and workers are many, but espitalists know how to

They capture the government, the

executive force of all the people. The workers have the votes that authorize the government; but the capitalists have agents, politicians, who get these votes by fooling the workers.

The government is left in charge of these agents, the politicians. They give the capitalists what they want and are permitted to collect their

own pay. They protect the capitalists in their privilege of carving profits out of the working class, and in return for this service they are allowed opportunities for nower, advancement, sataries, fees,

bribes, and public plunder. You have often wondered why enterprising citizens, heads of corporations, members of 'Change, went calmly about their affairs while the city was being robbed by grafters-by fellows who ancered at the mention of decency -heelers who asked: "How much does it pay?"--and who would shake a handful of bills in your face, saving: "Its the long green that wins!"

Here's the fact: Enterprising citizens, heads of corporations, members of 'Change, are getting what they want-profits out of the working class -colossal profits, in low wages and high prices-more than 80 per cent. of the product-and while these shrewd business men can discount the workers more than 80 per cent, they are not going to deny their good and faithful servants, the politicians, their pickings, great though they be.

After the exploiter comes the spoilsman.

But every once in a while there comes a cry from the people who clearly perceive the pliferings of the politicians, but not so clearly the thousand-fold greater tribute taken by the capitalists.

The cry is for a change. Capitalists pretend sympathy. They re-orbo the cry. And they risk nothing. The "reformers," who press forward, make no pretence of touching the source of corruption, the capitalist system.

This system is wearing out and falling into disrepute. They propose to patch it up and make it look respectable.

They fool you, workingmen. You are asked to warm up over taxes! to protest against gamblers! to shout for cheaper car fares!

All the while you are enduring the slow death of low wages, and live in daily peril of the papic which will make you a jobless tramp. Even free street car rides caunot

save you; still less the lowering of middle class taxes; or the closing of gambling dens or worse joints, even though these be run by city law makers. These so-called issues are made to mistend you by the class that enslaves you. The bunko scheme that skins you-

the sure-thing shell-game you are forced to play-is the capitalistic aystem. The winnings taken from you daily

in low wages and high prices exceed belief. Statistics show them to be, as stated, more than 80 per cent, of your The taxes you need to be rid of are-

The pronts wrung from your labor. The gambling hell you need to close The capitalistic system.

"Reformers" never see this. Even

nothing, for they have little power and no program. "Iteformers" are pie for capitalism

They can't reform. Capitalism, entrenched in forum, school, sanctum and court laughs at them. It pays for public opinion. It buys teachers. orators, judges, and legislators.

A bungry lion will allow a jackal to snatch a bleeding lamb from its jaws sooner than capitalism will permit a reformer to touch its privilege of looting the working class. But, as the Hon, assured of its meal, cares little who polishes of the bones, so capitalism, protected in its profits and its pleasures, leaves to its lackeys the remnants of public spoil.

"The Socialists held a meeting in another room and declared the acts of the Republican boldovers invalid. "The Republican Council will elect a mayor from among its members at its next meeting." deutly he was simply carrying out his belief in that philosophy by being loyal to his employers—the corporate inter-ests of the state. Hayes of Lowell, a Republican, spoke against Carey's me tion, and said that it was wrong for tion, and said that it was wrong for the Legislature to enact.a, law cons-pelling the companies to put three brakemen upon a train. When Carey asked him if he was not aware that they had passed a law making comput-sary a certain number of brakemen fo-passenger trains. Hayes replied that he passenger trains. Hayes report that was aware of that, but informed Carey

that the law was not enforced. Then Carey pointed out how easy it was for these great corporate interests to suspend any law that they disapproved. In answer to Quiun's story of the love which the railread managers here for the workers and the unions, he in stanced the case of one representative of the railroad trainmen's organization who was at the State House in support of this measure; he is no longer an em-ployee of the railroad company that his labor has helped to enrich. They love him too much to give him a further chance of cumplorment after be has

dared to speak for his fellow workers.

The Committee on Foderal Relations reported in favor of recommending government ownership and control o the cost mines. The bill was amended to read "government supervision," thereby emasculating the intended mensure of the people. The committee that had been investigating the coal situation had submitted a similar resolution and embodied ownership and control, and both mensures had to be acted upon. The Federal Relations bill came first. The House discussed it during an entire day, and then changed the form of the bill in a manner that made it of no value, and then in less than ten minutes adopted the resolution presented by the investigating committee, which called for owner ship and control. The minds of the cupitalist representatives were so cen-tered upon the defeat of the first measnre that the second one slipped through without their knowledge. Of course it will not get by the Sennte; but the incident abows the caliber of the states

en in the Massachusetts House of

Direct Legislation Bill. The Constitutional Committee re-ported in favor of the initiative and eferendum speasure, one that provide that If 50,000 citizens of the state petition for the referendum on any matter the same shall be submitted at the next election by the Secretary of State, and if it receives a majority vote it shall be submitted at the following election, and then if H. receives a two-thirds vote from the citizens of the state, it shall become a law. Surely this seems to put difficulties enough in the way of the desire of the people to change the constitutional law; yet a minority of the committee bring in a report to stand by the old method of legislation. Senator Remis and Representative Dana join in this minority report on the ground that fifty thouand "irresponsible voters" can force vote, which, they think, constitutes a vote, which, they think, constitutes an insuperable objection: it leaves the people at the mercy of their own follies and passions, "without proper safeguards or restraints." MacCartery nade a splendid plea for the adoption of this measure and pointed out that the Democratic and Republican parties embody the initiative and resembles. In these platforms and referendum in their platforms, and now: they brazenly repudiate their pledges, "You men of this House con-sider us political outcasts," he said. "but the people will soon understand that our philosophy is based upon 'Vox popull, vox del'—'The voice of the peo-ple is the voice of God.' "

/ Party Work. Boston City Committee has br canised for campaign work, and will hold open-air meetings in all the wards mittee is George G. Hall, of : ville street. Dorchester. Comrades within the city limits of Boston should Father McGrady returned to the state in good health and delivered ad-

dremes at Fitchburg on April 28, at Natick en April 28, at the Brockton Carnival on April 30, on May 1 at Chelsen, and on May 3 at Lawrence.

Mayor Coulter of Brockton spoke at Lowell, Stoughton, and Marlboro with-in the past week. In Worcester. County the members held a successful quarterly conference at Marlboro yesterday with a mass meeting in the evenius. Marihoro is a shoe city that has passed through all the trials that attended that industry in the great strike of 1806 that resulted in defeat to the workers and has left its blight apparently upon their ambitions. We have organized a club there with not much life in it yet, but are hopeful that the influences of the conference

there will create renewed activity.

We have held two splendidly attended open-air meetings at Fall River.

Those who know anything about mill towns know that when the curfew rings at nine o'clock, it is the signal for the workers to go home and seek their beds in order that they may get up when the curfew rings to work hard and hold their jobs on the morrow. It is usually heeded, but this time when, at 10:30, we were obliged to conclude in order to catch our train, the audience was still there hanging an every word and unpisudiar aimost towns know that when the curfey the audience was still there hanging on every word and appleuding almost every soutence. This presages a good movement in that city. Another meeting will be been next Friday. The writer will speak the coming week at Ranges on Tuesday and at Webster on Wydnesday, and will work in Providence, R. I., speaking there Sunday afternoon, May 10. D. A. W.

MR. HEARST AND HIS SPIRS.

The part played by that rampant and estentations "friend of Labor," Mr. William Randolph Hearst, in the hard for him to explain, and yet one explained.

The simple fact, all minor details naide, is that Mr. Hearst gave a professional spy credentials which sucapply to a millionaire politician like preserving it and handing it on to Hearst who abots him?

Mr. Hearst cannot plead ignorance of Billwell's character and antecedents, 'Aside from great government officials, made and which, in one aspect, illusthere is no man in the world who has trates the very practical value of close better means of promptly and fully informing aimself on any subject he cares to be informed upon than Mr. Hearst. He knew that his recommendaffon of Stilwell would carry great weight with a trade union because of his (Hearst's) loud professions of-love for the unions. He knew that the capitalists are constantly using every means to get their spies into the unions. membel Stilwell as a ma worthy of the confidence of the trade unionists. If he did this without using the means of investigation at his command, he was guilty of aveligence that it would be impossible too strongly to

that Mr. Hearst was ignorant of Stilwell's real profession. Mr. Hearst is not a fool in any ordinary sense of the word, and no one but a fool in his per tion could have been taken in on such matter. It must be supposed that he knew Stilwell to be a detective.

We do not suppose, however, that Mr. Hearst's purpose in sending this spy into the union was directly to belo associated employers. We suppose rather than he had his own ax to grind can make is that Mr. Hearst, in the in-

there's and that in doing this, he has leets to read his party paper or renew found it convenient to use the same disreputable tools who are employed by the Manufacturers' Association.

This is the worst that we suppose of Mr. Hearst. Loss than this it is impossible to believe. More we need not charge. But surely this is enough forever to destroy the faith of the working | task, but rather a wholesome pleasure, class in his professions of friendship, enough to convince the workers that be is a self-seeking business man and capitalist politician from whose leadership they have nothing to hope and everything to fear.

SOME WORDS TO VETERANS.

Members of the Socialist Party habitunity address and speak of each other as "Comrade" and sign letters to each other with the phrase, "Fraternally yours." To outsiders this may seem un affectation and even new members, who have not yet had time to grow into the spirit of the party, may regard it us a mere form, devoid of serious sigtogether in the ranks for years, fought together, worked together, together made merifices and endured mockery and even persecution such as none of us have now to undergo, the long communion of hardship, of effort, and of aspiration have given those words a very real, very solemn and sweet significance, Your typical old Socialist is not a sentimental-looking person. He is a weather-beaten and battle-scarred veteran, often hard and crabbed and callous in appearance and manuer. But this is only outward seeming. Get at his heart and you will find that be knows what commdeship means, that It is the very breath of his life. Do you want a friend? Not do you wish a fair-weather companion, who will say pleasant things to you and help you to posse the time lightly? But do you need and in good falth desire one who will listen to you sympathetically, connect you frankly, help you generously, defend you loyally, to and beroud the extent of your deserving, expecting nothing in return but that you serve the cause? Then this old Socialist is your man. He has known, these long years gone, what it is to need a friend and what it is to find one, fairs of the organization; therefore Neither in any church nor in any benevolent society nor in any other association of mon will you find so much of the true spirit of fraternity as among those who have served their novitlate in the Bocislist movement. Theory and practice, Socialist philosophy and the Socialist ideal, on the one hand, and the experience of united striving for a despised and personally thankless cause, on the other, have

These things have been. But must we speak of them only in the past cense? Must we think of them as constituting a phase of our movement that must pass away with the pussing of the era of neglect and persecution and seemingly fruitless effort and the dawning of our days of triumph? Not willingly would any of us who have once realized the joy of that old comradeship exchange it for the more practical and commonplace relation drama of decelt and treachery reported | that seems to be tending to take its on another page is one that it will be place as the party grows larger, as a larger proportion of its membership that he cannot well afford to leave un- lacks that hard and educative training. and as the softening of the prejudices against Socialism breaks down the barriers that used to set us apart from others and so hold be the closer tocossfully introduced him into the congether. If it must go, it must go. But fidence of a trade union and enabled must it? Can we not be as good comhim to betray their interests to the rades in prosperity as in adversity? It allied employers. If it is infamous for is worth trying for. On those who a man like Stilwell to get his living by know the value of comradeship rests, such business, what epithet shall we for the present, the responsibility of

joined in cultivating this spirit here to

its highest degree.

The immediate occasion of these marks is an observation which we have comradeship. It has been called to our attention that in some of the best districts of New York City, which have taken in many new members within the last six mouths, the greater part of the older members are not person ally acquainted with these new re cruits. They have meet in the district meetings; possibly they greet each other if they happen to pass on the street; that is the extent of their ac quaintance.

This is all wrong. And it is the fault of the older men, not of the younger. You cannot expect this new man to force-hippelf into the circle of comradeship. You cannot expect him to know that there is such a thing, that belonging to the party means anything more than attending district meetings paying his dues, subscribing for a party paper, and doing his share o routine work. If even he knows that much, he is doing well. But all that constitutes a sort of lensiness partie ship that fails far short of Socialis

commideship. seen-especially in the after-election season, when party life grows relative and was not too scrupulous about the ly dull-this and some internal discusmeans of doing it. The most charit- sion and readjustment, whose necessity he cannot yet understand and which very likely seems to him to be mere berest of his newspapers and of his petty quibbling and squabbling-if this political boom, is sending paid agents is all he sees, are you to wonder if, on his own account into the ranks of after two or three months, his enthuthe unions to work there for him and to staum begins to cool, he begins to skip keep him informed of wint happens meetings, neglects to pay does, neg- them,

the subscription, and, at the most votes the ticket when another election comes around? You should not won der at that. You should wonder when it happens otherwise.

It should not be a difficult matter to

avoid this. It should not be an irksome

when a new man joins the party, for two or three older ones to make a point of cultivating his acquaintance. You can call at his house and invite him to yours. See that your families get acquainted, too. Tell him something of old days in the movement, if he care to hear. Suggest to him some of the brooks that helped you, if he cares to read. Talk with him of the present needs and prospects of the party, if he shows an inclination to consider them and try to learn from his as well as to teach him-it is a poor teacher who dies not get more from his papils than they get from him. Take him frankly nthis word as wishing to be a Socialist nificance. But to those who have stood | irrall that the term implies, and treat him as a comrade, that he may grow to be one. In a word, try to show him, by honest example, that ripe and seasoned Socialists are, intellectually and morally, the best set of men and women, the clearest thinkers, the bravest fighters, the most patient workers, the most pleasant compan ions, the firmest friends, the most selfrespecting and respect-worthy and selfreliant and reliable, that the sun shines on in all his rounds-all of which is sober truth, if only you would let it

ON THE PUBLICATION OF INTERNAL AFFAIRS.

Local Toledo, O., in its regular general meeting on May 3, adopted the following resolutions:
"Wherens. We believe that the

greatest danger to the future of the Socialist Party will be from within-from unscrupnions tools of the capi-lalist class, and over-ambitious offi-cials and members; or those seeking to advance personal enterprises, and

Carnegte has been disgorating to Tunkegee. Tuskegeo is thankful. Carnegte has been disgorating to Tunkegee. Tuskegeo is the total carnegte has been disgorating to Tunkegee. Tuskegeo is the total carnegte has been disgorating to Tunkegee. Tuskegeo is the total carnegte has been disgorating to Tunkegee.

presence of restitution.

The slavery of Tuskegee receives this tribute from the slavery of the North. Tuskegee does not know. The North does not know. The slave who gives is as blind as the slave who receives. Carnegie is only a gobetween. He performs an act of selzure with one hand and an act of endowment with the other. I do not know whether Carnegie's left hand knows what his right is about or whether the right knows what the left is about." But if you will look for yourself you may know what each is about and save apostacy.
I wish Tuskegre well. I wish it bet-

ter. I wish it best. But I wish for justice more than I wish for Tuskegee. Justice could get along without Tuskegre. But Tuskegee cannot get along without justice. Tuskegee cries for recedom. It deserves freedom. But Tuskegee cannot get freedom by building upon trespass. Tuskegee needs freedom more than it needs money. It needs the sort of freedom that no sort of money can give it. Tuskegee caunot get freedom by aligning itself with the perquisited millionaires. It can only get freedom by casting its lot with the forces North and South which are doing freedom's service in the

conomic conflicts of our democracy. This white hand North reaches that dustrial slavery. Do you not see the blood on this money? Do you not see how this money has got to you? Do you not see that we have widows and orphans. North who are starving, grieving, freezing for this money? This money had to be taken from other men like yourselves, men with both white skins and black skins, who need freedom as much as you do.

Do I say that you should return Car-negle's money? I do not say so. Nor do I say take it. I say that whether you accept or reject it you must rember its origin.

Is it always to be so? That in order that one man's sun may shine another man's sun must go out? Is there not sun enough for ail? When there does not seem to be sun enough for all I find you swearing at the sun. That is an unprovoked assault. The sun is not to be blamed because you do not know what to do with the benefits it confecs. If you permit one man to take so much more sun than he needs that other men cannot get as much sun as they need, then you can biame that man for his greed, or blame yourself for your lack of backbone, but you cannot cry

miser!" up the solar attic. To freedom there is no North or South, black or white. Do you at Tus-kegee imagine that you can set yourwives spart from the major problem of the time? Rooted securely under all your other problems, which are after all minor problems, is the general problem of labor, which means the same thing in essentials North and South

and is no respecter of complexions.

('arnegie has not given you a cent. He has been permitted to give you six undred thousand dollars. No one one could show you how this money. No one could show you how this money has come about. But if you will look into the next enaciated face that you ould tell the story of this me

I was caught off my knees the other day when Carnegie was mentioned and I was asked whether I had rheumatism. I have rheumatism. I the control of the contro

kegre. Tuskegeo is thankful. Carwill spend it right. You will preciously
negle is again a great man. Tuskegeo
has taken a new look at mankind and
You will make that dollar do all it can pronounced mankind good. What has to make another Carnegie impossible.

Tuskegee really got? It has got back. The worst crime you could commit some of the booty of the masters. It | would be to squander money that has has received some of the loot of the come to you so mountainously loaded masters. Tuskegee thinks it is in the with sorrow. You should spend each presence of benefaction. It is in the dollar as dowering an act of worship. You will remember your slave brother North to keep it holy. If Tuskegee forgets the mills and mines of the North it will sacrifice the crowning opportunity of its endowment. It may remember everything else without avail. But this will avail. If a little lift of the energy that is

devoted by philosophers, pedants and prostrates at large to fool praise of the man Carnegie was devoted to a study of the economic Carnegie we would have a little more freedom North and South, black and white, and a little less need for endowments. Everyhody is looking for endowments. But why are you not looking for justice? proportion as you look for personal en-dowments you fail to look for fustice. To some people civilization is all en-dowment and no justice. The negro has got to approach life by the general way. He will not be saved by special providences. As you grow civilized you are less and less grateful for favors. When you are a slave favors come in as a part of the sys-tem—as its necessary apology, as its perennial inbrieant.

perennial lubricant.

But by and by you resent favors.

What is it is the power of one man
that makes it possible for him to hand
you down a few trinkets and makes it possible for you to be placated by such a condescension of arrogated influ-ence? Civilization comes as private endowments disappear. That thing which makes it necessary for Tuskegee to shuffle for endowments made the original slavery of the negro possible. Can the freedom of Tuskegee be founded upon the slavery of Homestead? How much does your special allinent aid you to understand the gen-eral disease? Are you so engrossed in your own demand for freedom that you do not subscribe to the larger neegram of solidarity? Does Carnegie in-tercept your communication with the ideal? What are the bribes he projects before the vision of the endowed? In your remembrance that you are a victim do you forget your essenting benefactors, who are victimized to an economic mastership? The pegro problem has a background all white. The white problem has a background all black. The economic integers outroot all fategers that are simply geographical or recial.

You are a negro. All right. I do not grudge you your dark skin. I do not envy any Caucasian his paleface. beauty. But I call on ron who profit by Tuskegee to scan and search your last gift until you discover how you got it and whose sacrifice it celebrates. see your givers all over this busy North wondering where they are to get their next useal. These are the slave free men to whose estate you aspire. But for these men Tuskegee would whistle in vain for keep. Do I say you shall not name your endowment Carnegie? I do not say that. Name it anything you choose. But make the name mean the truth. Do not make it mean a thing so easily limited; so inuch selfengrossed, so without uni-versal leaven, that it forgets its minor measure in the total plan. When you hear the echo of our battles North you will know they are battles fought for Tuskegee as well as for Lattimer, Soon or late you will have to meet the meet you will see where the money crists yourself with the only wespon has come from. If you will read the tales of lockouts, strikes, underpaid in source the triumph of democracy.

BELGIAN CONGRESS.

Mational Convention of Socialist Party ies against Propos with Liberals for Suffrage Campaign-Independent Propaganda for Complote Emancipation to Se Maintained.

Simultaneously, on April 12, at Brussels, were ducted the federal congress of the co-operative sociefies of Belgium and the national congress of the Labor Party ("Parti ouvrier," as the Belgium division of the international political army of Socialism is called), of which

the co-operative societies are an adjunct or a powerful ally.

Jules Destrée presided over the party congress. Furnement opened the session with an eloquent address recalling to mind the struggle for uni-versal and equal suffrage a year ago and the bloody measures of repression by which it was checked. His declaration that equal suffrage was "still on the order of business" and must be carried was vigorously applauded. The discussion turned, however, on the question of methods to be used for gnining this end, some advocating a condition with the Libersis to overthrow the reactionary Cierical party

ow controlling the government.

Vandervelde spoke against such a sittion. Anti-clericalism, he said. must be included in anti-capitalism, not set above it. Let the Socialists nd the Liberals both fight the reacthousand in their several ways, but each would fight better independently. He warned the comrades against building faise hopes on assistance from the Liberal purty, which is a bourgeois party and could not be expected to de-sire the advance of Socialism, however

much it might oppose the Ciericals.
Treclet. Van Lon, Dewinne, and others advocated the coalition, deciaring that the immediate need of the hour was a union, of all who favored others advocated the coalition, declars that the immediate need of the bout was a union of all who favored nuniversal suffrage; this once won, the fight for the separate alms of the Bocialist Party would be resumed. Vancialist Party would be resumed. Van-

economic question. It was a mistake to suppose that by making an alliance with the Liberals we would make them any the less a capitalist party. The urgent need of the hour was clear Sorialist propaganda.

Anseele also spoke against coalition. The time was ripe, he said, for purely Sobialist propaganda. We must hold fast to Socialist principles and working-class interests. Before all, Socialism, and again Socialism, and always Socialism.

After a number of othern had After a number of others had spoken, by a very heavy majurity the congress adopted resolutions declaring that the party should continue and redouble its efforts for the organization of the workers economically, as well as politically, in order to be prepared to use the general strike effectively as a weapon for winning universal suffrage at the concentrate time and the frage at the opportune time, and that the party continue its independent campaign of Socialist education, and instructing the deputies in parliament to renew their demand for a revision of the suffrage clauses of the constitu

tion.

In the congress of co-operative societies, presided over by Serwy, Bertrand,
and Anseele reports showed that during the year the number of such socicties affiliated had been increased
from 144 to 180 and their aggregate
yearly business from \$154,000 to \$242,000. Among others, a co-operative
silk mill had been added, at a cost of
\$14,000. A proposition to organize a \$14,000. A proposition to organize a bank or savings and loan society under the direction of the federation was re-ferred to the consideration, to be reported on next year.

-1 Send 75 cents to the Socialist

THE RIGHT BASIS FOR SOCIALIST ORGANIZATION.

By A. A. Lowis.

their intellectual proletarian cousins guide and direct the Socialist movement, or shall the working class dominate the movement? This important their own salayation without fear. question must be met by the Socialist. They will not learn this leason as long Party. There can be no mutual concessions by which each element in the of their class, however sincere and britcessions by which each element in the fight party will do its part in the fight against capitalism. Either working.

Class tactics must prevail, or middle-

class tactics will prevail.

Looking at the matter from the working-class standpoint, and, I be lieve, from the standpoint, and, I be lieve, from the standpoint of scientific, revolutionary Socialism, I maintain fereets are so interwoven with those of be entirely in their own hands,

All true Socialists are agreed that the Socialist movement is wholly a working-class movement, that is, a profetarian movement; that men as a class are moved by their immediate material interests; that the working class must smancipate themselves. Now, there are three things the working class must clearly realize before they can comprehend the full significance of the Sochilet movement

That there is a struggle between two classes of men-the working class and the capitalist class-whose material interests are directly opposed the

one to the other, and are irreconcilable.

2. That this class struggle will be ended only by the working class taking over to themselves all the powers of government through the ballot and administering those powers in the interest of their class alone, and they must not be swerved one lots from their pur-pose by the material interests of any other class.

3. That in this struggle to get con-trol of all the powers of government the working class must learn to rely wholly upon their class.

The logic of events is demonstrating

to the working class that the class struggle is on. It is, therefore, not difficult for the Socialist to show them that there is such a thing as the class struggle, because they feel it. But it is quite a difficult matter for the working class, so long kept divided and arrayed against each other by the capi-talist class over false issues, to realize what their class interests really are In fact, this is the key to the solution of the whole matter; for if the working chas could be made to see what loubtedly vote for their class interests. The mission of the Socialist Party is to terests are one, whether they be Catholies, Protestants, Jews, Mohan Buddhists, or agnostics; whether they be white, black, brown or yellow, whether they have good jobs, pa or no jobs; whether they be unfonists or non-unionists.

The working class have been ruled for ages. Bowed down under the iron rule of the master class, either as slaves, feudal serfs or wage slaves, it to look up to and depend upon the class above them. Always used by one or the other of rival classes to fight their nitles for them, and receiving as their share of the spoil only the crumbs of freedom, the working class have never been taught the lesson of self reliance. In the very nature of things they do not trust their own class. They naturally look to another class for the freedom they have so long desired, al-ways to be disappointed. They have seen forced to trust and depend upon their class largely on the economic field, and yet in spite of their bitter experience in strikes, boycotts, blacklists, lockouts, and injunctions, always deceived and betrayed by the capitalist "friends of labor" they put in power by their voice—in spite of all these things they do not wholly trust their labor. class. They are yet influenced by the sentimentalists and humanitarions and the strictly working-class and the strictly working-class the so-called friends of labor outside elements in the party, and gradually their own class, who either ignorantly or designedly divert them from the nin point at imue at a critical time. For example, the coal strike Arbitradervelde was charged with advocating a policy of isolation. Destrice replied, it is not a question of denagogues and time servers and of isolation, but of independence. We cannot afford to conciliate in politica these who are our adversaries on the strike after they had it won. All they nonthillate inve their thoughts fixed gnined was the solidarity of labor.

The working class must come to real-

ise that the Socialist movement is a movement of the working class, by the working class, for the working class, How can they realize this when the leading exponents of the Socialist movement, while evidently in full sympathy with the working class, are really not of the working class. The orking class do not now need the aid of such sympathizers. What they need is to touch clows with their fellow sufferers. How can we expect the working class to realize what their class interests are and come into the Socialist Party in a body unless the movement is entirely in the hands of the working class who FEEL the class struggle, not merely see it? When yer the working class realize that they MUST depend entirely upon their class for economic freedom they will demand If in the name of their class when they me to see their own class interests and not till then. They would undoubtedly accept economic freedom from any class. But as long as any other class. r any considerable number of indivi duals in any other class show a disp sition to free the working class fro wage-slavery, the working class, as a class, will not make any concerted ef-fort to secure their own freedom. This is strictly in accordance with a wellknown law of biology.

One great lesson the working class

must learn before they come to their class interests and get ready to vote for their class interests, is that they must trust their class. I trust my own class, ignorant and selfish and de-graded though it be, because I know that, sooner or later, its class interests will compel it to act along certain lines. in the interests of the class as a whole, But the working class must rid themselves of the idea, impressed upon them through all the ages, that they must be

Shall the middle class Socialists and | led. They must learn that it is not a

that the destiny of the working class ; the proletarian that they are part and parcel of the proletarian class) shall dominate the Socialist Party, the working class will INSTINCTIVELY feel that this is their movement; that it will be what the working class make it, and not what others may make it for thom. Then the great forward class move-ment will begin that is to put an end forever to the historic class struggle. An intelligent hod-earrier or ditchedig-ger will then feel that he can be a factor in the movement. He can confidently hold up his head, even as the nominee of the party for President. To-day the average workingman feels To-day the average workingman feels his inferiority to men of even less brains and learning in the capitalist class; he feels that men outside his class are fifter representatives in governmental matters than a working man because the members of the working class so regard it. How can such a man look up without something to inspire him? There is no sadder spec-tacle in all history than that of the

heroic struggles of the proletarians of Rome for liberty, led by men not of their class, only to be robbed of the fruits of victory after the victory and been won. The proletarians of Ro as of all other countries of which his-tory gives any account, lost their lib-erty after they had wen it because they had not learned what even the brute

creation knows by instinct—that they must herd with their class and perish or survive as a cineu. The Socialist Party mount dismol this relie of feudulism that the workers are not as good as the idlers; that the rutal lord of the castle who lived by pillage and plunder was of different clay from the hard-worked serfs by whose labor be and his retainers were fed. The Socialist Party must at all times impress this idea on the work-"The great only appear great to us Herause we are on our kneed

Then let us rise." Nay, the Socialist Party must go

further. It must get the working classe o realize that as they are to inherit the earth they are BETTER than their dle masters. Not till the working class learn to scorn the master class as relies of feudalism with fourteenth cen-tury ideas and tastes, as real bar-barians covered with a thin vencer of civilization, will they have the moral courage to face the master class and demand for themselves UNCONDI-TIONAL FREEDOM. In the struggle shead of us it is mainly a matter of MORAL courage, not physical courage. The capitalist class have moral courage now because they realize that publie sentiment is on their side. They will lose their proud, arrogant, dieta-torial and lordly airs when the working class think the other way.

To inspire the working class with the highest degree of moral courage so that they will neither fear nor respect the capitalist class, is the imperative duty of the Bocksits Party. This feeling must go along with and become part of class-consciousness. It is the complement of class-consciousness. As the indvenient grows there is dan-ger of its losing some of its revolu-

fidnery character through the cor

becoming a reform movement in fact while revolutionary only in theory. tracted to the Socialist movement be cause the ideal of Socialism appeals to them. The ideal is grand, and appeals to all lovers of humanity. But the mentalists have their thoughts fixed upon the ideal and not upon the means by which we must attain the ideal. They overlook the fact that classes are not moved by high ideals, but by their immediate material interests. There is already too much sentimentalizing, too much philosophizing, too much at-tempt at fine writing, and too much ignoring of the class struggle. Our middle class and intellectual protes-tarian Socialists are shooting over the heads of the people. The more of such who come into the movement and the more prominence given them, the more the class struggle will be ignored. For the good of the movement they should play only a subscillante part within the party until the working class some into the party in such numbers as to preclude the possibility of any but a strictly revolutionary, working-class program. If this is a working-class movement that class must not be hin-dered in its work. Why should those who are not of the working class make parasites of the working class by disting the work which the working class inould do themselves? There is no expected these class of the working class that will, on t sympathy. cellence without labor. The working their own emancipation if they are to enjoy the full blessings of liberty and houseath them to posterity as a perpe tual legacy.

Covington, Ky., April 21, 1903,

CAPITALISM AND THE FAMILY.

That the long hours of labor, not only for mon, but also for women, and the uncertainity of a sufficient wage render the domestic duties and affec-tions imposible to our great industrial centers becomes evident of itself. - Car-

Our > Esteemed Contemporaries ### (and OTHERS)

Los Angelist Socialist,

Los Angelist Socialist,
Why shouldn't the Manufacturers'
Association be filled with alarm? Why
shouldn't those who profit by expluitation be abarmed at the prospect of the

abolition of exploitation?

The expitalists have now publicly tduitted that their outy hope is con tinued political power, and their prin-cipal function seems to be their "abil-ity" to hire the "ability" of capitalist educators and politicians to fool eighty million people into the idea that twenty-one hundred capitalists who vaste the surplus product should-still remain the associated dogs in the

manger.
President Parry has our thanks for proving that the Socialist Party would carry out the interests of organized labor. Then in the face of the statis tice of his own capitalist government that ten per cent. of the population own ninety per cent. of the wealth, he states that, "Socialism is a denial of individual and property rights." For every individual to have an opportun-ity to use the colectively owned means of production and keep the full value of his labor with which to secure property in the conforts of life which he has justly earned would be a tremendous denial of individual rights, wouldn't it? Come again, Mr. Parry. You have outlined the paramount issue for the national election of 1804. and as Roosevelt agys, your associa-tion is so placed that it "cannot avoid that effort which leads either to great failure or great success.

The gauntlet is down and your is success that society has yet experienced. evitable failure will mean the greatest

The Liberator, Portland, Oregon

The leading editorial in the "Oregonian" of April 14 is on Socialism in Holland, criticizing the attitude of the your attention to the working class character of our platform; secondly, to the bourgeois government ownership purity claume in our national platform. Then permit us to inform you that, at the present moment, there is not a Se-cialist form of government in vogue anywhere in the known world. The railway servants of Holland are so more the copartners in a Socialist commonwealth than the poor slaves who shoot Pilipines at \$13 per month, or the United States mail carriers who act as bensts of burden here in Port

The condition that exists in Holland is capitalistic government ownership, something we are fighting not favoring. Socialism means the collective ownership of the means of production, to be used by the collectivity for the production of wealth for use, said wealth to be private property of the producers, but the socially used means of production and distribution to be socially owned.

The Labor Union. Toledo, O.

It is quite true that there are many differences of opinion among trade unions. Every convention makes this fact very clear. But this only proves the life and vigor of the labor movement. None but the ignorant and the

dend are unanimous on all subjects.

Among the more important of these unsettled problems, the following might be mentioned: (1) Compulsory arbitration; (2) High initiation fees; (3) denth benefits; (4) political So-cialism; (5) the relation of unionism

to the militin; (6) sympathetic strikes On all the above subjects there is amething to be said on each side, and the only way to come to a satisfactory conclusion is to let the discussion continue. The more reasoning and the less bitterness there is in the de-bates, the easier it will be to arrive at

a fair verillet. The time will never come, let us ope, when there will be no living Union does not mean unanimity, "New casions teach new duties," and alcars will as long as the hun outinues its struggles for justice and brotherhood.

BISHOP VS. UNIONS-

Mantreal Prolate Jasues Pastoral Letganizations.

ST. JOHN, N. B., April 28.-The Most Rev. Paul Bruchesl, Roman Catholic Archibshop of Montreal, has locued a pastorni letter condemning la-bor lenders and organizers, Mgr. Brunchest advises the laboring classes to pay no beed to strike agitators, but to look for arbitration on "just and reasonable demands." In part, the Archhishon says:

those leaders and writers who profit those enters and victors who proof in the the slightest couldet between Letter and Capital to foment discord and rebellion and to inspire hatred toward their employers. They are the most canger us focus of the people whose intoroute they pretend to serve, let not our inhoring classes heed their sug-estions. They have absolutely noth-ing to gain. Deceived by these false friends, and arged on by them to commit the most inmentable acts, they will, on the contrary, forfelt public

sympathy.

Possibly the working people who elect those "labor leaders and organizers" and whose agents they are, who know by experience whose acts it is that cause class-intred, will do s quiet thinking of their own as they quer tunking of their awn as they see this conformide prelate taking the side of the employers and misrepresenting the cause of the workers. The militia has been called out here to break the strike of the longshoremen. It is a case of bayoners and pastural letters on one side against the united will of the useful workers on the other.

You have a Cutholic friend who thinks that to become a Socialist would impedi ble soul's sulvation? Give him a copy of McGrady's "Clerical Capitalist" or "The City of Au-gels," You can get either from the Socialist Liferature Company, 184 William street, New York, for 10 cents.

PARTY NOTES.

Local Alameda, Cal., has adopted ne Socialist speakers in placing their services under the control of capi talist lecture bureaus and charging ex-orbitant prices for their services, de-claring that this local will not aid or employ such speakers and calling upor comrades everywhere "to assist us in correcting this growing evil and so to adjust these matters as to keep our speakers free to render the best ser vice of which they are capable, with-out having their field limited by auti-

The Socialists of Maine obtained the nignatures of nearly six thousand noters on petitions for the enactment of a law to permit municipalities to establish fuel yards. This petition was endorsed by seventy-one laber unions.
It was presented to the Legislature and the bill was passed and is a law.
The Superior Court will probably declare it unconstitutional. This is the first state in the Union to pass this law. Local Portland will in the near future memorialize the city govern ment to establish a fuel yard. In the recent city election the Republicans and Democrats combined to defeat the Socialist ticket, but out of 1.888 votes cast our candidates policd 540 votes, although this was the first city cam-paign of the Socialist Party.

The City Committee of the Socialis Party of Hobokeb, N. J., met at Moel-ler's place, Fourteenth and Washing-ton streets, on April 30., All Hoboken branches were represented, also the Agitation Committees of the different hranches. Plans were devised for a lively agitation during the summer months by means of open-air meetings and literature. Plans were also made for a picalic, to be held on the last Sun-day in June in Schaefer's Park, Home-atead, for the benefit of the campaign or Eurico Ferri of Italy during element of Hoboken seems to present good field for agitation. On May 10, branch 2 will have a meeting in Quartette Club Hall, when Comrude Mills of Kanasa will speak. Admission will

The sleepless activity of the Socialists throughout the year is clearly manifested in the number and charac-ter of the state conventions that are being held, or that will soon he held, in all parts of the country. The In-diana convention, held at Indianapolis on April 25 and 27, was the largest in the history of the party in that state. Twenty-three delegates were present. The offices of secretary and treasurer were combined and means will be pro-

tary-Tressurer, James Oneal and Win-Seld Silver; National Committeeman, spoke in their well known clear and uncompornising manner. A feature of the meeting was the violin soles of little Miss Helena Moore of Pittsburg, which wen reunds of applaum. We will held lectures every other Sunday Martin H. Wefel, S. M. Reynolds, and Matt Hollenberger. A plan similar to the Michigan one was adopted to further organise the state, and local nfternoon from now on and street meetings whenever it is possible to for the work. The New Hampshire convention, held at Concord on April 23, was also the largest in the party's

speakers will volunteer their services

history. Thirty-one delegates were present, representing locals in Concord, Dover, Manchester, Franklin, Claremont, Portamouth, Milford, Kast Hampstead, and Nashua. Resolutions

were adopted endorsing the national

and international platforms of the So-cialist Party, and defining its attitude on state conditions, in a forcible and

fearless manner. Sumuer F. Claffin's

report as National Committeeman, and

the reports of Hecretary Louis Arastein and Treasurer B. T. Whitehouse were received and adopted. The fol-

lowing were nominated to be sub-mitted to a referendum: For selection of a State Executive Committee of five, Louis Arnstein, J. S. Murra, M.

State Organizer to take the field lum

Walter Thomas Mills will deliver an address in Philadelphia, at the Labor Lycaum, Sixth street, above Brown, on Saturday evening, May 9, his sub-ject being: "Capital and Labor."

The Tenth Ward Branch of Local Hudson County has adopted resolutions of regret at the death of Wim. D. Comrade Shunk was a very Shunk. set and faithful Socialist and the brauch feels that It has lost a valuable member.—This branch will hold a street meeting at Five Corners, Newark and Summit avenues, Wednesday evening, May 13. All readers of The Worker are invited to attend.—The branch donated \$2 to national headquarters.

Frank O'Hare, accompanied by Mrs. Kate O'Hare, will tour in Ohio beginning May 5. Dates already arranged are as follows: Ashtabula, May 5; Canton, May 6; Mansfield, May 7; Lex-ington, May 8; Youngstown, May 9 and 10. Other dates will be announced

Walter Thomas Mills will speak in Dayton, O., on May 13, 14 and 15. Great preparations are being made for this series of meetings and a large attendance is already assured.

Father Kress has been lecturing in Randusky, O., against Socialism. A question box was placed in the vestibule of the church and the Socialist contrades were quick to take advan tage of the opportunity offered and filled it with questions pertaining to our movement. They write that it was indeed a sight to see Father Kress attempt to answer them. They got him so badly rangled that he stopped and scratched his head and then made one of the weakest defenses ever heard. They think that our cause has receive inmetus by his lectures. Father McGrady lectured there in February and Father Kress tried to refute all his arguments. The comrades have soentire time is now taken up by the organization. Members are urged to pay dues promptly and so advance the cured a return engagement for Father McGrady and he will lecture there on May 15, and Father Kress will be in-vited to discuss the Socialist program with him before a Sandusky audience.

Pather Me and will lecture in South Chicago, Ill., May 18 and in Davesport, Iowa, May 19.

Compade Hall of Plymouth Mich. writes that in the local election just held 17 Socialist votes were cast, as against 8 last fall.

The Socialists of Jacksonville, Fla., have gone into the city campaign with c. H. Burnard as candidate for Mayor.

The O'liare meetings in Orange County, N. Y., at Highland Falls and Newburgh were very large and enthi Cornwall, Middletown, and Port Jervis had their first propagands meetings. The weather being pleasant addresses were made in the open air, and promising locals were organized in Middletown and Port Jervis, The Orange County comrades are de-termined to keep up the work and intend to arrange more meetings for other speakers.

Comrade William Edlin has assumed the editorship of the "Cap Makera" Journal," the new monthly organ of the United Cloth Hat and Cap Makers of North America. The members of this union everywhere observed May I'my as a holiday, a fine being imposed upon any member who worked upon the international holiday of Labor.

ent mayor, who is running for re-elec-tion, has offered to sign a pardou for the Socialists who were arrested and The O'Hares spoke in Johnstown, N. Y., on Wednesday of last week. The heavy giove cutters' strike and the threntened lockout of the light glore cutters has roused interest in the labor fined, but the offer was promptly dequestion and there was a good attendsince. The speakers made a very good junpression. On Thursday Mrs. O'Hare spoke again in K. of L. Hall. our attention to the error inadvertently made last week in crediting the Social-

The "California Socialist" is now ed ited by Comrade D. E. Bohannon, and will change its name to the "California Revolutionist," the following reahats at Newark last Saturday proved a most enjoyable affair. The spirit of comenaleship, says State Secretary Kenrms, was manifested in every act as it must of necessity be less than the real article—as any set of individuals is less than the whole people—the word Socialist seems to in a bit presumptuous as a name."

> Charles Oliver Jones is just starting a unique campaign of education for Sociatism. He has provided himself, with a complete outsit of moving pic-tures of the most modern type. His repertoire of pictures lilustrates most viridly the contrasts in social conditions, so that the pictures not only draw the people to near the message of Socialism, but they make most im-pressive the Socialist lecture which the people are thus induced to bear. This entertainment becomes not an expense but a means of revenue to the locals for further propagands. The receipts for one evening at Aspen, Colo., were \$132. Common Jones is now at work in Colorado. Completing his Colorado work, he will enter Nebraska and Iowa. Then probably he will go far-ther east. His work is under the di-rection of Prederick G. Strickland, Aspen, Colo., to whom all correspondence should be addressed.

Harry McKee will hold meetings in Colorado, Wyoming and California on his way home to San Diego, under the direction, of national headquarters.

Frederick G. Strickland's "Social Justice" has been combined with Mills'
"Socialist Teacher."

Edward P. Clarke, who is a gradu

take a collection for the party at the Mills meeting. The recommendation was opposed on the ground that such a collection would not a very angular sum and that the meeting had not been

arranged by the party, and it was lost.
The committee elected to investigate
the assertions in the "New York Socialist and Trade Union Review" and the relations of certain party officers other club rooms are secured. This district has contributed \$2 to the Na-Wood was a prime mover in the enter prise from the very beginning," that "from the very first he was the real editor of the paper, Comrade Bowerman's name being used to shield Com-rade Wood," and that Wood had refused to appear before the committee on the ground that it was unconstitu-tional. The report recommended that Wilkins be exonerated; that Searing be exonerated, insofar as his action as at-torner was concerned; that Wood be summarily dismissed from office; and that the following resolution be adopted:

"Whereas, James N. Wood and H. C. Bowerman, members of Local New York, Social Democratic Party, have lately been engaged in a systematic compaign against the organization of tation meeting; 3. Reports of District, the party in New York, by means of attacks on the personal character of prominent comrades of Local New York, and insults to the intelligence of 5. Coming campaign—Dr. Furnam to speak; 6. Campaign fund—Organizer Atkinson to speak; 7. Consideration of the party in New York and its

"Whereas, They have lately pubevery effort to get members there and statements and direct faisehoods con rerulug the party and its membership.
"Resulved, That we, the General
Committee of Local New York, Social

o every member of South Brooklyn Democratic Party, do hereby condemn inmeasured terms the conductes N. Wood and H. C. Bowers and brand the staements contained it meeting, took in seven new members- the New York Socialist and Trade the result of committees visiting en-rolled voters. This brings the mem-bership up to forty-three. A thousand copies of the May Day Number of The The report closes as follows:

"Finally, we come to the position of Wood and Bowerman as ordinary private members of the party. The character of the paper, its malevolent at-tacks, willful misrepresentation of facts, semsational and misleading reports of important meetings, cannot be passed over in silence. As a committee we are a unit in saying that while we The temperal commutes in the Labor Lyceum, 64 ft. Fourth street. It is easily justified in their decision should they decide to punish the two comrades mentioned in the most severe manner known to our or cantaction. But we venture to warn the comrades in general that they re-serve such heroic measures for other and greater needs. We would not give then the glory of a fancied martyrdom. As it happened, their inhorious in-trigues had comparatively little result. The paper was only after all a 'flash in the pan,' and we should not dignity therefore recommend that a resolution Literary Society in regard to the Mills in some such terms as suggested at the dose of this report, censuring them in the strongest terms be adopted by the Consultant of the strongest terms be adopted by the consultant of the strongest terms be adopted by the consultant of the strongest terms be adopted by the consultant of the strongest terms be adopted by the consultant of the strongest terms be adopted by the consultant of the strongest terms because the

amendment carried.

Among communications was one from James N. Wood, withdrawing his resignation from the office of Organ-live. Spargo and others severely arraigned Twenty-one new members were ad-altted.

Tueston a motion to give Wood the floor was voted down on the ground that be had invulted and ignored the General In case of Paul Thielke, a party Committee by refusing to appear be member acting as an officer of the D_{ref} fore its investigating committee. He rect Legislation League, the Grievanes was later given the floor, in order that there be no appearance of injustice. He given the opportunity to resign, and if did not attempt to refute the direct not that he be expelled. Thicke was charges, but made a inbored attempt to given the foor in his own defense, and the recommendation of the Grievance York favored fusion.

After the report had been concurred in, a motion to reorganize the City Ex-ecutive Committee was laid over un-

THE WORK IN OHIO.

The report of State Secretary Critch-low of Ohio for the month of April

shows total receipts for April \$384.81 balance on hand April 1, \$17.22; tota

expenditures for April, \$409.84; May I

treasury overdrawn \$1.81.-No nev

locals were organized during the mouth. Several new branches are re-ported organized from Cincinnati and

Cleveland as well as several more in prospect. Several new locals are in course of organization at this time and expected to be in working order in the near future.—A total of 183 new mem-

bership cards were issued during the month as follows: New members, 169; lost cards and re-issued, 4; stamped

full cards and re-issued, 10. According

to these figures Ohio is still growing in new members in all the locals, thus strengthening the organization where most needed.—The business at head-

quarters consisted of outgoing material

as follows: Letters, 1,653; postals, 142; packages by mail, 156; packages by ex-

press, 13. The is a large increase ove

previous mouths and indicates the

growth of the sentiment as measured by demands for information and litera-ture which are daily reaching the Sec-

retary from every part of the state.— Tours for McGrady and Hagerty are being arranged with good success. During the month a tour has been ar-

ranged for the O'Hares which will be

gln May 5 and end May 19. Summer agitation circuits are being arranged

and all secretaries are urged to se

that the decision of their local is sent

in without delay, in order to complete the circuits and start the work as early as possible.—The State Commit-

tee now consists of nineteen members

congressional districts not be elected being the 11th and 19th.

SOCIALISM IN WASHINGTON.

By J. D. Curtis.

for the May Day Number of The Worker, but unfortunately reached the office just a day too late to be used. It is only fair to say that Comrade Curtis is not to blame for the delay.

together with the limited observation of a single individual, combine to make this brief account of Socialism in the state of Washington more or less inomplete and fragmentary. Only a debe a gap, induced the undersigned to

be a gap, many the undertake the task.

The earliest Socialists in Washington were those staunch old "internationals" whose courage and cleaning the course of the courage and cleaning the course of of vision contributed much to the in aution of the movement and add greatly to its present strength. As far as can be learned they never formed any regular association liere.

any regular association here.
The first regular organization of So-chilists in Washington was formed by the Socialist Labor Party, a section be-ing founded in Seattle about 1807. The ory of that party in this state is like that of other states, one of dis-cord and disruption. At the time of the great split in the S. L. P. a large part of its membership dropped out, me members of the ner of the present Socialist Party. Scornfully rejecting all overtures for ton have fought their way alone ge erally polling an insignificant vote, it highest being 800. At present they have only two or three sections in the

For some time it struggled along with membership from the seceding wing of the S. L. P. it took on new life and energy and in the summer o. 1900 held its first state convention and nomipaign followed and notwithstanding the differences then existing in the na-tional party, it polled about two thou-

sand votes.
In 1991, although there was not state or national election, a state convention was held at which the party principles and tactics were thoroughly discussed, and a movement preparatory to a

ers were nominated. The hard work

There are two problems which must | are get seven dollars a week, and pref-

PNota,-This article was intended | Several minor officers throughout the suite were elected.

shite were elected.

The general character of the Socialist movement in this state has been quite revolutionary, being of the class-conscious, scientific sort. An examination of the party's state constitution and the various platforms shows a soundness in fundamental Socialist principles and a stern attitude against compromise and fusion of any kind.

There are two so-called Socialist colonies in Washington, located at Equality and Burley, the former being managed on the purely democratic plan. These have both published page have had practically no effect on the movement at large and are mentioned here only as a matter of information. The first Socialist paper in Washing-ton was the "New Light," of Port An-

geles. This paper was somewhat re-ligious in its tone and struggled along The started in 1901 by the Socialist Educational Thion at Seattle. In spite of all sorts of difficulties, including special persecution by the Postmaster General, it has grown to a national circula tion, having at present about seven thousand subscribers. It has done much propaganda work among non-Socialists, as well as being of great educational value to party members. The "New Time" was started in 1902 by the Socialist Publishing Company at Spokane. It already has several increasing their number. There are also a number of country weeklies more or less socialistic in character.

The Socialists of Washington have their differences, which almost inva-riably are those of principle; and when minority as well as the majority go cheerfully to work again. Some condifferences, but let us remember that Socialists are radicals and dissenters and it is perfectly natural that they should disagree upon certain points. If these disagreements are not personal and unduly prominent they in dicate a healthy and vigorous could-tion. Occasional practice with each other does not decrease our efficiency when we must mee' the enemy.

The Socialist movement of Washington is on a firm basis. The outlook is exceedingly encouraging and we shall continue to prosecute the work of pro-

The Socialists of Washington send greetings to their comrades of other states. Let us contend with each other following this convention was rewarded by an increase of the state vote to nearly 6,000; this vote, as well as the one of 1901, being remarkably uniform for the different candidates. Let us be rivals only to see who can do the most for the cause. And let us work together in harmony for the final emancipation of the working class.

erence is always given to men who

One little incident which occurred in

the works of the Cumberland Glass Company lately is an evidence of the complete subjugation of the workers

there. All the inborers had been get-

ling fourteen dollars for two weeks' work. About a month ago, when they received their envelopes, they found

only twelve dollars in them. No notice

whatever had been given of the reduc-tion. Luckily, this special firm hap

pens to be owned almost exclusively

by one man, an old gentleman with

stands, and is a good object lesson of

caped the curse of hard labor in New

Jersey to any large extent. But it is now beginning to grow apace. Upon every telegraph pole in Vineland to-day are notices which promise employ-

ment to women and girls in the grap

juice factories as labellers. Comrades, in this and other towns say that here

very little girls are employed pasting

There are only two ways in which

the workers can be made to act. One is the force of example, as shown by the few fearless fighters for Socialism who live in that district, aided by the

party press which shows the rapid

growth of our cause; the other is by the measures the capitalists are tak

ILLINOIS LABOR LAW KNOCKED OUT.

Forbid State Employment Bureaus to Se Used as Seab Agencies.

UHICAGO, May 2.—Another labor law has been 'knocked into a cocked hat" by the interpretation of capitalist afterneys on the bench of this state. In 1800 the Illinois Legislature passes a free employment agency act, estab of the trade unions a clause was in serted providing that no employer whose workmen were on strike or who was engaged in a lockout, should be furnished with workers by the state agencies, or be permitted to inspect th

ilsts of unemployed persons. The Supreme Court of the state has now decided that this amendment in-volves a discrimination in favor of a class, and the law is consequently declared to be unconstituional. Thus an other victory of the "practical" lobby ing policy is turned into defeat and at other argument furnished for the eletion of workingmen nominated by working-class party and pledged to the examplete emancipation of Labor to al egislative, executive, and judicial post

UNIONS MAY BE SUED.

EVANSVILLE, Ind., May 1.-Th Superior Court, in an opinion by Judge Foster, has decided that a labor union ubly, held responsible for its acts, either as a body or as individuals. A striking employees from doing certain acts. Counsel for the strikers pleaded that, as their union was not incorpor-ated, they could not be enjoined as a body. To this counsel for the plaintiff demurred. The court sustained the de-murrer, holding that "where public snigty is involved" labor unions, even if not incorporated, can be sued either as organizations or as individuals. This decision follows the much-discussed Taff Vale English case. The point, in way, is not new in this state, for hermore persons may be sued in the name of its president or tressurer, and the judgment so obtained binds the property of the society. The direct application of the rule to labor organiza tions is the only new feature.

BOSSES' BRUTALITY.

Capitalist brutality was very well instructed inst Saturday in the leathergoods factory of Deutsch Bros., former y of M. Schmickel & Co., in Spring recognition. They got the answer that the business was sold to the Deutsch ntes, but refused recognition. On Sat arday one of the bosses called the The men who talk unionism, he said, are a lot of loafers, and the lass you people have to do with them, the better. He was going to run his business, in his own way and must be the workers, was told to 'shut up his mouth." and on insisting, he was sum marily discharged with a volley of abuse. After this man had got his pa the boss again began to abuse him an finally offered to choke him; but seeing that the other workers were likely to take a hand, he desisted from his as-

sault and sneaked away. The men were told that the nine-hou demand would be granted, but the unon would not be recognized. They are

Boolalist Party Invahes Municipal Conngress of the Mesoment in Sorway The Socialists of Stockholm have

registered their first municipal victory by the elemtion of Comrade Blomberg, President of the Machinista Union of Sweden, to the City Council, by a vote of 19,380 against 15,769 for a banker

named Wallemberg.

Along with this news the "Revue Socialiste" of Paris presents an interesting account of the Socialist movement in Norway and Denmark.

As Norway is the least developed in dvatrady of the three Skandinavian countries, Socialism is naturally there the weakest. The influence of the revolutionary mavement of 1848-50 was felt in Norway and, under the leadership of Marc Thrane, a power-ful but short-lived agitation took place. Nearly three hundred workingmen's societies were formed, aggre gating 50,000 members, with several well edited papers. This movement was suppressed in 1851, the societies being dissolved and Thrans imprisoned party, which has dominated Nor wegian politics through most of the half-century since and has carried into effect a great series of reforms in edu-cation, in law and administration, and in the extension of political rights— culminating, in 1901, in universal manhood suffrage, with partial woman suffrage in local elections.

The Radical party, however, is esentially bourgeois, it has not dared to face the new economic problems, and having fulfilled its historic mission, it has gielded to the corrupting influences of capitalism. While, as already re-marked, Norway is still not a great industrial country (having only two large cities—Christiania with 230,000 people and Bergen with 100,000), yet ndustry is developing and with it develops the class antagonism between

ipitalists and proletariat.

These changing economic condition ave given birth to the Socialist Party. definitely organized at a congress held in Arendal in 1887. Its progress has been slow but stendy and manual workers have co-operated with a num-ber of liberal-minded teachers, physi-

claus, and lawyers, in 1891 the party first nominated candidates and, under the restricted suffrage then in vogue, polied 537 votes. In the municipal elections of 1802 this figure was increased to 780 and in the parliamentary election of 1897 to about a thousand. In the city elections of 1899, under more liberal reffrage laws, the vote was largely inrrespect and some fifty Socialists elected to office in fifteen cities. The general elections of 1000 gave the party about 7,000 votes, but none of its parliamentary candidates were elected. In 1901 the party elected 147 of its candidates in twenty-two muni-cipalities. There is little doubt that this year several Socialists will be sent

to the Storthing or national parlia-The party has now about 12,000 members enrolled in 211 local organizations, and has liveded the most remote parts of the country. It has three daily papers, with an aggregate circulation of 11,000, in Christiania. Bergen, and Trondhjem, besides a tri-weekly at Tramso in the extreme north, a weekly at Stavenger, and a

nonthly review at the capital.

Attention has been called to the irength of Socialism in Denmark by the recent visit of the German Kalses Copenhagen, where he was under master (roughly corresponding Mayor in American cities); perhans

The Social Democratic Party of Denmark has just celebrated its twen traffth anniversary. In 1871 there existed a Danish section of the International, but this was dissolved two years later. In 1878 was founded the Social Democratic Taion, later differentiated into the present political party and the federation of trade

In 1880 and 1882 the Social Demo house of the national parliament) memorinis in favor of legislation for the relief of the working class such as early as possible in May and locals de-laws providing for oid-age pensions, state insurance against sickness, stat assistance for the out-of-work funds of

the unions, and an eight-bour law. Of course none of these were accepted. In 7582 the party went to the polis for the first time, making but an in significant showing. But two years later two of its candidates, Holm and Hoerdum, were elected to the Folithing from Copenhagen districts. It successive elections during the sevensucceeding years the number of Socialist representatives has gradually been increased to fifteen.

First entering the municipal contests in Copenhagen in 1896, the Social Democrats elected two members of the City Council, Jeasen and Klausen, in 1865. The Socialist group in this body now numbers nineteen, besides two members of the executive commission. Beginning in 1883, the party, which had till then been confined to the capi-tal, has spread to the lesser cities and towns and then to the rural districts and has now about two hundred se tions. It is supported by twenty-two

CENTRAL MASSACHUSETTS.

NORTHBORO, Mass., May 4.—A conference of Socialists of Central Massachusetts was held at Mariboro. Massachusetts was held at Mariboro May 3, and delegates were presen from four cities and eight towns. Mari boro is located in the extreme eastern and of the district and this may acand of the entirict and the may ac-count for the rather poor attendance. But despite this, reports of excellent progress were heard from all quarters. The next conference will probably be divided into a meeting at Webster early in July and one in Fitchburg late in

Comrades Hitchcock of Warren and Comraces Hiltencore of Warren and Dixon of Northboro respectively were chairman and secretary. Addresses were made by Mayor Coulier of Brock-ton and State Secretary Dan A. White. Comrade Dixon rend a paper on lit-crature, the Seature of which New 6 STATE COMMITTEE.

IN PENNSYLVANIA.

At the last meeting of the State Committee communications were re-ceived from Locals Hazelton, Mattch Chunk, Duquesne, Royersford, and Utahville; requests for information how to organize and for speakers from Hyndman, Bennet, and Marietta.

Hyndman, Hennet, and Marietta.

Reports were received from Organizer Collins. He spoke at well and tended meetings at Hazelton and Mauch Chunk. At Hazelton the Mayor. of the city, one Reinhardt, who courts the favor of the Parders, the Coxes and the Markles, does not want the Socialists to speak on the streets. He tried to stop our speakers last fall and his failure to scare off Morrison I. Swift was one of the laughable incldents of the Socialist campaign in the coal regions. He tried to do the same with Collins and found he was up against the real thing again. In a letter telling of his work in the coal fields Comrade Collins says:

"Our old friend the Mayor of Hazelton had me arrested for speaking on the street. I had just started when they agreeted me, so I forced my trial, as I wanted to get back to continue my story to the crowd. His Hanse was very kind to me. He told me be sympathized with me. He is not op-posed to Bocialism if it is kept out of politics. He told me be would let me off if I would promise to go home. I told him that as soon as I got out I was going back to continue my talk. The mayor then wanted to compromise with me. I told him that that is a word we have eliminated from the vocabulary of Socialism. He looked-wise, I think he thought vocabulary was a new kind of dynamite. The you be satisfied? I said: 'Yes, if you let me pick the place.' They did not want to agree to this, but finally they said I could go free if I would move my stand a few hundred feet so the crowd would not block the cars. I did not want to block the cars. They are not good subjects to talk to. I was turned loose, and I had a crowd to listen to the gospel of the working cinsu's salvation."

At an adjourned meeting of the ing. April 24. Comrade Fred W. Long resigned as Secretary of the Commit-tee, owing to lil health and lack of time, and Franklin H. Slick was

elected to fill the office. The result of the referendument the place of holding the state convention has resulted in the choice of Reading by a substantial vote. The time of holding the convention is Memorial Day, Saturday, May 30. Locals at entitled, and make this a convention that the party may look back upon in coming years as a milestone in Social-ist progress. The basis of representa-tion is as follows according to Article X, Section 2, of the state constitution: "Each local shall be entitled to one delegate, and one additional delegate for each fifty members or major fraction thereof in good standing for three months prior to date of convention

keeping in touch with the organization by sending in a report of progress at least once a month. Let the State least once a month. National Platform of the Socialist Party.

of Social Democratic Party. The party embiem in New York is the Arm and Torch.]

The Socialist Party of America is antional convention assembled, realitime its adherence is the principles of international Socialism, and declares its aim to be the organization of the working class and those in grappathy with it, into a political party of government and using them for the purpose of transforming the present system of private ownership of the menus of production and distribution into collective ownership by the entire people.

Formerly the tools of production were aimple and owned by the individual worker. To day the machine, which is but an improved and more developed tool of production, its owned by the capitalists and not by the production, its owned by the capitalists and about the content of the confidence of the content of the confidence of th

feriority, political subscritters and virtues-abaver.

The economic interests of the capitalist class dominate our earlier social system; the lives of the working class are recklessly acrificed for profit, ware are funerated be-tween nations, indiscriminate slaughter is encouraged and the destruction of whole races is annetlated in order that the capi-talists may extent their commercial domin-ion shroad and enhance their supremacy, at home.

ign silvand and enhance their supremary. at home.

But the same economic causes which developed espitalism are leading to Suchatian, which will should hot the capitalist class and the class of wage workers. And the active force in bringing about this new and higher order of society is the working class. All other classes, despite their apparent of actual condicts, are alike internated in the upholding of, the system of private owner, and the classes, despite their apparent of the properties which do not stand for the bestgroots public ownership parties, and all other parties which do not stand for the complete overthrow of the capitalist system distinction, are alike political representatives of the capitalist class. The workers can most effectively act as a class in their struggle against the collective-powers of capitalism. By constituting them selves into a political party, distinct from and opposed to all parties formed by the properties classes.

IMMEDIATE DEMANDS.

to political offices, in order to facilitate the attainment of this end.

As such means we advocate:

'L. The public ownership of all means of transportation and communication and all other public utilities, as well as of all in districts controlled by monopolites, trusts, and constitutes. No part of the revenue of such industries to be applied to the reduction of faces on public wholly to the increase of wages and shortening of the hours of labor of the employees, to the improvement of the service and diminishing the rates to the consumers.

Z. The progressive reduction of the hours of labor and the increase of wages and shortening of the hours of labor and the increase of wages in order to decrease the share of the capitalist and increase the share of the worker in the product of labor.

Z. Rate or national insurance of working people in case of accidents, lack of employment, selected as a state of the worker in the product of the capitalist class, and to be administered under the cantrol of the working classe.

CLASS-CORSCIOUS CAPITALISM

"American Industries," a journal whilshed in the interests of the manu facturers of the United States, con-tains the following compliment to organized labor:
"In a very few years a man will be

ashanied to announce that he is a member of a trades union, because it will make all the difference between a ware and a free man.

"Trades union meetings are generally a mixture of beer and anarchy.
"Organized labor makes a specialty of veiling 'scab,' but as a 'scab' for ething which grows upon a healthy ganized labor is a 'scab' which has shown upon the healthy body of free

imerican workingmen."
This organ of capitalism, which is supported by the exploiters of labor, is "class-coincious." The editor whose convictions have been moulded by the convictions have been moduled by the salray which his owners see fit to pay him, recognizes the fact that there can be no harmony or co-operation between the capitalist and the laboring man. The manufacturers have organized and ampport an official journal to propagate their ideas for the influence that they may have over the people in delaying the day of reckuning. The manufacturers delegate to themselves the right to organize, to render themselves more powerful in the field of commercialism. They have realized that "in union there is strength." but frown with dis-pleasure upon the wage-slave whose intelligence has awakened to the neces-sity of sheltering bilmself beneath the hanner of organized labor to protect his individual interests in life. man who earns his living through a job supplicated from an employer, knows that as an individual be can demand no remuneration from a mas-ter sare that which the exploiter is

cause this degenerate product of our industrial system becomes an auxiliary in the bands of the employer to weaken the strength of organized inbor. The scab is the ally of capitalism, and the laboring man who receives the wage schedule which organized labor has obtained for him and refuses to enter the union and contribute to the support of an organization that is battling for a larger share in the products of labor is no better than the "hero" of Eliot infany. The attempt of the "American Industries" to demonstrate that the scale or the man outside the realms of unlouism, is a tree man, contains shout as much truth and as much logic as there would be in the assertion that the convict is the garb of a felon is enjoying "life, liberty and happiness." No man who tolls for another, whether he is a scal-or a member of organized labor, can be owned by another, makes the depend ent on that job a slave. Some may say that he has the freedom to quit when ever conditions become unsatisfactory That is true, but if he needs the folnever be free until the title to hand and all the nuclinery of production and distribution shall be vested in the whole people to be used for the use whole people to be used and benefit of humanity. ery of production and distribution be-ing in the hands of the few has put into the hands of capitalism a weapon which is rapidly destroying the political liberty of the people. Private own rship of the means of life intimidates the honest political convictions of the intering classes and forces, through fear, the wage-slave to cast his ballot in the interest of the combination which grants him a license to work. Not only is the laboring man a slave, but according to Seuntor Morgan the members of Congress are paralyzed before the collowal power of amalgan ated wealth. Men will never be free until industrial liberty opens the doors of equal opportunity to every man, woman and child that inherits the earth. Organized labor has been figh ing on the industrial field to maintain a wage compensation that enables the human family to obtain some of the necessaries of life, but organized labor is acousing from the hymotic spell of fake leaders and moving towards the political battlefield where capitalism will be assassinated for once and for-ever.—The Miners' Magazine. For infermation about the Social

Democratic Party (Socialist Party) in New York address the State Secretary, Henry L. Slobodiu, 00 Second avenue, New York city.

PRISON BETTER THAN FREEDOM.

An act has been passed by the Legis- | of work who are in the habit of worklature of New Jersey providing that tramps and vagrants while performing labor in prison shall have a ball and chain fastened to the leg. The reason for this attempt to make prison life particularly uncomfortable to this class of prisoners is naively set forth in the following preamble to the act:

Whereas, Many communities in this state are over-run and infested with disorderly wayfarers, idle vagabonds and homeless vagrants, commonly known as tramps, and crimes and outrages perpetrated by them have become frequent; and

"Whereas, Punishment by imprison ment merely is not a sufficient deterrent to such persons, who, on the contrary, OFTEN COMMIT OFFENCES POR THE VERY PURPOSE OF BE-ING IMPRISONED AND THEREBY BETTERING THEIR CONDITION: "For remedy whereof, he it enacted,"

Here is a nice official picture of Prosperity and Civilization,

The declaration of the New Jersey legislators shows how much freedom is worth when a few own the earth the means of life, and the fruits

For the homeless yagrant, outside the jail there is either no work and no pay or very small pay and excessive labor; outside there is hunger and cold and wind and rain to be met in scanty clothing and without shelter, for the tramp bath not where to lay his head. Inside the jail is work and warmth

and shelter and three square meals a To the homeless there's no place like

And consequently so many try to break into jail that the tax-payers are annoved and the legislature must pass an act to prevent the voluntary over population of jalls.

Why are there tramps? Nome of them are men who wan work and cannot find it.

Some of them, finding themselves in a world where labor is despised and defrauded and cunning gets all the prizes, think it easier to beg or steni for a living than to work themselves to death for capitalists who do not work at all.

Some of them are merely brokendown wrecks, without energy and without hope, drifting simlessly, derelicts on the river of life.

Of these some were born of mothers who had to labor so hard for a living who had to work so ceaselessly while pregnant, that they had no energy to give to their offspring-born with devitalized thanes, born lasy and "good for pothing"; yes, actually born with "that tired feeling," because born of an over-worked wage-slave mother. Some were wrecked and forever robbed of all energy by premature toil that poverty forced upon them in their pod-when the little child is worked twelve hours a day before it has had a chance to grow, the man will be lazy and good for nothing because the human mechanism is worn sapped away. Some of them looked for work at one time, could not find it, lost self-respect, learned to live in other ways, and now would not work to they could—the insecurity of presoutcasts. Some were driven to drink the strain of over-labor.

All of them are products of industrial conditions.

they wanted it, and a great many of them do.

Government statistics show that

ing and are not tramps-not always the same million, but always a million out of work during the year, some out of a job for three months, some for six months and some denied the right to work for a full year. Everyone knows that the number of workers ex ceeds the number of jobs which the capitalists who "give employment" have to offer. Look at the "want' columns of the Sunday papers and see how many more "situations wanted" there are than "help wanted" and remember also that many who want situations have not the money to insert an "ad." Look at the long line of men or women or children anxiously waiting to make application wherever a single job is to be had. But if you are a worker you will not need this evidence-you will know what it is to

look for a job. The tramp is the natural product of these conditions. On every side men are being displaced by machinery and by women and children-they cannot get work because the capitalist does not need them in his profit-making business. The conitalist is the man who owns the machine and the factory and the land and the railroad. Private ownership of the means of producing wealth-this is the cause of poverty and unemployment and all the discouraging and hopeless conditions which make men tramps and out-

This system of private ownership of the means of production which the workers have created and must use has made this world, for many human beings, worse than a jail.

For many, freedom under capitalism is worse than imprisonment—the New Jersey Legislature says so. And these "homeless vagrants" who try to break into jail are not trying to avoid work, because they are put to work

And the gentlemen sitting in solemn session at Trenton propose to remedy such conditions-by a using a ball and chain to make life miserable for the outcast who is lucky enough to get into prison. The gentlemen at Trenton cannot consider any real solution because it would interfere with "business interests"; and "business interests" put them in the Legislature.

If a Socialist Legislature sat at Trenton it would have quite a different iden. Public works would be established upon which the unemployed could get work t easy-hours and good wages, If the number of vagrants was not thus reduced the constant increase in their number would at least be stopped.

For men take the line of least resistance-if it is easier to make a living by begging and stealing and tramping than by working, many will tramp; if it is easier to make a living by working under decent conditions and with good remuneration men will prefer to work rather than suffer the hardships of homeless vagrancy.

But no solution short of the ultimate aim of Socialism-the complete abolition of capitalism and the common ownership of all the means of production with the return to the workers of the full value of their labor-will permanently do away with such conditions. When the people own the factories and mills and mines and railent conditions gradually let them slip | roads and all other means of produc down into the social abyss among the | t'on, no one will be without work, no one will have to work too hard, all by the cheerlessness of poverty and will be able to make a good living easily, machinery will shorten the hours of labor instead of displacing men, the tramp and the outcast will disappear with the poverty and unemployment and evil environment which produced bim, and all will be free and happy fellow-workers in a Co-opera

BLACKLISTED BY THE GOVERNMENT.

Saverament Reard Revokes License of Marino Engineers because They

ST. LOUIS. Mo., May 6 .- A curious incident in the marine engineers strike here illustrates how easily laws ostensibly intended for the protection of the workers can be turned to the use of the employers against them. A marine engineer has to have a license in order to work, under the law. Now the local Board of Steamboat Inspectors has revoked the licenses of thirty the strikers and gives notice that it will revoke the licenses of all en-gineers, pilots, or other licensed work-men who go on strike. The Board makes the argument, consistent enough from the capitalist standpoint, that a license to work, granted by the government, can be revoked by the working-class government.

OMAHA ELECTION.

Strike Experience Shows Results at the Polls:

Socialist Party Makes Good Showing in First City Compaign-The Fight for Right to Hold Street Meetings-The Strike Situation and Capitalist Activity.

(From National Headquarters.)

OMAHA, Neb., May 7.—in the Omaha municipal election on May 5 the Socialist Party candidate for Mayor, Wm. H. Moore, poiled 1.436 votes. As this was the first time a municipal ticket was in the field the local courses are greatly pleased at ocal comrades are greatly pleased at the showing made. This vote was ex-ceptionally good, considering that three capitalist candidates were up, all professing to be "friends of labor" and put forward purposely to divert at-tention from the real labor issue. That the Socialists should poil such a vote under the prevailing conditions has created something of a sensation and there is more talk about this feature of the election than over the successful candidate.

There were some interesting developments during the last two weeks of the campaign, all of them tending to favor the Socialists. The arrests of our street speakers had aroused some indignation and had it not been that stormy weather prevented any sort of outdoor meeting being held except on election eve (when our spankers were not molested) the policy pursued by the city authorities would have caused

ore Indignation still.

The cases of Comrades Hyland, Mc Caffrey, and Morgan will be held before the District Court, their refusal to

be partioned by the Mayor making heir trial inevisable. But if they were not able to use the streets, the Socialists carried on their campaign in other ways and plenty of literature was circulated. On Satur-day evening before the election, a meeting had been called for in one of the large balls for the ostensible purpose of giving workingmen a chance to express their choice of the mayor-ality candidates. The Republican machine was engineering the movement but workingmen belonging to all par-ties were invited. Of course, the So-cialists attended. The hall was jammed, and the meeting opening rather noisily, as all the "pluggers" for the three capitalist candidates were on hand to capture the meeting. The Socialists kept quiet, and very soon the confusion and uproar between the contestants for possession grew so intense that the promoters of the meet-ing dismissed it and the crowd started for the street. Then the Socialists took a hand, called the crowd back, had Comrade Morgan elected chair-man, and a symposium, consisting of speeches by representatives of all the randidates and parties followed, which lasted for three hours. The Socialists were represented by Comrade McCaffrey and Morgan, and when the meeting closed a motion to endorse the hod-carrier candidate, W. H. Moore, non-writer cannate, w. H. More, went through with a whoop. A vote of thanks was also given the Socialists for the firmness in which they conducted the meeting. Thay had done what the lawyers and professional politicians had failed to do.

On May 1, the white waiters and teamsters struck, but the city authorities took no action until an hour before the polis closed on Election Day. Then what the Socialists predicted would happen as soon as the working-Then what the socialists predicted would happen as soon as the working-men had voted against themselves again, did happen. The Mayor, in reagain, did happen. The Mayor, in re-sponse to a demand from the Business Men's Association, called the strike leaders together, warned them to "preclosed and a double detail of police to intimidate the strikers. On Wednes-day the transfer companies demanded Union from the Federal Court, Judge Munger presiding. They got one of the most sweeping injunctions ever is-sued, with the result that to-day one would not think a serious strike was

on in Omala. The day before election the Social-ists, by the merest accident, obtained possession of a card which was being sent out to all the business houses by the Millard Riffes, the local crack company of the national guards, request-ing these firms to pledge themselves to pay full wages to any of their employees who might be called away om work as members of the national guard. It was expressly stated that this was in order to continue the labor mions in their opposition to membership in the militia and "to encourage enlistment in the national guard."
That such a card was being secretly issued proved that the capitalists were aiready planning to have the troops called out if necessary in order to break the strikes, and that only the pending election caused them not show their hands openly. The Soc lats had an exact reproduction of this card printed and posted over the city on election eve and next morning, although the supporters of the capitalist candidates - promptly destroyed the cards whenever they got a chance.

"Artitration."

"Artitration."

It is not surprising therefore that since Election Day the business men, the Mayor, the Chief of Police, the Sheriff, and the State Adjutant General have had conferences with the Governor upon the advisability of having the treops called out, incidentally also discussing "arbitration." The arbitration resulting from such a conference would probably be of the real compulsory kind, which would leave the workers no alternative but to accept. Only Mark Hanna and Samuel Gompers of the Civic Federation are needed to give these proceedings for

"arbitration" proper dignity and dis-

iction. It may be stated here gise that the building trades are upon a strike, and that Comrade Moore, the Socialist candidate for Mayor, as president of the Hod-Carriers' Union, is the leafer against any and all the fake arbitration moves that have been presented by the bosses and their agents. He says: "L shall fight any proposition short of direct recognition of the working class and the right of the working

class to organize in hostility to the capitalist class.".

One reason for the white waiters' strike arose from an attempt to have the state law requiring that woman shall work bix days a week enforced. In it any won_er the law is not en-forced when the workingmen vote to keep the executive power in the hands of the capitalist class? But there were lst Party organization will be strength ened to ensure a greater and greate

Canitalist Class Consciousouss Show

BOSTON, Mass., May 11.-The legislative atmosphere has been charged with rumors of corruption and bribery of late, which came to a crisis with the publication in the Sunday papers Raymond. making direct

charges and challenging investigation.

This Raymond is typical of one phase of capitalism. He is a Boston storekeeper who for years has fol-lowed the plan of going from place to place and bidding in the stock of mer-chants who had been forced to the wall in the competitive struggle and compelled to go into bankruptcy. The announcement that another house has "sold out to Raymond" is a familiar

Raymond was interested in a certain ensure which was before the Legislature last year and again this year.
He openly charged that a certain Senator-whom he did not name—had asked him for \$1,000 as the price of his support for the bill, had come down to \$500 when the thousand was refused, and had finally offered to do

The Senate held up its hands in holy moned Raymond to appear before a committee and give more definite in-formation.—He came and put the Senators in a worse hole by saying that he would give the corrupt Sena-

The committee then thought over the matter some more, decided that, as the alleged bribery offer had been made last year, the present Senate had no jurisdiction and ought to drop the matter. The Senate accepted the report and heaved a deep sigh of relief. Raymond, bowever, did not join in dropping the matter. He came out with his advertisement in the Sunday

ness and rottenness of the capitalist system and the sort of politics it

deep sympathy with the superan-nasted doorkeeper, and thought lie ought to be cared for in his old days. For the laborer crushed in the trench enough thing, one of the normal risks of the laborer's trade, and why should gentlemen be troubled about one more or less laborer maimed and left to pauperism? Carey favored both pen-sions, believing that both men were entitled to such provision. But he foreibly decared that his sympathy went out far more to the man who had been injured in the course of hard and ill-paid labor than to the one who had grown old in a sinecure position.

amount equal to two days' salary of amount equal to two days' salary of one of these judges might think they were able to make provision for their old age out of their salaries and retire without a pension. Not so the capital-ist politicians. Representatives who had opposed the granting of a pension to the laborer waxed sloquent in favor of the judges. These men of brilliant replus. they said, who devote their genius, they said, who devote theli heat talents to the service of the state were entitled to the grateful considera-tion of the public. Besides, if pen-sions are not assured, these judges, having a life tenure, may hold on after they are incapacitated by age, and so the public welfare will suffer, Imagine how these advocates would laugh if one argued that aged workingmen should be pensioned on the ground that otherwise they might hold onto their jobs when they were too old to do their work well. He would quickly be told that capitalism has a

The Socialist members opposed the bill to pension \$7,000-a-year judges, but the Democratic "friends of Labor"

Our open-air meetings are being well attended. State Secretary White spoke te good meetings at Saugus, Webster, and Pail River during the last week. John W. Brown of Hartford addresses the striking textile workers of Lowel on Tuesday. Sundáy afternoon meet-ings on Boston Common are very suc-cessful and everything points to con-tinued progress for Socialism here and throughout the state.

The Boston City Committee will hold a grand picnic on July 4 at Apollo

The comrades of Massachusett have decided to enter the newspape field by the publication of a weekly paper with Franklin H. Wentworth as editor-in-chief. It is to be launched when a fund of \$10,000 has been raised. It will be a New England pa per and the hope is to issue it prior to the fail campaign. D. A. W.

Letter of Detective Service "Operating Under Three Flags."

Makes a Specialty of Disrupting Unions anb Breaking Strikes-Puts Mor into the Unions as Members to Betray Plans-Supplies Armed Thugs and "Delivers" Scabs—Prepared Also to Obtain or Fabricate Evidence to Prosecute Strikers.

A New York business man who is at the same time a Socialist and a mem ber of the Social Democratic Party allows The Worker to lay before its renders an interesting letter received by him which throws more light on the system of espionage employed by the capitalist class against the labor movement, of which some account has al-

ready been given.

The letter in question is from the Thici Detective Service Company, with New York offices in the Maiden Lane Building on Broadway and other office in Chicago, St. Louis, Kansas City, St Paul, Donver, San Francisco, Portinud, Scattle, Spokane, the City of Maxico, and Montreal. "Operating under three flage" is the motto on the letter-heads, over a shield bearing the name of the President, G. H. Thiel, surmounted by the fings of the United States, Engine

and Germany.

The letter is in the following terms:

"New York, N. Y., May 5th, 1903,

"City.
"Denr Sir:—As an employer of labor, you will be interested in the considera-tion of the most effective methods for keeping thoroughly posted concerning any tendency on the part of the em ployees toward organization or agits

Of Paramount Importance.

"At the present time, when strikes are of so frequent occurrence and the spirit of unrest and dissatisfaction eems to be generally prevalent among the laboring classes, the subject is one

made a specialty of detective work for corporations, and has frequently been called upon by such clients to investi gate differences with employees, and to handle strikes, and our operatives are therefore thoroughly experienced in and familiar with this class of work.

"We have found that the best, and, in fact, the only safe, way of obtaining ploying company and of any prospective action on their part toward organisation or the pressing of demands upon the management, was by placing one of more detectives among them as empleyees, whose duty it was to investigate thoroughly as to the existing con-ditions and report in detail therson. This not only keeps the management fully posted as to any dissatisfaction or agitation, but also enables it in many cases to successfully anticipate demands or other action on the part of the capitalists advance information

the employees. "We carry a large force of detectives skilled and experienced in this class of work, carefully selected from the various nationalities, professions and trades, and we are thus enabled to give prompt and thorough attention to mat ters of this kind.

"In the event of an actual strike, this company is prepared to promptly furnish guards, as well as to recruit and workmen of the various trade pneratives to obtain evidence in con nection with the perpetration of any acts of violence on the part of the strikers or their sympathiners for the purpose of criminally prosecuting such

"Should you at any time require de tective work in these or any other mat-ters, we should be pleased to hear from you; and, if you should so desire, we could send you at any time a repre-sentative for the purpose of conferring with you concerning prospective ser of strikes or other disturbances."

As the comrade says, this "serves to illustrate the current intensification

THE THIEL DETECTIVE SERVICE COMPANY, "P. EDW. WISCH, Manager." Those Are Hearst's Friends.

This is the sort of service that Mr. William Randolph Hearst sees fit to employ to advance his interests within the labor movement-for the Interna tional Detective Agency of 34 Park Row, to whose agents in the unions Mr. Hearst has given personal letters of

THE END OF LABOR WARS.

You tens of thousands of working- | is ever greedy for richer spoils, ever men and working women who are on fearful of losing his privilege of exstrike or locked out, think over your experience in former struggles, think over your experience of these last few weeks, consider the attitude which your employers have assumed and in which all the spokesmen and organs | That is natural. The robbed grow of so-called respectable public opinion are supporting them-think of these things and say whether you think the labor question can be settled by arbitration, whether you think the inter ests of Labor and Capital can be bar monised, whether you think this problem can be solved and such conflicts brought to an end by anything short o. Socialism. Have you any reason to trust the capitalists' professions of interest in your welfare or of desire to

maintain industrial peace? They denounce strikes and especially sympathetic strikes. Yet here in New fork and elsewhere they have not besitated to institute a sympathetic lockout for no other purpose than to

prevent workingmen from organizing. They believe in arbitration-whenever they think the decision is sure to be in their favor or that they dare not refuse. In Omaha they pretended to want arbitration, but skilfully put all possible obstacles in its way to delay it till after the city election. Then, the capitalist politicians still holding con trol, the employers threw off the mask, refused arbitration, and called for

In Gloversville and Johnstown yo have a similar situation. Part of the men struck against impositions. The comes declared a sympathetic lockout against the rest. Now the bosses say they are willing to arbitrate-on anything except the actual question at

The Pennsylvania coal miners forced the "operators" to accept arbitration. Hardly was the award announced before the mine owners began to violate its provisions and locked out thousands of miners for refusing to work nine hours when the commission had decided fo' eight.

To-day in New York the organized employers have openly declared war on the unions and threaten such a lockout as the world has never seen.

There must be a reason for this continuous war. What is it? Are you striking for fun? No. Are the capitalists locking you out for fun? No. Are you mad or foolish? Or are the employers? Nelther. Both sides have ood reason for acting as they do.

The reason is just this, no more not less: That you, who do the useful work of the world, do not own the things with which you work; that because you do not own these means of production you cannot work, and therefore cannot live, without permis sion from those who do own them that they are therefore able to keep from you a part, and ever a larger and larger part, of the value your labor creates, as a condition of allowing you to work at all; that they live and live well by lawfully robbing you.

Between robbers and robbed, even though the robbery be lawful, there can be no lasting peace. The robbar

recommendation, and the Thiel Detec-

tive Service Company of the Maiden Lane Building are birds of a feather.

"The unly safe way" for the ope

enemies or the false friends of the la-

bor movement to obtain definite in-formation about the feeling and the

plans of the workingmen is "by plac-

ployees." And in the event of a strike or other trouble arising, these spy

agencies are prepared, not only to give

about it, but to send detachments of a

private standing army to terrorise the

strikers and to "recruit and deliver

workmen"-like so many mules or hors.

at so much per head, f. o. b.—to break the strike, and, incidentally, to obtain

or invent evidence for the purpose of

inally prosecuting the strikers and

"Eternal vigilance is the price of

INVADE RHODE ISLAND.

PROVIDENCE, R. L. May 11 .- Dan A. White, State Secretary of the So-ciallet Party of Massachusetts spoke to a good meeting here yesterday and organised a local with nineteen members to start with. Next week he will visit Woonsocket and Pawtucket and will probably succeed in forming locals in both places. After that it will not be long till we get a state organiza-tion of the Socialist Party and begin steady work. This is the only state where, since 1809, the S. L. P. has held the field alone. The reduction of its vote shows that it has no right to the field, that the policy dictated from its national headquarters is a disastrous one for the cause of Socialism, and that it is high time for the Socialist Party to get to work here.

DENVER EMPLOYERS

ARE ORGANIZING.

DENVER. COL., May 4.-A powerful employers' association is being formed here to resist the demands of the labor organizations and mobilize the forces of capitalism against them. It is claimed that seventeen hundred business firms have joined the organi zation, whose workings are conducted with great secrecy. Of course it is loudly proclaimed that the employers are not opposed to trade unionism-only to wicked, foolish, destructive, Socialistic trade unionism. That the growth of this obnexious sort has forced such a move of capitalist organisation is certainly gratifying.

-If you have an extra copy of The Worker please pass it on to a neighbor or aliopmate with the request that he give it a candid reading.

Complaints shout the business or editorial management of the paper should be addressed to the Board of Directors. Rocksitst Co-operative Publishing Association, 194 William street, New York.

Entered an second-class matter at the New York, N. Y., Post Office on April 6, 1601.

THE PARTY'S EMBLEM. the mate of New York, on account of alm provisions of the election laws, the alist l'arty is officially recognised under name of Social Democratic Party, and sublem is the Arm and Torch, as shown

Nocialist Party for Social Democratic 7 in New York) should not be continued the mechined Socialist Labor Early, the medical Socialist Continues of the two all Its energies to two parposes, to disrupt the Nocialist who carry on the rights rapidalism; second, to making THE SOCIALIST VOTE.

The Secialist Party (the Social Democratic Party of New Yorks has passed through its nectual general election. Its growing power is indicated and its speedy victory for-shadowed by the great increase of its vote as shown in these figures:

The Worker will be an article on "Sogualism and National Prosperity," inrended especially to meet the stock urgument of the National Economic League which, backed by the great Rapitalists, is circulating vast quantilies of literature against Socialism. L'he paper will contain much other Paluable matter and it should be lvidely distributed.

SUPPORT THE NATIONAL HEAD BUARTERS.

nother week we shall know the Deskit of the general vote of the party upon the question of the location of national headquarters. Although this question has been discussed with an expressions sometimes verging upon berlmony, we are confident that the detsion of the rank and file, whicheve Asy it may go, will be accepted with a good grace by those who find themselves in the minority. For us, the anestion whether the headquarters should be at Chicago or at Omaha has seemed important, indeed, but far less important than the question whether the decision should be made by the rank and file or over their heads. The determination of this larger question In favor of the more democratic metheds appears to us to be a real cause or congratulation.

As this vote closes and before its rewit is announced seems an opportune moment for urging, not only cheerful acquiescence in the decision of the majority, but energetic support of the national organization in whichever city its offices may be. National Secretare Mailly has, during the three months of his incumbency, shown most praiseworthy vigor and good judgment. The monthly reports show a steady and considerable improvement in the financial status of the party; good progress has been made toward paving off the old debts, a safe balance has been carried from month to month, and at the same time an excellent start has been made in the year's systematic work of propagands and party organization in Massachusetts and in other capaci ties and by the work he has so far done at national headquarters. Comrade Mailly deserves hearty support in the performance of his duties. And he -not only moral support, but

Hammella I. The time calls for larger efforts than

we have ever before made. Not to speak of the opportunities offering themselves to us, but only of the obstacles which we have to overcome: The Republican National Committee, the National Economic League, the National Association of Manufacturers. and other capitalist agencies are not sparing funds in their campaign of miseducation against Socialism; on the other hand, Hearst and other Democratic demagagues less dangerous than he only because they are less influential are spending money very liberally and using every means at their disposal to sidetrack all socialistic tendencies away from their true goal and into the service of personal ambition and capitalist class interest. Hearst is especially bending every effort to capture the growing radical sentiment in the trade-union movement and harness it to his triumphal car and to do the same with the progressive forces now arising in the South as the result of

the development of capitalist industry

We cannot afford to let these attacks go unchallenged. The hostile propa punds of the Republican party and the other capitalist agencies mentioned will only aid our cause, if we do our work well, if we send out enough speakers and circulate enough literature to expose their sophistries and present Socialism in its true light; if we fail of our duty, the work of misepresentation will proportionately succred and harm our movement. The trade-uplouists are now willing and enger to give us a hearing, if we will come to them; if we neglect it, the cry of "Labor, Democracy's Natural Ally" will find ready listeners. Comrade Cham's tour in the South and the progress which our party has made there in recent months show what that field has to offer; for us to do less than the most we can do in working it world be positively criminal. Much of this work can best be done

some of it can only be done, by the na tional organization. In most of the arge states of the North and West the tate organizations of the Socialist Party are now fairly strong and active in the South the organization is still numerically weak, the locals are widely semirated, the "sinews of war" are not very abundant, and there is a nck of comrades experienced enough in Socialist propaganda and organization work to meet the emergency. Socialism of some sort is bound to grow there. It devolves fargely upon the comrades of the North and West to my whether those already enrolled in the ranks in the new field shall be enabled to make it from the start an intelligent and uncompromising movement or whether they shall be left to fight alone the powerful forces of confusion and corruption. Surely there can be but one choice on that question.

The plans which the National Secretary has outlined and part of which he has begun to put into effect provide for strengthening the weakest points in our party organization and for sending to the aid of the most inexperienced divisions of the movement able champions and exponents of Socialism who have proven their fidelity and won valuable experience in the long fight. To carry out these plans will require money. Money, therefore, the national

organization must have. Because The Worker has taken a neetty decided position on the headquarters question it is appropriate that we should urge especially upon those comrades who have taken the same position, who have decidedly favored Chicago, not to wait for the result of the general vote, but now, this week, to send to National Secretary Mailly at Onsels their contributions to the Succial Organizing Pund. As Individuals contribute as liberally as possible; but response be prompt and general, so that, from Omaha or from Chicago, the National Secretary may be enabled to direct ever a stronger attack all along the line of the outposts of capitalism.

Some of the Democratic papers are saying that it won't do to nominate Cloveland in 1904, became he is too reactionary to suit the rank and file, but that it would be a good idea to nominate Olney with a recognition of Cleveland as party leader. That is good Democratic politics for you—only that such things should not be talked of so openly.

BOTTHORDIS DECENCY.

What an ineffable humbug is bour geois virtue and respectabilityi Controller Grout and District Attorney Jerome, between them, have made a beautiful exhibition of it. The District Attorney employs detectives to get evidence against law-breakersagainst such law-breakers, that is, as be cares to prosecute. Besides their wages they are reimbursed from the city treasury for expenses occurred in the performance of their duties. The Controller objected to the payment of some of their expense bills and was only compelled to pay them by an order from the Supreme Court, "In order to create a public sentiment which shall eventually prohible the running down of vice by this method," as he says, Controller Grout has offered to give the itemised bills to the newspapers, provided they will pledge themselves to print the matter

in full. The highly virtuous news papers have refused to take the matter on the ground that it would outrage public deceacy to print it in fullwhich is exactly the Controller's point The District Attorney is quite indignant over his colleague's action and says: "As long as the publication of such matter can serve no useful purpose it seems to me to be little short of an insuit to force such stuff on the vast majority of readers in this city that prefer a newspaper they can onfely take home with them."

That the city (under a "reform" ad ministration, too) should pay men to do things so vile that to publish those would defile the homes into which the newspapers go-this is not at all sur prising to one who realizes the true inwardness of capitalist morality; but ft should suggest some serious thoughts to such as still accept capitalist ideals at face value. Here we have salaried employees of the city supplied with money and instructed to diaguise themselves and use that money to tempt men to sell liquor in violation of the law, to tempt men to gamble, to tempt women to prostitute themselves, and then to beirny the poor devils whom they have tempted and have them thrown into jail for doing the unlawful things which the city's authorized agents have bired them to do. The harlot is a contemptible enough being. What shall we say of the man who makes a trade of play ing traitor to the barlot? What words yet stronger can we find for the men high in authority who make public policy of biring such traitors and cou cealing their acts under the cloak of "public decency"? But no; we shall do better not to condemn any-to treat reformers, detectives, and prostitutes, all of them as contemptible, indeed but as products all of one infamous system, a system inevitably productive of harlotry, of treason, of hypocrisy. all growing out of outworn and false economic relations among men

In the Senttle "Socialist" of May 3 begins what promises to be a most lateresting discussion between Comrade Untermann, and the editor (Comrade Titus) upon "The American Farmer and the Socialist Party." The discus sion cannot but be instructive as well as interesting. Although, as it seems to us, the question has been given a somewhat factitious importance in connection with the events of the last year in internal party history, yet it is a real and live question and seems it a fair way to be discussed both frankly and calmiy in the columns of our bright Western contemporary. If it appears practicable, as the discussion proceeds. The Worker will present a summary of the arguments presented by both sides. But we would heartily ndvise our readers to subscribe for the "Socialist." Every number is well worth rending. The way in which it combines the liveliest of propagands matter with serious discussion of scientific theory and with clear and fearless treatment of questions of party organization and policy must ommand the admiration of all thoughtful comrades.

To those who are familiar with Comrade Hillquit's party record or even to those who, though not informed on this, have impartially read the proceedings of the National Committee at St. Louis and the discussion in the party press immediately before and since that meeting, the attempt of Comrade Mills to represent Hillquit as a secret advocate of fusion must appear supremely ridiculous—or worse. Comrade Dobbs' letter, printed elsewhere in this paper, makes this im pression still stronger. As he shows, the wording of the anti-fusion resultsor as organized in locals or branches, tion (drawn by Hillquit) was discussed in full committee and Hillquit there xpressly stated, as the res wording used, the desire to eliminate the question of the excusability of fusion with labor parties in the past and to make a clear and definite statement against fusion now and in the future. Mills was present during this discussion, but he now says that he "did not notice" the force of the clause whose meaning had been explained in his presence. After the lapse of two months he discovers the possibility of putting upon the words a construction different from that which had been expressly insisted on and had been generally accepted and in this new interpretation of his own he finds the evidence of a deep and dark conspiracy to sell the party to Hearst. If the National Committeeman from Kansas keeps on finding mare's nests he will lay himself open to the old charge of "intolerance" and "suspiciousness" to which we have become so used. We should regret that.

YIMELY AND CONTINCING

At this moment, when the trade-unionisis of the country are stirred to thought by strikes, lockouts, injunctions, adverse legislation, and court decisions declaring labor laws unconstitutional, Lee's "Socialist Politics and Labor Politics" is a very timely pamphlet to circulate. It can be pamphlet to circulate. It can be had of the Socialist Literature Com-pany, 184 William street, at 3 cents a copy, ben copies for 30 cents, fifty for 85 cents, or \$1.50 a hundred. It is a good plan to follow it up with Spanyo's "Where We Stand," which is

HEAD THU AND PAIR IT OR.

LOCAL DWAHA AND

COMRADE MILLS. OMAHA, Reb., May 8.—The Worker is requested by Local Omaha to publish the following official resolutions and correspondence:

L.—Copy of resolutions adopted by Local Orange in the contract of the contract o

Local Omaha, in mass meeting assem-bled, to disapprove of the actions of Walter Thomas Mills in violating local and state autonomy by persisting in cuming to speak for a counter move-ment against the known wishes of

"Wherean, A so-called Socialist Propaganda Club has Booff organized by a small group of individuals, headed by the former State Secretary and Trens-urer of Nebraska, Gos. E. Baird, and F. H. Alexander, both having been removed from their offices for treachery to the movement, the first being proven a paid hireling of the Republican partr. the latter for organizing a literature ciub for the ontenable pur breaking up the local organiza which he was still a member;

Whatem, There two officials, being deposed by a unanimous vote of the comrades of the state, instead of getting down and out, made a beid move to continue the manual out, made a beid move to continue the state. to capture the party name, which was defeated by a counter more of the State Committee; outgoneraled, they carried the case to the courts, whose decision in our favor placed the party in the hands of the members, where it

elonged; "Whereas, Comrade Walter Thomas Milis, National Committeeman for the state of Kansas, having entered an agreement with this so-called Borialist Propagands Club' to give a course of lectures under its suspices, and being notified who these people are and asked to caucel his engagement, not only refused to do so, but turned a copy of the letter, an official communiention sent him by J. Alfred LaBille, Secretary of Local Omaha, over to a body of non-members of the party; therefore be it

"Resolved. That we the members of Local Omaha, in mass inviting assembled, do hereby brand Courade Milis as a violator of the duties of a comrade as well as an official of the party: further be it

"Resolved, That we ask the state of Kamas to remove Comrade Mills from the National Committee; and further

"Resolved, That a copy of these resolutions be sent to the National Com-mittee, to the State Committees of Kansas and Nebraska, also to the Soclalist press of the country, and to Walter Thomas Mills. "Committee on Resolutions:

8. Rillish letter to Alexander: T. H. Alexander, 627 S. 17th Aven

Omana, recurrence of the control of a latter from Omana, a copy of which I attach herewith and to which I have made the answer also attached. I greatly regret that there

ould be any division among...the mrades in Omaha. This is satirely by to me. I had been boasting about the unity and enthusiasm of Omain's sond work. I urge you to push your meetings in such a way that all So-cialists will feel interested in my com-ing. I sincerely hope that I will not be made a party in any way to any local difficulties of any port. I take it for difficulties of any sort. I take it for granted that in inviting me to speak for you that you intended me to follow

the lines which I here outline, and have also outlined in the communica-tion to Secretary LaBille. "Awaiting the assurance that my position is satisfactory and that the m ings will be pushed to the utmost for the widest possible hearing, I am,

"Yours truly,
"WALTER THOMAS MILLS." "Kansas City, Mo., April 25,"

DOBBS REPLIES TO MILLS.

National Committeeman Dobbs of Kentucky writes as follows in the "American Labor Union Journal" of April 30, under date Louisville, April 20, 1903:

on into:

"Permit me to call attention through
your columns to a most unfortunate
plantatement in the lengthy discustion, by Committeeman Mills of Kaupan, of the work of the National Committee at St. Louis, in the course of
the attention of William Mills out of the National Conhis attack on Hillquit, Mills says:

"On the floor of the Committee meeting Hillquit argued, not against fusion, but that the occasion for fusion had not arisen; and not only so, but in the recent meeting of the National Committee, reported and recommended by Hiliquit's sub-committee, the last "wherens" next preceding the resolu-tion reads as follows:

***At the present stage of develop-ment of the Socialist movement of this country there is neither necessity nor excure for such alliance.

"If this means anything at all it at least means that with the further development of the Socialist movement the "necessity or excuse for such al-liance" may arise."

"Allow me to enter my indignant protest against this and aclose attempt to represent Comrade Hilliquit as an advocate of fusion. Comrade Milis is most unladed in his triumphant 'if this means anything at all,' etc., etc. Hillardt did not targue that the occusion for fusion had not arison.' He Why should the right be put off? argued, and quite emphatically, that the occasion for fusion was past and that such occasion, under no circumstances, could arise in the future.

"If the member from Knusas will refer to the minutes of the afternoon session of January 3t he will sind that Rever moved the adoption of the antifusion resolution when Barnes moved to strike out the word "hereafter"— motion carried." However, before the word 'hereafter' was stricken from the resolution there was considerable de-bate. The chause following the where-as' which Courade Mills quotes so tri-

nuphantly originally read as follows: 'Resolved. That bereafter no state or local organization, or member of the party, shall under any circumstances fuse,' etc., etc.

"When Barnes moved to strike out the word 'bereafter,' he made the point that it left the impression that we had been favoring fusion in the recent past. but had changed our minds. Hillimit responded, defending the use of the word 'hereafter,' explaining that there had been times in the past when fusion was not inexempble, and claiming that the use of the word 'herenfter' em-phasized the fact that 'at the present stage of development of the Socialist movement' and in the future there can, be 'neither necessity nor excuse' for Tusion. The Committeeman from New York made this quite plain, and the member from Kansas surely cannot shave forgotten the debate. With the word hereafter restored to its original place in the anti-fusion resolution it is plain how baseless are the charges of the member from Kansas against the

ember from New York.
"In view of these facts, which are perfectly familiar to all the members of the National Committee who were present at the St. Louis meeting, the plous disapproval by Comrade Mills of, those who are 'provoking quarrels among the Socialists' appears like a boomerang missile which he will have

boomering missele which he will have difficulty in dodging."
The reason for Dobbs' addressing this letter to the "American Labor Union Journal" is that, in its issue of April 0, that paper published an ex-tended "statement of position" by Mills in which a labored attempt was made to represent Hillquit as a secret

SPECIAL NATIONAL ORGANIZING FUND.

National Secretary Mailly acknowledges the receipt of the following con-Inay be save that the addresses which I will deliver in Omaha will, in every possible way endeavor to strengthen the regular party work, to persuade everybody to identify themselves with it and to work for the one party representing the one cause of Socialism.

I beg the comrades of Omaha not to lumpive me in any ways in any local.

Outh Christoph Buffelo, N. V. 21. A. Otto Christoph Buffelo, N. V. 21. A. involve me in any way in any local Otto Christoph, Buffalo, N. Y., \$1; A. controversy. I urge you to support the meetings, which I am to address, with your presence, and whatever local minunderstandings there may be among the control of the cont with the meetings which I am to hold.

Assuring you again that these meetings will speak in no uncertain way tor the Socialist Party, for its regular organization and its regular work which I am endeavoring in example 1. following from Local Santa Maria, 1Cal.; J. W. Starkfand, 50c.; R. Weber, 50e.; Al Davis, 25c.; Fred Standt, 50c.; birg, Ky., 50c.; and Local Alameda, Cal., \$10; previously reported, \$07.70; total received to noon Saturday, May ,9, \$145.40.

William English Wailing has given twenty-five shares of stock in the Charles H. Kerr & Co. co-operative publishing company of Chicago to be sold for the benefit of the Organizing Fund. Any Socialist local or individual may obtain one of these shares, by sending \$10 to the office of Charles H. Karr & Co. at once, sixting that it H. Kerr & Co. at once, stating that it is for this purpose, and the full amount of the remittance will be turned ever in the name of the remitter to the National Secretary. The holder of each share of stock so bought will have the privilege of buying Marature at cost the same as it the share had been subsectified for in the ordinary way.

NOT UNION MADE GOODS.

PARRY.

By Horace Traubel.

Parry. Lots of you fellows do not like Parry. But Parry satisfies me, Parry hates the trade unions. The trade

Parry has a union of his own. speaks for the union of the bosses. The bosses had something to say. They said it through Parry. Parry was the tongue of the bosses. Parry was an honest voice. Why should

you kick against Parry? I ask for nothing better than Parry. All I ask is that Parry may keep right on talking. The more Parry talks the less we need to talk. Parry fights our light for us. Parry is an eyeopener. We can just sit back and enjoy our-selves white Parry works. Parry may

think he is our worst enemy. But l'arry is our best friend. Why do you get red in the face swearing at Parry? You call bim names. You try to prove that sor how evolution could get along without him. Let me tell you that without Parry the scheme would not be compiete. Judas is a very much matigned man. If you cannot account for Parry you cannot account for anything. Not only that. You have got to account for Parry on the same basis as that upon which you account for Jesus or Debs. The a b c of the economic alphabet spells Parry as easily as it spells Marx or Promitton.

spells Marx or Proudbon.

Parry is honest. He is a small flaine. But he burns with refreshing intensity. Nobody needs to be in the dark about Parry. Parry is not danctured by the party is not denoted by the party in the party in the party is not denoted by the party in the party in the party is not denoted by the party in the pa ing on any houndary line defying you to tell whether he belones right or left. He makes his confession in public. He is so proud of his prerognitive that he advertises it in the market place. If you do not know what Parry means then you do not know what anybody means. Parry is a very simple proposition. He clears the air. He shows us not only what we have got to fight but how little we ...ave to fight. Parry has no cards up his sleeve. He throws his cards at you before you ask for them. Enery is not a postponer. He says: Let us have the fight to-day. He is not an apologist. He says: "Why should I apologize for what is right?" Why should be apologize? Parry is no sheffler. He does nothing to confuse the issue. Parry is a whole plan of battle in himself. He shows you just where to put your men. The quibblers have growled at Parry for talking out. That is the best proof that Parry is our best friend. These fellows know that Parry has unmasked their guns. I can see why they should get mad at Parry. But I cannot see why you should get mad. Parry is a play right into your camp. All you need to do is to take what Parry gives. When the times comes for you to return on Par-ry's move Parry will find that your

trump will cover his best hand. There is everything gained when we effect an honest lineap. We want to get men where they belong. We are . We want to clong. We are not finttered when we meet an army of, recremaries. I want to think the best things of the man I must on And I want that man to think things of me. We want to feel sort of mutual respect which dignifies controversy. Parry nonestly believes that the trade union is a mornee to liberty. He honestly believes that one rem or one caste should be probated in the orthodox claim to an economi mustership. He bonestly believes that men are machines, to be bought and sold, to be bargained for and thrown away, on any expediential basis which

may seem convincing to the pirate conscionsness of the market. All right, Parry. That is what we wished to have you say. We knew you believed it. But we wished it put down in ministrakable words. We have come up against so many of your fellow diplomats, who have nimbly evaded all attempts we have made to nail them to a statement, that you have come along like a reviving breeze on a sultry day. And so we understand you, Parry. We accept your challenge. On the basis of that chal-lenge we are going to declare war. We are going to upset all your minor tyrannies by making a root start and refuging the inre of all digressions. Parry, you are doomed. Your very candor hastens your finish. With the shufflers we can say: We will some day get our blow in on you and when you will ask for terms. But with you, the so caudid Parry, we simply say: Thanks, Parry, we will draw up your discharge next week. Parry, you enmiled us to fix a date. We have always been telling our friends that there was something round somewhere that we must hit. And then they have asked: "What is it?" We have an swered: "We don't just know. But it is something. As soon as it defines itself to us we will bit it." Parry. you have defined it. Watch us and see us hit. Steady yourself and feel us hit.

I am happiest in opposition. I like to find myself tried by the inst expedient of reaction. It is only in that way that I can discover my strength. If I lived in a world in which everyor said yes I would not know whether I was strong or weak. If my idea survives the tempter and the bater it will survive me. And until my like proves that it can survive me it has not re-ceived the proper certificate of char-acter. So I am grateful to the man who thinks he is my enemy. He is not really my enemy. He may not know, but I do know, that he is not my enemy. Anyway, I am grateful to him. He fights me front, he flanks me, he ambushes my expeditions, he starves my stomach, he dresses me down to rags. But I am grateful. For I have got to make even starvation and rags sacred by the tenacity of my faith. Thanks to the Parrys I begin to feel strong. I strain and I stretch and nothing in hurt. Thanks to the Parrys I see better what I believe and I know better what I can do. Parry adds something to my stature every time he talks. And if he keeps on

time he talks. And if he keeps on talking just a little more he will have completed me.

So let us recall all the cursers and swearers. Let us bring in all the useless vituperators and denouseers. Let us take out the tengues of the liars. Let us seal the lips of the arguers. Let us close our lak wells. Let us discharge all the linotypers. Why should we you and sweat and werry.

We will simply let Parry talk. Let us give all our adverbe and adjectives a rest while Parry talks. Let us take rest while Parry talks. Let us take a vacation while Parry talks. If I'arry is allowed to talk evolution will hasten its pace. I used to lie awake nights wondering if it was safe for the universe to let me sleep. But now I know that if God is caught sapping Parry will still talk thinks along to sulvition. I can sleep in pace. For ulvation. I can sleep in peace. For I may be confident that while I sleep Parry will talk and while Parry talks no effort of social equity to balance itelf will shake the throne.

Parry.

THE CLASS STRUGGLE.

By Folix Holt.

[A college oration by a member of of Colgate the class of nineteen-four University, Hamilton, N. Y.]

That there is a class struggle is a fact too obvious to call for demonstra tion. That it is a serious struggle, and one becoming continually more serious, no one, in the light of recent events. can deny. A struggle that has developed into such an industrial war as was waged in the coal fields some months ago, is not one to be ignored, nor to be permanently remedled by any superficial treatment. It calls imperatively for a thorough investigation of causes, and the adoption of measures for their correction. The American people are face to face with a great problem. It must be met and

settled.

But what is the nature of this strife? What classes are arrayed against each other? What are they contending for? In spite of all we hear about "the community of interests" between capital and labor, the fact remains that those who labor and those who own capital are quarreling over the division of what is produced. Lines of class cleavage are determined by the splitt of the times. Ours is a commercial age; instead of class distinctions of race, or birth, we have those founded on an economic basis. In place of lord and vassal, we have rich and poor; instead of arishorat and peas-ant, we have plutocrat and projetarian. This is the most deplorable fact of our nation's marvelous unterial prosperity—that a people, who long ago learned to score nobility and to deny the divine right of kings, are now bringing their gifts and their homage to the temple of material success, and crying in their frenzy, "Great is Moloch of the Americans!" But the madness of commercialism

is upon us; and in the race for wealth, the gap between rich and poor is ever widering. The fact that the richest ten per cent, of our population owns about eighty per cent, of the nation's wealth is as true as it is startling; and the most menacing feature of the sit-uation is that this movement toward concentration is constantly accelerat-ing. Statistics show that labor's share in the products of industry has steadtly decreased, until now the tolling millions of America receive but a small per cent, of the wealth in the production of which they take such a vital part. During the past four years, wages have increased but ten to twen-iy per cent., while the cost of the no-cessaries of life has increased over thirty-five per cent. A particular case will serve to illustrate the general fact of capitalist exploitation. From 1800 to 1900 there was an increase in the manufacturer's profit on pig-iron of four dollars and thirty-eight cents a ton, a pairry two cents of which was sufficient to cover the total raise. In wages made during the same period. Is it any wonder that strikes are so common, that murmurs of discontent are heard on every side? Can we, with these facts in mind, have the ef-frontery to remind the laboring class of their countiess blessings? What satisfaction is it for them to reflect that they are better off than their grandfathers, when by the alchemy of present industrial methods, every drop of their sweat is turned into gold for their capitalist employers, when stronger and stronger grows the power, and ever tighter the grasp of plutocracy's iron hand. The laboring man complains not that he is worse off than his fathers, but because from all the benefits of mechanical inventions and improvements, from all the advantages of modern industrial methods, from all that the past generation has accomplished in unitiplying the productive power of labor, he has not received his share. Into this material progress he has put his best brain and muscle, but the benefits and blessings are in the main depled him. Chattel slavery is not the only servitude. The man who is satisfied with less than his rightful share, who raises no voice of protest against the wrongs he suffers whether in bonds or not, is a slave.

But, aside from its mere ecor injustice, inequitable distribution the products of industry has the most erious consequences in the social "Ill fares the land to bastening fils a

prey.
Where wealth accumulates and men decay."

The wise man of old voiced no pass ing truth when he uttered the prayer: "Give me neither poverty nor riches; feed me with food convenient for me Lest I be full and deny thee, and say, who is the Lord? or lest I be poor and steat, and take the name of my God in vain."

Present economic conditions tend

toward the weakening of our whole, social system. Passing over the evil effects upon the plutocratic ciass, let us notice for a mo-ment the conditions of the poor, as typically exemplified in the great con-ters of population. We find them crowded into ill-constructed tenements where pure air and sunlight for the health of the body is dealed, where family privacy is impossible, where home, instead of being a refuge from the moral poisons and spiritual blight that pervade the atmosphere, is little more than a place to stay. As well expect to find the rose blooming in the death vault, as to expect either personal or public virtues to thrive in such environment. But it is the best they can afford. The men who build our cities, who pile stone on stone for the mansions of the sick, who sales the

steel framed structures wherein the business of the world is transacted, are not thought to deserve the safety and sanctity of even an humble home

Again, we find in the present low wage the logical cause of child labor. The time has passed when the ordinary laborer can support a family in any respectable manner. He is frequently obliged to put his children to work at a tender age, and thus they grow up under abnormal conditions to lead an abnormal career and often to perpetuate an abnormal race. number of children at work in the factories of Chicago, under the age of sixteen, is about nineteen thousand, and about seven thousand of these are

under fourteen.

The people think! and as they think of these facts they are lead to wonder what the word prosperity means. Judging from appearances, prosperity is a condition of great industrial ac-tivity from which capital reaps large returns, and labor a bare sustenance. If this be prosperity, we have it. Yes, for the few, prosperity! We hear it on all sides. Voices, voices of press, voices of platform, voices of the mighty minority join harmoniously in the glorious anthem. How inspiring! With what hope do we look into the future! Surely the times of contentment, of peace and planty, have come at last to stay. Join, then, with heart and volces in the grand chorus. Shout aloud! But bark! Listen! Bend your ears to the ground and listen. It is alarming! Portentous! What means this low rumble that mingles so dis-cordantly with Prosperity's mighty song? Is it a caged heast? A subterranean murmur foretelling the earthquake? Stop your ears. O, ye fortun ate ones, sing pet more loudy! Louder, louder! Drown out the harsh sound. In vain, we hear it still! Yes, and that discord will be heard, for it is a voice more persistent than the wall of a caged beast, more surely prophetic than the rumble of the earthquake-i> is the voice of the neonle, the manus the lower classes; and it calls not for mercy, nor charity, not for what it must have, a bare sustenance, but for what it should have-justice.

Current # # # Literature

All books and namphlets mentioned in this column may be obtained through the Socialist Literature Company, 184 William street, New York.

An article on "The Socialism of Sidney Lanler," by Frank Stuhlman, is one of the special features of the "Comrade" for May The writer has done a service in calling the attention of Socialists to a great poet all too little known and in calling general attention to a phase of that poet's work commonly neglected by the few who recognize his greatness, "A Point of View," py George D. Herron, is a series of forcibly expressed proposi tions leading, step by step, from the indictment of capitalism: "The system can stand only through the debauchery of the citizens," to the conclusion: "Can the Socialist ideal be realized? Nothing else can, in the end. ° ° The moment that an ideal comes into the vision of the common life, then is the moment to realize it, and without a moment's delay." William Thurston Brown contributes to the "He came a Socialist Series." Ti came a socialist Series. The cellor writes with frankness and vigor on the religious aspect of Socialism or the re-lations of Socialism and religion, pro-testing against a too common tendency to try to evade issues that must utilmately be met. Among the illustra-tions that add to the value of this number are "The Seamstress." from the famous painting by Watis; a penand-ink drawing of Marx by F. Dahme, the original of which many Walter Crane; portraits of Mary Wollstonecraft, the great ploneer in the movement for the emancipation of we man, of Sidney Lanier, and of Com rade Brown; as well as a number of cartoons by Ryan Walker,

In the May number of "Wilshire" Magazine" the editor writes, in his entertaining style, an interview he had with John D. Rockefeller at a Califor ula resort last month. There is a bril-liant arraignment of "The Great Fam-illes of England" from the pen of the English economist and writer, H. M. Hyndman. "Shall We Be Free?" in the title of an elequent and stirring appeal to the higher human sen.". ments, by Wm. Thurston Brown There is the usual interesting Will treats of the policy of the able Russian Minister of Finance, looking towards the aggrandizement of the Bu

NATIONAL COMMITTEE MEETING EXPENSES.

National Secretary Mailly submiss, under date May 7, the following state ment of the cost of holding the National Committee meeting at St. Louis January 29 to February 1, 1963; Eg-penses of members—N. A. Richardson, Cal., \$124; Geo. A. Sweetland, Conn., \$46.75; Wm. R. Herdey, Fla., \$83.10; 34k.6; Win. R. Henfey, Fla., 883.10; Wm. Mahoney, Ind., 82230; B. Berlyn, Hilnols, \$25; J. M. Work, Iowa, 831.70; W. T. Mills, Kansas, 831.75; Charles Dobbs, Ky., \$20.32; James F. Carey, Mass., \$78; *Geo. F. Lockwood, Minn., \$30; Geo. H. Turner, Mo., \$22; *Clarence Smit.a, Mont., \$117; C. Christenson, Neb., \$12; S. F. Claffin, N. H., \$77; Geo. H. Goebel, N. J., N. H., \$77; Geo. H. Goebel, N. J., \$84.50; M. Hillquit, N. Y., \$18; R. C. Massey, N. D., \$98; W. G. Critchlow, O., \$31; J. M. Barnes, Pa., \$72.50; Sam-uel Lovett, S. D., \$70.00; Geo. E. Boomer, Wash., \$128; V. L. Berger, Wis., \$38.50; allowed to members of Local Quorum—E, Val Putnam, M. Beilard Dunn, Wm. Brandt, \$7 each; total, \$1,314.62.

The Kentucky State Committee donated the amount of the expenses of Committeeman Dobbs, Committeeman Claffin donated \$10 toward coveri

his expenses.
At date, \$540.55 is yet due on accounts of Massey, Richardson, Hesley, Mahoney, Lovett, Smith, Carey, Barnes, and Hillouit. The star prefixed to manes above in-dicates that these comrades were

..... Local Ban Francisco has adopted resolutions heartily endorsing the stand of Local Stameda, as reported in this column last week, refusing to countenance or employ such Bocialist speakers as put their services under the management of capitalistic lecture bureaus and can be had only at exorbitant prices beyond the reach of any but the locals in large cities.

No more copies of the May Day Number of The Worker can be sup-plied. Although about three times the usual number were printed, the supply was moon exhausted and and severa large orders, coming late, could not be

The national hendquarters receive May Day greetings from Secretary Serwy of the International Socialist Bureau at Brussels, with the request that they be transmitted to the Sociallate of America as an expression the international solidarity of Labor movement to abolish capitalism

A. M. Simons notifies the national office that Enrico Ferri of Italy has informed him that having been elected to the editorship of "Avanti," the lead-ing Italian Socialist publication, the American tour contemplated by Ferri will have to be postponed for a year.

Local Maiden, Mass., on May 1 sent May Day greetings to the nation office as follows: "Dear Comrades On this glorious day we greet you with

The State Committee of Maine has haned a call for funds to carry on active agintion throughout the sum-nier. Arrangements are already made to have Dan A. White, State Secretary nul Prganizer of Massachusetts, Representative James F. Carey, and John C. Chase tour Maine in June, July, and August, respectively. The state elec-August to the control of the countries and the countries there wish to show a good example for the country to follow by polling a largely increased vote for So-

National Lecturer Slayton's dates in Pennsylvania for the rest of the May 12. Mondville; May 13. New Hrighton: May 16, Pittsburg: May 14, Issoora: May 20, Sunbury: May 21, Plymouth: May 22, East Mauch Chunk: May 23, Lehighton: May 23, Puttstown. At Hast Mauch Chunk he speaks for the Socialist Party local, at penters. On May 27 he begins his tour of Ohio. All his much All his meetings have been mecesuful.

Socialists of Nashville, Tenn., nomi nated a municipal ticket on May 5, with C. H. Stockell as candidate for Mayor, I. J. McDill, Board of Public Works: W. P. Stone, Tax Assessor, and W. J. Gower, Comptroller. The declaration of principles and platform adopted are clear and ringing exposi-tions of the Socialist Party's position and should command the respect of the working cines voters. Comrade Stockell is one of the veterans of the

The Illinois State Committee is rais ing a fund to put a permanent organ-izer in the field. The state will be di-vided into a number of divisions with an industrial center in each and the organizer will be routed in each divi-tion through a committee.

State Secretary Holman of Minne nota reports that new locals have re been organized at Heron Lake Lake Ida, and Shelly. Carl Thompso will resume his tour in the northwest ern part of the state on May 13. Nor-lan County is booking up as the ban-ner section for Socialism; a county or-ganization has been formed with M. A. Bruttland as organizer.

Charters were granted during the week to locals at Montgomery, Rogers, Ark., and Jerome, Ariz.

National Organizer John M. Ray re a last week, afte helping to form the new state organi-tation of Alabama. Ray has given much satisfaction in Alabama and the ades there speak enthusinstically of his work. Secretary Influe of Bes-semer writes that "Comrade Ray is a arroug combination of fire and logic and will make a power for the came wherever he goes," National Committeeman Healey of Florida, who is traveling for the "Appeal to Reason," also writes; "Courade Ray is O. K. in my judgment. He is the best I have heard, and I have heard Chane. have heard, and I have heard Chase Mills, and quite a few others."

Father Thos. J. Hagerty has been on a lecturing tour of Arisona. On May 4 he writes from Prescott and says that he has so far organized six new joenle of the Socialist Party. He thinks that Socialism is making rapid thinks that essential is busing laples arrives in that part of the country and mays that the whole territory is thoroughly woke up as never before. After taking a rest at Van Buren be will start on a tour which will include Iown, Illinois, Indiana, Ohio, and Southern Michigan. His first dates are as follows: Dubuque, May 25; Freeport, Ill., May 24; Peoria, May 27; Hilbharo, May 23. He will then come to Evansville, Ind., Belevue, Ky., and several Ohlo towns and come home by

Frank P. and Kate Bickards O'Han are still touring Ohio. They have all ready spoken at Ashinbuin, Canton Manstield, Lexington, Youngstown Warren, Springfield, Xenia, and Day ton. They will be at Hamilton May 15, and Toledo May 16 and 17, and other dates to follow. Comrades re-

Hitefper's Hait, \$8; J. Rausch, Brook-lyn, 50 cents; coll. by R. Streiler, Pater-son, N. J., \$31.25; Christoph Walling, \$2: Christ, Bishler, C'ty, 26 cents; Allner, O. Fricke, G. Guggenhauser, and Ghr. Steffens, 50 cents each; coll. by Cari Weber, Bevier, Mo., St.25; H. Rieth, Patchogue, L. I., \$1; Arbeiter Massnerchoe, New Haven, surplus of concert, \$90; total, \$298.51.

Local Newark, Ohio, has voted to attend the state convention at Columbus, May 30 and 31, in a body as visitors. Many other comrades will be in at-tendance in addition to the regular accredited delegates who will aumber at least seventy-five.

Comrades in Ironton. Ohio, are of ganizing a local and expect to be in good working order within the next few weeks.

A new labor paper will shortly be launched at Youngstown. Ohio, that will have a Socialist as editor and it will be distinctly Socialist in its policy and editorials.

The office of The Worker has re-ceived \$1 each from H. Rieth of Pat-chogue and "A. L." for the fund to aprily on old debts of the national party organisation; _previously ac-knowledged, \$15; total, \$17.

The Women's Socialist Chib of Box ton will hold a strawberry festival at the Washington street on Saturday evening, May 28. Tickers, including refreshments, cost 25 cents. Proceeds go toward furnishing the party head-

Comrade Evans of Hazieton, Pn. writes that "things are moving fast" in that region. Arbitration, cancilla-tion, and other espitalist schemes, be says, are doing more to open the eyes of the workers than Socialist aswakers d do. The Socialist Party local now twenty-two good members and he growing well.

Comrade Levis of McMechen, W. Va., writes most enthusiastically of J. W. Slayton's work and says the local comrades want to get him to seeud another week speaking in the vicinity as soon as possible.

At the last meeting of the County Committee of Luzerne County, Pa., which was well attended, reports showed that the local has paid all its debts and has a balance of \$14. Steps were taken to reach unuffiliated So-cialists and get them into the party, to purchase literature, and to raise funds. J. G. Roth was elected delegate to the ente convention.

John Spargo of New York has been oughged by Local Reading, Pa., for the last week of May. He will speak two or three times to the comrades and two or three times in public and be present the state convention.

labor paper of Canaha, gave in a recent number excellent replies to a numbled circulated by the National Economic Langue and to the New Orleans speech of that extraordinary ranter, David M.

Organizer Smith of Local Onelda. J. D. P., writes of the visit of the O'Hares, who spoke at the May Day peeting in Maccaboe Hall. He say Frank "poured hot shot into the audience with telling effect," Mrs. O'Hare spoke especially on the lot of women and children under capitalism and their interest in the Socialist move-ment. The comrades were much pleased with her address. On Saturday a good open-air meeting was held with Frank O'liare as the apeaker.

Comrade Mills held a good street meeting at Port Jervis, N. Y., on Wedneaday of last week.

Conrade Strobell writes to against what he claims to be the grave injustice of the action of the General Committee of Local New York in regard to Paul Thielke, who was given the option of resigning or being expelled on account of his membership in the Direct Logislation League, Com-Strubell, speaking as a member League, declares that it is no political, but strictly an educational body and holds that there is no reason why members of the party should not belong to it.

The Tenth Ward Branch of the S. P. of Jerney City will hold a street meeting. Newark and Summit avenues, on Wednesday evening, May 20.

New York City.

H. Gaylord Wilnire will debate with John S. Croshy on "The Single Tax or Socialism?" at the Manhattan Liberal Club. 220 East Fifteenth street, on Friday evening, May 15.

A special meeting of the General Committee of Local New York will be held at the Labor Lyceum on Satur-day evening. May 18, when the report ranjuation will be heard.

The William Morris Educational Scclety has been organized in Brownsville, Brooklyn, for the purpose of studying and propagating the prin-ciples of Socialism. Its immediate plan of work is to raise a fund and procure an ample circulating liberary of Socialist literature.

The Socialist Literary Society, which recently removed from 211 East Broadway, urges all comrades who have tickets for the Mills meeting not yet accounted for to turn in money or tickets at its new headquarters at 232 East Broadway.

The West Side Socialist Club, which has discontinued lectures for the sum-mer, will now devote its regular Friother dates to follow. Comrades report successful meetings and increased interest over last year.

The following sums have been received at the office of The Worker for the campaign fund of the German Social Democracy; W. S. & D. B. F., Br. 92, Newark \$25; Cigarmakers' Parliamentary Election Fund, New Haven. Conn., \$100; cell. in Preining-rick 11:91 \$6.25; Otto Seegert, City, \$3; Geo. Becker, City, \$2; cell. ba Jac.

fifth street and Eighth avenue. Every to be present.

The Young People's flecial Demo-cratic Club of Yorkville held a fairly well attended meeting last week. The program consisted of the reading of one of Bax' ceasys by Comrade Jacoby and a talk on "Bending and Self-Edu-cation" by Comrade Lee. At the meet-ing of May 14 Mbs Dahme will recite and on May 21 there will be a debate between Comrades Sprotte and Will-vonsoder, the latter taking the side against Socialism. This club meets on Thursday evenings in the W. E. & Clubhouse, 206 East Eighty-sixth street. All young people in aympathy with or interested in the Socialist movement are invited to vibit the meetings and become members. Dues are 10 cents a month.

At the meeting of the Kings County nittee held on May 9, the 10th 17th, and 18th Assembly Districts re-ported that they will hold a picuic at Atlantic Park on June 21. Branch 1 of the 21st donated \$10 to the State committee. After a lengthy discussion on the application for member-ship from a member of the regular army laid over from last meeting, the Secretary was instructed to inform the applicant that we cannot entertain his application while he remains a member of the army, but that this ought not to deter him from working for the cause of Socialism. In view of the act that there is no body from which a call for a city convention can emanate for the purpose of nominating candidates for the municipal election the Secretary was instructed to com-municate with the other secretaries of Greater New York for the purpose of calling a city convention, requesting them to state what date would be mos the date most suitable to Kings county. As very few of the branches are paying their quota for the calendar in the "Volkazeitung," it was decided to request them to decide whether they

The 30th A. D. at its meeting this week took up the report of the special committee on local organization. An interesting and profitable discussion was had.—On Sunday last there was a 'May walk" of district members, to Bronx Park and Williamsbridge. which was much enjoyed by those present. Such informal outings was probably be held regularly at intervals of about a mouth for the purpose of cultivating closer acquaintance and comrade-like feeling among the mem

desire to continue this outlay or not.

PARTY MEETING

IN YORKVILLE.

In accordance with the decision of the general meeting of Jan. 17 another meeting of the assembly districts of the Social Democratic Party and other workingmen's organizations of York-ville will be held in the W. E. A. Club-house, 208 East Eighty-sixth street, on Saturday evening, May 16. All party members in the Yorkville districts and delegates from all labor organizations in sympathy are requested to be pres ent promptly at 8 p. m. The order of on Committee, is as follows: 1, elitation Cou tion; 3. The party press.

BROOKLYR OPER-AIR MEETINGS.

Open-air meetings are to be held un-der the auspices of the Kings County Committee, S. D. P., as follows: Friday evening, May 15, at Atlantic

me and Nevins street and at Grand Saturday evening, May 16, in front of the Labor Lyceum, 949-955 Wil-

loughly avenue.

IN ROCHESTER.

ROCHESTER, N. Y., May 11.— Rochester celebrated International Labor Day by having a monster labor demonstration in Fitzhugh Hall on May 1. The speakers were Mother s and Jas. F. Carey, member of the Great and General Court of Mas

Hoth speakers were very effective and brought out very plainly the necesdity of workingmen becoming educated along the lines of their own class in-

Comrade Carey traced the develop ment of industry from the time of slavery to and including capitalism, and Mother Jones spoke of the many phases and different conditions of working people under capitalism as

Both speakers held the audience spell-bound and many converts were made at the meeting. Some of the unions of the city joined with us and also donated a portion of the expense. Frank P. and Kate O'Hare spoke here last Sunday, at the Lubor Ly-

ceum, in the City Hall building.

Mrs. O'Hare created a profound impression by her simple yet eloquent appeal to the workers to bring about Socialism. She told of her own Rescue Mission work and how it was impossible to better the condition of the re-claimed fallen women under the pres-ent system. No one would employ them, none would work next to them, and so on so that it was only natural that they fell back into their old ways of vice and degradation. She told of having worked alongside various nationalities in New York and how the conditions were. In some places they could not live over five or six years at best. Her sincerity and personal mag-netism seemed to attract to her even those who were not Socialists. They "Coming Nation" after the meeting, upon the strength of Mrs. O'Hare editing the woman's page of that paper. G. W. M.

NEW JERSEY.

Sinie Secretary Kearns of New Jer-sey asks us to make the following cor-rection in the statement of the basis of representation in the state convention to be held in Helvetia Hall, Pater-

son, on May 30: Each branch will be entitled to one delegate and to one additional for each ten members or fraction thereof, so

ten members or fraction thereof, so that a branch having from elevan to nineteen members will be entitled to three delegates.

At the last meeting of the State Committee, Comrade Firth's resigna-tion from the Organization Committee was accepted. No accessor was

DERERAL COMMITTEE

Comrades Wolf and Roswer at last Saturday's meeting of the Gen-eral Committee of Local New York. Morris Hillquit was seated as delegate from the blst A. D., vice John Wilkina resigned. Eleven applications for membership in the party were granted. The resignation of John Wilkins from

in the Bowerman case that although notified of its meeting he had failed to attend: it was decided to hold another meeting to give him a further chance

to appear. Recomendations of the Finance Committee, to use the articles left over from the party booth at the Globs Fair for the picule of July 19, and to continue to June 1 the raising of the

auxiliary fund, were concurred in.

The Anditing Committee reported that the books of former Organizer Wood were found in order, but that ther showed him to have overdrawn the amount of about \$50, headen \$36.64 which he had not turned over to the Treasurer. Some comrades believed, that the apparent deficiency could be cleared up by a further examination of all the accounts; Comrades Mayes and. Solomon were accordingly added to the Auditing Committee and it was instructed to make a more detailed re-

The recommendation of the Execu tive that the local demand representa-tion in the Board of Managers of the Workingmen's Co-operative Publish-ing Association was not concurred in. It being pointed out that the interests of the party were thoroughly guarded by the provision that only party mem-bers could belong to the Association.

The recommendation of the Executive that only citizens be qualified to act as delegates to the General Committee was defeated, after discussion

by a vote of 23 to 10. It was voted that only party me hers (including members of the Social-ist Party from foreign countries) be engaged as party speakers.

engaged as party speakers.

The question of reorganization of
the City Executive Committee being
taken up, it was decided, on motion
of Comrade Hiliquit, to elect a special committee to propere a plan and report it to a special meeting of the neral Committee to be held on May The following comrades were chosen to constitute such special committee: Obrist, Hillmuit, Bock, Martin, Boudin, Lemon, Schlueter, Mayes, Lichtschein, and Kanely.

MAILLY'S APRIL REPORT.

National Secretary Mailly's financial report for April shows continued im-provement in national organization The totals are as follows: Receipts for April. 1.287.06

Expenditures 1,197.91 Rainnee, May 1 \$338.70

Items of income were: Dues from state committees—California, \$34.50; Colorado, \$25; Connecticut, \$15; Flor-ida, \$10; Idaho, \$20.10; Illinois, \$70; indinna, 200; Ibwa, \$15.80; Kansas. \$10.50; Maine, \$10; Massachusetts, \$100; Michlann, \$5; Minnesota, \$20; Missouri, \$50; Montana, \$15; Nebruska, \$18; New York, \$100; Ohlo, \$20; Oklahomm, \$8.45; Oregon, \$0.00; Ponusyl vania, \$25; South Dakota, \$7; Washington, \$33.55; from locals in unorgan-ized states—Alabama, \$20.10; Arkan-nas, \$19.80; Arizona, \$10.05; Georgia, 90 cents; Louisians, \$2.35; Maryland, \$6.00; Rhode Island, \$10; Tennessee, \$14.40; Vermont, 55 cents; Virginia, \$6.40; West Virginia, \$4.20; Wyoming, \$2.40; Washington, D. C., \$3; from members-at-large, 00 cents; supplies, \$45.10; Special Organizing Pand, \$84.45; Eugene Dietzgen, donation, \$225; to balance Ohio, old account, \$34;

J. W. Stayton, proceeds of lectures Items of expense were: Saluries— Wm. Mailly, \$83; W. E. Clark, \$60; expenses of National Committee meet ing, \$151.90; on old debte of Chicago N. E. R.—Theo. Pubs, \$40; A. S. Ed-wards, \$40; Eugene Dietzgen, \$225; on old debts of Springfield N. E. C .- Geo J. Sperer, 840; Chas. H. Vail, 840; J. Mahlon Barnes, \$21.51; for organizing —M. W. Wilkins, \$50; John M. Ray. \$25; printing, \$190.50; office rent, \$15 help, \$81; postage, stationery, nms, express, exchange, etc...

The amount received for dues is \$118.70 greater than in March and in-dicates a paying membership of nearly 16,500—the highest point yet reached.

MICHIGAN AGITATION.

DRYDEN, Mich., May 10 .- One hun ired and fity stations have been established, at each of which one or more comrades have volunteered to attend to the local end of meetings— that is, to feed, shelter, and welcome speakers and pay car fares. These are arranged into circuits corresponding to lines of travel and will afford constant work for six speakers and organizars. George E. Bigelow opens the cam-paign at Pentwater on May 20 and will spend thirty days in Michigan, closing at Benton Harbor or St. Joseph on June 21. From Indiana Frank P. and Kate Richards O'Hare will reach their first Michigan appoint. ment on June 1 and will work in Mich ignà all of June and July. P. J. Cooney of Montana, now in Brooklyn, will be in Detroit on June 21 and 22 and may spend several days in that vicinity if local comrades make the summer on Michigan circuits, begin ning at Benton Harbor about June 1. Dr. W. H. Smith will put in two weeks "on the scap-box" beginning about June 8. Robt. S. Clark, "the Blacksmith Socialist," and James H. McFar lan, both of Flint, will spend one we is expected to reach Michigan soon to

on all-summer and fail campaign.
On several circuits the average distance between stations is ten miles or less, reducing faras one way to about 30 cents between places of meeting. On other circuits the fares between

On other circuits the fares between stations will be 30 or 30 cents, and in some cases, more. The outlook is bright for an active campaign in Michigan sill summer and full.

The comrades of any town winhing place on them circuits should correspond with the Organizer, C. J.

BOOKS FOR STUDENTS.

If you wish to study Socialism, so as to gain a real understanding of its economic and philosophical principles and its historical relations, you will find the list of books given below of

The Economies of Socialism. By H. M. Hyndman. Probably the est analysis of Marx' sconomic teachnest analysis of Harx' economic teach-ings yet published in English. Cloth,

the utmost value.

Translated from the French Gabriel Daville by Robert Rives La Au abrid monte. An abridgment and popt sation of "Capital." Cloth, \$1.50 per, 75 cents.

Principles of Scientific Socialism. By Charles H. Vail. A popular systematic treatment of the main outlines of Socialist theory. Cloth, \$1; paper

Gelientivites

By Emile Vanderveide. Translated by Charles H. Kerr. An argument for the Socialist movement based on an analysis of present capitalist tenden-cies. Cloth, 50 cents; paper, 25 cents. The Social Revolution.

By Karl Kautsky. A recent book, just translated into English by A. M. and May Wood Simons. Should be read by everyone who wishes to keep up with the times. Cloth, 50 cents.

Socialism, Utopian and Scientific, By Frederick Engels. No student o Socialism can afford to omit reading and re-reading this and the "Com-munist Manifesto." The introduction is as important as the work itself.

Cloth, 50 cents; paper, 25 cents. Without introduction, paper, 5 cents. The Communist Manifests. By Karl Marx and Frederick Engels. Written at the beginning of the modern Socialist movement, it has stood the test of sixty years and remains a

great living classic. Paper, 10 cents.

Socialism and Anarchism.

By George Plechanoff. This little took does more than show the difference between the two movements. In so doing it gives the reader a clear philosophy. Cloth, 40 cents.

Story of the French Revolution

By E. Belfort Bax. The only book published at a price accessible to or-dinary readers which treats this great event from the working-class stand point. Cloth, \$1.20.

Burglytian and Counter-Burglytian By Karl Marz. A clear narrative and keen analysis of the movement of

1848. Cloth. \$1.20. The Eightsenth Brumaire By Karl Mark. Tells of the rise of

the bourgeois empire of Louis Napo-leon; should be read after "Revolution and Counter-Revolution." Paper, 23 CALIFIE The Paris Commune of 1871. By Prosper Lissagaray: The story of the great proletarian revolt told by

one of the Cummunards. Cloth, 75

25 center.

The Civil War in France. By Karl Mark. Two manifestos on the Commune, written by Marx as Secretary of the International. Paper,

Origin of the Family, the State, and Private Preparty.

By Frederick Engels. Both smaller

in size and wider in scape than Morgan's spoch-making book, "Ancient Society." Essential to the student of history. Cloth, 50 cents. Escapanio Foundations of Society. By Achtile Loria, An expect the "materialistic conception of his-

For addresses of the Limits is bookkeepers, o "Vorwarts."

Although the matter has already total humber of wage-workers, as been treated in The Worker, the number of inquiries addressed to us, espe-cially by new readers, makes it fitting again to present in summary the show-ing of the Twelfth Census (1900) as to production, division of product beproduction, division or product se-tween capitallists and wage-workers, etc. We take up here the totals for the manifacturing industries of the United States, as shown in Ceasus Bulletin No. 150. Considering that the force of competition among workers-and, to a limited extent, among em-ployers, also-tends constantly to equalize the earnings of wage-workers in various industries and of those who, though not actually wage-workers, are in a similar position of economic de-pendence, we may fairly take those figures as typical and assume that the division of the value produced between producers and those controlling the means of production in agriculture. mining, commerce, and other inun-tries will be in approximately the same ratio and that approximately the same merce, and other indus tendencies are at work in all.

Le-The bulletin referred to shows that the gross value of the product in the 640,194 manufacturing establishments covered, for the year 1000, was \$13,082,883,700.

This, be it observed, is the gross, find the net value, the value produced In the process of manufacture in these establishments, we have to deduct the value of materials used—a value produced by other labor, as that of farm duced by other labor, as that of farm-cra, miners, etc., and incorporated with the new value produced by the labor of manufacture into the value of the fla-shifted product. We may also, to avoid confusion and to make our estimate conservative, deduct what is reported as "miscellineous expenses." Part of this is legitimate cost of production such as insurance, repairs, replace-ments, etc.; part of it is actually dis-guised profit—part of the "expense" of production in the business senne, but not part of the cost in the economic case. However, as said, we may valve this point and concede it all to be legitimate cost of production, to be treated in the same way as value of some astablishments being the ma terials of others—this does not at all effect the final results. What is la credited as gross product in another so that the totals bear the same rein

cost of materials, fuel, freight, etc., to be \$7.364,951,954. Adding to this \$1,-030,283,385 reported as "miscellaneous expenses," we get a total of \$8,395,-breams. 285 339, which represents that portion of the gross value of manufactured product which was not produced by the labor employed in the manufac-uring establishments. This value, produced essewhere, was incorporated vith the new value created by the abor of the manufacturing wage-vorkers, to make up the gross value

II .- Making this deduction, then, manufacturing industries, the new raise created by the labor of the works in these industries. Out of this net product, created for

them by their employees, the capitalats of the manufacturing industries "aid the wages of those employees, the "emainder constituting their profit or "surplus value"—whether in the form of dividends, of interest on bonds of corporations, or in other forms—commer to them in virtue of their owner—shin of the means of production,

IV.—The bulletin shows the aggre-

mate wages of the employees in these indestries to have been \$2,324,453,003. gate wages from total netips a remainder of \$2,343,194,437. which, again as a most conservative figure, is the profit accruing to the manufacturing capitalists as such

produced is thus seen to be a little greater than the 'Wage-workers' abare little more than half of the whole ralue created by the labor of the work To put it in more concrete form, out of every dollar of value produces in the hands of the capitalist or capitalists as profit—to reward them for their "thrift" or "enterprise," to pay them for "giving employment" to the exercise of their "business ability." acring as the capitalist econon find it convenient variously to justify profit at different times—actually as tribute paid them by the workers for the privilege of making a living by operating the means of production pre-viously created by the workers and owned by the capitalists.

VL-The bulletin puts the averag number of wage-workers employed through the year at 5.373,106. Divid ing by this the aggregate wages given above we find that the average yearly wages of the workers, assuming steady employment, amounted to \$438.

year, since the actual number of differ ent persons employed was undoubtedly full time and many of them having en ployment but for a small part of the

further to compare them with those of the Eleventh Census; so as to show the changes taking place in the ten years tendencies of capitalist develop

VIL-From the total net product and

In 1800 we find that 4,251,013 wageworkers created a net product of \$3.579,108,172—an average of \$841

Thus the ten years brought a considerable increase in the productive power of labor. The average product in 1900 was \$37 greater than that of VIII -- As stated above, the average

wages in 1900 amounted to \$433, or about \$1.40 a day. In 1890, the 4,251.613 employees had

received an aggregate of \$1,801,228,321—an average yearly wage of \$445, or about \$1.43 a day.

That is, the net result of ten years'

progress, from the workingmen's adde, is that the average worker created \$37 more and got \$12 less; from the other side, that the capitalists got \$49 more profits out of the average wage-worker

ne. IX.—In 1800 there were reported among the wage-workers in manufac turing industries 803.080 women and 120.885 children—that is, persons under sixteen years of age—that is, out of every thousand wage-workers, 189 were

komen and 28 were children. In 1900 there were reported 1,031,009 women and 108,583 children—that is, out of every thousand wage-workers, uen and 82 were children number of women and children working for wages, but a larger proportion of the women and children of the working class had been forced into competition with their husbands and

children advanced slightly during the ten years, while the wages of men fell off; but in 1900 the average wages of women were still but \$273 a year or 90 cents a day and those of children only \$152 a year or 50 cents a day.

considerably to increase the productive power of labor, but to give to the capitalists all of the increment and more besides; and to make the condition of the workers positively worse, both in respect of the absolute redu tion of money wages and of the in-crease of child and female labor. In yet another respect, not shown by these statistics, the condition of the workers has become worse-namely, by the increase of the cost of living. the same amount of money wages in 1900 providing less food, clothing, shelter, etc., than in 1800,

Besides again calling attention to the fact that in this analysis, wherever a doubtful question arose, the benefit of the doubt has been given to the de-fenders of capitalism, so that the figures given as representing the rate of capitalist exploitation are undoubtedly far too moderate, three further ob-servations may be made:

X.-It has been said that, in 1900, he workers received in wages a fraction less man fifty cents out of every dollar of value they created, and left in the hands of the capitalists a frac-tion more than fifty cents. This is the immediate division. Ultimately—that is, by the time the workers, have used their wages in providing their living— their actual share of their product is much less. Out of those wages they have to pay back to the capitalists a very large proportion in rent for their homes; and of this far the greater part is clear surplus to the capitalists and clear exploitation of the workers; in buying food, ciothing, and other com-modities at retail they have to pay also a large and increasing monopoly profit, which still further swells the capitalists' share at the expense of the tween the few non-producing capitalists and the many productive workers is not even a half-and-half division; we have no means of ascertaining it with any definiteness; but we can safely may that at the end of the game the capitalists get at least twice and very probably three or four times as much as the workers,

XI.-Even this, reat which the capitalists now extract profit from the workers, does not fully represent the material advantage which the workers will gain from Se capitalism, are legitimate and neces sary elements of the cost of produc tion are, nevertheless, socially waste-ful. We may cite advertising in its thousand forms, duplication of plants, occasional overproduction of perisha-ble goods, and the cost of maintaining capitalism, which, with both compet tion and class-antagonism eliminated, will be aimost if not entirely done away with. Whatever is thus saved will be so much added to the product or so much taken off from the labore

XIL-It may be asked: But what do the greater part of it again at the service of society by spending it in re-placing the means of production as they are worn out and in improving and extending those means of produc-tion? This is the claim of the capition? This is the claim of the capitalist apologists. It is parily true and mostly false. Although, even if whelly true, it would not do hway with the inequity and social injustice of the capitalist system of "dividing up," it is worth while, since we have here the means of doing so, to show approximately how much truth there is in the claim.

The capitalists do not out of their chinery, for instance, just as well as the cost of materials used and of labor-power used, has already been included

000,000 of profits shown in 1000, the \$1,680,000,000 of profits shown in 1890, are what remained to the capitalists. In these years after replacing their capi-tal to the extent to which it had been worn out. The proverb, "You canot eat your cake and keep it, too" does not apply to capital. Capital is such

a magic sort of cake as constantly grows as fast as it is eaten. While the replacement of capital used up has already been deducted, however, the extension of capital has not. Part of the capitalists' profits are, indeed, reinvested, transformed into additional capital, instead of being consumed. The proportion of profits so used to auximent the means of produc-tion can be roughly but fairly esti-mated from the figures before us.

In 1800, the total capital was \$0,525, 150,480. In 1900, it was \$9,835,086,900. One of their profits of ten years the expitalists had put back about \$3.310, 000,000 lute new and additional mean

of production.
In 1890, the capitalists were getting profits at the rate of about \$1.080,000. 000 a year. In 1900, they were getting profits at the rate of about \$2.200,000,fairly put the total profits of ten years at something over \$20,000,000,000.

Just about one-sixth of their profits, then, they reinvested, transferred into additional capital, used to increase the

What did they do with the other five-sixths, the other seventeen billions appropriated from the workers during those ten years?

nose ten yenra?
Hith Avenue, Newport, Saratoga.
country villus and baronisi estates,
gnue preserves and racing studs, Mariborough House and Skibo Castle and the Delhi durbar, more than regal automobiles, an enermous and ever growing army of valets and butiers and grooms and maids and footmen, horse shows, monkey dinners, cat wedthings necessary to the existence of ladies and gentlemen, down to barrels of Scotch whiskey for Grover Cleve-land and wine at \$23 a bottle for Bishop Potter (to belp them arbitrate labor disputes impartially) with here and there a million invested in de-humanized charity or judicious miseducation-these go far to account for

it. They who have so big a magic cake may venture to bite into it right lustliy. "For the bonor of our country" our lords and ladies of industry have not spared to gratify their wiki-est dreams—may, to task the ingenuity of hosts of inckeys to devise them new eccentricities of extravagance and new ostentations of benevolence. If they have outdone Alexander in ambition and Timour in devastation of cheap human life, so have they surnamed Xerxes in pride, excelled Cleopatra in luxury, and distanced the Bourbons in suicidal folly.

And children toll and grow up in ig norance of all but evil to keep the wolf of hunger from the door. And lables smother in the polsoned sir of profit-able tenements, or, die for lack of mother-care, while the mothers grov old before their time in the aweatshop.
And girls sell themselves to gain a few
years of life and then end their-misery in the river. And men heg for work in days of prosperity and wonder if the inevitably coming hard times can be worse. And they think, and think, and think.

And because they must think and be maddening minery is at hand. Come it must and that in the not distant future. That it come as quickly and as easily and as rightly as may be that is the responsibility of the Socialist, of the Toiler who Knows,

POSTOFFICE ABUSES.

Street Railway Employers Charge that Union Mail is Held Up and Shown

PITTSBURG, Pa., May 9.-In pur suance of a resolution adopted last night in the closing session of the contelegram was sent to President Roose velt, asking him to intervene to prevent the unlawful use of the United States postal system to hurt this

Orievances were brought up by dele gates because of the manner in which the United States mails were used in San Francisco and New Orleans during the time that the street car men were having trouble with their em-ployers on account of organizing divi-sions of the union.

It was asserted that in San Francisco the letters of the street car men were beld up, that some letters we opened and photographs were taken of the contents, and in many cases these photographs were posted by the employers at the various car barns. This was done, it is alleged, in order to de-ter employees from joining the unions. In New Orleans similar methods were

It was also pointed out that in many cases during strikes the street railway companies were allowed to put United States mail signs on their cars, although those cars carried no mail, for no other purpose than to invoke the power of the federal courts against the strikers on charges of obstructing the postoffice service.

The holding up and opening of unlos mail by the postoffice authorities in San Francisco during the street-car strike seems to be well attested. The same thing was done in Pennsylvania during the miners' strike last summer, as exposed in The Worker at the time.

most sacred and fundamental rights of free government. There is probably not a constitutional monarchy in the world—to say nothing of other repub-lics—where it would be tolerated so lice—where it would be tolerated so tamely. But Americans are getting the reputation of being "easy"—except the wicked Socialists, who protest and agitate in spits of all sweet phrases about harmony and prosperity.

TROUBLE FOR -

COTTON WORKERS

ting Down of Mills is Threatened. This week's dispatches from New England forecast trouble for the cot

ably lott wages or an interruption of

Soneral Reduction of Worse or Shut-

their siready uncertain employment.
Prosperity is here. Haw cotton is going up. The manufacturers say they cantibl difford to pay the "high wages" -an average of sec-over \$6 a week for adults-now prevailing in the mills of New England. Some of the managers, it is Yeported, favor a reduction of wages. Others say it would be cheaper off a part of the employees or by en-tirely aburding flown the mills for a time—thus enabling them to get a higher price for the stock they have on hand. To the workers who create the been pocketing this year and for many

sand textile workers have been on strike for two months, demanding a 10 per cent, increase in wages, equal Massachusetts last year. The great majority of the strikers are women, and a large proportion are foreigners— French Canadians, Greeks, Armenians, and others—imported by the patriotic bosses in past years to the hope that they would continue submissive to tyranny and content with the lowest mbalsfence wages, These workers have learned, however, and are stand-

The history of this strike has been marked by the most shameloss lying on the part of the eminent gentlemen who own the mills. For the first time the workers had a chance to see the real "great men." the Boston capital-England and the South, when they attended a hearing of the State Board of representations of fact in regard to actual conditions and in regard to

promises made by the busics last year.
The arbitrators, however, came to
the rescue of the capitalists, as in so many other cases. They examined—or pretended to examine—the books of the companies. No representatives of the employees were allowed to be present at the examination, on the strength of which the board reported that if found the companies could not afford to keep its promise to raise wages. It may be noted that one of these companies—the Lawrence Manufacturing Company—had, in the course of the room declared profits of \$500,000 on a capitalization of \$1,000,000.

Not only do the workers of Lowell and other cotton mil towns suffer from the prevalence of female labor, which destroys home life and keeps down wages, but those who are in a position to know say that, in spite of the better laws of Massachusetts, child labor is almost as great a curse these as in Georgia. The laws are fairly laws is in the hands of capitalist tooks and many of the workers are so poor that they cannot or dare not refuse to end their children into the mills under

the workers-the substitution of "ring spinning" for "mule spinning," the in-troduction of machinery which dis-penses with a large part of the skilled abor and so tends still further to intensify competition for employment and to reduce wages. The Lowell strikers have listened

eagerly to addresses by Socialist speak-ers, among them Mayor Coulter and Alderman Studiey of Brockton, Father McGrady, and State Secretary White. A large quantity of Socialist literature has been distributed, also, and the workers are talking and thinking of this better system under which im-proved machinery, would lighten their burdens, instead of increasing them.

ALABAMA ORGANIZED.

Brings Up the Humber of Our Organized

States and Territories to Thirty-two -Prespects Are Bright.

(From National Headquarters.)

OMAHA, Nob., May 10.—The state convention called to organise the So-cialist Party of Alabama, bold in Birminghain on May 8, was attended by seventeen delegates from ten locals. National Organiser John M. Ray called temporary chairman and C. H. Spen cer of Besseiner temporary secretary.

A. W. Davis, C. P. Baldwin and H. Upton were elected credential committee, and afterwards reported the following delegates entitled to seats in A. W. Cost: New Decatur, Fred A. A. W. Cost; New Becatur, Free A. Genaty, R. Vick, A. E. Isaac; Bhrmingham, F. X. Waldhorst, G. V. Lockwood, B. Andrus, C. P. Baldwia, and C. W. Love; Patton, L. C. McDuff, Avondale, E. J. Eckert; Montgomery, in which way they ase W. P. Tennant; Hardyville, A. W. Cost.

Comrade Allbright was elected permanent chairman and A. E. Isaac secretary of the convention. The application for a state charter was then signed by the delegates and the fol lowing committees elected: By-laws-Waldhorst, Davis, and Andrus: Reso lutions—Genaty, Kikel, and Lockwood; Ways and Means—McDuff, Tennant, and Baldwin.

Pending committee reports. National Organizer Ray addressed, the conven-tion on organization and party incites. The committees reported and the cou stitution, resolutions, and ways and nicans reports were adopted after dis-cussion. The State Committee was then elected as follows, subject to referendum: Z. T. Alibright, Frank Butcher, Freil A. Genaty, H. M. Griffin, J. C. Maxwell, R. A. Dobbs, and W. S. Baldwin of Fairhope. P. X. Waldhorst was unanimously elected State Secretary, and Comrades Eckert. Spencer, Kikel, Andrus, and Love were

selected to act as the Local Quorum. The subject of a state party paper was discussed, but deferred until the party could be better organized. A vote of thanks was given the national headquarters for sending Ray to assist in forming the state organization, and also to Comrades Hay and Healey for assistance rendered. Collections were taken up to belp defray Ray's exrenses, and to assist Healey while act ling as organizer of the "Appeal to Reason" in Alabama. Other business of minor importance

was transacted, and the convention adstandard and die, after a most enthu-stastic and fruitful assion, which promises much for the future of the Socialist Party in Alabama.

IN PENNSYLVANIA:

Reports Show Activity Throughout the State-Properations for Conver Reading on May 30.

PHILADELPHIA, May 11,-- At to night's meeting of the Pennsylvania State Committee, Comrade Ribl presiding, a charter was granted to a nev local at Goodwill Hill, Warren County Financial reports were received from Allegheny, Pottsville, Lehighton, Brownsville, York, and West Newton.

A report was received from Organ-John Collins, who is now doing good work in and about Pottsville. Meetings were arranged in Middleport Mineraville, 'New Philadelphia; and Collins spoke to a large meeting in Minersville. The object of these meetings is to get the local or

ganizations in shape to make actions for county and state tickets.

General activity is shown all through the state. Local Reading is making arrangements for the busy making arrangements for the state convention to be held on May 30. The comrades in Allegheny and Schuyikill counties request that county committees be formed. Local Pitts-burg has organised ward branches and ned a city central committee. The Routh Side Branch has started a sub-scription to help the State Committee

pay off its indebtedness.

The comrades in Charlerol will be

ings get warm enough. Haselton reports that things are looking bright in that neighborhood. The Bocialists in the convention of District No. 7, U. M. W. of A., succeeded in getting the direct vote and referendum made a part of the new-district constitution, stopped the lobbying at Harrisburg, and won the right to dis-cuss Socialism in the local unions.

Many people have had their eyes pened by the coal strike and the opened by the coal strike and the events that have followed it. Things are said to be lara worse condition in the coal fields now than before the strike and great gains are expected in ranks after the Concilia tion Board gets through with the miners' grievances.

A Polish branch was organized in Wilmerding, Allegheny County. This organization resolved at its first meeting to join the Socialist Party and declined to join the Federation of Folish Socialists supporting the B. I. P. Walter Thomas Mills addresses

large meeting in Philadelphia last Sat-urday evening under the auspices of one of the clearest that has been heard in this city. Howard H. Caldwell Will make a

speaking tour of Pennsylvanie on his way to Ohio. Locals wishing to get should write at once to State Arch street, Philadelphia.

All locals in the state should do their best to have delegates at the state con-vention, as many things of great in-terest to the party will be discussed and acted upon. Better information as to the needs of each locality, methas to the needs of each iscallty, methods of routing spaakers, means of strengthening the organisation is every county and, in general, closer acquaintance ""With" "Borizhist throughout the state will more than repay the expenditure. Some of our best speakers and organizers will be there and the information each delegate will take back to his local will not use in a nontition to meet the erran-

put us in a position to meet the organ-ised forces of capitalism with an or-

CHASE IN TEXAS.

Rational Organizer Reports on His Work There-Jesialist Mesament Has Exceptional Difficulties to Encounter in the Lone Star State.

(From National Headquarters.) OMAHA, Neb., May 4 .- National Lecturer and Organiser John C. Chase, under date of April 27, reports on his work in Texas during April as

"Began at Bonham, on April 7, small meeting, people being scattered through crop failure and having to go elsewhere for livelihood. Big meeting at Dennison next day and found movement in good hands. Addressed good meeting, composed of students and citizens, in college at Commerce, April 9. Next day had small meeting at Greenville, owing to bad weather, but organized a local afterwards. Went to Houston, April 12, but meet-

"Spoke twice at Galveston, April 14

Filled deferred engagement at Lake Charles, La., on April 16 for Socialists, who are enthusiastic and have good movement. At Beaumont on April 17 I spoke for the Trades Assembly to a good meeting. One year ago Socialist was jailed and later taken me, however, and there are many 80cialists to be found there now." April 19, at 8an Antonio, I had the best meeting of the trip, speaking out-doors. The best movement in the state On April 20 I had a fair Rio, next day. These two places are farming towns and Socialism is somewhat backward, although there are some good Socialists doing all they

"On April 23 and 24 I spoke in Fort two very good meetings and after the second one organized a local with thirty-one members, with the most active union workers curofied. Fort Worth is an excellent field for Social-ism. On April 25, at Henricita, auother farming community, the meeting was held in the court house in the afternoon with a fair audience, and in the evening spoke again from a box on "Texas has had crop failures for two

aged and poor. Many of our people have been compelled to leave for other pire in itself and the distances between points are so great that it is almost impossible for the Socialists to keep in touch with each other or to do any work of organization. Texas ought to have a half-dozen organizers. I was nomewhat disappointed in the people of Texas. I thought them more like the Westerners than they are. They are very conservative and slow, accepting things as they come along without much 'kicking.' Many thousands of voters are completely disgusted with politics and do not bother

to vote at all "This state had something like 100. 000 Populist votes at one time, but they have either crawled late their holes, politically, or have gone back to the Democratic fold. The Legislature has done two things, however, that are causing the people to do some think ing. It has passed an anti-trust law which affects, and was intended to af fect, no one but labor organizations. There has been much speech-making and passing of resolutions by the labor organisations to get it repealed, but it is still there. After a few of the trade-unionists are put in jail they will see where they belong politically. The other law is a poll tax, which has disfranchised thousands of workingmen, who are considerably agitated about it, and it will eventually result in good for our cause.

The task of converting the Texam It is growing fast, bowever, and with organization she will fail in line. The rient numbers to make any impression, belp must be had from other states. It is nearly as far across the state of Texas as Chicago is from Boston. When we think of this we can realize what a task the local Socialists have

THE ART OF SPEAKING.

[A few suggestions by a junior mem

One of the principal elements of success in the art of speaking is confidence on the part of the speaker in his ability to address an audience. You must impress the andience by every word. deed and action that you CAN address them and that you understand your usiness. Go about your work in a plain business-like way; throw energy and life into what you say; and avoid all arguments that would excite the religious prejudices of the audience If you intend to be successful in the art of speaking you must have abso-lute confidence in yourself, and the subject you are talking about. By this

I do not mean that you must be egotiscalm, cool and self-possessed and of unlimited confidence. A salesman is never successful in selling goods in which he has no confidence; he mus have faith; he must believe that he can sell: he must be able to talk about his goods as if his beart and soul were cer tered upon what he is explaining. is simost identically the same with the agitator for Socialism whose duty it is to make Socialist followers and voters, in order to conquer the political power, and so to establish the Co-operative

You cannot be successful if you talk You cannot be successful if you talk mechanically: there is no force in what you say. It matters not how deficient you may be, if you follow this advice and keep at work—probably acting as chairman at an open-air meeting and having a little to say here and there before latroducing the next speaker; you will under easy circumstance fall in will under easy circumstances fall in line with the others and time will bring its sure reward, and you will become a

National Platform of the Socialist Party.

of Becial Democratic Party. The party emblem in New York is the Arm and Turch.]

The Socialist Party of America in national convention assembled, reaffirms its adherence to the principles of international Because to the principles of international Because to the principles of international Because the principles of international Because the second of the working class and those in sympatry with it, into a political party, with the object of concuering the powers of government and using them for the purpose of transforming the present system of private ownership of the means of production and distribution into collective ownership the entire people.

Powerly the tools of production were simple and owned by the individual worker. Toolay the machine, which is but an improved the product of preduction, and move developed tool of preduction, and move developed tool of preduction, and move developed tool of preduction. This ownership enables the capitalists to central the product and keep the workers dependent upon them.

Private ownership of the means of production and distribution is responsible for the ever increasing uncertainty of the working class, and it divides society into two hostile class, and the working class. The pomession of the means of livelihood gives to the capitalist the centrel of the government, the press, the pulpit, and the achools, and enables them to reduce the workingmen to-a state of intellectual, physical and social inferiority, publical subservince and virtual.

The economic interests of the capitalist class dominate our entire social system; the class dominate our entire social system; the

IMMEDIATE DEMANDS.

while we declare that the development of recommend conditions reads to the everthrow of the rapitallut system, we recognise that the time and manner of the transition to Sorialism also depend upon the stage of development reached upon the stage of the timest importance for the Socialist Party to support all arrive efforts of the working class to better its condition and all collect the attainment of this rull.

As such means we advocate:

I. The public ownership of all means of transportation and communication and all other public utilities, as well as of all industries controlled by monopolicies, trust, and considers. No part of the revenue of such stages of the second of the controlled by monopolicies, trust, and considers. No part of the revenue of such stages of the second of the controlled by monopolicies, trust, and to their public utilities as papiled to the reduction of taxes on property of the capitalist class, but to be applied wholly to the increase, but to be applied wholly to the increase of wares and shortening of the board means to the consumers.

2. The progressive reduction of the board

ment of the service and diminishing the rates to the consumers.

2. The progressive reduction of the hoges of ishor and the increase of wages to order to decrease the share of the capitalist and increase the share of the worker in the product of labor.

2. State or national insurance of working people in case of services, lack of employment, states as an away of the finds for this purpose to be collected from the greatest of the capitalist class, and to be administered under the control of the twenty class.

of competition and always tending to

the bare cost of living;
Or "hard times"—and you know
what that terrible phrase means.
The capitalist expects you forever

o choose between these alternatives

But is it necessary for you to con-tinue choosing between these two? We

Socialists say it is not. We suggest a

Capital and Capitalist.

We admit that the workingmen are

dependent upon the capitalists for per-nission to work-but not rightly nor

necessarily nor eternally so—only until they learn to remove the cause of their dependence.

The capitalist says: "Without me it would be impossible to carry on it..."

would be impossible to carry on indus-try and the workers would starve." He means: "Without the machinery

and other means of production that I own it would be impossible to carry on industry and the workers would

Note that difference. It is the essential point of the Socialist reply to the capitalist argument. Miners can-

not work without a mine, nor train

men without a railroad, nor steel work

ers without steel milis. But miner could dig coal and iron and railroad

men could transport it and steel work-ers manufacture it even if Baer and

an and Carnerie were flead

The capitalist does not enable you to work. He merely permits you to work, when it is profitable for him-

that is, refrains from exercising his

privilege of forbidding you to work.

Capital—using that word here to
mean all the instruments of produc-

tion—is necessary. Capitalists are un-necessary and pernicious.

It is because we have capitalists-

because we allow certain persons the legal ownership and control of the things with which we work—that we

have to make that hard choice—either

stand idle and hungry," of work too

The Socialist Position.

Let us, then, get rid of the capital

ist. The workers have collectively created the means of production. They collectively operate them. They col-lectively need them. Let them collec-tively own and control what they have

nade and use and need. Then they

will work at their own will and not at another's command nor by another's consent. Then they will own all that

they produce. Can you imagine such

a thing as hard times under that sys-tem? Can you imagine such a thing as life-long poverty for industrious people under such a system? Do you think you would work yourselves to death and yet die poor under such a system? Do you think children would be sent into the factory under such a system? Do you think you would

system? Do you think you would

vork with dangerous machinery or in

disease breeding aweathops under such a system? No. And all these things and more you do suffer under

capitalist prosperity.

And even capitalist prosperity is not

permanent, remember. No matter what you as workingmen may do— though you refrain from striking or voting the Socialist ticket or even

thinking for yourselves, though you

ng as hard times under that sys-

hard and yet live in poverty.

starve."

swer. No.

rence) now than ever before.

The one argument against Socialism | lng an equal right to suspend business worthy of serious consideration at the present day is that which the National

VOL. XIII.-NO. 8.

present day is that which the National Economic League is spending so much effort to put before the workers—namely. That the Socialist movement threatens our national prosperity.

The argument is worthy of attention, not because it is a valid one, but because, to the mind trained to look at all questions from the capitalist standpoint it is likely to seem so.

Noting first that the National Economic League and the National Economic League and the National Association of Manufacturers are quite right in urging this argument against the Bocialist and the trade-union movements alike, since it is equally strong

Rocialist and the trade in the ments allier, since it is equally strong or equally weak against both, let us begin by stating the argument as a really candid capitalist would, in as plain words as we can:

The Employers' Argument.

The Employers' Argument.

This, then, is what the capitalist lays to the workingman to dissunde him from supporting the Socialist movement or the trade unions:

"You and I, as wage-worker and capitalist are mutually dependent.

"In the present stage of social development it is impracticable to carry on any industry without the use of modern means of production—massive, complex, and costly machinery, involving division of labor and the employment of large numbers of workers un-

ing division of labor and the employ-ment of large numbers of workers un-der common supervision.

"I own these means of production.
But I am not able to operate them my-pelf. I need your labor-power. There-fore I am dependent upon you.

"You cannot use your labor-power, on the other hand, without having ac-

on the other name, without having to come to these means of production which I own. Therefore you are de-

which I own. Incretore you are de-pendent upon me.
"I allow you to work with these means of production in order that I may sell the goods you make at a profit to myrelf. Unless I can get a profit, there is no reason why I should let you

Now I, the American capitalist, in selling the goods which you make for use in the world market, must compute with the goods which British, German, Japanese and other workingmen make for British, German, Japanese or other capitalists to sell at a profit.

apitalists to sell at a pront. "If I can sell cheaper than those ther capitalists and yet make a profit, I will get orders and will let you work and pay your wages. If the others can sell cheaper, I get no orders and will close my works and you will get no

Magnet.
"In order to be allowed to work, therefore, it is your interest to work at such terms as will, after allowing me what I consider a satisfactory profit, enable me to sell my goods cheaper

thun other capitalists can.

"The trade unions, by their strikes and boycotts and label agitation, seek to compel me to pay you higher wages. and reduce your hours of labor. The Bocialists advocate legislation which would campel me to employ men in-stead of women and little children, to spend more money in making work-shops healthful and guarding danger-ous machinery, and in other ways to reduce my share and increase your share of your product.

"Even though you do not succeed in this or even before you succeed, your agitation frightens me. It destroys my confidence. It threatens my dits. It hampers me in my busines And in proportion as you do succeed, you increase the cost of production and so compel me, in order to get my satisfactory profit, to raise my selling price,
"But if I raise my selling price, the
British and Germans and Japanese are
likely to undersell me—and there is an

end of our national prosperity. 'National prosperity, you pends on my selling cheap. My selling cheap depends upon your working hard, long hours, for low wages, your wives and children doing such work as they can for still lower wages, and my being enabled to save expense by neg-lecting sanitation and running danger-ous machinery at high speed. When you resist these things, your action menaces and may destroy that national prosperity which you and I have been

How Far it is Sound.

This is the employer's argument. Or whole, it is unanswerable, IF YOU ACCEPT THE CAPITALIST SYSTEM AS RIGHT AND NECESSARY that is, if you agree with him in think-ing that the means of production must be held as private property and oper-ated by one class for wages to produce profits for the other class.

It cannot be denied that an increase of real wayes—whether through the raising of wage-rates, the reduction of hours, the moderation of speed, the elimination of child and female labor, er in whatever way gained—an in-crease of real wages increases the cost of production and so must involve either an increase of prices or a reduc-

If the capitalist has a right to profit at all, then he has a right to judge for himself what rate of profit is sufficient to justify him in employing the work-If he has a right to profit at all, then he certainly has a right to and must be expected to shut down his works when he cannot get a satisfac-

tory profit. trade-unionist uses to justify strikes is that the workingmen have a right to cease working when they will, singly or unitedly. The capitalists can turn work as hard and fast as you can for the lowest living wage—nay, all the sooner if you work and live so, by the inexorable law of capitalism itself,

inexorable law of capitalism itself, prosperity runs its course and plunges us again into hard times.

It is not trade unionism that menaces prosperity. It is not Socialism that menaces prosperity. Capitalist prosperity always destroys itself—just as it is doing at this moment in the cotton industry, where workers are being laft of because they have spun and woven too much cotton goods and and woven too much cotton goods and

capitalism lasts you must suffer after nately the miseries of hard times and the different but equal miseries of prosperity. The sooner you overthrow prosperity. The sooner you overthrow capitalism, the sooner you will put an end to needless misery.

CAPITALISM IN GLENS FALLS.

A Typical Example of Capitalist Methods.

with that of comparative depression which preceded it:

1. Average money wages are slightly lower now than formerly.

2. The cost of the workingmen's liv-ing is considerably higher now than Woman Strike Against Reductions of Wages to Pay the Expenses of Eurepean Trips and \$700 Pet Dogs-Fleidman's Effective Work Spreading

GLENS FALLS, N. Y., May 20.-81x hundred members of the International Shirt and Laundry Workers' Union are on strike here against the Wiel-Haskeli Company, whose history and methods are an excellent example of modern

When this company located here in 1800 it received as an inducement from the municipality a grant of land and a Profits are enormously larger than ever before—that is the capitalists' side. It is very reasonable that the capitalist should be interested in mainbouns large enough to pay the expenses of erecting a factory, as well as ex-emption from water and other taxes for ten years. As a return for these things the company "furnishes employment" to several handred workers. ingman, do you really think it is such a precious thing that you should substly women, at an average wage \$1 per day; some receive as high as \$10 mit to all exactions rather than "menace" it? By the way you are striking and by the number of you per week, but a great many are not able to carn more than \$3 per week.

Capitalist "Thrift".

Several years ago Mr. Haskell pur-chased a pet dog at the price of \$700, and the day following this purchase be reduced the wages of his employees ten per cent. Mr. Haskell next decided mma between which the capitalist bids you choose:
Either prosperity—which for you means excessive toll, dangerous toll, destruction of home life, and all for a remuneration kept down by the force to take a trip to Europe, and raised the expense involved by a further reduction in the wages of his employees. In 1880 Mossrs, Wiel and Huskell neame tax-paying members of this community, and immediately inaugurated a new system in their factory. They compelled their employees to pay a rental of 25 cents per week for the use of the sewing machines used by them in their work; and to buy the cotton and expects that you will choose the former, which means ever more and more profit and power for him. thread, for which an extortionate price was charged. The employees were also compelled to pay for all attachments neded for the accomplishment of re-quired results on certain stylos of work, and for all needles broken. In this way the company ground out of their already underpaid, un terfed, and verworked wage slaves more than rnough to pay the taxes that were coming due.

The workers put up with these methods for over three years, but at last gained courage enough to rebel against the long practised outrages of capital-istic robbery. And now the firm whose members enjoy European trips and \$700 pet dogs have the effcontery to openly declare that the rent-paying system is "time-honored" and "that to cupply their employees with thread, atachments and needles would cultivate extravagance on the part of the work-ers and would be detrimental to their business interests."

Finishmen's Agitation. The strike was declared about five weeks ago, and the girls were about osing hope when Comrade Sol Fleid-New York. He has been making three to five speeches a day and has not only worked up the strikers wonderfully, but has aroused a public sentiment in the entire vicinty. The ministers are preaching against him, and the newspapers writing editorials against them; and thus the workers are learning that in every strike they must expect to have the whole power of the capitalistruled press, church, and government against them and that in their light for their own class, both in the strike and at the ballot-box.

On the street corners, in the shope and everywhere the one subject of discussion is the message of the Socialist. and the Giens Falls comrades are try-ing hard to make arrangements to keep Fieldman with them longer. The strikers and their sympathizers are fast pecoming Socialists, and should the workers of Glens Falls awake and take the municipal government away from the forces of capitalism and put it in ing the ticket of the Social Democratic Party at the next election, the Wicla and Haskells and their class will be given something to think about more important than \$700 pet dogs. Let the workingmen of Glens Falls not only support their striking sisters, but rise at the ballot-box and put Socialist workingmen in office to deal with the capitalists who live in luxuri ness on the profits of legalized robbery.

BOTICE TO MACHINISTS

Folder Lodge No. 467, L A. of M., asks us to state that there is a strike at the works of the Dexter Folder Company of Peerl River, N. Y., and to request machinists to stay away till it is settled.

READ THIS AND PASS IT ON. for help.

MASSACHUSETTS LEGISLATURE.

Story of Typical Old-Party Politics.

The Brookton High-School Grab Which clatists Are Fighting -- Other Legislative and Party Hows - Mac-Cartney Dangerously Siek.

BOSTON, Mess., May 18.—The sessions of the House have been en-livened this week by at least one debate in which the Socialist members took an active part. The bill under discussion, although not a Socialist measure, is of especial interestito us as showing the extremes to which the an anowing the extremes to wheat the capitalist foliticians will go to hum-per and try to defeat the Socialist movement an it gains strength. In this respect it is second only to the at-fempt of the Republicans to countient Mayor Flanders of Haverbill last

Breekten High-School Fight. The measure in question is known as the Brockton High-School 1921, Since 1806 a need-has been felt for a new high school at Brockton, but the city was erecting a new city hall, the original plans calling for the hall to be built for \$90,000; it proved a great graft for the dominant politicians, for before it was completed it cost over \$300,000. Jealousies were awakened on the part of those who did not share in the plums and the high-school prob-lelm was pressing for solution when Comrado Coulter was elected Mayor in the fall of 1800. He urged in his inaugural the immediate building of the school. He again urged it in his inaugural in 1901. The political forces in the School Committee and the Public Property Committee, however, clashed over who should supervise the rrection of such a school, and no ad-rance was made during Coulter's first two ferms—both branches of the Council being controlled by the old parties with the Socialists in an insignificant ninority, so that our Mayor was al-most poweriess. The old-party poli-ticious were unwilling to take any action whus Coulter was in office, lest e should be able to prevent their get-ting their "perquisites" out of the job, so for two years they prevented any

In the election of December, 1901, Coulter was defeated by a narrow margin. The Republican party was once more in full power. But from the inception of that year's govern ment until the day after election last fall, the grafters pulled and hawled, wrangled and fought as to which body of the city government would pick the plums that would grow upon the fitzh-

Brafters Driven to Extremes. Last December the voters again de-clared for Coulter for Mayor and gave the Socialist Party three Aldermen-eight Councilmen, and two School-Committeeman, putting the Repub-licans in a minority unless they should get Democratic support. The Demo-crats who were elected in some wards, however, had won only by declaring. however, had won only by declaring that they would support the Socialista. The city was in a state of political revolt and the complete annihilation of the Democrats was prevented only by this promise, not made to Socialists but to Democratic voters who were and are still gradually being weaned away from the Democratic party. It now became evident that if the

plums were to be picked prompt measured trees must be taken. Only a month re-mained between the election and the installation of the new officials. If the matter were left as it then stood, none could doubt that the Socialists would force action, directly the ne administration came in, and the oppo tunity for plunder would be gone, for the Socialist Party was pledged against contract work and for short

The old-party politicians spent the month in fighting over details and only an hour before Coulter was inaugurated on January 5 did finally carry their plans through. First, they decided to issue bonds beyond the debt-limit—a violation of

aw. Further, they decided to bind the hands of succeeding administrations, extending-the-period of bond issue over three years—another violation of law.

monize their own jarring interests and secure their plunder, they decided to put the work outside the control of any branch of the city government by creating a special commission, with full power, responsible to no one on earth, to supervise the erection of the

Schome Chasked by Coulter. An hour after this job had been completed by the election of the less Commissioner, Comrade Coulter was inaugurated. He read his address and a deadlock followed in the election of Clerk of the Common Council. The Boriafist members voted for Comrade Clerk of the Common Council. The Socialist members voted for Common Serodeur, feeling that it was important that this official should be in support, with the administration. The Republicans, with Democratic support, voted for the outgoing deek, Fullerton. After several ballots the Socialist members resolved to sacrifice the point in order to end the deadlock and get down to business. lock and get down to business, and joined in electing Fullerton—Brodeur heartily acceding to the action. Mayor Coulter then immediately

presented a special message on the gality of the action taken by the old administration, and ordered the Treas-urer not to issue the bonds. Thus he nullified, for the time being, the extraordinary job concocted during the pra-ceding month, and the eminent citi-zens who put private profits above public education had to look elsewhere

To the Republican Legislature then these lovers of law and order, these entiemen who stand for liberty as gainst the "tyranny of Socialism" ap plied for a law to overrule the ex-pressed will of the voters of their city. One of the Republican members for Brockton, brother to a member of the proposed irresponsible commission has had charge of the bill. Mayor Coulter retained counsel to appear a the committee bearings against the bill. The counsel supporting it made no attempt to deny the illegality of the proceedings. Political considerations were all they had to rely on.

Debate in the House. When the bill came up in the House Comrade Ransden, our new member from Brockton, opened for our side and traced the history of the act showed the infamous character of the egislation asked for and pleaded for justice and the law. Then Dowd of Holyoke, a Democrat, advocating the bill for the petitioners, had a glass of water brought to his desk and read from manuscript a beautiful essay on he need of a high school at Brockton and said that a lot of political sharks were trying to prevent its erection. In closing he said: "I pray that the petitioners may be granted the legislation that they ask."

that they ask."

Carey arose and said: "Mr. Speaker,
I congratulate the member from Holyoke upon his good judgment in selecting a writer for his speech," Breed, a
Republican, hissed. Cool as ice, Carey turned to him and with finger pointed said: "There are two things in this world that make that sound-a snake and a goose. I repeat, Mr. Speaker, that I congratulate the gentleman on his good judgment in selecting a writer for his speech. He talks of political sharks, and when he uttered those words, he must have been so situated that something cast back his own reflection." Alluding to a break in Dowd's reading of his closing sentence, Carey said: "Did you not notice him stumble when he came to the word pray 'pray,' and found it written p-r-a-y when it should have been writ en p-r-e-y? Calling the attention of the House to the fact that this Democratic petician from Holyoke had lined himself with the political sharks against the wishes of his own party in the City of Brockton, he said: "Th Socialists are not now in the majority of the city government at Brockton. But enact this measure, and they will

be in the next election."

MacCariner followed, declaring that the enactment of the measure would set the seal of approval upon a series of lawless acts that amounted to a

conspiracy.

The measure persent to a third reading and will no doubt become a law, but Coultir will fight every fach of ground and will not yield, whatever

While Dowd had the floor, members f the House were moving abou of the House were moving about laughing and chatting. When Carey rose, the dropping of a pin could have been heard. The change was impres-sive, but it is not a new thing. Hating him for his principles, they cannot help admiring his ability, his integrity, and his brilliant audacity. It is a pity that every comrade in the land car have the opportunity to see Carey of the floor of the House.

Referendum Bill Defeated.

The Referendum Bill, providing that my act of the Legislature must b submitted to popular vote on the peti-tion of fifty thousand citizens, which the Socialist members supported, was slaughtered by the old-party majority, who would not like to have their acts equired to run the gaustlet in such

The Senate, as expected, defeated the Brakemen's Bill, which Carey in-troduced and our three men forced through the House. Partly to redeem itself it defeated also the bill to allow romen and children to work overtim mills and factories.

Baymond, the merchant of whom wrote last week, named the Senator who asked him for boodle. The Senate rommittee on investigation has abso lutely refused to permit him counsel and from the opening of the hearing acted as though they desired to make Raymond the culprit instead of their colleague.

Our good friend, Comrade Mailly, is in Massachusetts. He was called to the bedside of his mother who is lying dangerously ill in Haverhill. At his Howell, which was to have taken place later in the year, was performed last Friday, Representative MacCart-ney, as a Unitarian minister, offciating.

ManGartney Dangerously Sick.

As I write a telegram is received an nouncing that MacCartney is down with pneumonia and that the chances are against his recovery. The news has subdued the comrades profoundly, for our member for Rockland is warmly loved and respected.

MacCartney's dates for this week at Charleston, East Bridgewater, and Northboro will be filled by State Secretary White, who speaks also at Brockton, Handelph, and Fail River. Carey spoke fast week at South Boston, Hightandville, Leominster, and Roslindale, and during the coming reek will be at Waltham, at South losion again, and at East Dedham John W. Brown spoke at Fall River a few days ago and comrades write in the strongest terms of the success of the meeting.

Comrade Hayman, who has been elected Assistant Secretary and Organizer, has been confined to his home in Haverbill by sickness, but expectto be able to-attend to-his duties

picule on July 4 are going in good shape, and a large crewd is assured. Open-air meetings everywhere are be-ing well attended and the movement in in a good state of progress. D. & W.

SCABS BRED BY COLLEGES.

The Products of Capitalist " Culture."

Yalo Students Serve az Striko-Broakers "for a Lark" .-- President Hadley Refuses to Rebuke Thom-Other Instances.

"NEW HAVEN, Conn., May 14 .-About thirty Yale undergraduates to-day joined the strike breakers em-ployed by the local trucking companies to take the places of the teamsters who went on strike Tuesday. This is the first time that competent help has been found by the trucking companies, and the undergraduates are deriving a good deal of fun out of driving the beavy trucks about the city. "Yale men to-day have been loading

and unloading freight at the railroad yards for the wholesale companies and will continue in greater numbers tomorrow. The students are doing this for a lark, but the trucking companies say they make most satisfactory driv-ers. The manager of the Smedley Company, all of whose regular drivers are on strike, say that Yale strike breakers do more loading and unloading than twice as many regular truck

Since the above dispatch appeared in the capitalistic newspapers, President Hadley of Yale University has replied to a request of the local Trades Council by refusing to make a public appeal to the students not to act as strikebreakers, stating that the university rould maintain "its normal attitude of

Capitalist "Culture." This incident, not the first of its tind, is a fine illustration of the sort of character and culture that is pro-duced by the great universities maintained by the gifts and endowments of the capitalists who pose as philan-thropists with the millions wrung from labor. These contemptible products of capitalist mis-education who are being fed and clothed and housed by the workers of the world while they learn to conjugate Greek verbs and play football, think it a great "lark" to aid the capitalist in crushing the workers, to take bread from the mouths of werk-ing-class wives and children and hope from the hearts of the oppressed. In these universities the sons of the capi-talists acquire the "culture" that despines labor and sneers at the woes and wrongs of the world.

Other Instances.

And the result of this capitalist en vironment and capitalist education is that our great universities are coming to rival the detective bureaus as strike breaking agencies. Two years ago stu-dents from Beth Low's Columbia Unidents from Seth Low's Columbia University took the places of strikers in the machine shops of New Jersey. Later, students from the same institu tion replaced striking ushers in Nev York theatres. And only a few weeks ago students from Rockefellar's Chicago Universty performed the same dastardly mission, in reference to which the "Toller," of Terre Haute, makes the following comment:

"An example of the shameless and number products turned out by the verage university was afforded in the ave students of the Standard Oil Uni versity who took the places of striking firemen on the great lakes. These pampered dudes showed their cowardice by returning to Chicago after makng one trip to Buffalo,
"There is a striking contrast between

the college graduate of this country and those of the "effete monarchies of Europe," where the students side with the workers in their struggles agains the political and military powers,"

ARRUAL FIGHIS OF THE WEST SIDE SOCIAL DEMOCRATS

The tenth annual picnic of the West Democratic Party of New York will be held on Sunday afternoon, May 24, at Mejerdierk's Rock Cellar Park, Gut. tenberg, N. J. Cars for this point can be reached by any New Jersey ferry, All trade unionists, Socialists, sym-pathizers and friends are cordially invited to attend. Music, dancing, prise bowling and shooting, and other at-tractions will belp to make the day enjoyable. Admission will be ten cents at the gate.

ANOTHER GLASS WORKERS' LOCAL. Comrade G. Theimer of Richmond Borough has just organized the glass embossers and engravers in this city This new organization will be known as Location. 3 of the Amalgamated Glass Workers' International Association. They have elected their officers, who were duly installed by the Advis ory Board of the Glass Workers, con sisting of Locals 28, 25, 30, 32, 34, 38 and 43, and meet on the first Tuesday in the mouth at the headquarters, 157 Bleecker street, opposite Mills' Hotal

KISHINEFF-ONE ACT IN A WORLD-DRAMA OF CRIME.

Kishines has been so clearly placed, the identity and the motives of the real criminals so plainly revealed, that none who care and dare to think need fail to understand.

The men whose hands were actually reddened at Kishineff hated the Jews. They were inspired by racial prejudice and religious fanaticism. But they are not the real criminals. They were mere blind and dumb tools in the hands of others.

Plehve and Pobledonosteff and Nicholas and the landlords and manufacturers and merchants and bankers who stand back of them do not hate the Jews as Jews. They will not refuse to dine with a Rothschild nor will the Rothschilds refuse them a loan to-morrow if they guarantee a antisfactory per cent.

It is the Revolution that they hate and fear-the Revolution, which means thought in the brains of the toilers, which means the end of antagonisms among the oppressed, which means the beginning of the end of oppression and class division in every form.

The working and thinking Jews of Russia are a menace to the government and to the sanctified wrongs of tithes and rents and interest and profit for whose perpetuation the goverument exists. If they would work without thinking, the strong arm of the law and the military would protect them in their right to exist in misery. But this they will not and cannot do. Ostracized and isolated as Jews, as exploited toilers they have learned or are rapidly learning sympathy with their fellow sufferers of every race and every faith and teaching it in turn to those about them. That is why the government gave the signal for the

Kishineff is a new St. Bartholo mew's day, a dastardly blow aimed by the powers of reaction at the life of the future.

But it was not only designed directly to intimidate the Jews who form so important an element in the revolutionary movement in Russia and elsewhere. It is part of a larger policy, a consistent policy of the international ruling class.

The Christian peasants and artisons who, at Plehve's hint, went out and murdered their neighbors are no less exploited and oppressed than the Jews. They are only more ignorant and therefore more easily ruled.

They suffer. They live on the verge of starvation all the year, for the profit of the propertied class. Their sufferings must breed discontent and resentment. It is the policy of the rulers to keep them in ignorance, to cultivate their prejudices, so that, when their resentment must burst out it can be directed against their fellow sufferers and away from their op-

That is not a peculiarly Russian policy. Anti-Semitism in Austria or | rule!

The responsibility for the horrors of | France is the same in origin and in purpose. Nor is the Jew the only object against whom such blind prejudice is turned. Even in our own bosstfully enlightened country, we can see the powers of propertied society. though the press and other agencies, always busily fomenting prejudices and antipathles among the workerssetting white against black, native against foreigners, now cultivating

PRICE 2 CENTS.

hatred of the Jew, now of the Catholic, now of the Chinese, now of the negro, now of the Spaniard, now of the Italian. In the ridiculous daggerand-dynamite somances that our New York dailies have been giving us under the name of news in the last few weeks, the same malign purpose of capitalism is to be traced.

It would be idle for us to spend words in denunciation of the Kishinest murders or in condolence with the victims. Enough words have been given to that, when no words are adequate.

Nothing is cheaper than denunciation and condolence. All official and propertied Christendom condemns the crime and expresses sympathy with the sufferers. That does not bring the dead to life nor does it disturb the Czar's peace of mind. He knows where are the real sympathies of the rulers and owners of the world. He has been their partner—the partner of American as well as European respectability-less than three years ago, in committing still bloodier outrages in China for no less infamous ends. If ne should send Grand Duke Boris over again next week, he knows the distinguished guest would again be entertained at the White House and on Fifth Avenue and the ghosts of Kishlpeff would not mar the feast.

There is but one power that Nicholas and partners in this guilt fear. It is the same power that the Kaiser fears, that the Bothschilds fear, that the Morgans and Rockefellers fear. It is the foe at whom their blow was struck-and vainly struck, for it will recoil against the appressors in the

That foe is the revolutionary movement. It alone can sincerely protest, for it alone has clean hands, not stained with the blood of Chinese, of Filipinos, or of Borrs. It alone will be able to put an end to massacres and to the legalized massacre called war, for it knows no divisions of nation or of church, knows only the outraged right and the growing might of the world's workers.

Not as Americans to Jews, but as workingmen to workingmen, we say: Remember Kishineff! Remember all the crimes of the rulers! And by your sincere and unwavering and fearless international solidarity render such crimes forevermore impossible!

Against the reactionary cry of, Down with the Poreigner! we raise the cry of revolution: Workingmen of all countries unite! You have nothing to lose but your chains; you have a world to gain. Down with all class

FOR THE DAILY.

Special Meetings of Publishing Association and Conference.

udited Report of Globe Fair to Se Presented Boxt Week-Account of Pledges and Contributions.

The Daily Globe Conference will hold a special meeting at the Labor Lyceum, 64 East Fourth atreet, on Friday evening, May 22, at 8 o'clock sharp, to receive the report of the Auditing Committee upon the ac-counts of the Fair. All delegates should be present.

The Workingmen's Co-operative Publishing Association will hold a special meeting at the Labor Lyceum on Monday, May 25, at 8 o'clock sharp, to hear the report of the Auditing Committee, the special committee elected to devise ways and means for raising more money for the Glob-Fund, and to elect a successor to Sec retary Butscher, resigned, member is requested to attend.

All members in arrears for dues shares are hereby notified to pay up at or before this meeting.

Comrades who have made pledges are requested to forward money on ac count by mail or bring it personally to the office. The fund so far has about \$12,000 in cash and it behooves all comrades to belp raise the amoun required for a daily paper as quickly as it possibly can be done.

There are still a few district organi-sations of the party which have as yet not made complete returns for yet not made complete returns for dekets of the Daily Globe Fair; such organizations are organizations are urged to make prompt settlements for balances due, so that the books of the Fair can be

closed completely. Strict compliance to these requests will be appreciated by the Secretary. A pledge of \$5 has been received

from John Rausch, bringing the total pedged to \$7,080.50.

THE PARTY'S EMBLEM. In the state of New York, on account of retain provisions of the election laws, the octalist Party is officially recognized under em is the Arm and Torch, as shown Socialist Party (or Social Democratic in New York) should not be confused with the so-called Socialist Labor Party. The latter in a ring ruled organization which develops all its energies to two parposes. First, to disrupt the Ancialist movement said ninder the Socialists who carry on the lattic against capitalism; second, to malign and injure the trade-union succession.

THE SOCIALIST VOTE. The Socialist Party (the Social Democratic Party of New Yorks has passed through its executed general descion. Its grawing power is indicated and its speedy victory for-shadowed by the great increase of its valo as shown in these figures:

"ORGANIZE! ORGANIZE! ORGAN-IZE!"

This is the headline under which the New York "Commercial Advertiser" prints a genuine "propaganda editorial" addressed to the employers of the city-and of the nation. The words but strike the keynote of the time. The must do it. They cannot help themselves. Rampout individualists though they may be, the buttle is on and organization is imperative.

They have organized openly now for the lockout and the blacklist. The day is past for fine phrases about the right to work or the right to run one's own iness in one's own way. The em soyers frankly declare that they propose to deny some obnoxiously indelpendent-minded mechanics and labor ers the right to work. In organizing for this purpose they have signed way to their s attenable" individual rights to run their own tandonsees in their own individual ways.

There is every reason for workingmen to privice in this. Every man who thinks at all has long known, though not all dared to say it, that war was already on between the capitalists must be fought out. We shall fight the better for having no hypocritical pretenses of peace on either side. An enemy in the open is easier to whip than an enemy in ambush.

That the employers have had to orgamise is an cridence of what the workingmen have accomplished by organtzation. That the employers have to make propaganda against Socialisa and trade unionism is evidence hor far the education of the working class has gone 'forward on those lines and how much they have extued in strength by it. Every employers' anpast progress and a halp to the future progress of the militant organises

Organize! Organize to think togethe and to fight together for common defense and for united advance. Fight against reductions and fight for gains Fight at the same time always for final and complete emancipation. The
two battles—that of the unious for immediate gain and that of the Socialist
movement for the absolution of wageclavery—do not conflict but supplement each other. Fight to win, and
to win all; doing that, whether this or
that skirmish be a victory or a defeat, final and complete emancipation. The

the line of battle will move ever for ward and the assured triumph will soon be in eight.

The Bussian government, in the pre-

amble to the document in which it announces the virtual ameration of the Chinese province of Manchuria, states that Russia and China have been friendly neighbors for over two centuries and have a common frontler of three thousand miles; that interference of strangers in these mutually friendly would be sure to disturb them, and that therefore Russia thinks it her duty to guard against alien interfence especially as affecting Manchuria, where she has sacrificed thoucands of lives and millions of mener so pacify the country and restore the Chinese lawful authority. Illiauwkills the Chinese, who have supplied most of the lives and money marrificed, are howling for semeone to come and extricate them from the embraces of the too affectionate Bear. How familiar it all sounds! Just so the good capitalists have always maintained the most friendly relations with their employees so long as the latter remained doctie under exploitation and therefore consider it their sacred duty to guard against any interference in these idyllic relations by the wicked agitators. Between the Bear of Petersburg and the Base of Reading how strong an

When our capitalist "reformers" to the North talk about the horrors of child labor in the South it is well to remember that Mayor Seth Low, who may be taken as an excellent type of their species, is a stockholder in the company which owns the Massanchusetts cutton mills of Georgia, in which the latter of mere babes is coined into profit for him and the Northern and Southern capitalists associated with him.

uraine likeness. How they love us!

And how they hug the life out of us

MORE "SOAP-BOX" AGITATION.

The plan of agitation and prenaganda which is being put into effect in Michigan under the direction of State Organizer Lamb cannot be too warmly recommended. It is worthy of imitation in every state, and if it can be carried out so effectively as it seems to be in Michigan, certainly in many other states, with smaller area and more numerous cities and towns, it could be done with far greater case.

Briefly, what is being done in Michican is this: Every city, town, or viilage in which, even though there is as yet no local of the party, a few or even one or two willing workers for the cause are to be found, is counted as a "station" for the "soap-box campaign." About a hundred and fifty such stations have been listed. These have been divided into six circuits, geographically arranged in accordance with railroad or trolley lines or other means of travel. The comrades at each station agree, whenever a speaker is sent them, to make the preliminary arrangements for his meeting and to bear the expense of his railway fare from the preceding station and of his entertainment during the period of his stay. The large number of stations makes the intervals short, reducing the expense for the comrades at each point and enabling the speaker to cover five or six statious each week instead of losing time between meeting places. One speaker is sent over each circuit and when the first round is completed

each speaker can be shifted to another route. The wages of the speakers, aside from the expenses which are borns by the local comrades, are paid from the funds of the state organiza tion, the older and stronger locals rightly contributing to build up the party in new fields. The speakers employed are such as are willing and able to work for moderate pay and to "rough it," going into strange towns experienced local workers can rander. arranging street meetings for them-

nelves.

In considering the advantages o such a plan of work, the small expense in proportion to the number of meetings held and the amount of literature distributed is not the only thing to be taken into account. To our way of thinking, the quality of the speaker who are likely to be sent out for such work and the education that they will get in the doing of it is a most important point. We Socialists, as well as other people, are prope to over estimate the relative importance of our great men-or, to speak more strictly. in appreciating the work of the great men, the well known orators and lecturers, to disregard the work of the common soldiers. We need both. But n we had to choose between them, it is the common soldiers and not the famous leaders that would be found indispensable. The trained and eloquent speaker, able and accustomed to address great audiences on important ec casions, does work that the sear-has agitator cannot do, undoubledly. But the very fact that he is a professional

speaker and must, in order to de his

sort of work well, be samewhat with-

drawn from the ordinary experiences

of proleturian life disqualifies him for

them for the more finished argumes and more impressive elequence of the make fatal sam; his mistaires do Striherm and his work does incalculable

It is unfortunate that the soap-box man is never decently paid and never half appreciated. That is a part of the great sadness of life. The splendid thing is that he is willing to work without adequate pay and withou recognition, just for the sake of the work. Most good work, of whatever sort, is done on that basis.

So let us have more of the soap-box men. There is plenty of material fit and willing to be used, plenty of mer who know why they are Socialists and can tell why in a way that will command aftention. Give them the chance to work. And try not to starve them or work them to death. But if we mus starve them and work them to death, let them at least have the satisfaction of knowing that the process is so we organized that the cause is getting the fullest possible bonefit from their sac rifice.

An Ohio comrade criticises our article on "Steel Trust Prosperity" as foloes:

"You write: 'Left over, \$133,000,000 in the hands of the masters, as tribute for the privilege of working with means of production which they (the means or production which they the workers) had themselves created and hept in repair.' My criticism is that the materials, supplies, etc., were as usual undoubtedly produced by workers other than the ones using such in crect-ing and for repairs, and not in the em-ther of the Steel Trust. The noint that ploy of the Steel Trust. The point that I wish to make is to pretest against the prevalent fashion of crediting all surplus values to the men in the immediate employ of the firm, whereas it in justice belongs to all the tollers who have directly or insirectly con tributed to it."

What this comrade thinks we have done is just what we have not done. The analysis of the Steel Trust report was made in exactly the same way as the analysis of the census statistics of manufactures in last week's issue. By naing the fallacious method to which he refers we could have made much more startling figures.

The \$133,000,000 is the surplus value actually produced for the Steel Trust by its employees. The surplus value created for other capitalists or for the same canitalists under other corporate names by workers engaged in producing materials afterwards purchased by the Steel Trust and used by its em ployees-this is an entirely asparate matter. So far from exaggerating the extent of the exploitation of the steel workers, we have kept very much within the limits of truth.

CHILD LABOR.

Special Agent Wandby of the Depart most of Labor Says Its Extent For Surpasses All Official Figures.

Seventeen hundred and fifty thou send—one million and three-quarters— boys and girls between tan and fifteen years of age are at work in the mines and factories of the United States, as cording to the startling story of child labor written by Special Agent Wil-liam S. Waudhy of the United States Department of Labor for "Lesile's Monthly."

Wandby's authoritative statemen of facts evokes this editorial commen as an introduction to the article:
"These true figures form as serious a
menace to our political future as any
which exists. The following article is certainly reliable and quite as dispas-sionate as it is well to be in the face of conditions which may properly be called appailing."

From this article, which is plant fully illustrated with photographs, se cured despite the systematic opposi-tion of employers of child labor, we quote, in part: "Child labor of the past and child labor of the present are two very different problems. In the first instance the child was not considered ance the child was not con as a 'emge earner,' but was sent intthe milis, the mi es or the factorie for the purpose of learning a trade. Nowadays the child is sent into these hives of industry to become an integral part of a machine and as such is looked upon with no personal regard whatever. The employer has no inter-est in the youngster's welfare beyond what his productive capacity will bring forth."

Referring to personal observation in the mining industry Mr. Wandby

"Truly breaker in a well chosen arily granter is a well chosen name; those boys are well broken."
And yet their employers have the hardbood to chaim that 'these boys are happy and well pald,' drawing 5 cents per hear for their daily wage! Surely they would be far happier at echool, with their fathers despite. Surely they would be far bappier at achool, with their fathers drawing a fair day's pay for a filir day's work. According to the report of the super-intendent of the Pennsylvania Bureau of Mines for 1900, there were employed in and at the anthracite coal mines boy workers as follows: Slate pickers, 20,-498; drivers and runners, 10,177; door

boys and helpers, 3,128, an aggregate of 34,008 in this industry alone."

Buggesting legislative limitations as a partial remedy for the child labor evil Mr. Waudby says:

"The labor organizations generally favor a limitation of the factory age to sixteen years, with education strictions. Tinkering with this prob-jem cannot be carried on forever. The social conditions require a therough overhauling. The insufficiency of the reward of labor is absolutely one of

WHEN THE ENJOINER IS ENJOINED.

LABOR'S CRITICS.

"I believe in labor unions," said the College President,
"But I think I could improve upon their raies.

If with what the masters chose to give, the members were content;

And patted him, like brothers, where his back bone ought to be.
And said. Fray take our job for what you'll get.
For our rights are non-conflicting in this country of the free—
We're just as free to starve as you to sweet?

Till the mesters is starm cut down the rate;

I they welcomed in apprentices to so work on the cheap—
Why, then I think trades unions would be great!

If they strained their every nerve to turn out place-work by the hear,

se few and slight restrictions, which are well and winely meant.

They should strike in white kid gloves and patent-leather dancing shoes,

If they handed the non-unionist their toots,

I approve of labor unions!" said the College President

For that is such a naughty thing to do

And not like endpary Sesh-and-blood.

That go he may be always in the right.

THERAHOUT IS TAIR PLAY.

The second strike of engineers in the Chlenge stockyards brings out an

the Chicago stockyards brings out an interesting story. When the men struck, they wanned the union scale of 57% cents an hour and eight-hour shifts. They agreed to allow three preachers—the Bev. Dr. W. M. Lawrenca, Bev. Myron, W. Haynes, and Bev. Father E. A. Kelly—to sit is indigment of their claims. The minipartal matternature and an interest to the contract of the contract of

verial gentlemen sat and sat until they were eatisfied that they had fixed vhings. The men were awarded 30 cents an hour and 12 hours work per

The arbitrators asked \$1,000 apiece

for their work of sitting four hours a day for twelve days—an average of ever \$20 an hour, or \$20 per sit, half of which was to be paid by the em-

ployees and the other half by the em-ploying nackers...
At a meeting of the stockyards men

At a meeting of the strokyards seen a motion was adopted to disregard the bill sent in by the arbitratous and to award each of them the wagen they had fixed for the engineers. The total of \$14.40 was ordered paid to each arbiter, the unions to pay half—\$7.20. To make seen the indicate would be much the decision, resolutions were ordered drafted, engrossed and forwarded to each of the arbitra—Giovaland Citi-seen.

"I believe in labor unions," said the Bishop to his flock,

"Travided that they do not go too far:
For the violence that, beyouts and does injury to stock:
Is only fair in military war.
Let nation threaten mation (if the fast's smaller size)?

Let them righteously marned and merder too! But uniquiets should moves let their angry passions rise,

And take little mincing steps to min their ends, f they'll behave like sentionen, of course I'll not refuse. To be among the stanchest of th ir friends.

I approve of labor unions," said the Bishop to his flock

BUT UNION MADE GOODS.

It W God to souges. It is Injune | turb the court's best laid plans. But

The air is full of injunction. It is injuurties elmple, injuunties guaples. It is injunction monosyllabic and in-junction polysyllabic. If you want to

without punishing men for murder and robbery. But we could not get along without enjoining men from the pur-suit of liberty. The courts save us from without ourselves. Left to ourselves we might get justice too fast. So we submit our get justice too fast. So we submit our souls to the courts. The ceurts say: Go alow, very slow. The courts say: Don't ge at all. For liberty does not seem impossibly far shaed. And we seem dangerous near its protectorate. Liberty' would be very perilous for somebody. The semebody with something that does not belong to him. So we must not be believed to say within we must not be allowed to get within halling distance of liberty. So we cry to the courts: Save as from ourselves. And the courts save us. The courts

enjoin. I saw a men who loved himself. I told him he should not love himself. And so he stopped himself in time. I anw a man who loved his wife. Yes who loved his wife and children. Tes, his family and many families. Yes, many families and all families. This man was surely a madman. Love was capable of making any man mad. The truer his love the madder the man. And madness is a menace to dollars. aspecially dollars that are stolen. This is not a world for love. It is a world for dollars. So the court restrains. My madman is enjoined. He is admonished against love. Love will do for gods, angels, children and the in-cane. But nothing but dollars will do for the man. Dollars indeed prove the man. So the court's effect is published. Love alinks shamefacedly back to the nursery. The court is happy. It has

nursery. The court is happy. It has saved the race again. Yet the race is never saved but it gets lost again. No sooner have the saviors stopped their business of sal-vation before the disintegrating devils have resumed their work. After the courts have patched up a legal peace a lawloss bether bulge rebursts the faulty than. The courts are never able to complete their case, They tinker away at it. They get it about where it seems to them to belong. Then the roof falls in or the foundations cave. Then a cyclone breaks across the cometry. Than some polsoned meat is delivered at the door. Something, anything, appears to dis-

A MAN OF SORROWS AND ACQUAINTED WITH GRIEF.

By Peter E. Burrowes.

and cake parties, by Americans. Capi-What can you do if injunctions will not enjoin? If the injuncted will not be enjoined? What can you do if incussed with strawberries. Let the American, who has the reputation of accomplishing his pleasures as serious-ly as any mass on earth, give a little of his unmortgaged mind to this most verious question on earth, the istor position, as it is now determined for se by the capitalist.

The native American has not been accustemed to link himself consciously with this laker question, except when as master he was at the master's end of the chain and a negro was at the other. When white slavery was dispossessing black alavery the Ameri-can was linked with this labor question again, is a manner that may be called New Yorkly, as the keeper of a big combination weekshop and bdard-ing house for immigrants to come and awent in for the benefit of the natives. In the present capitalistic stage of the labor quastion we are all get-ting linked with it; just as the negro was linked fifty years ago at the lower end, with considerably more chain coming, and more odds generally in

wealth production by which a small and diminishing number of persons have the power of constraining free contract people to continue at work a certain number of surplus hours every day, creating surplus values.

Proft-mongering is the comparative-iy harmless twin of commercialism. But proft-mongering is not a creative vice; it is only the vice of transferring things aiready created from one pos-sessor to another, seither adding to nor diminishing the sum of social wealth. But capitalism is the procrea-

tive power for commerce.

The capitalist takes the dollar, half; which is the profit of a commodity sale of yesterday and puts it into a place where it will call for more than the late sale consisted of as commodity by half a dollar; that is, it will set the mills agoing for a dollar's worth of commodity; and the to-morrow after; for 150 cents worth.

world to exchange, that is social labor. Of course, people do not make a practice of exchanging or laboring for these labor crystals or commodities as mere dilletanti; but because these ommodities embody the experience. the organization and the wants of men, in the labor of men, they are use and necessity, they are wealth and exchange; they are power and credit. They are part of us as we are of them in society. Society not only makes them, but has given birth to the individual's want for them. When they materialize as measures for exchange with other exchangeables the thing they measure is the amount of socially inspired and socially directed labor that the exchangeables contain. How nocially acquired, organized habit there is in them, how, social intellect and fitness of erve, muscle, and brain power of the nen who made them.

Anywhere, along this live line of

value production there is rosm for some sort of a parasite; but upon the primitive labor force, the spine of it all, the capitalist is the arch parasite. He fastens himself upon his victim as if he spoke thus

to Laborer: My friend. By a great revolution which it is unnecessary, and also onite difficult for me to explain to you, you find your-self living in an age wherein buying and selling are about the only rela-tions subsisting between men. Now what do you want to buy? What have

Laborer: I have nothing to sell. Capitalba: Well, then, you must die ecause I own all the estables and I shall nart with nothing but for sale or exchange. But, hold; let me see, My poor America. I loved you once. I'll tell you what I'll do with you! Tell

Laborer (falling on his kneed): Hiesa

you, my father, I am thine. Now, what shall I make for you? Cupitalist: I want a lot of curiery, ornaments and watches and

wheels, doors and things for houses and all sorts of clothes. You must make them very cheap, as I do not want them for myself. I only want to sell them. I will give you the equivalent of your labor, with a proper return rapital. laborer joins a thousand and

goes to work for his bose parasite who ofts in an octagon office having as many pay and delivery windows as there are nides to an octagon. After working for a year the inhorar fine historic full wanting the history disbimself still wanting the things, the want of which first sent him to work want of which first sent him to work is the factory. Somehow or other he found that, though occasionally his wage was lacrossed at the pay window, it always happened that combining else increased at one of the buy windows. And somehow or other it had been revealed to him that year that the things he first set forth to his capitalist friend to be his own wants were the ware thought. wants were the very things that as was making for that espitalist friend, who rightly declared that he did not want them for binnelf, but to did not want them for himself, but to nell them. And strunger yet, he found, on observing the buy windows that the customers always turning up there were his own follows of the factory. It was a tremendous bastle. America was never mightier. The laborer was desailed at the greatness and glocy of it. But come to look at that over which and out of which all the bustle and glerifeation came; it was only his

To the author for writing met to the editor for publishing the fine article, "The Right Busis of Socialist Organization," in The Worter of May 10, aincese thanks and compliments from "F. A. SORGE.

The agitation against the modern I things, the commodities that a fool had wage master is one that cannot long been making to sell to himself. Come be sustained in the spirit of ice cream to look at it, he notes by certain peculinrities of visage that what he thought talism is too great an outrage upon fair play and the "int" who runs it, in the octagon is only one and the same large or small accious, is too great a man turning ground eight times—the menace to any democracy to be dis- | capitalist. This wonderful man who set labor to work for labor's wants price of the triple luxury, is one solid man with a face for every day of the

week and one ever.

Labor is dazzled with the wealth sprung up around him since he began to make things for the man who did not want to use them, but only to sell them; since he began to labor for things because he wanted to use them amself and did not want to sell them: since he brought his labor force into the market to sail it in exchange for money wherewith to buy for his perpetually maintained wants only. Labor is dazzled and gazzled to find out the difference between this and slavery. Let us see. Slavery is that same sort of relationship between men and men

or relationship between men and men-which formerly subsisted between any-ages and nature. The savage brought an imperative need to nature. If na-ture had wherewith to supply that need the savage was satisfied and went free for a senson. The class of men who are the surplus value makers brings an imperative need to the surplus value monger. But the value monger, have monger. But the value monger, havmonger. But the value monger, hav-ing accurate a governmental immunity for this crime, refuses to satisfy them more than just a little, which be takes out of the resources made by the vic-tim, and so compels labor to come every day with that same imperative want; and every day to create new surrolus values in return for just so. surplus values in return for just so much satisfaction of want as will not leave any freedom to stay away from slavery to-morrow.
Such old terms as "Roing in business

human race which capitalism has in-augurated. It is not for margine, it is simply for surplus production that the capitalist is in the field. He is in the commodity: and the to-marrow after profession of the to-marrow after the contains the one thing valuable in the contains the one thing valuable in the will keep hound at his feet, though every government and democracy on

carth were destroyed for it.

The victim in the foremon feeds and clothes and houses himself according to the standard of living permitted to labor, according to the average poverty of the world; he also by that fore-noon's work feeds and clothes his wife and provides for the wants of the and provides for the wants of the children—the children who shall cheapen himself to his master later on. It is not commercial or bank phrases the capitalist is in the hattle for. He is in it for this man, to get him and hold him, the producer of surplus values, the surplus producer of values—the victim of the century.

This workingman alone in this see.

This workingman alone, in this age of highly evolved socialization, is thrust backward to be alain by the literalization of individualism. None but the laborer is suffered to work for himsubstance there is embodied in the primitive basic of them—that is the narrowest natural limit of soil, the animal and nerve, muscle, and brain power of the men who made them. now dominate economics and gove ments, to go sutside the gates of the ments, to go entside the gaves or medity's organization, there to be smitten alone by that civilization which has left individualism a century behind, outside the prison cell and the inhorer's life. None of our friends but this one life. None of our friends but this one man is ever permitted to taste and hister blessings of competition without that making sure of his beating the competitor. This is the only man in whose miscrable lot is embodied the defeat which all those who are making competition a sure thing by concealed weapons escape. This is the man who stands always behind the last man driven back, the man receiving the last blow, the man impelled and impulling blow, the man impelled and impelling ever back. Upon this man's breshed heart and scarred humanity the whoels of capitalism and rest for the axes on poor America. I loved you once. I'll tell you what I'll do with you! Tell me now, what things do you mostly stand in need of?

Laborer: Well, I want houses, elothes of all sorts, cuttery, wheels, watches, ornaments. I want everything. I have nothing at all. watches, ornaments. I want strepthing at all. It is the world iniquity of us at!." He capitalist: For the sake of our common history, and the parriotic days we spent together in school, you shall come into my factories and work for making some into my factories and work for making some to have a day making some to the mails with the vices of governments who had been tried in the balances and found wasting, upon him, his home, inid the social iniquity of us all." He | ing thereon. found wasting, upon him, his home, his field, his little children, came the desolation; upon him was laid the iniquity of all. He bore our size. And if it were that rulers had to fight their way back through the evils they had done, and cut down, an the battle field, evils they had sown, and thus through blood win back the nations

> chastisement of our peace has ever been upon him." "A man of sorrows and acquainted "A man of sorrows and acquainted with grief." In the just he was the accident armed for death or glory in battle as far as the definite call of the war god went forth. But capitaliam tie of sure defeat for one man and this is be. All the cast off weapons of retreating isdividualism are onst upon the laborer; he sinks under the curse of a dead philosophy and a cruel prac-tice; and is bearing new, for a little longer, the whole burden of our failing civilization.

lest peace and presperity; this man was armed to do the fighting-"the

As a producer the worker of to-day is stripped naked. There is nothing in the way of implement in the modern system of large production small enough to be bought, owned, or used by one man.

As a working brain he is blighted: specialized to a bair's point; automatic, monotonous, incessant, intensified; his thoughts are frayed as in a revolving storm to loose shreds.

As a consumer, there is no much more cant up by the mutiplied powers of labor, he farse better than of old; it is true the very dags cannot be kept out of their abare of such an increase

of wealth as the past century has pre-As a buyer his power ends a little

beyond the point where he because a producer of the surplus. Capitalism is not in business to mere-

Capitalism is not in business to mare-ly exchange equivalent morey with laber fer what in produces. It is in business to draw into the bonds of sur-plus production as many persons as it can hold there with a market. Obviously therefore capitalism is not a stay-at-home issue. Its own population at home cannot be its sufficient field of exploitation. A world market is the salient demand, a foreign policy the first wire pulled by capitalism. But there are capitalism abroad, as well as at home, and it is a great feeling game most of the time, where to market our products. The wisdom of statecraft which

means generally to keep everybody and everything waiting as long as you can, is maddening to the capitalist whose wheels must go round. Though he can sweat labor, he is seldom a man of affairs; he cannot match the old world crooked statesman. And so be finds from many causes that the world market will not buy as fast as wheels go round. Therefore, as of old time, all the blundering and incompetency of the capitalist, all that he lost by not gaining, all that he thinks he lost be-cause he wanted it and knew not how to get it, must be balanced by reducing what he offers as the equivalent to laber. His slave produces more and is paid less; the foreigners are not buy-ing, banks are going under, bankers defaulting, and legislatures and politi cians demand more bribing; the com-modifies are lying on the shelves and the wheels go round. The apots on the sun then produce a crisis. And this laborar who has filled the world with goods, which no sufficient number of foreign marketers or home marketers will buy; and which he though he be in rage, cannot buy himself; and, though he be a man starving or dying, must not take, for the property he has created is a more sucred thing than his mortal extremity; this laborer muspay for every default, even for the spots on the sun. And when capitalism must pass through an economic for a reasonable return on the investment," or "lavesting my money in industrials where it will yield something
more than the bank rates of interest."

do not fit the fierce warfare man at the man of sorrows and some appropriate to an over stupidity, the liborer has to
pay for all this in his own body. He
is a man of sorrows and

The foreign market which, when it works, brings glory and riches to his muster, brings Jana, Chinamen and other modest eating people to compete with him for lower wages. In every step of his success as an employee he takes a step down in the scale of present manhood and of hope for future; and for every step his master falls back, he falls back three. In it not, therefore, true that the

labor question cannot be discussed in the spirit of an ice cream and cake

America collectively considered-"A man of sorrows and acquainted with

THE SOUTH AFRICAN LABOR SITUATION.

British Capitalists "Rather Welcome" the Distress of the White Workers of the Rand Because It Will Facilitate introduction of Chinese.

The London dispatches on the South African labor situation throw a brilliant light on the workings of capital-Ism. A disputch of May 16, for F stauce, says:

"The importation of Chinese labs-into South Africa was decided upon is principle some time ago, but no definite plans have yet been formed regarding the number to be imported, nor the con-ditions to govern the importation. Colonial Secretary Chamberlain and the big firms of the Rand are in agreement that no other solution of the labor difficulty is possible. At present half the stamps at the mines are idle, because only 50,000 Kaffirs are procurable when 150,000 men are required. As a consequence, the conditions at Johan-nosburg are daily growing worse, and business is slack. flocked there at the close of the war but they were mable to find satisfac-tory employment, and discontent is rife. This suits the Rand magnates, who are loath to accept the sole responsibility for introducing yellow labor, and hope that the prevailing paralysis of trade will soon lead to a popular demand for the importation of even the 'hated Chinese,' so that the mines may be set working at their full capacity,

A special to the "Evening Poet" of

the same date mays in part:
"Superficially, the situation of the
South African mine enterprises is extremely unfavorable-in some regards, the worst in years. It should be said, however, that the commercial distress at Johannesburg, which is the chief source of misgivings, in rather wel-comed in financial quarters here" int London, that in "because it is believed that, when the Transvani community really feels the distress which is entailed upon it by the semi-closing of the mines, its opposition to Agintic labor, which has hitherto prowented relter through that recourse, will be abandoned."

The point to be observed is that the ugh that rec-

trouble in South Africa dees not arise from a lack of workingmen. There are thousands of white workers mem-ployed and in want. But the capitalets are unwilling to pay for common labor such wages as white men can live on. Industry must therefore main at a standard and these theu-mands of white workers must be kept in unwilling idleness until they are starred into submission to the importa tion of cheap Asiatic labor, which, in turn, by the force of intensified com-petition in the labor market, will make it difficult or impossible for them to re sist the gradual reduction of their wages and their standard of living in the years to come. It is no new thing that the distress

of the working people should be "rather welcomed" by the capitalists, who can afford to walt without profits some times in order that hunger may tighten the chains of their wage-slaves and render their future profits more secure.

-From the number of strikes now taking place, it is evident that the working men don't know prosperity when they see it.-Brie People

John C. Havemeyer seems to have been a little rash in challenging the trade unions of Yonkers to present their side of the questions: Shall em-ployers be permitted to conduct a lawful business in a lawful way without the dictation of walking delegates from irresponsible and lawless unlons? and Shall employees who refuse to join a labor union be permitted to earn sup port for themselves and families by but he has all sorts of excuses for not secting them-didn't intend to debate but only to let the uniquists talk if nion, but only all combined, and so forth. All of which is wise in John C., because, however he may phrase the question, the discussion would be bound to get down to the real point at -Capitalium verms Socialismand he is on the wrong side.

How York City.

The South Brooklyn Division, com prising the 7th, 9th, and 12th Assem bly Districts, held a well-attended meeting in Concordia Hail, 385 Pros-pect avenue, on May 15. Comrado Peters, the Division Organizer, rep dered a report of the work done in the division since the last meeting held in January. The report showed that the action taken at that meeting had been carried out only in part on account of the inactivity in some of the branches. South Brooklyn however, is now much stronger, having a membership of 125, an increase during the five months of Comrade Fraser spoke on the severa methods of agitation. After his remarks a motion was made recomm ing to the branches that they lay pur ticular stress during the coming cam-paign upon house to house agitation, making a systematic canvass of each assembly district, and apportioning to each member a portion of territory to be covered, and to be reported upon.
Comrade Peters spoke on the coming campaign, and suggested that the campaign be finished with a large half meeting. No action was taken, as it is too carly to judge how we will stand financially before the close of the cam-paign. Courade Cavanaugh, in speaking of methods of raising money, said It is the most difficult and most object tionable problem with which we has tionable problem with which we have to deal, and yet it, cannot be ignored if we are to do say effective work. By increasing the membership there will be a corresponding increase in the in-come from dues, campaign lists, picuics and entertainments. The delegates to the Kings County Committee were in-structed to move that balf of the amounts collected on the campaign lists. amounts collected on the campaign lists

GENERAL COMMITTEE.

At the special meeting of the General Committee of Local New York, B. D. P., held-on Saturday, May 15. Comrades Kanely and Abrahams pre-siding, Comrade Cantor was seated as a delegate from the 18th A. D., in place of Wissner, resigned.

of Wisaner, resigned.

The sergeant-at-arms reporting neveral delegates present without cards, it was decided that they be sented at this meeting but that hereafter the rule requiring all delegates to show cards in good standing be strictly adhered to. cards in good standing be strict hered to.

The report of the special con-

on local re-organisation was made a special order of basiness and embraced the following recommendations:

"That an enganizer be elected for Local New York from the membership per week; and that negotiations opened with the State Committee have the Organizer of Local New York also act as State Organizer, in which case the sainty, shall be \$18 per week and he shall have an assistant to at tend to the routine work of the office.
"That the office of Financial Secre-tary, distinct from that of Organizer,

"That the Finance Committee be abolished

"That the officer of all the officer and members of the Executive Committee be declared vacant and a new election be hald farthwith

"That the Executive Committee of Local New York have full charge of all matters pertaining to organization, agitation and finance of the local, subject only to approval or rejection by the General Committee.

"That the financial secretary, record-

ing secretary and treasurer be full members of the Executive Commit-"That the Executive Committee take

steps looking toward, the ultimate re-moval of headquarters to a more con-"That the Executive Denumittee

meet at least once a week. "That a committee of three he plected to report at the next regular meeting of the General Committee two or more names of comrades competent to fill the office of organizer, and that

this committee be authorized to cor-respond with comrades out of town. "That the General Committee adopt he following order of business: Election of chairmen; reading of minutes; report, of Credentials Committee; adnission of new members; communica tions; agitation; organization; report of Executive Committee; repor standing committees; reports of spe-cial committees; roll-call; unfinished

'That hereafter the meetings of the General Committee be held in the club-house of the Workingmen's Educa-tional Association at 206 East Eightys'xth street. "That the regular meetings of the

miness; new business.

General Committee be held once a month.

"That the delegates of Local News

York to the coming city convention be instructed to move for the election of a City Campaign Committee with sepaj-rate funda." The recommendations were taken up seriatim and concurred in, with the ex-ception of the last which was laid over

until the next meeting; it was ther moved and curried that the report be received and adopted as a whole.

As these recommendations necessitate changes in the by-laws of Local
New York which can only be effected

by referendum vote, they were adopted as recommendations by the General Committee to the sub-divisions and delegates were requested to move the necessary constitutional amendments in their district meetings. The following comrades were nomi-nated for the office of Organizer: Field-

man, Gerber, Butscher, Frank P. O'Hare of Kansas City, Hanford, Spargo, Chas. R. Martin of Toledo, Fred Schafer of Brooklyn, Bock, Kanely, John Collins of Chicago, Gei ger of Cleveland, Theodors Debs, Boudin, Hannemann. Several of these comrades who were present declined verbally but were informed that they would be notified and must reply by

Comrades Hillquit, Mayes and Kane ty were elected a committee to cor-respond with comrades nominated for the office of Organizer and to suggest the names of and correspond with other comrades whom they may think suitable for the office. The committee was instructed to inform all candidates for the office of the fibancial condition of the local. Nominations for offices declared

vacant were made as follows: For the vacant were made as follows: For the Executive Committee—Schlueter, Editin, Obrist, Phillips, Abrahams, Solomon, Ehret, Mayes, Rubinow, Cohen, Paulitach; for recording secretary—Cassidy; for treasurer—Ortisal and Ramm; for controller—Obrist and Springes; for seegeant-at-arms—Bock, In each case a large number of other In each case a large number of other comrades declined and many of the nominations still mandling are of comrades who were not present and therefore could not be asked whether they

were willing to accept.

The next regular meeting of the Ganeral Committee will be held Saturday, May 23, in the Labor Lycoum, 64 East Fourth street.

YORKVILLE AGITATION.

A general meeting of the comrades of the Torkville districts with dele-gates from sympathetic organizations was held in the W. E. A. Clubbouse inst Snturday: Wm. Ehret presided and John I. Cohn acted as secretary. Besides the 25th, 28th, 30th, 32d, and 33d A. D., Wift's were represented the Young People's Cipb: Social Dam Young People's Cinb; Social Damocra-tic Society; Fengt, Bestatumas Verein. Br. 2; Brotherhood of Carpente's, Lo-cain 308 and 518; Cigarmakers No. 141; Arbeiter, Marnacether; W. S. & D. B. F., Br. 34 and 158. Full discussion was laid on means of incressing the party membership, extending-the association of the party-ments, and on preparations for the party-

press, and so preparations for the campaign. Committee Coim. Reichert, and Orland introducing the three subjects respectively. The following resolution

omically and politically, to deliver

erushing blow to the working class and to organized labor in particular, Labor cannot afford to stand idle. We

call upon all workingmen to close up the ranks and help to make as perfect

as possible the political machine of the workers, so that it shall be able to withstand the attacks of organized

capital. In order to put into practice

the sense of this resolution, we hereby instrucet the Vorkville Agitation Com-

mittee to call a mass meeting, not later than June 15, of all the S. D. P.

with several good speakers to explain in detail the urgent necessity of join-ing the S. D. P."

ing the 8, D. P."

Comrade Orland spoirs on the coming campaign, pointing out the difference between the deceptive "reforms" offered by the old parties and the pro-

gram of the Social Democratic Party.

fromded upon the distinct interests of the working class. The members as-sembled piedged themselves to assist in a systematic distribution of litera-

ture and the arrangement of propa-ganda meetings and to secure earlier

and larger contributions for the can

paign fund.

Comrade Reichert spoke forcibly on the use of the Socialist press and the meeting resolved that more energetic work should be done to thing the

"Volkszeitung" and The Worker to the attention of all working people and, eventually, to establish our English

daily paper.
The delegates of the Social Demo-cratic Women's Society presented a resolution, which was adopted, re-questing the National Committee to

advise the Socialist members of stat

and local legislative bodies to intro-duce and vigorously advocate meas-ures providing for the extension of the

suffrage to women, on equal term

It was reported that at the naturali-

at was reported that at the Baturali-mation bureau opened in the Clubbonse on March 1 over two hundred applica-tions had been received and instruction given and more are expected. The work will be continued till July 1.

OMAHA, Neb., May 16.—The State Local Quorum of the Socialist Party of Nebraska at its meeting of May 14

adopted the following resolutions:
"Whereas, Comrade Walter Thomas
Mills, in cutering into an agreement

with a so-called Propaganda Club, has infringed upon Section 4, of Article 6,

gives a state with ten organised lo-

cals sole jurisdiction over the wor

of reganisation and propaganda in said state; and

"Whereas, Comrade Mills being duly notified of his position by Local Omaha and asked to cancel his en-

gagement, refused to do so; and
"Whereas, Local" Omaha passed

resolution condemning Comrade Militan a violator of the duties of a com

rade as well as an official of the party;

"Resolved, That we, the State Com-mittee of the Socialist Party of Ne-

branks, endorse the resolution passes

"Resolved, That copies of these resolutions, as well as resolutions passed by Local Omeha, with com-

munications, be sent to locals of the state to be acted upon and sent back to us; and be it further "Besolved, 'That 'a' copy' of these

resolutions be sent to Comrade Milia

the National Committee, the Socialist press, and the State Committee of Kansas."

The following communication was

"Dear Comrade: — Whereas the action of the State Committee of the state of Ohio in attaching a local mat-

ter to a national referendum, which serves as a comment thereon, is in violation of Section 2, Article E, of the national constitution; therefore be it "Resolved, That, we, the Local Quo-

rum of the State Committee of Ne

brasks, berely protest against the counting of the Obio vote."

BELATED PROTESTS.

WHO WILL DO YOUR LAUNDRY WORK!

I. X. L. LAUNDRY TOTAL LEIST.

By John Bemer Crosby.

In economics the term "classes" means groups of the population which are distinguished from one another by the amounts of money they possess or control. The "apper" classes comprise those persons who have the mosno matter whose money if in sorting out your classes. The "middle" classes, who are described by the cheap patriots of election-time as the "bone and sinew of the countries the "bone a try," (presumably because those means possess no independent intelli-gence), comprise that bulky mess of well-meaning insulty whose members get their political "beliefs" (as they rously call them), from old-party demagogues; their religious "bellefs" from their ancestors; and their ideas of social usages, relationships and at tire from designing manufacturers, sifted first through hired writers on fashions and etiquette. This elegant and celebrated "mid-

class constitutes that shadowy group known to benighted renders of capitalist press as "the public." which is implied a neutral, d tacked, almost allen, army of nobodys in-particular,-neither' "capital"

is no such thing as an element of so-clety at the same time identified with other elements as "consumers," separate from them as "pro-rs," Their identity may be more obvious in the one aspect than in the other, but it is not more real nor more

This "middle" class is the ignorant duested class; educated as the stee In the stockyards is educated—to fol-low a leader (selected by their ma-ters) into the chute, there to be hit on forehead with a large hammer "leader" slips aside at the could of the chute, and, after renewal or his bribe of good foed and good treatment, renews his infidelity to others of his fellow-creatures who would rather believe in an enemy than in a friend any time—for why, heaven only knows! These middle-class peo-ble are great for "culture"—which they buy teady-made in the forms of awk buy ready-made in the forms of awa-ward furniture, fashlonably "hand-made" (by the ton—sleepy literature in slenzy hooks—shoddy copies of good pictures and good copies of had hee; they are "educated" enough to know that it is not good manners to drink their soup, but when it comes to matters o, any importance, questions matters o. any importance, question of large public concern, they are the ittlest of the little. They don't know what the "balance of trade" means,—believing that we, as a nation, are most prosperous when we send abroad more in value than we get back—the "balance of trade in our favor"; they don't know what "tariff" means, be-'leving that when other countries ship goods bere, which we tax upon arrival 'the foreigner pays the tax' instead of adding it to the price he charges us: these ignorant-educated people don't know anything about economics.—believing, as little children might, that "the interests of the employer and the mployee are identical," when they are o more the same than the interests o the cut and the mouse, no more similar than the opposing aides of a hom trade; they believe that a "fair wage" means just enough to live on in toler able comfort, when in truth there can not, in the nature of the case, be any

respectable institution, the church "so commonly alluded to as the "lower" clust; the people who do the vitally recessary things of the world—without

wich thing as a "fair" wage, because

wages must be less than the value of the employee or he would not be hired -while, on the other hand, if he re-

elves less than his value how can I

e "fair?" They know nothing at all thont Socialism.—plenty of them (with lictionaries in easy reach) even now

'elleving that in some way or other it dguifes some sort of antipathy,—not thowing that it comes from the Latin word meaning "companionship," that is, brotherhood. Does that idea, in a

Unnee to the fundamental doctrine of fema Christ? It might almost seem

quickly into starvation. These are the people who weave fine carments for other people to wear; who cultivate and manufacture fine food-stuffs for other people to get the out from; who erect and decorate fine palaces, for other people to lie awake nights in devising new ways of steal ing various public and private proper ty,-the "working class" even elects deliberate law-perverters to the judi-ciary, whence they may apply the accurge of dishonest application of the ish tolerance they exist pulso so fur some crisis of industrial dispute over the simplest of natural rights.

Now, in which of these three classes do you think there is, at this moment. you think there is, at this moment, most class-consciousness—the most inlie feeling of class-distinction, and the least desire to eradicate it?

THERE is the class-consciousnes

is mushy and decayed with THERE is the class-complacency

that knows no sense of emulation, be-cause it regards itself as already

crystallized that it shows itself in akirts and coat-tails held aloof from contact with poverty, and intelligence, nobility and Christianity of spiritalike; a class-consciousness that denies the finger-clasp of sympathy and help class-consciousness that looks at the rest of the world with the drooping

fant insolence with the curling lip of ignorant scorn of its betters.

THERE is a class-consciousn

ready-to-hand-beside other nort is vague and debatable.

The class-consciousness of the rich, and the cheap imitation of it among the cheap imitators of the rich is, we earnestly regret to say, about the oul class-consciousness thus far develope class-consciousness thus far developed in this country. It appears that in this respect, as in several others related to ethical economics, we are far behind the old world.

The people who affect the most poignant horror of "class-consciousness," and utter the loudest and most resonant caterwauls against it, are the very people who have the best devel oped case of it-and almost the only ones who have it at all.

Let them stop their nonsense. But they won't. If ever the "middle" class wakes up

to its ridiculous insignificance in every respect save as a breeding farm for formless beings whose incurable thoughtlessness is an affront to their God,-and if ever the working classes learn that their interests are diametrically opposed to the selfish interests of their employers, and will be until they become their own employers, under a really Christian state like come out, class-consciousness, the bug-a-boo of the "cultured" nursery, and the hope of the industrial reformer, who labors in God's most tangled vine-yard,—then will class-consciousness no longer be,—having cured itself by cultivating itself up to the point of extinction by natural process

principle.

But it seems, at this juncture, to be Fate's expedient.

1 Note.-The above is an extract from a powerful leaflet published by the Christian Socialist League of America, Room 22, 155 Washington street, Chientitled "Class-Consciou The Only Grave-Digger for Class-Op-pression" in which the writer points out that the class-consciousness of the working class "will ultimately knock hundred or \$3 per thousand, As our "Christian Socialist" comrade

seems to see that an economic system in which brotherhood will be possible can only be attained by the class-conscious action of the working class we do not see any reason why he should confuse his Christianity with his Re-cialism, as these are two separate things. In passing it may also be well to point out that the thing that determines to which class an individual belongs is not so much the amount of wealth be possesses as the source of his income—whether it is from the sale of his labor-power or the ownership of capital. This distinction is important for the reason that many of the middle class have very little money, but their immediate interests are nevertheles opposed to those of the working class because their small incomes are de rived from petty exploitation of labor—Editor of The Worker.]

WESTERN NEW YORK.

Local Rochaster Taking the Lead i Putting an Organizer in the Field for Five Months at Least.

ROCHESTER, N. Y., May 17.-Local Rochester is making prepara-tions to put an organizer in the field in Western New York. Thus far quite little money has been collected for thi purpose, and it is expected that many comrades who have the move ment at heart will also contribute. We ask for two hundred comrades or sympathisers to donate \$2 each and this will be sufficient to pay the or ganiser's expenses and salary for fiv

Rochester has taken the liberty of do ing the work itself. The organizer will work in the cities of Utics, Syracuse, Watertown, Elmira, Corning, Auturn, Batavia, and Buffalo, doing skill and general fidelity all named cities. In this connection all comrades in the above named cities Organizer of Local Rochester, George W. Misché, 93 Adams street, at their carliest convenience, saying just how much they will be able to raise to-wards the necessary amount. Many of the Rochester comrades are dozat-ing \$5 each. If all the comrades will ing as each. If an the comrades will do their slare, we can keep an organ-izer in the field even longer than five months. It is the confident expecta-tion of Local Rochester eventually to keep an organizer in the field the year round. For the present it is the in tention to have the new organizer spend an entire week in each of the above named places and then repeat

until the five months are up.
On June 21 Rochester will hold its annual picule at Staudemeler's Riffe Range, north of Seneca Park; take North St. Paul street line to pavilion. There will be speaking by Comrader Bach, Lippeit, and Sleverman, and probably others. It is hoped that all comrades and their friends will attend as the proceeds will be used for cam pulgn purposes. G. W. M.

ABOTHER PAPER CRISUZZALE.

local organ, and knowing that none of local organ, and knowing that none of the daily newspapers have the courage to present these ideas, hereby offers apace to the Socialists for the discus-sion of their cuit. If there is any-thing good in their belief, the cause of eternal truth will be benefited by its presentation. If there is that that is bad, free thought and candid discus-sion will show it up and truth need sion will show it up and truth need not fear.—Trades Record, Columbus

—It is usually the people who don't work themselves who are most alarmed about other people not working under Socialism.—Eric People.

IN CONNECTICUT.

Comrades and Sympathizers Galled to Action.

Engnemia and Palitical Canditions Are New Most Favorable for Socialist Propagands-A Strong Effort to Be Mede to Organize the State Thoroughly for the Campaign of 1904.

NEW HAVEN, Conn., May 17.— Plans are prepared and being carried into effect for a more thorough propa-gands of Socialist principles in this state than has ever been undertaken before. The time is certainly ripe for auch work. Connecticut workingment have had their fill of strikes and lockouts, boycotts and blacklists, clubs and bayonets, injunctions and bostile legis-lation and court decisions, at the same time that great franchise companies have been getting every favor or privi-lege they cared to signify their desire for. There has been no interruption of these instructive experiences for the last three years; on the contrary, the fight grows sharper and fiercer.

Conditions Most Favorable.

workers at the hands of the capitalists and their hirelings is having its effect slowly, surely. This is shown by the increase of the vote of the Socialist Party in the state election last fall and in the city elections of New Haven and Hartford this spring and by the ready attention which is given to our speakers and our literature. The local "union labor parties" which aprung up within the last two or three years in several cities have fulfilled their mission of accustoming the workers to the idea of independent political thought and action, while the attitude of the Socialist Party, which, while carefully refraining from abusive or unreasonable antagonism, yet made no compromises with the nev parties, but kept right on with its own work, has given it the respect of their sincere adherents, who are grad ually coming to recognize that local movements founded on temporary ex-pediency must give way to the national and international party of the working class, whose policy is guided by consistent and fundamental prin-

Decision of State Committee.

The State Committee met on May 10 with Comrades Mahoney, Klausner Toomey, and White of New Haven Delmei and Anderson of Meriden O'Connor of Bridgeport, and Morse of Hartford present, the last named pre-

siding.
Correspondence was received from the National Secretary, Locals Staf ford, Naugatuck, Derby, and Hartford, Comrades Clarke of New York, Critch-low, Bersford, Wheeler, and J. W. Brown. The Secretary's report showed receipts since April 26 of \$18.30; stamps issued, 159; on hand, 274. The Treasurer reported balance, April 20, \$25.12; received, \$18.50; expenditures, \$11.37; balance, \$32.25.

\$11.37; balance, \$32.25.

Reports of delegates showed all in favor of engaging a State Organiser during the summer and confident of raising sufficient funds. It was voted to engage J. W. Brown, beginning June 1. The Secretary was instructed to issue a call for contributions to the organizing fund, addressed to locals and members of the party and to or-ganizations and individuals in sympathy with the party. It was voted to request the locals to contribute one-half of their local receipts for dues; and to call on the National Committee

for assistance also.

The referendum on National Head-quarters was canvassed and report or-dered transmitted to the National Secretary. Fifteen dollars was appro-printed for national dues for May. The Secretary was instructed to send a cir-cular letter to Derby members.

A Call to Action.

In pursuance of the instruction given, the State Secretary has issue the following appeal, which, it is hoped, will meet with a hearty re-

"To the Locals and Members of the Socialist Party of Connecticut. "Comrades:--We all must realize how necessary it is to organize and prepare for the national election of growth of the Socialist Party in other states, has aroused a wide-spread in-

the unattached Socialists and to direct this Socialist sentiment to the support of our party. If we do not, they will certainly fall victims to Hearst and

the 'radical' Democracy.

"This can only be done by employing an organizer who can devote his whole time to the work. Comrade John W. Brown has volunteered to do this and the State Committee has en-

gaged him, to begin, if possible, on June 1.

"The total expense will be about \$100 a month, of which the income of the State Committee provides only \$15 a month. We voted therefore to rea month. quest the locals to donate one-half of their local dues and also to issue subscription lists and a call for contribu tions from members and friends of

"If the request for dues is compiled with we expect to be able to send the

Organiser without charge to towns where there are no locals.
"We must raise by subscription about \$70 a month. Comrades, let us go to work. New locals will soon make the work easier and we shall lay sould be considered for the metonal." a solid foundation for the national campaign. Circulate the subscription lists at once and take action on this question at your next meeting.
"Fraternally submitted,

"WM. R. WHITE, "State Secretary."
229 Exchange street, New Haven. To Vie With Massachusetts.

Connecticut Socialists may look just across the northern state line to se what we have to win by energetic action now. Connecticut has lagged far behind Massachusetta. But we are now moving forward. Let a stronger impetus be given during the next few months, to get the now scat-tered forces organized and the in-coherent elements brought into order. Then we shall see the Socialist move-

ment of Connecticut advancing with accelerating speed and momentum and shall soon take our rightful place beside our ... sister... .commonwealth, where Socialism is no longer regarded as a vision, a fad, or a passing crass, but recognised by the oppressors of Labor, as their releatiless and unconquerable foe and by the workers as their sure and spiendid hope.

PROM HEADQUARTERS.

I have communicated with the Utah

[Extracts from National Secretary Mailip's fourth report to the National Committee, dated Omaha, Neb., May

for \$106.70 worth of stamps, forwarded from this office last July, the proceeds of which, when wold to the locals, were by agreement with the National mittee, to cover the expenses of National Committeeman Edler, who com-plained, he you know, that he had not been paid what was due him. On the other hand, the books in this office show that nothing has been recieved here in payment for the stamps for warded: This brings the matter of non-payment of Comrade Edler, within the jurisdiction of this office, and the National Committee has therefore the right to demand either that Commide Edler be paid what is due him or that the National Committee be remuner ated for the snamps forwarded. In reply to my communications upon the subject as outlined above, the Utah State Secretary admits that Comrade Edler haw not been paid, and that \$61 should yet be paid him, although Comrade Edler, in his fetter to the Na-tional Committee, acknowledged re-

celving only \$20. In addition to this, the Utah State Secretary notifies this office that Mur-ray E. King was elected National unitteening from that state at the recent convention, a. full report of which I have not yet received, while Comrade Tawney insists that the convention was illegal and that he considers himself National Committeeman. As the correspondence on both these matters is rather lengthy, I have notified the Utah State Secretary that I shall bring the whole matter before the Quorum at its next meeting.

SUPPLIES. I have had to suspend the printing of the new edition of "How to Organize" until the quention of location of headquarters is definitely settled. The new edition of "Why Socialists Pay Dues" is going rapidly and received a wide circulation. . The demand for due cards and, applications continue brisk. I have deferred printing of new reports until I can 'confer' with the Local Quorum at its meeting. The printing of secretaries' books for locals has also been deferred for the same reason.

REFERENDUM. I enclose herewith copy of corre-pondence between State Secretary Critchlow and hypetf, also with actio of Quorum, concerning the method of submitting the national referendum on headquarters to the party membership in Ohio. The sample ballot, as drawn up by the Ohio State Quorum, closed the vote on April 24 and contained also the state referndum upon the question, "Shrift W."O. Critchiow be recalled an a member of the National Committee, for Ohio, for fullure to carry out th: principles and practices of Socialism?"

The notification from the North 100- 1 logdecided not to submit the national referendum, as sent out from this office, to the locale in Hat state on the ground that Resolution No. 1 was tine-in-t tutional, was duly referred to your com-

MINCELLIANIZOUS The Eocal Quorum had decided to meet on May 17, but, no. I have aircody, notified you, my trip to Massachusetts necessitated a fostponement until a later date, when I can be present.

The following National Committee-men have not reported their rotes upon Comrade hills' motion relative to the anti-fushion resolutions sent out on April 14: . Lakamp: . Healey: Miller: Fox of Maine; Rachel; Fox of Mos

tana; Massey; Halbrooks; Berger. THE OHIO AFFAIR.

retary Critchiam of Oblo, referred to under the head "Referendum" above, is too long to be printed in full. We sum

Omaha, April & Mailly, noting that the Ohio State Quorum has fixed April 24 as the day for closing the vote on headquarters 'In' Ohio locals, remar by the National Committee. Noting further that a state referendum on the question of reculling Critchlow is sul nitted on the same blank, he says: "I would also impress upon you the ne ressity of keplus the natio involving any question concerning the party in the state of Ohlo alone. The referendum on national headquarters should be voted upon by the locals exactly as issued from this office and the introduction of any other matter into the vote upon the national headquar-ters is liable to cause confusion and: involve a violation of that part of the national constitution which provides that 'All propositions or other matter submitted for the referendum of the party shalf be presented without comment. You will understand that my sole motive in calling attention to thes details is to avoid possible complica-tion and to permit of a full and impar-tial expression of the party's will sponthe national referendum, while observing the mandates of the national con stitution and the National Committee. Dayton, April 12.—Critchiow, enclose

ing sample of Ohio ballo i, declares, that "the vote will close on April 24 as stated, in conformity with the state constitution." He deales that the National Committee voted to close the referendum on May'l or had authority to do so or that it did or had authority to say that a member must have been in good standing on April 1 in order to vote. He says: "We may attach as many state referendums to the nations: referendum as we choose, so long as the national referendum is kept intact and without comment. You may rest assured that we understand the methods of submitting referendums and ingmen whose labor made them millionaires.—Erie People. obtain the expression of the memberahip on any question presented in PATRONIZE OUR ADVERTIZERS.

proper manner for their considers

Omaha, April 14:--Mailty states that sonsulting the Quorum, and adds: "I can only remind you at this time that as a member of the National Committee you voted for May 1 as the date should close. The National Committee acted directly upon this point. It did not do so upon the question of a member being in good standing on April 1 Yet no objections have been made by any member of the Committee to Apri being set as the date. However, made no reference to this point in my previous letter, but only to the date for closing the vote and the method of submitting the national referendum."

Dayton, April 18.-Critchlow sent sample ballots for Quorum members, as requested, and said: "Sending these as you request, I do so because we have nothing that we desire to concret from yourself or the Quorum. But at the same time I desire it understood that by so doing I am not admitting of the right of the Secretary or Quorum to interfere in any manner with our action. While i do deny that right, yet I feel that the best interests of the party will be better conserved by more publicity and I should judge that you agree with me on this point. The National Committee has the right to close the vote on May 1,... They exercised this right and 1, as a member of that body, voted to so do. However, they cannot assume the right to deny any state the right to close their vote-earlier if they so desire. Ohio has a constitutional provision on the point in ques-tion, which is not in violation of any part of the national constitution or platform. The point I raised about membership is a vital and valid one. The national constitution does not define what constitutes a good standing of such a provision the states have that right and especially so under the autonomy clause. We sllow any member to vote on a referendum who is in good standing irrespective of time of initation. The blanks sent you were confusing with our laws on this point and I, for one, desire to eliminate this confusion business as much as possi-ble. You will readily understand that this is simply a question or discussion of a technical point and you need not be alarmed of any animosity arisin on our part whatever."

Omaha, April 20.-Mailly submitted the foregoing matters to the Quorum. He argued that "a National Committeeman has no right to vote to estab-lish a rule upon a national proposition that cannot be applied to his own state as well as all others," and that the decision of the National Committee in regard to the manner of submitting na tional referendums and time of closing vote must hold in all states alike and that provisions of the several state con stitutious or decisions of stat tees can govern only state affairs. He said: "It is clear that it was the express purpose and implied will of the onvention that adopted the national onstitution that nothing whatever referendung that would take the form of comment or inject into the quest to be voted upon anything that, would be calculated to influence or confuse the calculated to influence of his bal be voted upon anything that would iop. It was for this resi

on 'ttel from the referendum the mines of the locals deman ling it. As the Ohio ballst shows, a subject direc.ly concerning the party member-ship in Obio alone has been autualited to them and printed upon the many sheet containing the propositions in-tolved in the national referendum. In my opinion • • • M. L. the Ohlo State Committee desired to supply ballots for the national referendum to each mem-bur, then the bullots should not have contained any matter, o, her than that referring to this referendum." He asked the Quordin To vote on two

"First. Has the Objo State Committee the authority to close the vote upon the national referendum before the date set by National Committee?

"Second. Has the national referen-dum on location of headquarters been submitted in proper form to the members of the Socialist Party in Ohio?"

Work of Iowa and Rossof Nebraska replied in the negative on both propo sitions; Turner of Missouri in the firmative on both; Lorett of South Da tota that the first seemed unimportant, but in the negative on the second; Un-terman of Kansas that the National Committee had no authority whatever

in either matter. Omaha, April 26.-Mailly telegraphed for thirty sample ballots to be sub-mitted to the full National Committee Dayton, April 28,-Critchlow seplied that the State Quorum had adopted

this resc "Resolved, That in order to harmon-ize the party morement and prevent any controversy over trivial matters we hereby instruct the State Secretary to at once notify all locals to keep the vote on the national referendum open until May 1, and to divide the state and national referendums into two separate referendums by cutting the ballot in two parts." :

He stated that the state organization did not concede the right of the Na tional Secretary's contentions, how-ever; that they, ware-"summed" and took the actionstated in order to "satis-fy" the National Secretary; and inaisted "that we as a state have the right to prescribe the qualifications for membership and voting on referen-

Omaha, April 80.—Mailly replied, stating that he mass sure the action taken would satisfy the Quorum and pointing out that personally he had no pointing out that personally he had no choice to act differently than as he had ne, being but an executive officer of the National Committee, charged to carry out its instructions—in this case, to carry out instructions voted for by the National Committeemes from

[If necessary, the two closing letters may be printed in a later issue of The Worker.]

IN PENNSYLVANIA.

Conduct of State Government and of Mine Owners is Still Helping the Socialist Party - Organization Progressing and Good Convention Ex-

PHILADELPHIA, May 19 .- At last night's meeting of the State Committee of the Socialist Party, W. W. Ribl preiding, a charter was granted to a new local at Milivale, Allegheny County. A request for information how to organ-lise was received from Contesville, Chester County, and answered. Communications were received from Read-ing, Utahville, Spring Forge, Lehigh-ton, Pottsville, Cokeville, Milivale, Williamsport, Royersford, Shamokin, Shenandoah, and Wilkes Barre.

The vetoing of the three bills advo-cated by the United Mine Workers and the unsettled conditions in the coal fields, where active union men are be ing blacklisted, are confirming the faith of the mine workers in Socialfaith of the mine workers in Social-ism as the only true solution of the question which arrays the coal operators on the one side and the workers in and around the mines on the other. The testimony that was brought before the Strike Commission will basten the march of the masses toward the goal of industrial liberty. A few more verdicts from arbitration commissions will bring about a political strike that will

chain of wage slavery.

Reports show increased Socialist activity throughout the state. Schuyikili County will hold a convention on May 24, opening at 10 a. m., in Boyian Hall, Mahonoy Plane. Organizer John Col-lins will be there. The comrades should sider it their duty to see that each local in the county is represented.

A report was received from Organ izer Collins. Meetings have been arranged in New Castle, Yorkville, Coal Castle, Mahanoy City, Lost Creek, Girardville, Ashlund, Ceutralia, Mt. Carmel, Shamokin, Shenandoah, Ma-hanoy Plane, Gilberton, New Phila-delphia and Reading. Howard H. Caldwell is making a

tour of the western part of the state. He spoke in Royersford last Saturday evening. Locals desiring dates for Comrade Caldwell should at once address the State Secretary, Franklin M. Sifek, at 1305 Arch stret, Philadelphia. J. C. Frost gave an illustrated lec-

ture at the Labor Lyceum, in this city on Sunday, which was well attended. John Taylor will lecture on May 24 on "The Freedom of the Press." Our ridiculous Governor Pennypacker might be interested in the discussion.
The following communication has been sent out by the State Secretary:

To the Locals of the Socialist Party "To the Locals of the Socialist Party of Pennsylvania—Greeting.
"Dear Comrades:—As previously announced, the state convention of the Socialist Party will be held on Saturday, May 30 (Decoration Day), in the city of Reading. The convention will be called to order at 10 a. m. in Maennescher Hell N. Sixth street.

perchor Hall, N. Sixth street. "The local reception committee will meet and direct to hotels all delegates cho communicate with A. P. Bower, 811 N. Fifth street, Reading, stating the time of their arrival; or delegates may report at local headquarters, 519

"This being the first convention of the Socialist Party as an official party in Pennsylvania—having poiled 21,010 votes in the last state election—and thereby gaining official standing-we hope to see this convention in every way representative of the Socialist movement and one worthy of the ris-

ing political organization of this state."

There will be a parade of the local Socialist members and visiting delegates on the evening of Memorial Day, to be followed by addresses at the principal corners along Penu street by speakers prominent in the Socialist movement.

F. H. S.

TIMELY AND CONVINCING.

At this moment, when the trade unionists of the country are stirred to thought by strikes, lockouts, 'injunc-tions, adverse legislation, and court decisions declaring labor laws unconstitutional, Lee's "Socialist Politics and Labor Politics" is a very timely pamphlet to circulate. It can be had of the Socialist Literature Company, 184 William street, at 3 cents a copy, ten copies for 20 cents, fifty for 85 cents, or \$1.50 a hundred, it is a good plan to follow it up with Spargo's "Where We Stand," which is good popular statement of the So cialist position.

Be yourself.

How many people are you! Hundreds. At the first fork are my parents, at the next my grandparents and then they multiply indefinitely. I

National Platform of the Socialist Party.

[Note.—In New York and Wisconsin this party is officially recognized under the name of Social Democratic Party. The party em-blem in New York is the Arm and Torch.]

blem in New York is the Arm and Twrch.]

The Socialist Party of America in actional convention assembled, rentires its adherence to the principles of International Socialism, and declares its aim to be the organization of the working class and those in synpathy with it, into a political party, with the object of consusering the powers of government and using them for the perpetual of the property of transforming the present system of government and using them for the perpetual party of the property of the

stavery.

The economic interests of the capitalist class dominate our entire social system; the

ion shread and enhance their supremacy at home.

But the same economic causes which developed capitalism are leading to Socialism, which will sholish both the capitalist class and the class of wage workers. And the active force in bringing about this new and higher order of society is the working class. All other classes, despite their apparent or actual condition, are alike interrested in the upholding of the system of private ownership with instruments of westin produce house of the capitalist control of the capitalist covered to the parties which do not stand for the capitalist water of production, are alike political representatives of the capitalist class. The workers can most effectively act as a class in their struggle against the collective powers for capitalism, by constituting themselves into a political party, distinct from and opposed to all parties formed by the proported classes.

and opposed to all parties formed by the propertied clauses

IMMEDIATE DEMANDR.

While we declare that the development of reconcile conditions reads to the overthrow of the company of the conditions of the condition of the transition to Sectalism into depend upon the stage of development reached by the projectariat. We, therefore, consider it of the utmost importance for the Socialist Party to support all active efforts of the working claus to relate its condition and to elect Socialists and activities of the stage of the socialist of the working claus to relate its condition and to relate its condition and to select a such means we advocate:

As such means we advocate:
As such means we advocate:

A WARNING TO NEW READERS.

The party which The Worker sup- | time, giving to the rival organization orts is known in the nation as the Socialist Party. In New York, on account of certain provisions of the elecion laws, it is obliged to call itself the Social Democratic Party; its emblem in New York is the Arm and Torch.

The Socialist Labor Party is an entirely separate and hostile organiza-tion, led-and controlled by Daniel De Leon. It is important that the distinction be made clear, as a study of the election returns shows that the S. L. P. gets many votes not intended for it, on account of the similarity of names. The present Socialist Party was formed three years ago by the union of the old Social Democratic Party, organized in 1897, with the majority Inction of the old Socialist Labor

of 1829.

This Socialist Party or Social Democratic Party polici about 97,000 votes in 1900, with Eugene V. Debs and Job Harriman as its national candidates; in 1902 it increased its vote to about 230,000. The Socialist Labor Party 230,000. The Socialist Labor Party

bout 50,000 in 1902.

Party, which had split in the summer

The leading question of party policy at issue in the split of 1889 was that of the attitude of the party toward the trade unions. The opponents of De Leonism held that the party, as the political organization of the working class, and the unions, as its economic reanization, should work fraternally, though independently, in their sepa-rate fields. The Do Leonites main-tained that it was necessary to "smash" all existing unions.

"smash" all existing unions.
Since the spilit, while the Socialist
Party or Social Democratic Party has
vigorously attacked capitalism and
taught Socialist principles, the Socialist Labor Party, disgracing its once honorable name, has devoted its ef-forts almost exclusively to two ob-jects: First, to hamper the growth of the Socialist Party; second, to attack, undermine, or disrupt the trade unions. The difference between our party and the Socialist Labor Party may be

trade unions with a vigor second only to that with which it attacks us; not content with denunciation, it has even gone into the economic field to form rival unions and scab upon the exist-

by democratic methods, believing that only so can the organization be kept

230,000. The Socialist Labor Party ment and appeals to their intelligent polled less than 35,000 in 1900 and Interest as wage-workers and to their feelings of honor or humanity; the 8, L. P. depends upon abusive epithets, lies, and "binff." This article is intended as a warning to those who are new to the moven

and who naturally suppose from its name that the Socialist Labor Party is a bona fide Socialist organization, or who do not even observe the distinction between it and the Socialist Party. If any of our readers doubt the fairness of our statements we suggest that they investigate for themselvesattend the meetings and read the unpers and namphiets of both parties and thoughtfully compare them. If any-one caudidly prefers the methods of the S. L. P. he does not belong with us and we do not want him. All we desire is that the distinction between the parties should be recognized as it actually exists, and that men who approve of the methods of the Socialist The difference between our party and the Socialist Labor Party may be summed up under four heads:

1. We fight against capitalism all the

WE SHALL SEE.

"There is quite as much concern here over the possible future of an independent Socialist Party," says the Springfield "Republican," "as Mr. Mor-ley and other Liberals display in Eng-land. Yet in both countries this extreme radical movement is very young, and no one can predict with real assurance how it will weather the vicinal-tudes of coming years. Suffice it to say that at the present hour, the puli-ticians of the old parties are constrained to watch narrowly the course of contemporaneous feeling and thought among the wage-carning portion of the population. Certain facts, such as the

lumber struggle for existence and the much greater development in 'munici-pal ownership' programs-in England, incline the observer to the conclusion that the socialistic strength will grow in that country, in the immediate-future, at a more rapid rate than in America, and that there will be a welf-organized and avoived Socialist groupin the House of Commons long before there will be one in the United States

VOL. XIII.-NO. 9.

THE CAPITALISTS POINT THE WAY.

It would be utterly futile for a weekly paper such as The Worker, if for not other reason then the limitations of its space, to attempt to give even an approximately complete summary of the news of labor troubles at such a time as this, so numerous are the strikes and lockouts and the incidents attending them all over the country. The most we can pretend to do is to call attention to the most important general features of this conflict and some of its more striking illustrative details.

That which makes the present state of affairs in the labor movement remarkable is not the rapid and continuous increase in the membership of the labor organizations, although this is very significant. It is not the organization of bodies of men who have never been organized before, although this is worthy of note-especially the deponstrations of solidarity made by an entland unskilled inborers and the growing tendency on the part of the by the consent of this body." rank and file of the better paid work ers to give these less fortunate brothers encouragement and support. Nor is it the increasing aggressiveness of the workers, making more radical demands and making them with a franker and bolder spirit than ever before-rapidly approaching an open avowal of the Socialist position that workers alone should control the industries that they operate-aithough this is very impressive.

Important as are these developments, the most instructive sign of the times undoubtedly is the niarm of the enpitalist class, as made manifest, not in speeches and newspaper editorials nlone, but by a sudden and widespread movement of counter-organization.

In the city of New York this move ment has taken startling proportious. At the meeting held in the rooms of the Building Trades Association a few days ago to form a league of employers of the building trades, no less than .782 such employers were present in person and firms and corporations were represented having an aggregate empital of from \$500,000,000 to \$700,-(80),000. The following organizations were represented: United Building Trades Association, Marlite Industry Employers' Association, Master Carpenters' Association, Master League of Cement Workers, Electrical Contractors' Association, Tile, Grate and Mantel Association, New York Electrient Appuiance Association, Mechanies' and Traders' Exchange, Iron Langue, Employing Plasterers' Association, Holsting Association, Society of Architectural Iron Manufacturers, Employers' Association of Roofers and Sheet Metal Workers, Association of Interior Decorators and Cabinet Makers, Manufacturing Wood Workers' Association, Lighting Fixture Makers' Association, Mason Builders' Associa tion, Master Painters' and Decorators'

Already before this new federation was formed, these employers had been locking out thousands of teamsters, tron workers, and other employees, to prevent them from forming unious

Similar news comes from all parts of the country. This week, for in stance-it is but one instance out of many-we take this item in the very words used by the "Evening Post," one of the most distinctly capits papers of the city:

Smith & Wesson closed their arms factory in Springfield, Mass., last even ing 'for purposes of reorganization,' which is interpreted to mean antagon-Deinval Separator Works in Pough keepsle, employing 700 men, has also closed. The announced reason is 're-pairs,' but it is generally understood that the real-reason is to forestall a de-mand by their employees for fewer

In every state from the Atlantic to the Pacific-nay, at the same time in Europe and in Australia-the owners of the means of production are acting on men who suddenly awake to a realization that the very foundations of their power and privilege are threatened and preparing for one declaive blow to crush the organizations

What is it that these federated em-

players do or propose to do? They profess, indeed, not to be on posed to labor organization in itself, but only to its "excesses" and "tyrorganizations if these were conducted sires and for the advancement of their anything for the benefit of the workers | every point." an against the exploiters they are and

their own business in their own way." But in organizing they severally give for a Hearst or a Cleveland in the up the power of control to their class name of the Jefferson whose memory federation, and so contradict their they disgrace, when they ask us to

boycott as infringements on the per ional liberty of such workmen as remain outside the unions. But in practime they use the lockout and the blacklist-they have long used them secretly and unsystematically, but now they begin to do it openly on a gigantic

They say to the workers: "Your only legitimate interest in our business i in the contract by which you individually sell your only property, your labor-power, to us for wages, and this reases with the termination of your employment. You have no claim upon your jobs and you have no right as a body to interfere in the individual relations between employer and employee," But by their own acts they destroy the basis of this contention for the body of organized capitalists now says to the individual employers "You shall not employ such and such men, shall not buy their labor-power shall not allow them to work, excep

This change of base of the capital ists is not accidental. Accidents do not happen on such a large scale.

Nor is it altogether voluntary on their part. The organization of employers is no more the work of agitators or conspirators on their side than is the growth of labor organizations on ours. Both are necessary results of the absolute opposition of interests between employer and employee.

The workers have been compelled to organize and to fight. Now the capitalists are compelled to organize and to tight back. And they will be compelled to go on fighting till one party vanquishes the other-till the capitalists utterly destroy the organization of the workers and reduce them to such abject dependence as will destroy all the germs of hope and manly selfrespect from which organization might again spring up, or till the workers triumph over the capitalists, not only establishing their own right to organize, but abolishing the whole system of class division and class rule out of which this conflict arises.

We know on which side victory will be. We know that the complete triuniph of the capitalists would be the destruction of civilization itself; and civilization is not going to be destroyed. The complete triumph of the workers means the promotion of all .hat is good in our civilization, the extension of its blessings, now monopolized by a small class, to every memher of society, the opening of hitherto undreamed-of avenues of progress for the human race.

We know that the victory of Labor is assured. We know that it will be won only by fighting out, fearlessly and to the end, the antagonism between capitalists and wage-warkers. We know that Socialism is the way to working-class victory and universal

Let us, then, welcome every event that draws the class lines more clearly. Let us not apologize or equivocate or compromise. Let us demand all and resolve to win, because it is a question of winning all or of losing all.

Let us do all in our power to prevent the enemy from dividing our forces on sion means a posiponement of our victory, a continuance of our sufferings,

When the capitalists demand-on they are now demanding in New York City-that the skilled mechanics 'slough off" the organizations of unskilled laborers and operatives, let every one of these more favored workers reply: "These laborers and operatives are my brothers and comrades. They have rights equal to mine. They suffer wrongs greater than mine. If I turn against them I will deserve that they curse me as a traitor to my class. I will fight as vigorously for the bettering of their condition as for my own demands. Together-skilled and unskilled, high-paid and low-paid-we fight for the working class,"

When capitalist spokesmen seek by insidious methods to divide us on national or racial or religious lines, to set Irishmen against Italians, or Christions against Jews, or whites against blacks, or native Americans against foreigners, let us reply with one voice: "We may be Americans or Irishmen or Italians or Jews or Negroes, but anny." But by this they mean that first of all we are workingmen, oppressed and exploited, and as such we will forget all the quarrels and prejuin accordance with the employers' de- dices that so long put us at your To organisations that do help each other to fight capitalism on

TRACY BILL IS DROPPED.

up their challenge.

The Connecticut Legislature Evidently Got a Scare.

Proposed Measure 4: Pessilze Picketing and Boycotting and Fut Union Funds at Mercy of Capitalist Courts is Quietly Defeated.

HARTFORD, Conn., May 22 .- The Tracy Bill to incorporate trade unions and, incidentally, to make picketing and boycotting pensi offenses and put the funds and records of unions absointely at the mercy of the courts was quietly defeated in the Senate yester-day. The Committee on Labor re-ported adversely, Senator Bradstreet explaining that the measure was no deemed expedient; Senator Tracy, the author of the bill, expressed his dis-appointment, and then, without fur-ther discussion, the bill was unaniusly rejected.

The Worker has, in previous issues, given a full account of the provisions of this drastic reactionary must and it cannot be doubted that to the and it cannot be doubted that to the Socialists of Concenticut, who have spared no effort in calling attention to its provisions, is due the chief credit for its defeat. It is generally admitted that the bill would have been "rail-rended" through if such a protest had not been raised and the old-party lead-ers frightened out of their original in-tentions.

For the present this measure is dead and the capitalists will depend upon the silent perversion of the law by courts and state's attorneys rather than upon open amendment of the law to carry on their fight against labor organizations. But the time is not far off when we shall be putting Socialist workingmen on the bench as well as sending them to make the laws.

STRIKE-BREAKERS

BECOME STRIKERS.

Pinkertons Organizing and Demanding a Higher Scale of Pay for Their Dirty Work.

The men who for years have been used by the trusts to break strikes have decided to form a union of their own. Unless their demands for higher pay are conceiled by their employees twenty-five beats which form the down-town territory of the Pinkerton patrolmen will be left unguarded to-

This afternoon fifty of these patrolmen will meet at 161 Washington street to perfect an organization and formulate the demands which they will embody in an ultimatum to the

men complain that they work seven days a week at a rate of \$1.57 a day and put in daily seven hours of work and six hours reserve duty-thir-

teen hours in all. They demand \$2 a day, with at least one holiday every other week, and re-lief from at least six hours reserve duty during each week.

Fearing discovery by the detectives employed by the agency the men effected the preliminary organization after midnight to-day, and at 2 o'clock this morning declared that they had onverted every Pinkerton patrolman

The men say the agency will be ob liged to listen to their demands, as it takes at least two days to teach nex w to do the work .- Chicago American.

At first glance this bit of news seem only amusing; on second thought it appears profoundly significant. It illustrates the inevitableness of the ten-dency to organization on the part of the wage-workers (for Pinkertons are wage-workers, though employed in treason to their class) and shows how the very measures which the capital lats take to defeat the labor movement work out to the ultimate advantage of that movement. We have seen work-ingmen imported from Europe to force learning to fight shoulder to shoulder with the American for an improve ment of their common lot; we have seen "non-union unions" organised by the bosses developing into bona fidlabor organizations and fighting the hosses; now to see the capitalists' private detectives organizing and threat-ening to strike only adds one more as-surance that the revolt of the workers is irrepressible and is bound to suc-

-American politeness is aptly flederation, and so contradict their they disgrace, when they ask us to the for a Roosevett or a Hanna in the name of a Lincoln who would have buse. The Detroit News-Tri-

BIG FIGHT ON IN MONTANA.

Copper Trust Systematically Attacking Smeltermen's Union.

Political Trick by Which Elected Sesislists in Anaconda Were Kept from Taking Office but a Part of a Little Plan-A Wide-Spread Strike Hot Im

As indicated by the following lefter from a trusted correspondent in tana, the capitalists of that state seem to be bent on forcing an immediate and decisive struggle with the organized workingmen. Of the political outcome of such an event there can be little doubt. The Republican and Democratic organizations have no-where more clearly shown their subserviency to great capitalist interests than in that state. The day of fake "inbor parties," such as Mine Owner Heinze engineered last year, is past. If, as now seems probable, a strike is precipitated by the systematic whole-sale discharge of union men, it will not be confined to Anaconda, but will almost inevitably apread through the state because the whole state now lies at the meroy of the Copper Trust. And whatever the immediate outcome of such a strike, whether through the inspiration of victory or the experience of temporary defeat, the most im-portant result will be to awaken the workers to a consciousness of their political interest and power. There ma not a few ready to predict that if such a strike is forced, Moutana will go for Socialism in 1904.

ANACONDA, Mont., May 18. Shortly after election certain minor officials of the Amalgamated Copper Company began to spread the intelligence" that something of a serie nature was in store in connection with the company. What its nature was no one knew. As this information invariably came from the lips of these officials at only such times as the election was under discussion or the "cat-hop" which followed. It became plainly evident that the success of the Sociation primarily served as a bitter pill for the company politiciano to

The community did not have long to wait, however, Almost simul-taneously with the springing of the "cat-hop" the heads of both Smellermen's Union men and Socialists promi-ment in the respective movements be-gan to fall.

At first only a man here and there was affected, but each day the number grow, until on Monday last about forty men were "released." This was the cause of a general consternation spreading throughout the ranks of the Smeltermen's Union and a special Liceting was decided upon for Tuesday

Up to that time about one hundred men had been summarily discharged-in each case, with but few exceptions, the men being given no other reason for their dismissal than "for cause."

At first the impression prevailed that only those who had been active in the spring election on behalf of the Socialist ticket were being made examples of. Even if this had been so, it was difficult to see how some men had been chosen by the company for discipline. a number having been released who had positively declined taking any active part in the election because of their knowledge of the company's atti-

tude toward the Socialists. As the days went by, bowever, and other heads began to fail of men who had not been in sympathy with the So-cialists, but rather who had stoutly opposed that party, a new solution pany's desire to destroy the unions, root and branch.

It was pointed out that the company figured that If the Smeltermen's Union could be sufficiently weakened by the policy, of, wholesale discharges then the annihilation of the other thirty odd unions' could be accomplished more ensily piecement.

Among those to lose their positions were Dan Leary, ex-president of the Smeltermen's Union, who retired a couple of months ago, and the present mbent, President Joseph Bracken latter's dismissal did not come until Tuesday, the day upon which th notices of the special meeting of the union were printed in the daily papers punishment for having participated h

When the true import dawned upon the members of organised labor in the city, almost to a man the determination was expressed to make the fight, in whatever shape it came, the most desperate labor struggle that Montana has: perhaps, ever witnessed.

-Anaconda alone would not be af ecied in the successful cuimination a the company's policy, victory here only meaning an entering wedge in the effect to annihilate organized labor in every portion of the state. In fact, it would be difficult to imagine how the struggle could be confined to this city, the men employed at the various smelters of the company in Butte and Great Falls belonging to the same ganization as the local men.

The motive for the campany's action is not far to seek. For the past four years every device known to a powerful corporation of the Standard Wil type and its army of paid politicians has been used to capture the executive,

judicial, and legislative branches of

Recent Political History.

Former United States Schafor Carter, the leader of the Republican party of the state, during the campaign of 1900, took that party bodily over to the Amaigamated Company, while the Daily wing of the Democratic party went automatically to the company with the transfer of the late Marcus Daily's holdings of the Amacouda Mining Company to the larger holding company. In that year, United States Senator William A. Clark joined his Democratic forces with F. Augustus Renator William A. Clark joined his Democratic forces with F. Augustus Heinze's multi-headed political organi-zation composed of a "labor" party, the Populists and "independent" Re-publicans, and "Clark vindication" and an eight-hour law triumphed over the Amalgamated politicians.

All of the leading Republican dailes of the state had been absorbed by the Amaignmated and their string of newspapers was extended to every available country publication that apuld be able country publication that could be "induced" or whipped into line.

Then came Clark's absolute sur render to the Amalgamated Heinze stood alone in the fight of c talist against capitalist in the state

politics. The campaign of 1902 was, perhaps the bitterest political fight ever waged in Montana, and almost unique in any American commonwealth since the birth of the nation. The result was indecisive as between the capitalist elements, although nominally the Amalgamated held the balance of power in the Legislature and it was only Heinze's fig' ting qualities prevented him from being legislated

The Rise of Socialism,

During that campaign, however, there developed a new and unexpected political force in the shape of the Socialist movement: In Peer Lodge County, of which Anaconda is the capital, the movement temporarily took the form of an independent labor ticket, and was most encouragingly

In Butte, the Socialists placed s ticket in the field and polled about 1,000 votes. Elsewhere in the state the movement was given its baptism in "first Socialist tickets." Heinze had speceded sufficiently in holding his "labor party" and waning Populist or-ganizations together in Butte to make a abow of stiffight sid Eliver Bow County, is which the big mining camp

is located, polled its vote in his favor. Encouraged by the showing of the Incipient Socialist success in Anaconda and Butte at that election, the Socialists organized for a more determi fight this spring. The specess that folred has already been recorded.

This brought the two opposing capitailst factions fact to face with a new and unexpected contingency from wholly new quarters. Where in the past they had succeeded in befooling the laboring vote and whipping it around the stump at their will, depend-ing upon their respective political ma-chinery for success one over the other, they instantly realized that the immene vote polled by the workingmen of the state was slipping from their grasp and instead of being left alone to fight it out to the last ditch for it dustrial and political control, the workingmen of the state were taking mat-ters in their own hands and would speedily place them both in a state of

abject impotency politically. No sooner was this recognized than both, as if by common consent, began the usual capitalistic tactics of trying aunibiliate the movement by a wholesale discharge of their

In fact, so methodical a channel did their respective factics pursue that the impression, connected with more or less well founded runners to that ef-fect, gained credence that an "understanding" had been reached between Heinze and the Amaignmated, a show of opposition merely being preserved to deceive the public and to keep it o vided. Color to given this impression by two additional facts, namely, that Mullins, the newly elected Mayor of Butte on the Heinze ticket, has gone outside of the Heinze ranks in a nun ber of cases in making his appointments, the men named in these connections being avowed Amalgamated or Clark men; also, that unless an arrangement had been reached between the two capitalistic elements, shrewd politicians declare, neither one would dare to take so tyrannical a course in discharging men, fearing the results o this course at the elections next year throughout the state.

The attitude of the company in Anaconda toward its men proves beyond all doubt that the "cat-hop" in the municipal administration affair was the work of the Amalgamated Company directly and that the actors in the matter are only acting under the company whip.

Mon Imported in Broves.

Men have been flocking into the city in droves in the past ten days who nationality proves conclusively the truth of a recent article in The Wroker regarding the general movement of capitalists throughout the country to break up unionism. These men are en break up unionism.

itrely new to Montana, never having before worked in any of the various and the contact that the contact is the contact that the contact camps or smelting towns, while their general appearance indicates that they have not lived long in any portion of the United States. A majority of them still carry their foreign-made metal values and all have an air of having penevolently assimilated but a small portion of our ways and manners.

The smeltermen are unusually well organized, numbering between 1,400 and 1,500 men at least, leaving but an *By the phrase "cat-hop" our correspondent refers to the political trick by which the capitalists of Anaconda have prevented the elected fleelalist city officials from qualifying for their duties.—Ed.

MacCARTNEY DEAD

Brave Champion of Workers' Cause Passed Away Tuesday Morning.

Bronchial Pneumonia the Cause of life Death after Brief Illness-Massachusett's Comrados Mourn a Loved and Henored Friend--- Current News of the Movement for Which He Lived. BOSTON, Mass., May 26,-Our loved

and honored comrade, Frederick O. MacCartney, Representative of the Rockland district in the Legislature of this state, died at his home early this morning after a brief iliness from bonchial pneumonia. The comrades pourn him most profoundly, for his arnesiness and devotion to the great cause had been proven by his daily life and his character won our affec-tion as his abilities commanded our D. A. W. admiration.

HAVERHILL Mass., May 26.-Representative MacCartney died at Rock-land last night after an illness of land last hight after an inness of eleven days. The actual cause of his death was overwork, his constant speaking and other work for the So-cialist Party in addition to the faith-ful performance of his legislative duties having hastened a breakdown.

MacCartney was serving his fourth term in the Legislature, having been lected in the Backland district in November, 1889, and re-elected by in-creasing majorities each succeeding year. His powers both as a legislative der and as a lecturer and campaign speaker had steadily developed until he had become recognized by the capitalist press and political leaders as a taken press and popularity among his comrades increased with time and no man in Massachusetts was more deeply beloved or more highly respected by his co-workers

MacCartner was but thirty-nine years of age at the time of his death. He had been pastor of the Unitarian Church in Rockiand up to 1800, when he left the pulpit in order to devote his whole time to the Socialist movement, though he remained a member of the Unitarian ministry.

Unitation ministry.

His death leaves a place vacant in
the Socialist Party of Massachusetts
almost impossible to fill. His sincerity,
his love of justice, his devotion to the cause of Socialism, his faith in the working-class movement and in the future of the Socialist Party grew stronger with the years. He gave his life to the cause and those who love the ideal he died for should remember his devotion and revere his memory forewer. forever.

in the Legislature.

BOSTON, Masa., May 25.-There ha ren a ruthless slaughtering of the people's hopes in the Legislature dur-ing the past week. The bill for a con-stitutional amendment to enable cities and towns to establish public fuel yards was one which attracted much attention and whose defeat will come as a surprise to many, though our ex-perience hardly justified us in expecting anything else. To become effective this hill would have had to pass the present Legislature and that of next year by a two-thirds vote and then to be submitted to general vote of the people. At the best, the chances were evidently against it, but many thought that, in view of the recent coal-famine experience, the old-party majorities this Legislature would hardly dare to tote it down. The capitalist interests that would have been affected, how-ever, were seriously alarmed and used every influence to compass its present defeat, no doubt feeling that, should it be allowed to allp through the first time it would be certain to pass next year (for they know Socialism is going

sult of the succeeding popular vôte would be absolutely certain. As readers of The Worker will remember, this proposed measure has been made an excellent means of proneganda throughout the state. Petitions were circulated and signed by forty thousand citizens. Trade unions aggregating fifty thousand members endorsed it. In many town meetings, on the motion of Socialists, the Selectmen were instructed to inform the Legislature that its adoption was demanded by the people's interests.

In the face of such pressure, the Republicans and Democrats in the Legislature have been very timid about on posing it. But when it came to a test, the capitalists gave the signal, their party bosses cracked the whip, and the deed was done. When the bill came up on Thursday on third reading, it lacked the two-thirds vote, and that was the end—till next session, when there will be more Socialist votes.

Carey Delies the Speaker. Carey made nomething of a sensa

tion by charging on the floor of the House that the Speaker had used the power of his position to influence members against the bill. The majority sat amazed at his audacity, for the Speaker has great power under the rules and none but a member of the fearless and irreconcilable Socialist minority would have dared use such words. The Speaker, however, knew that Carey had facts to support his charge, and when pressed for a statement at last brazenly admitted its truth and in a spirit of bravado gioried in what he had done. He said be had at first been surprised and displeased to see how many Republicans were into see now many reputitions were in-clined to support the measure and went to them to learn the reason. He found that they had good ground for fear that if they voted against the bill their constituencies would sent Sociallets in their places next year. He could not blame them for their atti-

such circumstances, to use all his in-fluence to raily the majority in opposi-

On Friday an attempt was made to get a reconsideration, but failed, no less than sixty of the old-party mem-bers, who did not dare go on record against the hill, absenting themselves from the House to prevent its passage

This bill was introduced by Mac-Cartney, who, when the vote was taken, was known to be hovering be-tween life and death at his home in Bockland, Garst of Worchester, Republican, was paired with him, but inadvertently failed to announce the pair. After the roll-call he asked unanimous consent to record his pair and some of the old-party members took the opportunity for a cowardly blow at MacCartney by refusing con-sent. Garst, however, honorably refused to join in such a dirty trick and refrained from voting.

The capitalist politicians think they have won a virtory. Like the Bour-bors, they neither learn nor forget. We know that such a victory for them now means victories for us next fall.

Senate Defeats Labor Bill.

Through some confusion I was made to say, in my last week's letter, that the Senate had defeated the overtime bill for women and minors in the mills. What they did do was to kill the bill which the Textile Workers' Union had ndeavored to have passed, preventing women and minors from working over-time. The absence of such a law has practically negatived the Flfty-eight Hour Law in this state, and for some years the trade unions have been en-deavoring to prevent what was really compulsory overwork in violation of the spirit of the existing law. This rould have been against the interest of the mill owners and consequently it was defeated.

The Anti-Trust Bill.

The Committee on Coal Investiga-ion have reported a bill making combinations unlawful, with the express purpose of striking at the Coal Club, which is a combine of all the coal deal-ers of the state, and in order to escape the possibility of unconstitutionality they framed a general bill covering all forms of trade combinations. It has run the gauntlet of the Senate, has had two readings in the House, and will come up for enactment during the week. It is eafe to say, though, that it will be killed in the final reading. The Boston "Herald" of yesterday has a two-column article on what it terms "radical legislation," saying that the House is driven to this by the Socialists and calling upon the business in-terests to raily for the defeat of the Socialist members. In all probability the point of order will be raised that the scope of the bill reported is broader than the purpose of the investigation and consequently not prop-erly before the Legislature. It it has advanced too far in stages to do this it will be killed anyway.

The Gas-Combine Job.

The time for the proroguing of the Legislature is drawing near and one important measure from the capitalist standpoint is yet to be acted upon—a bill for the consolidation of the gas interests of the state. This bill was de bated in its first stage during the week and Carey spoke upon it. He showed the manner in which the people were going to be skinned and declared that behind this was the great Standard Oil Company, pointing out that the cost of production of oil was 2 cents a gallon and that it was sold for 16 rents. Hayes of Lowell, one of the range of lower, one the found moted sharp-tongued wits of the House, who never misses an opportunity to indulge in sarcasm at the expense of young and quiet members, but has hitherto studiously avoided meeting Carey, was incautious enough to interrupt with a trivial question in-tended to be facetious. Carey replied: "Your question implies one of two things-either my ability to explain, or your inability to understand." nettied Hayes, and he came back with an answer that showed his annoyance, to which Carey quickly and calmly responded: "I thought it might be the first, but now I know that it is the first, but now I know that it is the latter." The House enjoyed seeing Haves get some of his own medicine Hayes got mad, but Carey's eyes sparkled with good humor and he casily parried every thrust till Hayes at last, baffled by the laughter of the House, exclaimed: "Well, of course, ole don't know as much as you "for if the people knew what I know about you, you wouldn't be a member of this House." Even the speaker had o join in the laugh which brought the

tilt to a close. MacCartney's Illness.

This has been a sad week for th comrades because of MacCartney's illness. During Friday night, all hope for his recovery was gone. The doc-tors gave him up, but he rallied and during Saturday there was a glimmer of hone. Sunday morning he spent a good forenoon, but in the afternoon rapidly grew worse, and hourly whave been looking for news of hi death. He lived through the night. however, and at the moment of well constant since Friday, the Socialis cause has been his ope theme. still have hopes that this great chan plon of the people's cause will live long to battle for the workers.

During the week, the State Secre-tary organized clubs at Randolph and

As predicted last week, David Goldstain has withdrawn from the party. He recants his belief in Socialism and says that he is about to publish a book. Let me add that this interesting work will probably reach the public through the National Economic League. These people may exploit others who take them seriously, but those who know them are not disturbed by anything that they may do.

MANHATTAN ELEVATED.

PRICE 2 CENTS.

Over Half Its Gross Income Is Clear Profit.

Under Social Democratic Administration Wages Could Be Raised, Working Ferce increased, and Yet Fares

Redwood to Three Cents.

A few weeks ago, it will be remembered, the employees of the Manhattan Elevated Railway asked for a slight advance of wages, in consideration of the steadily increasing intensity of their labor and the increased cost of living. The company fiatly refused at first, haggled and blustered for a long time, and finally conceded a part of the demands only in view of the rapid organization of the men and the threat of a strike, the result of which, the company feared, might be to arouse even that mass of doclle stupidity

known as "the travelling public." The plea of the Manhattan officials was to the effect that the demands of the employees were extertionate, that the company positively could not afford to pay higher wages, that it would be little short of highway rob-bery of the stockholders, that, in fact, at present rates, the company was making a great sacrifice for the benefit of the dear public in running its lines at all.

A few days ago the company filed with the State Railroad Commission ers, as required by law, a statement of its business for the three months ending March 31. It is only fair to give all due publicity to figures so powerfully llimstrating the public spirit and disinterested generosity of the gentlemen who "operate" the elevated lines.

The gross receipts (including a rela-tively insignificant amount from sources other than fares) for the first tively quarter of this calendar year were \$3,340,163

The expenses of operating the roads and keeping them in repair, including wages of labor of all sorts, cost of fuel and other materials, etc., was \$1,464,-

Out of the belance of \$1,876,033, the sum of \$1816,000 was paid over to the stockholders—a lot of gentlemen who had nothing to do with the operation of the road either as motormen, gunrds, ticket sellers, gate beepers, machiniata, laborers, or in any other useful capacity—simply gentlemen who had the legal right to say whether or not the motormen, guards, and other workingmen enumerated should be

allowed to run the trains Another sum of \$743.572 is charged to "interest and taxes." How much of it came to the community under the latter head we are not able to say, but certainly much more than half went to the bondholders—another set of gentlemen just as useful as the stockhoklers already mentioned, the only difference being in the technical form of their legal right to get some-thing for nothing. The other \$105,461

was held over as surplus. During the nine months from July , 1902, to March 31, 1903, the stock-olders received a total of \$2,718,000 for allowing other people to work and the bondbolders got another million oz

nore. Still more instructive is it to con pare the figures for this period that of the corresponding period, July 1, 1901, to March 31, 1902, showing the progressive tendency in the divi-sion of the gross income between non-producing owners and non-possessing

rorkers In the 1901-2 period the gross in-come was \$8,323,174; in the 1902-8 period it was \$9,103,221—an increase of 10 per cent, in receipts.

In the former period the operating expense was \$4.117.470; in the latter it was \$4.158.704-nn increase of 1 per

In the former period the profit remaining to the company in all forms was \$4,205.605; in the latter period it was \$5,034.517—an increase of 20 per In the former period 157,560,607 pee

sengers were carried at an average cost of 2.6 cents; in the latter, 180,-481,586, at an average cost of 2.3 cents, ANI. SNI, at an average cost of 2.3 cents.

Let the voters of New York City remember, when they go to the polls in
November, what this means: That
under the Social Democratic program
of public ownership for public service. without profit, wages could be raised 10 per cent., the force of employees increased 10 per cent, in order to reduce working hours, and fares cut down to cents, and yet leave a surplus for improvements in the equipment. Is not that worth voting for?

MANILA UNION RAIDED.

United States' Authorities Seize Re cords and Accounts of Filipine. Work-

ingmen's Association. A special dispatch to the New York Sun" dated as Manila, May 21, announces that Attorney-General Wil-fley has seized the records and ac-counts of the Workingmen's Union for con-compliance with the provisions of the act requiring all societies and asse

ciations to submit annual statements
to the insular Treasurer.

The pretense is made that the motive of the authorities is to protect the members of the union from alleged misconduct of its officials, but further explanations show that the real pur pose was to check the political agitaing on against the oppression of Fili-plao workingmen by the capitalists and the coloulal government.

And American workingmen are ex-And American worstoned a propertied to welcome laws for the incorporation of trade unions which would make similar sciences of union prop-D. A. W. | erty lawful in this country.

THE PARTY'S EMBLEM.

In the state of New York, on account of Train provisions of the election laws, the sciulist l'arry is officially recognized under to name of facts; in Persocratic Party, and a emblem is the Arm and Torch, as shown

shove.

The Secialist Party (or Sorial Democratic Party in New York) abould not be confused with the so-called Lober Party. The latter is a ring-ruled organization which dereates all Me susceptes to two purposes:
First, to district the Socialist amovement and shall be suscepted to two purposes;
and injury the trade-union movement, to shalling and injury the trade-union movement. THE SOCIALIST VOTE.

The Socialist Party (the Social Democratic Party of New York) has peased through its second general election. Its growing power is indicated and its speedy victory for-shadowed by the great increase of its vote as shown in these figures:

DEAD ON THE FIELD OF

It is not the comrades of Massach setts alone who mourn at the untimely death of Frederick O. MacCartney. If they loved him better, it was only be cause they knew him more intimately. He belonged to all of us. We were ull proud of him-nay, we are all proud of him and that well justified pride at once deepens and relieves our sorrow

Comrade MacCartney has gone to west in the very height of his powers and his giad usefulness. Since he be eams acquainted with the Socialist philosophy and ideal he had stendily gained in strength as an exponent of the workers' needs and aspirations. To the moment when his fatal sickall his efforts were unhesitatingly and unreservedly placed at the service of the party. The amount of work that be did and the effectiveness with which he did it was a matter of admiration to his friends and his enemies alike-for he had enemies of The battle for the emancipation of the workers was the breath of his life. In his last hours, unconscious of what passed at his bedside, it was of So-

cinlism that he thought and spoke All words seem vain. "Not all the preaching since Adam has made death ther than death." Tet to whom could death have less of terror than to him whose life is given to an object influitely greater than self, to one who has joined "in the only battle wherein no man can fail, where whose falleth and dieth, yet his deed shall still prevail," whose every day of life has helped to incorporate the best of him self in the eternal good of his race? We must all die. We can choose to die as deedless and fearful pobodies or to meet death bravely in the midst of nerviceable life. It is a good choice that this our comrade has made and the one adequate honor that we can do him now is to follow his example as

TALK SOCIALISM.

The New York city campaign will soon begin-for us, at least, though the old parties will put off its opening as long as possible-and some words of suggestion to the street speakers and others who will represent the Social cratic Party will not be out of place. What we have nutricularly to out of empiralism into Mecialism as a

say may very likely be found applionble in many places besides New York City.

There is one great danger that besets our speakers, especially in campaign time and in municipal campaigns more than in larger contests-the danger of giving too much attention to the negative, critical, or destructive side of our work, at the cost of neglecting the positive, synthetic, or constructive phase. Because it is an insidious danger growing very naturally out of the economic conditions we have to deal with and out of our political position as a minority party, a party of opposition, it is well that we should be clearly conscious of it, that

we may guard against it. It is, of course, absolutely necessary that we do this critical and destructive work. In order to win a hearing for our positive propositions for social change, we have to point out the evils of the existing system. In order to lay the basis for an appeal for votes for our comparatively unknown party, we have to show that neither of the better recognized parties deserves the confidence of those whom we address. In order to induce people to consider whether the principles and methods of the Social Democratic Party are not good, we must prove to them that the theory and practice of the Republican and Democratic parties are bad, recite their faults and failures, their sins of omission and of commission. In order to command attention for our exposition of the advantages of Socialism, we are compelled to explain the evils of capitalism, not in general terms only, but in detail, with reference to particular events fresh in the public mind and appealing to the interests and the emotions of the public that we address.

This is necessary at all times and above all during a campaign, when the people are least inclined to listen to discussions of abstract theory and demand something concrete and "practical." But necessary as is the direct and definite arraignment of the capitalist system and of the political parties that support it, such an arraignment is not sufficient for our purpose, It is so easy for us to see and sinte and denounce the myriad crimes of enpitalism, living examples of the hortors of class rule swarm upon our minds so thick and fast, that we are always in some danger of neglecting the other part of our work and, in a mans of negative detail, to loss or leave obscure the central and positive joint of Bocinilat propaganda.

We criticise capitalism, we wish to destroy capitalism, only in order that we may build up the Social Commonwealth in its stead. And when we go out on the street corners to speak. even though it be the night before election, our primary object should be, not to get votes for the Socialist ticket, but to bring people to understand and accept Socialist ideas. If we succeed in making Socialists, we shall make voters for Socialism and voters who will neither be discouraged by present failure nor led away in future years to the support of other movements. Votes cast for our ticket simply because of disgust with the old parties, without positive knowledge and ap proval of ours, are not greatly to be desired; they are likely to be lost as lightly as they were gained and in the most critical time-the time of dawning victory, always more pregnant with danger than the darkest hours of our weakness-such votes are likely to prove an absolute peril to the purity and stability of our movement.

Even if it were only a matter of gaining votes, however, it is not nough to denounce capitalism and capitalist politics and politicians, no matter how fully we "make good" in listener, even though convinced that party has declared that it prefers a both old parties are thoroughly and equally bad, needs also to be convinced tives of five states which, taken to that the new party is absolutely as well as relatively good; else he will say to us, and with good right: "Yes. bine in very satisfactory proportions it's easy to find fault; anyone can do that and you do it very well; but for all I know the others could tear you whom he had good cause to be proud. to pieces as completely as you have done to them," and he will either not vote at all or will again vote his old party ticket, on the principle that we "rather bear those ills we have than fly to others that we know, not of."

> For these reasons the Socialist propagandist must bear it in mind, while losing no opportunity to attack capitalism in concrete and familiar detail. yet though and with it all, first, last, and all the time, to talk Bocislism, talk Socialism, falk Socialism, Socialist theory, just because it is revolutionary because it deals with fundaments principles, lends itself well to such methods of discussion. The Socialist speaker can discuss the Kishineff out rages and without any irrelevancy talk Socialism. He can discuss the subway strike or the building trades lock out and talk Socialism. He can speak on tenement houses, tuberculosis, pub lie baths, child labor, the eight-hou law, trade schools and employment now-and-here interest, and talk So cialism in doing it. He can discusany subject more interestingly and more convincingly if he remembers that it is but a part of a far greate subject, that it cannot be settled or rightly considered altogether by itself if he always shows the basic cause of existing evils as well as the fact of their existence, if he shows the way

complete logical consequence of the derstanding of that basic cause.

Talk Socialism to make Socialisi Talk Socialism to win votes. Talk So cialism to cultivate in yourself the positive and constructive habit of mind that will fit you for harmonious work in the party and in the Socialist Commonwealth to come. Whenever you talk trade unionism and whenever you talk politics, talk Socialism, unadul terated and undiluted.

THE VOTE OR HEADQUARTERS. The result of the general vote on the

question of location of metional headquarters and composition of the Quorum will probably be, in one respect, a considerable surprise to most of those who took part in it. That the action of the National Committee in removing- the old Quorum members from office and in deciding that the headquarters should not remain "at St. Louis would be endorsed by heavy majorities was practically a foregone conclusion. That the choice between Omaha and Chicago would be made by a narrow margin on an improce dentedly heavy vote had become fairly evident before the vote closed, so that it was impossible to guess which city would win. But that, of the two propositions included in the so-called "Chicago resolutions"-the first fixing the headquarters at that city and the second providing that the National Committeemen for the five states of lillpois, Wisconsin, Indiana, lowa, and Kentucky should constitute the Quornin-one should be carried and the other defeated, especially with so wide s variation as eight hundred votes out of a total of seven thousand, was hard-

ly considered among the probabilities The two points were so closely connected, both in actual working and in the intentions of the movers and were, in the discussion so uniformly treated as but two narts of a single proposition, that it would have been more reasonable and would probably have given a more satisfactory result. to have had the "Chicago resolutions" submitted and voted on as a whole, the two clauses to be carried or de feated together.

Yet we are not inclined to find fault with the result. Some inconvenience may result from having the headquarters so distant from the constituencies of the members of the new Quorum. But as the membership of the Quorum is so small and its meetings not very frequent, most of its business being transacted by correspondence, the trouble and expense involved will be less than might at first be supposed.

The Worker is, of course, gratified by the declaive majority for the sec ond clause. Our primary concers in the whole matter has been over the composition of the Quorum; where the national headquarters should be loented seemed merely a neudant to this question, to be decided in accordance with it. We have not at any time in tentionally thrown suspicion (and we hope we have not unintentionally seemed to throw suspicion) on any of the five comrades chosen at St. Louis to compose the Quorum; but we have held that a Quorum composed of mem hers from five overwheimingly agricul tural states could not be truly representative of the Socialist Party as a whole; and our opinion has been strengthened by the disposition of one of its members and several of its advocates to support it just on the ground that the "agricultural proleinriat" must, at this stage, be given supreme control of the party. If that claim had not been so aggressively urged, it is very likely the affirmative majority on this second clause would have been much smaller. At any rate, such densuctation. The average by a vote sufficiently emphatic, the Quorum composed of the representagether, have a strong and experienced Socialist movement and which com the industrial and the agricultural elements. With that we are pleased.

Had the majority gone the other way we should not have pretended to be pleased but we should none the less heartly and honestly acquiesced in the decision. So doubtless will the many who find themselves in the minority. We may all be glad that the question is settled, and that it has been done in the only way that could antisfactorily acttle it. by the expression of the will of the rank and

One final word we shall venture The Nebraska State Committee has filed a protest against the counting of the Ohlo vote, on the ground of irregularities in the method of submiss by the Ohlo State Committee. The rejection of the Ohio vote would carry the handquarters to Chicago and great ly increase the majority for the sec and clause. The protest seems to us well founded, the action of the Ohi State Committee extremely unwisc and improper. Nevertheless, we hope that the point will not be pressed, that bureaus, injunctions, any subject of the Nebraska comrades will content themselves with filing their protest vention the daty of adopting clear and adequate regulations to prevent such us in the future. We believe that the action of the Only mare Commit he did to some nation; projettes the re of the Omaha plan; but we cannot be lieve that the harm done was suff-

might justify in law, the rejection of the whole Ohio vote.

Satisfied, that Mattern! Secretary Mailly, who commands the confidence et all, will now be guided and sup-ported by a Quorum truly representative of the whole movement, let us refer to our next national conventionto be earnestly thought on, meanwhile -the numerous subsidiary questions of procedure that have arisen in con nection with this vote; and let us have

an unprecedentedly active national propaganda, directed to the purpose of making international working-class Socialists, not in the South chiefly; not in the Middle States chiefly, not in the Rockies nor in the East chiefly, but wherever the opportunity presents

The proposition of National Com mitteeman fills, which we receive after the forgoing matter is in type and just in time for publication in this leave of The Worker, is of so astonishing a nature that we find it hard to

consider it seriously. The National Committee voted to submit the questions of headquarters and composition of the Quorum to general vote in a certain form. In that form they were voted on. The size of the vote shows that they were very carefully considered by the party membership." By a majority of 43 out of 7,011 the party has decided that headquarters should not be removed to Chicago, but should remain at Omaha. That is satisfactory to Comrade Mills; that is what he wanted, so far as it goes, and he finds it "intelligible." It is not what we wanted; but we find it quité intelligible and we acquiesce in

... By a majority of 782 out 4,712 the party has decided that in place of the present members certain others shall constitute the Quorum. That is not satisfactory to Genrade Mills. It is not what he wanted. So he declares it 'unjutelligible' and proposes that the National Committee declare the declaion made by this larger majority nuit and void.

We cannot suppose a majority of the National Committeemen will take upon themselves any such extraordinary power as this. We take it that a unjurity of the National Committee as well as of their constituencies are, as are we, beartily gind to have the general vote and the discussion which has accompanied it brought to a close and will have little patience with those who wish to reogen it in this manner.

KISHINEFF.

At the last meeting of the General Committe of Local New York, Secial Democratic Party, the following reso-

lutions were adopted:
"Whereas, The Russian government
has instigated shocking atracitles
against the Jewish population of Kishineff, in pursuance of the universal poiley of the ruling classes of ... lands to foment racial and religious hatred among the workers to keep them from uniting against their common foe, the

ruling class; and "Whereas. The ruling class of America, now loudly protesting its human tarianism, has repeatedly committed

tarimish, has repeatedly committee equally birocious massacres, of which Homestead, Lattimer, Cecur d'Alenes, and Tampa may be cited as examples: "Resolved, That we, the Social Democrats of the city of New York, In comsonance with the well-defined principles of International Bocislism, express our entire abhorrence of all forms of race hatred religious persecution, and governmental brutality; and that we relievate on this occasion our uni-versal condemnation of the brutakty of the propertied governing class of all lands, and sgain call upon the workers of all countries to unite in the interna-tional Socialist movement, regardless of race or religion.

"Especially small we warn our Jewish comrades against any sort of nationalist movements, or sentiments which can only serve to perpetuate the opportunity of the governing

AB APPRECIATION.

Did you see a copy of the May Day home of the New York Worker It's good. The Worker is a REAL So call at newspaper. Comrades who wish to keep in touch with the American movement should by all means get their names on The Worker's subscrip tion list. You get the worth of vo money.-The Coming Nation.

A WATERIALISTIC IDEALIST.

The Socialist is the only idealist wh is not mak and the only materialist who is not rank. The Socialist bar studied the history of the human race enough to know that the material environment of men is the greatest factor in shaping their ideals and their mental, moral and apiritual growth. He wants to make the material en-vironment of man such that their ideals will become vastly higher, and at the same time they will be in a po-sition to actually attain approximately to those ideals. He is a practical materialist, because, instead of making the attninment of material ends his ob ject in life, he wants to make the ma-terial serve the ideal. He is a prac-tical idealist, because, instead of idiy and vainly dreaming about the ideal he goes to work in a hard-headed, common sense manner to bring about conditions wherein the ideal may be realized. The material gravellers and the rainbow chasers are all outside the rains of the Socialists. The Socialist is the only man who has interpreted the spirit of the age. He is the only man who has discerned the shadows which coming events are casting be-fore. He is the only man who is able to read the signs of the times. He is the edges of the times. He is the only entirely came man in the world.—J. M. Work.

In the discovery of rhem goes, science at last recognises great saidile class, who are too to have goth, and yet tee rich to rhemmalism.

THE MEN WHO CRY AND KEEP ON.

By Horsee Traubel,

A father and his little child were traveling a dark road together. The father asked the child: "If something happened to me now-if I was killed or disappeared—what would you do?' The child replied: "I would cry but I

would keep right on."

The great men and women of the world cry but they keep right on. work cry but they keep right on.

Some people are failures even in
their successes. Some people are successes even in their failures. The
great souls never admit failure. The
great souls never admit success. The
great souls are not after failure or

We look at the big men and we find they are all of one root. They all seem to come from the same stockthe same raw material. They differ in degrees and particulars but they do not differ in kind. They have the same sincerity. They have the same simplicty. They are after the same

You always know where the great man is likely to be if a certain thing happens. The great man does not default. He does not turn up sourswhere else. He is bound to appear on a

The great men are the strong men. And the strongest men are the gentlest.
And because the man is gentle he will
ery., And because he is strong be will keep right on.

When Altgeld made up his mind that the so-called anarchists of Chi-cago were not bombthrowers he knew that he could never go to bed honestly with himself again until be had par-doned them. Yet he knew that if he pardoned them he would destroy his entire political future. But he was one of the men who are sure to turn up for service at certain times and places. So be pardoned the gulitless men. And pretty much all his current world misunderstood. And being a man of sweet neusibilities he was sorry to meet with this nevertheless inevitable misunderstanding and vituperation. So he cried as only gentle mes can

cry. And he kept on as var,
men can keep on.

If you will recall the great men you
will dissead of or known you will dishave read of or known you will dis-cover that they are all of the Altgeld type. If they go to Congress they go without any change of habit. They may work on the road, they may choose a profession, they may sing your songs or write your poems. What-ever they do is done in one splrit. It is as if the same voice had everywhere

halled you.

Do you not suppose men hate to be misunderstood? But they would rather be misunderstood than he traitoroms. They give up your present for torons. They give up your present for your future good will. Or they give up your good will altogether in the interest of your good will altogether in the interest of your good will. You may not see that they ery. But they ery nevertheless, in the closet, away from the public game. But you will see that they keep right on.

Think how Lincoln must have cried to get those rings round life even and

to get those rings round his eyes and those deep lines down his face. Lincoln kept right on. They said that John Brown smiled when he was exe-cuted. When he smiled the scaffold disappeared and was never seen again. But we also know that the granite man in his solitude cried for America. Yet he kept right ou. No one auspected that he might have turned back if there had been some chance of escape He did not look for escape. It was his business to keep right on and on he

in the end we siways admire the strong man. He may temporally fret-and worry us. He may seem dengerous to our increases and increments. He may seem possessed of a malign fanaticism. But it he will stick out his test long enough be will arrive our suspicion. We may still think the man's idea was wrong. But we will admit that the man was right. Por the man who keeps right on has put hinself into partnership with moral gravitation. And this is an apneal to which we must all finally re-

The child who said it would cry but The child who said it would cry hut keep right on keep more than it knew. You are ridiculed. You turn back. You are fought. You turn back. You refought. You turn back. You feel its small soft hand in your harder. stop your clock. You turn back its palm. The child that cries but keeps hands. You spologize to yesterday for on. The child in you that cries and to-day. You are afraid of the issue.

Your comrade dies at your side. The bullets fly. Back you go. Why should you press on against such odds? Back you go. But when you get back to your start you find your start gone.

The mooring has disappeared.

You are full of rebuilion until the rebellion occurs. Then you are empty of rebellion. You are craxy to pay your bills. The bills are presented. You refuse to pay. You have got your ideas locked up in a deak. You have printed them in a book. You have painted them in a picture. But you have not got them into your heart and your feet. Your very ligaments must become the extract and potency of the lifest.

When the drum sounds for retreat how dare you hear? When the battle turns against you you must be still more firmly for yourself. The child would cry and go on. What has become of the child in you that you

would run self-baffed from the field?
I do not pray for ideas. I pray for spirit. Ideas may be faithless. Ideas may be disproved by ideas. Ideas may be bought and sold. But spirit is never disproved by anything. You will be tempted but you will not mee tempta-tion. You will see only your own guarantees. You can go without meals. You can go without laces back of your windows and on your skirts. You can go without the opera. But you cannot go without your faith. You can give up everything else and still be rich. But if you give up this all the

rest cannot save you. I do not ask you to rise above your build. I do not ask you to do mir-acles. I do not ask you to put two and two together and make them five. I ask you how you can know what your hulld is until you have just on your roof? How can you know? You think yourself little. But the man who thicks himself little can think himself big. You think yourself weak. The man who thinks himself weak can think himself strong. What is your voice to do to make

itself heard on the cryday of our civili nation? How can it get free from the crowd of volces? Is it to tell about a little and then shrink luto a stagnant calm of despair? It may bring you HOPTOW. It may bring persecution. The chief thing is that it brings you.

Stick to yourself. Cry if you must.
But go on. You have no business with the persecutors and the prosecutors, You must have but one eye That is for the light ahead. Your faith is too hig to get liself into favor to-morrow. It is too hig to fall of ultimate dis tinction. Only stand by yourself. Do not let the disturbances of the road drive you off your intention. What-ever you are be that thing strong. Not strong in resentment. Strong in

affirmation will be misinterpreted. They will call you harsh and cruel. The possessor will call you a robber. Even the dispossessed will not know you and say "How dive do?" though you do his work. Your children will think you queer and your father and mother will can be a supported to the control of t will cast you out. You will go to a thousand crosses martyred and serene, You will cry, cry, bitterly, wet the ground with your blood and tears. But you will keep on. You will be weak. But you will keep on. Or strong. But keep on. Or evil. But keep on. Or good. But keep on. What will loss or failure hurt? You will keep on. What will success or fortune help? You will keep on.

I came upon you unawares. There you were weeping to yourself for your sins. But when you naw me you suiled and kept on. What could run short if your faith runs lone? What can tire your feet if your soul does not fire? What can make you tresposs if your beart refuses to invade? What can turn you into stone if your sym-pathy melts the very rocks of the hills? To yourself you are full of grief. To the world you are nustere. Back there alone you weep. But be-fore the world your eyes are dried. Yet if the world could look with eyes that are more than eyes it would see you sorrowing for its guilt. You who

rum be reinstated if vote stands against approvai?" Yes, 617; no,

THE VOTE ON HEADQUARTERS. 5,700; majority against, 5,002.

Omaho Carries by Harrow Majority-Basis of Quorum is Changed. W E Clark, Assistant to the Na

tional Secretary, acting in the absence of Comrade Mailly, and J. P. Roe, Na-tional Committeeman for Nebraska and member of the Quorum, send out a statement of the general vote of the party on the question of bendquarters. The result is that the bendquarters remain at Omaha; that the action of the National Committee in removing the old Quorum and removing head-quarters from St. Louis is approved: and that the National Committeemen for Illinois, Wisconsin, Indiana, Iowa, for Illinois, whechesia, indiams, rows, and Keatucky are to constitute the Quorum instead of those for South Dakota, Nebraska, Iowa, Kanesa, and Missouri as provided by the National Committee at its St. Louis meeting.

The vote on the various propositions to an efficient as follows:

RESOLUTION L.

"First, That the bendquarters of the party be removed to Chicago." Yes, 3,434; no, 3,527; majority against removal, 48.

"Second, That the Local Quorum until the next national convention be composed of the members of the Mational Committee from the states of Illinois, Wisconsin, Ludians, Iowa, and Kentucky." Yes, 3,747; no, 2,965; ma-

ority in favor, 782. "Third, That all acts of the National Committee at its last annual session in conflict with the above provisions be rejected." Yes, 8,500; no, 2,916; main favor, for

RESOLUTION IL

"First, Shall the action of the National Committee in removing the Local Querum he approved?" Yes, 5,875; an; 1,180; mejerity in favor, 4,395.
"Second, Shall the old Local Que-

"Third, Shall the action of the National Committee in removing the national headquarters to Omaha, Neb., be approved?" Yes, 3,734; no. 2,800; malority in favor, 865.

"Fourth, Shall the national headvote stands against approval of re-moval to Omaha, Neb.7" Yes, 1,193; no. 5,687; majority against, 4,494.

Along with the statement of the vote there is submitted to the National Committee the protest of the Nebraska tate Committee against the counting of the Obio vote, on the ground of the tresular manner in which the Ohio State Committee submitted the vote in that state, as already stated in The Worker, and the National Committee is called upon to decide on two ques-

"First, Was the national referendum on the question of headquarters prop-erly put by the Ohio State Committee? cond. Shall the Ohio vote on the

Under date May 23, there is submitted to the National Committee members for consideration and action the following motion and statement by

recent referentium relating to the head-quarters and to the election of the new Quorum be declared unintelligible, and that peading further instructions from the membership the headquarters remain in Omaka, with John M. Work, Sammel Levett, J. P. Bos, Geo. H. Turner, and Era. Uniformized combin-ing the National Quorum until further and more definite instructions from the

party membership.
"In explanation of the above motion.
I wish to state that in my judgment the casiset way out of the compiler.

referendum to a general vote of the lis it not a fault that, while the utopian membership, which would state the question now involved so clearly that it could be voted on without any possi-

gested and has my approval: 'Shall the national headquarters be "Shall the national bendquarters be removed to Chicago or remain in Omaha, it being understood that on their removal to Chicago the Local Quorum is to be composed of the members of the National Committee from the states of Illinois, Wisconsin, luna nas. Lows, and Kentucky; and Jt the bendericks are the contents of th headquarters remain in Omaha, the bresent Local Quorum, John M. Work, Samuel Lovett, J. P. Roe, Geo. H. Tarner, and Ernest Untermum to re-main in office.—Vote Chicago er Omaha.

"The action of the National Commit-tee in its recent session at St. Louis has been approved by the referendum by an overwhelming majority.

But the wishes of the comrades re-garding the further removal of the headquarters from Omaha to Chicago and the election of a new Quorum is not clear. The vote is for Omaha by a small majority and for the Quorum suggested for Chicago by a larger ma-

jority.
"It seems to me that these votes fairly cancel each other and that a new referendum should be taken. I therefore make the above motion and suggest that the members of the Committee quoperate to secure at once a sufficient number of locals to get a new

referendum in the form suggested.
"It is only a matter of fairness to inyself to state that so soon as this matter is settled it is now my intention to seek the co-operation of a suffi-cient number of locals to secure a refcreadum on the question of so amending the constitution as to abolish the Local Quorum altogether. I leave that matter out of this suggestion, solely for the sake of securing a clear and final word from the membership on

National Committeeman for Kansa The tote of the National Committee on this proposition, taken by spondence, will close on June

Current # # # Literature

All books and pamphlets mentioned in this column may be obtained through the Socialist Literature Company, 184 William street, New York.

"Class Struggles in America," by A. at. Simons (published by Charles II. Kerr & Co.), is valuable rather as a promise than as an achievement-not that it is an insignificant addition to our pamphlet literature, but that we take its publication to indicate that the author is at work upon a somewhat extended treatment of the political de-velopment of the United States in the light of the economic interpretation of history. Such a work has long been needed and we know no one at the eded and we know no one at the cosat moment better fitted to under-ke it—though we shall probably be ready enough to find fault with his book when (we hope we need not say

imons has inbored under the disadvantage of a double or perhaps a watering purpose. It begins as a scientific bruchure-sketchy and in-complete, of course, pretending to be nothing more, but yet a serious and suggestive study-but it ends as a conventional Socialist propaganda pam-phlet. This character will not detract from its popularity nor, perhaps, from its present neefulness, but it may to some extent cause it to fall short in the matter of atimulating readers to really serious and thorough work in what is now one of the most inviting

fichie of historical study. We night easily find points, large or annil, even within the compass of these thirty-two pages, upon which to disagree with the author. Is he right, for instance, in saying (pp. 10, 11) that, in the Revolutionary period, the Southern colonies favored restriction of the slave trade and New England opposed such restriction? If we are not much mistaken, the representatives of Georgia and South Carollin in the Constitutional Convention vigorously opposed any present or future inter-ference with that trade, while the Massachusetts, Connecticut, and New Hampshire members took the contrary position. Yirginia, indeed, threw the weight of her influence rather strongly against the continuance of the slave trade; but Virginia, in 1787 and for some years later, was very far from being trolcal of the South in its politineing typical of the South in its politi-cal (growing out of the economic) ten-dencies. It was Jefferson of Virginia who, is 1776, included a demunciation of this "executible commerce" in his first draft of the Declaration of Inde-cinders with this antithesis: "In brief but it was the representatives of South Carolina and Georgia that compelled the elision of that clause. Again (pp. 23, 24), we find our author's treatment of the Populist and allied movements unsatisfactory. Even though we concede that the separation of the mean and creamery industries from agriculture and the change of methods of grain handling between 1870 and 1880. pendence (as related on p. 11 and note), but it was the representatives of South ture and the change of methods of grain handling between 1870 and 1880 or thereabout "reduced the farmers of or thereabout "reduced the farmers of the great West to as complete depending to satisfy the same and the working class; Mr. Brooks beholds the ence ** as that of the wage worker."
we must still insist that his dependence was and is of a radically different economic form, normally showing itself in different political tendencies; and granting that they are "hereditary rebels " and not the men tamely to aubmit to outrageous exploitation," we

do not agree that it was only their

understand the underlying

do not agree that it was only their failure to understand the underlying causes of their condition that gave Populism its reactionary character. In a word, we heartily dissent from the implied idea that Populism was essen-

tinily revolutionary, which forms the basis of a theory now being strongly urged in some quarters that the West-ern farmers and particularly the old

Populista, as a body, are st present the best material for making Social-

ists. Populism, according to our view
—we know it is "orthodox" and likely
to be branded as "intolerant"—was re-

actionary in its very essence and as such was the logical expression of the disastisfaction of mortgag-ridden and raifroad-ridden small farmers who wished to become independent small

Bunker Hill, and even amazed to learn

that diffusion and Phillips were seces-sionists. Recause these and such as these extremely important facts are so

little known, the pamphlet that calls

attention to them is sure to de

The third edition of "Socialist Poll ties and Labor Polities" is now ready. This little book has met with very warm favor ever since its publication and ecems to have filled a real pred in our propaganda literature. It is the general verdict of those who have seen the new edition that it is greatly improved. A considerable amount of II-Instructive matter included in the first two editions which was of temporary rather than of permanent application ins been eliminated; other passages lave been rewritten and condensed; outched on in earlier editions, and yet slightly to shorten the body of the pamphlet. Three appendices which have been added in the third edition— dealing with the relations of the party to the unions, the growth of the So cialist movement in the United States and the recent organized attack trade unions-adds much, it is lieved, to the value of the namphlet, In order to enable the comrades to make the freest use of "Socialist Poli-tics and Labor Politics" in propa-gands, the price has been fixed at the lowest possible figures—3 cents a copy, ten copies for 20 cents, fifty copies for 85 cents, or \$1.50 n hun-dred, postprid. Order of the Socialist Literature Company, 184 William street, New York.

Bequests have reached this office for the republication in pamphlet form of the article on "Ten Years of Capital-ism," in The Worker of May 17 and that on "Socialism and National Pres perity" in last week's issue. These two articles will probably be issued in somewhat revised form, as the June number of the Socialist Library, to be sold at 2 cents a copy.

partiann or non-political judiciary mean? It means that the Socialists are right when they say that there is no fundamental difference between the Republican and Democratic branches of the capitalist party; that the pretended fight between them in only a struggle for the offices and the patronage: that both have been tested and found to be thoroughly reliable ser rants of the non-producing class; and that the so-called business men, that is those whose business it is to take from those whose business it is to produce, are well satisfied with judges drawn from either branch. They drawn from either branch. They know their men. When they say the bench is not a political office they express a wish rather than a fact. They wish the workers to believe that the courts are not used for political purposes and that capitalism is so fir established on everlasting foundations that all hepe of overthrowing it must be alandoned, and that as they make no distinction between Republican and Democratic Judges, so the working class should make no distinction be ticle on "Workingmen as Judges," by Marcus Hitch, which occupies first place in the May number of the "in-

summary of these two notable books. working class rising to deminate the state and the capitalist class. fears the paternalism of a class; the other the paternalism of the mass." Rev. Alexander Kent of Washington writes on "Causes of Social Progress and Austin Lewis replies to Professor Seligman on the economic interpreta-tion of history.

PARTY NOTES.

The National Secretary is already scalving reguesis for Fourth of July ad Labor Day Socialist speakers.

On Saturday evening Local Newark, M. J., opened its new headquarters at 481 South Seventh street, ground floor. There was a very good attendance, all branches being represented, and every-one enjoyed the affair. On Saturday Kintsch" for the benefit of the party. The headquarters will be open every day and evening, and all who are in-terested in Socialism are invited to call and get acquainted with the comrades.

A comrade in Hazelton, Pa., writes "In a few days you will get another order for a hundred copies of 'Labor Politics and Socialist Politics.' Usually this would mean nothing out of the ary, but the fact is that last night motion to send for them and it went hrough." Heer has done his work rell. The miners are thinking.

Towns for speakers in Ohlo are progressing. H. Howard Caldwell will start early in June to work up the eastern side and across the northern part of the state, while Geo, R. Kirk-putrick will work down the western border and across the acuthern part, then going on to Cakdwell's route and Caldwell transferring on to Kirk-patrick's.—Frank P. O'Hare is having success in Ohlo and courseles are success in Ohio and comrades ar writing enthusiastic reports of his meetings and results attained.—Cincin-nati comrades won't let up. After or-ganizing the Ninth Ward Brauch they found no more territory in the city and bon started anew by organizing Subur-ban Branch No. 1.—A new local has been organized at Coldwater, Ohlo.— The Ohio state convention which open May 30 will be a most important event to the increment in this state. Many things of great moment to the party will be considered, state secretary elected, state emblem adopted, state beadquarters fixed, state ticket nomi-nated including nominee for governor, a state platform adopted and amendments and resolutions considered. claist Councilman Slayton, Frank P. O'Hare, and probably Father Hagerty will be present. A parade will be given at 8 p. m., May 30, from the convention hall to Kropp's Hall, where the speakers will address the delegates and others. Parade will be headed by the Hailwood Band and numerous han-ners have been prepared by the various delegations. Convention will remnin in sersion two days and a great

A correction is due the Indiana com rades. The number of delegates at tackr recent convention was seventy-three, not twenty-three. Indians is coming our way.

Rev. J. C. Hogan of Baltimore con times to preach on Socialism, his ser-mons in nivocacy of the came appear-ing from time to time in the daily

National Organizer John M. Ray has started on his second organising trip reprinted on an second organization of the fourth. His route will be as follows: Tennessee—Tullahoma, Manchester, Chattanooga, Sweetwater, Knoxville: Georgia—Blue Bidge, Orange, Atlanta, Midland, Oolumbas. Macon, Augusta, and Washington. He will return to Nashville in such man-ner as to reach other towns and perhaps visit some the second time. While in Tullaboma on May 18, Comnde Ray succeeded in organizing

Father McGrady will make a tom through the West during July and August. He will lecture in Montana. Washington, Oregon, and California and comrades desiring further infor-mation should write to his manager, W. G. Critchiow, 26 Pruden Building. Dayton, Oldo.

On the occasion of Father Hagerty's t visit to Jerome, Armen, des of Socialism circulated every recent visit to Jerome, Arisona, the ep down the attendance at his meet ing, even going so far as to spread a rumor that the small arroll design on the advertising matter was the A. P. \$\delta\$. emblem. All the men that were Comminent and who sat upon the pursue during the meeting were disparged next morning at the mines. Funder Clark is the controlling spirit in Jerome. In spite of all this opposition was held and a new local with twenty-four members was brganized to fight for Socialism.

The Socialists of Aspen, Colorado, have purchased a business block on Blain street in their city for the perbennent headquarters for all of their local activities. The first floor will be "Socialist Hail," an audience room for the public meetings of the party. The second story will comprise a reading som and "Labor Hall," a lodge room o accommodate the labor unions. The entire building will be called the "So The title to the proj erty is vested in Aspen Local of the Socialist Party of Colorado.

National Organizer M. W. Wilkins has finished another excellent week in Oregon. Locals were organized at the following places: Annaville, Stayton, Detroit, Scio, and Lebanon. At the but took five men to his room, organ-ised a local and drilled them in the workings of the party. Comrade Wil-kins has adopted a plan that is thering good results and deserves the at-tention of spirators everywhere. On his trips, he gets the names of nonhis trips, he gets the names of non-attached Socialists and forwards them to the National Secretary's office so that organizing letters can be written to them. In organized states these courades are urged to work with the organization in forming locals, and in unorganized states an effort is made to assist in forming a local to become a part of the national move-ment.

Cotarade Martin of Otympia, Wash, in sending an order for copies of The Worker, writes: "We have opened up party bendquarters here and propose

to make things tropical for all the strong their hydra heads, maintaining hot fight against capitalism from decade, if all do their-part. Although Western Washington is the most favored apot in the United States for the wage-workers, it is very easy here to turn thinking people our way—excepting, of course, the worker with the capitalist mind and his next of kin, whose belly is yet too far from his backbone. But they will swing into line a little later when popularity is necessafitied. On with the war?" perceptible. On with the war!"

Comrade James Allman is now in Chicago, where he will open a schee of oratory at the North Side headquar

The Worker is asked to state tha Cameron H. King, Jr., and Gen. B. Socialist Party. After Local San Franrisco decided against the fusion policy these comrades, who are strong advo-cates of fusion, resigned their membership rather than remain in the party and submit to the will of the majority.

Sol Fieldman held a successful op air meeting in Fort Edward, N. Y., last Saturday. The local comrades were greatly pleased with his work.

Comrade John C. Chase will speak in Missouri at Thayer on May 23; Springfield, May 27; Rich Hill, May 28; Panama. May 29; Kansas City, May 30 and 31; St. Losia, June 1 and 2.

The next regular meeting of Luserne County, Pa., will be held at headquar-ters, 16 South Main street, accoud floor, rear room, next Tuesday evenbusiness of importance is to be trans-acted. The delegate to the state couvention will make his raport. Arrangements are to be made for the county convention, which is to be held on July 4. One hundred copies of "Merrie England" and one hundred party emblem buttous will have ar-rived. Punch cards for the collection of funds will be distributed among the members.--Locals Willkes Barre, Edwardsville, Duryes, and Hasieton are progressing nicely. The latter was re-cently re-organized by Comrade John Collins and now has twenty-one dues paying members in good standing.— Comrade Wm. M. Evans, the hustling secretary of Local Hazleton, was dis-charged at Jeddo Colliery for "talking much."-Comrade John W. Slay ton, National Lecturer and late Social-iat candidate for Governor of Penn sylvania, addressed a well attended secting at Plymouth on Thursday coning. May 21, under the auspice

The Boston Socialist Women's Cinb's strawberry festival, which was postponed, will be held Thursday, June 4, 8 p. m., at 999 Washington Tickets cost twenty-five cents peluding refreshments, and the proeds will be used to furnish the part;

The Socialist Fife and Drum Corps of Hudson County will give an exhibi-tion at the street meeting of the Tenth Ward Branch of Jersey City on Wed-nesday evening, June 3, at 8:30.

Comrada Louis Goarloy of Charleroi Pa., delivered a lecture in Duquesne Pa., on "The Evil Influences of Poli ticians in the Economic and Political Organizations of the Working Class." Organizations of the Working Class." at Rublis Hall on Sunday, May 17. Five applications for membership were received. On Sunday, May 31. Comrade J. P. Cooper of Chelwick will speak on "The Pausing of a Great Political Superstitution"; and on June 14 Comrade Adams of Wilmerding will least true on "Recompany, Evolution." All ecture on "Economic Evolution." All enders of The Worker who live in this locality are requested to be present at those fectures, which are held at 220 p. m., West Grant avenue, near Pifth street.

How York City.

Members of subdivisions of the So cial Democratic Party in Manhattan and the Bronk are requested to watch in next week's and the following issues of The Worker for notices of dates and places of district primaries for the vention.

ciety will open its new cinb reome at 222 East Broadway on Sunday even-ing, May 31, with a concert and icecream fratival. Admission is free Comrades and friends are cordially in

The discussion at the West Side Soclaims Club last Friday on the ques-tion "Does the Capitalist Do Any So-cially Useful Work?" resulted in an interesting and instructive evening. This Friday evening, May 29, Comcussion on "How Labor Can Emanci-pate Itself Through Politica." The purpose of these discussions is to de velop new sponkers and they should be visited by comrates from other dis-tricts. The club meets in Clark's Hall, northwest corner of Twenty-fifth arrect and Eighth avenue, second

At the meeting of the Kings County Committee held on May 28, twenty-on applicants were admitted to membership. The 1st, 2d, and 3d, 15th, 19th and 21st Assembly Districts report good street meetings. The organizer was instructed to obtain 5,000 of the Wilshire leader, "Why Workingmen Should Be Socialists." The 21st A. D. recommends to the branches that they belp pay off the State Committee' acip jusy out the State Committee's debt and that they call upon all So-cialist voters for the purpose of in-ducing them to join the party. It was decided to suggest to the locals of Greater New York that the financial Greater New York that the financial secretaries of the locals or the organises. The committee on organises reported that Comrades Ufert and Handord had declined, that Comrade Schäfer accommittee of Greater New York. It was decided that the campaign liets be got out as soon as possible and that committee of the nums collected be retained by the branch making the collection. The Secretary was instructed to ascertain from the Workingmen's Co-operative Publishing Association if a share in the "Daily Globe" can be obtained in the name of Kings County Committee. Book, Hiliquift, Paulitee, and if so that he purchase that Committee was elected; Exacertly Committee, and if so that he purchase that Committee on organises reported that Commade reported that Commade Schäfer accommittee of Greater New York. It.

one. As there are many complaints that the large cards which have been printed with the party vote and other matter and which have been handed to the Bill Posters' Union have rarely on seen on any of the bill boards, the Organizer was requested to s they are properly distributed.

The next business meeting of the 2ist A. D. will be held on Friday even-ing, June 5, at Colonial Hall, One Hun dred and First street and Columbu e, and all members are requested to make a special effort to attend. The Agitation Committee of the district has mapped out a program of agitation for the coming campaign which will with-put doubt be productive of spiendid re-usits aff carried out. The only thing necessary to insure its aucreus is funds. economy to insure its success is fun and the members of the branch are urged to attend the meeting and con-tribute as liberally as possible, so that the workers of the district may have the sinews of war to energetically open and carry on the coming important campaign. In this way the non-work-ers of the branch can do their share in the work about to begin.

OUTING OF THE 14th A. D.

An outing will be bold by the 14th Amembly District of the Social Demo-cratic Party, in conjunction with the Free German School and the Social Democratic Women's Society, Branch S. on Sunday, May 33, at Hadson Grounds, Yonkers aveues, Youkers, N. Y. The praceeds will be used for ngitation purposes in the coming empaign, and all Socialists and sympathizers desiring to enjoy a pleasant Sunday are invited to attend and assist in making the outing a success. The grounds can be easily reached by Secand or Third avenue elevated rand to hast station (188th street), thence via Mt. Vernon car (Harlem Stations and transfer at Mt. Vernon to Youkers car direct to grounds, which are opposite the Empire City Baco Track; fare, eight cents. Admission is \$1 for gen-tleman and lady, including beer. The trip is a delightful one, the grounds are most attractive, and the committee has made arrangements for the amusement of the guests, so that everyamusement of the guests, so that every-one who attends the outing will have an enjoyable day. In case of rain the outing will be postponed to Sunday,

WEST SIDE OPER-AIR MEETINGS.

The following open-air meetings have been arranged under the auspices of the West blde Socialist Club and the West Side Agitation Committee Tuesday, May 20-Twenty-fifth As-

sentialy District, northeast corner Seventh avenue and Twenty-fifth street: Speakers, Albert Abrahams and J. N. Thursday, May 28-Ninth Assembly

District, northwest corner Tenth avenue and Thirty-fourth street: James N. Wood Wednesday, June 3-Seventh Assem

bly Bistrict, northwest corner of Righth avenue and Fifteenth street: James N. Wood and Albert Abrahams. Thursday, June 4—Ninth Assembly District, northeast corner Eighth ave-nue and Twenty-fifth street; James N. Wood and L. D. Mayes.

In order to make our aguation more effective and systematic the organizers of the West Bide Agitation Committee and of the Seventh, Ninth and Twentyfifth Assembly Districts have been in structed to take charge of the arranging of meetings for the districts on the West Side below the Nineteenth As-sembly Pistrict. The organizations of these districts are requested to elect platform committees, select the most switchle street corners, and make other necessary preparations, and send in all particulars to E. M. Martin, 341 West Iwenty-fourth street.

GENERAL COMMITTEE.

At the meeting of the General Comnittee of Local New York on May 23, Comrade Edward Meyer presided. Comrade Koerner was seated as delegate from the 34th A. D., and Com-

rude Korn from the 6th-10th.

Upon reading of a communication from the Grocery Clerks Union in regard to the boycott against the Butler stores, the secretary was instructed to ask the union to send boycotting literature to the assembly districts for distribution.

Charges preferred against James N. Wood in regard to funncial matters by Wm. Butscher were referred to the Grievance Committee

It was decided to hold as mass meeting for the locked out work-ers at Union or Madison Square on Naturday, May 30, and Comrades Gold-

The Executive Committee was instructed to have 5,000 copies of the platform printed in Italian for distribution among the Italian strikers. Spargo, Lemon, and Rondin were elected a committee to draw up reso lutions in regard to the Kishineff

massicre, which were adopted and appear elsewhere in this paper.
Eight new members were admitted. The Finance Committee reported that the Socialistic Co-perative Publishing Association (The Worker and the Worker and the Northeasting Published desirable for the Publishing Chapter of the Publishing Chapter of the Monte of the Publishing Chapter of the desirable to the Publishing Chapter of the Publishing Ch "Volksseitung") had decided to give Local New York the entire surplus of its picuic to be held on July 19, with the understanding that the local pay its debt to the State Committee, and would she hold a picme in conjunction with the party on Labor Day and the Sunday before, the proceeds of one day to go to the party and one day to the

rubinding Association A vote of thanks was passed, and the following committee elected to co-operate: Tanzer, Ramm, Meyer, Cantor, Goldbarth, Dunne, Solomen, Kohn, Abra-hams, Dietzer, Graff.

The Auditing Committee made a re-

port upon the books of ex-Organize Wood, Comrade Solamon making a minerity report. The report was inid over until the next meeting. The committee on organizer reported

STATE COMMITTEE.

At the meeting of the State Committee of New York on May 26, W. R. Chappell was seated as delegate from Westchester County and Lucal You

Comrade Fieldman made a report of his successful agitation tour of elevan days and laid plans before the com-mittee for agithtion throughout the state in an automobile, without expense to the State Committee other than the purchase of the automobile. Fieldman's plan met with much favor and State Secretary Slobodin was in structed to take steps toward raising the mency, get further information the mency, get further information and call a special meeting of the State Committee upon this matter. Members and comrades present immediately made the following loans, pictigus, and cash contributions towards the purchase of the automobile Loans, Slobedin \$50 and So cash contributio L. Eaches \$1; piedges, Phillips \$1 and Bub \$1.

Further report of Comrade Spranger e accommunt engaged in examining the books of former Financial Socretary Wood was beard and a written report will be presented at the next meeting.

A number of locals having reported

that they had not yet received dues stamps for which money had been sent some time ngo, it was decided that whosever more than \$1 worth of stamps are most the letter be registerell.

The secretary was instructed to request each local in New York City to elect one member of a new Auditing Committee for the State Committee. The secretary reported that the pam-phlet for state ngitation will be ready

Communications were received from Post Chester reporting re-organization of the local; from a comrade in Cold Springs reporting that it was impossible to keep up the local in that place; from Chan. A. Lee. Salisbury, N. Y., asking how to organize and in regard to a speaker; from the state accretaries of New Hampshire, Connecticut, and New Jersey in regard to the plan for an Enstern lecture bureau, New an Ensiern lecture bureau, New Humpshire endorsing it and Connecticut and New Jersey not favoring it; from Edward B. Thornton. Addison. N. Y. "njijtylig for admission as memberat-large, admitted; and from many other lecula and communes.

Locals which have next naminations

Locals which have sent nominatifor delegate and alternate to the luter national Socialist Congress are hereby notified that the call for nominations at the present time was issued by mis-take and has been withdrawn.

IN PENNSYLVANIA.

PHILADELPHIA, Pa., May 26,--At chair. Charters were granted to foods in Yorkville, Schuylkill County; Marietts, Lancaster County, and Cost Castle, Allegheny County, Communi-cations were read from Malannoy City, New Castle, Duquesne, Blivia, Good-will Hill, Lansford, West Newton, Pittsburg, Ashiand, Reading, Shaino-kin, Sciunton, Marietta, Pottsville, and Kerrigan, Dalias, Tek., per C. H. Kerr & Co., \$10; Br. 8, Loral Emex Co., N. J., \$2; total for week, \$115.75; provi-Erie. Requests continue to come in for information how to organize from a Socialist hybrides of Schuyfkill County:

held a convention at Mahanoy Plane on May 24, at which a large number on May 24, at which a large number of delegates were present. John Col line was elected chairman and Rev Rudy acted as accretary. Resolutions were adopted endorsing the state and national platforms and condemning the old political parties for their atti tude toward the working class, more especially the mine workers, and call-ing upon the tollers to demand their rights at the ballot-box. The following were elected to the County Committee: C. F. Foley of Pottsville chairman; Robert Lees of Sheunndonb. Fred Speidel of Mahanoy City; John Mclibenny of Couldnie; and Henry Cary of Girardville, with two other to be sciented by these five. The f to be selected by these five. The following were suggested to the referen dum of the locals to be nominated for the county offices: For Sheriff, Terence Chrk of Schurikill Haven; for Poor Director, Jan. Walakas of Khen andoah; fer Jury Commissioner, George B. Keele of Ambiand; for Mine Impector, David Daley of Coaldale, A report was received from Organ-izer Collins. He addressed a large and

enthusiastic ameting from the perch of the Mansion House in Mahanoy City he also had a very successful meeting in Shamokiu, and was to be in Girard ville on Monday, May 25, in Pottsville from Tuesday, May 26, until Friday, then to the state convention on May 30.

Howard H. Caldwell, who is now speaking and organising is and around Fittsburg, will remain until June 6. Locals in that neighborhood who de-sire his services should write him at 102 Jucunda street. Fittsburg, care of L. L. Donaldson; or they may address the State Secretary.

All arrangements have been made

for the state convention at Reading, Reports indicate a large attendance Morning and afternoon seasions will be held and in the evening as many open-air meetings will be beid as can be provided with speakers. P. H. S.

HEW MAMPAHERE.

DOVER, N. H., May 25.—By a referendum vote the Socialist Party of New Hampabire has chosen the following committee to the Exceptive Committee of the State Committee for the year ending April 28, 1904; Michael H. O'Nell, Nashua; H. A. Hewey, Charemout; A. H. Burker, Franklin; Sumner F. Claffin, Manches-

WHO WILL DO YOUR LAUNDRY WORK?

STRICTLY RIGHT HOURS WORK IN AL LAUNDRY OUSTAV LEIST,

SOCIALISM AND THE GROWTH OF WORLD COMMERCE.

By May Wood Simons.

A thoughtful observer of events-to-day is at once struck by the breadth and the dimensions of the forces that are working out changes in present society. The general mind though duly regardtorical side of events; is primarily engaged after all with the future work-

The effects of the growth of science. the progress of inventions, the perfect-ing of methods of production and transportation and the consequent unparalleled advance of industry and com-merce, are some of the many questions that force themselves upon the student of industrial society. One of the most important and far-reaching in its in-fluence of any of the phases of modern nociety is the growth of a world commerce. It is but one side of the industrial development to be sure, but it has played a most prominent part in help-

merce is the result of inequalities oth in products and in people. it depends on the fact that no civilized munity produces all the various is needed to satisfy its wants. Heat and aunshine are unequally distributed over the earth and produce great varieand wheat of temperate climates. Countries adapted especially to agricultural pursuits may produce quantities of food supplies and raw materials but engage munities have greater advantages for manufacturing and purchase their raw materials and food products. Commerce then we may may is the exchange point of commerce then we regard rivers merely as routes of trade, the grounds or timber regions and nations as producers and consumers. We view the world as a vast trading community communication.

Society has passed through three great stages in relation to trade and commerce. The first stage at the dawn of history is the period of listependent domestic economy marked by what is known as housework and a narrow circle of exchange. Production was in and for the bouse from raw materials trulshed by the bounehold itself, Bud-ose capital was unknown and the exchange was merely between members of the same household. With the rise of the hundierafts and the guild system came the growth of towns and the advent of town sconomy. Exchange had now widened to the interchange of goods between different trades. Each town was sufficient unto itself except for its dependence on the rural districts and most frequently the townworker was also a small land holder and produced his own food supply.

National economy was a natural outgrowth of a new method of production, the factory system. Capital now domi-The circle of exchange had grown and broadened until the interclunge was But the circle grew until it had encompassed the earth and we enter the fourth great period, that of interna-tional economy and world commerce.

We night trace this growth of the history the world, excluding China, coupisted of the territory in the basius of the Nile and Tigris and Euphrates rivers. Trade was comparatively small and passed along three land routes from the East, or the region of the Indus and Oxus rivers to the Mediterranean. First the route that left Pattala followed the the Nile by way of Ur. The second ran from Buctra to Babylon and on to the While the third was from Bacby way of Nineveh to Aradus on

In order to show the full importance the rise of each of these three thoroughfares a great market was born and further it will be found that the seat of empire moved northward with the change of the trade routes. Ur was the change of the trade routes, and and firm military domination estabmost southern of the three capitals and firm military domination flourished when goods went by the lished. After thus terrorising the ion grow to power and declined again to give piace to Nineveh an trade passed

Gradually the known world pressed upward and westward from these three calleys into Asia Miner and across into Graces. History would show us had we the time for it how the power of Graces depended in the control of t the great trade routes contending at Engine, and as Greece rose in power and trade, Assyrla declined. The move-ment still continued westward into Italy with the Roman Empire dominat- Russia with her perfect mastery of which consisted of a oriental diplomacy, the Mediterranean ex-

remean The Molinid Son-was the conter of the world's wealth and power. Thate passed from Spain and Gaul and Daltain through the Mediterranean to Africa or to the east. It was the section of trails and the ports of Italy had grown to great importance. But with the fall in the Fifteenth century of Contentional into the hands of the Molinian in the contention of the Molinian is a Russia is stantinople into the hands of the Momuselens and the discovery of a new ferred to the Atlantic. Spain and Italy the part of Russia then was to the south declined as France and England in an attempt to reach the Mediter-

and stopped by the deserts and moun tains of Asia to the east had moved westward to the borders of Europe. With the discovery of a new world they crossed the Atlantic to America and now at the beginning of the century the new continent has been crossed and the cast has met the west; the world has been circled.

This movement has been entirely long the lines of latitude. There has always been the possibility of expansion westward, but with the conquest of America this is closed. There are but two alternatives now. Either competition must grow more flerce as population increased or there must begin a movement along the lines of longitude. Both of these, a more intense competition and a moving to the southern period the different powers have taken possession of over 5,000,000 square miles of tropical land.

Twenty years ago Africa was still the dark continent on the map. Now there is comparatively little of it left that is not the territory of some great power. Bo fully do the civilized states recognize the growing scarcity of land unpossessed by some power that they have begun to turn calculating eyes upon the weak republics of the South American continent and it is not too bered. This expansion of modern nations is unavoidable so long as present methods of business prevail. They must expand or go to pieces. New markets must be conquered, new fields explotted. The laborers, the producers in with that purchase the things they pronew markets while the home worker goes without food and clothing and

recognition of the importance of colonial possessions in the maintaining of power or supremacy in commerce.

England early followed the policy of colonizing, believing that trade felshe saw the importance of keeping possession of coaling stations along routes of trade. Her possession of Cape Colony is of the greatest importance as a couling station in the trip around Africa. At the same time she commands by her possession of Gibraltar a large part of the trade of the Mediterraneon. Her industrial, financial and commercial supremacy has rested in no small degree on these points, her large important points along the great trade shall point out later, she stands no longer in command of the commerce of the world.

The colonies of France comprise

great territory but are frequently of little value to the motherland. Franc. has no cause to seek a home for any over-population. Further, the Frenchman prefers to remain in France on a small income than to struggle in a new colony.

Germany has thus far lost most of uer ever population to other countries where they have become assimilated and passed out of the political control of the mother country. To-day, how-ever, Germany is recognizing the importance for commercial purposes, of retaining the political allegiance of her colonists in colonies of her own. Hence her efforts in Asia Minor and Africa. Moreover, the German has to-day become one of the ablest of traders.

But perhaps no European nation merits the attention that Russia does, Her history and policy present one of the most fascinating topics for study to those interested in international politics the route that left Pattala followed the Arabian Sea and Persian Gulf reached has been almost entirely agricultural. Spreading from little Russia the Russian population, shut off by the German and Hungarian states to the west, has plains even to the Urals and has not stopped at the borders of Asia but has pressed on across its boundaries. In-tensive farming is unknown to the Russlan, so new and great tracts of terri-

earliest of the routes, the southern. As | ple the policy changed, more pacific the carrying trade moved north Baby- methods were adopted, and Russian to the northern route. We might fol- Lenders were taken to the west to see low this to great length and trace the slories of the Carr-religious tolera-shifting of the trade routes. But one point seems already proven—that the owing to her semi-oriental character,

> observe the relation of the Engl then without hesitation that no other country can so permanently and suc-cessfully colonize and control Asia and manage the refractory material as can

Let us next see in what directions tending up into the German forests to the north.

For thousands of years the Mediter-ranean The Mediand Sea-was the

in an interfor condition it is at once evident that one of the first objective points will be the securing of mobstructed ports. The first movement on converged into power.

We are then that for centuries the hordes of humanity had been gradually a wid-do out of their primitive home to do of the Orthodex or Greek Church.

It was here that Russia and England

first clashed in the attempt of the Rusains on Constantinople. The next ob-jective point of the Russians has been Afghanistan through central Asia. Turestan has been occupied and this advance has been interpreted by the English as a hostile attempt on English territory in India. Certain it is that Russis at the least hopes to gain an open port through Persia and vast sums have been expended by both England and Russia to strengthen their influence to

But far more ambitions than any of these is the third direction in which Russia is using her energy, the occupation of Manchuria and her growing in-fluence in Chinese affairs. Sosing early the weakness of China and the probable dismemberment she pushed her rallroad into Manchuria, virtually took con trol of that vast territory and gained an open port on the Pacific—that is, one free permanently from ice. Manchuria is rich in forests and minerals. China and the position of Russin at her very door, with western methods at he command, is one of extreme import sees and all efforts are now being directed to strengthen her position there England has clearly seen this policy

and in order to make her hold stronge on India and to maintain a leading post tion in the countries along the Persian Guif she has planned a railroad from Alexandria, through India, and down the Yangste Valley in China.

Picture then to yourself in summarizing these movements on the part of Itussia-three great directions in which she is moving. First, the attempt to gain possession of Constantinople and thus the east end of the Mediterranean. Second, two great arms reaching out and around Asia from the southwest and the northeast, threatening to sieze and pomess that continent.

We have yet one more power to glauce at before passing to the United States. This is Japan. Few things are more interesting to the student of so cial history than the development of this little oriental country. Her complete isolation and her determined re fusal to admit anything of Western Civilization was but suddenly changed thirty years ago and since then she he grown into one of the most progressive

peoples.
About 050 Japan passed through the influence of Chinese civilization from a barbarian to a civilized country. She remained in a feudalistic state until the middle of the last century when her ports being open to foreign trade, her trading and manufacturing class trading and manufacturing class spring up and Japan in a few years passed rapidly through stages that had coupled many generations in other countries and stepped into capitalism full-fledged. "Industries on a large scale have only been recently introduced into Japan, among the earliest being that of cotton spinning. Before the arrival of the Europeans and even up to 1890 nearly all the minor trade of the country was divided up into a num-ber of small workshops scattered all over the country."

In 1808 Japan exported about £1,000, 000; to-day the exports amount to ove f17,000,000. Goods never known Japan before 1850 are now manufac tured there and exported all over the east from Korea to Singapore. But, notwithstandling Japan's rapid commercial growth it seems doubtful whether she is destined to play any great part in the international struggle for commercial supremacy.

We turn now, to the last of the great powers and the youngest, the United States. For over 460 years her people have been occupied with the conques of a continent. Even a hundred years ago its people numbered but 0,000,000 and beyond the Alleghanies was still out west. Gradually they have preme westward until they have crossed the the Pacific the Anglo Saxon represent ing one great family of the human race faces the Slav, the other great force in modern world commerce.

Until within twenty years there have always been arable government lands where the young man of the east might go west and struggle with the forests and prairies to make himself a home To-day the arable land is exhausted.

With the exhaustion of the arabi cities and competition has flercer. The United States has always been viewed by the other nations as the great farming region, the source of the food supply and it is true that the United States produces over 82 per cent. of the food supply of the world. It has scarcely even yet entered into the minds of other nations that the United States is also the great workshop of the world.

Heretofore she has been engaged in supplying her own home market and this was by no means small. But with the conquest of the bone market the United States turned her attention to international trade and the tremenduous strides she has made are shown by this fact, that while in 1894-05 her ex ports exceeded her imports by \$75,000,000, three years later they exceeded them by \$615,000,000.

Take machines alone. The machinery manufactured here is in demand in overy country in the world. Over one hundred American locomotives are running in Japan and over a thousand in Russia. An American company is putting in twelve steel bridges on the Chinese railroad. South Africa takes quantities of agricultural machiner; and steel rails and electrical machiner; manufactured here goes to every civ ilized country.

The growing power of the United

States in the commercial world rests upon the possession of certain natural resources that enable her to manufacture in great quantities and cheaply and thus enter with advantage into the world competition. Two things are of first importance to

any country that would manufacture extensively, the possession of quantities of coal and iron. Both of these the United States has in limitless quanti-

The coal is near the surface and the square miles of coal, measuring twen-ty-one times the coal fields of Great Britain, and there is mined about 200. 600,000 tons or one-third the coal prodget of the world. md. This is the age of iron and

merce, and ships are of iro An age of steam-power and from is its hammers and an age of electricity and

Eugland has heretofore had the grades of iron necessary for making the best steel. To-day this is produced in the United States and more cheaping than-in tirent Britain . A generation ago a furnace that turned out twelve tons of iron a day was remarkable. Th. great blast furnaces of Pennsylvania to-day turn out five and six hundred tous every twenty-four hours. United States now leads the world in the production of pig-iron, putting out over 12,000,000 tons yearly, over 3,000,000 more than England. Furthermore, this supply is inexhaustible. It is found in illmost every state in the Union. Iron Mountain and Pilot Knob in Missouri alone are estimated to con-

talu 500,000,000 tona, A third condition that makes for the United States' power commercially is the chanpness of her labor power. This may at first not seem true, but we must not confuse low wages and low labor cost. High-priced labor may be the most economical and it is true that the American workman works at a speed of intelligence that he is the cheapest workman in the world, that is to may he produces more for his employer in proportion to his wages than a worker of any other nationality. Take weaving on the continent of Europe-s weaver runs two looms. While in the United States a weaver frequently runs eight or ten, and with the improved Northrup loom an expert runs twenty

The great extent of latitude and long!tude of the United States give to her great variety of raw materials. Excepting fine wools, raw silks, etc. she is independent as to raw materials. All these advantages combine to make her one of the greatest of the world powers and to bring her industrial development to a point unattained by

To the whole question of the perfect-ing of methods of transportation and its relation to commerce, we can give but a moment. Ocean saling vessels skirted the coasts until 1500. Then for three centuries they commanded the seas until after 1840 the development of steamships deprived them of the greater part of their freight. They travel four-times as fast as the calling boats and have brought the nations to each others' doors. This rapid transit makes possible the transporting of s articles that formerly wer difficult to transport

So far we have stated only the facts of a world movement. The question now naturally arises as to the outcome of this commercial struggle of these giants. The problem of the centuries has been how in the carrying trade to best reach the east from the west, and trol of trade routes as much as on its industry.

We have traced the seat of impire and of commerce moving simultane-ously westward. Twenty years ago England was the industrial and financial center: To-day we cannot deny that it has passed to the United States, and this is due not alone to her growth in manufacturing but to the fact that her great railroad system has bound antic and the Pacific, and the route to the east and the world's trade will henceforth pass through the United States. The Pacific is destined to be-Sintes. The Pacific is destined to be-come the Mediterranean of the future and for this it is eminently fitted. Its harbors are good and it is the "peace-ful ocean." On its shores two great people confront each other, the Anglo-Saxon and the Slav. This raises the

tives. To-day the nations are in a condition of enmity and competition. All of their relations are strained and hos-tility is but thinly velled by nominal peace. In the conducting of great ousliesses we have seen that frequen ly to save themselves when competition grew too fierce, firms combinedthis seems one alternative for nations, a sort of federation—but in fact it ould be but an armed neutrality after all-on unriable condition threatened at any moment with destruction

Again competition sometimes leads in the business world to the survival of one and the destruction of all others tive-the domination of some one of the great world powers controlling the other nations, as Rome controlled the then known world.

But the growth of world cor is but a part of the whole great indus trial evolution and its vital significance rests after all upon the fact that it has helped to make possible new relations of men and new industrial conditions.

Across the lines of the nations have grown up two other world powers labor and capital. Capital has become international, the labor problem has become international. It necessarily followed that these two should grow up with the development of a world competition and trade. These are in reality the two mighty forces that will determine the future relations of na-

Gradually with the growth of inter with the growth of inter-national commerce there has been a wonderful leveling up. It has brought more nearly into the same plane indus-trially all the nations. Those that wished to live have been forced into growth. Into every corner of the earth capitalist production has forced itself and along with it has gone the labor problem.

As the great capital of the world has drawn itself together in combines, along side, the labor of the world has been slowly forming into a compact organization and when finally labor comes to its own, as it is destined to, the possibility of a federation of nations on a peaceful basis will at last be made real. Then the great world productive instruments will be run by the people for the satisfaction of the wants of the nations and not for profit—the struggle and death groups of industrially warring nations and classes will cease. For the first time in the world's history as international labor movement has been made possible. So-

ution of Socialism be made possible and the battle flags were furled In the Parliament of men, the Federa tion of the world. Novel

. Further we can easily believe that he United States with its rapidly growing industrial supremacy will be the first great nation to pass into the So

IN MINNESOTA.

MINNEAPOLIS, May 20.-T. alker, a millionaire lumberman o Minneapolis, read a paper a few weeks ago before the Methodist ministers in which be undertook to show that So-cialism was impracticable, and the paper was very highly commended by all the clergyman present. As the daily press gave an extensive account of the meeting, the Socialists invited Mr. Walker to deliver the address before Local Minneapolis and, to their sur-prise, he gladly consented. The So-cialists then arranged to have Carl D. Thompson reply.

On account of the prominence of Mr.

Walker, the daily press gave good an-aouncements of the meeting and the hall was crowded to the doors. For over an hour the audience listened to his paper with respectful attention.

After Mr. Walker had told how the Indians tried Socialism and made a failure of it, and how the laborer was better off than he ever was before, and what a hard time the capitalists were having, etc., all of which the Socialists took as a good joke, Comrade Thomp son replied in a speech that took the audience by storm; one after another the misconceptions and failneiss of hr. Walker were shown with clearness and logic, and the truths of So cialism presented with telling effect Mr. Walker was given fifteen minute to close the debate and after the closwas given the thanks of the local for his attempt to show the impracticabil-ity of Socialism, and indeed all Socialists should feel indebted to him, for on account of such a prominent capitalist speaking before the Socialists, the press of St. Paul and Minneapolis gave reports of the meeting and aditorials in regard to it. Never before has Socialism got such a thorough advertising in Minnesots. If more of the capitalists would follow Mr. Walker's example the coming of the Cooperative hastened.

Comrade Thompson is now on a six weeks' trip in the northwestern part of Minnesota. The state agitation charge of Guy E: Etherton and George I Martin of Kansas City. They will be in Little Falls during the state convention of the A. F. of L.

S. M. H.

LABOR SECRETARIAT.

The last monthly meeting of the La for Secretariat of New York was held on May 25, with F. Larsen of Bricklayers' Union No. 35 in the chair. Credentials were presented and accepted from Bricklayers No. 35, for J. Rupp from Bakers No. 2, for J. Kaufmans from Bakers No. 25, for W. Ungemack from Cigarmakers No. 90, for Wm. Matsdorf. The report of the Board of Managers was endorsed and placed on

file. The request of Bakers No. 88 was granted. The report of counsel, J. Hillquit, which was a very interesting one, was endorsed in all its details Many claims for mages were collected and the most of them settled in full. It might be mentioned here that the organizations should draw the attention of their members to the fact, that they are entitled to the receipt of a full week's wages, even, if they only worked one hour at the beginning of the week; in such cases bosses who refuse the payment of a full week's wages are punishable and memb should not take less than payment in full, but report at once at the office of our counsel, J. Hiliquit, \$20 Broadway. The secretary was instructed to communicate with Brickiayers No. 9 It was reported that the Brunswick Lodge of Machinists decided to join the Secretariat, also the Italian Bak-ers. In regard to the last-named the corresponding secretary was instructed to inform them that they must join was given for this purpose. Counsel was notified not to take cases from the party in question until they furnish a written application for a charter, "Car-penters No. 12 of Brooklyn, who had

decided to join the Secretariat and whose delegates never made their ap-pearance at our meetings will be noti-fied to this effect. The Board of Directors was instructed to make sug gestions for changes in the constitu-tion at the next defigate meeting, which shall be decided by a referendum of all affiliated organizations. A complaint of Butchers No. 174 was re ferred to the Board of Directors and all interested parties were notified to be present at the investigation. The following organizations were not represented by their delegates: Iron Workers No. 42, F. Huth; Bakers No. L. Sauer and Chr. Schroether;
 Bakers No. 164, J. Huehnepfaut;
 Butchers No. 211, H. Schmidt; Carpenters No. 464, J. Herry and Chas. Schratt: Carpenters No. 375. August Blum: Machiniata No. 335. W. Eber hart; Painters and Decorators No. 400, W. Erstling; Typographia No. 7, J. Kallmayer; United Carriage and Wagon Makers No. 127, E. Duffy and Wm. Hale; United Engineers No. 1. J. Ehrenperger; Laborers' Protective Union No. 9, G. Tanger; No. 4, G. Otto; United Carriage and Wagon Makers No. 2. J. Flyn; Carpenters No. 291; J. Weig'l; Int. Jewelry Workers, H. Weigert, L. Zudeck and E. Koeppicus; Electric Lodge of Machinists No. 813.

—The painters' union of Spring-field has decided "not to recognize the master painters' organization, but to treat with them only as individuals." This has a familiar sound, but things seem kind of twisted when a union takes that stand.—Boston Advertiser.

ANACONDA CONTEST.

Details of Tricks and Technicalitie By Which Old-Party Politicians Sock to Delay Socialists Taking Office.

The first number of the "Montana Sc cialist Advocate" of Anaconda, which has just come to hand, gives a de-tailed account of the contest over the senting of the Socialist city officers elected in that city last month.

No question has at any time been raised that the Socialist candidates for Mayor, Treasurer, Police Magistrate, and three Aldermen were legally elected. (The ground upon which the old-party officials refuse to recognise them is that of a technical failure to qualify. The law requires the City Clerk to notify each elected officer of the time within which he is to appear before that functionary to take oath of office and, where required, file bond. City Clerk Wisner of the ok administration delayed sending such notices to the Socialist officials-elect until several days after they were sent to the old-party men. When Mayor-elect Frinke apeared within the required ten days after receiving notices the City Clerk refused to accept his papers for filing on the ground that ten days had elapsed since the Mayor-elect had received the notice of his election. This notice was supposed to have been sent by mail with an ordinary two-cent

stamp upon the envelope.

"Do you know when I received the notice?" asked Comrade Frinke.

"No," replied the City Clerk.

"Do you know that I have received

the notice at all?"

"And yet you state that I have re-ceived the notice and that ten days have elapsed since such receipt?"

"And you refuse to necept my oath office because ten days have elapsed after receiving notice of my election, while you don't know when I received such notice or whether i

"Does the law authorize you to re fuse my oath?"
"No."
With this wholly illogical and un-

satisfactory explanation of why his oath was refused, Frinke left the City Clerk's office, thoroughly disgusted with this flagrant display of arbitrary assumption of official power.

During the day, others elected on the Socialist ticket called at the City

Clerk's office with their oaths and, wherever bonds were necessary, with these instruments also, but in each instance they were refused the right of filing.

On the following Monday, the day fixed by law for the new officials to take up their duties, the outgoing Mayor and Aldermen refused to recog-ulze their successors as such. Mayor Frinke called the Board of Aldermen together, but only the three Socialists and two of the Democrats responded at first; one other Democrat afterward de-cided to attend, but there still lacked one of being a quorum. No business could be done beyond sending notice to the other Aldermen to require their

On the following day the forme Mayor and his associates left town, leaving orders for the Chief of Police to lock the City Hall and station guards to prevent the entrance of the new officials. The latter resolved to refrain from forcible entry, notwithstanding popular feeling favored such ione and the case is now before the courts, but it is evident that the oppo sition intends to exhaust every means of delay that the law allows. Some weeks, at least, will intervene before action can be taken on the present qu warranto proceedings.

PULL TOGETHER.

To make men pull together,-That was the aim which civilization set before itself:

And first slavery showed the way. Men pulled together at the word of command; The pyramids rose, Rome swallower

the earth,--men worked long and wearily and without a doubt that here was the finality of things. Their dreamers and sages and saints could picture no golden age withou

And the strong arm of the law made them toil.

But man grew, and looked, and saked why, and slavery shrivelled and

And still the object was to make men

pull together.
And the wage-system showed the way. One man grasped all the good things he could and hugged them, and said to those who had none, "Work for me and I will give you a little."

Men pulled together again with hunger

in their eyes: actories sprang up, railways en-circled the earth,—men labored long and eagerly and without a doubt that here was the finality of

things.

Their dreamers and sages and saints could picture no golden age without the wage-system.

and the strong arm of the law guarded the piles of good things and let the men go, For now men strove to get work, and it was no one's interest to keep their through the winter, and the death of a man, such as once fetched

his weight in coin, was no longer of consequence, for another would do as well. man grows and looks, and asks why, and the wage-system blanches with terror.

There is a new way to make men pull Love, free co-operation, equal service,

true bonor and honesty,—have you never thought of these things?

Let us dream better than the old dreamers,—and pull together.

PENNSYLVANIA NOMINATES.

John A. Smith of Reading Heads the Ticket.

Did-Timers Say the Convention Was the Real Ever Held in the State-Platform Strong Presentation of Prinuiples and tasnes.

READING, Pa., May 31.—The state convention of the socialist Party held in this city yesterday and to-day is declared by those who have been present on like occasions in the past to have been the largest and in every respect the most satisfactory ever held in this state. There were many of the an this state. There were many of the old "war-horses" here and plenty of new men besides, and it did each good to meet and observe the others. The feeling throughout the sessions was one of carnestness and hearty compales his as wall as at arthurism. one of carnestness and hearty car radeship, as well as of enthusiasm. This was the first convention of the Rocialist Party as a logally organized party and unless all signs fall every succeeding one will be still better. John Spargo of New York and John Collins of Chicago were present, and

John Sparge of New Present, Collins of Chicago were present, ent, and

were scated by resolution of the convention, with a voice but no vote.

Riate Secretary Franklin H. Slick of Fhiladelphia called the convention to order, and, after James Maurer of convention to order, and, after James Maurer of the convention of the convention to order. Heading had been chosen temporary hairman, was selected as secretary the body. On permanent organization, J. G. Roth of Wilkes-Barre was chosen as chairman, Ira Potter of Philadelas chairman, Ira Porter of Philadel-phia as vice-chairman, Ed. Kuppinger ad J F. Shirk of Philadelphia as secand J. F. Shirk of I minute and J. F. Shirk of Philip East of Reading as sergeant-at-arms. The report on credentials showed about forty delecredentials showed about forty dele-gates present, representing locals in Fhiladelphia, Mahanoy City, Shenan-dosh, Ashiand, Wilkes-Barre, Media, Pittsburg, Williamsport, Spring City, Lansford, Scranton, Sellersville, Potts-town, Royersford, Erie, and Reading.

The State Ticket.

after the reading and acceptance of reports of the State Secretary and Treasurer, nominations were taken up. John A. Smith of Reading, John W. Blayton of New Castle, and Jere, N. Weller of Mauch Chunk were suggested as candidates for State Trensurer, the head of the ticket this year Comrade Smith received the majority of votes and was then nominated by ciamation. He is a hatter by trade d treasurer of the Federated Trades uncil of Reading.

W. W. Atkinson of Philudelphia was for Auditor-General and Charles Heydrick of Eric and Alfred Leach of Pittsburg for Justices of the Superior Court. Comrade Heydrick, however, declined the nomination and State Committee was authorized to

The Sunday session was devoted to consideration of the state party con-stitution and the adoption of the platform. Comrade Sparge, who had been elected as an advisory member of the committee on platform, made the re-port, which was heard and adopted vith ringing cheers. The platform

The Socialist Party of Pennsyl vania, assembled in state convention In the city of Reading, Memorial Day, May 30, 1903, while uniting with all patriotic citizens of this great republic in paying tribute to the valor and the merifice of the heroes who gave acti-sacrine of the heroes who gave their lives to the cause of humanity and struck the shackles of slavery from the limbs of millions of people, proclaims that mother irrepressible conflict has arisen in our midst, caused by the private ownership of the means of production whereby another form of servitude of those depending solely upon their labor-power to sustain their hysical existence has developed-a Blenn as the former chattel-slavery, creating a class of exploiters and de-priving the masses of the people of the full enjoyment of life and liberty, points out to the tollers of this state exploited and oppressed wage-workers of the world, whose infesion is to conme until its triumph, the struckle for human freedom by destroying the last form of personal dependence for life. "The Socialist Party, having polled

22 000 votes at the last state election and being now a recognized political party in this state, appeals to the working class of the state to unite with it for the purpose of wresting political power from the exploiting class and using the same as a means of bringing about their swn economic

emancipation.

"The numbers of the anthracite coal fields of Pennsylvania, drunk with power and regarding the appearance of trades organizations of their employees as an intolerable aggression. and a menace to their arrogant asof a God-given privilege absolute rule over the working peoplete. in the attempt to starve workers into submission, closed the mines for five months without the slightest regard for the millions of records dependent on this impoint of people dependent on this product of the mines for heat and power, have conclusively proved the incompatabil thy of the capitalist system with the best interests of society—this conven-tion hereby affirms that the true and permanent solution of the question involving the most vital interest of so-ciety, the 'question' of supplying the necessaries of life, is to be found only in the supercession of this capitalist system by the Co-operative Common-wealth.

Legislature of Pennsylvania truce was called in one of the gre industrial wars ever known'in history, has done absolutely mething to protect

1 m 2 3/91

the people of the state against future repetitions of this nature, although having ample power to do so.
"It has cheated the coal miners again by pretending to pass laws for

the amelioration of their conditions, deferring purposely the passage of bills to the last days of the session, so as to leave them in the hands of the Governor after adjournment, thereby giving him the desired opportunity to kill them with his veto nower, and so kill them with his veto power, and so purposely and treacherously shifting upon him, who cannot succeed himself, the sale responsibility for their fallare, hoping thereby to fool the people in the future as in the past with false pretenses. This convention reminds the working people of the state that they cannot expect justice through the parties of the dominant class and that they will be the victims of political dethey will be the victims of political deception and treachery until they organ-ize on the definite lines of their own class interest, which the Socialist Party alone presents.

"We call the attention of the citisens of the commonwealth to the decialon of the Supreme Court in the case of the commonwealth against Wadsworth, a member of the National Guard of the state. The court, by inventing a 'qualified state of martial rule,' unknown to the constitution and the laws of the state, holding that 'a proclamation of the Governor allaging a state of serious disorder,' virtually superseded the powers of the only authorities in some respects by mili-tary rule, while the same civil authorities continue to discharge their fa tions in general, implying that an afficer of the National Guard may in the discretion give orders to 'shoot and shoot to kill,' and not be held responsible for his actions by legal process. and that a soldier, killing in pursuance of such orders, cannot be tried before the civil courts, while military courts do not and cannot exist in time of peace, created virtually a state of nuarchy and a grave menace to the personal safety of the citizens. Now we appeal to all citizens to overthrow this monstrous abuse of judicial power by defeating the capitalist political irties-the Republican as well as the Democratic-which parties have filled the highest tribunal of the state with servile agents to override the funda mental principles of the constitution of the state, to serve the interests of the exploiting class by establishing military despotism in place of the gov ernment.

"To our fellow workers engaged in the trade-union movement, with who efforts we entirely sympathize, and whose struggles we fully share, we ar-peal that they cease giving their political power, which is their most potent weapon, to their enemies, the exploit-ing class. To these, and to all the ing class. To these, and to all the tollers of this great commonwealth striging for justice, and to all who de-sire to overthrow the vicious and debanching dominance of our citizenry corrupt boodlers, we appeal that they foin the Socialist Prity in one grand effort to establish that commonwealth of labor in which all wealth thall be owned, used and controlled by its creators. For this we declare to be the supreme political question: 'Who shall own the earth—the workers or the libers, its useful members or its

Resolutions were adopted as fol-

"Not less than one hundred thou and men, women and children, here-tofore employed in the textile industries of Philadelphia, are to-day strug gling for a slight shortening of their long working time. Under the benevo-lent and fostering care of the govern-ment, these industries have attained magnificent proportions, being pro-tected by high tariffs against the competition of other countries and yield-ing apparently substantial profits to the employers. Yet, when the work-people of these highly protected industries are asking for a working time schedule which has obtained for many years in free trade England, and being mensurate with the machinery, they are curtly refused by allied employers and forced to the alternative of submitting to their will or to cease working. Having cheeps the latter atternative, we heartifuen dorse the action of the textile worker of Philadelphia, at the same time appealing to them to break their political bondage to the capitalist class and unite with the Socialist Party in abol-

ishing capitalist exploitation. The Press Muzzie.

"The muszling of the press, and the denial of the right of freedom of speech, is but one of the means where-by the dominant class bopes to perpetuate its infamous rule over the work ing class, and the debauching of our public life, by which alone their rule can be suntained. We therefore con-demn all efforts to circumscribe those rights, and the imposition of mili-tarism, from which such efforts logic-ally proceed. But, while condemning these things and affirming our deter-mination to uphold the fullest liberty

of utterance, be it "Resolved, That the Socialist Party, "Resolved, That the Socialist Party, founded in the material interest of the working class, standing always and everywhere steadfast and uncompro-misingly for the interest of that class, frotests that the issue in the coming campaign shall not be aborted. Against the subterfuge "issue" of a free press' and 'free speech' we declare the issue still to be 'free men and free winsen.' The economic freedom of the warkers is the paramount issue. It can be accomplished only by socialising the macomplished only by socializing the ma-chinery of production of the means of life—the purpose of the Secialist Party. Therefore, we charge the wage-work-ers to beware of the false issues of the capitalists and demand the discussion and settlement of their own class issue as presented by the Socialist Party." Other resolutions were adopted ex-pressing absorvers of the govern-ment-inspired measures in Russia and warning the workers assingt all forms

ment-inspired massacres in Russia and ter-warning the workers against all forms

of racial and religious prejudice as MOURN FOR putting them at the mercy of the capitalist class; expressing profound regret at the death of Courade MacCariney and appreciation of his services; and thanking Local Reading for

vives; and thanking Local heading for the fraterinal greeting which it had given to the delegates. Philadelphia was chosen as the seat of the State Committee. When the business of the convention had been concluded, and before adjournment, John Sparge of New York made a brief address to the delegates, reviewing the work of the seasons and outlining a plan of seriou for the fall campaign. He wred the members to be active and energetic in the cause which they had expoused. An address was also made along the

same line in the German language by L. Werner of Philadelphia.

A Week of Good Work.

On Saturday evening the delegate and visiting comrades took part with the members of Local Reading in a parade through the principal streets o the city and several street meetings were held, which were addressed by Comrades Collins of Chicago, Barnes, Moore, Atkinson, Frost, and Davis of Philadelphia, Heydrick and Warde Erie, and Brown, Maurer, and Wilkins

of Reading.
Comrade Spargo had been in Reading for several days before the con-vention and was kept very busy. On Monday he spoke with Comrade Slay-ton at Pottstown. On Tuesday he ad-dressed the Trades Connell on "Rocial-ism and the Labor Movement" and was well received. Wednesday even-ing was given to an address especially to comrades, on "The Meaning and Message of Socialism." Thursday be spoke in Stauffer Hall on "The Spispoke in Statuer France Righteous-ritual Value of Economic Righteous-ness" and on Friday in Rajah Temple on "Our Position, Economic, Etical, and Political." At the last meeting an admission fee of 10 cents was charged and the attendance was the best of the whole series. All the local dailies gave good reports of these meetings

FOR THE DAILY.

About Nine Thousand Dollars Cleared by Daily Globe Fair.

Principal Items of Income and Expense as Given in Secretary Butschor's Report-Socialist Dally Fund Sow Has About \$12,000 to Sunh-Mostings o Association and Conference.

The Workingmen's Co-operative Pub The Workingmen's Co-operative Publishing Association, the organization charged with the duty of establishing and publishing the Daily Globe, will hold its regular mouthly meeting on Monday evening, June 8, at the Labor Lyceum, 64 E. Fourth street. All members should be present, as well as candidates for membership. Any person didutes for membership. Any pers who has been for six months a memb in good standing of the Social Demo-cratic Party (called in other states the Socialist Party) will be admitted to tembership on purchasing one or mor siures of stock at \$5 each. All mem bers have an equal vote, regardless of the number of shares owned. At Mon-day's meeting, in accordance with the motion adopted at the last meeting, all nembers in arrears for payments on

The Daily Globe Conference will met at the Labor Lyceum on Thurs-day, June 11, at 8 p. m. All delegates are urved to be present.

Profits of the Fair.

The financial report on the Daily Globo Fair, which was presented at the last meetings of the Association and the Conference, and which is being printed as a circular for the it intion of affiliated organizatious showed cash receipts of \$17,510.74; expenses, \$8,577.45; cash balance,

The principal items of income are: Tickets, by mail, \$830.25; tickets, local, \$5,202.30; rental of booths, \$1,216; cash at the fair, \$9,762.78; cash do

nations, \$172.75.

The largest items of expense are: Rent and hall expenses, \$1,983,54; rec taurant, \$1,153.94; bar, \$967.05; wages and salaries of employees and help be fore and during the fair, \$954.70; en tertainment, \$800.36; journal, \$388.05 printing, \$427.50; advertising, \$249.01; postage, \$191.97; expressage and cart

ceipts and expenditures of the party booth, which cleared about \$350

\$12,500 on Hand.

The profit of \$8,933.20 as shown in this report is not complete, as some ac-counts, principally for tickets, are still outstanding. When collections are completed the not income will undoubtdly exceed \$9,000.

any excess \$9,000.

Including with this the amount re-relived for shares and on piedges and each contributions and deducting the expenses of the Association's work, the cialist Daily Fund now amounts to

wint of \$1 from Philip Pascarelli of Scaton for the Socialist Daily Fund, which was inadvertently omitted from

list published some weeks ago. AN PEAMPLE FOR OUR AUSTRAFE

The carpenters in Eurich, Switzer and, are on strike. The Socialist men bers of the Town Council published manifesto defending their demands. A comparison is made between the way in which the capitalist press abuse the greed of the workers, and the calm way in which they regard the raising of the price of the necessaries of life as the ring of milk-sellers in Eurick have recently done, although the lat-ter is calculated to have most necessaries.

MacCARTNEY

Great Memorial Meeting Held in Boston.

Socialists Pay Tribute to the Membry of a True Comrade Cone to Well Karned Rash-Garey's Address. 3

BOSTON, Mass., June 1.-Parker ternoon with men and women who had learned to know and love Frederick O. MacCartney in the ranks of the Socialist Party and come to do honor to his memory. Charles E. Burbank pre-

an original poem by Mrs. Ella 'T. Wetherell of Lynn., Comrade Little-field presented the following, which

was adopted:
"We Socialists, assembled in Parket Memorial, Sunday aftermoon, May St. 1903, wish to express our deep sorrow for the loss of our noble associate, Frederick O. MacCartney. We feel that death has prevented, in the fullstrength of his young manhood, one who was consecrated to the wacred cause of humanity from receiving the full measure of glory that the world would bestow upon him in the triumph of the cause he so ably esponsed. He of the cause he so ably esponsed. He still lives in the hearts and souls of the multitudes of courades he has left lichind, and we feel that the most fit-ting monument we can erect to his ory is to reconsecrate ourselves and press on with greater vigor, constancy and inspiration to the victory toward which he and we are still earching."

Mayor Coulter of Brockton, Repremajor Conter of Brockton, Representative Carey, National Secretary nilly, George Willis Cook of Wakefield, Howard A. Gibbs of Warcestee, .H Gaylord Wilshire and Marcare Halle of New York, and Mrs. E. H. Merrifield spoke of the services which MacCartney had rendered to the cause of the workers and of the inspiration which the memory of him gives to those who remain on the field. Carest who was perhaps MacCartney's closest secciate, spoke with deep feeling o the suffering which that tender though hrave hearted man had endured through the misconceptions and mis-representations of his position and at

the manly patience with which he had gone on in spite of all. Dr. Lilile Owen Baker read a noncal tribute from Fred E. Irish of Port and, and another written by Biza A: Hitebrook of Lynn, and President Bur-hank closed the meeting with a brief anneal for renewed effort for the

The Futural Exercises.

The funeral services at Bockland of Thursday were in the hands of personal friends and of the lodge to which Comrade MacCartney had belonged. The only Socialist element in the exer class was a bilet address by Cou Carey and the presence of nearly hundred comrades, men and wo from every part of the state, who wearing badges of red and black sliently followed the remains of their beloved fellow fighter and friend. Spbeloved fellow fighter and friend. Na-tional Secretary Mailly, Algernon Lea as representing Local New York, a representative of Local New Haven-William Butscher of New York, and Prank A. The report of the State Secretary showed the receipts for the year to be \$2,739.32, and the expenditures \$2,679,88, leaving a cash balance of D.SS. The State Committee is in bt an evan \$500, with an inventory AND AN of fixtures and supplies reported a

The State Secretary in his report charged that unfair motions had been used to give the Nebruska courades the result of the referendum vote on jan resur or the retrigindum vote on bendquarters. The e-committee report-ing on this assidemned the language of the State Secretary's report, which was referred beek and the Secretary atruck out the abjectionable portions charging unfair means. The conven-tion was unsulmons in registering its objection to the proposed throwing out of the vote of Ohio.

The time of the convention was taken up in considering reports of committeen, considering proposed changes in constitution, and the usual displays of parliamentary knowledge. There was something doing all the time.

The Arm and Torch was adopted as the official embiem, the ballot laws not permitting the use of so complicated a device as the national embient

W. G. Critchlow was re-elected State Secretary, and the headquarters again located in Dayton. There was much condemnation of the State Lo-cal Quorum and State Secretary for ignoring the referendum on taking the headquarters to Cleveland, but there was a feeling of toleration that avoided open rupture. It should be a warning to all concerned that like disregard of expressed will of the rank and file will not in the future be so charitably treated. The same is true as to the action of the National Committeeman from Ohio. No action was taken, but certain of his acts were severely criticized among the best informed gntes. A resolution was adopted that no state officer of the organization should fill two state offices.

A public meeting was held on Sat urday evening in Kropp's Hall, at which John W. Slayton was the chief speaker, and, as usual, everybody was

pleased with Sinyton. Frank P. O'Hare "happened" to be in Columbus, and he made himself very busy button-holing delegates and charging that certain comrades in Nev York were rascals and that the organi nation there was rotten. In the clos-ing hours of the convention a comrade on the floor of the convention charged him with this work, and he admitted to the convention that he had said the delegate was the tool of a certain com-rade in New York whom he had been charging with being a ruscal. convention immediately took action in structing the State Quorum to annu contracts with any speaker or organ iner on presentation of proof of such

It developes that Comrade O'Har in his tour of the state has been boosting Walter Thomas Mills as a candidate for President next year in a manner that would do credit to a Bepublican or Democratic politician.

While many of the discussions were

earnest and warm there was nothing igvolved except principles and methods and the convention closed with the and the convention closed with the best of faeling prevailing. The great bulk of the delegates were

wage-wackers, but there were representatives of the professional, farmer and business classes. -Send 75 cents to the Socialis

fun.

As for the part played by the off cials, the following throws an interest

"The Kishipeff massacre was well organized. Long before it took place, it had been the talk of the town that 'Jews will be killed' on Easter Sunday. The massacre was in course of preparation for several months, the police was fully informed and, as her been shown, took part in the preparation of the Fourth, Eighth, and Tweifth Assembly District organizations of the tions. Here are a few facts which as Social Democratic Party of New York, to prove it. Police Captain Double at 80 Clinton street last Sunday vegations. selsky called on the ere of Easter at the tobacco store of one Benderate went up to the cash box and belia-himself to five rubles. When the himself to five rubles. When the storekeeper protested, he said: 'What is the difference' We are going to kill off all of you Jews next Easter any-

"In the house of the same Dobro selsky a large quantity of stolen silver was found concealed after the mas-sacre, behind the images of the saints. In the house of one Rudi the robbers were trying to break the safe open for ten hours; when Rudi begged the po-lice captain for help the latter drove him away, saying: 'Get away, you miserable Jew.' In the attacks of the mob on the houses the police uniform ly pursued the following tactics: The mob was allowed to kill and destroy all it could lay its hands on, whereupon the police would come and say.

'That is enough, boys, get along.' The
mob would proceed to another house indicated by some officials or Auti-Semites from the well-to-do classes, to repeat its acts of slaughter and deover the destroyed nouse. Wherever a number of Jews managed to get to-gether to defend themselves or their property they were told to disperse or were chased by the Cossacks, who trampled them under the horses' hoofs. In one case several Jews ficeing from torture over the roofs of houses managed to reach the police station and thought for a moment that they were aafe, but they were driven out on the street and given over to the raging

PARRY WOULD MAKE AS

AMERICAN RISHINGER Any one who believes that David M. Parry is a good citizen or actuated by honorable principles may at once disabuse his mind of that. Two weeks ago in a letter written to the "World," a newspaper published by colored men in Indianapolis, Mr. Parry showed that he was indifferent to the means he be was indifferent to the means he used to make war upon labor unions. In an adroitly worded acreed, which teemed with incending sentiments, he endoarment do aftr up a gace, war between the white and black races. The situation right here in Indianapolis is straiged nearly to the breaking point, yet Mr. Parry does not hesitate to make it still more tense. Mr. Parry deer not all receives the condemnation of all redeserves the condemnation of all respeciable effisens of the United States. If there is not a repetition of the hor-rors in Russia which becurred this mouth it will not be the fault of David M. Parry. He is urging it on and added fuel to the finnes. He cannot destroy the trades unions, may, he cannot even harm them to sav appreciable extent, but he is stirring the embers of race haired which somer or later will have its legitimate effect.—United Mine Workers' Journal.

MR. HAVEMEYER WANTS TO KNOW.

Yonkers Federation of Labor Chaques Ben Hanford to Answer Sugar Millienzire's Questions.

YONKERS, N. Y., June 2.—The Yonkers Federation of Labor has ac-cepted the challenge of Millionsire, John C. Havemeyer to answer his questions regarding the purposes and methods of labor unions and has in-vited Comrade Ben Hanford to speak for the unions. The meeting will held in Music Hall on Tuesday ever ing, June 0, opening at 8 o'clock. The list of questions on which Mr. Have-meyes wishes to be enlightened has been given out. It is a funny mix-up, indicating a decidedly hazy mind on the part of the millionairs questioner. But perhaps when he has listened to the answers he will be a wiser if a sadder man.

One of the most remarkable recen illustration of capitalist class consciou ness was furnished by an incident in the builders' lockout in this city. Near ly all large building operations are no let to contractors and the contract commonly fixes a time within which the work is to be completed and a penalty to be paid by the contractor if he does not get the work done in time. In many cases there is a "strike clause," providing that the penalty for failure to complete the work in time shall be remitted if the delay is caused by labor troubles, but this is not universal In a number of cases where there wa no such strike clause and the contracfors were therefore doubtful about joining in the lockout, the real-estate owners for whom the buildings were being erected voluntarily relieved the contractors from the obligation of getting the work done within the specified time. When we see proprietors and contractors acting together in such a harmonious spirit in order to make a lockout successful. It is about time the workingmen forget all miner questions and united with all their force to un both economic and political power for the defense and advantage of their

THE LOCKOUT ENDED?

If the reports which come to w as this paper goes to press in regard to the prospective settlement of the building trades lockout in New York City are correct, another dark page has been added to trade-union history The immediate occasion, though not the sole cause of the lockout was the manly stand taken by the unions of the building trades in defense of the reamsters employed in hauling building materials. The report now coases that the Board of Building Trades has withdrawn from this position and concoded the rule of "open yards"-that in that they will handle material in discriminately whether hauled by mnion or non-union drivers.

This is a surrender to the mast builders' demand that the board "slough off the organizations of un skilled labor," and no such it is a presi backward stop. It is easy to telk of skilled mechanics" and "unskilled shorers," but the distinction is mor rent then real, on the working sa's stde. Carponters and beickleyers and plumbers need the support of

laborers' in their times of troublehave needed it in the past and will in the future. Even if this were not so. just because they are more fortunate, because they get better pay for shortes hours, they have a greater responsibility to help their less fortunate brothers. Nor will the evil effects of such a surrender so quickly made stop here. The builders will not disband their organization. They will not forget how to lock men out. They will be all the readier to use the lockout in the future, if they win so easy a victory

We may suppose that, if this unfortunate decision has actually been taken, it is only because the delegates of the building trades saw that further resistance to the lockout bosses would be futile. That consideration may excuse the action, but it does not make it any the loss regrettable and full of warning. How different would it have been

had we had a Social Democratic workingman as Mayor, a Social Democratic workingman as Controller, a Social Democratic workingman as District Attorney, a Social Democratic workingman at the head of the police force, and men of the same type in the Board of Aldermen and on the judicial bench. Suppose it were understood, as it would be understood under a Social Democratic administration, that the government recognized the right of the workingman to his job and the wrong of stealing jobs; understood that the police would not be used to assist but would be used to prevent the bringing in of scabs; understood that the administration would invoke the power of the courts to punish employers who conspired to lock men out; understood that the administration stood ready to inaugurate public works to be done under union conditions to help the workers to hold out and to levy taxes on the capitalists' property to cover the cost; understood, in a word, that every means within the power of the administration would be used to help the striking or locked-out men, just as under Republican and Democratic and Reform administrations every means is used to help the bosses; suppose it New York a Social Democratic administration such as we have had in some European cities—and imagine the utcome of this conflict.

If the powerful organizations of the building trades, making use only of the methods of pure and simple unionism, dare not carry the fight in

defense of a weaker sister organization fafther than this one has been carried, then it is high time that the workingmen of these trades made up their minds to take up the more fornidable weapon they have so long neglected—the uncompromising Socialist

At the present stage in the world's material progress it is nothing less than a social crime that such disasters as the Missouri flood should still be possible. Science has demonstrated to us that the maintenance of extensive forest tracts about the hondwaters of such a river would almost wholly do away with the danger; for the rest, modern engineering would not hesitate at the task of erecting such a system of reservoirs as would hold the surplus waters in the rainy seamn and distribute them over the arid lands in time of drouth, thus serving a double purpose. Why have the forests been destroyed? Because the lumbering industry has been left in private bands, to be carried on with regard solely to profit. Why have the needed reservoirs not been built? Heno capitalist could expect adequate profits and to a government guided by capitalist ideas the saving of human life is not a sufficient incentive to action. When men learn to act tegether, not as profit-makers and profittakers, but as mon-that is, when we have Socialism-then Man will become truly the master of Nature.

THE POSTOFFICE FRAUDS AS A SOCIAL SYMPTOM-

The extraordinary disclosures in regard to the postal departement, showing it to be literally honeycombed with corruption, are all the more significant in that they show such official rescallty to exist under the administration of the stremeous amb incorrent this Roosevelt just the same as under readers will senerally saree with us in considering Roosevelt as being much above the average of Republica and Democratic presidents and other politicians in personal character. W have no doubt that he has been and fo sincerely destrous of giving an "hones hasinds administration" on engital principles, and he is a man of mream energy and will-power. That correct tion should be as fingrant in high goverament circles during his incu as during that of mon so marindly to furior to him in these qualities se Cleveland and McKinter should be, to all who do not take the Socialist view of the subject, a matter of great sur price. We us it is no comprise. It also ply attengibets our controlles that is bonest Republican or Democratiff acministration, an hopest stiministration

tisan or non-partisan name, is morally

Men do not gather grapes of thorns nor figs of thisties. The essential dis bonesty of the capitalist system, the inequity of its fundamental principle. inevitably infects all of its manifesta tions and agencies.

Capitulism, we say, is essentially and fundamentally a dishonest system. Its manne is the alleged right of profitmaking, the alleged right of certain men to get something for nothing, by the ownership of the means of production without access to which other men cannot live to compel those others to give up a part of their product. Now just as the habit of gambling perverts the reasoning powers and weakens the will of the gambler by fixing his attention and his hopes on events which are not to be brought about by his efforts. but are to be determined by chance, so the legitimate business man's habit of fixing his attention and his hopes on the division of the product of other men's labor distorts his moral judgment and tends to make him set up success in money-getting as the chief if not the sole standard of right conduct.

Business has its own code of moral ity, indeed. But that code is, in a way, an arbitrary one; it has no basis in reciprocity of service; its function is merely to make the system of getting something for nothing workable by ruling out certain methods which, if generally practised, would bring the whole system to a standatill. Just bequye the code of business mornity is thus arbitrary and superficial, because it wets up formal and not essential standards of right and wrong, its infuesing upon the minds of its own de in weak and is easily overcome by the hope of pecuniary gain. The st aim in life, says the great god Business, is to get something for nothing; distinctions of lawful and unlaw ful are merely questions of method. But here I can achieve that high aim of getting something for nothing casier and quicker, says the worshipper of Business, by unlawful than by lawful means; the end is more important than the means; the purpose of the law is to protect us (each of us individuaffy) in getting something for nothing: it would be foolish for me to let the words of the law hinder the realiza tion of that purpose.

The business man does not reason it out clearly after this fashion. He acts more or less instinctively. But in the great majority of cases he acts-and rensonably-along this line.

Let ue appeal to one of his own men. We quote from the New

York "Times:" "In an article on "The Laws in a Great City," contributed to 'The Messenger,' a Roman Catholic magazine published in New York, Mr. Fugene A. I'hilbin tells, as providing 'a slight in-dication of the mind of the average

dication of the mind of the average man in business as to moral law,' the following curious story:

'An out-of-town merchant sent a large quantity of silverware to a firm to the trade with whom he was as in the trade with whom he was acquainted, with the request that the lot be sold. The firm selected from the consignment some pieces for their own noo and offered the balance for sale. A pid was received and telegraphed to the owner, who accepted it. He never knew anything about the consigned taking the pieces for themselves.' A member of the firm, says the ex-Dis-trict Attorney, narrated the incident to him as an evidence of business ability. and seemed not to have even a suspi-cion that the morality of the firm's course was open to adverse criticism. 'Had not the consignor of the goods.' he asked, 'accepted with satisfaction the price offered for the lot, and suthorized the delivery upon such terms What then was wrong in the firm takstances, although they received com pensation for their services? The weak rolet in this argument, of course, is its overlooking of the tacit understand-ing, amounting to a tacit contract, that they-could for all the goods. On that understanding the consignor accepted the bid, and he was the victim of a particularly despicable rebbery, since it was committed by men whom he trusted. Now Mr. Philipin, with his the immorality nor the criminality of such an act is appreciable to 'the mind of the average man in business."

The "Timos" professes to disagree with this last remark of Mr. Philbin. But in the hottom of his heart every man of affairs knows, and many will now frankly admit, that what he says

in perfectly true. In the realm of politics and government this tendency to lawless dishonesty--as distinguished from the lawful bonesty of prest-making-become doubly strong. It is idle to talk of public responsibility to one who has boon trained in the ideal of private profit. Edward Bellmay is quite right in coving (in the last chapter of "Equality") that "political corruption morely means, the eccasional application to the public administration of the profit-areking principle on which all private business is conducted," that "k case of corruption in office is simply a case where the public official forgets his eath and for the occasion takes a business-like view of the opportunities of his position—that is to say, when the public official falls from grace be only falls to the normal level on which all private business is admittedly con-

It is hardly worth our while to com racut on President Hompstof editoria tiorist." The rank and file of the trade uplons know that it is not line that the ess and excavators and "common or capitalist principles under any par- Socialists are open or secret enemies of 1

the unions and silies of the employers. They have eyes of their ewp and cars and brains; they have the opportunity to observe and form their fadgment: they need not and do not depend on Mr. Gompers is see and hear and think for them. The extent to which Socialist aneakers-even those who do not beong to organised trades-are besiege with invitations to speak to local un ione is sufficient evidence that Mr. Gompers has good reason to be alarmed and also that his denunciations will do but little barm.

THE AUTOMOBILE STAGE OF SOUTALIST PROGRESS.

The appeal of the New York State Committee, published elsewhere, presents some interesting features and offers some suggestions for discussion. that the Socialists are not exempt from the danger of slavery to routise. This, they contand, is proven by the readiness with which Socialists take to besten pathe of agitation and the rigor with which they oppose any de parture from these paths.

The plan of the New York State Com nittee is to send out an organiser, with an assistant, on an automobile. They are to cut loose from their base of sugplies, and are to est their way through the enemy's country. This plan may not be novel to the West, the home of wild schemes, but is certainly a refreshing innovation in the Eastern methods of Socialist agitation. The plan is based on the proposition that Socialism is past the stage when the first qualification of a Socialist agitstor was a tamel's capacity to get along without food, Socialism is nowaday sufficiently popular and an able expon ent may manage to "keep a rebellious oni in a wretched body." even in a hostile territory. Hence the State Committee conceived the plan of making the consumer pay the cost of agi-

The scheme is hold and worth to ing. With an agitator like Comrade Fieldman it will have its best chance. The \$300 for the automobile should b given with a will. As the whole plan is conceived for the benefit of the state outside of New York City, we expect torrents of money from all parts of the state.

Clark and Hearst is the latest com bination for the Democratic ticket-in 1904. Or is it Hearst and Clark? Either way, it will do. Clark, convicted briber, and Hearst, patron of sples in the unions, Clark of the Copper Trust and Hearst the blatant trust-smasher, Clark who locked out his Artsona employees because they asked for the eight-hour day and Hearst who says "Labor is Democ racy's natural ally"-that ought to autisfy everybody.

Current - # # # Literature

All books and pamplifets mention in this column may be obtained through the Socialist Literature Company, 184 William street, New York.

world," said the Disagrecable Man, "and not enough people to dust them."
If there is any sort of books to which this dictum would particularly apply, it is to Socialist novels of anticipation. Beliamy's "Looking Backward" had an effect; but the effect was, is our opinion, not strengthened but positively weakened by the use of the fiction form. Morris' "News from Nowhere." an infinitely better written book in many respects, certainly added little to the fame of its author. Surely these two were all we needed in this line-Surely these if we needed so much. But not a year has passed without bringing us a sup-ply of books of the same type, differof the details and in their varying de-grees of literary merit or demerit. E. A. Dague's "Henry Ashton" (published by the author at Alameda, Cal.) is one of many, and does not seem sufficient ly distinctive to be singled out as a trific better or worse than the average If we have Socialists who can write atories, let them write of things as they are, not of things as they should, would, could, might, or ought to be a century hence.

Parhana it is because the present re viewer is somewhat blass to revolu-tionary literature that he finds James Aliman's "God's Children" (published by Charles H. Kerr & Co.) disappoint-ing, at least in reference to the expec-tations aroused by Comrade Aliman's undoubted brilliance on the lecture platform and in conversation. The conception of the book is not a new one, being simply one of many devices for picturing our existing society as it would be seen by one not inured to fin cruelties and its shams. God sonfs crueilles and its shams. God confisions his messenger, Mercury, to Earth to inspect and report upon the conditions and behavior of his children. Mercury, assuming truth and kindliness in others, gives and receives many rapleasant surprises among the civilized people he inects, and goes back to Resease with a very underso. back to Heaven with a very unfavo hack to Heaven with a very unfavorable report. The impression which the book makes on an old Socialist is not a fair test of its value. It is written for those who are not yet Socialists and if it only serves to shock them by the frankness which they are likely to call blaspheny it may serve a very good purpose. The book is well bound and selfs for 50 cents.

A man with deptin and land can do a great deal in man with captul and no haid can do monething; but a main with land and no capital can—well. By might read "Progress and Poverty."

MacCARTNEY'S ACCOUNT OF HOW HE BECAME A SOCIALIST.

From The Comrade.

While Socialism is based in econduics and is primarily an interpretanevertheless an inclusive philosophy-uny, more, it is a religion, the new religion of humanity. When it is real ised it will transform every important

hase of human relationship.

It is the method whereby brother good may be realised; it appeals there fore to the idealist. It inculcates right relations; it thus satisfies the in-tuition of justice. It will relieve untold suffering. The one who accept it, while still sympathizing with the weak who are the chief victims of the There are many comrades who hold present social system, will see it that the Socialists are not execut from dens lifted from women and children, and will by the great hope be impired to brave words and urged onward to strenuous action.

Socialism is the realization of democ racy in industry. It appeals, again, to him who has faith in the capacity, wisdom and integrity of the people.

Socialism being a scientific interpre tation of economic evolution and the predication of a final method, cane and ust, of producing and distributing life's necessities, satisfies the intellect. He who understands the fundamentals of economics passes through the laby-rinths of history with calm assurance, for he has found the meaning of the past. He opens the periodical of to day or reads the daily news and car interpret history as it is making. Thus knowing the past and reading the present, the Socialist predicts with reasepable certainty the future trend and describes with accuracy the fine

industrial system.

Now from the fact that Socialism is so comprehensive it follows that mer of different temperaments, mental contitutions and different training ar led into the naw realm through vary

ing wars.

I presume that Socialism appealed to me primarily through my faith and trust and love for the people. At the age of seventeen I had given myself to the ministry and began to prepare for that work. The power of the Gos-pel story as I read it as a boy was the record of the ministration of the man Namercth to the common people "And the common people heard him gladly." This account of service to the givent masses of men, this merger of the one life into the common life-this was which thrilled me as a young religious entiusiast and was the in-spiration through the struggling years

of my preparation.

At Iowa College, Grinnell, I took the conventional course in political economy, and, as I remember it now, was what interested in Socialism as i ras cannally treated. I believe I wrote a thesis on "Christian Socialism." Yet I had not passed out of the theological period, the resim of religious imagination, and I thus did not give adequate attention to the subject, mer did I real-ine the fundamental nature of the

I graduated in 1880 from college and entered Andover Theological Semi-nary. In the winter of 1800 1 read Looking Backward. I was pro oundly affected. My eyes were opened somewhat to the enormity of the present industrial system, and I began to see the vital relationship between my religious ideals and the constructive principles advanced by Bellamy. also saw the antagonism between these ideals and the brute and devil principles prevailing in industrial life. I began immediately to formulate in my own mind practical plans whereby these dreams of Bellamy might b realised. Things were rather hazy to me, I admit, but I said to myself: "Now the national ownership of rail-

cipal ownership of public functions like the street railways and so forth may be a beginning."

I pursued my theological course, but theoceforth my main interest centered in social and industrial questions. I studied quite thoroughly social settlenent work and kindred lines of en vor. At this period I was very clology," as it was called under Prof. William Tucker, poss William Tucker, now president of Dartmouth. Among other books I read General Booth's "In Darkest Eng-

General Booth's

roads and the telegraph, and the muni

the People." In 1802 I was in the city of Denver on my vacation. I identified mysel with the Prople's Party and entered eathusiastically into the campaign. Of course, I accepted the bimetallic side of the contention, but that which drew primarily to the movement was the fact that the platform incorporated na-tional and municipal ownership and direct legislation. The Popullat moveant while donmed to failure from the beginning because it was centered around a deinsive principle, had never-theless a certain meaning in so far as it represented the revolt of the people against the tyranny of wealth. It drew together the progressive element in the nation and performed to a limited degree an educational func-

tion.
I graduated from Andover in 1808. a graumied from Andover in 1808, having become a Unitariau. I warked a year as assistant in the Second Church of Boston, and in 1804 accepted a charge in Rockland, Mass.

During the first year I did not say During the first year I did not say much on social questions, but in the second year preached is number of sermons ou industrial and political subjects. On a certain Memorial Sunday I preached before the G. A. E. on "The Old Siavery and the New." The sermon was really, a study of the Troots. It portrayed the rise of a new feedalconsequent ensurement of the American people. It draw analysis consequent canners as the American people. It drew analogies between industrial alayery and chattel slavery. But as I view 80 now, I see that while restined the dangers to the Republic I remaind the daugers the response consequent upon the concentration of whatth and provide under a Trust syn-tres. I had not as yet clearly ness the havirabrity or the utility of the Trust, lose field T grouped the fundamental late of the secondary of industrial avelaw of the sequence of industrial sys-liam. That set as yet superciated the field that the Trial system was at once the cast of me distinctive conomic for an its bessel of a first that the system of combination mader pri-vate ownership was the accessity precursor of combination under collective ownership.

I might mention the fact that during this period I became interested in the Blochdale Co-operative System. A mail group of us worked hard for two or three years and attampted to launch the scheme in this country, but we saw the overthrow of our plans. Never, however, did I regard voluntary Cooperation as a solution, but only as a pallistive and a defensive measure. All through this time I insisted on the necessity of political action on the part of the working class.

I shall have to admit in these "con dons" that I supported feesions" that I supported styan in 1896 as the nominee of the Populist party. I knew, however, that the movement was doomed, knew that the Democratic bon had masticated one more victim. My interest in Populism more victim. My interest in Popularia died with my last vote for its Presidential candidate.

When Chase and Carey were elected In Haverhill my attention was called to the young Social Democratic Party. I studied its platform, met certain of its leaders, identified myself with the movement, and in 1808, I believe, we

formed a branch in Rockland. While I had given some attention to Karl Marx and had, of course, come into contact with criticism of his theories during college and seminary courses, yet I had not got at the foun-dation of his interpretation.

I now began a serious study of

'Capital," reading at the same time Aveling, Hyndman and other commentators. I caught somewhat of the meaning of industrial evolution, accopted in the main his doctrine of the economic basis of history and received the general proposition that the indus-trial system of a given age determines. its type of civilisation and moulds and mands all functions

For the first time I clearly grasped the theory of surplus value. I under-stood then the meaning of the wage system. There followed in natural or-der the corollary: the class struggle. More sharply defined than ever before did I see the irreconcilable conflict between the producing class and the ex-

ploiting class.

My interest in the political movement with which I had identified my self, together with a growing convic propaganda, seriously diverted my inerest in the church and in so-called religious questions. I saw that I could am, and resigned my pastorate, alcialism, and resigned my people though my relations with my people trans intimate and happy. In June were intimate and happy. In June, 1860, I resigned, with the purpose of devoting myself entirely to the Socialist cause.

At the solicitation of friends I ac repted the nomination for Representa-live in the fall, and much to the surprise of Republicans and Democrata, and much to my own surprise, I was elected. Then began my three years' service in the General Court of Masachusetts. Suffice it to say that the hat three years of battle in the Legis lature have served to confirm in my own mind the truth of our fundamental propositions; served to impress
upon mind and heart the hearty and the justice of the Cause to which I have gladly given all that I have, or im, or expect to be,

am, or expect to be.

Comrades must be charitable with
me if they shall consent to peruse
these "confessions." I have come from
fignorance into only partial fluinfination. I am still a student of the grent novement and the profound philo-ophy of Socialism. My steps have en halting and my progress has been slow, but I have tried to follow the light, and I shall press onward. I have done a little in battle and I will

MOURN FOR MacCARTNEY. (Continued from page 1.)

chievement that will yet 'burst full

"He longed for equality. Death has gave his all will be his monument, The merriment of children, the happiess of women, the deep-fibred joy

froght and hoped will be his opticiple.

"MacCariney, counsade of mine! Soldier in the army of the workers of the world! Living, you earned the right to life; you have earned the right to life; you have earned the right to

rest. May you aloop well!"
The Socialists of Massachusetts feel MacCartney's death as a profound per-sonal loss. They realize that it will be hard indeed to fill his place in the ranks. But, as he would wish, they are resolved that the work shall not affer from his absence so far as is to their power to prevent it

MacCARTNEY'S LIFE AND PERSONALITY.

Frederick O. MacCartacy was born n Prairie du Chien, Win., on Nov. 2, 1864. He was graduated from Iowa College at Grinnell by 1880 and from the theological seminary at Andover Mass., in 1863. He soon passed over From the Congrepational is the Uni From the Congregational 19 the Uni tarian ministry. After a year's service as assistant pastor of the Second Unitarian church in Boston he was called to the church of the same denomina-tion in Rockland, where he continued mutit July, 1800, when he resigned the must only, how, when he resigned the pulpit in order to devote his whole en-ergy to the Enclaimt movement, the resilization of whose economic princi-ples he had cause to consider a neces-sary precedent to the resilization of the othical ideals for which he stood in the

church. In resigning the pasterate he said: In resigning the church with hitterness toward it or toward the ministry. But the church as new controlled for hunding-post in regard to largue work for hunsently. The church is hereby controlled by these who have conquered to the industrial warfare. A certain minister in a large city presched one foundary is condemnation of the territie condition they were in of the terrible caudition that prevail to many at the city renement and soveres of the prominent resolution and soveres of the prominent resolution for the prominent resolution to the prominent resolution possible of the farmed or unfortunate possible of nich tenoments, went forth the "station," Those "stations" are unward, an organized county can permanently take cure of the station, and the station of nick tenoments, went forth the "station," Those "stations" are unward, an organized an organizer and huntler,"

highly indignant. The church will listen with satisfaction to the preachings of true and beautiful doctrines of the fatherhood of God and the brotherhood of man, but this large and dominant party in the church refused to hear with satisfaction one who, burdened with the sense of the miseries of God's poor, his sense of justice outraged by the terrible aqualor on one hand and the unexampled wealth on the other proclains the necessity of squaring practice with theory and profession." In September, 1860, the Socialists of the Fourth Plymouth district nomi-

mited MacCartney for the Legislature, and, although his candidacy was regarded as a joke by the old-party leaders, he was elected by a plurality of 102. He was re-elected each year since, always by an increased vote, and at

always by an increased vale, and at the last election the entire Socialist licket carried Rockland.

Before becoming identified with the Socialist movement MacCartney was interested in various co-operative movements, and his evolution into Socialism was gradual. He was a student of Marx and become an entingdent of Marx and became an enthusiast in advocacy of the working class He was a delegate to the Indianapolis

convention of 1900 and 1901, and made the speech nominating Debs for Presi-dent in the former convention. He was a supporter of the Chicago N. E. H. in 1900, but was earnestly desirous of harmony on a firm and lasting basis, and be accepted the results of the unity convention of 1901 with enthusi-asm, and became a most arient sup-porter of the united Socialist Party.

Although generally known only as a propagandist and parliamentary cham-pion of Socialism, he took an active in-terest and exercised a healthy influence in the internal affairs of the party in Massachusetts, his earnestne purpose and his sound judgment al-

ways commanding respect.
In the Legislature he was a most impressive figure and was regarded by rise oil-party members as a formidable autagenist. It is hard to say whether they dreaded him or Carey the more or do which the Socialist Party owes the most in regard to their legislative work. Both were ready and powerful debaters and their different qualities enabled each to supplement and compiete the other's work.

MacCartney was a man of exceed-ingly sensitive feelings and the malicious misrepresentations to which be, in common with all Socialist speakers, was subjected hurt him deeply. An instance of this occurred only a few months ago. Speaking before the Women's Socialist Club of Boston, he showed how relations of the sexes are degraded and perverted by economic influences; of marriages in which, as is so often the case, the prime consideration is not affection, but the need of money and aspecially the economic dependence of women, forcing them to marry for the sake of a home, he said that "Such marriage is sanctified protitution." The capitalist papers, almowithout exception, witfully garble this utterance in reporting the and quoted him as saying that riage is sanctified prostitution," Mac Cartney, who held and lived up to the highest ideals of manly purity and of respect for women, was cut to the quick. The strain and anxiety resulthig from such experiences, while it never deterred him from activity or daunted his courage, yet undoubtedly did more even than his excessive work to shorten his thys.

"SOAP-BOX" AGITATION.

By C. J. Lamb.

It seems that the Michigan plan campaign is attracting attention in about it is in order. It is all quite sin le, quite devoid of "red tape" and a nost entirely destitute of the dollar mark as to be unique in the history

First, we know that in many, if not in most, towns, there are now one or more Socialists who desire meetings Second, we know that there are many Socialist speakers who desire to tell the good news and great advantages of the economic regeneration to as many people as possible

of the Michigan cam-The progress of the Michigan cam-paign so far has confirmed these two propositions. There are contrades in hundreds of towns who want meetings who desire to bear the message of Sogialism to these towns.

a Each of these demands, observe, is the supply, the satisfaction of the The problem is to get these audiences

and these bpeakers tegether. To do this is the work of organization, Both our audiences and our speakers are, as a rule, financially poor in order to solve the problem, the very minimum of expense must be reached. minimum of expense must be reached. The Michigan plan, I think, necom-

The large items of expense of meetings are: 1. Cost of travel; 2. Rent of halls; 8. Advertising; 4. Support of speakers.

pilisben this.

The first item can be cut way down by reducing the travel to the lowest point, and this is accomplished by the organization, of, regular circuits in which every possible fown is in-cinded. The second and third items of cost are almost entirely avoided by inking advantage of "the good old summer time," and holding meetings out of doors where, as a rule, the andi man in struct name, and the attention and interest not at all diminished. As to the fourth item of expense, that cannot he avoided; but see, the saying that can be effected on the first three items will, on the average, more than sup-port another sponker, very much more What is paid for hall rent will suppor What is puld for hall rent will support a speaker; the average of faires will probably do the same, and the cost of advertising a meeting is often more than a speaker requires for his support. By reducing and avoiding the fract three items of expense, rathoned reavel, beins and advertising, it should not be difficult to maintain a corps of speakers in every state, and this is unfait the Michigan plan seems to be doing in Michigan. I may "meeting to be what the Michigan plan seems to be doing in Michigan. I say "means to be

where one or more comrades agree to provide food, shelter, and car fare not to exceed one dollar, to the regukers sent out by the State Committee. As many of these "sta-tions" are established as possible, since the more there are the less the traveling expense will be per meeting

These stations are arranged into cir cuits corresponding to lines of travel and over these circuits our speakers pass at quite regular intervals of time at a cost for travel depending upon the number of stations and their distance apart. For instance, from Detroit to l'entwater the distance is 244 miles, in which distance we have now estab-lished twenty-five stations, nearly all of them towns of over 500 up to 00,000 population. This makes the average distance between stations about ten miles and the average fare about 30 cents which is said to be quite a small um of money. To cover this one cir cult, devoting two or three days to the larger towns, will take a speaker thiry-five days and the total of railroad fares would be about \$7.50 or about 25 cents per day for that item. This is our best circuit, but we have several other where our stations have reduced the average fare to fifty cents or less; others 75 cents, while the fare to some of the out-of-the-way stations reach a dollar or more.

Our State Committee has no funds and our speakers are entirely dependent upon these stations for their support, and right here is where the Michigan plan will fall if it fall at all. But as the support of speakers is the only considerable item of cost, the party he-ing practically relieved of those other expenses. I think the Michigan com-rades will be able to carry the plan through to entire success. Some sta-tions may drop out on account of this one item of expense but probably not many. Most probably very many sis-tions will be added. Be far the disposition of comrades inclines them to go to quite unnecessary expense, such as securing halls and the getting out of bills made necessary thereby and by quartering speakers at high-priced hotels when the speakers would much prefer to on to the home of some on ade and have that mo his family. Altogether, I look for an increase in the number of stations and circuits so that by the time the "pie nic" period or enthusiastic stage of Socialism arrives we will have a permanent organization covering hundreds of places and count to all emer

In this connection a word with regard to high-priced speakers and meet-ings. In many places meetings cost-ing fifty or one hundred dollars or more are held. Now, under our Michigan plan, one hundred dollars cash will pay all the really peases of a thoroughly competent speaker for a whole month and reach twenty times as many people healdes planting Socialist seed in twenty times as many fields—a matter worthy of careful consideration in arranging mortings.

Let me correct an error in the edftorial "More Saap-Box Agitation," in The Worker of May 24. No provision is made for the payment of speakers from funds of the state organization. The support of speakers for this preliminary campaign is left entirely with numbery campaign is left entirely with the stations. This places this item of expense upon the people who are directly served, where it properly belongs. Of course, the work of handling six, eight or ten speakers over a large state like Michigan is considerable and this with the cost of literable and this with the cost of literaable and this with the cost of literature for distribution, necessary print-ing, postage, stationery, etc., is about all the state organization can at pres-ent provide for. It is expected, however, that a collection which will largely come from the "other fellows" will be taken af each meeting and this, it is hoped, with the direct assistance of comrades at stations, will enable

ulate support our speakers in the field. No other terms have been offered to any of our accepted speakers, and no other terms have been asked by any of them. Indeed, the fact that these champions of Labor (there are thirty of them), most of them sensoned veterane, have not hangled at all about prices for their work in this field is a most encouraging sign of their filness to teach, and of the certain coming of the day for which all Socialists labor.

Thus it seems very probable that the resent campaign is demonstrate a plan by which hundreds and thousands of meetings can be held at trifling expense; will provide for the diffusion of the propaganda; will reof capable campaign managers in scores of pinces; will bring our scores of speakers; will result in the establishment of a permanent lecture bureau for the conduct of meetings hereafter; will educate Socialists in hundreds of places to the fact that their very best dependence is in one mon themselves and will give our state a solid organi emergencies.

Thus, ugain, the success or failure of Socialist measures is placed directly mon the working people themselves, where it properly belongs, and is not pendent woon leaders. Perhaps the heat feature of the Michigan "amp-hox" campaign is in what I may call the "diffusion of propagands" whereby the strength of our movement is found in the working people themselves and not in any leadership what-ever. To establish Socialism the workers themselves must be strong and self-reliant, and it is questionable if any pinn which leads to relieve them of their responsibilities or to deprive them of their self-relinice by any set of heavyslence or by any sort of guardianship whatever will, in the end, result in anything but the augrelicement of another exploiting class izement of another explaining class. Dryden, Mich., May 24.

"BUT THE REAPERS ARE FEW."

Comrate O'ffare writes from Ohiof "Your editorial More "Soap-Bag" Agi-tation' was timely. The beys every-where are yelling for speakers—not for where are yelling for speaking consight stands," but for engagements of one, two, or four weeks, I have been out just five weeks and larve got for more work than I could requests for more work than I could be in five merrien. See the hope out some way. We should break to hassidreds of nglarion this semanter and fall, for we shall need twenty those

PARTY NOTES.

Locals have been chartered as follows: Tulishoms, Knoxville, and Sweetwater, Tennessee; and Blue

National Lecturer John C. Chase has finished his tour in Arkanan and Missouri. He was present at the Arkanan state convention, held May 23, e he gave the comrades the beac Bt of his experience in forming their state organization. Leaving Arkansas, Comrade ('luse filled dates at Thayer gingfield, Rich Hill, Panama, Kan nas City, and St. Louis, Mo. During early June he will work in Tempeasee.

National Lecturer John W. Slayton has found the carpenters of Pennsylvania ready for working-class political action. In many places on his tour local strike has given him the opportunity to explain why the workers must control the government. The Pennsylvania trip has been completed. He is now in Ohio, and will go thence

National Lecturer M. -- Wr -- Wilkins had another experience with an arrty politician. The posters anold-party politician. The poster nouncing the Socialist meeting torn down at Independence, Orc. When arade Wilkins arrived on the scene rades together, he soon got a few comrades together, organised a local and challenged the chairman of the Republican comm for a deliate with the congressions candidate. The chairman accepted, but the candidate had beard of how Wilkins lind-given a drubbing to both Republican and a Democrat in one evening, and as a consequence he gracefully declined the incritable honor of being defeated in debate by a Rocialist. Comrade Wilkins will cute: Washington on the first of June.

National Organizer John M. Ray is making a successful tour in Tennessee and Georgia, having organized locals at Tullahoma, Sweetwater, and Knox-ville. Tennessee, and Blue Ridge. Georgia. Requests have come for an ranker in North Carolina and when organizer in North has been finished be will probably tour through the indus-trial centers of that state.

Arrangements have been made for Conrade John W. Brown of Hartford to finish Comrade Dan A. White's tour of the New England States. It be-came necessary for Comrade White to to his work in Massachusetta and being on the ground the National Becretary was able to get the services of another good worker to take his

The first twenty-five the The first twenty-first nomanin of the revised edition of the leaflet "Why So-cialists Pay Dues" has been exhausted and the second lot of ten thousand is going fast. These leaflets are sent out by the National Secretary without cost except for expressage; and they are making party workers in all localities.

The National Secretary is no ready to supply the party emplem. It is a lithographic beauty, flesh-colored hands are clasped across a sea-colored sea, and the words "Socialist Party" and "Workers of the World Unite" are white letters on a red background These buttons can be had at one cent

The National Secretary reports that the demand for membership due stamps has been so great that the old apply, which was on hand the first of the year, has been exhausted. In the new lot, each stamp bears the

At the last meeting of the Connecticut State Committee on May 24, Com-rades Mahoney, Kiaumer, Toomey, and White were present. Correspondence was received from Local Naugatuck, offering subscription cards to "Wil-shire's Magazine" as contribution to state fund: from J. W. Brown, declin ing nomination for National Commit-teeman; and from several locals en-dorsing plan for state organiser. It was decided to accept the sub-cards from Local Naugatuck and credit them on fund when sold. The secretary was instructed to inquire into the apparent error in report of National Committee of expenses of Connection legate; also to have a circular-letter addressed to trade unions printing and circulated. The time for nominations for National Committeeman was ex-tended to June 5. Financial Secretary reported recalute since May 10, \$8; stamps issued 180, on hand 94. Treas-\$8; total, \$40.25; expends tures, \$15.12; balance, \$25.78. Receipts for month of May: For dues, \$15.50; on state fund, \$7.70; total, \$23.20. Stampa issued, 200.

Local Meriden, Conn., will have an outing at Schiltzen Park on June 21 and comrades and sympathizers in that locality should help make it a

The Socialist Party Cinb of Blo The Socialist Party Club of Bloom-field, N. J., has issued an appeal for financial asistance in order to pay a year's rest for their club-house by July 1 and thus hold a very advan-tageous lease which cannot be dupli-cated elaewhere. All contributions shbuld be sent to Albert Schmidt. 32 Myrtic street, Bloomfield, N. J., before July 1 and after that date will be acknowledged in The Worker and "Volksteitung."

At the last meeting of the Hohoken City Committee it was decided to begin hedding open-air meetings in June and the city was divided into three aginties districts, seach district to be in charge of one branch. All the branchen reported good progress and steady increase in membership. The open-air meetings of Branch I will be held every Friday evening; Branch 2 will hold meetings on Saturday evenings; and Branch 3 will choose an evening at its near meeting. Two and the city was divided into three agitation districts, each district to be in charge of one branch. All the branches reported good progress and stoody increase in membership. The open-air meetings of Branch I will be held every Friday evening; Brench I will be held every Friday evening; Brench I will be held every Friday evening; Brench I will be the contration in meeting of Branch I will be time for him to make him meeting at its next meeting. Two commandes of Branch I will be time for him to make him meeting at its next meeting. Two commandes of Branch I will be time for him to make him meeting, get a supply of the will be time for him to make him meeting, get a supply of the National Committee he decided whether to count the Ohio vote or not at 50 cents; 200 for \$1.20; 300 or more at 50 cents a headred, and the Quorum has officially cancelled to his price. The Frence Committee will meet at the hall of Committee will meet at the will be not what the committee will be not will be meet at 50 cents a bundle of many hands the meet at 50 cents a bundle of the Social Democratic Party of

State Secretary White of Massachusetts spoke at Olneyville, H. L. iss Sunday, There was a good audience and the impression made by the speaker is shown by the fact that a local organization of the Socialist Party with English, German, and Polish branches was readily formed. On Monday Comrade White visited Pawtucket, with similar results, and a sinte organization will soon be formed in Rhode Island.

Comrade Soi Fieldman addressed large open-air meeting at Getty Square in Yonkers, N. Y., last Priday evening The S. L. P. was out in force and tried hard to hamper the speaker but were entirely vanquished and the meeting was so successful that the Yorkers comrades are auxious to see Fieldman start on his antomobile tour when the State Committee has provided him with a machine.

F. L. Robinson of Louisville, Ky., has been elected to the presidency of his local of the International Typo-graphical Valon. Comrade Robinson is well known especially in Kentucky and Tonnessee for his activity in the trade-union movement and in wider circles as a Socialists.

The monthly report of State Secre tary Critchlow of Ohio shows total reon hand, June 1, \$50.88. Ninety-three nating candidates for city officers for new members were admitted during the ensuing election and to attend to members were admitted during Agitation on open-air circuits will open on June 6 with Kirkpatrick at Dayton and Caldwell at Beliaire or Wheeling. Kirkpatrick will work south and across southern part of state while Caldwell will work north. and seross northern part of states oughsof Brooklyn, City of New York. making this possible. As soon as poss violetent or every twenty members in sible more men will be started on this ogod standing. same plan. If any comrades have not yet secured dates they should communicate with the site account with nicate with the state secretary with York, out delay as tours must be arranged a little nhead. Several comrades have seen the editors of their local labor papers and made arrangements to have them print the state secretary's weekly news-letter. Papers in Canton, Co-lumbus, Mausfield, Shelby, and Belle-ville have agreed to do this and comrades in other places are urged to take this maiter up. The tickets for the organization fund that are out are being received rather slowly and comrades are requested to turn them in as soon as possible so that this matter may be closed up.

Father Hagerty beld aucressful meetings in Dubuque, Iowa, and Free-port and Hillisboro, Ill., during the past week and will speak at Monett, Mo.. and Ryan and Sloux City, lows, during June.

Father McGrady held three large and enthusiastic meetings in the Grand Opera House at New Orleans during:

Comrade Spargo has accepted the in vitation of the Painters' and Decora tors' Union of Yonkers to reply to John C. Havemeyer's questions.

The Socialist Propaganda Club of Brooklyn is holding open-air meelings every Friday evening on the corner of Washington and Johnson streets and the corner of Atlantic avenue and Nevius street. On June 5 Charles Frederick Adams, W. W. Passage and others will speak on the former curner and Dr. C. L. Furman, P. J. Coone, and others on the latter.

All comrades in Manhattan and who can serve the party as speakers, indoors or on the streets, are conserved to attend a conference in the ceum, Monday evening, June 8.

H. Gaylord Wilshire spoke in the Kingsley Lecture Course at Stapleton. S. I., last Tuesday, upon "Socialism What It Is and What It Is Not." There was a good attendance and

AS TO MILLS' MOTION

To the National Committee, Socialist's

Party.

Hall, N. E. corner of One Hundred
Comradea:—I have received from and Forty-second street and Eighth
Comrade Clark the motion offered by avenue. National Committeeman Mills of Kahses, under date of May 23, providing "that the recent referendum relating to the headquarters and to the election of a new Quorum be declared unintel ligible, and that pending further instructions from the membership the headquarters remain in Omaha with Comrades Work, Lovett, Roc. Turner and Untermann acting as the Quorum until further and more definite instruc-tions from the party membership," to-gether with a suggestion for a naw referendum, and I beg leave to submit my views as National Secretary upon

In my opinion the National Committhe should either decline to act-upon or vote down Comrade Mills' motion, especially at this time, for the follow-ing reasons;

First, the present Quorum has not yet met and canvassed the vote on the referendum. An announcement of the votes has mersty been made to the National Committee and the purty memberalip for their information;

Second, a protest from one of the states (Nebraska) against counting the Ohio vote is now before the National Committee for action; should the Na-

st directly int rerned, I must protest against the opgation of this question of hea

ters beyond its present limits, unless such becomes absolutely necessary. The work of the national office has been hampered and obstructed, the party membership distracted and disrusted, and I have personally be subjected to suspicion and continu insults ever since assuming the p tion of National Secretary, through the activity displayed and feeling aroused over this question. There has been too much of this sort of thing during the past three months for the party erable or myself to desire any

The simplest and best thing to do is to have the Quorum meet as soon as the National Committee has acted on the Nebraska protest, and let the Quorum make the official announcemen based on its findings.

The vote on the Nebraska protes

will close June 3, and I shall return to Omaha in time to have a Quorum meeting held on or very shortly after that date. Fraternally yours, WILLIAM MAILLY,

Haverhill, Mass., May 27.

NEW YORK STATE

Plan for Self-Bustaining Socialist Agitatida-Sal Fishman to Tour the State in an Automobile-Fund for Purchase of Machine Has Airsofy Resolved \$143.

To the Comrades of the State of New York:-

The State Committee of the Social. Democratic Party deems the present favorable time to address to you a fe words in reference to Rocialist agitation in this state. It will be admitted that since the last campaign very little; has been done to advance the cause of Socialism in this state. This was due, primarily to the spell of apathy throughout the state and also to the want of means by the State Comp tee. But a remarkable reawaken itself noticeable among locals of the state. The demands for literature and speakers from various places come in ever increasing num-bers. The Socialists of the state are again at their posts and demand only an opportunity to serve the great cause of the working class. This opportunity offers itself to us now, and it devolves upon us to grasp it. The State Committee has made ar

rangements with the tried and able ngitator, Comrade Sol Fieldman, for a plan by which his tour, with an assist ant, will be made self-sustaining and will not be a burden to the State Committee. Neither will the locals be un duly burdened by the support and salary of the organizer. You will readily understand the significance of the arrangement if you take in con-sideration that the cost of an organ-izer—salary, maintenance and fare— averages \$40 for each week, to which

you must add the cost of an assistant. But the carrying out of this plan involves a novel departure from our routine methods of agitation. Com-rade Sol Fieldman will make his tour in an automobile. The State Committer is to furnish the automobile. You, comrades, are to furnish the money to purchase it. The cost of the automo-bile in \$500, and this sum must be raised before anyone has time to say.
'I object." We publish below a list of contributions and loans. Now, comrades, send in your contributions and then ask questions. The \$500 must be

raised at once.
HENRY L. SLOBODIN. Recretary State Committee of the So-cial Democratic Party of New York.

WESTERN NEW YORK

ROCHESTER, N. Y., May 20.-The vement in Rochester to raise money for the purpose of pincing an organ-izer in the field in Western New York for at least five months is progressing. The comrades are all putting their shoulders to the wheel and helping to raise the sum of \$400. Many hands make light work and the comrades here certainly are doing nobly by united effort. Comrade Spero has written that he would be unable to accent Rochester's invitation to underfound for it. We would like to hear from some good speakers who are at liberty to devote at least five months to continuous agitation. If there are any speakers available, will the organ izers of the various locals kindly inform us? We expect eventually to keep the organizer in the field con

tinually, i. e., the year round. If the comrades of Utlea, Auburn. Corning, Elmira, Watertown, Syracuse. Batavia, and Buffalo desire blanks upon which to secure subscriptions for the expense of the organizes to be engaged, they may communicate with Geo. W. Misché, 93 Adams street, Rochester, and he will furnish one to each. It is not expected that each a democratic sense, and that it bears local will take a certain sum out of its is large part of the burdens in the state done, there is no question but that we would have no organizer in the field from individual comrades who are willing to make a little sacrifice so that other workingmen may receive

the news of the emancipation of the workers through Socialism.

The fund is increasing. We do not want one cent which is not given cheerfully. We want only those subacriptions from persons who are willing to make accrifices and help in a determined effort to bring about So-cialism. Rochester has no time to have petty squabhies and strife. We use our ammunition against Capitaliam. We are for Socialism every day

in the week, unitedly.
On June 21 Rochester will hold its annual picnic at Staudemeler's Rifle Range, north of Seneca Park; take North St. Paul street line to pavilion. There will be speaking by Comrades Bach, Lippelt, and Meverman, and probably others. It is boned that all comrades and their friends will attend as the proceeds will be used for campaign purposes. O. W. M.

WORK FOR ALL

It is a false statement that there is not enough work for all. There is too much. It is quite true that there are not enough jobs for all, but there is planty of work. There are thousands of miles of roads that need attention. of miles of reads that need attention.

There are millions of old shantles and house waiting to be torn down and houses erected in their stend fit for human beings to live in. There are public parks to lay out cannot to dignate the proper and playerounds to be made—there are immunerable things that the people need and will have under a system that will not present men been working when there is weak to do—The Caming Nation.

STATE CONVENTION IN NEW JERSEY.

Delegatas of Thirty-five Branches Meet at Paterson to Act on Matters

of Party Organization. PATERSON, N. J., May 31.—The state convention of the Socialist Party. held at Helvetin Hall in this city yes terday, was attended by about one hundred delegates representing thirty-five branches; Bergen County had seven delegates; Burlington, one; Camden, three: Resex, twenty-eight; Hudson, forty-five; Passaic, fourteen; Union, four; Mercer, three. Bobert-J. Victor and Jeep Hulling presided, with and Jan. E. Hillings presided, with

Charles Ufert as secretary. The Rosex County Committee profrom Branch 7 (A. H. Woodruff, Percy E. Goebel, Geo. H. Goebel, Morris Green, and Frank C. Deys, on the ground that the branch had failed to supply a roll of membership as pro-vided by the constitution when called for by the County Committee and had otherwise violated the rules of the orguilation. The protest was referred the a committee which, in its report, while confirming the charges made, found that the County Committee had

enris, 28c.; J. Williams, 28c.; E. H., and to extend the organization into rev

P. "Firth of the Finance Committee showed receipts of \$787.71, expendtures of \$767.50, and a balance of \$20.21, with bills collectible of about \$100 and \$100 owing to the National Committee for due-stamps.

Resolutions were adopted expressing the sense of loss felt by the courades at the death of Representative Mac-Carrney, endorsing the movement for the establishment of an English Social-ist and trade-union daily in New York City and calling on the Socialists of New Jersey to do all in their power to swell the fund for that purpose; and cudoraing the resolutions in regard to the Kishineff affair adopted by Local

New York a few days ago.

A considerable part of the time of the convention was occupied in the sevision of the state constitution of the narry. The result of its work will be

rniunited to general vote.

There were no nominations to make, as there is no state election this fall. but only legislative and local elections

COMMENT FROM KRAFFT.

The main effect of the state conven-tion of New Jersey was to demonstrate to the younger and consequently, no merically much weaker locals, especial lly from the southern end of the state, that not only is Hindson County the largest local of the state, but also the best organized and best disciplined in

organization.
The new members and delegates will have learned from the proceedings of for some years to come. We expect to who have thus far forced themselves raise the entire \$400 by subscriptions who have thus far forced themselves from individual comrades who are merited rebuke. It is to be hoped that Comrade Goebel will submit to party dictates with true Socialist spirit and ithat Twelfth Ward Branch of Jersey City will be spared the unpleasant n scensity of purming its intention of demanding his recall from the National

in regard to the new constitution which will now be submitted to a referendum will now be submitted to a referendum will prove of lasting benefit to the delegates present. When finally adopt-ed the constitution will be a model of fix kind in this country. It may not barm to remark that the

action of delegates impatiently leaving the convention because a session of ten to twelve hours, interrupted by recasses, seems, telique to them, is impar-donable. It displays a culpable disre-gard for their constituents whose inter-ests are thereby neglected. A few hours once a year is not too much to sacrifice on the occasion of a state con-

in conclusion, let it be distinctly un-derstood that the writer alone is re-sponsible for this article, and that it the written without a lot of malice o ill-will toward may one, but rolely for the purpose of dispoling false impres-sions from the minds of novices in our

MINERS MAY HAVE TO STRIKE AGAIN.

Anthresite "Operators" in Pennsylvania Filibuatoring Against Putting Awards of Strike Commission Into Effect.

WILKES-BARRE, Pa., June 2.-Another dark strike cloud founed up on the horison of the anthracite coal region to-day. The Executive Boards of the United Mine Workers in session here to-day indersed the selection of their three District Presidents on the Board of Conciliation, authorized by the Strike Commission, and if these members are not recognised by the operators" the Executive Boards contemplate chiling a convention of mine workers to declare a general suspension of work until their members are given recognition.

The "operators" are evidently determined to exhaust every means to avoid putting into effect even the small saious awarded the mine workers Strike Arbitration Commission. Many grievances have arisen -rom their evasion or direct riolation of the Commission's awards in regard to wages, hours, etc. Under the decision such questions were for go to s present game of the "operators" is to prevent the organization of such a board, at least until they can lay up ufficient stock of coal to be willing

The mine workers are, making every effort to avoid the necessity of a conflict, but many feel that it may be forced upon thein.

SLIDING SCALE DOES NOT WORK.

MACHINISTS' PROGRESS TOWARD SOCIALISM.

tengues."

At the tenth biennial convention of the International Association of Ma chinisis in Milwankee last month, not chinisis in Milwaukee last month, not-withstanding the defeat of reassistions cholorsing the Socialist Party and the most inconsistent adoption of the rec-cumendation that the han be lifted from members of the state militia so that they be slowed to join the or-ganization, the tendency was undoubled by Socialistic, as shown in the adop-tions of the following plant in the of the following plank in the

declaration of principles:

"To strongly recommend our mem
bers to vote for and support candi ership and control of all the means of production and discribed end that it will not be necessary to humiliate our citizenship in the future with fruitless petitions.

Another stride forward is a change order of business of the local Under the head "Good of the political economy may be disorder pointers sconous may be dis-cussed for twenty minutes and this order is now placed seventh on the order of business instead of differents. An amendment to the constitution was adopted providing that: "Any sec-

the L A. of M. for political purp at the option of the lodge." And the delegates to the American Federation of Labor convention were instructed to vote for and advocate the abolition

of all lobbyists. A referendum vote was ordered taken on the questions: Are you favor of the A. F. of L. endorsing clalism? and, Are you in favor of claims r and, are you in favor of re-electing the present president of the A. F. of L.? These questions will come up in every local lodge and their discussion will educate a large number of manufactures. of members.

MUNICIPAL BAKERIES.

Some Account of the Workings of th System in the Sicilian City of Ca-

From the Naples correspondence of the New York "Evening Post"--an ultra-capitalist paper which can afford to tell the truth to its limited circle of readers, to some extent, about the labor movement and social conditions abroad. though not about these same things at home—we condense the following account of the municipal bakeries in Catania, Italy, the establishment of carnia, half, the establishment of which was announced in The Worker-some months ago. The "Post" does not, as it should, give the Socialist Party credit for the movement, and it misrepresents the opposition of the private bakers, making it appear as if it had been a strike of the workings against the municipalization, whereas it was actually an attempt of the prirate master bakers to continue or in-crease their profits at the expense of the half-starved people. All Italy, says the "Post" corre-spondent, is discussing an experiment.

spondent, is discussing an experiment in what is called by the awkward title of the "municipalisation of bread" that is, the assumption on the part of ocal authorities of the business? baking and distributing to its inhabit ants all the bread consumed within monopoly of certain lines of enterprise, of which the cultivation and manufacture of tobacco is the most conspicuous xample, has made the logical transi tion to governmental control of other industries intelligible to even the most ignorant and thoughtless. In several of the small towns, from time to time, the local authorities have taken upon themselves, for longer of shorter perlock the functions of a public bakery This has usually been as a temporary expedient during strikes. At that time the bread manufactured by the town was of a better quality and cost less than what the bakers had provided. On the settlement of the strike the municipio cessed its interference. the present time Perugia owns and on erates both a mill and a bakery, and Forli a bakery; but no large city of France or of Italy has undertaken suc an enterprise until, quite recently, Catania. The experiment of Catania has been watched far beyond the bounds of Sicily, and from Milan to Naples people are measuring its suc-cess and discussing the desirability, of following her example.

The economic condition of the work-

ing people in Sicily is miserable in the extreme. A lira (20 cents) a. day, is above the average wages of adult workers and life is maintained only at the lowest margin. Slow starvation is limost the rule and death from hunger

what do these people ent? For brenkfast one cats five centimes worth of bread-a cent's worth; at noob, more bread, a raw onlon or tomato, or occa-sionally a piece of fish, and this costs a man twenty centimes. At night he may eat macaroni with a vegetable, beans or polenta (cornmes) mush), and bread and perhaps a little wine; and this costs him sixty centimes. If one adds three cents for contingencies, rent, clothing, et cetera, the lira a day is consumed. Fuel to keep himself warm he never has, rarely needs. A quart of wine, costing nine or ten cents, lasts a moderate man a week. He may choose bread and water for breakfast and supper, and a minestra, a meal of soup, nucle of bread and water and vegetables and a little fate. A few this or a little fruit, an orange, or a mediar ceased altogether. The increase in or two, may sometimes afford a change of diet; all, perhaps, grown just out-

less houses. Every soldo's worth of sufficient nutrition of the working fuel is carefully reckoned where such classes in Italy. numbers of people live in great misery In few houses of the poor can be found THE AUSTRALIAN there is only a brazier. A few buy little flour, mix it crudely, and take to the baker's and pay him so much pe kilo for laking it in hir oven. It is a lard, unpulatable-looking thing, which requires much soaking in water before it is caten. Meat they rurely can have, except haply at Easter or Christmas, and eggs are all but unknown.

As in France, almost every Italian

town has its tax-gutherers stationed at its approaches, levying an impost chiefly on whatever is used for food. Not long ago a law was passed making it obligatory for all towns, whenever their finances had reached a certain de gree of prosperity, to abolish the "dazio," as this toll is called. This law took effect, as far as Catania was conerned, the first of last July. In spite of the consequent reduction in the cost of flour, the bakers maintained prices manded, threatened an increase.

The city thereupon entered the business, setting up public bake shops and employing such of the bakers' employees as chose to leave their private employers or to give up these small in-dependent shops to go into the employ of the city. Great difficulties were ex-countered, agents of the bakers whose praits were threatened sowing sus-spicions and fumenting trouble among the employees where they could and hindering the operation of the public

ahops in every possible way.

The operation of private bakeries The operation of private bakeries was not forbidden nor interfered with. But they eventually found that they could not compete with the city, for the simple reason that a single large cetablishment, producing exceptional quantities and exacting only a small profit on every hundredweight, can succeed where a smaller undertaking fails in the effort to give the same quality at the same price. Instead of the advanced price demanded by the bakers, Catania reduced the price for the erdinary quality, first from 66 er

87 to 28 centimes per kilo, and then to 22 centimes, a rate of two cents a pound—tan centimes a kilo less than the current price in Naples for bread of the same quality.

The public immediately perceived an improvement in the quality of the bread furnished by the city. Now, after a struggle of eight months, the bakers have a sent reproceed that bakers have again re-opened their bakeries, with the approval of the city, submitting to all the rules imposed upon them, and accepting the city's price-list. The general public looks on with a certain indignation at the course they have pursued. The working bakers of the municipal plant have agreed never to resume work in any or the bakeries now re-opened or to be re-opened, as they labor now under more equitable conditions and with less fafigue and receive better wages. These have become enthusiastic sup-porters of the new movement. Catania has recently opened a large central modern bakery. Thirty-four ovens, with a capacity of 2,500 kilogrammes, were in use the first day, and this number is being increased as rapidly as possible. On the second day, forty ovens were in operation, and 70,000 kilos of bread were baked and sold.

A detailed statement has been issued for the benefit of those communi-

ties, large or small, like Naples or Nocara Inferiore, which contemplate following in Catania's footsteps. The books are open for investigation and confirmation of this statement. It is based on the experiences of the past eight months, excluding only the period of organization, during which citizens gave their services without pay. On a basis of a productive power of 600 quintals (or 00,000 kilos) a day, a net profit to the city is shown of about 138 liras a day, or in round num bers, 50,000 liras a year. It is claimed that this profit is not due merely to the abolition of the dazio, because other -places have been affected by the law abblishing it and there has been no consequent reduction in the price of the bread sold in those places, but whatever profit has arisen has accrued its limits. The Italian governments into the manufacturer. Catania claims that the profit of the municipal plant springs chiefly from reduced expenses consequent upon the centralization of production and modern equipment, from increased consumption, and from the direction of an energetic and capathe business man. The production is now intrusted to about 500 laborers; the middlemen and the unskilful and incapable are excluded. The workers are divided into squada, which relieve each other at intervals, under only the

necessary ruperintendence.

The men who mix and knead the bread are paid about four liras a day; 100 kilos of flour make 110 kilos of bread. Two mixers are employed to produce 600 quintals a day, at a cost of 1.5 centimes per 100 kilos. Two en-gineers are employed; one by day. whose daily wage is 2.40 liras, and onby night at 2.00-a dollar a day for both together. Supervision costs seven liras per day. There are also the item of heating the ovens, illumination and

motor power, which diminish propor-tionately with increasing production. The three chief advantages alleged by Catania to have been secured by its experiment are that its inhabitants have never before been supplied with bread of so good a quality, never at so low a price; and this result has been effected not only without expense to the city, but with an actual profit. Th ead now provided is made of unadulterated figur, and consequently is more nutritive and healthful, whereas that previously sold was too often made of dishonest mixtures of the poorest qualities of flour, even when nothing worse entered into its composition: Consequently, it is claimed as an advaniage arising from this accidistic experiment that there ensues a greater freedom from disease among the laboring classes, fewer working days are

lost, and less money needs to be spent for doctors and medicines.

The records of the dazio—the local cuttoms office-show that since the establishment of the city bakeries the amount of four entering the city has increased one-fifth, while the introduction of farinella-the cheapest grad spoiled in the field or in storage—has crossed altogether. The increase in the amount of flour brought in is generally interpreted to mean that the reduced side his door.

Bread, then, is his mainstay—hread bought of the baker in this land of fire—of the well-established fact of the in

RAILWAY STRIKE.

An Object Lesson in the Dangers of **Government Control of Industry** Without Working-Glass Control of Soverament.

The strike of employees on the government railways in the Australian colony of Victoria seems, according to latest accounts, to have ended in defeat. The incident adds one more to the list of warnings of the danger of recomment ownership and control of government ownership and conirol o industry coming before working-class of the government and emphasizes the necessity of hewing close to the class line in our propaganda and insisting on true Socialism or Social Democracy as against the State Capitalism, miscalled State Socialism which, in a greater or less degree, va-rious capitalist parties are already be

ginning to advocate. The New York "Evening Post" edi-"Although the strikers were govern-ment employees, they had allied them-selves with a trade union which bound them to obey the orders of that organi-zation rather than those of their em-ployer, the state. This action was in conflict with the regulations under which they were serving. The govern ment, accordingly, ordered them to sever their connection with this out-side society. They refused to do so, and a general strike of engine-drivers and firemen followed. Parliament was summoned in extra season, and the Premier introduced a bill making par-ticipation in the atrike punishable by fine and imprisonment. In his speech he said that this was not a movement

"The bill provided that any em-ployee who left work without due notice, and any person interfering in any way with employees at work, or distributing strike funds, or snootinging the strike, should be subject to the severe penalties enacted. The police were empowered to enter strike meet-ings and disperse the people attending them. This measure was introduced on the 13th of May, and the Premiss declared that he would accept no com-munication from the strikers but ma-conditional surrender. Two days later the surrender came. Before this, however, the men had begun to desert the union singly or in amail groups, so that fifty trains were running before the strike was formally declared off. Of course, this strike differed entirely from an ordinary one, since its success would have been a subversion of the government. This fact was realized by the entire legislative body, including the special representatives of la-bor in the Parliament, who admitted in the debates that the position of the

strikers was untenable. London "Justice," the organ of the Social Democratic Federation, edi-torially comments as follows:

"We referred last week to the threatened strike of railway workers at Melbourne, which has since taken place. The crisis was brought to a head by the demand of the Victorian government that the employees of the state railways should sever their con-nection with the Melbourne Trades Hall, a working-chas center well known throughout Australia. The de-mand was made on the ground that the Melbourne Trades Hall was a political as well as a trade union cen ter, and that the state rallway employees, being in the position of civil servants, must refrain from taking part in politics. Mr. Irvine and his ministry have, however, only given the finishing touch to the trouble which has been brewing in the colony for a considerable time past.

Since last August the railway employees have had to submit to two re ductions in their wages, and it appears that these reductions were accepted on the understanding that they would be of a temporary nature, to assist in meeting the loss on the working of the railroads caused by the terrible drought from which Australia has been suffering. The acceptance of these reductions was followed by an amount of political cock-crowing on the part of certain of the Victorian Ministry over the Labor Party, little calculated. to cause things to run smoothly. The Hon. W. H. Irvine, in short, seems to be posing as a strong man in colonials politics, and his policy of petty despotic irritation, is, we suppose, a signs of that 'strenuous life' extremely fin-shionable just now, with rising politiclans, who are forced to make up for their lack of general knowledge and breadth of ideas by doing 'something' to make themselves felt. Being unable to attain to the level of statesment

they become 'expert' bureaucrats.
"It is not at all improbable that the government of Victoria have been purparing for this struggle with the railparing for this strugge with the rail-way employees. The public ownership of a monopoly by the present capitalist state can sever be regarded for long as a success unless it 'pays.' If it does not pay, then expenses must be cut down, and as usual, 'economy' and 'retrenchment' are practiced on the wages of the employees as being about wages of the employees as being the only portion of the expenses which will bear the enting down process. There has been talk for months past in the colony of the necessity for some such 'economy' and 'retrenchment' in the management of the railways, and there is little doubt that the decision to compel the railway workers to sever their connection with their fellow trade-uniquists had for its object the breaking of their power of protest against still further 'retrenchment.' The Agent-General for Victoria has supplied the press wifh a statement of the wages received by those engaged in the locomotive department of the state railways, with the naive remark. that hitherto it had not been deemed policy to reduce the staff.' The state-ment says that 2,200 of the employees receive £100 or under per year, 6.882 between £100 and £150, 1.500 between £150 and £200, and 738 between £200 and £300. At first sight some of the figures may appear to be large, but they are not so when the cost of rent and clothing is taken into considera-tion, for about the only thing which seems cheaper in Australia than here is meat. Again, it is necessary to com-pare these rates with those obtained generally in like employment. The Victoria Handbook issued by the Emil-grants' Information Office, although outsining the rates of wages of alcontaining the rates of wages of armost every kind of employment, is atrangely silent on those paid to engineers and engine-drivers, but if we refer to the figures for New South Wales, we shall find that the wages are over fit per week in private em-ployment. The wages paid by the state railways of Victoria are not. therefore, so large as they may at first

will be the result of the present deaf-lock. Money is being received from the trade unions of the whole of Aus-tralia, and those concerned in the strike are the engine-drivers and fremen, without whom it is impossible for the railways to be worked to any extent. If the signalmen, as is thought probable, join the ranks of the strikers, the trains cannot run at all. On the other hand, though certain districts may suffer terribly through the stop-page of the railway system, the direct capitalist interest cannot be so ma terially affected as in the great industrial countries of Western Europa, with their networks of mines and fac-tories, and therefore the pressure which the strikers can bring to bear on the governing powers is lessened accordingly. There will be the ten-dency, too, on the part of the general public to feel hitter against those who are the means of putting them to con-siderable inconvenience, and, unless the situation can be settled in some way when the Victorian Parliament meets, we fear the railway workers are likely to get the worst of it. It is questionable indeed if the railway em-ployees would not have been better ad-vised to have maintained their emvised to save maintained their em-phatic refusal to give up their consec-tion with the Melbourse Trades Hall, to have allowed the government to dis-miss a large number of their union offi-cials in consequence, and to happenede Parliament and the colony ring with denumenting of sale in the colony

"It is impossible to forecast what

ganised workers—the strike, zaThe situation in Victoria produced

state ownership of monopolies in the interest of the financial classes, fairely called State Socialism, is as opposed to thorough-going Social Democracy as to thorough-going Social Democrac the whole system of capitalist pro tion for profit, for which we seek to substitute organized production for use for the benefit of the entire com-munity. The colony of Victoria, like most of the Australian Common wealth, is in the hands of the loan mongers and financiers, and its state property is worked and managed for their advantage as if it were a big trust or combine. There are sol-disant 'democratic' journals in this country. mostly of the Imperialist Liberal type, which are crying out against the railway workers of Victoria, It is said that the government of Victoria had no business to permit its employees to affiliate to a political trade organiza-tion which might call upon them to strike in sympathy with other labor disputes. But the chance of those cmployed in the public service being called out on strike to support their fellows over disputes with private em ployers is remote, and looks very much like an excuse to cover the real rea-son, the desire to prevent the workers organizing politically in their class interests. The nonsense talked about state servants having 'at all times the right of appeal to the government, and beyond government parliament, and beyond parliament to the people, if they have any grievances that need redress,' is all very well. There may be a good deal to be said for that view where salaried officials are concerned, but it is an hollow a are concerned, but it is an honow a mockery when applied to state servants who are wage-earners as Lord Penthyn's contention that it is sufficient that his quarrymen have individually the right to place their grievances before him, and therefore he refuses to discuss them when they are fuses to discuss them when they are placed before him on behalf of an or-

ganized body of men.

The problems raised by the rail-way strike in Victoria have undoubtedly a bearing on the political move-ment of the trade unions in this coun-try. Up to the present trade unions among government employees not been noted for their strength of activity. But they have been gradually growing, especially among the postal and telegraph servants. Some of them, we believe, are affiliated to the Labor Representation Committee, so that the parallel, on a small scale it is true, with the situation in Victoria is fairly complete. What will be the attitude of the British government when its wage-carners commence to take political action in earnest on their own behalf? It is almost certain that they will do the same as the Victorian government, and call upon the em-ployees under pain of dismissal to give up their organizations. It is this side of the question which makes the matter one of serious importance to the workers of this country as well as to those of Australia. Though public ser-Vants in the usual acceptance of the term, government employees are at the same time wage-slaves of state depart-ments run in the interests of the employing classes, and until the state be-comes really the people, and all have a community of interests, the so-called 'public servants' require to retain the right of organization for their own well-being as much as the workers en

gaged in private industries."

The Executive Council of the Social Democratic Federation adopted resolutions as follows:

"The Executive Council of the S. D.
F. sends fraternal greetings to the railway workers of Melbourne, and heartily wishes them success in their struggle to maintain their rights as citizeus agninat capitalistic encronch-ments on their liberties, whether, on the part of private employers or public functionaries. The Executive functionaries. The Executive fact that the mere ownership of monopolies by the present class state in the interests of the commercial classes must not be confounded with genuine Social Democracy, and by no means puts an end to the existing class antagonism; and that, in order to achieve their emancipation, the work-ing classes must organize themselves to acquire political power, so that they may be able to change the present people."

Carrespondence Showing that Japan Is Taking Its Place with Europe and America in the interestional Socialist Movement.

Comrade Klichi Kaneko of Brookcomrate Kirchi Kanezo of ricor-lyn allows us to use the following per-sonal letter recently received by him from his friend Denjiro Kotoku, of Tokyo, who is well knows in Japan as the brilliant editor of the "Yorozu Choho" and an earnest advocate of So cialism. It will be read with interest by American comrades. "My dear Mr. Kaneko:—I thank you

for your kindness in sending me the twenty-fifth anniversary number of the 'New Yorker Volkszeitung" and the March number of 'Wilshire's Ma-gazine.' While I could hardly examine the contents of the former, owing to my ignorance of the German language, I have finished the latter with great pleasure as well as benefit. Particularly the debate between Mr. Wilshire and Prof. Religiman interested me im-measely. I can imagine what pleasure you have there in New York in having a chance to hear and meet people like

"While economic conditions in Japan are not as depressing as in European countries, the concentration of capital and the distinction between the rich

and the distinction between the rich and the poor are growing year by year with great rapidity and suffering and social corruption increase. The time has come to wake for men who believe in Socialism and social reform.

"When we organized the Social Democratic Party, which was suppressed upon its appearance, year before last, there were only six persons who could declare themselves to be Socialists, and now we number over a thousand. Hr. Funnic Yano, who was once Japanese Minister to China, by declaring himself a Socialist, has helped to change the public attitude.

toward Socialism. We are gaining new members by means of mass meet-ings and lectures held two or, three, times a month in every part of the city. While we are proto suppress and force us to stop our meetings and lectures, mistaking us

"It is a great cause of regret that we have not enough direct Socialist organs through which to preach the cause and spread our principles throughout the country. For the pres-ent, Mr. Katayama's 'Labor, World' is the sole organ of Socialism, while there are a few other papers that show sympathy with va. such as 'Yorozu.
'Niroku,' 'Mainichi,' and 'Rikugozas

Another regret we feel to-day is that there is no one to connect us in warm relations with our foreign friends. In this, however, I feel strengthened by having you in a great city like New

having you in a great city like New York, where you have the opportunity and responsibility of doing something for ms. May we work together, let me hope, for the great cause and help each other wherever we are situated."

SOCIALISM IN AUSTRIA.

The Social Democratic Congress of Lower Austria was held at St. Poetton on Feb. 15 and 16. Owing to the fact that there had been a decrease in the yote at the last Parliamentary election there was some feeling of discouragement, but this decrease was ingely accounted for on the grounds of the disfranchisement of large numbers of the workers through election trickery, and, in the second place, by the distranchisement of large numbers of the workers through election trickery, and, in the second place, by the distranchisement of large numbers of the workers through election trickery, and, in the second place, by the distranchisement of large numbers of the workers through election trickery, and, in the second place, by the distranchisement of large numbers of the workers through election trickery, and, in the second place, by the distranchisement of large numbers of the workers through election trickery, and, in the second place, by the distranchisement of large numbers of the workers through election trickery, and, in the second place, by the distranchisement of large numbers of the workers through election trickery, and, in the second place, by the distranchisement of large numbers of the workers through election trickery, and, in the second place, by the distribution is remained them. The second is a possible to the product and keep the product and keep the product and was adopted declaring them for the product and the poverty and nisery of the control the product and keep the product and keep the product and the poverty and nisery of the control to wo hostile class and those of the product and keep the product and keep the product and keep the product and the poverty and nisery of the control to wo hostile class and those of transaction to the product and the povert Socialist party is not only domanfied, by the interest of the laboring class in, its battle for freedom, but is also in. esential of the further development

of our whole culture."

Here, as everywhere, the pennant population constitutes a great obstacle to the advance of Socialism. Comrade Horger deciated that "the farmer is first of all a possessor and strives con-tinuously to increase and add to his possessions even at the cost of his felends and relatives, and by all possible means. His heart clings above everything class to possessions. Even the farm laborer thinks only of the possibility of securing land and proppossibility of receiving into the property. Wheever strives only for possession, however, can according to my opinion, never become a proletarian Social Democrat." He concluded by declaring that "we should remain with our comrades who have made the So-cial Democratic movement great, the industrial laborers, and perfect their

organization,"

There was considerable opposition to this, although even those who maintained the possibility of winning the farmer admitted that their allegiance

-A Republican or Democratic bal lot voted by a workingman is the most effective strike-breaker, after all. It-means power placed in the hands of the capitalist class.—Eric Poopie.

VOL. XIII.-NO. 11.

NEW YORK, JUNE 14. 1903.

HANFORD ANSWERS HAVEMEYER'S QUESTIONS.

Socialist Workingman Takes Up the Challenge, of the Sugar Trust Millionaire.

Great Meeting Fills Yonkers Music Hall to Overflowing: - Three Speakers Chosen by Yonkers Federation of Labor Reply to Havemeyer's Sixteen Questions — Bon Hanford's Brilliant Socialist Speech the Feature of the Occasion.

Hall, the largest auditorium in Yonkers, was filled to overflowing to-night with the crowd which assembled to hear speakers chosen by the treat Yonkers to reply to sixteen questions in regard to unionism asked by John C. Havemeyer, a millionaire member of the Sugar Treet family. Mr. Have meyer offered to pay for the hall if the trade unions would choose repre-sentatives to answer his questions and the Yonkers Federation of Labor selected J. T. Windell, its president; D. L. Hussell of the Commercylal itumed of the Commercyla Telegraphers of New York, and Ber Hanford to present the trade union Theodore Fitch, a New York lawyer

and friend of Havemeyer, acted as chairman and characterized the meet-ing as "a debate in which only one side was called upon to present its no decision except that arrived at the minds of the audience." Mr. He was followed by Mr. Russell and Hanford spoke last. Many friends of Mr. Havemeyer were present, includ-ing H. O. Havemeyer, the Sugar Trust king, but the mass of the audience was entirely in sympathy with the trade union speakers, and all of them were applauded heavily and continuously Hanford's Socialist ornition was the feature of the evening; it was one con-tinual climax from start to finish, ringing with defiance to capitalists auchallenge to capitalism from beginning to end, acturated with scornful search-ing scream, powerful with the force of convincing logic, scintillating with caustic wit, bubbling over with economic epigrams, and phrased with masterful ice. As sentence after sentence iance, warning and prophecy forth the audience at times broke into thunderous applause and at times sat spellbound and silent under the force of the speaker's pussionate

Havemeyer's Questions.

Mr. Havemeyer's questions, which rere printed in leaflet form and distributed among the audience, were as

"I.-What originally were the condi-tions or facts which seemed to make necessary the combinations of workmen, called labor unions, and which

justify their present existence?
"2.- What are now the aims of these unions and the methods employed to

%.-Is it a fixed purpose consistently to avoid in act or spirit, what is com-plained of in employers, and to this extent is the Golden Rule, to 'Do to others as you would have others do to

you,' kept in mind? .. "4.-In these methods is account taken of the suffering and losses that mny be caused widows, orphans and others in no.way, responsible for real or supposed grievances and the sectors

or anpiesed grievances and the sections and perhaps permanent injury which may result to tasembers from idiness?

"5.--Will there be a limit to the demands for shortes hours, larger pay and less service?. If so, when will it reached and by what rule will it

its relation to labor, will it not inevitably follow that finally the quantity must also be artificially regulated?

"7.-Is it the intention to oppose the it expected that the movement will finally result in preventing any man from carning or obtaining more than his present needs require? "S.—Is it the idea that ultimately all

men doing the same kind of work shall have the same pay, without reference to skill or service?

"M.—Is the impression correct that the unions are not relying upon the justice of their cause, but seek to com-pel employers and others interested to eld to their demands by reason of the loss and inconvenience resistance ill involve? Do sympathetic strikes justify this impression?

"10,-Will labor unions become incorporated, so that if a union enters into an agreement with any class of em-ployers it will be under the same legal nd moral obligation to fulfil it, as in the case of an agreement between indi-

"11.-Ou what ground is the refusal to work with and persecution of non-union men fustified? Is it not unreasoundle and diffatural that men who differ widely from-each other in opin-ion should be forced to unite and also join with other men in actions that may against their judgment and even

law does not require, is not this course suggestive of the spirit of anarchy? "12.—A large majority of the native citizens of this country believe in the existence of God, and that His laws should determine and limit human rights, responsibilities, relations and activities. They also believe that sooner or later a nation that disregards His laws will suffer and that the cul-

on both sides are constantly changing places, the wealthy becoming poor and

the poor wealthy?
"14.—How far is the charge justified that the methods of unions, through their requirement of unquestioning obedience and the suspension of pri vate judgment, destroy the individual-ity and independence, and, consequent-ly, the self-respect of the members? "15.-1 am informed that the Youkers

branch of the American Pederation of of industry. It includes bartenders bakers, engineers and clerks. I am also informed that a motto of the or-"a definte in which only one der is that the interest of one member ran called upon to present its is the interest of all. If a member of est and upon which there would the Bartenders' Union were aggreed would union rules require that bakers. engineers and clerks should join in a sympathetic strike, if so ordered? In this connection is it true that the dif-ferent labor unions have varying and sometimes contradictory rules and regulations? And are general business in terests in constant peril lest the fail-ure to comply with a rule of one organization may bring about a general suspension of work?

"16-How do you meet the allegation that labor unionism interferes with the commercial and other relations be-tween the United States and other countries and that its tendency will be to isolate this country from the rest of the world?"

Speeches of Windell and Russell Mr. Windell prefaced the reading of his speech by the remark that the trade unions do not recognize the right of employers to ask them questions and require answers, and pointed out that when the Sugar Trust raises the price of sugar or the Coal Trust raises the price of coal or the Oil Trust raises the price of oil they answer no questions from the public. In reply to the sixth question he made the point that the trusts are already able to artificially regulate the prices of comomitties. In reply of the tenth question in regard to the incorporation of labor unions, he said: "This question amounts to asking if the unions will put themselves in position to be sent to jail or have their property attached if an em-ployer can find a judge to do the work. In a country where sensitors, represent-atives and other legislators are bought and sold it is quite possible that if the unions were incorporated the employ-ers might be able to like some member of a union to embarase and harass the union by bringing suit as a men ber on the eve of a strike." He char acterized the scab as a traitor; stated by theft they must be regulated in the same way as pickpockets and gamblers; and in reply to the questions about re-ligion and the Golden Rule answered with the counter-question; "Has any trade union ever dared to ask the rich man to obey the actual words of Christ?" In closing Mr. Windeli said that he considered these questions from a member of the family who organized the Sugar Trust an impertinence, and proposed that Mr. Have-meyer at some future time answer six-

teen questions in regard to the Sugar Trust and other similar capitalistic un-Mr. Windell and Mr. Russell are not radical, were not based upon the recog-nition of the class war and the demand for the full product of labor. They unde many good points, however, and as almost any kind of a working class argument is stronger than the capital-ist position, their answers to Mr. Havemeyer's questions were adequate with

out being complete.

Mr. Russell advocated the initiative and referendum and the government ownership of telephones, telegraphs, ralironds and "even the coal mines." At this point a voice from the audience pertinently inquired, "How about the augar refineries?" In reference to the Golden Rule the speaker said that the trade unions were here to enforce it. Speaking of the chance of poor men be-Speaking of the chance of poor men be-coming rich he said that hundreds of people in New York who played policy speat their time in concentrated study of gigs, dreams, and systems to beat the game, although they knew that there were twelve hundred chances to one against them and pointed out that the poor people who expected to beat the present industrial conditions and be-come canitalists had no more chance. present industrial conditions and become capitalists had no more chance than the policy players, and moreover that even in this game of chance no man could expect to become a capitalist or be president unless he put all inoral systems behind him. Mr. Russell spoke favorably of the plank in the Democratic platform in favor of government ownership of coal mines and remembering that the Democratic and, remembering that the Democratic party lost votes, and that the Social Democratic Party scored an itember gain, said that the Democrate Law-lost not because it was too Socialistic, but because it was not Socialistic

right of the capitalists to part of the mination of persistent wrongdoing may be, as in the case of the Hebrews, national extinction. Will the unions show respect for this conviction?

"IE.—Is there not in union circles a general misapprehension and misuse of the terms 'capital' and 'labor,' and a contrast to their inadequate position

YONKERS R. T., June 2.—Music consequent unfounded untagonism, in and, although he began at a late bounted, the largest auditorium in Yonkers.

as alled to overflowing to-night with the and mechanging conditions or real reply. Following is a free and run in greport of Comrade Hanford: ning report of Comrade Hanford's

Hanford's Speech.

Hanford said he came without th dightest feeling of obligation to Mr. ltavemeyer. There was no proposition to meet in open debate and give and take whatever came; Mr. Havemeyer came in very questionable shape. I think I can see the handwriting of very learned legal gentlemen in these questions (at this point the speaker turned to the chairman). The variation between his (Hanford's) answers to these questions, and those of the previous speakers would show that m bership in a union did not suspend the free play of individual judgment and opinion—but the variation was mainly one of degree. He would deal with modern trade unionism as it is here and now, not arcient history. Trade unionism is here as a rebellier against slavery. We are here to-day to abol-ish what those who understand political economy in other than legal terminology know as wage-slavery. Wage-slavery is just as brutal and just as legal as any slavery preceding it. What consti-tutes slavery? The fact that the product of the laborer belongs to the master. The purpose of chattel slavery was that the slave should work, and the cotton the slave should work, and the cotton be raised, the wood he cut down the wealth he produced belonged to the mater: it is the same with the wage shave. The black was fed and housed and fairly well-treated if a man units and thirty west-freques it is man wanted nothing in his stomach. Those of you here who are workingmen-how many of you dare throw up jobs to-morrow? Hold up your hands, you voting kings, you free American sovereigns, how many of you who dou't belong to indone, dare throw who dou't belong to indone, dare throw who don't belong to unlows, dare threw who don't lebong to understands that when your job to-morrow? The boss owns your job and therefore he owns you. Trade unionism is a strike for freedom always wins. The only change has been in the form The only change has been in the total of sixery and not in the institution.

The pseuliarity about the Golden Ettle is that one main cun't work it alone it must work both ways. If a main seeks your life or seeks to rob you the Golden Rule will not work. We do not appeal to physical force, that is why I am here to-night to debate, but if we ever have to you know on which side the victory will be. Never in the world's history has there been so much practical observation of the Caldan Vertient observation of the Golden Rule an exists within the trade unions to day. We observe the Golden Rule to

wards our fellow men, but not towards our master men, and we will not use mnot till masters are abolished. The Same Old Widow.

In regard to injuring the interests of widows and orphans, when chattel sta ery existed the argument was brought up that its abolition would leave beli-less the poor widow with orphans who owned only one slave. This widow that Mr. Havemeyer asks about to-night is the same old widow brought up to serve the same purpose. She comes up every time you question the rights of property or rather the wrongs of property because property has no rights— only men have rights. What will hap to this widow? We will take car

mands of the workers. Yes, when those re the wealth set it all. This trade unionism is not an attack upon one per cent of your income, it is an attack upon all of your unearned income to the last farthing. We propose to own the things which we have on ated and with which we work. don't propose to take these things from the capitalists and give them to me or any other single individual, but to vest the ownership of them in all of us as equal shareholders. We don't expect those who have stocks and bonds or expect to acquire them to be-come Socialists, but you who live in the hope of getting into the capitalist class will find that as Rockefeller keen on getting everything you will be able to get nothing.

In regard to the sixth question the In regard to the sixth question, the leighl gentlemen who fixed those questions up for Mr. Havemeyer, made a sad mistake. The trusts already set aside the law of supply and demand by monopoly prices. The question implies that the law of supply and demand should operate in relation to labor—that the price of labor power should be determined in the same way as the price of potatoes—that men should be treated as commodities. as commodities. These gentlemen with whom Christianity is a folble and phil-anthropy a plaything, but with whom Rusnk in business is business all the time, these
nk in men expect you workingmen to live up
or of to the Golden Rule, demand that you
mines
give the most delicate observance to
the rights of others and that you be morally unimpeachable and at the same time they look upon you and treat you like potates, as a commodity to be bought and sold. Every bourto be bought and sold. Every bourgreels economist has insisted that labor
is a commodity to be bought and sold
in the market. The fabor movement is
here to say that labor shall couse to be
a commodity. When labor owns the
tools with which it works it will be its
own master and we will have a society
of freemen among freemen.

You want to know if we are going to stop Mr. Morgan, Rockefeller's walk-ing delegate, in the accumulation of

wealth. We shall stop Mr. Rockefeller and his brothers in plunder from the consultating our wealth, and the workers will get the product—now they get only enough for their bare present to do when the next period of hard thick comes. You will put coffee stands on occurrer and soup houses en the otier, and every man who approaches between the law. What makes the law work of the law? Houges, law were and the capitalist masters who make it or pervert it to suit their particular. But I call upon the workers to remeta-ber in such times the saying of Violds Hugo that the philanthropists who say you a home not only give it to you-but they fling it at you and if hits you, too

Trade unions are going to meet all these questions and solve them sind solve them right. You imagine the trade unions are disrupted when they are in trouble. Take the present trouble in New York. It is not the union movement that will be destroyed wit is the little contractor. They will be disrupted or rather swallowed. The enpitalists are like hos constrictors when they are hungry they est cuth ather-what when the husiness of these little confractors is swallowed up they will go into the working class, and the next thing they will apply for member-

Hearst as a Slave-Driver. Every victory for you is a defeat and every defeat for us is a victory. There is no way on earth by which you can put a brake on progress and set lack, the hands of justice. The trade unions keep burning the sacred are, the lamp of democracy—not the so-called democr rncy of the Democratic party, Mr. Russell-but real democracy. the position of the enemy because we are forced to know it, but the capitalists care never know our position because only a workingman can understand a workingman.

rtand a workingman.
In reply to the eighth question, which the limitation of the output by unloss the reason why the output has to be limited in some trades is that the tack master with his whip in hand he made the intensity of labor so great that no man can do the work and live In the composing room of Mr. Hearst's "American," for instance, although wages are good, there are few papers in the city where usen have to work harder and faster than for this vaunted friend of labor—I know be-cause I work there. A gentleman fit the audience may I will get the sack, I can say anything I please about day bose maywhere on earth. Why? Be-cause of unionism. Because the union will not let the bose fire one without cause. Hearst is like every bose—a that hose, because all losses are bad. The existence of a boss is bad, and the vary fact of being a boss makes him bad. I admit that there might have been a good hose, but there never has boss, because arbitrary power is tyranuy.

Mr. Havemeyer asks if we are will-ing to rely only on the justice of pur cause. I nak him in réturn, if the capttalists rely on the Instice of their cause, why they here l'inkertons and want more militia and want trade unionista to join the militia in order to slove themselves? If they rely upon the jus tice of their cause why do they hire intellectual prostitutes, editorial bar-lots and reportorial Ressians to defend them and conceal their crimes? Why did they pass the recent militia bill making every citizen a potential mepa ber of a national inilitia at the absolute command of the president, if they rely upon the justice of their cause?

In Love with a Sausage-Machine In a recent decision of Justice Adams in the case of Mary Mulien, a working girl who had her fingers torn off in a sausage machine, after she had protested that the machine was out of order, the judge says that the employer cannot be held responsible because this girl voluntarily assumed the risk. Think of R—voluntarily—a girl of nineteen in love with a samsage machine Do you suppose Mary Mullen wanted to marry that sausage machine? Why did she remain at that dangerous em-ployment. In order to get a livelihood

Mary Mullen was tied to that machine like a galley slave to the oar by the hard necessity of making a living. Jus-tice would be that we take that judge's head and give it to Mary Mullen on a silver salver—but that is not what we want, we want no bloodsied. And yet with very few exceptions, these judges with very leve exceptions, these judges have never raised their voice against the laws on which such infamous decicions are hased. We must rely upon our strongeright arms and hearts of steel as well as the justice of our cause. The man who said give me liberty or give use death spoke doubly true, because the man who does not love liberty more than life will never be free and is not fit to be. Unless you love liberty more than your very life liself, you can be nothing but the slave of a coward heart though you be lord of the earth.

To ask unloss to incorporate is to ask us to disarm ourselves entirely and stand naked to the whips of corpora-tion lewyers. Then we would have to hire lawyers instead of walking delegates, and no union in existence could raise funds enough to pay them. Why does not the Stock Exchange incorporate? Because they do not dars to? We dare, but we don't need to, for the labor movement is a sore winner as

If the capitalists did not hire Pinker tons and obtain injunctions to prevent us from persuasion—a thing which is perfectly consistent and right from the standiount of a class which is without morality, religion, or law-we sould make union morality, religion, or law-we sould make union men out of ninety- nine in every hundred scale. But the gractic and the injunctions will not abow its to reach the ears of the men. Trade unionism is a voluntary demograc

the last guess is the law. What makes disrespect for the law? Judges, inw-yers and the capitalist masters who make it or percert it to suit their particmake it or pervert it to suit their particular purpose. The income tax law, for instance, was passed by a House and Seante composed most largely of lawyers, was not/vetoed by a president who was a lawyer surrounded by a cabinet of inwrers, and yet the Supreme Court first decided that part of it was not law, and a year and a haif afterwards, when one justice had qhanged his mind for some mysterious reason, decided that none of it was law. If lawyers don't know the law quantied his mind for some mysterious reason, decided that none of it was law. If lawyers don't know the law how do you expect the common people to know it and to revere the Supreme Court as the Supreme Being, as Mr. Havemeyer seems to wish.

Mr. Havemeyer, who has been to fine the mysterior so anxious about capitaintic law, ment are the about Court It is

next asks about God's law. It is worthy of note that God is not in the constitution, but is on the silver dollar. There is an irreconcilable autagonist between the capitalist class and the working class. Many of the trade unlentwise don't know it, but Rockefelle and Morgan and the National Manufac turers' Association and other employ ers' association are rapidly teaching them that there is a class struggle and that it can only be ended by abolishing the capitalist. We do not want to cu off the head of the individual capitalist -be flees not amount to so much in his own persons. It is not his personal genius for exploitation that oppresses us, but the system. The individual capitalist is not such a wonderful man. He produces nothing; some of them can't even put on their own clothes. It is you people who weave cloth, and bake brend, and set type, and make shoes and do things that are the wonderful people. We Socialists may that this system which produces classes and class rule is a bad system, and we propose to end, but Mr. Havemeyer wants to maintain a system in which a class-

war is whoolstely inevitable.

Mr. Havemerer has begun his fight against the labor movement too late. It ought to have been started when the printing press was invented. As soon as printing began the ultimate freedom of the whole human race was made inevitable, because the wisdom

made inevitable, because the wisdom and knowledge gleaned in experience was presented for the generation to come and accessible to all.

The labor movement stands for the emancipation of the race and the content of a time in which men shall be born without pain, live without sortion, and die without regret. We shall be masters mark into our bearts with the masters mark into our bearts with of the taskmaster. They may hire of the taskmaster. They may hire every miserable dog of a traitor that in for sale, so far as iles in their power, so far as they can deaft those that they are not of the last those that they are not of the last they are that they cannot hire-but no hired and drafted army can stand against us voluteers. Given capitalism and competition

the result is Socialism. In the words of the prophet, We shall yet-build houses and dwell therein; we shall plant vineyards and cat the fruit

aball pant vineyarus and car thereof.

Watchmen, what of the night? What of the night? The day dawneth? The san of Socialism rises in the East and we see the coming of a day in which every breath of life shall be a breath of joy, in which he woman shall breath of joy, a regional and a superior out of wear gorgeons raiment woven out of the rags of her sister's toll, so man shall be rich by the coinage of his brother's poverty, and all men and all women of all-lands shall be free men and free women-then, then shall we be prothers; then shall the Golden Rule

IN SPAIN AND PORTUGAL

The results of the recent parliamentary elections in Spain indicate that that country, perhaps the most back ment on a large scale will be possible Of the Socialist vote it is impossible to get any news, although, the party put up a number of caudidates and made an independent compaign. The government, as usual, employed every agency of confusion, bribery, intimida-tion, and frund to support the reac-tionary candidates, in spite of which the Republicans, representing the extreme of bourgeois liberalism, made great gains and increased the number of their seats from seventeen to thirty-four. Among the Republicans elected were a number of workingmen.

The authorities in Portugal tried hard to prevent the publication of the election news from Spain; but all such efforts failed and the tidings were greeted with enthusiastic popular dem strations.

It is the work of the Republicans It is the work of the Republicans tgot, of course; to be confused with the party bearing that name in the United States) to overthrow the surviving rigime of medicivalism in these countries and bring them into the world-marrant of capitalist eivilization. Meanwhite the Socialist Party is doing the hard and apparently unrewarded edulational work that will resonant the eational work that will prepare the way for a strong revolutionary move-ment as soon as changed industrial and locial conditions make it possible.

Old-Party Legislators Kill Anti-Trust Bill.

Session Near Its End with Nothing Done to Satisfy Popular Clamers and Only Socialist Members on Record for the Workers' Interests-Garey Shows Socialists Believe in Marriage -White's Work in Two States,

BOSTON, Mass., June 8.-The legislative session is drawing to a close. As far as positive and immediate results those of preceding years as one more disappointment to those of the workers who still fix their hopes on the old troduced and debated-most of them introduced and all of them vigorously supported by the Socialist members; but every such measure has met defeat either in the House or in the Scuate, where the Socialist Party has, as yet,

Relatively, however a comparison of this with previous sessions shows distinct progress. Though we have carried none of our measures—that could hardly be expected of a minority of three-we have pushed them to a more advanced stage, have come nearer carrying them than ever before. in some cases forcing the question so pininly before the people that the over-whelming majority in the lower house did not dare to defeat the bills advocated by the Socialists, but had to depend on their being quietly stiffed in the Senate. Many of the old-party members, seeing the Socialist vote increasing in their respective districts and seeing that we keen the voters in formed on their records, have become very nervous and on several occasions the capitalist managers have had to make extraordinary efforts in order to whip their men into line. There is every reason to believe that

next year we shall come to the State House, not only with an increased delegation in the lower branch of the Legislature, but with at least one or two Socialists in the Senate and with such a hig gain for our state ticket as the workers concessions.

The masses of the "common people," aside from the class-conscious wageworkers, looked to this Legislature to do something to relieve them from capitalist tyranay and guard them against the repetition of such crimes as last winter's artificial cost famine. They don'to had their eyes opened. After a great deal of large talk on the part of both Republican and Demo-cratic leaders, absolutely nothing of what the people asked for has been done.

Anti-Trust Bill Defusted.

. The commission appointed to inves tigate the coni famine sat for many weeks, held many hearings, collected s great deal of more or less useful it formation, and recommended legisla-tion, pretty drastic in form, judged from the capitalist standpoint, to curb the power of the fuel combine in the state. In my letter of May 26 I pre-dicted that, although this bill had passed two readings in the House, means would yet be found to defeat it. The prediction has been verified. The old cry of "unconstitutions?" was raised. High legal authorities were cited to show that the proposed legislation would conflict with those sacred documents, the state and national conatitutions and that it would therefore be useless to enact it. Some members still pleaded for the passage of the bill, urging that the legislators at least should do their duty and leave it to the courts to annul the people's will if that was to be done. But the powers behind the old-party organizations had issued their ukase and the bill went to the graveyard of "dangerous" legislavotes for next fall.

Of Personal Interest,

Representative Carey was married to Comrade Clara Stevens of Haverhill last Friday. Good wishes go out to the couple from thousands of fraternal bearts On Thursday, when the House con

vened for the afternoon, an interesting scene took place. Representative Scho-field of Ipswich took the chair and Representative Callendar, Carey's old aniagonist, took the floor and ad-dressed Carey. Congratulating him, in a very graceful address, upon the event of the morrow by which he was to give the lie to the slander that Socialista do not believe in marriage, he pre-sented him, on behalf of the members of the House, with a wedding gift in the shape of a beautiful chest of table silver. Carey replied in a character-latic speech, humorous and serious at once. He said his example not only once. He said his examine and showed that Socialists appreciate the institution of marriage, but that his institution of marriage, but that his waiting till such a mature age showed how Socialists do things. They make sure what they want and they make no mistakes. There was no blank space for a divorce application on the back of this marriage certificate. He ark of this mare an active of the principles I love and believe in." have fought you in defense of the principles I love and believe in." he said, "fought you with all the potter I have. I will continue to fight you may be a stilled forever. And the battle will still be waged by my class until will still be waged by my class until victory is won, until men no longer to the existence of this club. All who are interested in the project, young and old, should attend the meet-young and old, should attend the meet-young and old, should attend the work. that go with it show that men may differ politically and yet be bound to-gether by a tie of human feeling. I am not used to this sect of thing. If this were an attack you were making upon

MASSACHUSETTS weet I would know how to meet it. If me. I would know how to hur! then back. If I do not respond in well chosen words, you must remember that we are in the habit of meeting in battle but that we Socialists long for the time when we can meet in peace.

The incident showed the personal respect that Carey line inspired in those with whom he has exchanged the hardest blows.

Party Work in Two States.

State Secretary White has had a busy week. Spoke in Foxboro, at the first Socialist meeting ever held there. A good crowd listened with the closest attention from beginning to end. next night a meeting was held in the Town Hall at Sharon, another new point, arranged by the Stoughton com-rades. The Selectmen had refused to permit an open-air meeting. This is an inland town, without a single in-dustry, the inhabitants being largely summer residents. At the close of the address the Selectmen apologized for their former refusal and promised that there would be no obstacles out in the way of Socialist meetings hereafter. We made votes in these two meetings by breaking down the barrier of pre-

On Tuesday the State Secretary or ganized a new local at Weymouth and n Friday left for an agitation tour in Maine, beginning at Portland on Sat-urday, with engagements for Monday at the same city, for Tuesday at Westreok, for Wednesday at Rumford Falls, for Friday at Wiscomet, and for Saturday at Bath, then back to Bos-The Boston Central Ciub is making

REW DOWN-TOWN

YOUNG PEOPLE'S CLUB For a long time it has been the dedre of the Socialists of the 6th and 10th and 14th Assembly Districts to bring into existence a club organized for the purpose of advocating and furthering the principles of Socialism among the young people. After carefully considering the work of the Young People's Clubs of Yorkville and Brooklyn since their organization the members of the above named districts members of the above named districts came to the conclusion that a down-town club of this kind would, in the course of time, do good work for the party and therefore decided to organize

a third Young People's Club,

the arrangements and start the nev club on the right basis. The commit-tees held a joint meeting on June 5, Comrade Lentz, representing the Young People's Club of Yorkville, and Comrades Hoffman and Burmelster, representing the Young People's Club of Brooklyn, being present in response to an invitation to assist in the work. It was decided that the club be offi-June 27, at the Labor Lyceum, 64 East Fourth street, at 8 p. m. sharp, * An entertainment with an excellent program has been arranged and several prominent speakers will explain the reasons for organizing a club of this the alms of the club, and the work that it can accomplish. The Socialist Band has volunteered its services and will render the musical numbers on the program, and several other artists have volunteered to furnish entertainment. Dancing will also be

feature of the evening's enjoyment.

The purpose of this club will be to combine education with enjoyment. In addition to the social and recreation features of the club, debates, discussions, and fectures on economic and political questions and other topics will be held and it will be the aim of the club to assist in the general agitation and propaganda work of the Social Democratic Party and all other work in the interest of the working class and the Socialist movement, especially among those who now have no idea of Socialism. The committee therefore calls upon all young readers of The Worker in the neighborhood of the 6th. 10th, and 14th A. D. to join the club at the start and do all in their power to make the undertaking a success. Older Socialists are earnestly urged to

PRICE 2 CENTS. **GERMAN ELECTION**

Next Tuesday New York Socialists Will Hear Returns.

Mosting in Turn Half to Get Earliest News of the Assured Progress of the Social Democratic Party in Reichstag Elections.

Next Tuesday, June 16, is to be held the election of members of the Parlia-ment of the German Empire. There is but one party in Germany that looks forward to the event without fear and trembling. On every hand it is con-ceded that, in spite of the coalition of capitalist parties, and in spite of the use of imperial and official influence on an unusual scale, the vote of the Bocial Benneratic Party and its repre-sentation in the Reichstag will be greatly increased. The only question in doubt is the extent of our gains. I place of the popular vote of two and a quarter millions in 1888, three mill-lons are generally conceded to us. The most moderate of the Socialist leaders predict that our group in the Reichstag will be increased from fifty-eight to at least seventy-rive, while some are claiming ninety or a hundred. The Roelal Democrats of New York

City will hold a meeting in the Turn Hall, Eighty-firth street and Lexington avenue, on Tuesday evening, to receive the returns sent by special cable from Berlin. Benjamin Hanford and Alexunder Jonas will speak, and there will be excellent music and other attrac-tions. An admission fee of ten cents will be charged at the door, and the surplus will be used for agitation in New York, so that next fall we may

THE PARTY PICNIC.

The joint committee of twenty elected by the Volkszeitung Conference and the General Committee of Local New York, Social Democratic Party, for the purpose of arranging the picule to be held on July 10 in Spizer's Westchester Park for the benefit of the local, has held two well attended meetings. Comrade U. Solomon was elected sec-retary of the committee. It was decided to engage the Carl Saint Club with cleven musicians and also to en-deavor to get the co-operation of the Socialist Band gratis. Entertainment will be provided by the singing socie-ties, Rohemian Sokol, Turnversin Vor-würts." Bolismian Turners, Free Ger-man Schools and others. The Social Democratic Women's Society will have charge of bowling allers, egg running, bird apenring, wheels of fortune, and other games. The admission price was fixed at ten cents, payable at the gate and no tickets will be sent out as here and no treves will be sent out an nere-tofore. It was decided to advertise the picule in The Worker, "Volkezeitung," Yiddish "Forward," and "Has Lidu." The committee will meet every Wednesday in the Labor Lyceum, 64 B. Fourth street, at 2 P. M., and every member is urged to attend regularly and punctually. All courades should remember that this picule affords the hest opportunity to better the very bad financial condition of the local before financial condition of the local before the coming campaign and help to make this affair an unparalleled success by distributing the announcement cards, which are to be had at the party office in the Lattor Lyceum; and by donat-ing articles suitable for prizes.

THE POLISH SOCIALISTS IN THE UNITED STATES.

A Polish comrade calls our attention o an inaccuracy in a report from the consylvania State Committee pub-shed in our issue of May 17. It was there stated that the Alliance of Polish Socialists in the United States supports the S. L. P. This is not correct. The Alliance at its convention held in Pitts-burk last March resolved to remain menteral for the recovery been and the porate itself in the Socialist Party next year provided the national convention gives certain guarantees of the autonomy of the Polish organizations in matters not pertaining to the movement in ters not pertaining to the movement in this country. The Alliance is composed of about twenty local organization, none of which has supported the Do Leonite wing since 1900, and most of which actively support the Socialist Party as does the Polish Socialist pa-per, "Robotnik," published in Chicago.

FOR PROPAGANDA AMONG THE FRENCH.

CHARLEROIX, Pa., June 5 .-- Oberving that the papers published in the French tanguage for the French Canadian population of New England have of late been full of misrepresentations of Socialism and bitter attents on the Socialist Party, Comrade Gonzion has offered to send copies of his paper, "L'Union des Travailleurs," free to any comrades in the New England states who will undertake to distribute them among Freuch-speaking workingmen. He will provide five hundred copies a week gratis for this purpose and every comrade who is willing to undertake the distribution should at once write, saying how many papers he can use weekly, to Louis Goaziou, 730 Washing ton avenue, Charleroix, Pa.

[Note, -The editor of The eay, from having read "L'Union des Travailleurs," that the comrades should avail themselves of this offer and should also try to get subscribers for the paper among the French-speaking workingmen.)

---Don't blame the polleeman when he uses his club on a striker's head. He is obeying orders. Blame yourself if you voted for the mayor who gives him such orders. Under a Socialist ad-ministration the orders would have been to belp the strike and the police-man would have obeyed them still more faithfully,

THE PARTY'S EMBLEM.

e state of New York, on account of provisions of the election laws, the of Party is officially recognized under me of Secial Democratic Party, and blem is the Arm and Turch, as shown

The Secialist Party (or Social Democratic arty in New Yurk) should not be confused. Bit the se-called Socialist Labor Party, so latter to a ring-ruled organization which votes all its overgies to two purposes rest, to disrispt the Socialist movement and suster the Socialists who carry on the title against capitalism; second, to making of injure the trade-usion movement.

THE SOCIALIST VOTE. The Socialist Party (the Social Desporation Party of New Torky has peased through its second general election. Its growing power in inflicated and its spicedy "throny for-inducered by the great increase of its vote as shown in these figures:

bor conflicts: Workingmon who strike and hold out a long time are haracterised as "stubborn;" employ ers who lock their men out and stick to it are said to be "firm."

A DISASTROUS SURREWINER.

The capitalists of New York have eason to rejoice-not the employers of the building trades...slone, hat...the prhole body of profit-takers, who hate and fear the laber movement.

The proposed acttlement of the build ing trades lockout on which we com miented last week-the betrayal of the Building Material Drivers by the other penions of the Board of Building Brades-although it was rejected by a najority of the members in a majority day the unskilled men follow the exof the unions, has, it seems, been virbually carried into effect by the action of a majority of these unions. At Monday's meeting of the Board, a mo-Rion to ask the drivers to withdraw was defeated by a vote of twenty to duteen. But the sixteen unions in the minority thereundn withdrew, organlaed a rival central body, and on Tuesday issued a declaration stating that

Will not interfere with the free me of any supplies delivered by any mem-her of the dualers' associations (which organized the lockout) no matter under that conditions or by whom they ight be made, handled, or delivered, and will not take any part in any trouble originating with the material drivers or material handlers, or any unskilled labor.

· The declaration continues:

" "And they (the secoding unions) fur-ther agree that in the new association of the above-named bodies of me-ichanics the new body will be bound by the action of this committee, and any hew membership that may be allowed to join their association shall also be found by this action. This, however, is done in consideration of the supply fleaters agreeing to open their places thealess agreeing to open their place of business for the delivery of materi-mot later than Friday, June 12, 1903. The hoycutt in Brooklyn is also de

The employers have given notice that the lockout is to be declared off in consideration of this complete backdown on the part of these unions.

John J. Donovan of the Pleaterers Tiplon, president of the new Hoard of Building Trades, says:

re were forced into by induring the cemands of the Building Material Drivers' Union. As so the skilled trades not already with us, we only want the engineers and the house smiths and bridgemen. The engineers I believe, will come to our side. 203

The secussion of so many and so powerful unions obviously breaks the resistance of the workers to the leftout employers. Absolute defeat, costs. an plete surrender, surrender without the union light, surrouder forced by defection from their own ranks, that is the ricks: tion in which these workers now find

In the face of this condition we have little to add to what we said last week in anticipation of it. Denunciation of the secoders who have thus betrayed their brothers into the hands of the shemy would do but little good: They have their lesson to learn. They will learn it. The bosses who are patting them on the back to-day will beat it into their heads before long. It is a pity that the lesson could not be learned without all the prolonged hardships that this surrender brings upon innocent and loyal workers, without all the bitter antagonisms and

recriminations that are sure to follow. Two arguments have been used by the advocates of this surrender.

In the first piace, they appealed to the fears of the locked-out men, told them how great were the capitalist forces organized against them, told them the bosses were determined to win, and on this ground advised them to submit.

In the second place, they appealed to the suicidal selfishness and prejudice of their members. They mid: "We are skilled mechanics and we refuse to be ruled by unakilled inborers." Drawing this false division between two classes of employees, they obscured the real division between capitalists and wage-workers.

On these two arguments they carried their point-for the time. They will come to wish that they had not.

Why? Herause, however the secutors may seek to justify themselves to themwives, the employers know that theg, have won a victory and inflicted a defeat on the unions, that a part of the unions are afraid and that their solid phalanz is broken. Does anyone suppose that the employers will rest content with this victory? Does anyone doubt that they will seize the next opportunity to strike a blow at another of the unions, invoking again the same fear and the same foolish projudice to help them? Does anyone think that it will be easier for the new board to meet the increasing aggressions of the

A defeat at the end of a bravely fought battle is not a thing to grieve much over. Many a strike that seemed to be lost was actually a victory in the moral effect it had upon both sides. But to surrender without a battle is to invite new attacks and to render

bosses than it has been for the old?

yourself weaker before them. Again, whatever high-flown phrases the seceders may use about their dignity as skilled mechanics, the cold fact remains that skilled mechanics often need the help of common laborers in their battles. Again and again one beip has been given, and cheerfully given, in the past. It will be needed in the future. It is not well for these unions of skilled men that they have given their less skilled brothers just cause of anger. It is not well that they have given them an example of scabbing under the name of unionism.

When the time comes, when the associated employers are ready to attack another union, one of those that have taken part in this surrender, they will not fail to remind the drivers, the laborers, all the unskilled men of this wrong. Will anyone wonder if in that simple that has been set and become the employers' allies? The law of working-class solidarity

is not a theory or an ideal only, it to u fact that must be reckoned with. When you divide the workers against themselves, you weaken them and injure them as a whole and in every part. Those who have ignored and outraged that law will suffer for it and only by such suffering will they learn. As for these who vainly opposed this false step, what they have to do is to redouble their efforts to heal the breach. by preaching and practising and demonstrating their regard for their cine shows all minor divisions and around capitalist rule in every form.

Right pow, this week, to-day, is the time to send in to the National Secretary your contribution to the Special Occanising Fund. Whether it he ten dollars or ten cents, it will help; the nore the better, but a small contribution actually sent is better than a large one intended and postponed.

The attention of comrades of Local New York is called to the notice of primaries printed elsowhers in this paper. Nothing should be aflewed to interfere with attendance at the primarice with attendance at their tree while grantly competing for the privilegace of sizery. This of all business coming before them; I to the privilegace of sizery. This of all business coming before them; I to the will supply the most completely of all business coming before them; I to the privilegace of sizery. This class will astard a state of the privilegace of sizery. This class of new free sizery will grant and administrations with a treat size.

form administrations sithe treat strik-ere to the injunction and the pulice, man's club. A Social Democratic ad-Building Trades, says:

"We will never again have unabilied unions in the Board. The reconstructed organization will have acting to do with them. We do not propose ever lagain to be caught in the predicament.

WHAT ARE THE LIMITS OF PRIVATE PROPERTY?

complete in himself, who formerly

produced for himself and gave the sur-

ning into the little barrel at his door, and all his needs went into that barrel and all above his needs went out of that barrel to the world. The new

capitalist. One great gutter runs along

the whole row; and the leaders and the old barrels at the private pro-ducers' doors are taken away. There

is now but one economic watershed and one leader. The whole village has

but one roof now and that roof runs

into a great private reservoir—called a bank, a trust, a syndicate: Capital-ism! The village roof is a factory owned by one. The town roof is a fac-

tory owned by two or three, but on its wny to be owned by one also. The na-

tion's roof is a factory owned by a few more, but on its way to the same benevolent assimilation and simplicity

of private control.

If private property was never wrong in the moral history of mankind it is wrong now. If private property was

never inconsistent with the mainte-

nance of the states and governments

of the earth, it is wrong new. That is, this monster exaggeration of it which

the people, thoughtless and apparently

loomed to despotism, allow themselve

to think of as private property; it is wrong now, in this democracy. Private property as a principle in

human progress passed its further possibilities on that day when the first wheel of the first machine went around in obsdience to the fierce

breathing of escaping steam; and when the first man consented to handle it as its subordinate, for wages. Then private despotism began to infiate it-

self with this new power. Now it is infinited to its utmost, it is ready, of

inflated to its utmost, it is ready, of its own monstrons excesses, to burst.

No democracy can survive private property extended to the limits demanded by modern capitalism. The race must now go through a collectivist experience before it is fit for

any further private property, or it must do what the Socialist demands. It must disarm the sconomic despot; and forbid him henceforth the private

ownership and direction of the new

workman (who is now a co-ordinate of thousands) for private profit. The fac-

tories, mills, the mines, the milronds

etc., must be turned over to America by

Its own democracy as America's an-awer to the question, what are the limits of private property?

SOCIALISM IN SWITZERLAND

The Socialist Party of Switzerland

now has eight members in the Na-tional Council, the lower house of the

rurai), Saint Gall, and Thürgan. This

represents the result of the election of

last December. In the preceeding council, elected in 1890, we had four

members. We lost one seat in Geneva

through the coalition last winter of the

Protestant Conservatives with the Catholics. To have forced an alliance

between these parties—especially in the historic city of Galvin—is a great

enough, achievement aimost to compensate for the loss of the seat, which is likely to be regained in 1905.

In the election of 1800 the Socialists

refrained from nominating against the Radical party in many places. But during the three years following the

dominance in Swiss politics, so com-pletely put the judicial and military

power at the disposal of the capitalists for the suppression of strikes that it was resolved to go to the polis inde-pendently wherever possible, opposing

Radicals and Conservatives alike. The

esult was not only to double the So-

cialist representation and increase our popular vote in a still larger ratio, but

one-eighth of the total vote

Radical party in many places. But during the three years following the Radicals, grown corrupt and untrue to the loss requirement to the base and the latter must have all freedom to attack or criticise.

federal parliament, representing (cantons of Busel (city), Zurich, Ba

of private control.

By Poter E. Burrowes.

The human race in its struggle for a civilized endurance on the earth has ever found, and ever will find, while nemy remains, its for to be either sown nature, or the despotism of individual and property life. The the individual and property life. The against social death is but the record of the victories of nature ignorance over his body, or the victory of this private property despotisma over his

Private property is a wrong only when it is a weapon of hindrance and oppression to others; when, as an affinence, it is the counterpart of some others' privation or when it stunds as a hindrance to another's certain right and power of equal afficence, or when it is used to deliberately maintain the It is used to delinerately maintain in privations of others. When it is an instrument of inequality, or disgrace; disguise it as you may, it is a crime ngainst democracy—that is, against government. This is no inherent degovernment. This is no inherent defect in private property per se. It is only its defect as an expense to the others; it is only its defect for those

who are unready.

Private property now retards and seeks to prevent altogether the collective experience which must precede any further extension of private ownership in large things. In itself private prop-ertly is neither good nor bad, save as it relates the owner to other lives. If it gives its owner an undue quantita-tive power over the liberties of others it makes him, to that extent, a com-petitor with the government of the state. And though he may transpor the paraphernalia of his anarchy from the back of a saloon to the Senate chambers he is still the fee that stands beside unknown nature opposing man's civilized endurance on the earth; be is the despot of the private life, and the necessary enemy to all right government by the people, whom he must physically, economically and mentally physically, economically and mentally disarm and unfit for government. No very serious harm could have been done to mankind by the private prop ertarian while in the nature of things he roughly represented the uninte-grated efforts of the old world's economic units. Those industrial units consisted of separate workingmen liv-ing apart and doing for themselves, because society had not yet provided for them any better way. They were not competing with each other, they were only working for themselves—the then appointed way of working for There was no demotism as mpetition among them-a work man never competer; a workman can not compete and work. It is only a rolibers, as buyers or as sellers that men begin to compete. It is only as a seller of labor or a buyer of bread that the workman is drawn into the foul

swirl of competition.
So long an economic society com-So long as economic soriety consisted of each producer handling the separate equipments with which as yet human experience had only been able to supply him, the democracy existing had no very great enemy in private economic property. The very extent of its disintegration was its best

It is necessarily in accord with the genius and design of the private despot to arm himself and his friends, until to arm numeri and his friends, until he can dispense with them and fall upon them; and to continue, making new combinations under the name of governments to uphold his opportun-ity. So it is perfectly in accordance ity. So it is perfectly in accordance with the genius and requirements of a true democracy to disarm all but those who are the natural victims of this oppression, and therefore the representatives of the nation's life.

When private property in the aword passed away and became firmly fixed in the state, there passed with it, from the private despot what seemed to be his lost friend; and except for a select ns out franci, and except for a select few, despotism on an extensive scale night have gone out of the reach of the many headed adventurer. Then it because necessary for men of that kind to lay lines for the court, when the few lucky ones ant around Pharaob. For many conturies the old family despots would have been invulnerable

for many cuttures the old family despots would have been invulnerable against the people, but for nature's biind alemocratic way of giving out brains. All that a sword could smite was subject to them, but the sword of darkness could not smite away all this divine radiation of brains shining through the braine of planning. through the heads of ploughmen and beggins and what not. So the private despot out of court, knowing just what the Pharmohn wanted most, came up for court through the church with the brains of seris for sale, saying: "Here are those brains of ours for darkening counsel. Take them into your pal-

o inflict a signal defeat and teach a White those climen brains dailed at salutary lesson to the recreant Radicourt alternatively blessing and curs-ing the swords of the competing des-puts a few power greater than that of Eight members in a total of one hunfred and sixty-seven is a small minor the sword was matured in the worl ity, indeed. But this does not truly curesent the voting strength of the Tho-ley, whom both the altar and the party. The liadicals have gerryman-dered the country very skilfully, in such a way that simost every indusaward despot incontinently oppressed, had had forced upon him a roving commission throughout Christen He became a monetary trainp and was protected in his trampery for the money he knew how to get and how to lead. While he was supplying the trial center where the Socialist movenent is strong is thrown into the same electoral district with an overwhelming. number of reactionary peasants. The candidates of the Socialist Party last court tand the church sometimes I doubt not be became the schoolmaster winter received 90,000 ballots, almost doubt not be became the school master abrund for the new power which was destined in its turn to paralyze the mitter and the aword. Behold him arise, the manner despot, who will exente a new thing in the earth. A well defined mass of mankind he will produce in whose continuous and can-plate' subjection all shades of oppressions shall be reserved be interested as cast. With proportionate representaeight members.

SOCIALISM IN ALGERIA

THE MARTYRS OF THE TUNNEL.

By Horaco Traubol.

I read that four hundred New York- ; shadow of a dreadful popular unco ers have been killed or wounded in a bettle. Your tunnel is costing you something. Yet this something is not self-incidents of his rapine, the more his incidents of his rapine, the more his stayed where he was, until there came a day, and it came inside of a cwatury, when the profit-monger was in a position to pay the king and bishop and president their salaries as his attpendiagies for giving the appearance and sanction of heaven and the state discs, but workingmen. If it had been soldiers we would have mourned. But las it was mere workingmen we stop a to the new despotism. And what is this new despotism? The disintegrated man, each one

minute to inspect the register and then go about our business.

We have got our values upside down and inside out. Wo worship the deatrayer. We despise or at least knore the builder. When a file of saidlers rouses down the street marching to the drum and fife your pulses dilate, your plus to the world, no longer lives and lounes down the street marching to the works in his little house of industrial louns and fife your pulses dillate, your isolation. He no longer, as it were, blood thrills, and you are creatured into catches on his own little roof the world's economic supply. Once on a time he seemed to have a little water harrel by his dose and little gutters under his agve, and a little leader run-

expectation.
A file of soldiers bent upon war. A file of workings bent upon a strike. One threatens, the other condones, lib-One threatens, the other condones, liberty. The striker with his taxe is malign. Watch yourself. Your heart will get away from you. I know you only too west. I know where your heart belongs. I know where your heart belongs. I know where your heart goes. But I also know where therty belongs and where liberty goes.

You look with awe upon a battlefield. be you not look with as much awe. capitalist regime completely inverted the order; it was a revolution. All the houses are now stuck together; and all the roof surface is the property of the

to you not look with an much awe upon the tunnel? Here was an bound battle. A battle with the rocks. Here was a lattle without an enemy. Here was a battle without murder. Here was a battle in which no brother took up his arms against a brother. Yet this battle, too, had its victims. And you look on and think and say nothing. You are nonchalant and uninformed You are nonchaint and uninformed. What is the matter with your brais and your heart? Here was an honest lattle. This battle was fought on a fair level of human enterprise. You hook down into these holes in the ground and your pulse is undisturbed. You turn round to Broadway, meet a battafion of soldiers, and you become alive with the fire by a martial exaltation. What is the matter with your tion. What is the matter with your brain and your heart? That man is a here who kills some-

lody. But the man who ramons is a slave. We have mistaken murder for manhood and given it a first place in our respect. We have confused labor with degradation and reduced, it below the plane of its groper nobility. If the plane of its proper nobility. If you go into our schools and ask the children to tell of the name of a con-temporary hero they will tell you that Puncton is a here. No child is so taught that he would think of Debs as a hero. No you wonder then that children grow up able to respond to the drum and tife and unable to respond to the pick and shovel?

spond to the pick and shove!?
When the state manufactures emblems it makes them of a military or juridical character. No state has seen yet thought to symbolise itself in the instruments of labor. Yet labor starts all and finishes all. Labor bestows the first rough and the lest disease to all the art and circumstance of life. No state, no church, no parlor, no any thing, would stand for an instant with labor removed from its foundations. Labor even put your libble on your pulnit. It even put your love into your

Editor of The Worker:--It has been

an invariable rule of mine never to re-ply to criticisms which might be made of any of my writings unless it was necessary to eluddate some idea that had occurred in the writings criticised.

I nise know that it has become at

nwritten law that an author must not

builthant autimeting himself to relort.

complain of this review, in the first

which it appeared, and was as far as possible from being a sober review. All

In the second piece the particular points criticised exposed just exactly the ignorance of American history which it was the intention of the book

to clear up. The persurer questions the position that "the Bouthern solution favored restriction of the slave trafts.

incidents of his rapine, the more us-pension, the greater his renown. The laborer sares. You condemn his wounds. You ignore his death. His family are not made pensioners. They wounds. You ignore his death. First family are not made pensioners. They are made paupers. If the event of his death is sufficiently dramattle you put him vaguely in the category of "ten men killed" in the display head of the daily papers. Then thus. The soldier's family reports at the treasury. The inhorer's family reports at the poor-

That is as far along as justice bas got. But justice has not got far along. Justice still lingers superfluously with mediceral ideals. If justice was justice you would take off your lat to those men who patiently go into the from to do you their perious service. You would regard them with reverence. Their solled hands and clothes would take on a rainbow humin-ousness and exact the full tribute of your regard.

These martyrs are martyrs in suite of you and in spite of themselves. They are martyrs iscause of themselves. Their martyrdom is not a martyric of Summery and decorations. They can expect nothing for their maryir-dom. Not even good wages. Not even the kind words of the master. Their martyrdom is lowest in form and highest in substance. Their martyrdom is deafened into your ears and blinded into your eyes. It is a martyrdom that niceps in a garret and winds up on the podrist. It is a martyrdom of which history says nothing. It is a martyr-dom that has to be satisfied with mar-tyrdom. It gets no bonors. The formal plaudits of the world go to the formal martyrdom. The soldier resp-pears in crescents, in halfs of legislation, in coats of arms and on the arms of conts. But the laborer-he passes into oblivion by the easiest and darkest way. You sun your soldiers, shadow your laborers.

Some men die that you may live. Some then die that you may live. Some on seaffolks. Nome on crosses. Some on latticfields. Some in tunnels. Why should not the tunnel be as holy as the cross? What is there shout the tunnel which removes it from the prearriptions of your reverence? You can understand Jesus on the cross. You can understand Sevouarola, burned at the stake. You can understand John Brown, executed at Harper's Ferry. Why do you fail to understand this somebody sacrificed in the tunnel? I do not say that the cross and the stake. It. St. and the scaffold have checked you. But p. 19. I do say that the tunnel has checked you. Or that you have checked the tunnel. For if you fail to understand the tunnel you have broken shruptly loose from the continuity of history For the tunnel belongs to the cross-by just the same subtle chain of faith as gives the cross to the tunnel.

as gives the cross to the toined.

He died humbly crushed underneath rock. They have brought him out of the ground. His face is pale but satisfied. Your city of millions will nak stay in its heavy round to regard his anonymous visage. Yet this unknown man has saved your city. But for him your city could not exist. All labor lies there prostrate in his inert form. heart. The very labor that is binsting lies there prostrate in his heet form.

It seems to very labor that is binsting lies there prostrate in his heet form.

Come out of your churches, all of your churches, all of your worship here. Leave your creeds lichind. This is creed enough. Worship here. Here is religion enough.

> South Carolina as the two states which were particularly ropposed to any present or future interference with the sinve trade." Concerning Georgia Du Bois tells us that the proprietors of the colony sought from the beginning to what out slayes.
>
> "At last in 1749, the colonists pre-

valled on the trustees and the govern-ment, and the trade was thrown open under careful restrictions, with limited importations, required a registry and guarantles on all slaves brought in and laid a duty. It is probable, however, that these restrictions were never en-forced and that the trade thus established continued undisturbed until the ltevolution."

there is some little grounds for the pealtion, although even here, there was much opposition to the slave trade. When we come to South Carolina,

however, there is a totally different story and I quote this at considerable length since it shows exactly the line of evolution to which reference was made in the pamphlet: "As early as Nevertheless, I feel that I cannot neg-lect to reply to the review which ap-heared in The Worker of May 31 on 'no pamphlet "Class Struggles in America." made in the pamphiet; "As early as 1098 the slave trade to South Carolina resched such proportions that it was thought that 'the great number of negros which of late have been im-ported into the colony may enlarger place, because it was written in a nevish, carping, fault-finding style ut-terly unworthy of the publication in the safety thereof.' The immigration of white servants was therefore ex-couraged by a special law... About the time the Asiento (the mane applied emphasis was laid on trifling non-essen-tials while the central thought of the pumphlet was entirely ignored. to the agreement on the slave trade of the treaty of Etrecht in 1718; we signed the shave trade so increased that scarcely a year after the communication of the momentum agreement, two heavy duty acts were passed bucause the number of negros do extremely in-crease in this Province, and through the afflicting providence of God, the favored restriction of the slave truste, and New England opposed such restriction." Then he goes os to discusse what took place in the Caustitutional Convention, forgetting that the Colonial stage had then been ever with nearly ten years, and that an entirely new stage of social development had been entered upon. In reality the pamphiot does not take quite as autreme a position as the reviewer implies, but I want to point out the facts in the case and show how far from understanding the whife persons do not preportionally shultiply, by reason whereof, the safety of the said Province is greatly endar of the encouragement abroad and of increased business activity in importing naval stores at home, suffered nearcely any check, atthough repeated acts... were passed laying high du-ties. Finally in 1717 an additional because in all shades of espressions and computed in the case and the case and will be automated by the case will over compute the first specific free while stady competitions. This class will over compute the privileges of slavery. This class will over compute the privileges of slavery the provider of the privileges of slavery. This class will over compute the privileges of slavery the provider of the privileges of slavery. This class will over compute the privileges of slavery. This class will over compute the privileges of slavery the provider of the privileges of slavery the provider of the privileges of slavery. This class will over the post of the privileges of slavery the provider of the privileges of slavery. This class will over the privileges of slavery the provider of the privileges of slavery. This class will only the most completely supply the most completely supply the most completely supply the most completely in the privileges of slavery. This class of the privileges of slavery the provider of the privileges of slavery the provider of the privileges of slavery. This class of the privileges of slavery th

cordingly imposed in 1764. This duty

. A little later the question came up of non-importation agreements and it was Virginia and North Carolina which asked that slaves be included and also there is trace of some opposi-tion from South Carolins. It was really that Northern states which bluckether way. See Du Hole, pp. On the next pages Du Bois tells us that, selich in 1774 Congress finally

that, which is 1774 Congress finally passed when become the net free of New. Moral was the only one who objected to the inclusion of "molasses and coffee from the Britisz plantations," and it was distinctly understood that the exclusion of these articles was a direct blow at the slave trade. Oct. 12, 1774, the Articles of Association were substitute to containing. Association were submitted containing the following articles: "We will neither import nor purchase may slave imported after the 1st of Decamber next, r'ter which time we will wholly discontinue the slave trade, and we will neither be concerned in it our-selves nor will we life our vessels, nor sell any commodities to those who are concerned to it." This article was passed unanimously and on the adop-tion of it Georgia was the only colony which raised any objection. And South Carolina, the colony which our reveiver would have us believe was leading the revolt against all restric-tions on the slave trade, was passing a resolution to oppose all trade with Georgia until she should adopt these

regulations. See Du Bois, pp. 44-45. Of North Carolina Du Bois says: "In the early times there were few slaves in North Carolina. This fact, together with the troubled and turbulent state of affairs during the early colonial period, did not necessitate the adop-tion of any settled policy toward slavery and the slave trade. Later the slave trade to the colony increased; but there is no evidence of any effort to restrict or in any way regulate it before 1788, when it was declared that the importation of slaves into this state is productive of evil consequences and highly impositic and a prohibitive duty is laid on them."

In regard to Virginia he says: "Virginin sought continuously almost from lts colonial organization to stop the alave trade because it because at once a breeder of slaves and objected to for eign competition."

When we turn to the Northern nies we find another story. Of New York we learn that while it imposed a tax of £3 a head in 1700 this was contined to "all negroes imported from any other place than an African port," and the framers of the act admitted that it was laid simply to "promote a direct trade and to cut off the competition of the Royal African Company," See John Spear, "American Slave Trade,

Du Bols (pp. 19-20) says concerning this same restriction: The chief ele-ment of restriction in this colony appears to have been the shrewd bustness sense of the traders who never flooded the slave market, but kept a supply sufficient for the slowly growing demand. . . . No restriction was ever put by New York on participation in the trade outside the colony, and in spite of national laws New York mer-chants continued to be engaged in this traffic even down to the Civil War."

Speer in his "American Slave Trade" (p. 02) enys: "In 1705 Massachusetts enforced a tax of 64 for an extra slave imported. . . . Another clause of the bill provided for an extra relate of the tax if the staves were exported after having been entered at the custom shavers in making Boston a clearing house, so to speak, for the slave trade of the whole continent,"

Concerning the entire New England states Du Bold p. 20 says: "Turning now to restrictive measures, we must first note the measures of the slaveconsuming colonies which tended to limit the trade. These measures, how-ever, came comparatively late, were ever, came comparatively late, were enforced with varying degrees of effienforced with varying degrees of em-ciency, and did not seriously affect the alaye trade before the Revolution. . . . In the line of definite legal enactment to stop the New England citizens from carrying slaves from Africa to any place in the world, there-were, before the Revolution, none."

In the same way in regard to the representatives of South Carolina and Georgia objecting to the clause in the Declaration of Independence. It is true that they objected, but they did not stand alone, as Jefferson himself tells us: "Our Northern brethren also, I believe, felt a little tender under the consure; for though their people had very few slaves themselves, yet they been pretty considerable carriers of them to others

I intend to treat this entire subject at somewhat greater length in the July number of the "International Socialist Review," and so will not include other enorations here, but I think I have green enough to show that my position was well within the bounds of truth and that my statements might have been worded much stronger.

As to the further criticisms concern ing the treatment of the Populist move-ment. I am perfectly willing to let the facts stated in the pampillet stand in opposition to the flat of the reviewer.

There is one other point, however, that is worth noticing and that is the complaint of the sin of ombision in not making more of the Socialist more ment which existed in this country ! fore 1994. While there was no inten fore 1804. While there was no inten-tion on my part to alight the foreign-born comrates and especially the Ger-mans who did such excellent work in these earlier years, yet a description of them would better belong in a story of Secialist movements in America, than of an American Socialist move-ment. A Reclatist movement which did nost add a line to the Socialist interested of the country in which it the new and a mine the country in which it existed, seve by translation from other lands of the last to underwind such translations, which had no open in the life and social movements of the time, which con-tentificated with repeating the plati-tudes—successary an such repetitions may have been of the international Socialist movement, who isolated themselves intellectually from the inthe country and dustrial facts of the country and to formed little more than an conterie society for the preservation of the Societies my stories, is really little cutified to any great emphasis in a study of Torcia.

American acquamic, and social evolu-

I am theforeity semible of the de and the company semilable of the de-fects of which the reviewer complains as as its somewhat contradictory style in being neither a purely propaganta or admentional leader. Shat this was a conscious choice on my part as being the best way to get the bless before as farre a number as nonsible. large a number as possible.

The pamphlet is undoubtedly con-densed much more than is desirable. But I can say for the benefit of the reviewer and other critics similarly inclined that I purposely had no plates unde of the book and as quick as the present edition is exhausted, it will be entirely re-written and nearly doubled

lu size.

Fraternally yours, A. M. SIMONS,

Chicago, June 3. [Note.-] an entry that my remarks on Comrade Simons' pamphlet seemed previals and carping, for they certainly were not written in such a spirit, hardly seemed to me necessary to say more than I did in appreciation of his central thought. Let me make amends by reporting that, though I had found more faults than I did to: thought I did. I should have greeted with joy this beginning of the important work of rescuing the study of American history from the hands of misty ideologists and jingoistle per-verters of truth.

On the question of the attitude of

the Southern colonies I plead guilty to having misunderstood the writer's in tent, though I might plend in extenus tion some lack of clearness in his state ment, almost unavoidable, no doubt, in

ject.
The character of the Populist movement remelus a question, and he im-portant one, of difference of opinion between ms. Commide Simons is willing to let the facts stated stand in opposition to my "flat." Of course I did not quarrel with his statement of facts, which was not very extensive. I did and do disagree with his interpretation of the facts, which is quite a different matter. Surely "fat" is a curious word to be used in this connection, involving a begging of the question upon Com rade Simons' part.

rade Simons' part.
I do not know on what principle
Comrade Simons distinguishes between "the Socialist movement in
America" and "the American Socialist movement." For me as an interna-tionnist, I know no such distinction. It may be one of the "platifudes" It may be one of the "pistfudes" or whose repetition in the past he com-plains, but I for one will lose no op-portunity to repeat it in the future, that the German horn or Russian born or Swedish born Socialist in America is as much an American So-cialist as one whose forefathers landed at Plymouth Rock: I do not think that Comrade Simons, on the other hand. contributes much either to Socialist harmony or to a right understanding of facts by repeating the platitude of the reformers and sentimentalists -- a pernicionaly faine platitude, to bost-that the Socialist movement before 1834 "had no part in the life and social movements of the time, isolated itself intellectually from the industrial mant intersectually from the industrial facts of the country, and formed little more than an ecoteric society for the promotion of the Socialist mys-teries." We have had too much of this chenp and inaccurate generalization from people who know no better Comrade Simons should not join in it

In closing, let me again express the In closing, let me again express the hope as well as the wish that the pre-cent edition of "Class Struggles in America" will quickly be exhausted and quickly followed by a larger work.—The Reviewer.1

The Socialist Literature Company The Socialist Literature Company has mailed a sample capy of "Labar Politics and Socialist Politics" to the secretary of every local of the Socialist Party in the United States whose percentage have refused or neglected o furnish the addresses of lucais. Any local secretaries who have been over looked will be supplied on application Courades who are willing to act as agents for The Worker and the publications of the Euciquist Literature Com-pany in their respective localities are sted to communicate

A valuable addition has been made to our penpagamba literature by the publication, in pamphlet form of the publication in pampure, to a stemographic report of the debate on Socialism held in Fancull Hall, Roe-ton, on Feb. 8, between James F. Carey, Socialist Representative in the Massachusetts Legislature, and Fredarick J. Stimson of Harvard Paive effect it. Commonst. Given equal merit, a debute will generally attract more in-terest than a lecture or an essay and, atthough the heat stenngraphic res never does justice to such a discussion, this pamphlet will undoubtedly find. as it deserves, many careful re-It has been published ender th tion of the Massachuyetta State uittee of the Sociality Party, and has aiready run tuin a record celition five thousand copies. Boston, Mass.

PRESS CENSORSHIP IN RUSSIA.

Beventy editors and writers of the secret revulationary press; of St. meret recently met and adopted a declaration instating on the necessity of the illustration of the press from con-meratin, pointing, par, that at pressat the papers must choose either to keep silence in regard in acts and declara-tions of the government or to praise them, that journals which who honest-by to criticize such acts and declara-tions are conveiled to dis, nice their tions are compelled to discueristelass under the form of prais which often results in disseminating fulse and confused ideas on such subjects, and holding that, while the centerally cantinues, the press will heat conserve its own dignity and failil its duty by alterether abstalaing from any mention of paveramental nets, "letting slience speak, for them."

..... Mordalist and Social Democratic York and Wiscouds is identical witthe Socialist Party of other states. It is the party of the working clear against all parties of engitation. Ha entities is New York is the Arm and

The work of party agitation and or ganization is being increased in every state. Vermont, Alabama, and Arkan-ass have recently perfected state or-ganizations and started out with bright prospects. Within the week the ne tional office has received most sprour aging reports from Colorado, Illinoi Kentucky, Mianesota, and Missouri.

The poem send at the MacCartney memorial meeting in Boston and at-tributed to Fred Irish of Purthud, Me., was written by M. A. Floyd, another Portland comrade. Comrade Irish asks us to correct the misstatement.

The Socialist Club of Hyde Park Masa, is holding open-air meetings every Saturday and later may hold two week, distributing Hocialist papers and literature in large quantities, and going through the voting list planning n house to house campaign to be commenced at once.

There will be a Socialist camp or Cape Cod this summer at Sandwich, Mass., August 10 to 24. The camp will be in a pine forest, one-half sidle from callying tages. railroad depot, and one mile from the beach which is in sight and easy to ch, and on which are all the morts and recreations of the season. Excel-lent fishing, lake and sea. Expense of the round frip from New York is \$7, from Boston \$ 2.50, and board with room will cost \$1 per day, furnished room or tent \$3 per week. Sandwich has no hotels and comrades wishing to pass their vacation at this Socialist camp should therefore communicate at once with the manager, M. B. Kerr,

Clay, N. J., will hold a street meeting at Five Corners on Wednesday June 17. Comrade George H. Gos

The purpose for which the Socialis Club of Bloomfield, N. J., is trying to raise a fund of 3440 is to purchase the building which they now hold on a lease and use as headquarters. Under the terms of the lease the owner has ed to transfer the entire property to the Cinb on the payment of the sun named before July I. The Cinb con-siders that the property is well worth that amount, and the ownership of the biulding would free the committee from the persecution they have endured in peat, when the town officers have isis. Moneys should be sent promptly to Albert Schmidt, 52 Myrtle street, deld, N. J.

At the last meeting of the Lucerne Pa., County Committee, arrest men bers were present, representing Wilke Barre, Pittston, Nanticoke, Edwards ville, Limerne, and Hanover Township.
Comrade John Bryant of Nanticoke
was elected to membership. Punch
cards for the collection of party funds ere distributed to all the members Report of chairman was very encouraging; treasurer's report showed a halance on hand of \$4.39. Wilkes Barre was selected as the place of h county convention on July 4 and the Excentive Committee was given full Among the latest acquisitions to the movement we may count Professor Schuman, principal of the Forty Fort High School. Comrade Schuman has been studying the subject for some time, and is now an avowed Socialist. When he returns from his vacation trip in the West he will open a class fo

State Organizor Lamb of Michigan Worker of last week: "I wrote that 'Our "neap-hox" campaign is will in its experimental stage." Am inclined to take that back now. The ready and capable manner in which our 'soap-box-ers' are doing the advance work for our ling speakers and supporting them make me think it nearly time to say that our campaign is a success."

Through the courtesy of State Organ-izer Lamb. The Worker has been fur-nished with the addresses of several hundred comrades in Michigan who are to each of these comrades, who are requested to read them and pass them on to friends and neighbors, and naturally we shall be gratified if they take it into their bends to hustle in a few

Geo. R. Kirkpatrick and Howard H. Califwell are now speaking in Ohio with success on the opening nights. They will be kept at the work continually and hope to be able to reach every expanised point in the state and many others where the unstached comrades will make the arrangements. Comrades, get in touch with the state secretary at Remember that routes have to be made nome time shead .- A new Socialist lowithin the next few weeks.—The com-rades at Wausson have held their first open-sir meeting and they write that it was the greatest success imaginable. Everyone in the town is now talking Socialism, and they wast more speak-

Recretary Lipscomb of Missouri has lassed a special letter to every local in the state urging the contrades to prepare for the campaign of 1904. Jan. A. Slänker, one of the comrades from Japilin, will begin the work of organizing, and the workers will be increased until the entire state has been reached.

Colorado has adopted a modification of the Michigan-and Ohio plana. Ida Crouch Haslett and Chas. Oliver Jenes

were elected state organizers and a mystematic effort will be made to set the working class into the party in every part of the state.

Secretary Graham of Local Living-Stone, Mont, writes to the National Secretary: "Courade Mable of Chico has been cusuing us for not sending de-nations to the organising funduitive will try to send some more at our mose.

Comrade Scibert of Scattle, Mash tomrates research or seattle, assum, who is a bricklayer, is to debase, Beschillam with W. M. Kellogg, Resil., ephola a member of the anti-sleefallst National Economic League and endorsed by that coreamination

Cameron H. King, Jr., requests us to say that he is a member of Local San Maton County of the Socialist Party. On the other hand, the Organizer and Secretary of Local Ban Francisco, to secretary or Local san Francisco, to which King formerly belonged, writes us that he "is not a member of the party, having resigned rather than face-charges of violating his pledge with the Bocialist l'arty and conduct detrimental to the Socialist movement." The explanation of this contradiction is that Han Mateo County is a new organisa-tion, formed partly if not wholly of former members of Local San Fran-cisco, who found that organisation as unsatisfactory bome for them after it abandoned the fusion experiment. On protest of Nan Francisco against its recognition the question of the standing of Local San Matoo County is now before the state organisation and will

Local New Haven, Conn., will hold a social and enterthinment at Aurora Hall, 135 Union street, Tuesday even-ing, June 16, to celebrate the German parliamentary elections. Arrange ments have been made to receive the returns of the elections in Germany at the hall during the evening. All m bers and friends of the party in ? Haven are cordially invited to attend and an enjoyable evening is promised Admission will be free

open-air meeting in front of the City Hall at New Rochelle last Friday even ing. The audience was composed who have been on strike for the last eight weeks. Comrade Maguire writes "Sol was in fine form and for two bours preached to them pure, unadis-terated Carl Marx Socialism and drove the truths home with sledge-hammer effect. His criticism of the union man who would not have his employer for president in his union and yet would have him for mayor or alderman provoked the wildest enthusiasm. He miled to their attention that two of missioner of Streets, who is also t building contractor and member of the Building Trades Employers' Associa discharged every laborer who suc recied in getting a job on public work when he found out that they were strikers of the building trades, thus showing the community of interests hetween the government and employ-ers as against the workers. This lesn, it is safe to presume, will not seen

E. P. Jennings, Jr., whom comrade of New York City will remember as an indefatigable worker, has settled in Olean, N. Y., and has straightway be-gun to agitate there for the Social Democratic Party, distributing many opies of The Worker and making ar meetings.

This Sunday Comrades Heleker and Holmes of Peekskill will go to Cruton-on-Hudson to break the ground for So-cialist agitation by distributing leaflets and getting names to send the part; papers for a three months, trial.

At the last meeting of Local Peck skill, N. Y., the delogates to the County Committee were instructed to notify the representative of Westcheste on the State Committee the be should make an effort to get the heudquarters of the State Committee removed from New York to a more contrally located city.

The General Committee of Local New York meets in the W. E. A. Clubhouse, 206 E. Eighty-sixth street, Saturday

The 1st, 3d, and 5th A. D. meets the hast Wednesday evening of each mouth at 150 Spring street.

Open-air meetings will be held on the West Side as follows: Thursday, June 11, N. W. corner Thirty-fifth street and Eighth avenue, with Con-rades Wood and Atkinson as speakers: Raturday, June 13, N. W. corner Hud-son and Canal, Wood and Searing: Tuesday, June 16, N. W. corner Twen-ty-second street and Seventh avenue. ty-second street and Seventh avenue, Cooney and Wood; Wednesday, June 17, N. E. corner Bleecker and Christo-pher, Paulitsch and Wood; Thursday, June 18, N. W. corner Twenty-seventh street and Tenth avenue, Wood and Abrahams; Friday, June 19, N. W. cornor Fiftieth street and Bighth avenue health and Fusilisch.

The East Side districts of the Secial Democratic Party opened the campaign of E008 with great enthusiasm last week. The New York Socialist Literary Society held three good outdoor meetings. Arrangements have bean made for other meetings as follows: Friday evening, June 12, on Butger Square, with Bernstein, Poigesthaum, Boodia, and Harris as speakers: Saturday, June 12, at Clinton and Madison streets, with Lane, Rosen, and Miles; Tuesday, June 16, at Bast Hessalway, and Meingemery street, with Dobsewitch, Josephena, and Harris: Friday, June 16, on Rutger Square, with Hani, deep, Miles, Pine, and Bernstein, and The East Side districts of the Secie

the two hours talking, varied from on to two hundred listening with much attention and little opposition, and everybody was well

The picuic of the Brooklyn Socialist Club, which will be held on June 21, at Atlantic Park, Ralph avenue near Mt. Mark's, will undoubtedly be one o the largest gatherings ever asser for pleasure in that borough. The mittee has invited many of the organisations and singing societies, and the acceptances have been such that the committee has been at its wit's end to deliver the tickets which have been called for. A souvenir program for the event is being issued, and a large number of advertisements already obtained organizations which have accepted the invitation which was extended by the club should direct their secretaries to send for admission tickets, staling the number they desire.

The comrades of Stapleton, States Island, will celebrate the expected So-cinlist victories in the German elections on Tuesday, June 16, at the Labor Ly-The primaries to elect delegate to the city convention will be held on Friday, June 19, at the Labor Lyceum, and a meeting will be held immediately afterward for the purpose of starting an English-speaking branch in Staple ton. A party picnic will be held on July 5 at Ineliu's Park, Graumere, for the fund of the Bloomfield, N. J., Labor

an open-air meeting on Friday even-ing, June 12, at the southwest corner of Ninth street and Avenue C. Com

The Young People's Social Der cratic Club of the 19th and 20th A. D. Brooklyn, is holding very well at-tended meetings in the Labor Lyceum. At the last meeting \$10 was appro-priated to be sent to national headquarters for the Special Organizing Fund. Tickets were received from the Freie Deutsche Schule and the Hoot and Shoe Workers' Union and it was resolved to attend the Local Queens County festival in a body. The Club-voted to subscribe for twenty-five copies of The Worker weekly to be used for propaganda. A committee was chosen to get a small plenic resund for the club members to have a day of enjoyment after a great deal of hard work done. Meanwhile, they are getting ready to tackle anything in the line of campaign work that may come their way. During June, July, and August the Club will meet only on the first and third Thursday ever ing of each mouth. A few organiza have not yet accounted for tickets for last mouth's picule. As will be made.

FOR CITY CONVENTION. To the Locals and Assembly District

cratic Party in the City of New

York.
Take notice that a convention of the Rocial Democratic Party of the City of New York, for the purpose of nomi-nating candidates for city officers for the ensuing election and to attend to such other matters as may come be-fore the convention, will be held on Saturday, the fourth day of July, 1903. at 10 a. m., in the Brooklyn Labor Lyceum, 940-955 Willoughby avenue, Borough of Brooklyn, City of New York.

The basis of representation to said convention is: One delegate for every embir District and an additions delegate for every twenty members i

good standing. For the City Executive Committee of the S. D. P. of the City of New

YORKVILLE PARTY MEETING.

The Yorkville Agitation Committee has arranged a mass meeting of all the enrolled Social Democratic voters in the Yorkville districts on Saturday evening June 29, at the Clubbouse, 296 H. Eighty-sixth street, for the purp of inducing all enrolled Socialists to join the party. A printed circular in English and German has been sent out to each oursiled S. D. P. voter. Promi-nent speakers will address the meeting and show the necessity of joining the party organization. Members should make propaganda for this meeting.

SIMONS ON MILLS' MOTION.

Editor of The Worker:-The recent referendum on the question of headquarrers and Local Quoruf has un-doubtedly resulted in a somewhat con-fusing attention. Nevertheless it is by no means an impossible situation, and indeed it is easy to exaggerate the difdepities which might arise in transactstates. There is nothing whatever in the situation that in the least justifies the position which has been tricen by some of the defenders of the Omaha position. As I have stated elsewhere, my sympathics have been largely with the Western and newer wing of the movement. I saw in it the forces which are absolutely-essential to any strong indigenous Socialist inovessent and a possible reaction from the sectarian doctrinairiam which had dominsted the party in the past. At the same time, however, I am absolutely opposed to losing anything that is good in the old for the sake of getting the new. I have no sympathy whatever with the idea that the farmers will ever form the major portion or the with the idea that the farmers will ever form the major portion or the hads of the Socialist movement, and nothing that I have ever stated couldgive any foundation for imputing such a position forms as his been done in a position to me is has been done in some quarters. The Socialist move-ment is fundamentally a revolt of the wage-working proletariat, but I have maintained (and I see no reason whatever to change my views that the farming class of America, particularly of the Western cities, have practically identical interests with the wageworking proletariat, so far as concerns one general issues which are settled the political field. Therefore there every reason to believe that this portion of the population constitutes a fertile peld for Socialist propaganda, and that large increases of the Socialis strength may be expected from them is the near future. This was the position which I took in my pamphiet, "Social-ism and Farmers," and later in my book on the "American Farmer," and so far I have not seen any attempt by refute this position that indulged in

anything but generalizations. At the present time, however, we see t to overthrow the expressed e party membership, and to will of the party membership, and to infringe on the fundamental principles of democracy by some of those who are posing as representatives of the farming class and western wage-work-ers, and with this I have no sympathy. When Comrade Mills makes the astounding proposition that the decision of the referendum be disregarded, pending the taking of a new referendum on the same question, and when this is followed with the will more outpassed to the "Appeal to" papers in about 75 different unorganization of the "Appeal to" is and towns in the state with rageous proposition of the "Appeal to Reason" to completely discepted that referendum, it shows that those expressing such sentiments are unit to be introsted with the party manger ment. Indeed, if I am not mistaken, it's was a recognition of those facts on the party of the membership which lost to the very much larger vote against the Omaha. Querum than was policed which that tily as the seat of mationsis headquartees. Had the comrades comheadquartres. Had the courrides com-posing the Local Quorum not taken the attitude which they did towards party-faction and the constitution, I feel quite:

Moreover, although the constitution theoretically guarantees freedom of as continuing of Socialist ones, that a referendum steed immensurably above the acts of a convextion, a referendum, in his very nature, repeals any portion of the constitution which conflicts with the will of the majority, as expressed in the referendum vate. For the saire of party organization the law for the saire of party organization. It is easing the conflicts with the will of the majority, as expressed in the referendum vate. For the saire of party organization I, but it seems uncertain whether the Socialist will be able to participate in will be made to theward or stiffs the decision of the party membership, I count the accretion about 56 per cant. of the population of the sair who, like mystel, sinessedy believe that the amit already down, measure the conflicts with the amit of the Bocialist more has recently been established a little Socialist weekly called "Nove the great such action conscious works are the conflicts of the population of the party membership. I count to the accretion of the party membership. I count to the accretion of the sair of the population of the sair of the sair of the sair of the sair of the population of the sair of

THE MOVEMENT IN ILLINOIS.

The report of the state secretary, Janots for the month of May shows be ance May 1, \$5.00; income for May \$187.49; expenditures, \$150.30; balance on hand June 1, \$37.19. Due stamp ao count: balance May T, 301; bought during May, 1,200; sold during month, 1,476; on hand June 1, 150. lowing locals have not paid any dues for the past three months or longer and are therefore in bad standing: Cairo, Coal City, Belviders, East Dubuque Incksonville, Joliet, Peotone, Staunton and Streator. New locals have been organized during the month at Wauke-gan, Lake County, with 20 members; Oglesby, La Salle County, with 11 members: Centralia, Marion County with 10 members. The following con-rades and organizations made dom-tions to the Organization Fund: Jan. S. Smith, 85; A. W. Mance, \$1; M. M. Stangland, \$2.50; William Type, \$1.23 25th Ward, \$2: 7th Ward, \$3; Georg

Bulliard, 45; H. F. Lindgren, \$7.55; 34th Ward, \$2; Hon Greengard, 25 cents; L M. Morrison, \$1: Local Glen Ellyn, \$1 J. Menke, \$1; total, \$31.55. The response to this very important fund is an yet rather slow, but it is hoped that the comrades will seen b gin to send in their contributions s as to enable the State Committee to sent out an organizer by the 15th of June. The following them's and branches have sent in their vote on the referendum to amend Articles 3 and that all locals and branches take action ising along county lines may begin with the second half of this year. Preparations are being made at headquarters to send out an able organizer. Com-rade Collins, who is now in the coal fields of Pennsylvania, has/consented to accept the position, and will perhap be elected state organizer, and no doub will make an excellent man for that purpose. He will begin his work in the division composed of the counties of Kape, Kendali, its Kaib, Lee and Whitesides, with headquarters at Ei gin where the conrades have already elected their division committee, with Comrade Peter Kennedy, 367 Jay street, as chairman. This committee will have the work of the organizer is charge, routing him from place to place within the division, and will place themselves in touch with all the locals in the district. It is important that the locals constituting the beadquarters in scheme of which is appended to the tee who shall begin to get in touch witt the locals of their respective divisions and isolated Socialists in the various unorganized towns with a view of or

ganization when the organizer reache

SOCIALISM IN SERVIA

A Servian comrade writes in the May

number of the "Revue Socialists" on the condition of the movement in that country. As Servis is very backward

in its economic development, manufac-turing industry existing only in a radi-

to so to the future county central comto go to the rature county central com-mittees and half to the state organiza-tion fund. Also that each local elect a visiting committee to call on delinquent members and get them to pay up their hack dues.

sure that they might have remained in effice with the headquarters at Omaha.

This distrust of the membership seems to be something peculiar to a few individuals who are leading the Omaha movement, and I shall be leath to believe that it is an essential part of the "Western idea" of Socialism. It was first seen in their attempt to preremoval, and now in the case of Comremoval, and now in the case of Gong-rade Critchlow it seems to have reach-ed a point where they would even seem to suppress a free expression of opin-ion by the membership. The at-tempted argument of the "Appeal" to the effect that the present situation comes in condict with the constitution is childigh. It has always been a prin-lender of over cautifulistic institutional theoretically guarantees freedom of an-thaccetically guarantees freedom of an-

WHO WILL DO YOUR LANNING WORK

EVERYONE KNOWS THIS BUT MANY FORGET IT.

Editor of The Worker:-Every flat it. Can we not ren bouse in New York and Brooklyn has a letter-box. Each one would hold a leafiet. Thousands of Socialists live in flats, if each one may to it that a leafiet was placed in each of the boxes in his own house about once a week for a year, don't you think it would pay? I would like to see you print this suggestion in 'The Worker. A great many might follow it up. Everybody knows this, but they seem to forget

npon 1t7 New York, June 2.

Emphatically, we think it would has. We know it would pay. We show when it has been done in certain detricts and have seen the results in a rapid. tricts and have seen the results in rapid increase of Social Democra-vote. Let the suggestion be followed by all means. Let the work be the up and persevered in.

THE DUTCH STRIKE.

Socialist Party of Holland, in Appealin for Aid for Defeated Strikers, Reviews the Demonstration of Protest.

The Socialist Party of the Nother-sands has addressed the following ap-leal to the Socialists of other lands, which throws further lands, which throws further light on the strike of two months ago, of which such lengthy but such untutelligible reports were given in the American

ily press. Dear Comrades:—The organised pro letarist of Holland fisch tracif compel-ed, after having passed through a so-vere strupple and suffered a painful defent, to append to the fraternal senti-

ments of the international proletariat.
"You also have followed our struggle
of recent months with lively interest.
The striking victory of the railway workers on January 31 was but its be-ginning. That victory aroused the gov-grament and the ruiling class against the labor organizations, and it soon be-came evident that the begravelories would not tolerate the possibility of au-other such, and that it would selice the occusion to deal a blow at the purious workers on January 31 was but its b occasion to deal a blow at the unions in general. The working class defended the right to strike, which was thus erd, in a vigorous campaign of ge and through the press, and needings and through the press, and the pro-ernment considerably mislified the pro-posed laws as regarded nulous in genent. I'ufortunately, no such concessions were made to the railway work-ers and the amended bills still rendered the strike absolutely impossible for them, punishing the refusal, to work with two to four years in prison

"Parliament took up the bills on April 2, quite without warning, for it had not been supposed that they would be considered before the Easter recess. The Liberals, after having strongly criticized the bills, nevertheless railied to the support of the Clerical government, which thenceforth proceeded with increased audacity." The Socialist group in Parliament-tried in valu to obtain a delay pending the report of the proposed government investigation of the conditions of the fallwhy workern. The gug-laws must be passed be-fore Easter, cost what it might: that was the will of the government. Under these circumstances, the ruliway workwere confronted with the alterna ers were confronted with the alterna-tives—to let the right to strike slip from their bands without more ado or to unde a supreme effort at once. This affort could be only one-of protest, the last resistance of the vieths who feels the hand of his more powerful antag-onist close about his throst; a struggle, not for victory now, but for honor. "If the working class as a whole had reseased the right to yofe, if the exer-

med the right to vote, if the exerrise of that right had spened to them a larger political horizon, if a close bond and existed between the organized proletarlat and a strong Socialist parlia nentary group, it is likely that the des-erate struggle outside of Parliament night have been averted. Primarily that struggle, because by persisting, year after year, is refusing the suffrage to a large proportion of the workers it has encouraged Amerikat tendencies in the labor movement. In the second place, the reactionary gov-erument and the capitalist parties are ment and the capitalist parties are sousible, because, in attempting to a through the gag-laws, they left workers no choice but to attempt a forforn hope or passively to submit to plete subjugation.

battle imperfectly organized and without sufficient political understanding and hampered also by the so-called Christian later unions, but it bore Christian labor unions, but it bore itself herolcally. The railway workers had against them all the forces at the al of the bourgeobs state and the moral courage and the seventionary energy of this division of the prole-tariat. The longshoremen and other tariat. The longshoremen and other workmen at the ports of Amsterdam and Rotterdam at the first appeal promptly showed their solidarity with and Rotterdam at the first appeal promptly showed their solidarity with the railway employees. When, at last, the Committee of Defense, as a supreme demonstration, declared workingmen in the principal cities re-gioneds to the call. Among the great-er part of them the sense of projeturian discipline was strong enough to make them again obey when, the anti-strike laws having been carried, the Committee raised the strike after a single day and to cause them to go back to their valling.
"At present the whole capitalist class

rejoices in a feeling of unlimited power and the employers are wreaking their men, and in nearly all industries that were affected by the strike there are merous victims. They who suffer the true, the brave, the senious in thor's cause. There is terrible suf-Inforb cause. There is terrible suf-fering and the organized workers of our country are not able alone to give

adequate relief.

"Under these grave circumstances, comrades, we confidently appeal to you. The Social Democratic Party has fought throughout this battle, aide by side with the unions, snd, will not abandon them in the hour of defeat. Reflect that, if we have made mistakes, if the Putch workingman have shown that their organization and their political consciousness are yet too weak to triumph in this struggle, if, in a word, the means which they would employ were not in harmony with their powers—reflect yet that they demonstrated the possession of proletarian virtues, of courage and independence. Remem-ber the international character of this struggle and consider what our prele-tariat, by its heroic resistance, may

F. C. RIVERS.

of your country from attacking the rights of the workers. "Aid us, then, in order that our proctariat may soon return the blow that t has received and that the unions may ecommence their work of organization

rith renewed spirit.

"In the name of the Executive Com-littee of the Social Democratic Labor arty of the Low Countries. of the Low Countries.
"VAN KULKHOF, Secretary."

SOCIALISM IN THE NETHERLANDS.

Brief Outline of the History of the

Social Democratic Party of Holland. The Belgian Socialist, Franz Fischer writes in the "Peuple" of Brussels ipon the Socialist and labor movement of Holland. We condense some por tions of his interesting article, supple neuting it somewhat from other

The Netherlands to-day, says Con-rade Fischer, presents the spectacle of a flourishing remacence of Socialism. It must be remembered that already ten years ago there was a strong So-cialist movement there, so strong that it seemed to promise speedy victory. Infortunately, this movement depend ed almost wholly on the efforts and was guided and inspired almost whonly by the ideas of one man, the eloquent and poniar Domeia Nieuwenthuis. Under his leadership the party came to a point where, finding that it had overestimated its actual strength, discourage ment ensued in many quarters, Anarch ist tendencies showed themselves, and general break-down onsued. Domela Nieuwenthuis became an anti-parlia-mentary or "libertarian" Socialist, virt-ually an Amarchist and a large proportion of the party followed him.

tion of the party followed him.
Fortunately there were some able men
in the Dutch Socialist ranks—notably,
Van Kol-who, especially by contact
with the Helgian movement, had
learned to understand the methods of the international movement and to form judgments independent of those of Nieuwenthuis. They resolutely un-dertook the task of building up again a Socialist political party in Holland lu harmony and in rapport with that of other countries. In this task they had to meet strennous opposition and ofter most violent slander and abuse from their old comrades. The mass of those their old comranes. The inness of above who had not followed the old leader into the anti-parliamentary camp had returned to pure and simple trade un-ionism and even to the political parties of the Protestant or the Catholic reac-

Nevertheless, Van Kol, Trocistra, and others persevered in their work, and eventually it became evident that they were succeeding. New recruits were calued, some of the old militants returnest singly or in groups after a re-tirement of some years, and at last about four years ago, a large and val unble contingent seceded from the So-cialistenhoud (Nieuwenthuis' organization and foined the ranks of the So-cial Democratic Party. Since that time the progress of the party has been uninterrupted and the "impossibilist" fac

tion can now pretty well be ignored.
Already at the time of the recessio
from the Socialistenbond the Socia Democrate Labor Party (such is the full title of the Socialist political crganization of the Netherlands bad-captured three seats in Parliament. In the elections of 1901 the number was increased to seven—not including Van der Zwang, who occupies a very pecul-lar position, elected to Parliament as an anti-parliamentary Socialist by an agricultural constituency of Priesland, but always voting with the seven party representatives, in the general city elections of 1901 also considerable gains were made, the party for the first Council of Rotterdam, raising its repfour, in Arnhem from one to three, in Grüningen from one to three, entering for the first time the councils of Forproperty qualification and a gerry-mander directed against the working class constituencies.

The Dutch Socialists, mays Cournde Fischer, form the intellectual slite of the international Socialist movement. the principal organ, "Het Volk," is one of the best edited Socialist papers in the word, and all Socialist books ap-pearing in German, French, or English are promptly translated into Dutch.

In the recent strike, which was in-tended only as a demonstration of pro-lest against the brutal reactionism of the government, the Rocial Democrats, the "Libertariana," and the conservative unions acted together in harmony Even had this demonstration succeeded in its immediate purpose however (which it did not), governmental power and the temptation to use it tyrannically remaining in the hands of the capily remaining in the name of the capi-talists, such a demonstration would not have settled the question, and it would be necessary to repeat it again and again. In a word, the conquest of the government by the working class would still have been in the event of the success of this strike, as it actually is in view of its failure, a necessary condition to industrial peace and free dom. The close association of The three divisions of the labor movelbell in this disastrons struggle will, it is thought, have the effect of greatly strengthening political Socialism in Holland and hastening such profetarian conquest of the state.

SOCIALISM IN FRANCE.

The Failure of the Bordsaux Congress to Bool with the Millerand Case and the Speedist Comment Thereon.

The Socialist forces in France cept for the Revolutionist Socialist La-bor Party, led by Jean Allemane, which has now no representation in Parliament, but still holds four seats in the Municipal Council of Parls—is divided into two camps: The French Socialist Party, of which Jean Jaures is perhaps the most distinguished rep-resentative; and the Socialist Party of France, formed by the junction of the Revolutionary Socialist Party, headed by Edouard Vaillant, and the Labor Party, of which Jules Guesde is the principal leader. So far from comple-tion is the work of unification which many supposed to have been effected almost four years ago. While the seven or eight distinct groups existing efore that time have been reduced to three, the gap between the two prinones now existing is probably than were the differences which reparated the ... rarious parties before The participation of Millerand, who belongs to the former of the two large groups named, in the bourgeois government as Minister of Commerce is the chief concrete bone of conten-Non; but this involves, of course, much arger questions of Socialist policy and even of Socialist theory. The Franch Socialist Party is by no

neans united, however, in approval of Millerand's position. The recent annual congress of the party at Bordeaux devoted the greater part of its time to the discussion of a motion for the ex-pulsion of Millerand. This motion was defeated. But for several reasons its defeat cannot be accepted as an en-dorsement of Millerand's position nor

as a settlement of the question, For one thing, the constitution of the as adopted at the congress of last year, guarantees departmental autonomy (the departments are the eighty-three geographical divisions of France), reserving to the depart-mental federations respectively the power of disciplining their members and elected representatives and leaving it a disputable question under what circumstances or whether under any circumstances whatever the national organization can expel or otherwise discipline a member. On this ground delegates who entirely disapproved of Millerand's entry into the Cabinet and of much of his conduct in Parliament might yet vote against the motion to

expel.
Furthermore, the proposition was not leased on his acceptance of a ministration but on certain recent vofes cast by him in the Chamber. Some of those who demanded his ex-pulsion on account of his vote against the motion to cut off the appropria tions for religious institution Ministry. Some of the delegates had positive instructions to vote for his expulsion on this or other special charges; other delegates argued that this fact disqualified the instructed delegates from giving a fair trial to the accuse and therefore voted against expulsion on the plain ground that it would be unjust and dangerous to expel a mem-ber without giving him a chance to defend himself.

Thus the vote against expulsion doe not represent a clear judgment either on Millerand's participation in a bourgeois ministry or on his vote against the church budget or on his attitude in regard to the use of troops in time of strikes or on any special act of his or on the general position, practical and theortical, on which he stands. The question was missed, if It was not evaded, and a regrettable confusion continues. The Eexecutive Board of the Cen-

tral Council of the Socialist Party of France (the Guesde-Vaillant group) has issued an address commenting on the Bordeaux Congress, declaring that the result "confirms us in what we have said, that granting that a Socialist may participate in a bourgeois government, every compromise, every departure from Socialist principles becomes, not only possible, but inevitable," Allowing such participation, says this address. Milierand's particans have no logical right to complain if he votes to continue state aid to the churches or to mention military intervention against strikers or to support a diplo-matic policy which makes the Repub-lic the auxiliary of the monarchs and the ally of Tsarism. The address con-

who are interested in making confusion would have us believe, of opposition between revolution and reform, these two mutually excluding each other. Reform and revolution, so far from being mutually exclusive, com-plement and condition each other: Remay be, augment at once the freedon of action and the courage and arder of the militant proletariat; and the refusal of reforms by the ruling class demonstrates the impotency or the bac will of the capitalist government and acts as a stimulus to the working class driving it to struggle more vigorously for lie emancipation. The real ques-tion is the recognition in accordance with facts, that Socialism cannot exist except on the basis of the class strug-gle and irreconcilable opposition to the capitalist state."

Without fully accepting the catastrophic theory held by at least some of the leaders of the Socialist Party of France, we nevertheless cannot but think that it has the best of the argument as against the French Socialist Party, insofar as it is here expressed and that the latter organization has cut but a sorry figure in its besitation and confusion over the Millerant case

The duty of the Socialist is to make Socialists of other people. One of the best ways to do that is to distribute party papers. Try an occasional bundle of The Worker. One hundred copies for 75 cents.

-The Social Democratic Party had nearly 10,000 votes in Greater New York in 1900. In 1902 we polled over 16,000. We must make it at least 25,000 this fail. The way to do that is to start NOW distributing Socialist literature from house to house, in the shops, in the union halls, on the street shops, in the union halls, on the street cars, in public meetings, everywhere. People are in the mood to read and

IN PENNSYLVANIA

PHILADELPHIA, Pa., June 8.—At to-night's meeting of the State Com-mittee, Comrade Ribl in the chair, charters were granted to new locals at Irwin in Westmoreland County and Wilkinsburg in Allegheny County. Communications were read from Sa-lina, Irwin, West Newton, Reading unal, rivin, vent rewton, heating, Utahville, Cokeville, Hauto, Mt. Car-znel, Kitaning, Wilkinsburg, Potta-town, Scranton, Luserne, Milivale, Le-highton, Charlerol, Sellersville, Boy-

ereford, and Eliamokin. Now that the state convention has been held and the candidates nomi-nated; there seems to be a general awakening of the locals. Utahville requests information how to get speakers when needed. Kittaning promises a good-sized local in the near future. Sellersville has arranged for a mass meeting on June 20, with Comradt Frost of Philadelphia as the speaker Frost or Philadelphia as the speaker. Shamokin has taken in six new mem-bers, with the promise of a number more in the near future; the outlook for Socialism is very bright in that relightenshiped.

ion meetings among the striking tex tile workers. Ben Hanford of New York addressed flifteen hundred of the strikers at Kensington and Lehigh avenue last Saturday evening.

Howard H. Caldwell has finished his tour in Pennsylvania. He held good meetings in Wilkinsburg, Kittaning, and Chirlerol during the week and left for Toronto, O.

The South Side Branch of Local Pittsburg has taken the lead in helping "pay" off "the" indebtedness of the State Committee by sending in the first contribution of \$5.50 raised on auliscription likes got out for that purpose. It is recommended that all the locals throughout the state do likewise. The State Committee would also call . to ' the recommendation passed in the convention that the locals throughout the state adopt ways and means of raising funds for the state treasury, and suggest that this may be accomplished by giving entertainment and excursions or by any other methcomrades during the months of June, July, and August, profits to be equally

A statement blank has been sent out to all the locals in the state in com-pliance with the recommendation of the Auditing Committee. The secretaries of the locals should see that due stamps and supplies ordered and received from January 1 to May 25, and the blanks should be returned an

TO MINHESOTA COMPANES.

Our lecture van, in charge of Coulrades Guy E. Etherton and Geo. I. Martin, of Kansas City, left this city May 23 on a tour of agitation and of-ganisation. They will follow the Northern Pacific Hallroad, and will be th Little Falls during the state convenstate, following the Northern Pacific Railroad to Norman and Polk countles; returning to Minneapolis along the line of the Great Northern or the "Soo" Railroad. This trip will probably take shout three months, after which a tour through the southern part of the state

will be arranged.

The advantages of this method of agitation are many; no hotel bills, railroad fare, nor ball rent. Larger andiences are also assured. Thousands of people will be reached by these out-door meetings, that could not be induced to attent hall meetings. The wagon is neat and attractive, with phonograph outfit, gasoline lights, etc., and cannot fall to command attention. It can go to places where Socialist le turers have not yet been, and open up new fields. It can stay as long or as short a time at each place as circumstances will warrant. Special efforts will be made to organize locals of the party wherever possible. Comrades Atherton and Martin will act in official

capacity as state organizers. As to expenses, the comrades will receive \$10 a week each and \$5 a week allowance for keeping the horse and for other incidentals. Their salaries are thus very small and their willingness to work right and day for the money. night and day for the move ment should be thoroughly appreciated They will meet part of this expense by selling literature and taking collec-

tions.
To comrades and sympathizers.
We ask your hearty co-operation and generous con-tributions to enable us to keep the wagon in the field all summer. throughout the state:

To local secretaries: We ask you to kindly endeavor to collect all subscrip tions already made to the State Organtions already made to the state organizing Fund and circulate subscription cards for that purpose. Cards can be had on application. Feeling assured that you will readily see the effectiveness and economy of this method of agitation, and boping for a generous

and prompt response. S. M. HOLMAN, State Secy... 11 Oak St., S. E., Minnespolis,

BOURD UP TOGETHER. I have said that the fullgrown human will will be social because there is no way of having a good world save by way of having a good world save by our all having it together. The brother-hood of man is a scientific fact rather than a sentiment; only it has been a terrible fact up to the present time, bringing unreckonable judgments and torments upon the human race. We have brothers in competition and misery as yet. It waits for us to become brothers in life and labor, in beauty and happiness. There is no escape from this law of the inseparability of human this law of the interpretation of the beautiful of the What happens to any of us ultimately writes its record upon all of us. The tides of the race's life rise and fall with each man's pulse-beat. The life of the world constantly tends to the level of the downmost man in the world. And it ought to be so. There is no freedom for any save through the freedom of all men; and there is no freedom for all men so long as any man has withheld from him the full product of his share of the common labor, or the full inflowing of the coming lovic. Could any man be free or safe or good without all men being free and safe and good, then a spiritual' or ethical life the downmost man in the world. And good, then a spiritual or ethical life would be impossible.—George D. Her-

BUYTUNION MADE GOODS.

PUBLIC OUT-OF-WORK

As one example among many of the immediate practical benefits which the working class derives from a strong and growing Socialist movement, we may cite the system of public unen ployment insurance which prevals in most of the industrial cities of Bel-gium. The Socialist Party has not as yet a majority cither in the Belgium Parliament or in any of the municipal councils; but it has a large vote which increases at each election, has already about one-third of the members of Parliament and has a vigorous minority in the council of every important city. It is thus able to demand and compet from hostile majorities, fearful always of the result of the next election, many concessions which they never would have granted to less aggressive oppo-nents. Among these is the out-of-work relief erstem.

The movement was inaugurated in elected a committee to investigate and prepare plans. The next year \$2,000 was appropriated to start the work. Some sixty or more unions and work-ingmen's societies took up the plan. The fund is controlled by these socie-ties through their delegates, in conunction with representatives of the city government, and both the city and the labor organizations contribute to the fund. During the year 1901 a total of \$3,575 was paid in by the unions, to which the city added \$4,520 from the public revenues. These figures seem small to American eyes, but it must be remembered that this is only a begin ning and also time normal-wages and cost of living are much lower therethan here. The essential point is that a part of the city's revenue is devoted under the administration of the organ ized workers, to the systematic relief of those workingmen whom the vicinsitudes of the capitalist system fr time to time throws into involuntary

The Provincial Council of Liège soon followed the example of Ghent, and the Socialist members of the Liège City Council are now urging that the muni-cipality also take similar action. In Brussels a beginning has been made with an appropriation of \$2,000, which will probably be increased in the near future. Annual appropriations ranging from \$200 to \$2,000 have been obtained in several smaller cities, such as Anvers, Molenbeck, Saint-Joose-ten-Norde, Cureghem-Anderlecht, and Scharbeck, and the same project is Scharbeck, and the same project is now being urged in Malines, Louvain, Bruges, and Alost.

Furthermore, the Socialist deputies from Gheat, supported by some others, have moved in Parliament that a part of the national revenues be applied to same purpose, the "Correspondenzblatt," the organ

The "Correspondenzblatt," the organ of 1830,000 union workingmen of Ger-many, says of the Belgian out-of-work elief system that, "of all methods of meeting the unemployment evil, this is the most congenial to the working class, because it leaves a free field for ersonal initiative and administrative independence." It is worthy of note that during the two or three years since this system has been manufacted. in Belgian cities, the members of the affiliated unions have in every case reamonded to the sid given by the muni-cipality by voting to increase their own assessments for the out-of-work funds. As "Monifeur des Syludicats Ouvriers" remarks, this strengthens the belief that the more miserable is the condi-tion of the workers the less spirit do they show in seeking to improve it as the more their condition is ameliorated usly do they strive to Improve it yet further.

"FOREDOOMED TO FAILURE."

A correspondent of the London "Times," writing from Wellington, New Zealand, says that it is becoming daily more and more evident that differences between employer and em-ployed cannot all be settled satisfac-torily by the advanced labor legisla-tion which has been on trial for some time in the colony. He says that the Arbitration Court, established for the final and compulsory settlement of dis-putes that could not be amicably ad-justed by the Conciliation Boards, has justed by the Concination Boards, and been exceedingly busy of inte. The Conciliation Boards, on the other hand, have little to da. Indeed, conciliation appears to be rapidly becoming a thing of the past, and as the industries of the colony increase in number and importance the Court is finding it more and more difficult to deal with the many cases coning before it. Hither-to, owing to the general prosperity of a country splendidly endowed by naa country spiendidly endowed by na-ture, and to the excellent prices ob-tainable for products and manufac-tures, the employers have remained tolerably contented. Now they say tolerably contented. Now they say that there must be some finality to the demands of latior, and the situation is being seriously discussed in their various associations. The Canterbury Employers' Association, for instance, has written to the Premier strongly opposing the demand of the workers. for unconditional preference to unionrbo only for ists, who only form omethird of the whole body of workingmen in the colony. The association points out that recent decisions of the Arbitration. Court in the matter of wages have compelled the discharge of many workmen, have forced some manufacturers to abandon the field altogether, and have made it cheaper to import many articles than to make them. Moreover among the there is growing discontent among the workmen at the increase in the cost of living which has followed the increase in wages. Some observers my that the whole arbitration system, as now organised, is foredoomed New York Evening Post. med to failure .-

RELIEF IN BELGIUM. Our > Exteemed Contemporaries

(and OTHERS) ### The Tribune, Johannesberg, South Africa.

The opinion now seems to be very generally held that not many year

can elapse before America will be rest with civil strife. The forces making thereto have been gathering strength with startling rapidity, and no natio has ever suffered such a rapid declar-sion from conditions of stability so those whereof revolution is bred. The rich have grown rich beyond the dreams of avariee, the poor have been unk in the abysmal depths of povert) the freedom of the American citizet has become a myth, the vast and cor rept trusts dominate the Legislatures rob the nation and reduce the people

to slavery. Suborned courts, govern ment by injunction, and military ter rurisis have usurped the place of justice. Labor conditions such as hav lately been shown to exist in the Pens sylvania coal mines make a mockery of the Declaration of Independence, which proclaims the inalicantic right of every citizen to "life, liberty and the pursuit of happiness." Such con-ditions cannot last for ever among a people in whose breasts still linguess the recollection of the days of granter freedom and greater prosperity. If the industrial revolution should break out consequent upon some vast strike which at any moment may be precipitated, no man can predict with cer-tainty how it would end.

energetic and indefatigable of all the political and social propagandists, leaving even the single-taxers behind by their amazing real. They juvest not oily bening and time, but freely coutribute financial aid to the furtherance of their canse—the destruction of the Express" declares that Socialism is be ing preached in that city more extensively and persistently than was ever known there in the past. Indeed, our contemporary doubts if it was ever preached so freely, so insistently, so conspicuously, and so widely, all at once, anywhere else in the world. Not only by yellow journals is this doctrine proclaimed, but the "Mail and Express" seerts that "a score of lesser papers hold out the same lliusory prospect, and a dozen bath resound every night with Socialist orations—generally unreported, but by no means unheard." ; roop

The Public, Chicago. Russian officials explaining the neger sity for mobbing Jews in Russia with the same kind of arguments that white men use to justify the mobbling of ne-groes, and which American patriots bring forth to excuse water torture in the Philippines. "Give a dog a bad name and kill him," the old adage has it; a new version might run, "Call a ruce inferior and torture it." To which night be added: In the industrial ourters of America when the workingmen try to better their condition they are called anarchists and sent to the "bull pens" or prisons.

Machinists' Journal. Fortunately for the people of the country and its business interests as well, the National Manufacturers' Association represents nothing but itself. And as it is mainly composed of men ances need terrify no one. Its avowed and only - excuse for existence at one time was to encourage trade and stim-ulate business by the old and time-hon-ored though now moth-eaten and discarded system of competition. It still sticks to ac dogma that competition is the life of trade, and its members are still busily employed in competing against each other and thus cheerfully cutting their business throats. To this it has now added another excuse for its still remaining on earth: To stamp out the serpent of trade unionism wherever found.

ITALIAN GLASS WORKERS

WILL TRY CO-OPERATION.

The glass workers of Italy having re-cently passed through a severe strike ending in defeat, have energetically taken up the project of establishing co operatives, with the object of rendering themselves to some degree independent of the capitalists or, at least, of provid-ing themselves with a material base of operations in future struggles. After the failure of their strike the union elected a committee to study the ques-tion, especially by observation of the co-operative glass works at Aibi in France. Cesar Ricciardi, Secretary of the Italian Federation of Glass Workers, has ardently and successfully advocated the plan. The capitalist enterprises now existing are not able to supply the demand for lottles for the product of the Italian vineyards; there is therefore an opening in the field, and it is maintained that the co-operative society can materially improve the con-ditions of the workers especially in regard to sanitation, which was one of the principal questions at issue in the strike—and yet sell as good a product for as low a price as the capitalists. It is estimated that it will require \$50,000 to conin the works and carry on opera ations for four mouths, by which tim it is believed, the business will be well under way. Toward this sum \$16,000 has been raised by assessment on the eight thousand members of the Federa tion (who are, ipeo facto, members also of the co-operative society) and another \$16,000 by voluntary subscription among the members; \$1,200 has been invested by the mutual benefit societ of the glass workers of Porleggs and \$1,000 by other organisations of the trade; various unions, mutual benefit societies, and co-operative societies of other trades have provided \$6,000; the orner trades have provided to the raised by a business loan. It is proposed to pay the union scale—no more, lest jealousy be aroused among the members of the union employed in private factories, and no less, because that would give the capitalists an exthat would give use application of come for reducing wages in such private works. The co-operative establishment will not out prices, but will attempt to supply better goods than the dipitalist establishments. Should the dipitalist establishments. Should the latter, as was the case in France, cut prices in order to kill the co-opera-

THROWING AWAY VOTES.

Two mice met in the kitchen cup-board and white discussing a piece of cheese fell into a discussion of politics. Raid one: "Well, friend, the election to-morrow will decide who is to be the ruler of this block."
"Let's see, who are the candidates?"

"Oh, there's Tommy Cat of No. 11 and Rat Terrier of No. 40-oh, yes. and there's Dickie Mouse of the base-

"Well, friend, for my part I shall vote for Dickie Mouse." "For Dickie Mouse! Why, how ab-

surd! He stands no show of election and you will just throw your vote away. For my part I shall vote for Rat Terrier. He has a large following and will be elected and I'm not going to throw MY vote away."

"Yes, what you say about Dickie's

following is true but he is our own kind and our friend while both Tommy Cat and flat Terrier are our arowed and hitter enemies and as one is just as bad as the other I don't see why you should vote for either, especially when there are mice enough to when there are mice enough to select our friend Dickie hands down. How will you throw your vote away voting for him when it makes no difference to you which of the other two are the production of the other two are niegicd and the only possible benefit yeu or I can derive is by the defeat of both,"

/[Kee, I know, but Dickle can't be cierted and Bat Terrier has promised as mice not to kill us when he cannot catch us, while Tommy Cat wouldn't ourse, if Dickie stood a good show I wouldn't be throwing my vote away then it would be different and I would

less. - Exchange. THE GRUSHING OF CENIUS.

At present it is a shameful and embittering fact that a gifted man from the poorer strata of society must to often buy his personal development at the cost of his posterity; he either die childless and successful for the children of the stupid to reap what he has sown, or sacrifice his gift a wretched choice and an evil thing for the world at large-this is a stupic the world at large-time is a studied superstition that "genius will out" in spite of all discouragement. The fact that great men have risen against crushing disadvantages in the past proves nothing of the sort; this roll proves nothing of the sort; this roll call of survivors does not more than give the measure of the enormous waste of human possibility human stupidity has achieved.—H. G. Wells, ?" "Mankind in the Making."

NEW YORK, JUNE 21, 1903.

MASSACHUSETTS LEGISLATURE.

Senate Kills MacCartney's **Election Bill Amend**ment.

Monor Mouse Is Afraid to Sive Seelel ist Party Representation at the Poil ing Places-Recessity of our invading the Senate-Death of Mrs. Mailly -White's Work in Maine.

BOSTON, Mass., June 15.—During the past week the measure introduced by our late Comrade MacCartney, giving us representation on election board and precinct officers at the pole, which had been passed with some modifica-tion by the House, was defeated by the Senate. This measure was a part of the new election laws known as the Luce Bill. Had the measure passed the Senate, it would have given us representation behind the rail in all preciacis, towns or cities, where our last vote exceeded forty. The com-mics felt quite clated when this measure. rre passed the House, knowing that if it were enacted into law, it would as ere the counting of many Socialist oten that, under present arrange n-cuts are disregarded or reported a acattering. It will be remembered, a previously stated in The Worker, that Carey in advocating the bill showed activity that there were precincts where there were known Bocialists had voted but where the election

The Obstructionist Senate.

As is the custom on the disagreement es the houses, a committee of con-ference is appointed to strive to effect re compromise acceptable to both branches, Commide Ransdon made one of three from the House, and with him were Representatives Douse of Mal-den, Republican, and Schofield of Ipsich, Democrat. The Senate members advocated reference to the next General Court—that is, postponement for a year. The three Heanse members advocated the pursage of the bill as a measure of the bill as a measure of the bill as a measure of the pursage of the bill as a measure of the bill as ure of simple justice to the Socialists. The Senate members, however, re-mained oblurate in their attitude of opposition, and the committee was obliged to report that no agreement could Now follows the appointment of another committee on conference composed of other members and there is every reason to believe that will carry its point and the ich the Bocialists asked at

This shows more than ever the neces sity of the comrades getting together in the Seuntorial districts for the purone of electing some members of our party to that body. It will follow as a certainty that if we elect even one or two members to the Sensie we will have the same influence in that body our three members have had in the lower branch. Even though we are not successful in electing any of our Peratorial candidates, if we make a good fight and largely increase our vote in any of the Senatorial districts, parties that will force them, through so necessary to the success of our movement.

Misrepresentation Still Goes On.

The capitalist papers are again at their work trying to create prejudice by misonoting the words of our speakrs. At the inemorial meeting held un-ler the auspices of the Boston Central 'ommittee, Comrade Carey, in speaking of MacCartney's sensitive nature. ald that the capitalist newspapers cut the heart out of the Socialist addresses, quoting a part of that which the speakers had said, causing it to coarsey an entirely different meaning, and told how much this had pained MacCariney. The Hoston "Heraid" said that "Carey mays the press cuts the heart "Carey may a the press cuts the pres out of the Socialist speakers—and we won't cut the heart out of this"—and de him may in the close of him 1st meeting, and if my encinles want The paper going people in their desire to injur inlist Party. But, as it hap hers, Carey never used the word church." What he did say was: "When I die, I want no flowers, no tenre: just hold a Socialist meeting. and if my enemies want to throw bricks, let them."

While we regret that our comrad should be put in a false light in this matter, yet it actually seems to work for our good. Had it been printed just as Carey said it, it would perhaps have created no comment and inquiry upon the part of those who are not yet So-cialists. As it is, it gives the oppormake denial and to show the attitude make denini and to show the attitude of the capitalist press toward the Socialists. When those who have inquired see the purpose behind such reports, they then begin to understand that there are other things, too, to which they cannot give credence

some stamps unaccounted for Comrade Wood was ordered to meet the Secre-tury of Local New York and clear up the matter and report at next meeting.
On *motion, Comrade Fieldman was paid \$15 for services rendered.
Rome discussion took place on the question of nomination for Associate. Comrade Mailly's mother died at Haverhill on Monday, June 8, and was buried from the St. James Catholi-Church, on Wednesday, with Conrade Mayor Flanders, Besis, Hayman Kelly, Pyan, and Garrett Carey as centers. It was her illness that the Comrade Mailly to Massachu-and with her death the long vigil er bedside was ended and he left for Omaha to take up his duties again robes there on Thursday, June 11, on the subject, "What Socialism Is and What It is Not." Courned Charles A. Lee invaded Dolgeville on Saturday, June 6. Re-

White's Work in Maine.

we just returned from Maine eight days of campaigning, to at-the meeting of the Executive mittee, and will leave again for

Maine to speak at Freeport on Tues Maine to speak at Freeport on Tues-day night; at Dresden, Wednesday; Richmond, Thursday; Augusta, Fri-day; Bangor, Saturday and Sunday; Ellsworth, Monday, June 22; Milli-nocket, June 23; returning to Bangor, June 24; Wiscasset, June 25; and San-ford, June 26. It can safely be said that the centiment for Socialism is LEARN FROM ford, June 28. It can safely be said that the sentiment for Socialism is rampant in the state of Maine. I travelled through sections that were almost entirely agricultural, without a single industry, and among the farming community found people ready for Socialism. I concluded the week at Bath, speaking to a good audience in the City Hall. I left there at 11:20 in the night and was just beginning to

the night and was just beginning to grow weary with the long journey when we ran into Portsmouth, N. H., and Courade Brown boarded the train,

having spoken at Portsmouth the evening before, so that from 3 o'clock in the morning until six I had the pleasure of his company.

The campaign will now open in dead earnest. Meetings will be held all over the state, and we are confident of good results.

The Boston City Committee expects

great things from the picnic. It is going to be a great event, and the com-

rades in different sections of the state

are becoming interested owing to the

athletic contests between the member of the different clubs. D. A. W.

NEW YORK STATE.

Fieldman and Roewer on

Automobile Will Stir

Things Up.

Their Tour to Begin in a Few Days-

Locals In the State Show Interest-

Great Work to Be Done in Next Four

State Secretary Slobodin of New

York reports the following amounts donated for the purchase of an automobile to be used in agitation in the state: C. W. Cavanaugh, T. L. Zesues,

iyn, \$10; Local Onondaga County, \$5. This makes a total of \$52.50 donated,

not including loans.

Comrades Fieldman and Roewer

will soon start out on the automobile, and they expect to "astonish the ma-tives" in many a town where no So-

cialist speaker has ever been heard be-fore, as well as to help past the work-along in places where the Social Demo-cratic Party has locals more or less firmly established. Both the comrades are good speakers. They know Social-ism and know home to the shout to

ism and know how to talk about it so

as to make it plain to anyone who cares to learn. They have done good service on the streets of New York City and in neighboring towns and the

comrades up the state will find it

worth while to do everything possible

to hasten their coming, get out a good crowd, and in every way facilitate

They will carry a stock of party lit-

erature with them for sale or free dis-tribution and will take subscriptions for party papers. In this especially

the local comrades may well give them

Only a little over four months now remain before Election Day. The So-cial Democratic Party should have

legisintive and local tickets in as many places as possible and should roll up

a hig vote to prepare the way for the more important contest of 1904. In order to do this we must build up the

party organization. Right now is the time to do it, and no stone should be

left unturned to form and maintain locals wherever half a dozen Socialists

Russian Social Democratic Organ Points the Way.

KISHINEFF.

Antisemitism the "Last Card" of Tsar-Ism-Social Democrats Must by Word and Deed Rusist Outrages and Turn Discontent against the Government.

The "Spark," the organ of the Russian Social Democrats, published in London, has an extensive article on the Kishineff affair, some portions of which are worthy of the close attention of American readers. Omitting the earlier part, in which many shock-ing details of the outrages are related, we quote:

"Who perpetrated these horrors? Who brought weeping and wailing into the midst of the most defenseless among the defenseless? The mob of wreckers was of a very mixed char-acter. There were laborers, artisans, and peasants. It is remarkable that in many instances the mob was led by the 'cultured' notaries, members of the City Council, and doctors, not to mention, adds the report of the local com-mittee, the sympathetic approval of the mob's acts by the watching public, consisting of officials with their ladies (God save the mark), army officers, and (tiod save the mark), army officers, and merchants, who by jeering and jokes encouraged and eggred on the mob, instanced its wild instincts, and brought it to a freusy. Budents rode on bicycles and kept the different divisions of the mob in communication. Officers and the cultured (so-called) took advantage of the disorder to supply themselves with stationery from the wrecked store of the Jew Shach.

"Let the moral responsibility for the Kishineff outrages fall first of all on Kishined outrages fall first of all on its greedy, grasping, corrupted, and cruel, so-called cultured class, devoid of even a trace of feeling of humanity, strange to any conception of their duty to their country. These dregs of hu-manity, this contemptible mob, falsely named the cultured class, covered itself with indelible infamy before the whole civilized world. It is the duty of every one who knows the names of those 'inone who knows the names of those 'is telligent' wreckers to publish them to the world. It is known, for instance, that Notary Pisarsevsky and the son of the capitalist Sinodia marked with chaik Jewish bones and dwellings of those Christians who convenied Jews. We hasten to nail them to the pillory. (It is not necessary to name Kroushe-van, the editor of 'Bessarabets,' as his

unenviable fame is known.) "The path of progress is still open to the ignorant workingmen, the uncomeions tools who took part in the ournges. The workingman-wrecker of to-day will in time understand the interest of his class, the defense of which requires the combined efforts of the workingmen regardless of religious or racial differences. And then his sould will be filled with burning shame at the thought of the beastly crueltles in which he participated through igporance. The logic of the movement of the proletarint is such that racial and autional prejudices among working-men will gradually disappear before its resistless influence

"But what in the logic of the action of the 'deducated and official mob' who gloated at the sight of the Kishineff outrages and even directed them? What a strange question? This class is interested only in market quotations and promotions in the service. It is in-capable of being carried away by any broad public idea. It applauds vio-lence against the Jews, not because it does not understand its class interests, but because it understands them too well, and because these interests in this narrow limitation suggest to it a

policy of malicious mischief "Some of the people that belong to this social caste late the Jow because he appears to them as a possible or actual competitor in their different purhatred, see in the Jow a representative of active capital, disintegrating and undermining our present governmental and social order based on serfdom: both of them in line combined with all of the other shades of our Antiscuites are ready with equal maisfaction to jeer and oppress the Jewish laborer, who to them, accustomed to respect brute force alone, seems even more despicable not only because he is a proletaire, but a proletaire deprived of even that pittful shadow of civil rights which is allotted to workmen of Christian faith.

"Only a revolution which will wipe from Russian soil the disgraceful remnants of the medieval regime can save the Jew from persecution by this class of our people, and having given him equal civil and political rights with other citizens will place him unwith other cruzens win pace nim un-der the protection of a democratic con-stitution. The distinguishing feature of this 'cultured' snob, as is well known, is cowardice, which causes it to watch carefully the way the wind blows in 'higher circles.' that this cowardly mob boldly sup displeasure of its superiors, and that the Jewish persecution appeared to it agreeable to the views of the 'powers

that be.'
"And it was not mistaken. The government was not in a hurry to stop the work of devastation at Kishineff but encouraged 4t by all means at its command. It is smeared with the blood of the Jews of Kishineff. This government, which like the chief of police in a certain play, wants to know, see, and stick its nose into everything, pretends that it knew noth-ing of the preparations against the Jews, which were known to everybody else. This government, which is so concerned about 'public peace' that it represses with the knout and the sword

(Continued on page 2)

GERMAN SOCIALISTS MAKE GREAT GAINS.

More Than Four Hundred Thousand Increase Over Popular Vote of 1898.

Social Democratic Party Carries Five of Berlin's Six Districts-Sweeps Saxony-Tromendous Gain in Krupp's Town of Essen -At Least Forty,nine Members Assured on First Elections and Many More on Second Ballot.

election held on June 16 is still far from complete as we go to press but enough is known to assure us that the Social Democratic Party has this time made the greatest forward step in Ru

At the lowest estimate, over 2,500,-000 Social Democratic votes were cast, an ingrease of 400,000 over the figures of the last general election in 1808. The Social Democratic group in the

Reichstag will probably be increased by about twenty members. The gain has been made at the expense of all the other parties, the Rich-

ter Radicals suffering especially and the power of the Center or Clerical party being broken in many strong-bolds. Eugen Richter himself is de-

Many Second Elections.

Reports are at hand from 235 of the in the other 118, no candidate having a clear majority, a second election will be held next week to decide between the two leading candidates in each. The number of districts going to second election is larger than ever before. The Social Democratic Party had can-didates in all but three of the consti-tuencies; and the growth of its following in places where, five years ago, it was practically unknown or very weak largely accounts for the large propor-tion of second elections.

Of the 117 districts in which the first yole was decisive, the Social Demo-cratic Party carries 40. It is possible, that we have two or three others in the 159 districts not yet reported, but probably not more, as these are generally the remote agricultural regions in which our strength is least de-

Berlin's Fine Record. 1

The comrades of Berlin made s record to be proud of. The capital his divided into six districts. In 1898 we carried two on the first ballot and two on the second, with a total Social Democratic vote of 155,000. Tuesday of this week we cast 220,000 votes, sweeping five of the districts, with the other to be contested next week between the Social Democrats and the Freisinning or Progressists, with very good elamors for us to win. This dis-trict, the First, is the most aristocratic quarter of Berlin. Our candidate is Irr. Arons, formerly a professor in the University of Berlin, who was forced out of his position a few years ago on account of his advocacy of Socialism. Our elected men in Berlin are Fischer. W. Heine, Singer, Robert Schmidt, and

"The Red Kingdom" is the title that August Bebel coined for Saxony, as the seturns came in at Berlin Tuesday evening, showing that the Social Democracy had made a clean sweep of the greater part of the kingdom.

In Krupp's Town.

our or the most striking features of our advance is the increase of the So-claimst vote in Essen from 4.400 to 22,705. This is the town dominated by the Kropps, most of the people being dependent on the Krupp works for any ployment. The system of insurance, and other "benevolences" instituted by One of the most striking features of the millionaire gun-maker and dehauché has been celebrated by reformers and philanthropists all over the world as an example of "harmony, Letween "Capital" and Labor," (as against the teachings of the wicked

mit to be the truth about the gun lard, Essen is not only a direct slap in the face of the Kaiser, but a complete refutation of the pretense that such benevolent capitalist paternalism as was practised by the Krupps gives real contentment to the working peo

Partial List of Our Elect.

The selts so far known to have been cossied by the Social Damocratic Party on first ballot are: Berlin II, III. 17, V. and VI. Nieder-Baroim, Teleower Storiow, Breatau West, Altona, Han-nover, Elbarfeld-Barmen, Munoch II. Nurenberg, Dreaden-Land, Leither-Land, Chemnitz, Glauchau-Meergue, Zwickau - Crimnitachau, Stolliage, Schneeberg, Mannbein, Offenbach, Gotha, Beuss (two districts), Ham-Gotha, Reuss (two districts), Hith-burg I. II, and III, Bresden-Altsadt, Presden - Neustadt, Mittwelda - Lim-

in at least thirty of the other dis-ricts reported our candidates took seed our constants in ond place and will therefore have, a hance in the second election, Of the 117 districts reported as beld-flat have reason to dread each election

LATEST GERMAN NEWS.

The news of the German Reichstäg | ing a decisive election, the Social Democratic Party formerly held thir-ty-nine; we gained twelve and lost two this week, giving us forty-nine. Of the other districts, either unreported or going to second election, we held nine teen in the last Reichstag. It is con ceded that in place of fifty-eight Social emocratic members, seventy-five or rhaps eighty will sit in the new

Reichstag. Gampaign Incidents.

An amusing incident occurred at the town of Elbach in Saxony where Com-rade Gerlach—treasurer of the German rade Gerisch—treagurer of the German party—who wa candidate for the Belchstag in the twenty-second divi-ion, for which he was already once be-fore elected in 1894, had arranged to address the electors. The bourgeois parties had managed to prevent us from sectring any hall to hold a meet-ing, and the authorities made open-air meetings impossible, because it would be then possible for minoss to hear the perulcipat doctrines of file—"red byothper licen possible for minors to hear the perniciona doctrines of the "red broth-era." Lucklly in this case the Austrian frontier was close, and so our friend Gerisch, unable to speak in Germany, marched at the head of a large crowd of hearers to the frontier, gathering strength as they went from the ranks of the home, workers who lived on the route. The German police accompanied them 16 the Frontier, where they had to retire, having the mortification of seeing our comrade hold a magnifi-cent and enthusiastic meeting—just out of reach.

The apprehensions of the capitalist parties were so great that some of their spokesmen made themselves ridiculon Terror. General Ven Hertsberg, for instance, proposed that all the pther parties arrange for united and simultaneous prayer to God for the defect of Socialism. "Verwirts" militiae. Socialism. "Verwirts" mildly sug-sted that if the gentlemen believed the efficiency of their prayers it was rather blasphemous to use such world ly weapons as police persecution to nent them

An Associated Frees dispatch says:
"An extraordinary feature of the
polling in Berlin was the part taken by Socialist women. Hundreds went from house to house bringing out laggard voters, waiting at the exits of fac-tories and mills, and accompanying the indifferent electors to the polis.

"While the other parties had paid workers, the Secinlists capicyed 7,000 cauvassers, who were unpaid and alone of all the parties they voted their full strength. They had hought up space on the municipal advertising pillars and placarded doors and windows with party legends."

While the Center has made consid-

emble gains in some places, it appears from the imperfect information now at hand, that the Social Democracy has made large gains at its expense many of the Cierical strongholds.

Unjust Apportionment.

It should be remembered that the system of representation in the Reich-stag is grossly unjust. The apportion-ment is the same as was fixed over thirty years ago. Since that time the cities and industrial districts have increased in population much faster than tionment. A Socialist member very commonly represents twice as many voters as a Clerical or other bourgeois

Meaning of the Election.

The circumstances of Krupp's sai-cide following the exposure by the "Vorwärts" of his unnatural vices, the outcry made against the Sections. the United States would mean, that the German Social Democracy is really and the lively interest which the Kaiser took in the affair will be well remembered by our readers. The astonishing increase of our vote in Eesqu is not only, a direct slap in the The Social Democratic Party of Ger-

many is the revolutionary party it has ever been, teaching the same ideas and striving for the same ends advocated by the Socialist Party or Social Demoor the Sections it is variously called, in the United States—that is, working for the overflow of capitalism, the abolition of private property in the means of production, the elimination ing up of the Co-operative Common wealth. of profit, interest, and rent, the build-

. It is true that our German comrades make a special fight against militar-ism in its várious brutal manifesta-tions, against the colonial policy with its accompaniment of hideous cruelty and defidentiantion, against the "hun-ger tarify" in favor of laws for the immediate though partial assettoration of the condition of the workers, and against the haughty pretensions of burg I. H. sme St. Pirras, Doebein-Rose of the condition of the workers, and against the haughty pretensions of the workers, and against the haughty pretensions of Kaleerism. So so we make use of immedian and partial issues in our came median and partial issues in our came and p

as it brings increased strength to the Social Democratic Party, Social Democracy threatens the whole capt-tailst system, with all its agencies and adjunct abuses, and bids fair soon to

74 per cent.

smaller share to the wage-workers.

Prices Rose 30 per Cent.

Latest reports from Sermany, ever-ing 330 districts; give Social Demo-erats \$3 (some say 57), with 169 sec-and olostices to be held, of which we participate in 105. In 1898 we carried 32 districts on 6rat election, participated in 90 sec-and belietings, and wen in 24 of thom, afterward winning two seats at special liestiess.

Our necellar vote must be meaner to

Our popular vote must be nearer to 3,000,000 than to 2,500,000 and we shall probably win over 80 seats.

CHICAGO ELECTIONS.

Socialist Party Doubles Its Percentage In Judicial Election-Casts 19 per Cont of Total Vote. CHICAGO, Ill., June 13.-The official

canyans shows that in the recent judi-cial election the Socialist Party polled 5 per cent. of the total vote for Judges of the Circuit Court and over 10 per cent. for Judges of the Superior Court. The vote for our eighteen candidates ranges from 8,100 to 8,025 in Cook County, Thomas J. Morgan heading

the list. In general, only about haif of the voters went to the polis.

Our highest previous record was 2½ per cent. of the total. us record was 2½

CHINESE WORKERS WILL AID WHITES.

Mongolians in South Africa Join in Protest Against Proposed Importation of Coolies to Glut Labor Market.

The Worker has already given some account of the schemes of the interna-tional gang of financiers who rule South Africa to introduce large numbers of Chinese contract laborers there for the purpose of further flooding the labor market and paralyzing the resist-ance of the workers to their aggreesions. We have noted the fact that the blacks are, to an encouraging extent, organizing and co-operating with the white workingmen in opposition to capitalist demands.

.Still more pleasing is the news that the Chinese already resident in Johanto chinese recently build a mass meeting to protest against the coolie importa-tion scheme and declared that they would send communications to China advising their countrymen not to come to South Africa in case the government

This, with recent events on our own Pacific Coast and with the rise of a Socialist movement in Japan, seems to indicate that the day is at hand for the workers of Asia to enter into close alliance with those of Europe and America in opposition to the exploiters

EMPLOYERS' SLAVERY.

Chicago Judge Says It is Tyranny and Slavery for Workingmen to Insist on Unionizing of Shops.

CHICAGO, Ill., Jan. 13.-A "learned natice" named Holdom-"Hold 'em' might do better—has ruled that: "If a union can force an employer into a contract against his will it is slavery, whether to capital or to the union. To be compelled to act under a contract like this is to be deprived of one's rights. It is unlawful."

The case was that against sixteen strikers charged with violation of an injunction restraining striking em-ployees of the Kellogg Switchboard & Supply Company from interfering with

the non-union men employed in their surely interfere with my usefulness to the cause of Socialism as a teacher and lecturer, and at the same time sugworks be unionised, refusing to work along with men who, by "cut-throat the bosses and lower wages, and in spite of the injunction they insisted in talking to the employees still at work and persuading them to come out and

Each of the defendants was fined ten dollars. The cases will be appealed and bonds were fixed at \$250. One more reason for the workings of Chicago to regret that they did not

elect the Socialist judicial candidates

The wage-slave bows his baggard face The power of gold holds full control; It owns its victims' life and soul; It owns the woman, gaunt and thin, By want dragged down to ways of sin It owns the masses of toiling men; It fills each lowest, vilest den, Where vice and crime; where sin

CLASS JUSTICE.

PRICE 2 CENTS.

More Taff Vale Law for American Workingmen.

Wisconsin Capitalists Sue Unions and Unionists for Damages for Picketing and Seypotting-in Ontario a Similar Case is Decided against the Union. .

Two months ago The Worker re-ported the case in Rutigud, Vt., in-which the Patch Manufacturing Company sued the International Association of Machinists of that city and its members for damages caused the company by a strike and got a verdict for \$2,500 secured by attachments on all the available property of the union machinists in that city. This was but an application of the principle laid down by British courts in the Taff Vale and Denaby decisions last winter and hailed with joy by the capitalist press of this country.

Decision in Ontario.

A similar case has just been decided in Berlin, Ont., this time on the suit of the Krug Furniture Company against the Amalgamated Woodworkem' International Union, Local No. 12. In this case the verdict is not so heavy -\$100 and coats—but the principle is maintained that the courts will award employers damages for injury caused to their business by unions in striking, pickeling, and boycotting, regardless of any question of the use of uniawful

No Question of Vicionas.

In the Berlin case there was no charge that the unions had used vio lence or intimidation.

Judge Meredith, who tried the case referred to the Taff Vale decision. One of the defendants; D. D. Mulcahy of Detroit, Mich., National President of the Amalgamated Wodworkers, made the plea that he was a stranger in Berlin and a citizen of the United States, but the judge said that made no difference. It is an'e to say that the Administration at Washington will not take note of this case. The rights of United States citizens in foreign countries are worthy of the protecting care of the government only where they are capitalists and the sacred right of profit-making is involved.

In Racine, Wis., the Schoen Manufacturing Company has sued several unions and thirteen individual members for damages aggregating \$10,000 on the same ground of having injured the plaintiff's business by picketing, and boycotting. The case is not yet decided

Matthew Biedinger, President of the Racine Trades Council, who was in Cleveland, O., last week, attending the national convention of the Garment Workers, is quoted by the Cleveland "Citizen" as saying: "I don't know how we will come out in the damage case. But you can rest assured of one thing, and that is we will strike back politically. Our Socialist Party is growing immensely, and the capitalists and their parties will near something drop about next fall."

Similar cases are pending in Waterbury, Conn., and in Chicago, With capitalist judges on the bench, the workers may expect to get capitalist class justice.

EVIL INHERES IN COMPETITION. I might as well have called it the

struggle for freedom; for, in the last

been, nor will I be, a party to any such analysis, freedom is but another name for co-operation, while tyranny and slavery are conditions that inhere in competition. It is the lack of co-operproposal in any way whatever?

May I further urge anyone who in any way entertains such a thought not to urge any such proposal which would ation, the yet unattained knowledge and practice of it, that makes history like a boundless and pittless chi like a boundless and pittless charuel house, and that make the cost of each little compromised step of progress so gests a task which I have neither the wish nor the qualifications to undervast and destructive. And so-long as we light and plot our way through competition, history will tell the same red tale of human waste and of the heaplac of baffled and mangled generations of men upon one another. So long as our minds and resources are under the compulsion of conditions that make us fight with one another for bread and A joint meeting of all Jewish mem bers of the Social Democratic Party of Greater New York and vicinity will take place on Sunday, June 21, at 7 truth, just so long will the bulk of hu-man produce and the flow of human en-ergy make for slavery and destruction. For we belong to whatever possesses n, m., in the clubrooms of the Social at Literary Society, 232 E. Broadway, Manhattan, for the purpose of discussing how to secure for our party and its views a fair and effective literacy our attention. To be forced to struggle against a thing is to be owned by To dwell amidst friction is to be con auned. The individual or the society may seem for a little while to unfold through strife; but the end thereof is representation in the Jewish language. Comrades, can your conscience endure still longer the shameful misrepdeath. Where struggle and adversity bring forth their one man, they blight and slay their millions. We are free resentation of our party and the dis rediting of our most sacred traditions and convictions one after another? Observe, comrades, that the ever in creasing Jewish proletariat is consid just to the measure that we may use and direct all our forces constructively. without the disaster and disorder ered by elever politicians as a very forces that oppose and obstruct. Co-operation is a state in which we liber-ate and build one another; a state in great factor ever growing in import nnce, and is "worked" by them accordingly. Therefore it is in the inter which human attention is changed from aggression and defense to fluidity our race, as well as in the interest of and growth, and the freedom and per our party, jealously to guard this great petual enlargement of experience; state in which the whole world-i n being misused by our ene flows creatively into the life of each individual; instead of the world-life that the interests of our cause at heart, then do not fail to be present at the joint meeting, in order to devise ways and means of defending our cause, our party, and its views effectively before now is, armed to the teeth against every new-born babe, who must light with it, from the dawn of consciousness, a pitched battle for survival. Competition or struggle is a state which begets the often unfit survival of the strongest. Co-operation is that freedom which will result in the fitting of all to survive, making each man a world-blossom and a world-joy, -- Geo D. Herron.

THE PARTY'S EMBLEM. In the state of New York, on account while provisions of the election laws, collist larty is officially recognized we be some of Social Democratic Party, a comblem is the Arm and Torch, as of

abore.
The Secialist Party (or Social Democratic Party in New York) should not be confused with the sec-called Secialist Labor Party. The latter is a ring-ruled organization which devotes all its wivegets to two porposes: Pirst, to disrupt the issocialing movement and sinusely the Socialists who carry on the Settle Research of the Secialists who carry on the Settle Research of the Secialists who carry on the Settle Research of the Secialists who carry on the Settle Research of the Section of the

THE SOCIALIST VOTE. ie Socialiat Party (the Social Demogratic y of New Yorkt has passed through its not general election. Its growing powers adtracted and its spendy wistory for-lowed by the great factors of its vote lown in those Egures.

Over in Servia they have just give 'as a pretty thorough example of one port of revolution. No doubt the royal and official victims deserved what they got at least as well as do the majority of those whom we hang or kill with the electric current according to forms of law. As for those who devised the coup and who succeed Alexander and his brood in power, it would seem that for the masses of their subjects the chance is a jump out of the frying pan Into the fire. That is one sort of is the sort that discontented factions of the ruling class chiefly affect. It is never has resorted to except under ex treme compulsion, when the powers of reaction had made peaceful change orgies of destruction unnecessary and Impossible that the international Social Democracy directs its propaganda.

CHOOSE PARTY OFFICERS WITH DANKE

In most organizations it is an or written law, so rependly taken for granted that it needs not to be incornorated in constitution or by-laws, that two offices, especially two important offices, should not be held simultaneously by the same person. Undoubtedly it is generally so taken for granted in our party, although from time to time it is violated because of the occasional lack of men who are competent to fill important positions in the party and are at the same time able and willing to accept the respongibilities of office. The question has now been raised in Ohio and a general vision that no comrade shall be eligible to more than one office in the state orhaps, that the question should be raised under circumstances that may give any excuse for calling it a factional move. Certainly it should not be considered or voted on in that We confidently believe that much of the controversy and recrimination that has lately vexed the Obio comrades might have been avoided had not the offices of State Secretar, and National Committeeman been

arry officers which is so essential to efrade should at the same time hold two such offices, the two mest important in the state organization, in the former of which he takes part in giving himself instructions how to act in the latter and in the latter of which he may be called upon to sit as judge of the action he has taken in the former, is certainly a dangerous if not always an deem it wise even to extend the rule so that no comrade could at the same time hold an office in the state organization and any important office in his local and that the editors of party papers should be ineligible to the principal offices & sither local or state or ganizations. It is not well to be oversuspicious; it is not well to assume the existence of a clique or the tenpretty clearly proven; but it is well to sumrif ourselves in advance against the possibility of clique rule and dictatorthin, wherever it may be done, with out regard to the personality of the men concerned in this or that case.

What has just been said suggest

certain remarks on another subject supplementary to this-that is, the un willingness of many comrades to accept positions of responsibility in the party and the carelesaness, partly consequent uppn this, with which selections are often made. In almost every local or state organization this is to be seen. Whether it is in the election of party officers and committeemen, local, state, or national, or in the nomination of candidates, we constautly see men well qualified for such positions and possessed of the confidence of their comrades persistently declining to accept office or condidacy. Modesty is a good thing-within proper made an excuse for the shirking of duty. We cannot, of course, compalthe man of our choice to accept an his will. But the good Socialists. should feel that when the party wishes him to take a certain position it is not mersily a question of accepting or declining a proffered honor, but rather a question of consenting or refusing to do work that the party wants done: and the good Socialist will not refuse

Partly, as we have said, in const unence of this habit of declining that so many members have and martly from a failure of many other comrades to realise the importance of organization work, we too often see that the election of officers and nomination of candidates is carelessiv rushed through, anyone who chances to accept being voted in without much consideration of his special fitness for the place. This is bad. That it does not oftener show positive and obvious evil results is an evidence of the high average ability and integrity of our membership and of the power of Socialist principles and ideals to guide and inspire men through very difficult asies. But from time to time it does result in very evident harm, and as the party grows in numbers, as it becomes s more attractive field for men of the politician type, and as its organization work becomes heavier and more iniportant, the necessity of guarding against this danger becomes ever more

It is not enough for a man to be a

good Socialist in order that he may be

except for the gravest reasons.

qualified for party office or nomination. In choosing our enadidates for public office we should always, even where there is the least possible chance of success at the polis, make our selection as carefully as if we were sure that our candidate was going to win. In choosing party officers and committeefitness of each man for each place. some half a dozen districts, each with Many a good Socialist agitator is absolutely incapable of doing good work as an organizer, locally or in the field. Many an efficient organizer is useless as an agitator. Some men who show great ability and can summon tremendous energy for special occasions are quite unable to do good steady work from day to day. Some men are incapable of attending regularly to correspondence or of keeping financial accounts in good order and yet are of great use in other sorts of work. Some lack readines; of speech, some lack familiarity with the pen, some lack! personal tact, some lack habits of order. But he who lacks the qualities necessary for one sort of work may possess in the highest degree those needed for another. Rightly to direct the various abilities of our membership, to avoid putting the round per in the square hole, to place each man where his special powers may best be used, is a constantly recurring problem that deserves the careful attention of all who would see the party grow and.

In the current number of the "International Socialist Review" the edito takes occasion to protest against a tendency among comrades to regard Mr. Hearst as the great antagonist against whom the Socialist Party should mobiline all its forces. He sums up his view in these words:

"In our opinion, a truthful forecas vested in the same person. The very fact of such centralization of authority, even though it be not abused, invitably gives rise to suspicton and the drifting of a considerable portion few of abuse and undermines that considerace of the rank and sie in the

mination of candidates standing for the same principles in apposition to the Socialist Facty. The Democratic sandidate being a pure dummy, we would be little interested in him. The Rapsilican party small hold out Hanna as the gived hand with which to pet and cooline and merity the laboring class while they were being led to the slaughter, and Roosevelt would pose as the mailed fast apparently preparing to deal death and destruction to the trusts, but really organizing a national guard and distributing rict bullets thatling guns and other paraphersalis they not be sufficiently decrived by the

On the whole, the article sees to a timely one. While recognizing the pessibility that Hearst may be the pext Democratic candidate, exunct consider it as probable; while recognizing the possibility that the Democratic party may have a chanc of success in 1904, the probabilities seem everwhelming against &. The Republican party is still the really formidable representative of capitalion and the Democracy a heterogene ous and incoherent annex to it. Our fight is against capitalism. It follows that we fight any and all capitalist par ties. But the bluster and braggadocid of the less formidable of those parties should not be allowed to mislead us into thinking that there lies the en my's chief strength.

It should not be necessary to point out to people who have intelligence enough to be Socialists the imprepriety of arranging a meeting, hiring a hall, and advertising the names of the speakers. without first asking those speakers and getting their consent. Yet this is a thing that is constantly done. Comrades seem to take it for granted that Socialist speakers are always to be had they never by any possibility intre encasements already made which they are bound to keep, and that, anyhow, it does not matter much whether the speaker who has been assegment appears or not. This is all wrung. To may nothing of the injustice to the speakers, the effect of deceiving and disappointing audiences cannot but have a bad effect upon the movement. Socialists have no right to be dishonest in the smallest particular. We have no right to aunounce that a certain man will speak unless we have rensonable assurance that he can and will do so Furty speakers should do their part in impressing upon the organizations the necessity of observing common sense in this matter by alsolutely refusing to speak where they have not been given proper notice.

The "Social Democratic Herald" per tinently asks who is paying for the free circulation of a hundred thousand copies of "Renegade" Casson's pamphiet against Socialism. Is it actually the American Federation of Labor? If no, by what right do the officers of that body divert the hard-earned money of the workingmen who compose it from a campaign against capitalism to a campaign against capitalism's greatest foe? Who authorised them? Or is it the Civic Federation or the Economic League that is secretly providing the funds? President Compers should let us know.

IN HUNGARY.

Annual Congress at Bude-Posth Shows Progress Made in Spite of Violeni Reactionary Measures.

The Huncarian Socialist Party beld its annual congress at Buda-Pesth April 12 to 14, 1903. One hundred an i eighty-two delegates representing 1455 branches were present. humired telegrams and messages of greeting were received from all parts men, we should consider the special of Europe. There were delegates from

The delegates met in the new Market Square, Buda-Pesth, on Sunday, where they had a gathering numbering 20,000. In honor of the delegates this gathering formed itself into a torchlight procession, with over two thou-sand torches. Banners, a hundred in number, were displayed bearing appro-priate motions, these frequently bearing some uncomplimentary reference to the Jesuita and clerics. Among those present were delegates from the Austrian and Groatic Socialist parties. The chairman, Dr. Goldner, in his opening address, said that he was pleased to see that the delegates present were not only drawn from the industrial class, but from the ranks of agricultural labor.

In the course of remarks made by nrious delegates by way of reports re garding local work, etc., one delegate stated that the gendarmes had takes his train money from him to prevent his attending the conference, but he managed to come in spite of them.

The main business of the conference was the peoper organization of the party in flungary. A draft form of organization was submitted and dis committee and the four main points were:
(1) Conditions of membership; (2) main committee and the local management of the organization; (3) the number of members to be in the administrative members to be in the administrative council; (4) the branch contributions to party funds. After a lengthy discus-sion, it was agreed that administon to membership must not only include be-ilet in the main ground principles of Socialism, but also subscription to the coccinium, but also subscription to the program of the party. With regard to contributions, it agreed that every member should contribute a minimum monthly subscription of one penny to the party Tunda.

The Hungarian movement of blav-ing existed for many years has been in a very confused state. "Die Estit," a Liberal paper, in reviewing the pre-ceedings of the congress, gives a short history of the Eusparian Socialist

novement, from which we take the The first Socialist program in Hos-gary was gut form to 18th, but little program was made until recent years, earling largely, to internal treatment, and collect great state its program was the extreme hostility of the govern-ment. Thousands of Socialists were driven out of that homes simply he-driven out of that homes simply he-The first Socialist program in Hug-sary was put forth in 18th, but little cause they were socialists. The col-lection of money for Socialist purposes was absolutely darbidden and all such money_was subjected to confucation. The leaders of the Socialists were phoister of the interior, he ordinarily cor-rects matters. To be sure, this is often too late, especially when the persecu-tion suices the form of forbidding

Some ides of the growth of the party may be seen from the fact that between May, 1901, and March, 1902, the party had an income of 42,742 kronen and an expenditure of 42,149 kronen (about \$7,300).

Nome of the more prominent members of the purty are Dr. Adolf Goldner and Desider Boknyl. "For many years the Secial Democracy in Hun-gary was simply an epposition party, but this time is now gone by and it now follows its own individual purposes." How thoroughly true this is is shown by the extracts from the platform adopted at this congress, which we take from the "Dentsches Volks-Zeltung," published at Temes-var, Hungary, "The freedom of the laboring class can only come as the result of the struggle which shall end all class domination and abolish its foundation by transforming private property into collective property, and thereby the capitalist system of production into the Sociadet system of production. The freeing of the work-ing class is the historic mission of the laboring class likelf. The class struggle can only be won through the con quest of political power. The methods of this class stringle are the in-struction of all portions of the people, the propagands of Socialist ideas and en the political presuization of the laboring class, and the furtherance of all means coinciding with the in-stinct of justice of the proletariat. Since class domination oppresses the projetating of all lands therefore its ningonism is an international task. The Hungarian Social Democracy therefore declares its party an international party and Teels Itself a part of oppressed of all lands and a er of their battles. This battle is not for the purpose of creating a new class domination or privileges, but to abolish all privileges and to place all mankind without regard to distinction of nation, race, creed or sex upon as equality."-International Socialist Re-

SOCIALISM IN JAPAN.

Exploitors' Journalistic Spokesmen Desizre the Workers Are Contented, While Exploiters' Official Tools Vie late the Law to Stille Expression of Ciscostant.

The following article from the "Japan Thues" of Tokyo is interesting as showing that, although the paper declares that "the mass of the people show as yet no sign of fundamental discontent," xet the Socialist movement is reaching such proportions as to give alarm to the political authori-tics. It is not in Japan only that the journalistic moutipieces of the exploit-ing class declare that the workers are contented at the vary moment when the official agents of the exploiters are adopting lawless measures to stiffe the

men" rays:
"The vigorous manner in which the police authorities recently presented the holding of a gigantic labor meeting organized by the 'Nirota Bilingu' has given rise to a considerable amount of journalistic criticism. Why the police took this apparently high-handed measure we do not know for certain, as no official explanation has been given. It is, however, suggested in more than one quarter that the police interfered with the 'Niroku'a' project because they, had, gueen to suspect the because they had gasen to suspect the promoters of the meeting of Socialistic nims. This suggestion has an air of probability is view of the preponder-nnes of avowed Socialists among those who were to speak at a lecture meeting which the disappointed projectors of the labor meeting proposed to hold afterward, and which was also suppressed by the police. If this explanation be trustworthy, we should think that the police were extremely li-ndvised in interfering with the carry-ing out of the "Niroku's" labor gather-ing and lecture meeting. If it was the Socialistic bugbear that frightened the police into the summary procedure in question, we are inclined to believe that their excited fancy conjured up a danger which had no substantial existence. Socialistic doctrines have, it is true, found a lodgment is a section of the educated class, and their votaries appear to be increasing in number and

importance, there occasionally find expression in the columns of the 'Eodo Sekal,' the 'Niroku,' the 'Yousu,' and a few offer organs, as well as from the 'You's and 'You's popular platform. With all this ap-parent practical vitality, we may unfe-ly state that Socialism is in this com-try still in the stage of academic distry still in the stage of academic dis-cussion and that the day when it will assume practical significance is as yet, if such a day is ever of come, in the freedman fitters. So the us the ma-of the people are concurred, they show as yet no sign of fundamental disson-tent with the present social order. This is so, not because they are less intuiti-gent then people of the same classe in the Occident, but because the condi-tions of life among us are such that there is little occasion for them to wish fee, any region change in the north constitution. Mappily or unkno-pity, according to the way in which the matter is looked at, the straggle for existence here has none of that sharp and unfeeling intuinity which is cal-culated to sagender in the Breasts of its unfortunate vections in the West-a

and sellen hostility to the pre

ment. Thousands of Socialists were driven out of their homes simply because they were Socialist. The collection of money for Socialist purposes was absolutely furbidden and all such tions of Jife, but amid all these money was subjected to commention. morey, was subjected to confinention. Changes the fundamental character-free leaders of the Socialists were photographed "and" these photographe placed in the rogues' gallery of criminals antil, as the ahove paper says, "Hungary is in overy way a land of constitutional freedom, but this freedom was only for the ruling classes." At the present time this persecution has set by any means enlicely occased. "At the present time this persecution has set by any means enlicely occased. "Mines -officials- oppress the Social Democrats as formerly, but when this is brought to the attention of the Minister of the Interior, he ordinarily corpopular agitations of a character in-imical to the public order and tran-quility. If anything tends to promote the growth of such dangers, it may possibly be, it is to be feared, cases of unnecessary official interference illie that under consideration."

KISHINEFF.

the most peaceful demonstrations for political liberty, pretends that it could not cope with the Kishineff rioters. This government, which in the strug-gié against all movements age free-dom, is prompt and merciless in its on-siaught, seemed paralyzed when it had to protect the life and prompts of the to protect the life and property of the

nor, von Ranban, who, no doubt, would know what to do with ordinary rioters, but who, it seems, fearing that he night not hit it this time, was afraiti to act on his own-responsibility, tele-graphed to St. Petarshurg for instructions. The answer came not fill Mon-day at 6 p. m. We do not know the unture of von Piehve's answer, lest the simple fact that he waited over twenty-four hours shows this be had no objection to the disorders: "The tower

but assisted in the assassimations.

"After the disturbances on diffusion proclamation was found, of the following tenor: "The police began to rob and now, being bribed by the Jewa, are arresting us." It hardly exaggantees the facts. It seems that the robberies were railly began by the police. * * *
The pensant Solovier, who took part in the wrecking, came to the police station and reported that he killed a Jew. He was put in a cell. He was found dead next morning. The police had to prevent him from testifying. This was all the more necessary because in their soul they went too far, and the higher authorities, for appearance sake at least, were forced to call them to account. After the disturbances a sourch in the homes of the captains and inspectors of police disclosed a large quantity of icol."
"It is self-evident that the painstak-

ing superior officials will do everything to conceal the traces of the crimes. This is assured by the fact that among the officers to whom the investigation is intrusted are some who themselves ook part in the robberie. The mockery of justice cannot go further.

."We repeat the government of the Ther, from top to bestom, from the Secretary of the Interior to the lowest detective in Kishineff, is stained with the blood of the victims. Everyone sees it and it is repeated even by the conservative press of Western Europe. No explanations of confinumentions by the government will enable it to concest this truth. No sophistry can take from it the moral responsibility for the organization of highway rebbery and complicity in rapine and murder.

"But why should it organize rob-bery? What benefit could it derive from complicity in robbery and murder? This is easily answered. The Tear's servants well know that the more our labor movement grows, the more our old institutions are shaken and the hearer the day of reckening for their numberiess crimes against the Russian people. With all their might they try to stave off the day of judgment. The struggle with the con-stantly growing labor movement has become to them a desperate struggle of self-preservation and they conduct it with ferocity and transhery worthy of the darkest days of the epoch of the Fall of Byzantium. There is no measnre so contemptible that they would not stoop to it in their defense. At first they tried to destroy the rising isbor organizations by smuggling in spies and agents provocateurs (they hoped to revive the practice of Degayer of Infamous memory). Then, seeing that this method does not bring the fruit expected by specialists of police corruption and Cuvinced that the self-consciousness of our working class continually increases and that the So-cialist movement threatens more and neure to become a movement of the masses, they made the attempt to at-tract the masses towards them by promises of economic concessions and slight support in their struggle with the capitalists. This was combined with and supplemented by an attempt to bring the lenders of the proletariat to despair and to force them into the path of terrorism, which frightens no-body. " "At host, when this attempt proved

as abortive as the efforts to found an influential independent party and thus arrest the progress of the Social Demreat the progress of the social Ac-morracy, the government of Nicholas the Foolish, plays its inst card: It tries do stille the fast ripeaing consciousness of the Russian presidential by poleoning it with the venom of racial hatred and religious fanatichem. The Russian gov-frament through its criminal action in the Kishened disorders virtually says to us Social Democrats: 'You wish to the Kinneser discrete victory and to waken the people, you strive to make it the trightest theory of beautiful future historical development. Verywell. You may arouse the masses, but know that their awakening will not be pleasant to you, remember that the masses are like a hiedthirsty wild beaut; and when that beaut is released from its chains it merclesely mangles all who surround it, making no difference between fruind or fee, the right or the wrong. You say to the masses: "Workingmen of all countries, united "But rackel butted will arise in their stifet and the Enseith workingmen will begin to fight his own countries provided by it of another one or creed. For while the masses. Look I would be seen the masses. Look I

THE SHAME OF THE GIVER.

A Park Row Meditation.

to hang your head in shame, not for any act of your own, but for some wrong-doing of a brother, a classmate, or a dear friend? It is a curious feeling, this of Yourious shame. It seems that loved him, as one has loved me, maybe some other weman has loved him, as one has loved him.

our saving virtues.

I feel it often. It isn't pleasant. Yet, speaking quite caimly and philosophically, I am giad I am capable of Perhaps I shall outgrow it. The Lord belp me then—or the Devil take me, which is more likely. I seldom refuse a nickel to anyone who asks me as I walk up Park Row.

No credit to me, mind you. I give the nickel for my own cales, not for the other fellow's. It does not afford me any great positive comfort to give the nickel. It saves me a little discom-

in a hundred it does no other good. I know that the majority of these Park and utterly lost wretches, liars, cowards, thieves, sneaks, drunkards, without manhood enough even to be successful thieves or courage enough to tell a lie with a good countenace. I know the nickel is most likely to go for very bad Fark Row whiskey.

avoid another discomfort, as some can,

it seems.

A horritile, galling, raging, bitter sense of shame always haunts me and spoils my appetite and my temper after one of these encounters. The giving of a million nickels would not free me from It.

It is unreasonable, is it not, that a man who generously gives up a little of his hard-carned wages to a less for-tunate wayfarer in life should get no

righteous pleasure out of it? Is it un-reasonable? No, I think not. Why am I ashamed? I have done no wrong. Nay, I have taken the infinitesimal chance of doing some good. Why am I ashamed?

I am ashamed because that other fel-low—that fellow who does not love me nor respect me nor even know mewhines so contemptibly for the sake of a possible nickel, because he thanks me with such slavish and unmeant

Did you ever have occasion, reader, I have become so despicable, should so

ing, this of vicarious shame. It seems is the loved bim, as one has loved me, unreasonable. Yet I think it is one of His boyes and muscles are bigger than mine and, far as I know, there is an much gray matter in his head. Ten to case, he has done more hard work of a neeful sort than I have. Yet here he is, my shwa, my dog, my beast of bur-den, my lying, cringing, fawning lick-spittle, if I will give him the price of a swallow of rought. And here am I, at the cost of a cigar, perhaps, his kind gentieman, his lord, his master, his noble benefactor, his anything that servility can imagine and mendacity utter.

And why? "Change places, and

hark back to a time when I had to ask aid from then I disliked, had to choose between self-respect and something dearer to me than life, something that money would save, and money could he got only by throwing self-respect to the winds. How little a change of circumstances—accidents, so far as I was concerned—and I would have gone so for very bad rara which will do the beggar more harm than good—if it be harm to help him on toward a pauper's grave. Nevertheless, I would feel uncomfortable if I refused the nickel, so I give it. No credit to ma, please.

The complete the place of the complete that the fellow should have been straiding here, proud, erect, covered, and I herekended and obsequiously bowing hefore him, shrinking and apologization. far into that stinking quagmire of

ing for my very existence.
That is why I am ashamed. That fellow cannot blush any more. So I must blush for him.

Mind you, it is no personal shame I feel, I have no penny that I have not carned. Lam not ashamed of my fortune, but of his mishap and his ruin. And I am doing my best to right things, too, so that none need cringe and none can play gentleman. I have never consented to this man's degradation, I am no accomplice nor acressory to the murder of his manhood.

And yet I am ashamed.

Yes, I am ashamed for him and of

him-him, my so disgusting kinsman. But much more am I schamed for and made him such a mean and useless thing when it might have made him times, glad squietimes with the painful blessings when he gets it—ashamed joy of combat, doing my part to make that a more or less distant kinsman and fellow creature of mine should that it may forever cease to deserve it. joy of combat, doing my part to make the rest of the family feel that shame,

after all partly, at least, brought on by

understand, and we would not deny

that in certain cases there may be some slight foundation for it. But that a government should have the effron-

tery to put it forward in its semi-offi-

courts to recognize even the debt as such, a refusal which would have for

mediately become an extinct as the dode. Why is this not done? The an-

swer is plain. It pays a modern class-government much better to allow an occasional riot or massacre, especially

the law of contract, the foundations on

which the capitalist system and its

Capitalist papers are now so loudly

singing the praises of workingmen

who live up to contracts that the work-

ingmen may reasonably be suspicious as to their motives, and their motives are ulterior. If they can make the

working class believe that contracts

are sacred and then get them bound up in contracts through fraud or in-timidation for a number of years the

capitalists can have peace of mind

enough to enjoy their watering places.

That is a part of the capitalist game although they don't observe contracts themselves, when they can get out of the obligation to their material advan-

tages. Like all capitalist morality this idea of the sacredness of contracts is for the working class alone. The capitalists do not have to make rules for themselves. They just do whatever is

We are too prone to think of the So-cialist movement as a political move-ment merely: we are inclined to meas-

to their material interests to do.

London Justice.

at its bloody deeds and acknowledge Our Exteemed

"This is what the Russian government says by its complicity in the Kishineff nurvers. We must confess that its reasoning is not devoid of force. It may seem all the more con-vincing that in the beginning of the in the beginning of the eighties Count ignaties succeeded in leading astray the fast increasing discontent of the people into anti-Semitic channels and thus crippling the revo-lutionary movement for years to come.

"It is incumbent on us Bocial Democrats to meet this plausible logic of the Kishineff outrages by the more convincing reasoning of revolutionary action. We must convince the govern-ment that times have changed and that it mistakes the temper of the Russian workingmen of to-day. Our party. thrist, must show that the government is mistaken if it hoped to corrupt the Russian working class by a policy of Jew-builting. Our party must arouse opposition to Jew-builting in the midst of the working class itself. It must with its own forces organize resistance

"How this is to be done depends, of course, on local conditions. Where our party is strong enough to be able, at the first provocation, to put severs ht the training the street, it should immediately suppress by force all attempts at anti-Semitic disorders. where its influence is not strong enough for that, it must diver the attention of the excited mob from the judges and direct it against the police type arranging demonstrations, attack, in the peasant and annalier uriam police quarters, etc. And in continuous and the police of the strong of Eastern Europe would improve the peasant and annalier uriam police of the ing police quartors, etc. And is con-ciusion, when even this will not suc-ceed, our committees should, at least, builty and devotedly oppose the mob-and defend the Jews and, in fact, all other races when attacked, shrinking neither before danger nor abuse. They must remember that in saving the atmust remember that in saving the a nexted they will save the honor of our party, the honor of the Russian prole-tariat, and the future of our move-"The government has played its last

card. It is for us to baffe it and cut off its last road to safety. The Social Democratic Party of Russia will do its ascred duty to the Russian working class, to the whole country. The eyes of the Social Democracy of the world are upon us."

SPECIAL NATIONAL ORGANIZING FUND.

The National Secretary, under date June 13, acknowledges the receipt of the following contributions to the Special National Organizing Fund during the preceding week: Local Portland, Mr., \$3; "H. H.," Beattle, Wash., 25c.; Burton E. Leevitt, Pulman, Conn., \$1; 11th Ward Branch, Local Cincinnati, O., \$2; Local Oakland, Cal., \$5; Local Seattle, Wash., \$2; Local Dixon, Cal., \$4.50; Local Del Mar, Cal., \$1; Local Washington, Cal., \$2; Local Washington, Cal., \$2; Local Washington, Cal., \$2; Local Washington, D. G., \$1.25; Bohemian Branch, 12th Ward, Chiongo, Ill., \$1.50; Local Brownsville, Pa., monthly contribution, \$1; Local The Dalles, Ore, \$3; Local The Dalles, Ore, \$3; Local Paranch, Local Los Angeles, Cal., \$4.25; Local Porterville, Cal., \$1; Local Denver, Colo., \$5; total for week, \$68.85; pseviessiy acknowledged, 11th Ward Branch, Local Cincinnati

ment merely: we are inclined to measure everything by the vote. To be perfectly frank, we have constimes felt that fer political gain the best and most vital principles and traditions of the interactional Socialist movement were being endangered. Teo frequently in these days we hear it urged that we must "Americanise" the move-

treating of points raised by recent cases in which suppleyers have recev-

ered damages from unions on account of strikes or bayestis; the question of the incurporation of unions will be discussed by the same writer in a later lastic. G. Weston Wrigley writes or The Possibilities of China," J. R. Macleonid on "Labor Politics in Great Britain," and Andrew M. Anderson contributes "Notes from Australia." Austin Lawis writes on "The Revolt of the Artist." The edit M. Simons, reviews or summarized an interesting recent work of Emile Vandervelde, "The Itural Exodus and the Return to the Fields." "The Three Crises of Marxism" is a valuable article translated from the "Neue ZHIL" The number also includes two poems by Edwin A. Brenholz, beside-

"Whoseever the Lord Loveth," a

ment: that we must adopt the ordi-

To such of our comrades we venture

to suggest that they do not lose sight of the fact that we differ, as a politi-cal party, from all other parties. With

cal party, from all other parties. With us political triumph counts for nothing

except as a means to an end-the build

ing up of a free comrade-life. Other parties, with their sordid view of polit-ical power, may resort to all kinds of

trickery in order to obtain votes: they have no cause to endanger. But for us it is otherwise. Unless our votes are the result of honest conviction on the

part of those from whom nothing of our purpose has been hidden, they will not help us very much. Socialism can never be brought about by the votes of dupes. And it is perhaps just as

well to remember that we are not a much concerned about "American ixing" Socialism as we are about So

callizing America. It is true that if we are to succeed at all we must reach the American people through their sympathies and all that is best an themselves. And we must in our pro-

paganda avail ourselves of all those virite qualities which predominate in what we call "the American Spirit." All the resourcefulness, energy, grit and chthusinsm of this great people

are needed in this movement to secure its triumph. To avail ourselves of them is our duty as it is our only hope. But in winning these for Socialism, we

but Socializing America

little sketch by Amy Wellington, strikes us as the best thing in the June "Comrade." It is not free from faults, of course; but it really tells a story and a true story and tells it without didactic comment or "moral." Brief and effective also is A. P. Firth's "Two Pictures," "Scientific Sentiment" is a remarkable article by Mila Tupper There is a common feeling that, horrible as such anti-Jewish risings as those of Kishined may be, they are Maynard, which we commend to the attention of those who find the strictly scientific view of things "souliess and the wicked Jews' neurious extortions on the unhappy native populations. That this feeling should exist we can uninapiring." This writer well ex-presses the joy of conscious comrade-ship in a movement that has the great laws of nature and of human evolution on its side. Robert Rives LaMoute contributes a sketch of Henry Lawson "The Australian Gorky," as he calls him, the Laurente of Labor at the Ancal organ, as the Russian government has just done, as a mort of palisition for the late atrocious crimes, is an imhas just done, as a for the late atrocions crimes, a nown for the late atrocions crimes, a nown for the late atrocions crimes, a nown for the late atrocions crimes, and nown skin governing authorities must very well know that many. Jewish or Christian, can be stamped out by other means than nurder and pillage which means than nurder and pillage which means the include the masses of tolling men are domaed to stumble and grope, from the occasion of the occasion we may infer the intent than we may infer the intent than we may infer the intent than the occasion. If it s'onal gleam we may infer the intent ill fur-on the free outlet. Comrade LaMonte offers were necessary or desirable still fur-ther to pensitic such contracts on the part of the would-be usurer this could easily be done by the refusal of the the some specimens of Lawson's reco lutionary verse, which are er sider one of the best benea of the "Comrade" that has yet appeared. In enumerating its valuable features we must not forget to mention the pages where, as in the recent Russian case, the authorities have other and special reasons of their own for encouraging it, than it does to risk weakening in the public mind the sense of the saccedness of private moments of the

The feature of "Wilshire's Magazine" for June is an elaborate treatment of the postoffice scandals in the light of Wilshire's own experience as a victim of the Pavne-Mailden gang. "Wilshire's Magazine," we may explain to new readers who may not be familiar with the facts, is published In Canada because Assistant Post in canada because Associate Post-master-General Madden, supported by his superiors (including Rooserett him-self, who was personally appealed to) refused its cutry as second-class matter in the United States mults. Wil-shire shows that recent disclosures conclusively support his charge, made in April, 1902, that the exclusion of his magazine was part of a systematic blackmalling scheme. He also states that at that time he laid all the faces before Mr. Henret and other New York daily newspaper man, but not one of these who are now howling for investi-gation and reform would say a word so long as it was only Secialist periodicals that were persecuted.

An add and attractive piece of book-An off and attractive piece of book-making is "Pictures of the Co-opera-tive Commonwealth." by C. L. Phifse of Rich Hill, Mo., author of the well known "Rocinitst Primer." The hook-led is well written and a careful analy-sis of the subject. It can be laid for 10 cents from the author.

Albi, France, established by the workingmen as a result of the Carmanz strike, has just published a report showing excellent success.

PARTY NOTES.

National Secretary Mailly has this cluring her last illness. During his ab-sence Assistant Secretary Clark car-gied on the work of the office.

The Secretary of Local Pottsville, Pa., in ordering a thousand of the party buttons from national headquar-ters, says: "They are the prefilest ors, says: "They are the pretties hings that ever came down the pike." Being distributed at cost, every local is enabled to supply its members with

In the "Social Democratic Herald" Comrade liebs pays an elequent tribute to his friend and ours, Frederick O.

The last number of the "Machinists Journs!" contains several able articles on Socialism. We note one by May Wood Nimons on "How Socialism Would Affect Children," in reply to an nttack on Socialism in an earlier issue, as well as another reply by Max Grass, and also a controversial article by A.

A comrade in Bangor, Me., writes ies of "Laber Politics and Se cialist Politics," to be used as "medi-cine" for the local trade unionists who, he says, are "way behind the times." Nothing like Socialist literature on top of lockents and injunctions to wake them up. The capitalists will see to it that they get plenty of the lockents and injunctions; the comrades must attend to the other half of the prescrip

Socialists and trade unionists of Barre, Vt., joined in a memorial mass meeting in bonor of the late Frederick O. MacCartney, John Anderson of al Barre, Socialist Party, presided and James Cruisshank, President of the Granite Cutters, Ben. F. Healey, President of the Central Labor Union Timothy ivers of the Querrymen's Union, and Philip J. Halvona on bealf of the Socialist Party spoke on the life and work of Comrade Macolutions were adopted

City Organiser Geo. G. Cutting of Boston has got up a very good mailing card for use in organization work. Or ganizers of locals or branches who would like to get the auggestion will on request addressed to him at 7 Gold-smith Place.

Local Worcester, Mass., held a most-Abbott spoke feelingly and wall.

The following sums have been re-ceived for the Connecticut State Or-ganization Fund up to June 14: Local Meriden, \$5; Louis Mans, collected es List 1,082, \$2.70; B. E. Leauftt, \$1; Wm. Lofstedt, collected, \$1.90; W. .40. White, \$5; E. S. T. Southington, \$5; E. L. P., Plantsville, \$3; Louis Maan, New Haven, List 126, \$2.60; total, \$26.20. The State Committee now has about \$75 cash on hand and is pre-pared to begin the summer agitation as soon as Comrade Brown has completed his work in New Hampshire It is important at this time that all unhers pay up their dues promptly

at Five Corners, Newark and Summit avenues, Wednesday, June 24, at 8:15 p. m. Frederick Krafft will speak.

W. L. Oswaid of Arlington, N. J., starts on Naturilay, June 20, on an agitation tour under the direction of the State Committee. His dates are as follows: June 20, Camden; June 21. Rosenhayn: June 22, Vineland: June 23. Miliville; June 24, Polsom; June 23, Atlantic City; June 20, Newfield; June 27. Point Pleasant; June 28, Manasquan; June 29, Long Branch; June 80, Newton; July 1. Sussex County; July 2. Port Morris; July 2. Wharton; July 3. Dover. The parts of the state to be covered constitute a fertile field for the cialist movement, in which very the beginning of a systematic agita-Tion and will help in the building up of strong locals in these regions.

"This man is not a Socialist yet, but is looking in that direction. Comrade Wilson of Ridgefield Park. N. J., in sending in a new subscription, and I fancy The Worker will help him as it has belp thousands of voters into the light." That's what we are trying to do, first, last, and all the

Howard H. Caldwell is now touring Ohio. His dates for the next week are: June 18 and 19, Akron; June 20, Wadsworth; June 22 and 23, Cunton; June 24, Massillon; June 25, Burton City. All these are for open-air meet-

Comrade Spanier of Toledo writer that Mrs. O'Hare spoke on Socialism before Local 105, International Asso-ciation of Machinists, in that city with great effect and "received a tremen-flous ovation." Mayor Jones was in the audience and was moved to make a talk about brotherly love and har-mony. He wouldn't tight anyone, he But everyone in Toledo knows thy what political methods he has fought for office and influence, and "Golden Rule" talk is getting to be a drug in the market. The Socialist Party local is keeping steadily at edu-cational propaganda work and is gain-ing ground all the time.

The proceedings of the Ohio State Convention will be issued in pamphlet form and sold at ten cent a copy. At reports, resolutions, and other matter which came before the convention for will be included and the pamph let will be calculate for reference purposes.—Eighteen amendments to the state constitution of the party have been submitted for a referendum net tours for speakers have turned

the amount of \$2 and board for the speaker. This will secure one of the ablest speakers in the movement, the if any accrues. Many of the towns where no regular organization exists are taking advantage of this, and all such are welcomed. More speakers will be toured in Ohio during this fall's campaign than in any previous year. Three times the amount of literature Three times the amount of literature is being prepared and a Socialist state paper will be issued from Dayton before August 1, which will be known as the "Ohlo Socialist." Three are come of the indications of the growth of the movement in Ohlo, and it is eafer to say that the vote will grow accordingly. The entire mevement is now taking on a five, energetic aspect and the work of placing liberature in the the work of placing literature in the hands of old-party voters and the holding of agitation meetings is being pushed at a surprising rate indeed.

ranging a Westurn tour for Father McGrady. He is expected to start in Montana and go through Washington, Oregon, California, Arisona; and Colorados. Many places have already applied for lectures. Father Kress, of Cloveland, who has been attacking the montand champton of both Method work and character of both Father McGrady and Father Hagerty, has been challenged to meet either on the pera canneage to meet after a the platform and prove his assertions of forever hold his peace. This is the same Father Kress that bitterly maligned Father McGrady while lecturing in Sandesky, and when called to task for R and asked to meet McLandest McLand tirndy promptly retused. It is safe to say that he will refuse again, though the comrades hope some sort of ar-rangements can be made whereby they could be got together for a joint de-late. Father Hagerty will lecture at Birmingham, Ala., June 19-20; Meoett, Mo., June 23; Sloux City, Iowa, June 25; Ryan, June 27; Win June 20; Lindstrom, June 30; Hibbing

National Lecturer John W. Slayton will close the present engagement at Michigan City, Ind., June 23. His work at New Castle will require his presence for some time to some, after which he hones to be able to take up the lecture work under the national office again. Many letters of commoudation have been received at national headquarters endorning the work of the speakers who are working under its direction. Secretary Nick of Local Columbus, O., says: "The Golumbus comrades wish to extend to you their heartfelt thanks for sending them such an able speaks as J. W. Slayton proved to be. delegates to the state convention pleased with his clear exposition The class-conscious Socialism. I think perually that Courade Slayton is one of the best speakers on the platform Keep him on the road."

State Secretary Menton of Michigan writes that the O'Hares were greeted with hearty applause when they spoke at the picale of the Filmt Socialists on

Comrade Gee, E. Bigelow began his

work in Michigan at Pentwater on May 20 and has been having success ful meetings; he has decided to extend his time there a month, or until August 1. The O'Hares are having splendid meetings and arousing much enthu slusm: Mrs. O'Hare has occupied sevcral pulpits at the invitation of the justors; they are also to be in Michl-gan until August 1. Comrade Simonton has been at it since June 1. Com rade Coulter is routed across the state from Traverse City to Saginaw, and O. P. Hard of Texas is doing pioneer work in the western part of the state. P. J. Cooney of Montana starts in at Detroit on June 21; Wm. E. Waiters leaves the stove factory in Detroit to put in all summer and fall on the circuits, while Clark and McFarlan of Flint start a wagon trip on June 29. There are thus six speakers at work at present in Michigan, and the numb present in arcengal, and the first week will be increased to ten the first week in July. "It is surprising," writes Or-ganiser Lamb, "how the Socialists are coming out of their boles and helping to boom things in the old state. We now have a great many more stations than the spankers we have at present can take care of. Battle Creek alone can keep a man busy every day. But the State Organizer wants to hear from every point that can furnish a seap-box, a street corner, a day's en-tertainment, and a very little cash for the agitator that is headed that way." Address C. J. Lamb, State Organiser,

One or more sample copies of this be sent to each of the committee it charge of the Michigan "soap-box cam charge of the Michigan "some-row cases" paign," who are requested to read them and pass them on to friends and neighbors, and naturally we shall be gratified if they hustle in a few new call Democrats, proceeded, the look of all Democrats, proceeded, the look of the loo

The work of National Lecturer John C. Chase has been so hampered by the floods that we have no report for this week. State Secretary Dial of Kentucky is arranging a tour for him in that state, but the details of the trip

National Organizer John M. Ray ha been introduced to the methods the Democratic party uses to maintain the "Solid South." He was not permitted "Solid South." He was not permitted to speak on the streets of Atlanta, Ga., Saturday, June 6. A commade writes to national hendquarters that the Salvationists and "Holiness" people block the streets and howl to their hearts' content, but a Socialist is not allowed to make a decent address to working-men an the attreet corners. The offiname a sevent minima to worthg-men an the street corners. The offi-cers were frank and told Comrade Ray that political meetings would not be held on the streets without a permit fram the Calef of Polica. And that disting toferred the matter to the Mayer and Council, which could not be seen until Monday. The comrades will increase their organization and them

Comrado Cunningham of Wichitz Man, get held of The Worker for the first time a week ago and says he would like us to have a large list of anherribers in that vicinity and pro poses to help us get them.

cisco writes that the movement there is getting into good shape again after The local new has nearly four hundred and fifty members in good standing and is still gaining, although the active fusionists have withdraws. The inter are using somewhat curious method Some of them, after resigning fro Some of them, after resigning from Local Sun Francisco organized what they called Local Sun Mareo County (Sun Mateo being an adjoining county), although they all live in the city. The question of the recognition of this accommission for action. They the state organization for action. They also run weakly public meetings under the name of a Labor Lycoum and many persons join them and pay their quarter for the first mouth's dues un der the impression that they are join ing the San Francisco organization of the Socialist Party. This sort of policy defeats itself in the end, however the straight party organization, follow-ing open and homest tactics has noth-ing to fear.

work and gathered some subscriptions I have been a subscriber for The Worker for a year and must say it is on of the best Socialist papers I ever read in the English language." So write Comrade Sattler of San Francisco, and a money order paying for nine yearly

Open-rir meetings will be held flat-urday evening, June 20, an follows un-der the direction of the Murray Hall Agitation Committee: At N. E. cerner Thirty-second street and Third ave-nue, with Mullen presiding and Paniitsch Abrahama Searing, and Roews ns speakers; at S. E. corner Forty-sec and street and Third avenue, Cooper presiding and Abrahams, Searing Paniitsch, and Mayes as speakers; a S. E. curner Fifty-seventh street and Third avenue, Goldbarth presiding and Mayes, Boower, Abrahams, Searing, and Paulituch as speakers.

Ones-air mestings will be held a: ollows next week on the West Hide fonday, June 22, 17th A. D. (circle Fifty-ninth street and Eighth avenue Wood and L. D. Mayes, speakers; Tuesday, June 28, 19th A. D., Sixty-laird street and Teeth avesue, Wood and Cassidy; Wednesday, June 24, 7th A. D., S. W. cerner Sixteenth street and Righth avesue, Wood and Goldstein: Thursday, June 25, 9th A. I., N. W. corner Twenty-seventh street and Eighth avenue, Wood and Abrahams; Friday, June 26, 11th A. D., 8 W. corner Thirty-fifth street as: Righth aware, Searing and Sackin Saturday, June 27, 13th A. D., S. W. corner Thirty-ninth street and Eighti avenue, Wood and Abrahama; Tues day, Jene 23, 25th A. D., N. W. corne Twenty-fifth street and Seventh avenue, Butscher and Roswer; Wednes day, June 24, 5th A. D., Clarkson and Varick streets, Reichenthal and Nichol son; Thursday, June 25, 15th A. D., S. W. corner Fiftieth stret and Touth avenue, Furman and Phillips.

On Saturday, June 20, will be beld n guneral meeting of Social Democratic voters of the 20th, 28th, 30th, 32d, and 33d A. D. in the W. E. A. Clubhouse 206 E. Eighty-aixth street. Good speak ers will address the meeting in regard to the party work that must be done in preparation for the coming election

Comrade Spargo presided at the las T. At list from the S. C. P. A. for the relief of a comrade in distress wa signed by all present, the amount contributed being \$4.95. Lichtschein resigned as Secretary and K. Edelman was elected as Secretary pro tem. Beports were received fr the Forkville Agitation Committee. General Committee, and the Globe Conference. Organization of election districts was discussed and a considerable amount of routine business done

A number of Yorkville comrades at tended the public meeting in the University Settlement House in East Seventy-sixth street last Thursday evening, where Everett P. Wheeler, well known attorney, spoke on trade unionism and the relations of Capital and Labor. Mr. Wheeler made a typical Civic Federationist talk. When an opportunity was given for general dis-cussion. Comrade Phillips took the floor and made short work of a great many beautiful phrases about harmony patronizing condescension on Mr. Wheeler's face gradually changed to the sickly smile of a man who "winks he hada't done it." but tries to concess the fact. A good many people went away with clearer ideas on the class

struggle than they ever had before Comrade Herbert presided at the last meeting of the Young People's Social Democratic Club of Yorkville, in the Clubhouse, 208 E. Eighty-sixth street Clubhouss, 206 E. Eighty-sixth street. Miss Lena Miller was admitted to membership. The committee elected te investigate charges against Comto investigate charges against com-rade Haffman reported that he is a member of a cadet school and not of a United States military organization, as charged; the charges were there-fore drepped. The delegate to the Yorkville Agitation Committee report-ed that that body has decided to send ed that that body has decided to send a committee to the progressive organi-zations of Torkville in behalf of the Club. It was decided to discuss the following question at sent Thursday's preciting: "What would Socialists de-if they elected a president to-morrow?"

2"st A. D.-No. 875 Gleumore ave-By order of the Kings County Com-

mittee, Social Democratic Party of the state of New York. WARREN ATKINSON. Organizer.

KINGS COUNTY COMMITTEE.

At the meeting of the Kings County committee held on June 13 a delegate from a Finnish Socialist society Brooklyn was present to ascertain if this society could join the Social Democratic Party as a separate body. as they believe they can do more ef fective work among their countrymen than if their society were to split up and join the various party branches. It was decided that this society be organised as a Finnish-speaking branch and that it become affiliated with the party with representation on the County Committee...The delagate was requested to convey this information to his society and to report at the next meeting of the County Committee. June 28 was decided upon for the holding of the primaries in all districts

in Brooklyn.

As many of the branches have failed to pay their share of the expense of the party calendar those branches which desire to publish it bereafter must do so themselves. Hereafter the County Committee will advertise only

tis own meetings.

The County Committee having purchased a share in the Workingmen's Co-operative Publishing Association, Comrade Koenig was elected to represout the committee on that body. was moved and carried that the King County Committee is opposed to any further referendum on the question of national headquarters or Local Qou-

AUSTATION COMMITTEE.

The 18th, 20th, 22d and 24th A. D. (the latter being two branches have joined to form the Murray Hill Agita-tion Committee. At the first meeting a sum sufficient to pay the first month's rent for hendquarters was month's rent for hendquarters was raised by a collection aming detegates and interested comrades. The place finally selected is at 241 E. Forty-sec-ond street, third floor. It was decided to hold regular weekly outdoor meet-ing throughout the district from now till Election Day, Comrades of the ami-lated districts should do their best to meet the organization of a good work. put the organization on a good working basis as soon as possible. The Sec-retary of the Committee is John J. Lents of SiS Second avenue; Treas-urer, T. Melzer; Organizer, C. Clussen, 242 E. Forty-second street. The Committee meets every Wednesday at 8

LOCAL NEW YORK-

Subdivisions of Local New York are called upon to elect delegates to the General Committee for the term beginning July 11. W. J. F. HANNEMANN,

p. 131.

SAN FRANCISCO PROTESTS. Local San Francisco, Cal., asks us to publish the following self-explana

tory resolutions; "Whereas, In State Secretary Hel-

is quick train, participation, fenstein's report published in the Los Angeles 'Socialist' of June 6 the following statement occurs: Local San Francisco has expelled sixty or more S. E. C. shall immediately be notified of every auspension, removal or recall'

Whereas, The statement has no foundation in fact, but, on the con trary, is absolutely and maliciously false, as Local Sau Francisco has no expelled one member, but, according to records, ten members resigned their membership in Local San Francisco;

"Resolved, That Local San Francisco denounces this statement as injurious, slandcrous, and detrimental to the interests of the Socialist Party; and be

dust by may succhanical, accidental turn of events. It can only win as it knows itself a class with common init further "Resolved, That a copy of this resolution be sent to the Plate Committee and to The Worker, the Chicago Socialist," the Sentile "Socialist," California "Secialist," and Los Angeles "Socialist," the Sentile "Socialist," and Los Angeles "S terests; a common cause, common weapons, a common destiny. All the forces of economic development unite in teaching this lesson, so that it is let." As the State Secretary has published the slanderous statements in his report. Local Saw Francisco demands that this resolution be published in his next report." cound to be learned rapidly, but there is no victory without this mighty concioneness of solidarity.

Thus it is that class-concioneness somes as a glorious calmination in the strengthening moral floress with the

strengthening moral forces which first made humanity human and then half each part into an ever wider self-head.—Mile Tupper Maymrd in the Gentrale for June. "If you have an extra copy of The Worker please pass it on to a neighbor or stopports with the request that he give it a conditionaling.

WHE WILL DO YOUR LAUNDRY WORK!

X. L. LAUNDRY, SUSTAV LEIST,

votes have done for Labor-the story of a very unprofitable business.

Labor's votes have elected legislators who refused to pass laws favorable to Labor, but insisted upon pass ing laws against Labor's interest Every law against Labor ever placed upon our statute books came from the votes of Labor itself.

Labor's votes have elected govern and mayors who at every opportunity have used all their powers to crush Labor and defeat its interests. When strikers are bindgeoued by police, or abot down by militia or Federal troops, Labor's votes are responsible.

Labor's votes have made judges who wis with each other to harm Labor and destroy its defenses. They have decinred every law which might help Labor to be "unconstitutional." They have granted injunctions by the hundred to defeat Labor in its struggle against Capital. Every judicial de-cision hostile to Labor is really written by Labor's votes.

Lathor were true to itself—have you ever thought of that? If Lathor were loyal to itself its votes ould elect to every office from that of he Chief Executive to that of the liberty and improved conditions

Its votes could wipe off from the statute books every law unfavorable to

books laws for its own protection and the protection of the baves porn and unborn and could ensure their easily sparge, in the iteading Sentinel.

This is the true story of what Labor's | forcement by giving the nower into friendly hands.

friendly hands.

Its votes could throw open the gates of the inctories and send the little child slaves out into the sunlight to live and thrive instead of slowly die gnd pine as now they do, And the lit-tle breaker boys, bent and aged with toll already, could be freed at a stroke if voting Labor knew its own power-

and was soys to them.

Its votes could throw open the sweatshop hells, and free its pent-up victims, weak, hollow-eyed, haggard men
and women, and bid them enter upon.

could free every man and every woman from the carking care of pov-erty—the dread of want in the closing

chains of commercialism which bind it; it could take the mighty trusts into its own hands and say to the few who now own them: "I will not be crushed down by this creature of my own mak-

which it might wield against them in its fight for justice.

That is the story in a few words of this very unprofitable business. Don't you think Labor might do well to change over and vote for itself?

And what Labor's votes might do to Labor's votes.

And what Labor's votes might do to Labor's votes.

gifted writer, can measure the power pdicated by these words. So powerful for evil or good are the votes of Labor that the shame or glory of the world must rest upon them. All the Industrial wrong and servitude of the

rousness and peace.

When Labor so decides it will end by its votes, the whole hideous sys-tem of capitalism and build in its place the new earth of economic justice and moral heauty—the Socialist Commonwealth of Brotherhood and joy .- John

main away more than a single night or a day at the most.

A very large portion of the state is not organized. In much of this terrinot been preached. While it is well to put our own houses in order, we must not forget that we are our broth er's keeper, and hearing the cry for enlightenment and assistance, we must go over and help him. Fortify your post, by all means; but don't neglect

to forage in the enemys territory. If the territory adjacent to you is uncultivated, tell us about it and let us have your name and address and that of any comrade who, will help you on a one night or day exploring

Socialist and a soap-box in every town in every county in the state. This desire of your State Committee is pos-

Socialists of New Jersey, soldiers of the army of the New Time, the war has begun; every gale brings to our ears the clash of resounding arms. We want no truce and can only secure peace by an overwhelming victory at the ballot-box. To secure this we must agitate, educate and organize. Every man who can utter half a

dozen class-conscious sentences is called to the colors. Who will volum night, let us hear from you. H. R. KEARNS,

PARTY WORK IN

PENNSYLVANIA to-day's meeting of the 8tate Committee, Comrade Weiser presiding, a charter was granted to a new local at 8tewart, Westmoreland County, Communications were read from Locals, Lansford, Brownsville, Williamsport, Good-will Hill, Scranton, Ashund, Spring Forge, Hauto, Reading, Bradford, Pottsville, Pittsburg, Sellersville, York, Wilkes-Barre, and Pottstown.

The splendid showing and the satisfactory work done at the state con vention seem to have inspired the comand to co-operate in securing such maker."

An active member of Local Olean is land reports that they are progressing E. L. Nicholson, once a Populist editor, well, and expect before long to enroll former organizer of the A. R. U., and a large membership. The comrades in well, and expect before long to euroli Charlerol have had a number of suc Gonziou spoke in Coal Center on June to a splendid audience and sold a large quantity of literature. On Sun-day afternoon, June 7, a meeting was held at Dunlevy with Comrades Goaziou and Caldwell as the speak-
